Currency Presentation and Currency Translation

Unless otherwise indicated, all references to "dollars," "$," "U.S. $" or "U.S. dollars" are to the lawful currency of the United States. All references in this annual report to "euro" or "€" are to the currency introduced at the start of the third stage of the European Economic and Monetary Union pursuant to the Treaty establishing the European Community, as amended. We prepare our financial statements in U.S. dollars.

The functional currency for our operations is the euro. With respect to our financial statements, the translation from the euro to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income.

Where in this report we refer to amounts in euros, we have for your convenience also in certain cases provided a conversion of those amounts to U.S. Dollars in parentheses. Where the numbers refer to a specific balance sheet account date or financial statement account period, we have used the exchange rate that was used to perform the conversions in connection with the applicable financial statement. In all other instances, unless otherwise indicated, the conversions have been made using the noon buying rate of €1.00 to U.S. $1.3779 in The City of New York for cable transfers of euro as certified for customs purposes by the Federal Reserve Bank of New York as of December 31, 2013.

The conversions provided in this report should not be construed as representations that the euro amounts actually represent U.S. Dollar amounts or could be converted into U.S. Dollars at the rates indicated.

Item 1.01 Entry into a Material Definitive Agreement.

Acquisition Agreement

On December 17, 2014, Pieris, Pieris Operating and the former stockholders of Pieris Operating entered into an Acquisition Agreement, or the Acquisition Agreement. Pursuant to the Acquisition Agreement, the stockholders of Pieris Operating contributed all of their equity interests in Pieris Operating to Pieris for shares of Pieris common stock, which resulted in Pieris Operating becoming a wholly owned subsidiary of Pieris, which we refer to as the Acquisition. The Acquisition closed on December 17, 2014 promptly following the execution of the Acquisition Agreement. Reference is made to the descriptions of the Acquisition and the Acquisition Agreement included in Item 2.01 of this Current Report on Form 8-K, which disclosure is incorporated herein by reference. The description of the Acquisition Agreement set forth in this report is qualified in its entirety by reference to the full text of that document, which is attached hereto as Exhibit 2.1 and is incorporated herein by reference.

In connection with the Acquisition and pursuant to the Split-Off Agreement, as defined below, Pieris transferred its pre-Acquisition assets and liabilities to its former majority stockholder, Aleksandrs Sviks, in exchange for the surrender by him and cancellation of 11,363,635 shares of Pieris common stock, or the Split-Off. Reference is made to the descriptions of the Split-Off and the Split-Off Agreement included in Item 2.01 of this Current Report on Form 8-K, which disclosure is incorporated herein by reference. The description of the Split-Off Agreement set forth in this report is qualified in its entirety by reference to the full text of that document, which is attached hereto as Exhibit 10.33 and is incorporated herein by reference.

Indemnification Agreements

On December 15, 2014, the Pieris Board of Directors approved a form of indemnification agreement to be entered into between us and our directors and executive officers. Immediately following the closing of the Acquisition on December 17, 2014, we entered into indemnification agreements in the form approved by our Board of Directors with each of the following newly appointed executive officers and directors: Stephen S. Yoder, Chau Khuong, Dr. Christina Takke, Michael Richman, and Steven Prelack. For information about our indemnification agreements, see the disclosure under the heading “Indemnification of Directors and Officers” included in Item 2.01 of this Current Report on Form 8-K, which disclosure is incorporated herein by reference. The foregoing is only a brief description of the indemnification agreement, does not purport to be a complete description of the rights and obligations of the parties thereunder and is qualified in its entirety by reference to the form of indemnification agreement filed as Exhibit 10.10 to this Current Report on Form 8-K and incorporated herein by reference.

Item 2.01 Completion of Acquisition or Disposition of Assets.

The Acquisition

The Acquisition closed on December 17, 2014 promptly following the execution of the Acquisition Agreement.

On December 5, 2014, Pieris completed a 2.272727-for-1 forward split of its common stock in the form of a share dividend, with the result that 6,100,000 shares of common stock outstanding immediately prior to the stock split became 13,863,635 shares of common stock outstanding immediately thereafter. Effective as of December 16, 2014, prior to the closing of the Acquisition, Pieris

amended and restated its Articles of Incorporation to, among other things, change its name from Marika Inc. to "Pieris Pharmaceuticals, Inc.," and increase its authorized capital stock from 75,000,000 shares of common stock, par value $0.001 per share, to 300,000,000 shares of common stock, par value $0.001 per share, and 10,000,000 shares of "blank check" preferred stock, par value $0.001 per share. On December 17, 2014, Pieris transferred its pre-Acquisition assets and liabilities to its former majority stockholder, Aleksandrs Sviks, in exchange for the surrender by him and cancellation of 11,363,635 shares of Pieris common stock. All share and per share numbers in this report relating to our shares of common stock have been adjusted to give effect to the stock split unless otherwise stated.

At the closing of the Acquisition and pursuant to the terms of the Acquisition Agreement, Pieris issued an aggregate of 20,000,000 shares of its common stock to the former stockholders of Pieris Operating in exchange for all of the outstanding shares of Pieris Operating's capital stock. The number of shares of Pieris common stock issued in the Acquisition was negotiated and agreed to by Pieris, Pieris Operating and the former stockholders of Pieris Operating prior to entering into the Acquisition Agreement. Upon the closing of the Acquisition, Pieris Operating became a wholly owned subsidiary of Pieris, and the former stockholders of Pieris Operating became the owners of approximately 89% of the outstanding shares of Pieris' common stock.

The Acquisition Agreement includes customary representations, warranties and covenants made by Pieris and Pieris Operating as of specific dates. The assertions embodied in those representations and warranties were made solely for purposes of the Acquisition Agreement and are not intended to provide factual, business or financial information about Pieris, Pieris Operating or the Combined Company. Moreover, those representations and warranties were made solely for the benefit of the parties to the Acquisition Agreement, and some or all of them (i) may not be accurate or complete as of any specified date, (ii) may be subject to a contractual standard of materiality different from those generally applicable to stockholders or different from what a stockholder might view as material, and/or (iii) may have been qualified by certain disclosures of Pieris or Pieris Operating not reflected in the Acquisition Agreement. The description of the Acquisition Agreement set forth in this report does not purport to be complete and is qualified in its entirety by reference to the full text of that document. A copy of the Acquisition Agreement is attached to this Current Report on Form 8-K as Exhibit 2.1 and is incorporated herein by reference.

The Split-Off

Upon the closing of the Acquisition, under the terms of the Split-Off Agreement, dated December 17, 2014 among Pieris, Marika Enterprises Inc. and Aleksandrs Sviks, or the Split-Off Agreement, and a general release agreement, Pieris transferred all of its pre-Acquisition operating assets and liabilities to its wholly-owned special-purpose subsidiary, Marika Enterprises Inc., a Nevada corporation, or the Split-Off Subsidiary, formed on December 15, 2014. Thereafter, pursuant to the Split-Off Agreement, Pieris transferred all of the outstanding shares of capital stock of Split-Off Subsidiary to Aleksandrs Sviks, the pre-Acquisition majority stockholder of Pieris, and the former sole officer and director of Pieris, in consideration of and in exchange for (i) the surrender and cancellation of an aggregate of 11,363,635 shares of Pieris common stock held by Mr. Sviks (which were cancelled and will resume the status of authorized but unissued shares of Pieris common stock) and (ii) certain representations, covenants and indemnities. Under the terms of a General Release Agreement, dated December 17, 2014, among Pieris, Split-Off Subsidiary and Aleksandrs Sviks, Split-Off Subsidiary and Mr. Sviks agreed to a general release of all claims and liabilities of Pieris and Pieris Operating, as well as certain other customary covenants. The description of the Split-Off Agreement and the General Release Agreement set forth in this report does not purport to be complete and is qualified in its entirety by reference to the full text of those documents. A copy of the Split-Off Agreement and General Release Agreement are attached to this Current Report on Form 8-K as Exhibit 10.33 and 10.34, respectively, and are incorporated herein by reference.

Post-Acquisition Ownership of Pieris

As of immediately after the closing of the Acquisition and the Split-Off, our securities (on a fully diluted basis) are owned as follows:

- Former holders of Pieris Operating's capital stock hold an aggregate of 20,000,000 shares of our common stock, or approximately 78% on a fully diluted basis;
- Holders of our common stock prior to the closing of the Acquisition hold an aggregate of 2,500,000 shares of our common stock, or approximately 10% on a fully diluted basis; and
- 3,200,000 shares of our common stock are reserved for issuance under the 2014 Employee, Director and Consultant Equity Incentive Plan of Pieris Pharmaceuticals, Inc., or the Pieris Plan, representing approximately 12% on a fully diluted basis. As of the date hereof, options to purchase 2,519,500 shares of our common stock have been issued under the Pieris Plan to our executive officers, directors, employees and consultants. For additional information, see "Executive Compensation—Director Compensation" and "Executive Compensation—Description of the Pieris Plan." As a result of such grants, 680,500 shares of our common stock are available for future issuances under the Pieris Plan.

Accounting Treatment of the Acquisition

The Acquisition is being accounted for as a reverse-merger and recapitalization. Pieris Operating is the acquirer for financial reporting purposes and Pieris is the acquired company. Consequently, the assets and liabilities and the operations that will be reflected in the historical financial statements prior to the Acquisition will be those of Pieris Operating and will be recorded at the historical cost basis of Pieris Operating, and the consolidated financial statements after completion of the Acquisition will include the assets and liabilities and results of operations of Pieris Operating up to the day prior to the closing of the Acquisition and the assets and liabilities and results of operations of the Combined Company from and after the closing date of the Acquisition.

Smaller Reporting Company

Following the Acquisition, the Combined Company continues to be a "smaller reporting company," as defined in Item 10(f)(1) of Regulation S-K, as promulgated by the Securities and Exchange Commission, or the SEC.

Background of Pieris; Form 10 Requirements

Pieris was incorporated on May 24, 2013 in Nevada with the name "Marika Inc." Prior to the Acquisition, Pieris pursued a business of an errand concierge service online marketplace. Upon the closing of the Acquisition and the Split-Off, Pieris discontinued its pre-Acquisition business plans and is now pursuing the business of Pieris Operating.

Pieris filed a registration statement on Form S-1 (File No. 333-190728) that was declared effective by the SEC on January 28, 2014, and sold an aggregate of 2,500,000 shares of its common stock (on a post forward stock split basis) under that registration statement.

Prior to the closing of the Acquisition, Pieris was a "shell company," as such term is defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended, or the Exchange Act. Accordingly, pursuant to the requirements of Item 2.01(f) and Item 5.01(a)(8) of Form 8-K, this Item 2.01 sets forth the information that would be required if the Combined Company were filing a general form for registration of a class of securities on Form 10 under the Exchange Act, with such information reflecting the Combined Company and its securities upon completion of the Acquisition. Following the Acquisition, Pieris is a holding company, without any operations or employees, and the sole stockholder of Pieris Operating. Solely for purposes of filings with the SEC, the principal contact for Pieris shall be at the principal executive office of Pieris Operating, located at Lise-Meitner-Strasse 30 85354 Freising-Weihenstephan, Germany, or under the telephone number +49 81 6114 11400.

BUSINESS

Overview

We are a clinical stage biopharmaceutical company dedicated to the discovery and development of our Anticalin® class of biotherapeutics for patients with diseases in which we believe there is high unmet medical need. Anticalin proteins are a class of low molecular-weight therapeutic proteins derived from lipocalins, which are naturally occurring low-molecular weight human proteins typically found in blood plasma and other bodily fluids.

Anticalin®-branded proteins function similarly to monoclonal antibodies, or mAbs, by binding tightly and specifically to a diverse range of targets. An antibody is a large protein used by the immune system that recognizes a unique part of a foreign target molecule, called an antigen. We believe Anticalin proteins possess numerous advantages over antibodies in certain applications. For example, Anticalin proteins are small in size and are monomeric, meaning single protein units rather than a multi-protein complex. Therefore, we believe Anticalins are generally more stable biophysically than tetrameric monoclonal antibodies, composed of four protein subunits, potentially enabling unique routes of drug administration such as pulmonary delivery. Higher-molecular-weight entities such as antibodies are often too large to be delivered effectively through these methods. In addition, Anticalin proteins are monovalent in structure, which means they bind to a single cell surface receptor and which may avoid the risk of cross-linking of cell surface receptors where such receptors are a therapeutic target. Antibody-mediated cross-linking can occur when each of the two "arms" of an antibody binds to a cell surface receptor and brings these receptors into close proximity, which can lead to aggressive cell growth that is characteristic of cancer. While our basic Anticalin proteins have only a single binding site and are not subject to such cross-linking, our Anticalin-branded technology is also modular, which allows us to design Anticalin proteins to bind with specificity to multiple targets at the same time. This multispecificity offers advantages in biological settings where binding to multiple targets can enhance the ability of a drug to achieve its desired effects, such as killing cancer cells. Moreover, unlike antibodies, the pharmacokinetic, or PK, profile of Anticalin proteins can be adjusted to potentially enable program-specific optimal drug exposure. Such differentiating characteristics suggest that Anticalin proteins have the potential, in certain cases, to become first-in-class drugs.

We have access to intellectual property rights directed to various aspects of our Anticalin® technology platform, allowing for development and advancement of our platform and drug candidates. We believe our ownership and/or license of our Anticalin platform provides us with a strong intellectual property position, particularly where we are seeking to address targets and diseases in a novel way and for which there is existing monoclonal antibody intellectual property.

We believe that the drug-like properties of the Anticalin® drug class were demonstrated in a Phase Ib clinical trial in solid tumor patients of our anti-VEGF-A Anticalin-branded drug candidate, PRS-050, designed to inhibit blood vessel growth in solid tumors. VEGF-A is a protein that induces growth of blood vessels, and anti-VEGF-A drug aim to inhibit the blood supply to solid tumors. In a multi-ascending dose trial performed under governance by the German Federal Institute for Drugs and Medical Devices (*Bundesinstitut für Arzneimittel und Medizinprodukte, or BfArM*), PRS-050 was shown to be generally safe and well-tolerated, and we were not able to detect any anti-drug antibodies, or ADAs, following administration of a total of 144 doses with five or more doses to 17 patients. We believe that these results demonstrated that there was no apparent immune response against PRS-050. Furthermore, dose-proportional pharmacokinetics, pharmacology and biomarker activity were observed in the trial, which we believe demonstrates that PRS-050 engaged with its intended target VEGF-A in those patients. While we have not advanced development of PRS-050 since that time for strategic and business reasons, we believe that the positive results from this clinical trial generally support continued investment in our Anticalin drug candidates.

Our current development plans focus mainly on two drug candidates, PRS-080 and PRS-060. PRS-080 is an Anticalin® protein that binds to hepcidin, a natural regulator of iron in the blood. An excess amount of hepcidin can cause functional iron deficiency, or FID, which often cannot be treated adequately with iron supplements and can lead to anemia. PRS-080 has been designed to target hepcidin for the treatment of FID in anemic patients with chronic kidney disease, or CKD, particularly in end-stage renal disease patients requiring dialysis. We believe that by blocking the actions of hepcidin, PRS-080 will serve to address anemia by mobilizing iron for incorporation into red blood cells. Furthermore, we engineered PRS-080 so that following administration, it is expected to clear from the human body in less than one week, a much shorter timeframe than antibodies, which typically have a half-life of two weeks or greater. We believe a shorter residence time in the body may be a superior approach for countering excess hepcidin, as physiological levels of hepcidin in these patients are relatively high (nanomolar concentration), and in theory such high concentrations will quickly saturate an administered binding drug. As a result, frequent administration of a drug may be required in order to sufficiently antagonize, or suppress the effect of, the target. The longer residence time of a monoclonal antibody, or mAb, could lead to the accumulation of both the drug and the target beyond the typical residence time of hepcidin, resulting in large quantities of hepcidin bound to mAbs. We initiated a Phase I clinical trial with PRS-080 in healthy volunteers in November 2014 and expect to report the data from this trial by the end of 2015.

The second Anticalin® drug candidate, PRS-060, binds to the IL-4 receptor alpha-chain (IL-4RA), thereby inhibiting IL-4 and IL-13, two cytokines (signaling proteins) known to be key mediators in the inflammatory cascade that causes asthma and other inflammatory diseases. The small size and biophysical stability of PRS-060 enable direct delivery to the lungs, such as through the use of an inhaler, which we believe will enable high concentrations of the drug candidate at the locus of disease at substantially lower doses than would be achievable with antibodies that are systemically delivered. Further, PRS-060 has a short systemic residence time in the body which we believe may avoid undesired target engagement outside of the desired area in the lungs. PRS-060 is currently in preclinical development, and we intend to begin a Phase I clinical trial with PRS-060 in 2016.

We are also developing PRS-110 and our 300-Series in oncology. PRS-110 is a monovalent cMet antagonist that is designed to block cMet activity, independent of whether induced by hepatocyte growth factor, or HGF, the natural ligand for cMet, or mediated through intrinsic ligand-independent activity. cMet is a receptor tyrosine kinase, a well-known high-affinity cell surface receptor which is essential for embryonic development and wound healing and has been associated with several different cancers, including renal, gastric and lung carcinomas, central nervous system tumors and sarcomas. We have shown in preclinical in vivo studies that PRS-110 blocks both ligand-dependent and ligand-independent activity while also being devoid of any activating (agonistic) activity, likely due to the monovalent manner in which it engages cMet. Preclinical studies have also shown that PRS-110 both inhibits receptor activation and leads to receptor removal, highlighting its novel mechanism of action and potential for the treatment of cMet-driven tumors. In October 2013, we entered into a development and license agreement with Cadila Healthcare Limited (Zydus Cadila), or Zydus, for the preclinical development of PRS-110, pursuant to which we share certain commercial rights to PRS-110 with Zydus. For more information about the Zydus agreement, see "—Strategic Partnerships".

Our second set of oncology drug candidates is our 300-Series "platform within a product" opportunity in immuno-oncology. The 300-Series Anticalin® proteins target checkpoint proteins and define a variety of multifunctional biotherapeutics that genetically link an antibody with one or more Anticalin proteins, thereby constituting a multispecific protein. Checkpoint proteins are proteins that help the development of an immune response or downregulate the response, for example when an infection is eliminated. We are conducting preclinical experiments on a number of 300-Series lead candidates and intend to choose a candidate for clinical trials in oncology by the end of 2015. The 300-Series platform is modular, which we believe will permit rapid evaluation of unique combinations of validated tumor targets and immunomodulatory checkpoint proteins. For example, one panel of 300-Series Anticalin

proteins, currently being evaluated in the preclinical stage of experiments, is directed with specificity and subnanomolar affinity against CTLA-4, a protein receptor that downregulates the immune system and which is found on the surface of T cells, regulating T cells at their stage of initial activation, in effect turning "off" the attacking nature of the T cells. T cells are a type of white blood cell that play several central roles in the immune system. Inhibiting CTLA-4, and thus allowing T cells to attack cancer cells, has been validated with other biologics, including ipilimumab, which is marketed by Bristol-Myers Squibb as Yervoy.

In addition, in November 2013, Pieris Operating entered into a joint development and license agreement with Stelis BioPharma Private Limited, a subsidiary of Strides Arcolab Limited, or Stelis, establishing a collaboration for clinical development and commercialization of certain of our proprietary products, primarily focusing on use in ophthalmological applications. Under the terms of the agreement, we contribute certain proprietary assets to the development project, and Stelis agrees to establish a production process for preclinical and clinical supplies of product and to perform certain preclinical and a first-in-human clinical study. We agreed that upon reaching certain development stages for a product, we and Stelis would discuss the possible formation of a joint venture to further develop and commercialize such product. We believe the agreement pairs our drug discovery capabilities with Stelis' bio-manufacturing and clinical development expertise. For more information about the Stelis agreement, see "—Strategic Partnerships" below.

Our core Anticalin® technologies and platform were developed in Germany, and we have partnership arrangements with major multinational pharmaceutical companies headquartered in the U.S., Europe and Japan and with regional pharmaceutical companies headquartered in India. We have discovery and preclinical collaboration and service agreements with both academic institutions and private firms in Australia, which increasingly are and will be handled through our wholly owned subsidiary, Pieris Australia Pty Ltd. We also intend to establish a greater U.S. presence and take advantage of the U.S. capital markets, additional potential corporate partners, and the broad expertise found in the biotechnology industry in the United States. Additionally, we have existing agreements in place with large international pharmaceutical companies, including Allergan Inc., or Allergan, Daiichi Sankyo Company Limited, or Daiichi Sankyo, and Sanofi Group, or Sanofi, pursuant to which our Anticalin platform has consistently achieved its research milestones.

Our management team is comprised of experienced biotechnology professionals. Their careers encompass numerous publicly traded and privately held biotechnology companies and they have decades of collective experience in drug discovery and development as well as in negotiating and closing partnerships with major pharmaceutical companies. We intend to augment the current team with selected personnel in the United States after we complete our U.S. offering and establish a U.S. presence.

Strategy

Our goal is to become a fully integrated biotechnology company by developing Anticalin® therapeutics against a variety of targets in diseases and conditions with high unmet medical need, and later developing and commercializing our products. We intend to take advantage of our operational experience in technology development and our history of successful partnerships and collaborations to gain access to additional partnerships that will help provide us the experience we need to bring Anticalin drug candidates to market in a number of indications. We intend to engage with partners for many of our programs in a combination of geographic and indication-based arrangements to maximize our business opportunities. We also intend to retain certain development and commercial rights on selected products as our experience in drug development grows. Key elements of our strategy include:

- ***Continue to build our platform by entering into new partnerships and license and collaborative arrangements and advancing our currently-partnered programs.*** We have already entered into partnership and collaborative arrangements with pharmaceutical companies in a diverse range of therapeutic areas and geographies. We have active partnerships with global pharmaceutical companies, such as Allergan, Sanofi and Daiichi Sankyo, and have entered into partnership arrangements with two pharmaceutical companies based in India, Zydus and Stelis. Together with these partners, we intend to advance multiple drug candidates through preclinical studies and to select further drug candidates for clinical development in the future. We will also continue to seek to engage with new pharmaceutical partners that can contribute funding, experience and marketing ability for the successful development and commercialization of our current and future drug candidates.
- ***Advance our lead drug candidate, PRS-080, against hepcidin in clinical trials.*** We intend to continue the recently initiated Phase I clinical trial with PRS-080 in healthy volunteers, and anticipate being able to report the data from this trial by the end of 2015. Depending on the results of the trial, thereafter pursue biomarker-driven efficacy trials in CKD patients suffering from FID-anemia.
- ***Bring other drug candidates in our proprietary pipeline into clinical trials.*** We have a strong preclinical pipeline of Anticalin drug candidates in diverse indications such as severe asthma (PRS-060) and immuno-oncology (300-Series). We will continue to move forward with preclinical and discovery work on these drug candidates with the goal of advancement into clinical trials on a data-driven basis.

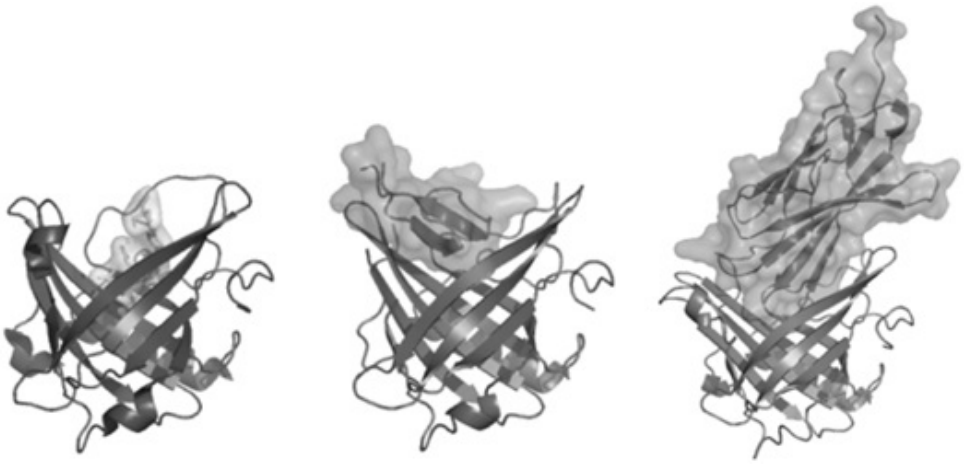
- ***Pursue and broaden opportunities for our Anticalin technology.*** We intend to continue to identify, vet and pursue opportunities to develop novel Anticalin therapeutics for oncology, pulmonary disease and a variety of additional diseases, as we continue to improve on the Anticalin platform technology.
- ***Develop an even broader geographic base.*** Through our partnerships with pharmaceutical companies in Europe, Asia and the United States, and through our preclinical and clinical collaboration arrangements in Australia, we have already created a broad set of international contacts that allows us to seek diverse opportunities in the global biotechnology industry. By seeking to establish a greater presence in the United States, we intend to further diversify our contacts and opportunities and take advantage of the strengths of the U.S. capital markets, drug development capabilities and partnership opportunities.

Anticalin platform technology

Our platform technology focuses on low molecular-weight Anticalin® proteins that bind tightly and specifically to a diverse range of targets. Anticalin proteins are derived from human proteins called lipocalins, which are naturally occurring low-molecular weight human proteins of approximately 18 to 20kDA molecular mass typically found in blood plasma and other bodily fluids. The lipocalin class of proteins defines a group of extracellular specific-binding proteins that, collectively, exhibit extremely high structural homology, yet have an uncharacteristically low amino acid sequence identity (less than 20%), making them attractive "templates" for amino acid diversification. Lipocalins naturally bind to, store and transport a wide spectrum of molecules. The defining attributes of the 12-member human lipocalin class and, by extension, Anticalin proteins, engineered from the lipocalin class of proteins, are a four-loop variable region and a rigidly conserved beta-barrel backbone, which, together, form a cup-like binding pocket. The below graphic shows both tear (left) and NGAL (right) lipocalins together with their natural ligands.

Anticalin® proteins are created from either tear lipocalin, found in human tear fluid, or NGAL lipocalin, a protein involved in the innate immune system, by making discreet mutations in the genetic code for the binding regions. These mutations have the potential to lead to highly specific, high-affinity binding for both small and large molecular targets. Random mutations are introduced at pre-defined positions involved in endogenous ligand engagement, creating exponentially diverse pools of Anticalin proteins, the most potent and well behaved of which are selected and optimized in a customized manner through *in vitro* selection. Using techniques such as phage display, a successful technique in antibody-based drug discovery, to build and refine antibody libraries, the ability to introduce diversity and then select for the best binders among a large pool of Anticalin proteins gives us the opportunity to select Anticalin proteins for a wide variety of targets. The flexibility inherent in the Anticalin proteins' cup-like structure allows us to choose both small-molecule targets that fit inside the 'cup' as well as larger protein targets that can be bound by the Anticalin proteins' outward-facing arms. Our Phase Ib trial for PRS-050 indicated that Anticalin proteins may be non-immunogenic and thereby have the potential to exhibit a favorable safety profile.

The below graphic demonstrates Anticalin® drug candidates binding to a small molecule (left), a small protein target (hepcidin, center) and a large protein target (CTLA4, right):



To obtain a specific Anticalin® protein, we take advantage of the breadth of our proprietary Anticalin libraries, generated through our protein engineering expertise. We have created, and will continue to create, proprietary Anticalin libraries by rationally diversifying the lipocalin regions that are responsible for ligand binding, applying different libraries to different types of targets. By utilizing bacterial production from the earliest stages of drug discovery through Current Good Manufacturing Practice, or cGMP, manufacturing, we have created a seamless platform that improves the quality, yield and cost-effectiveness of our drug candidates. However, Anticalin protein manufacturing is not limited to bacterial systems, with the underlying expression system being driven on a program-by-program basis. See "—Manufacturing" below.

As targeted, protein-based molecules, Anticalin® proteins also function similarly to monoclonal antibodies, thereby offering many of the same favorable qualities, including:

- *High specificity to their targets*. Like monoclonal antibodies, Anticalin proteins can bind their targets without binding other molecules, even molecules with very similar chemical structures or amino acid sequences, allowing for more effective treatments through, for example, minimizing off-target effects.
- *Tight binding and effective biological activity at their targets*. Like monoclonal antibodies, Anticalin proteins are able to bind their targets at subnanomolar affinities. Anticalin proteins can potentially achieve desirable biological effects by inhibiting an undesired or inducing a desired cell activity by binding to cell-surface receptors or their ligands.
- *Human origin*. Like many monoclonal antibodies in development and marketed today, Anticalin proteins are derived from a natural class of circulating human proteins. Their human origin increases the likelihood that Anticalin proteins will not be recognized as foreign by the immune system and subsequently rejected.
- *Scalability for large scale production*. Like monoclonal antibodies, Anticalin proteins lend themselves to large-scale production, yet can also be produced in a range of expression systems ranging from prokaryotic (bacterial) to eukaryotic (animal, plant, fungal) cells. Anticalin proteins can take advantage of several well-understood and widely practiced methods of protein production both in small amounts for preclinical testing and at larger scale for clinical trials and commercial production.

While often compared to monoclonal antibodies, Anticalin® proteins, we believe, offer several advantages over antibodies, including:

- *Small size and biophysical stability*. Anticalin proteins are small in size and are monomeric. Therefore, we believe Anticalins are generally more stable biophysically than tetrameric monoclonal antibodies, potentially enabling unique routes of administration to target diseases, such as pulmonary delivery. Higher-molecular-weight entities such as antibodies are often too large to be delivered effectively through these methods. We believe Anticalin proteins will also be less expensive to manufacture than antibodies due to their lower molecular weight and less bulky structure as well as the ability to use the prokaryotic-based manufacturing systems, a less costly manufacturing system than mammalian cell-based manufacturing systems.
- *Optimization of half-life*. Anticalin proteins can be engineered to have a half-life that is optimal for the indication area and a desired dosing schedule. Antibodies typically have half-lives of two weeks or longer, whereas Anticalin proteins can be engineered to have half-lives from hours to weeks, depending on the half-life extension technology employed, if any. This optionality allows us to exert greater control over the amount of circulating Anticalin protein in the blood and the amount of time such Anticalin proteins circulate in the blood, depending on the underlying biology we are trying to address.

- *Modular platform for higher-order multispecificity and avoidance of cross-linking*. Our Anticalin technology is modular, allowing for monovalent or multivalent target engagement, including multispecificity within a single protein. We believe that a monovalent "backbone" is an advantage in situations where pure antagonism of certain cellular receptors is desired. The dual-binding nature of monoclonal antibodies, which have two "arms," can be a disadvantage in cases when the antibodies bind to and cross-link cell-surface receptors. Such cross-linking often leads to undesirable activation of the cells bearing those receptors. Single-action (monovalent) Anticalin proteins have only a single binding site and are thus not subject to cross-linking. Further, when it is called for by the biology we are addressing, we can create multispecific Anticalin proteins that can simultaneously bind (i) two or more different targets or (ii) different epitopes, the specific piece of an antigen to which an antibody binds, on the same target by genetically linking Anticalin proteins with distinct specificities on a common cDNA strand. We believe this multispecificity offers advantages in biological settings where binding to multiple targets can enhance the ability of a drug to achieve its desired effects, such as killing cancer cells. Unique Anticalin proteins can be pieced together and undergo simultaneous target engagement as a single fusion protein, without generally compromising on manufacturability.

We believe that drug-like properties of the Anticalin® drug class were demonstrated in a Phase Ib clinical trial for PRS-050 in solid tumor patients, our anti-VEGF-A Anticalin-branded drug candidate designed to inhibit blood vessel growth in solid tumors. Although we are not advancing the development of PRS-050 in oncology for strategic and business reasons, we were able to demonstrate in 26 patients with advanced solid tumors that this drug candidate engaged its target with nanomolar affinity, did not generate any detectable ADAs, and has an activity that can be confirmed by biomarker activity, target engagement assays and known on-target effects such as hypertension. In this trial, 17 patients received five or more doses of PRS-050. We believe that the positive results from the Phase Ib clinical trial for PRS-050 lends support to the future success of our drug candidates currently in development.

PRS-080 targeting hepcidin in CKD-related FID-anemia

PRS-080 is an Anticalin® drug candidate targeting hepcidin, a peptide mediator that is an important negative regulator of iron absorption and storage, derived from the naturally occurring human lipocalin known as NGAL. The normal function of hepcidin is to maintain equilibrium in iron supply for red blood cell production by binding to ferroportin, the protein that transports iron from the inside of a cell to the outside, inducing its internalization and subsequent degradation. The binding of hepcidin to ferroportin reduces

the iron uptake from the intestine into the body and inhibits iron mobilization from cellular stores into red blood cells. An excess amount of hepcidin can cause functional iron deficiency, or FID, which often cannot be treated adequately with iron supplements and can lead to anemia. According to a 2009 publication by Young and Zaritsky in the Clinical Journal of the American Society of Nephrology, lowering hepcidin levels or antagonizing its actions would reverse the negative effects of inflammation on red blood cell formation by allowing mobilization of stored iron and improved iron absorption.

PRS-080 has been designed to target hepcidin for the treatment of FID in anemic patients with CKD, particularly in end-stage renal disease patients requiring dialysis, to allow them to mobilize iron that is trapped in iron storage cells for use in the creation of red blood cells. We have also engineered PRS-080 so that following administration, it is expected to clear from the human body in less than one week, a much shorter timeframe than antibodies, which typically have a half-life of two weeks or greater. This half-life was achieved by covalently linking PRS-080 to a specific polyethylene glycol, or PEG, in order to extend the serum half-life of the combined molecule to desirable levels. Since hepcidin is constantly produced by the body, we believe that a frequent, e.g. once per week, dosing interval will be optimally suited to interfere with hepcidin function. A half-life of about three days and a shorter residence time than mAbs is then in turn more compatible with the dosing schedule. A longer mAb-like residence time is not seen as advantageous, but rather could lead to the accumulation of both the drug and the target beyond the typical residence time of hepcidin, resulting in large quantities of hepcidin bound to mAbs. We initiated a Phase I clinical trial with PRS-080 in healthy volunteers in November 2014 and expect to report the data from this trial by the end of 2015.

Chronic kidney disease

According to the American Kidney Fund, approximately 31 million individuals in the United States have CKD (Stages 1-5). The proportion of CKD patients with anemia increases with the severity and stage of CKD, however according to a September 2013 competitive landscape report conducted by Tech Atlas Group, overall rates of individuals with anemia among the CKD population are approximately 30%, and according to a 2004 study by McClellan et al., Current Medical Research and Opinion, approximately 47% of the CKD patients studied were found to be anemic. Extrapolating these percentages based on the CKD population of 31 million individuals, we believe that approximately 9.3 to 14.6 million individuals in the United States with CKD are anemic. CKD (Stage 5), also known as End-Stage Renal Disease, or ESRD, is the final stage of chronic kidney disease with approximately 0.64 million patients in the US as of December 31, 2012 according the U.S. Renal Data System, USRDS 2014 Annual Data Report. The Tech Atlas Group report also estimates that approximately 70%, or approximately 0.45 million, of CKD (Stage 5) patients suffer from anemia. Anemia related to CKD is currently treated by injectable recombinant protein erythropoiesis, or red blood cell production, stimulating agents, or rESAs—including Epogen, Aranesp, and Procrit—with iron supplementation or a red blood cell transfusion. Based on the reported revenues of companies that market and sell rESAs, we believe that global sales of injectable rESAs were $6.3 billion in 2012, the vast majority of which were for renal indications.

Anemia and functional iron deficiency in the CKD population

Anemia is a serious medical condition in which blood is deficient in red blood cells, or RBCs, and hemoglobin, leading to inadequate oxygen delivery to tissues and cells throughout the body. Anemia is generally said to exist when hemoglobin is less than 13 g/dL in men and 12 g/dL in women. Anemia has a number of potential causes, including nutritional deficiencies, iron deficiency, bone marrow disease, medications, and abnormalities in production of or sensitivity to erythropoietin, a hormone that controls red blood cell production. Anemia is a frequent and severe consequence of CKD. In addition, within the CKD population, anemia may be caused by functional iron deficiency, or FID. FID exists when, despite adequate stores, iron cannot be mobilized for erythropoiesis. In this case, despite treatment with exogenous erythropoietin and iron supplements, iron is still deficient. FID-anemic patients can be identified and selected for therapy using marketed laboratory tests for iron metabolism. The USRDS 2014 Annual Data Report estimates that as of 2012, approximately 409,000 individuals with ESRD are presently on hemodialysis. According to the results of a 2013 research analysis conducted for us by Artisan Healthcare Consulting, which, among other things, pooled research results from nephrologists in the United States, approximately 82% of the hemodialsyis patient population are anemic, and that among the anemic hemodialysis patient population, up to 23% are FID-anemic. Based on the estimated 409,000 individuals with ESRD on hemodialysis, we believe that approximately 335,000 ESRD patients on hemodialysis are anemic and approximately 0.08 million individuals are FID-anemic.

Untreated anemia is associated with chronic fatigue, increased risk of progression of multiple diseases, and death. These morbidity and mortality risks have been clearly shown in the CKD population, where in patients age 66 and older, anemic patients with mid-stage CKD (Stage 3) have a 149% increase in cardiovascular events, and patients with severe CKD (Stage 4 and 5) have a 24% increase in cardiovascular events, in each case versus non-anemic patients in the same group, according to a paper published in 2006 in the peer-reviewed journal *Blood*. Similarly, compared to non-anemic patients, anemia increases the mortality rate by 199% in mid-stage CKD, and 59% in severe CKD. Successful treatment of anemia significantly improves patients' quality of life, especially with respect to vitality, fatigue and physical function. In addition, patients whose anemia has been successfully treated have demonstrated lower mortality rates, less frequent hospitalization, and decreases in cardiovascular morbidity.

Challenges in using conventional therapy

We believe CKD patients with FID-anemia are especially poorly served. These patients have adequate stores of iron but this iron is not efficiently incorporated into red blood cell precursors through rESAs and iron supplements. According to the 2009 publication by Young and Zaritsky in the Clinical Journal of the American Society of Nephrology, this imbalance in iron metabolism is a result of a high level of circulating hepcidin in the blood stream. We believe existing therapies are limited in that they do not have an impact on hepcidin or, in the case of rESAs, patients often become resistant to the therapy.

Our potential solution: binding hepcidin with PRS-080

We have engineered PRS-080 so that it binds to hepcidin and reduces the impact of hepcidin's negative regulation on iron mobilization. We believe that by blocking the actions of hepcidin, PRS-080 will serve to address anemia by mobilizing iron for incorporation into red blood cells.

In patients suffering from anemia of CKD, and specifically in patients with FID, hepcidin is frequently produced by the body in abnormally large amounts. Therefore, we believe that the best way to inhibit its function is to administer an inhibitor frequently, such as once a week. Our approach will use PRS-080 in connection with a conjugated PEG30 molecule, a well-known half-life extender, potentially allowing the drug sufficient residence time. Once coupled to PEG30, PRS-080 is intended to have a half-life that will be optimally suited for dosing anemic patients with CKD. In contrast, antibodies typically have a half-life of two to three weeks. Such a long half-life renders antibodies unsuitable for frequent administration and elimination of a circulating target protein like hepcidin because such antibodies tend to accumulate the target after binding due to their own long residence time in the body with the associated risk of bound hepcidin being released by antibodies that are still circulating in the blood.

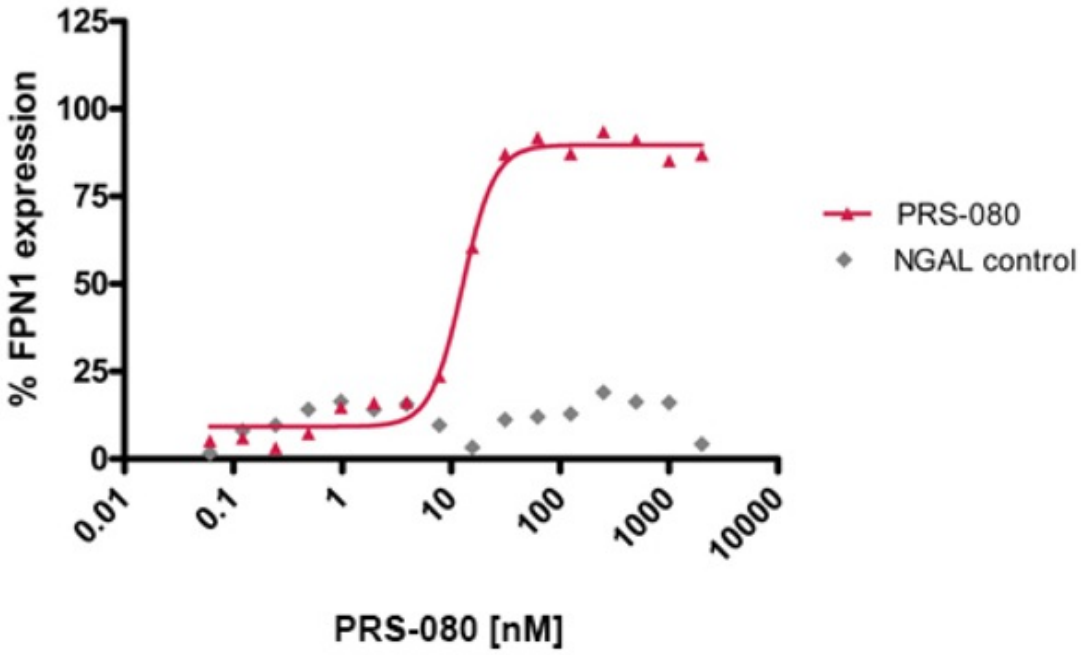
Preclinical data

Our preclinical studies targeted the cynomolgus monkey orthologue of hepcidin, which has a high degree of similarity (96% identity) with human hepcidin. PRS-080 was found to bind with high affinity to the cynomolgus monkey version of hepcidin. We performed a dose finding study in cynomolgus monkeys, testing intravenous 30-minute infusions as well as subcutaneous injections of PRS-080. We also carried out a 4-week repeated dose toxicology study with intravenous infusions of PRS-080 for 30 minutes every other day. Our work included toxicokinetic and ADA measurements. During the study, safety pharmacology parameters on the cardiovascular system and respiration were monitored and all safety endpoints were met. Our preclinical studies also examined a different NGAL-derived Anticalin®, or surrogate molecule, which targets rat hepcidin in a rat model of inflammation-induced anemia. In these studies, administration of the surrogate molecule once per day or every other day inhibited the manifestation of anemia in the rats over the course of a three-week period.

Hepcidin binds to ferroportin and induces its internalization and subsequent degradation, thus disabling iron mobilization from cells. PRS-080 binds strongly to hepcidin and inhibits its activity as shown in potency assays. These in vitro potency studies showed that the hepcidin-induced internalization of ferroportin is inhibited by PRS-080 in a dose-dependent manner. PRS-080 allowed for the restoration of ferroportin expression, overcoming the hepcidin-induced down-regulation, whereas NGAL alone did not have a similar effect on ferroportin expression.

Table of Contents

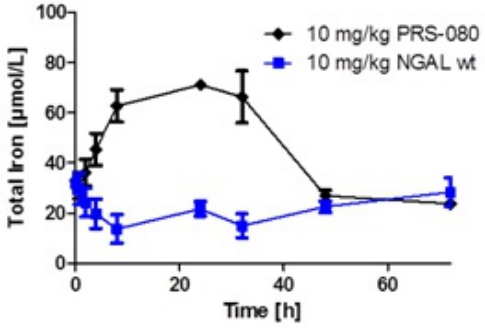
The below chart demonstrates the percentage of expression of ferroportin, % FPN1, by PRS-080 mediated inhibition of hepcidin in an in vitro potency assay with ferroportin transfected 293 cells:



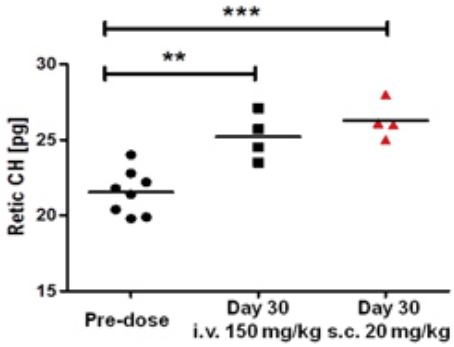
At 20 nM, hepcidin induces internalization of ferroportin which is reversed by PRS-080 in a dose dependent manner

We then studied the functional consequences of hepcidin inhibition on iron mobilization in cynomolgus monkeys. A dose of 1 mg/kg PRS-080 produced a robust, transient and reversible increase in total iron levels from approximately 36 µM at baseline to 52 µM after 8 hours. Doses higher than 1 mg/kg elevated serum iron concentrations to comparable levels and, in a dose-dependent manner, prolonged the response. A linear correlation was observed over time between the PRS-080 dose and increase of serum iron concentrations.

The below chart shows the increase in serum iron concentrations in cynomolgus monkeys following a single intravenous administration of PRS-080 at 10 mg/kg compared to wild-type NGAL administered at the same dose:



The expected functional consequence of PRS-080 treatment on bone marrow activity and red blood cell production, or hematopoiesis, was observed in cynomolgus monkeys following repeated administration. As shown in the below chart, administration of PRS-080 at the indicated doses either intravenously (i.v.) or subcutaneously (s.c.) elevated hemoglobulin concentrations in reticulocytes (Retic CH) as determined on day 30 (**: $p < 0.005$, ***: $p < 0.001$, both based on unpaired t-test).



The PK properties of PRS-080 were investigated in cynomolgus monkeys after a single administration at doses ranging from 20 mg/kg to 150 mg/kg. The concentration over time profiles of PRS-080 showed standard drug-like properties, as the kinetics were dose proportional and there was a low volume of distribution. Elimination of PRS-080 occurred with a terminal half-life of about 2 days which can be extrapolated to translate to 3 days in humans.

PRS-080 administration to cynomolgus monkeys was well tolerated up to the highest tested dose of 120 mg/kg. This dose was classified as producing no adverse events, routine laboratory tests and blood cell examinations did not demonstrate any adverse findings and safety pharmacology investigations were without adverse events. As a result of the hepcidin inhibition, the study showed increased iron uptake and storage, for example in the liver, and mobilization.

Phase I trial design

The Phase I trial of PRS-080 is being conducted in healthy volunteers. The study is a single dose escalating, blinded, placebo controlled study at a dose range from 0.2 to 40 mg/kg (equivalent to 0.08 to 16.0 mg/kg based on protein content). Forty-eight subjects will be dosed with PRS-080 or a placebo starting by the end of 2014 and we expect to report the data findings by the end of 2015.

The first clinical trial enrolling patients is planned to be conducted primarily in 2015. We first plan to enroll CKD patients to study pharmacokinetics in a single-dose format. We plan to subsequently dose repeatedly and study the effects of PRS-080 administration on iron mobilization and erythropoiesis in CKD patients.

Based on the results of the initial trials, our current intention is to design additional trials to examine dose response and longer treatment periods. Endpoints may include levels of circulating hemoglobin, which corresponds to the degree to which anemic patients with FID respond to PRS-080. Titration of intravenous iron and rESA doses will also be implemented in future trials.

PRS-060 targeting IL-4RA in asthma

PRS-060 is an Anticalin® drug candidate targeting IL-4RA, a cell surface receptor expressed on immune cells in the lung epithelium and mucosal layer. IL-4RA is specific to the circulating cytokines IL-4 and the closely related cytokine IL-13, both key drivers of the immune system that induce differentiation of naïve helper T cells to type 2 helper T cells, or Th2. PRS-060 is derived from human tear lipocalin, has picomolar affinity for human IL-4RA (20 pM) and has a favorable stability profile. We showed *in vitro* that PRS-060 can inhibit the activity of both IL-4 and IL-13. We have formulated PRS-060 so that it can be delivered through inhalation, and we are carrying out bioprocess optimization in preparation for Current Good Manufacturing Practice, or cGMP, manufacturing and preclinical safety and tolerability studies. Pending the results of our preclinical studies, we intend to pursue a first-in-man clinical trial for PRS-060 in 2016. Some of the development of PRS-060 is conducted in Australia, where we intend to access leading Australian pulmonologists for potential patient recruitment and to seek up to 40% or more in tax refunds from the Australian government in connection with research and development expenses related to PRS-060. We believe PRS-060 represents a first-in-class inhaled biologic for the treatment of asthma.

Asthma market

Asthma is a very common chronic airway disorder affecting approximately 300 million people worldwide according to the Global Initiative for Asthma and approximately 26 million Americans according to the U.S. Centers for Disease Control. Of these 26 million, about 7 million are children. Asthma is responsible for 13 million physician visits a year including about 2 million emergency visits in the United States, according to the American Lung Association. Asthma is responsible for $50 billion in direct healthcare costs each year in the United States, according to a 2011 publication by Barnett and Nurmagambetov in the Journal of Allergy and Clinical Immunology.

Challenges in using conventional therapy

According to a 2012 Artisan Health Care Consulting analysis, as of 2011 asthma affects approximately 195 million people in the U.S., Europe, Japan, Brazil, Russia, India and China. The analysis determined that approximately 16%, or 32 million, of the group studied were considered to have moderate and severe uncontrolled asthma, while approximately 9%, or 19 million, of the group studied were considered to have moderate and severe uncontrolled asthma with an elevated Th2 signature. Extrapolating from these percentages to the global asthma population of 300 million individuals, we believe that approximately 48 million asthma sufferers worldwide are considered to have severe, persistent or uncontrolled disease and a large percentage of these patients, approximately 28 million, display inflammatory exacerbations associated with Th2 immunity. Inflammation brought about by Th2 immunity is not addressed by standard asthma therapies. Standard therapies are not able to address such patients, symptoms or they develop resistance to the inhaled steroids, currently considered the standard of care.

The current standard of care for persistent, moderate to severe allergic asthma is omalizumab (Xolair from Roche). Omalizumab was approved for this condition in the United States in 2003. Outside of the United States, omalizumab is approved for severe asthma and it is currently the only biologic approved for asthma. Omalizumab works by binding to the immune mediator immunoglobulin E, or IgE, and inhibiting IgE-mediated activation of mast cells and basophils, types of white blood cells. It has also been shown to impact some diseases, such as asthma, that are driven by eosinophils, another important class of immune cells. However, patient response to omalizumab has been shown to be inconsistent, as reported in a publication by McNicholl and Heaney in 2008 in the journal *Core Evidence*, which explained that in only some studies did omalizumab improve lung function. Furthermore, general asthma symptoms are also typically unaffected by omalizumab. Finally, in 2007, the U.S. Food and Drug Administration issued a black box warning for omalizumab due to reported cases of anaphylaxis, a potentially life-threatening allergic reaction suffered by some patients who had taken the drug. Despite these shortcomings, in 2012, worldwide sales of omalizumab were reported by Roche to be $1.2 billion.

The next generation of therapies beyond omalizumab targets a broader range than just IgE mediated mechanisms. These approaches target other immune mediators, including IL-5, IL-4 and IL-13 (which act in concert on eosinophils, B-cells, epithelial cells, goblet cells and others) and CRTH2. Asthma is associated with high levels of eosinophils, immune cells that play a role in protecting the body against infection. The creation of eosinophils can be interrupted at the early stages, while the cells are still maturing. Multiple products are in development that target eosinophils. However, eosinophils are only one of many cell types and immune system components that are involved with the body's exaggerated inflammation response in asthma. Mast cells, basophils, goblet cells and other cells also play a role. These cells can be seen infiltrating the airways along with eosinophils, leading to the conclusion that more cell types are involved. We believe that targeting just one of these components is not likely to be as effective in resolving severe asthma as an approach that targets the broader Th2 (cell-mediated) pathway.

In 2013, Regeneron and its partner Sanofi reported proof-of-concept in a Phase IIa trial in persistent asthma with dupilumab, a currently unapproved monoclonal antibody that targets IL-4RA now in clinical development as a subcutaneously delivered agent. In a 2013 paper in the New England Journal of Medicine, Wenzel et al. reported that dupilumab showed a benefit on the asthma control questionnaire 5 (ACQ5) symptom score, a widely accepted measure for classifying the ability of a medication to control asthma. Patients dosed with dupilumab had fewer asthma attacks compared to placebo-treated patients when standard therapies, such as long-acting beta-agonists and inhaled glucocorticoids, were withdrawn, demonstrating the efficacy of dupilumab. Patients also showed improved lung function and reduced levels of Th2-associated inflammatory markers. Dupilumab is administered systemically through injection. In November 2014, Regeneron and Sanofi announced that in a Phase IIb study, dupilumab also demonstrated improved lung function and reduced exacerbations when administered together with standard of care. These effects were observed in both unselected severe asthma patients and selected patients presenting elevated Th2 responses. We believe the results support the possibility of treating persistent uncontrolled asthma with a biologic therapy without narrowing the patient population based on the Th2 phenotype.

Another biologic in development for severe asthma is lebrikizumab, which blocks IL-13, a mechanism known to have a similar effect to that of dupilumab. Like dupilumab and other mediators of the Th2 pathway, lebrikizumab is a validating example for subcutaneously delivered Th2 intervention in treating uncontrolled asthmatics. In a 2011 publication in the New England Journal of Medicine, lebrikizumab was reported to improve lung function in severe asthma patients who were also receiving standard of care inhaled glucocorticoid therapy. At the same time, patients in the study who received lebrikizumab showed greater musculoskeletal side effects than patients receiving placebo. We believe that the ability to impact disease biology and improve lung function with biologics such as lebrikizumab is a promising result.

We believe that there could also be significant advantages to other routes of administration, such as inhalation, of biologics that target asthma through the Th2 pathway. If delivered by inhalation, such biologics could be dosed at much lower levels and may preferentially direct the therapy to the site of the disease, in this case the lung.

Our proposed solution: binding IL-4RA with PRS-060

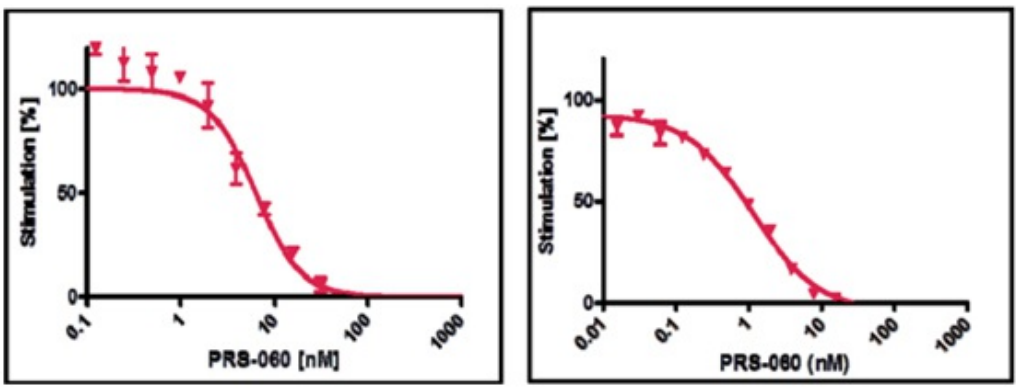
We propose to take PRS-060 forward into clinical trials first in healthy volunteers and then in severe asthma patients. These trials could accomplish two important goals: we could establish proof-of-concept for inhaled Anticalin® proteins, opening up a second route of administration for our drug candidates beyond intravenous or subcutaneous injection. And if, based on data, we are able to enter a proof-of-concept trial in these patients, we will attempt to demonstrate that PRS-060 can improve patient symptoms. We intend to begin a Phase I clinical trial for PRS-060 in 2016.

Advantages to inhalation as a route of administration for PRS-060

We have performed inhalation studies in mice and observed that systemic concentrations of PRS-060 are minimal when dosed by inhalation, as a result of low doses and short systemic residence time. This offers the potential of a wider therapeutic window and possibly lower systemic side effects that may become prevalent with chronic, systemic Th2 interrogation. By our calculations, the dose of PRS-060 can be lower than the doses being used for the monoclonal antibodies dupilumab and lebrikizumab. Furthermore, we believe that PRS-060 can be produced at a lower cost of goods than monoclonal antibodies because we intend to use manufacturing procedures that employ bacterial expression systems, which generally provides a cost advantage over mammalian production systems, typically used for mAbs. Since dosing by inhalation is a common route of administration in asthma patients, it represents a more convenient dosage regimen for patients than dosing of antibodies by injection and would not need to be administered in a physician's office or other medical setting.

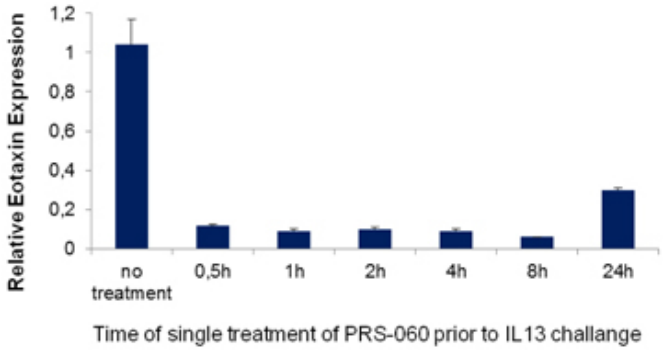
Preclinical data

In *in vitro* assays, PRS-060 specifically bound to immobilized targets such as human IL-4RA in a concentration-dependent manner. We tested the binding of PRS-060 to various targets in enzyme-linked immunosorbent assay, or the ELISA, a standard *in vitro* assay platform. In these tests, PRS-060 bound to IL-4RA with subnanomolar affinity and it did not bind to three other human cell-surface interleukin receptors (IL-6R, IL-18RA, IL-23RA). Furthermore, the activity of IL-4 and IL-13 was inhibited by PRS-060 in a dose-dependent manner. The below charts show the inhibition of IL-4 (left) or IL-13 (right) induced proliferation in human TF-1 cells *in vitro* by PRS-060.



In *in vivo* assays in mice genetically altered to express human IL-4RA and IL-13R, PRS-060 inhibited the induction of eotaxin protein, a marker or airway inflammation, in lung tissue following pulmonary delivery. We observed this inhibition at both the RNA and protein levels compared both to buffer and to tear lipocalin.

The below chart shows the duration of PRS-060-mediated inhibition of eotaxin protein, a marker of airway inflammation, in lung tissue by a single pulmonary dose in mice:



When we administered IL-13 into the lung, inflammation was induced as determined by eotaxin expression, which was not inhibited when phosphate buffered saline, or PBS, was administered into the lung. In contrast to the PBS administration, eotaxin expression and, as a result, inflammation was prevented when PRS-060 was administered into the lung before IL-13. As demonstrated in the above chart, the model showed the inhibitory potential lasts for up to 24 hours after PRS-060 administration.

Pipeline products: PRS-110 in cMet-related cancer

PRS-110 is an Anticalin® protein-based antagonist of cMet that blocks both ligand-dependent and ligand-independent activity. cMet is a receptor tyrosine kinase, a well-known high-affinity cell surface receptor which is essential for embryonic development and wound healing. Hepatocyte growth factor, or HGF, is the only known ligand of the cMet receptor, and upon HGF stimulation, cMet induces several biological responses that collectively give rise to a program known as invasive growth, which can in some cases trigger cancer formation or growth. cMet has been associated with several different cancers, including renal, gastric and lung carcinomas, central nervous system tumors and sarcomas. However, abnormal cMet activity, consisting of cMet amplification or mutation through cell overexpression or interaction with other membrane proteins or receptors, can also lead to HGF-independent tumor formation. Therefore, optimal targeting of the cMet pathway requires a drug with both ligand-dependent and ligand-independent efficacy. We have shown in preclinical in vivo studies that PRS-110 blocks both ligand-dependent and ligand-independent activity while also being devoid of any activating (agonistic) activity, likely due to the monovalent manner in which it engages cMet. Preclinical studies have also shown that PRS-110 inhibits receptor activation and leads to receptor degradation, highlighting its novel mechanism of action and potential for the treatment of cMet-driven tumors. Moreover, inhibition of other receptor tyrosine kinases, such as Bcr-Abl in chronic myeloid leukemia, c-kit in gastrointestinal stromal tumor and HER2 in breast cancer, by targeted therapies has been shown to have a significant clinical impact. Therefore, receptor tyrosine kinases targets such as cMet are currently a focus for drug discovery efforts in order to try to identify specific inhibitors. In October 2013, we entered into a development and license agreement with Zydus for the preclinical development of PRS-110, pursuant to which we share certain commercial rights to PRS-110. For more information about the Zydus agreement, see "—Strategic Partnerships".

Several experimental drugs targeting various aspects of the cMet pathway, including both small molecule drugs and biologics, have shown tumor growth inhibition or tumor regression in preclinical models using human tissue transplanted into mice and are currently undergoing clinical evaluation. To date, small molecule receptor tyrosine kinase inhibitors have been hampered by lack of specificity for the cMet target. It has also proven difficult to generate antibodies that are completely inhibitory against the cMet receptor because the antibody structures themselves can lead to pathological activation of the receptors. There are several bivalent antibodies targeting cMet receptors that are undergoing preclinical or early clinical evaluation, but these bivalent antibodies can contribute to this pathological activation, thereby creating a potential safety risk. By contrast, in our *in vitro* studies, PRS-110 inhibits receptor activation and leads to receptor degradation, pointing to its potential to treat tumors linked to the cMet pathway based on what we believe to be its novel mechanism of action.

Pipeline products: 300 Series

Current antibody-based therapies targeting tumor cell destruction or immune activation are hampered by, among other factors, low response rates and the induction of immune-related adverse events. The 300-Series Anticalin® proteins are designed to target checkpoint proteins and consist of a variety of multifunctional biotherapeutics that can combine antibodies with Anticalin proteins. These combined molecules have the potential to build upon current therapies through the capability of modifying or regulating one or more immune functions on a single fusion protein, thereby having the potential to elevate immune responses within a tumor microenvironment. First, the antibody component of this Anticalin protein construct will be able to directly attack tumor cells, causing signal attenuation, tumor debulking and, as a result, antigen presentation. Second, we believe that a tethered Anticalin protein directed at checkpoint proteins can preferentially activate the immune system at the site of the tumor microenvironment. We believe that the 300-Series Anticalin proteins represent a "platform within a product" opportunity in immuno-oncology since it may be possible to apply a single combined Anticalin-antibody molecule in a number of different cancers. This is based on the shared underlying biology such as checkpoint biology found within tumors arising in different organs.

This platform is modular, which we believe will permit rapid evaluation of unique combinations of validated tumor targets and immunomodulatory checkpoint proteins. For example, one panel of 300-Series Anticalin® proteins, currently being evaluated in the preclinical stage of experiments, is directed with specificity and subnanomolar affinity against CTLA4, a protein receptor that downregulates the immune system and which is found on the surface of T cells, regulating T cells at their stage of initial activation, in effect turning "off" the attacking nature of the T cells. In addition, we will test the potential of antagonizing other checkpoint proteins and evaluate the direct activation of immune responses through co-stimulatory molecules, or checkpoint activators. These latter studies are currently in the research phase.

Competition

The pharmaceutical and biotechnology industries are characterized by rapidly advancing technologies, intense competition and a strong emphasis on proprietary products. While we believe that our technology, development experience, scientific knowledge and strategies provide us with competitive advantages, we face and will continue to face intense competition from many different sources, including major pharmaceutical, specialty pharmaceutical and biotechnology companies, academic institutions and governmental agencies and public and private research institutions, both in the United States and abroad.

We compete, or will compete, with existing and new therapies that may become available in the future. Some of these competitors are pursuing the development of pharmaceuticals that target the same diseases and conditions that our drug candidates target. Any drug candidates that we are able to develop and commercialize will compete with existing and new drugs being developed by our competitors. Our competitors may develop or market products or other novel technologies that are more effective, safer, more convenient or less costly than any that may be commercialized by us, or may obtain regulatory approval for their products more rapidly than we may obtain approval for ours.

The acquisition or licensing of pharmaceutical products is also very competitive, and a number of more established companies, some of which have acknowledged strategies to license or acquire products and many of which are bigger than us and have more institutional experience and greater cash flows than we have, may have competitive advantages over us, as may other emerging companies taking similar or different approaches to product licenses and/or acquisitions. In addition, a number of established research-based pharmaceutical and biotechnology companies may acquire products in late stages of development to augment their internal product lines, which may provide those companies with an even greater competitive advantage.

There are a number of other companies presently working to develop therapies for anemia, asthma and oncology, including divisions of large pharmaceutical companies and biotechnology companies of various sizes. There are also a variety of available drug therapies marketed for these diseases. Our drug candidates, if any are approved, may compete with these existing drug and other therapies, and to the extent they are ultimately used in combination with or as an adjunct to these therapies, our drug candidates may not be competitive with them. Some of the currently approved drug therapies are branded and subject to patent protection, and others are available on a generic basis. Many of these approved drugs are well established therapies and are widely accepted by physicians, patients and third-party payors. As a result, market acceptance of, and a significant share of the market for, any of our drug candidates that we successfully introduce to the market will pose challenges.

In addition to currently marketed therapies, there are also a number of medicines in clinical development to treat anemia, asthma or cancer. These medicines in development may provide efficacy, safety, convenience and other benefits that are not provided by currently marketed therapies and may not be provided by any of our current or future product candidates. As a result, they may provide significant competition for any of our product candidates.

Many of our competitors will have substantially greater financial, technical and human resources than we have. Additional mergers and acquisitions in the pharmaceutical industry may result in even more resources being concentrated in some of our competitors. Competition may increase further as a result of advances made in the commercial applicability of technologies and greater availability of capital for investment in these fields. Our success will be based in part on our ability to build, obtain regulatory approval for and market acceptance of, and actively manage a portfolio of drugs that addresses unmet medical needs and creates value in patient therapy.

In addition, our competitors may have a variety of drugs in development or awaiting market approval that could reach the market and become established before we have a product to sell. Our competitors may also develop alternative therapies that could further limit the market for any drugs that we may develop. Many of our competitors are using technologies or methods different or similar to ours to identify and validate drug targets and to discover novel small molecule drugs. Many of our competitors and their collaborators have significantly greater experience than we do in the following:

- identifying and validating targets;
- screening compounds against targets;
- preclinical and clinical trials of potential pharmaceutical products; and
- obtaining regulatory clearances.

In addition, many of our competitors and their collaborators have substantially greater advantages in the following areas:

- capital resources;
- research and development resources;
- manufacturing capabilities; and
- sales and marketing.

Smaller companies also may prove to be significant competitors, particularly through proprietary research discoveries and collaborative arrangements with large pharmaceutical and established biotechnology companies. Many of our competitors have products that have been approved by the FDA or its foreign counterparts or are in advanced development. We face competition from other companies, academic institutions, governmental agencies and other public and private research organizations for collaborative arrangements with pharmaceutical and biotechnology companies, in recruiting and retaining highly qualified scientific and management personnel and for licenses to additional technologies. Developments by others may render our product candidates or our technologies obsolete. Our failure to compete effectively could have a material adverse effect on our business.

PRS-080

Other drug candidates in development that interfere with hepcidin function or expression include ISIS/Xenon (anti-sense) and Alnylam (RNAi), which have nucleic acid based approaches aimed at reducing hepcidin synthesis in preclinical development. Noxxon's RNA aptamer sequesters hepcidin and is in clinical studies in cancer patients. A mAb against hepcidin is tested in cancer as well as chronic kidney disease patients by Lilly as well as a mAb against the ferroportin transporter. Ferrumax develops a soluble form of hemojuvelin, a protein that regulates hepcidin expression and iron metabolism, that aims to suppress the production rate of hepcidin.

There are also a number of companies which are focused on treating anemia in CKD patients under alternative approaches. Fibrogen, Akebia Therapeutics, GSK, Bayer, and Japan Tobacco have hypoxia-inducible-factor prolyl hydroxylase (HIF-PH) inhibitors in clinical development that target stimulation of bone marrow activity. Acceleron is also targeting the sequestration of Activin A, a natural inhibitor of hematopoiesis, is in a Phase II clinical study. Zenerex by Keryx, which targets formulation of oral iron, is currently been tested in Phase II in CKD patients. There are also various companies conducting late-stage development of erythropoietin biosimilars.

PRS-060

Like PRS-060, new developments for the treatment of uncontrolled moderate to severe asthma patients mainly include drug candidates targeting the Th2 pathway by interfering with IL4/IL-13 or IL-5 function. Such products include dupilumab (Sanofi/Regeneron, IL-4RA), lebrikizumab (Roche/Genentech, IL-13), tralokinumab (Astra Zeneca, IL-13), mepolizumab (GSK, IL-5), reslizumab (Teva, IL-5), and benralizumab (Astra Zeneca, IL-5R). These drugs are in later clinical development (Phase II and Phase III) than PRS-060, or were submitted for approval (mepolizumab), however in contrast to PRS-060, these mAbs are given to patients through injection and distribute systemically through the blood stream. There are a number of other companies presently marketing or developing other therapies for asthmatic patients. The mAb omalizumab, directed against IgE, is approved for the treatment of uncontrolled, moderate to severe asthma patients.

PRS-110

Competitor drug candidates targeting the cMet pathway include MetMab (Roche/Genentech), LY2875359 (Eli Lilly), ABT700 (Abbvie) and earlier stage candidates by other companies. MetMab is a monovalent cMet binder, or a one-armed antibody, and has shown efficacy in cMet-high patients (IHC 2+, 3+) in a Phase II trial in non-small-cell lung carcinoma, or NSCLC, patients. However, one Phase III study of MetMab in combination with Erlotinib in NSCLC patients was recently terminated due to lack of a survival benefit, which has led to the decision by Roche to suspend the program. LY2875359 by Eli Lilly and ABT700 by Abbvie are bivalent mAbs against cMet currently in Phase I/II clinical testing. Both mAbs have demonstrated efficacy in Phase I trials.

Several small molecule inhibitors are also undergoing clinical evaluation, including multi-targeted tyrosine kinase inhibitors from ArQule (ARQ197) and Exelixis (XL-184 & XL-880). Crizotinib by Pfizer is an FDA approved small molecule inhibitor, which targets anaplastic lymphoma kinase, or ALK, a protein implicated in certain cancers, and which also has anti-cMet activity. In 2011, Crizotinib was approved for treatment of metastatic NSCLC patients who express ALK fusion proteins. PRS-110 and other cMet-targeting drugs also compete with HGF inhibitors. The monoclonal antibody AMG102 by Amgen is the most advanced HGF-targeting molecule in clinical trials. AV299 by Aveo is another HGF-targeting antibody in clinical development.

PRS-300 series

Other drug candidates which target checkpoint proteins include ipilimumab, which is specific for the checkpoint protein CTLA-4 and has been marketed by Bristol Myers Squibb for the treatment of melanoma patients since 2011. Additionally, preclinical and/or clinical testing currently focusing on additional checkpoint mechanisms and targets include PD-1 / PD-L1, LAG3, IDO, TIM3, Ox-40, CD-137, CD70, KIR and NKG2A. Bristol Myers Squibb and Roche are most active in this area, with multiple single agent or combination therapy trials ongoing. Merck and AstraZeneca also have active trials ongoing, while Novartis is placing more of an emphasis on adoptive T cell transfer technology in its developmental efforts. In September 2014, Merck received FDA approval for its anti- PD-1 antibody, pembrolizumab, for the treatment of patients with advanced or inoperable melanoma.

Under the 300-Series, we are also developing multispecific molecules to facilitate the more effective activation of the immune system, with a strategy of employing multispecific Anticalin® protein-based molecules that may favorably bias an immune response to the tumor microenvironment. A number of other companies, such as Amgen, Affimed, Macrogenics, F-Star and Sutro, also pursue multispecific approaches in oncology, which therapies are in clinical or preclinical development.

Manufacturing

We do not own or operate, and currently have no plans to establish, any manufacturing facilities. We currently rely, and expect to continue to rely, on third-party contract manufacturers, or CMOs, for the manufacture of our drug candidates for larger scale preclinical and clinical testing, as well as for commercial quantities of any drug candidates that are approved.

We currently rely on one CMO for all of our clinical supplies, including active pharmaceutical ingredients, or APIs, drug substances and finished drug products for our preclinical research and clinical trials, including the Phase I trial for PRS-080.

We believe that we will be able to contract with another CMO to obtain API if our existing source of API was no longer available or sufficient, but there is no assurance that API would be available from another third-party manufacturer on acceptable terms, on the timeframe that our business would require, or at all. We do not have long-term supply commitments or other arrangements in place with our existing CMO. We also do not currently have arrangements in place for redundant supply of bulk drug substance.

We do not have any current contractual relationships for the manufacture of commercial supplies of any of our drug candidates if they are approved, and we intend to enter into agreements with a third-party contract manufacturer and one or more back-up manufacturers for the commercial production of our product candidates as they near potential approval.

Any drug products to be used in clinical trials and any approved product that we may commercialize will need to be manufactured in facilities, and by processes, that comply with FDA's current good manufacturing practice requirements and comparable requirements of the regulatory agencies of other jurisdictions in which we are seeking approval. We currently employ internal resources to manage our manufacturing contractors.

We believe that PRS-080 and PRS-060 and our other Anticalin®-branded drug candidates can be manufactured in reliable and reproducible biologic processes from readily available starting materials. PRS-080 and PRS-060 are produced using bacterial expression systems similar to those that have been used in the past for the production of other proteins and which systems are widely

used in the industry. We believe that the manufacturing process is amenable to scale-up and will not require unusual or expensive equipment. We expect to continue to develop, on our own or with our collaborators, drug candidates that can be produced cost-effectively at contract manufacturing facilities.

Intellectual Property and Exclusivity

Our commercial success depends in part on our ability to obtain and maintain exclusivity of our proprietary Anticalin®-brand technologies through intellectual property protection for our drug candidates, libraries of different protein scaffolds and consensus sequences and the fundamental Anticalin platform technology, including novel therapeutic and diagnostic discoveries, as well as other proprietary know-how, and to operate without infringing on the intellectual property rights of others.

We seek to protect our exclusive position of Anticalin® technologies by, among other means, prosecuting our own international, U.S. and foreign patent applications related to our proprietary technology, inventions and improvements that are important to the development and implementation of our business. We established intellectual property protection in relation to our Anticalin technologies in key global markets, including Australia, Brazil, Canada, China, the European Union, Hong Kong, India, Japan, Korea, New Zealand, Russia, Singapore, South Africa and the United States, resulting in Anticalin drug class protection that runs until at least 2020. We also rely on trade secrets for confidential know-how, which we generally seek to protect through contractual (e.g. confidentiality) obligations with employees and third parties.

We have protected the goodwill of our Company and our drug candidates, created through innovation and development, by putting in place trademark registrations of Pieris® and Anticalin® as well as several defensive registrations.

We currently, and expect that we will continue to, file patent applications and maintain granted patents directed to our key drug candidates in an effort to establish intellectual property positions relating to new compositions of matter for these drug candidates, as well as novel medical applications of these compounds in the treatment, prevention or diagnosis of various indications. We also intend to seek patent protection, if available, with respect to biomarkers that may contribute to selecting the right patient population for use of any of our drug candidates, or with respect to pharmaceutical formulations that may be useful to produce final medicinal products.

Following the effective date of our Research and Licensing Agreement with Technische Universität München, or TUM (See "—TUM License Agreement"), and as of the date of this report, we own or are the exclusive licensee of a patent portfolio consisting of two issued U.S. patents, and their respective counterparts in a number of foreign jurisdictions, several pending applications under the Patent Cooperation Treaty, multiple pending U.S. patent applications and corresponding pending patent applications in a number of foreign jurisdictions as well as three pending provisional patent applications.

In applicable jurisdictions, we will seek patent term extensions for certain of our patents including the patent term adjustment period in the U.S. If we obtain marketing approval for our drug candidates in the United States or in certain jurisdictions outside of the United States, we may be eligible for regulatory protection, such as twelve years of data exclusivity for new biological entities in the United States and as mentioned below, up to five years of patent term extension potentially available in the United States under the Hatch-Waxman Act, 8 to 11 years of data and marketing exclusivity potentially available for new drugs in the European Union, up to five years of patent extension in Europe (Supplemental Protection Certificate), and eight years of data exclusivity potentially available in Japan. There can be no assurance that we will qualify for any such regulatory exclusivity, or that any such exclusivity will prevent competitors from seeking approval solely on the basis of their own studies. See "—Government Regulation."

Among the issued patents we own are U.S. patent No. 7,250,297; U.S. patent No.7,723,476; U.S. patent No. 8,158,753; U.S. patent No. 8,536,307; and their respective counterparts in the European Union, which patents are directed to the basic Anticalin® protein concept and platform technology (i.e. antagonist or agonist compounds derived from a natural lipocalin protein) and are expected to expire in 2018, subject to patent term adjustments in the U.S. of up to 794 days. In addition, we hold issued U.S. patents Nos.: 7,001,882; 7,118,915; 7,691,970; 7,585,940; 7,893,208; and 8,313,924; and their respective counterparts in a number of foreign jurisdictions, which patents are related to libraries of different scaffolds and consensus sequences such as human apolipoprotein D, human neutrophil gelatinase-associated lipocalin, or hNGAL, and human tear lipocalin, and are expected to expire between 2020 and 2027, subject to patent term adjustments in the U.S. of up to 685 days. We also own U.S. patent No. 7,892,827, which is directed to muteins derived from hNGAL having binding specificity for the cytotoxic T lymphocyte-associated antigen, or CTLA-4, and is expected to expire in 2025, subject to a 350-day patent term adjustments in the U.S., and U.S. patent No. 8,313,924, which is directed to muteins of human tear lipocalin having detectable binding affinity to interleukin 4 receptor alpha chain, or IL-4 receptor alpha, and is expected to expire in 2027, subject to a 424 day patent term adjustment in the U.S., as well as their counterparts in the European Union and in a number of foreign jurisdictions.

As of the date of this report, a significant portion of our pending U.S. patent applications and pending patent applications in foreign jurisdictions is directed to newly-discovered or improved scaffold libraries of lipocalin muteins, compounds derived therefrom, or the uses of such compounds to treat, prevent and mitigate certain diseases and conditions whose pathological development involve the targets of interest as well as to diagnose, prognose and select treatments for the diseases and conditions. We would expect that any patents that may issue from the pending U.S. patent applications would likely expire between 2029 and 2035 without taking into account possible patent term adjustments or other extensions, however, any and all of these patent applications may not result in issued patents, and not all issued patents may be maintained in force for their entire term. Specifically, granted patents and pending patent applications directed to Anticalin® proteins for the cMet target currently have terms which could expire as late as 2029, and granted patents and pending patent applications directed to Anticalin proteins for each of hepcidin and IL-4RA currently have terms which could expire as late as 2031. We are actively pursuing intellectual property protection for our 300-Series in key global markets that, if granted, could expire as late as 2035. To date, we are not aware of any third party intellectual property for freedom to operate on our platforms or therapeutic programs.

In addition to patents, we hold two trademarks in the United States, for Anticalin®, Pieris®, and Pocket Binding™. Similarly, we hold their respective counterparts, either as registered trademarks or as pending applications, in a number of foreign jurisdictions. We expect that we will continue to look for trademark protection for the goodwill associated with our Company and our drug candidates in the countries or regions where we will have investment, research and development, sales or other activities.

We also rely upon unpatented trade secrets and know-how and continuing technological innovation to develop and maintain our competitive advantage. We strive to protect our proprietary information, in part, by using confidentiality agreements and/or invention assignment agreements with our collaborators, scientific advisors, employees and consultants. The confidentiality agreements are designed to protect our proprietary information and, in the case of agreements requiring invention assignment, to grant us ownership of technologies that are developed through a relationship with a third-party. We also actively manage our publication and patent applications in that we only disclose information necessary to stir scientific interest or demonstrate patentability without materially compromising the secrecy of our valuable trade secrets and know-how. While we consider trade secrets and know-how to be a critical component of our intellectual property, trade secrets and know-how can be difficult to protect. In particular, with respect to our technology platform, we anticipate that these trade secrets and know-how will over the course of time be disseminated within the industry through independent development, the publication of journal articles describing the methodology and the movement of personnel skilled in the technology from academic to industry positions and vice versa. As a result, those proprietary trade secrets and know-how may lose their value to us over a period of time, and we may lose any competitive advantage afforded by them as they become public knowledge.

Strategic Partnerships

Since 2007, Pieris Operating has entered into several licensing, research and development collaborations to complement our drug discovery and early stage development capabilities. Specifically, Pieris Operating has entered into licensing, research and development agreements which are still active as of the date of this report, with Allergan, Inc., or Allergan, Sanofi Group (formerly Sanofi-Aventis and Sanofi-Pasteur SA) and collectively, Sanofi, and Daiichi Sankyo. Under these licensing and research and development arrangements, we have developed and conducted or will develop and conduct selection and screening of drug candidates as well as *in vitro* potency and efficacy testing using our Anticalin®-brand drug discovery platform, our Anticalin-brand libraries and other proprietary methods to generate, identify and characterize drug candidates against certain biological targets associated with several diseases. These agreements have provided us with approximately €31 million ($42.7 million) in revenue to date, excluding grant revenues. With respect to discontinued collaborations, we have no ongoing performance obligations, and do not expect to receive any significant additional consideration pursuant to those agreements.

Pieris Operating's agreements with Allergan, Sanofi and Daiichi Sankyo are ongoing and, under which, our partners are obligated to use commercially reasonable efforts to develop and commercialize drug candidates identified in the course of the collaboration. We are entitled to receive from our partners' research, development and regulatory milestone payments and, in the case of the Sanofi and Daiichi Sankyo collaborations, royalties on net sales for products developed and commercialized under these collaborations. We plan to continue to actively seek out additional collaboration partners.

In addition to Pieris Operating's agreements with Allergan, Sanofi and Daiichi Sankyo, we are partnering with companies with expertise in clinical development, regulatory affairs and biologics manufacturing to advance our pipeline products through clinical trials and to market those products. In 2013, Pieris Operating entered into a co-development alliance with Cadila Healthcare Limited, or Zydus, with respect to the development and sale of certain proprietary products, under which Zydus will focus on developing markets and we will focus on developed markets. Pieris Operating has also entered into a joint development and license agreement with Stelis, establishing a collaboration for clinical development and commercialization of certain of our proprietary products, focusing initially on use in ophthalmological applications.

Certain terms and conditions of our active agreements with Allergan, Sanofi and Daiichi Sankyo are summarized below as well as certain terms and conditions of our co-development agreements with Zydus and Stelis.

Our agreement with Allergan

In August 2009, Pieris Operating entered into an agreement with Allergan, Inc. (NYSE: AGN) for the use of our proprietary Anticalin® technologies in the discovery and development of drug candidates which inhibit a selected target. Under the terms of the agreement, we provided drug candidates for the treatment of ocular diseases, and Allergan is responsible for the further development and commercialization of products based on those candidates and bearing related costs. We have granted Allergan a worldwide and exclusive license under our patent portfolio for the use of certain drug candidates for the treatment and prevention of ocular diseases.

Upon entering into the agreement, we received a payment of $10 million. We are entitled to receive up to an aggregate of $13 million in additional payments on achieving various milestones. We are not entitled to any royalties from sales of products commercialized under our agreement with Allergan. During the term of the agreement and as long as Allergan commercializes the drug candidates designated under the agreement, we may not grant rights to any third party with respect to any drug candidates that inhibit the same target within the field licensed to Allergan.

Either party may terminate the agreement in the event of the other party's material breach of the agreement remains uncured for a specified period or in the event the bankruptcy of the other party. Allergan has the unilateral right to terminate the agreement upon specified prior written notice to us. On termination, all rights granted to Allergan in our Anticalin® technologies would end.

Our collaboration with Sanofi

In September 2010, Pieris Operating entered into a collaboration and license agreement with Sanofi, which was subsequently amended in February 2013. Under the terms of the agreement, we have agreed to use our proprietary Anticalin® technologies to identify drug candidates against certain targets, with further development and commercialization activities conducted by Sanofi. The collaboration started with two targets under two separate collaboration projects and was extended by an additional multispecific Anticalin program in 2013. When we entered the collaboration we granted Sanofi an exclusive worldwide license to develop drug candidates identified in the course of the collaboration and market products based on those drug candidates under the collaboration.

In consideration of our obligations, as a part of the collaboration we received a €3.5 million ($4.8 million) upfront payment and specified research funding. We also are entitled to receive payments on the achievement of research, development and commercial milestones for each product, with up to €26.0 million ($35.8 million) in development milestones and up to €18 million ($24.8 million) in commercial milestones for the first therapeutic application and lesser amounts on subsequent therapeutic applications. We have the ability to receive over €50 million ($68.9 million) potential milestone payments from the active collaboration project, including estimated milestone payments in connection with one or more subsequent applications. Payments due to us also include tiered mid-to mid-high single digit royalties on sales of products. We have agreed that we will not use our Anticalin® technologies to perform, on our own behalf or for third parties, any research or development activities on the same target to which any active program relates.

During the term of the agreement, Sanofi may terminate any or all programs thereunder for convenience by giving specified prior written notice to us. Either party may also terminate the agreement for a material breach by the other party which remains uncured after specified advance notice of such breach or for the other party's insolvency. If a program or the agreement is terminated by Sanofi, rights in products and developed technology resulting from the terminated program (including the right to grant sublicenses) revert or are transferred to us. If a program is terminated prior to the development of the product by Sanofi, our right to commercialize that product is royalty-free. Otherwise, we would owe to Sanofi royalties in the single digits as a percentage of net sales on such product sold by us or our licensee, with total royalty payments capped at a certain amount, and with the royalty rate dependent on the maturity of the program at the time of termination. Sanofi has terminated two of the three programs (one program was terminated for internal strategic reasons and the other program was terminated following *in vivo* studies, as *in vitro* functionality did not fully translate into *in vivo* functionality for this first in class program), and we have the right to develop and commercialize drug candidates of the terminated programs on a royalty-free basis. The remaining active collaboration project was handed over to Sanofi for further development in the fourth quarter of 2014.

Our collaboration with Daiichi Sankyo

In May 2011, Pieris Operating entered into a definitive collaboration research and technology licensing agreement with Daiichi Sankyo, under which we agreed to use our proprietary Anticalin® scaffold technologies to discover novel drug candidates against two targets chosen by Daiichi Sankyo under two separate collaboration projects. Upon achievement of preclinical development milestones for lead drug candidates, Daiichi Sankyo assumes responsibility for, and to use commercially reasonable efforts in, the further development and marketing of products based on those candidates. As of the date of this report, we have handed over further development responsibility for the two collaboration projects to Daiichi Sankyo, which handovers occurred in March 2013 and June 2014.

We received €7.2 million ($9.9 million) upon signing of the collaboration agreement, excluding a 10% Japanese withholding tax, and received research funding. We are entitled to payment on the achievement of research and development milestones of up to €35.85 million ($49.4 million) for the first prophylactic or therapeutic product, with reduced amounts for achievement of those milestones in additional indications. We are also entitled to payment of commercialization milestones of up to €45 million ($62.0 million) for a prophylactic or therapeutic product. On development and commercialization of a diagnostic product, we are entitled to development and commercialization milestones of up to €675,000 ($930,083). We have the ability to receive up to approximately €200 million ($275,580,000) in potential milestone payments from the two collaboration projects, including estimated milestone payments in connection with one or more additional indications. Daiichi Sankyo is further obliged to pay to us tiered, mid- to mid-high single digit royalties on sales of products for prophylactic and therapeutic uses and low single digits on sales of products for diagnostic uses. We granted Daiichi Sankyo exclusive license rights worldwide for prophylactic and therapeutic products, and nonexclusive rights for diagnostic uses. During the collaboration, we may not use our Anticalin® technologies in research or commercial activities on the designated targets for our own account or with third parties.

Daiichi Sankyo may terminate any program under the collaboration after a certain research stage for convenience by giving specified prior written notice to us. Either party may also terminate the agreement for a material breach by the other party which remains uncured after specified advance notice of such breach or for the other party's insolvency. If a program is terminated, rights in products and developed technology resulting from the terminated program (including the right to grant sublicenses) revert or are transferred to us. If a program is terminated by us because of a material breach by Daiichi Sankyo, our sale of products resulting from the program is royalty-free. If a program is terminated by us because of Daiichi Sankyo's failure to meet diligence obligations or by Daiichi Sankyo for convenience, we will be required to pay to Daiichi Sankyo royalties on sale of products resulting from the program in the low single digits as a percentage of net sales up to a specified aggregate royalty amount.

Our collaboration with Zydus

In October 2013, Pieris Operating entered into a development and license agreement with Zydus. Under the terms of the agreement, we collaborate with Zydus in the development of certain Anticalin® drug candidates, and Zydus takes the lead in advancing those products through preclinical and clinical proof of concept development and is responsible for its expenses relating to that advancement, which include drug manufacturing. Zydus has been granted exclusive rights to commercialize these products in India and several other developing countries. We retain the right to commercialize these products in key developed markets. We and Zydus have cross-licensed our respective rights in new inventions derived during the collaboration for these products in these territories.

Under the terms of the collaboration, we would be entitled to a payment on achievement of a certain development milestone in the Zydus territory, and a low-to mid-single digit royalty on product sales. We would also be entitled to a share of Zydus' revenue from a sublicense of its rights in the product. We are obliged on the occurrence of a product's achieving certain development milestones in our territory to make payments to Zydus, and to pay low-single digit royalties on product sales. We also are obliged to share with Zydus a percentage of our revenue received from out-licensing rights in the product in our territory, which percentage varies based on the stage of development of the product at the time of out-licensing, should we choose to out-license the product. Upon completion of a certain stage of clinical development, either party may choose to discontinue development, in which case the other party would have the right to continue development and its payment obligations to the discontinuing party would be reduced. During the term of the agreement, we may not sell a product, or enable a third party to sell a product, that is the subject of the collaboration in the Zydus territory for use in the treatment, palliation or prevention of certain diseases in humans.

Either party may also terminate the agreement for a material breach by the other party which remains uncured after specified advance notice of such breach, the other party's insolvency, or where the parties conclude that clinical data do not support further development.

Our collaboration with Stelis

In November 2013, Pieris Operating entered into a joint development and license agreement with Stelis. Under the terms of the agreement, we collaborate with Stelis in the development of certain Anticalin® drug candidates, initially for use in the treatment, palliation or prevention of ophthalmology-related diseases. Under the terms of the agreement, we contribute certain proprietary assets to the development project, and Stelis agrees to establish a production process for preclinical and clinical supplies of product at its expense and to perform and fund certain preclinical studies and a first-in-human clinical study for each product under joint development at the expense of Stelis. We agreed that upon reaching certain development stages for a product, we and Stelis would discuss the possible formation of a joint venture with approximately equal shareholding between Pieris Operating and Stelis to further develop and commercialize such product worldwide. If a party does not wish to enter into a joint venture, the other party may continue development and commercialization of a product, subject to terms and conditions to be established by a separate agreement.

Prior to the formation of the joint venture, either party may also terminate the agreement for a material breach by the other party which remains uncured after specified advance notice of such breach, or for the other party's insolvency.

TUM License Agreement

On July 4, 2003, Pieris Operating entered into a Research and Licensing agreement with TUM, which was subsequently renewed and, on July 26, 2007, superseded and replaced. The agreement establishes a joint research effort led by Prof. Arne Skerra, Chair of Biological Chemistry of TUM, to optimize Anticalin® technologies for use in therapeutic, prophylactic and diagnostic applications and as research reagents, and to gain fundamental insights in lipocalin scaffolds. We provided certain funding for TUM research efforts performed under the agreement. The research phase of this collaboration ended on February 28, 2013.

Under the terms of the agreement TUM assigns to us certain materials and records resulting from the research. We retain rights to inventions made by our employees, and TUM assigns to us all inventions made under the agreement jointly by our employees and TUM personnel, provided that our employees have made a certain inventive contribution. With respect to all other inventions made in the course of the research, TUM grants to us worldwide exclusive license rights under patents and patent applications claiming such inventions. TUM retains rights to practice these inventions for research and teaching purposes.

As a result of research efforts to date under the agreement, we hold a worldwide exclusive license under our license agreement with TUM to multiple patents and patent applications. In the United States, we hold an exclusive license to an issued U.S. patent No. 8,598,317 for the composition of matter of mutein of human tear lipocalin binding to the extracellular region of the T-cell co-receptor CD4 with detectable affinity, which patent will expire in 2027 (subject to a patent term adjustment period which is expected to be at least 742 days), as well as to its counterpart in the European Union. We also hold an exclusive license to an issued U.S. patent No. 8,420,051 directed to library of hNGAL scaffold of certain consensus sequence, which patent is expected to expire in 2029 (subject to a patent term adjustment period of 109 days), as well as to its counterparts in the European Union and in a number of foreign jurisdictions. We bear the costs of filing, prosecution and maintenance of patents assigned or licensed to us under the agreement.

As consideration for the assignments and licenses we are obliged to pay to TUM milestone payments on development of our proprietary products claimed by patents assigned or licensed to us by TUM. We also are obliged to pay low single digit royalties, including annual minimum royalties, on sales of such products. Should we grant licenses or sublicenses to those patents to third parties, we are obliged to share a percentage or resulting revenue with TUM. Our payment obligations are reduced by our proportionate contribution to a joint invention. Payment obligations terminate on expiration or annulment of the last patent covered by the agreement.

We can terminate the licenses to any or all licensed patents upon specified advance notice to TUM. TUM may terminate the license provisions of the agreement only for cause. Termination of the agreement does not terminate our rights in patents assigned to us.

Upon initiation of the Phase I clinical trial of PRS-080 in November 2014, our obligation to pay TUM a milestone payment pursuant to the terms of the TUM License Agreement was triggered.

We are also currently in a dispute with TUM, which is described in more detail under “Business—Legal Proceedings—Arbitration Proceeding with Technische Universität München”.

Government Regulation

Government Regulation and Product Approval

Government authorities in the U.S., at the federal, state and local level, and other countries extensively regulate, among other things, the research, development, testing, manufacture, quality control, approval, labeling, packaging, storage, record-keeping, promotion, advertising, distribution, marketing and export and import of products such as those we are developing. A new drug must be approved by the FDA through the new drug application, or NDA, process and a new biologic must be approved by the FDA through the biologics license application, or BLA, process before it may be legally marketed in the U.S.

U.S. Drug Development Process

In the U.S., the FDA regulates drugs under the federal Food, Drug, and Cosmetic Act, or FDCA, and in the case of biologics, also under the Public Health Service Act, or PHSA, and implementing regulations. The process of obtaining regulatory approvals and the subsequent compliance with appropriate federal, state, local, and foreign statutes and regulations require the expenditure of substantial time and financial resources. Failure to comply with the applicable U.S. requirements at any time during the product development process, approval process or after approval, may subject an applicant to administrative or judicial sanctions. These sanctions could include the FDA’s refusal to approve pending applications, withdrawal of an approval, a clinical hold, warning letters, product recalls, product seizures, total or partial suspension of production or distribution, injunctions, fines, refusals of government contracts, restitution, disgorgement, or civil or criminal penalties. Any agency or judicial enforcement action could have a material adverse effect on us. The process required by the FDA before a drug or biologic may be marketed in the U.S. generally involves the following:

- completion of preclinical laboratory tests, animal studies and formulation studies according to Good Laboratory Practices or other applicable regulations;
- submission to the FDA of an IND which must become effective before human clinical trials may begin;
- performance of adequate and well-controlled human clinical trials according to Good Clinical Practices to establish the safety and efficacy of the proposed drug for its intended use;
- submission to the FDA of an NDA or BLA;
- satisfactory completion of an FDA inspection of the manufacturing facility or facilities at which the drug is produced to assess compliance with current good manufacturing practice, or cGMP, to assure that the facilities, methods and controls are adequate to preserve the drug's identity, strength, quality and purity; and
- FDA review and approval of the NDA or BLA.

Once a pharmaceutical candidate is identified for development it enters the preclinical testing stage. Preclinical tests include laboratory evaluations of product chemistry, toxicity and formulation, as well as animal studies. An IND sponsor must submit the results of the preclinical tests, together with manufacturing information and analytical data, to the FDA as part of the IND. The sponsor will also include a protocol detailing, among other things, the objectives of the first phase of the clinical trial, the parameters to be used in monitoring safety, and the effectiveness criteria to be evaluated, if the first phase lends itself to an efficacy evaluation. Some preclinical testing may continue even after the IND is submitted. The IND automatically becomes effective 30 days after receipt by the FDA, unless the FDA, within the 30-day time period, places the clinical trial on a clinical hold. In such a case, the IND sponsor and the FDA must resolve any outstanding concerns before the clinical trial can begin. Clinical holds also may be imposed by the FDA at any time before or during studies due to safety concerns or non-compliance.

All clinical trials must be conducted under the supervision of one or more qualified investigators in accordance with good clinical practice regulations. They must be conducted under protocols detailing the objectives of the trial, dosing procedures, subject selection and exclusion criteria and the safety and effectiveness criteria to be evaluated. Each protocol must be submitted to the FDA as part of the IND, and progress reports detailing the results of the clinical trials must be submitted at least annually. In addition, timely safety reports must be submitted to the FDA and the investigators for serious and unexpected adverse events. An institutional review board, or IRB, at each institution participating in the clinical trial must review and approve each protocol before a clinical trial commences at that institution and must also approve the information regarding the trial and the consent form that must be provided to each trial subject or his or her legal representative, monitor the study until completed and otherwise comply with IRB regulations.

Human clinical trials are typically conducted in three sequential phases that may overlap or be combined:

- ***Phase I:*** The product candidate is initially introduced into healthy human subjects and tested for safety, dosage tolerance, absorption, metabolism, distribution and excretion. In the case of some products for severe or life-threatening diseases, such as cancer, especially when the product may be too inherently toxic to ethically administer to healthy volunteers, the initial human testing is often conducted in patients.
- ***Phase II:*** This phase involves studies in a limited patient population to identify possible adverse effects and safety risks, to preliminarily evaluate the efficacy of the product for specific targeted diseases and to determine dosage tolerance and optimal dosage.
- ***Phase III:*** Clinical trials are undertaken to further evaluate dosage, clinical efficacy and safety in an expanded patient population at geographically dispersed clinical study sites. These studies are intended to establish the overall risk-benefit ratio of the product candidate and provide, if appropriate, an adequate basis for product labeling.

The FDA or the sponsor may suspend a clinical trial at any time on various grounds, including a finding that the research subjects or patients are being exposed to an unacceptable health risk. Similarly, an IRB can suspend or terminate approval of a clinical trial at its institution if the clinical trial is not being conducted in accordance with the IRB's requirements or if the drug has been associated with unexpected serious harm to patients. Phase I, Phase II, and Phase III testing may not be completed successfully within any specified period, if at all.

During the development of a new drug, sponsors are given opportunities to meet with the FDA at certain points. These points may be prior to submission of an IND, at the end of Phase II, and before an NDA or BLA is submitted. Meetings at other times may be requested. These meetings can provide an opportunity for the sponsor to share information about the data gathered to date, for the

FDA to provide advice, and for the sponsor and FDA to reach agreement on the next phase of development. Sponsors typically use the End of Phase II meeting to discuss their Phase II clinical results and present their plans for the pivotal Phase III clinical trial that they believe will support approval of the new drug.

Concurrent with clinical trials, companies usually complete additional animal studies and must also develop additional information about the chemistry and physical characteristics of the drug and finalize a process for manufacturing the product in commercial quantities in accordance with cGMP requirements. The manufacturing process must be capable of consistently producing quality batches of the product candidate and, among other things, the manufacturer must develop methods for testing the identity, strength, quality and purity of the final drug. Additionally, appropriate packaging must be selected and tested and stability studies must be conducted to demonstrate that the product candidate does not undergo unacceptable deterioration over its shelf life.

U.S. Review and Approval Processes

The results of product development, preclinical studies and clinical trials, along with descriptions of the manufacturing process, analytical tests conducted on the chemistry of the drug, proposed labeling, and other relevant information are submitted to the FDA as part of an NDA or BLA requesting approval to market the product. The submission of an NDA or BLA is subject to the payment of user fees; a waiver of such fees may be obtained under certain limited circumstances. The FDA reviews all NDAs and BLAs submitted to ensure that they are sufficiently complete for substantive review before it accepts them for filing. The FDA may request additional information rather than accept a NDA or BLA for filing. In this event, the NDA or BLA must be resubmitted with the additional information. The resubmitted application also is subject to review before the FDA accepts it for filing. Once the submission is accepted for filing, the FDA begins an in-depth substantive review. FDA may refer the NDA or BLA to an advisory committee for review, evaluation and recommendation as to whether the application should be approved and under what conditions. The FDA is not bound by the recommendation of an advisory committee, but it generally follows such recommendations. The approval process is lengthy and often difficult, and the FDA may refuse to approve an NDA or BLA if the applicable regulatory criteria are not satisfied or may require additional clinical or other data and information. Even if such data and information is submitted, the FDA may ultimately decide that the NDA or BLA does not satisfy the criteria for approval. Data obtained from clinical trials are not always conclusive and the FDA may interpret data differently than we interpret the same data. The FDA may issue a complete response letter, which may require additional clinical or other data or impose other conditions that must be met in order to secure final approval of the NDA or BLA, or an approved letter following satisfactory completion of all aspects of the review process. The FDA reviews an NDA to determine, among other things, whether a product is safe and effective for its intended use and whether its manufacturing is cGMP-compliant to assure and preserve the product's identity, strength, quality and purity. The FDA reviews a BLA to determine, among other things whether the product is safe, pure and potent and the facility in which it is manufactured, processed, packed or held meets standards designed to assure the product's continued safety, purity and potency. Before approving an NDA or BLA, the FDA will inspect the facility or facilities where the product is manufactured.

NDAs or BLAs receive either standard or priority review. A drug representing a significant improvement in treatment, prevention or diagnosis of disease may receive priority review. Priority review for an NDA for a new molecular entity and original BLAs will be 6 months from the date that the NDA or BLA is filed. In addition, products studied for their safety and effectiveness in treating serious or life-threatening illnesses and that provide meaningful therapeutic benefit over existing treatments may receive accelerated approval and may be approved on the basis of adequate and well-controlled clinical trials establishing that the drug product has an effect on a surrogate endpoint that is reasonably likely to predict clinical benefit or on the basis of an effect on a clinical endpoint other than survival or irreversible morbidity. As a condition of approval, the FDA may require that a sponsor of a drug receiving accelerated approval perform adequate and well-controlled post-marketing clinical trials. Priority review and accelerated approval do not change the standards for approval, but may expedite the approval process.

If a product receives regulatory approval, the approval may be significantly limited to specific diseases and dosages or the indications for use may otherwise be limited, which could restrict the commercial value of the product. In addition, the FDA may require a sponsor to conduct Phase IV testing which involves clinical trials designed to further assess a drug's safety and effectiveness after NDA or BLA approval, and may require testing and surveillance programs to monitor the safety of approved products which have been commercialized.

The Food and Drug Administration Safety and Innovation Act, or FDASIA, which was enacted in 2012, made permanent the Pediatric Research Equity Act, or PREA, which requires a sponsor to conduct pediatric studies for most drugs and biologicals, for a new active ingredient, new indication, new dosage form, new dosing regimen or new route of administration. Under PREA, original NDAs, BLAs and supplements thereto, must contain a pediatric assessment unless the sponsor has received a deferral or waiver. The required assessment must assess the safety and effectiveness of the product for the claimed indications in all relevant pediatric subpopulations and support dosing and administration for each pediatric subpopulation for which the product is safe and effective. The sponsor or FDA may request a deferral of pediatric studies for some or all of the pediatric subpopulations. A deferral may be granted for several reasons, including a finding that the drug or biologic is ready for approval for use in adults before pediatric studies are complete or

that additional safety or effectiveness data needs to be collected before the pediatric studies begin. After April 2013, the FDA must send a non-compliance letter to any sponsor that fails to submit the required assessment, keep a deferral current or fails to submit a request for approval of a pediatric formulation.

Patent Term Restoration and Marketing Exclusivity

Depending upon the timing, duration and specifics of FDA approval of our drugs, some of our U.S. patents may be eligible for limited patent term extension under the Drug Price Competition and Patent Term Restoration Act of 1984, referred to as the Hatch-Waxman Amendments. The Hatch-Waxman Amendments permit a patent restoration term of up to five years as compensation for patent term lost during product development and the FDA regulatory review process. However, patent term restoration cannot extend the remaining term of a patent beyond a total of 14 years from the product's approval date. The patent term restoration period is generally one-half the time between the effective date of an IND, and the submission date of an NDA or BLA, plus the time between the submission date of an NDA or BLA and the approval of that application. Only one patent applicable to an approved drug is eligible for the extension, and the extension must be applied for prior to expiration of the patent. The United States Patent and Trademark Office, in consultation with the FDA, reviews and approves the application for any patent term extension or restoration.

Pediatric exclusivity is another type of marketing exclusivity available in the U.S. The FDASIA made permanent the Best Pharmaceuticals for Children Act, or BPCA, which provides for an additional six months of marketing exclusivity if a sponsor conducts clinical trials in children in response to a written request from the FDA, or a Written Request. If the Written Request does not include studies in neonates, the FDA is required to include its rationale for not requesting those studies. The FDA may request studies on approved or unapproved indications in separate Written Requests. The issuance of a Written Request does not require the sponsor to undertake the described studies.

Biologics Price Competition and Innovation Act of 2009

On March 23, 2010, President Obama signed into law the Patient Protection and Affordable Care Act which included the Biologics Price Competition and Innovation Act of 2009, or BPCIA. The BPCIA amended the PHSA to create an abbreviated approval pathway for two types of "generic" biologics—biosimilars and interchangeable biologic products, and provides for a twelve-year exclusivity period for the first approved biological product, or reference product, against which a biosimilar or interchangeable application is evaluated; however if pediatric studies are performed and accepted by the FDA, the twelve-year exclusivity period will be extended for an additional six months A biosimilar product is defined as one that is highly similar to a reference product notwithstanding minor differences in clinically inactive components and for which there are no clinically meaningful differences between the biological product and the reference product in terms of the safety, purity and potency of the product. An interchangeable product is a biosimilar product that may be substituted for the reference product without the intervention of the health care provider who prescribed the reference product.

The biosimilar applicant must demonstrate that the product is biosimilar based on data from (1) analytical studies showing that the biosimilar product is highly similar to the reference product; (2) animal studies (including toxicity); and (3) one or more clinical studies to demonstrate safety, purity and potency in one or more appropriate conditions of use for which the reference product is approved. In addition, the applicant must show that the biosimilar and reference products have the same mechanism of action for the conditions of use on the label, route of administration, dosage and strength, and the production facility must meet standards designed to assure product safety, purity and potency.

An application for a biosimilar product may not be submitted until four years after the date on which the reference product was first approved. The first approved interchangeable biologic product will be granted an exclusivity period of up to one year after it is first commercially marketed, but the exclusivity period may be shortened under certain circumstances.

In February 2012, the FDA issued 3 draft guidance documents on biosimilar product development. The draft guidance documents are: "Scientific Considerations in Demonstrating Biosimilarity to a Reference Product," "Quality Considerations in Demonstrating Biosimilarity to a Reference Protein Product," and "Biosimilars: Questions and Answers Regarding Implementation of the Biologics Price Competition and Innovation Act of 2009." In April 2013, the FDA issued a fourth draft guidance entitled, "Formal Meetings between the FDA and Biosimilar Biological Product Sponsors or Applicants." The guidance documents provide FDA's current thinking on approaches to demonstrating that a proposed biological product is biosimilar to a reference product. The FDA received public comments on the draft documents and intends to issue final guidance documents in the future. Nevertheless, the absence of a final guidance document does not prevent a sponsor for seeking licensure of a biosimilar under the BPCIA.

Orphan Drug Designation

Under the Orphan Drug Act, the FDA may grant orphan drug designation to a drug intended to treat a rare disease or condition, which is generally a disease or condition that affects fewer than 200,000 individuals in the U.S., or more than 200,000 individuals in the U.S. and for which there is no reasonable expectation that the cost of developing and making available in the U.S. a drug for this type of disease or condition will be recovered from sales in the U.S. for that drug. Orphan drug designation must be requested before submitting an NDA or BLA. After the FDA grants orphan drug designation, the identity of the therapeutic agent and its potential orphan use are disclosed publicly by the FDA. Orphan drug designation does not convey any advantage in or shorten the duration of the regulatory review and approval process.

If a product that has orphan drug designation subsequently receives the first FDA approval for the disease for which it has such designation, the product is entitled to orphan product exclusivity, which means that the FDA may not approve any other applications to market the same drug for the same indication, except in very limited circumstances, for seven years. Orphan drug exclusivity, however, also could block the approval of one of our products for seven years if a competitor obtains approval of the same drug as defined by the FDA or if our product candidate is determined to be contained within the competitor's product for the same indication or disease.

The FDA also administers a clinical research grants program, whereby researchers may compete for funding to conduct clinical trials to support the approval of drugs, biologics, medical devices, and medical foods for rare diseases and conditions. A product does not have to be designated as an orphan drug to be eligible for the grant program. An application for an orphan grant should propose one discrete clinical study to facilitate FDA approval of the product for a rare disease or condition. The study may address an unapproved new product or an unapproved new use for a product already on the market.

Fast Track Designation and Accelerated Approval

FDA is required to facilitate the development, and expedite the review, of drugs that are intended for the treatment of a serious or life-threatening disease or condition for which there is no effective treatment and which demonstrate the potential to address unmet medical needs for the condition. Under the fast track program, the sponsor of a new drug candidate may request that FDA designate the drug candidate for a specific indication as a fast track drug concurrent with, or after, the filing of the IND for the drug candidate. FDA must determine if the drug candidate qualifies for fast track designation within 60 days of receipt of the sponsor's request.

Under the fast track program and FDA's accelerated approval regulations, FDA may approve a drug for a serious or life-threatening illness that provides meaningful therapeutic benefit to patients over existing treatments based upon a surrogate endpoint that is reasonably likely to predict clinical benefit, or on a clinical endpoint that can be measured earlier than irreversible morbidity or mortality, that is reasonably likely to predict an effect on irreversible morbidity or mortality or other clinical benefit, taking into account the severity, rarity, or prevalence of the condition and the availability or lack of alternative treatments.

In clinical trials, a surrogate endpoint is a measurement of laboratory or clinical signs of a disease or condition that substitutes for a direct measurement of how a patient feels, functions, or survives. Surrogate endpoints can often be measured more easily or more rapidly than clinical endpoints. A drug candidate approved on this basis is subject to rigorous post-marketing compliance requirements, including the completion of Phase 4 or post- approval clinical trials to confirm the effect on the clinical endpoint. Failure to conduct required post-approval studies, or confirm a clinical benefit during post-marketing studies, will allow FDA to withdraw the drug from the market on an expedited basis. All promotional materials for drug candidates approved under accelerated regulations are subject to prior review by FDA.

In addition to other benefits such as the ability to use surrogate endpoints and engage in more frequent interactions with FDA, FDA may initiate review of sections of a fast track drug's BLA before the application is complete. This rolling review is available if the applicant provides, and FDA approves, a schedule for the submission of the remaining information and the applicant pays applicable user fees. However, FDA's time period goal for reviewing an application does not begin until the last section of the BLA is submitted. Additionally, the fast track designation may be withdrawn by FDA if FDA believes that the designation is no longer supported by data emerging in the clinical trial process.

In FDASIA, Congress encouraged the FDA to utilize innovative and flexible approaches to the assessment of products under accelerated approval. The law required the FDA to issue related draft guidance within a year after the law's enactment and also promulgate confirming regulatory changes. In June 2013, the FDA published a draft Guidance for Industry entitled, "Expedited Programs for Serious Conditions-Drugs and Biologics" which provides guidance on FDA programs that are intended to facilitate and expedite development and review of new drugs as well as threshold criteria generally applicable to concluding that a drug is a candidate for these expedited development and review programs. In addition to the Fast Track, accelerated approval and priority review programs discussed above, the FDA also provided guidance on a new program for Breakthrough Therapy designation. A request for Breakthrough Therapy designation should be submitted concurrently with, or as an amendment to an IND. FDA has already granted this designation to over 30 new drugs and has approved several.

Post-Approval Requirements

Once an approval is granted, the FDA may withdraw the approval if compliance with regulatory standards is not maintained or if problems occur after the product reaches the market. Later discovery of previously unknown problems with a product may result in restrictions on the product or even complete withdrawal of the product from the market. After approval, some types of changes to the approved product, such as adding new indications, manufacturing changes and additional labeling claims, are subject to further FDA review and approval. Drug manufacturers and other entities involved in the manufacture and distribution of approved drugs are required to register their establishments with the FDA and certain state agencies, and are subject to periodic unannounced inspections by the FDA and certain state agencies for compliance with cGMP and other laws and regulations. We rely, and expect to continue to rely, on third parties for the production of clinical and commercial quantities of our products. Future inspections by the FDA and other regulatory agencies may identify compliance issues at the facilities of our contract manufacturers that may disrupt production or distribution, or require substantial resources to correct.

Any drug products manufactured or distributed by us pursuant to FDA approvals are subject to continuing regulation by the FDA, including, among other things, record-keeping requirements, reporting of adverse experiences with the drug, providing the FDA with updated safety and efficacy information, drug sampling and distribution requirements, complying with certain electronic records and signature requirements, and complying with FDA promotion and advertising requirements. FDA strictly regulates labeling, advertising, promotion and other types of information on products that are placed on the market. Drugs may be promoted only for the approved indications and in accordance with the provisions of the approved label.

From time to time, legislation is drafted, introduced and passed in Congress that could significantly change the statutory provisions governing the approval, manufacturing and marketing of products regulated by the FDA. It is impossible to predict whether further legislative changes will be enacted, or FDA regulations, guidance or interpretations changed or what the impact of such changes, if any, may be.

Foreign Regulation

In addition to regulations in the United States, we will be subject to a variety of foreign regulations governing clinical trials and commercial sales and distribution of our products. Whether or not we obtain FDA approval for a product, we must obtain approval by the comparable regulatory authorities of foreign countries or economic areas, such as the 28-member European Union, before we may commence clinical trials or market products in those countries or areas. The approval process and requirements governing the conduct of clinical trials, product licensing, pricing and reimbursement vary greatly from place to place, and the time may be longer or shorter than that required for FDA approval.

Under European Union regulatory systems, a company may submit marketing authorization applications either under a centralized or decentralized procedure. The centralized procedure, which is compulsory for medicinal products produced by biotechnology or those medicinal products containing new active substances for specific indications such as the treatment of AIDS, cancer, neurodegenerative disorders, diabetes, viral diseases and designated orphan medicines, and optional for other medicines which are highly innovative. Under the centralized procedure, a marketing application is submitted to the European Medicines Agency where it will be evaluated by the Committee for Medicinal Products for Human Use and a favorable opinion typically results in the grant by the European Commission of a single marketing authorization that is valid for all European Union member states within 67 days of receipt of the opinion. The initial marketing authorization is valid for five years, but once renewed is usually valid for an unlimited period. The decentralized procedure provides for approval by one or more “concerned” member states based on an assessment of an application performed by one member state, known as the “reference” member state. Under the decentralized approval procedure, an applicant submits an application, or dossier, and related materials to the reference member state and concerned member states. The reference member state prepares a draft assessment and drafts of the related materials within 120 days after receipt of a valid application. Within 90 days of receiving the reference member state’s assessment report, each concerned member state must decide whether to approve the assessment report and related materials. If a member state does not recognize the marketing authorization, the disputed points are eventually referred to the European Commission, whose decision is binding on all member states.

When conducting clinical trials in the EU, we must adhere to the provisions of the EU Clinical Trials Directive and the laws and regulations of the EU Member States implementing them. These provisions require, among other things, that the prior authorization of an Ethics Committee and the competent Member State authority be obtained before commencing the clinical trial.

As in the United States, it may be possible in foreign countries to obtain a period of market and/or data exclusivity that would have the effect of postponing the entry into the marketplace of a competitor's generic product. For example, in the EU, if any of our products receive marketing approval in the European Economic Area, or EEA which is comprised of the 28 member states of the EU plus Norway, Iceland and Liechtenstein, we expect they will benefit from 8 years of data exclusivity and an additional 2 years of marketing exclusivity. An additional one-year extension of marketing exclusivity is possible if during the data exclusivity period, we obtain an authorization for one or more new therapeutic indications that is deemed to bring a significant clinical benefit compared to existing therapies. The data exclusivity period begins on the date of the product's first marketing authorization in the EU and prevents biosimilars from relying on the holder of the marketing authorization for the reference biological medicine's pharmacological, toxicological and clinical data for a period of 8 years. After 8 years, a biosimilar product application may be submitted and the sponsoring companies may rely on the marketing authorization holder's data. However, a biosimilar medicine cannot launch until 2 years later (or a total of 10 years after the first marketing authorization in the EU of the innovator product), or 3 years later (or a total of 11 years after the first marketing authorization in the EU of the innovator product) if the marketing authorization holder obtains marketing authorization for a new indication with significant clinical benefit within the 8 year data exclusivity period.

As in the United States, a sponsor may apply for designation of a product as an orphan drug for the treatment of a specific indication in the EU before the application for marketing authorization is made. Orphan drugs in Europe enjoy economic and marketing benefits, including up to 10 years of market exclusivity for the approved indication unless another applicant can show that its product is safer, more effective or otherwise clinically superior to the orphan-designated product.

Reimbursement

Sales of pharmaceutical products depend in significant part on the availability of third-party reimbursement. Third-party payors include government healthcare programs, managed care providers, private health insurers and other organizations. These third-party payors are increasingly challenging the price and examining the cost-effectiveness of medical products and services. In addition, significant uncertainty exists as to the reimbursement status of newly approved healthcare products. We may need to conduct expensive pharmacoeconomic studies in order to demonstrate the cost-effectiveness of our products. Our product candidates may not be considered cost-effective. It is time consuming and expensive to seek reimbursement from third-party payors. Reimbursement may not be available or sufficient to allow us to sell our products on a competitive and profitable basis.

In addition, in some foreign countries, the proposed pricing for a drug must be approved before it may be lawfully marketed. The requirements governing drug pricing vary widely from country to country. For example, the European Union provides options for its member states to restrict the range of medicinal products for which their national health insurance systems provide reimbursement and to control the prices of medicinal products for human use. A member state may approve a specific price for the medicinal product or it may instead adopt a system of direct or indirect controls on the profitability of the company placing the medicinal product on the market. There can be no assurance that any country that has price controls or reimbursement limitations for pharmaceutical products will allow favorable reimbursement and pricing arrangements for any of our products. Historically, products launched in the European Union do not follow price structures of the United States and generally tend to by significantly lower.

Employees

As of the date of this report, we have 25 full-time employees and seven part-time employees, including eight employees with Ph.D. degrees. Of these 32 employees, 27 are engaged in research and development activities and five work in general support and administration. None of our employees is represented by a labor union or covered by a collective bargaining agreement. We consider our relationship with our employees to be good. To successfully develop our drug candidates, we must be able to attract and retain highly skilled personnel. We anticipate hiring additional employees for research and development, clinical and regulatory affairs and general and administrative activities over the next few years. We also utilize the services of consultants, clinical research organizations and other third parties on a regular basis.

Legal Proceedings

Arbitration Proceeding with Technische Universität München

On March 20, 2014, Pieris Operating instituted arbitration proceedings, or the TUM Arbitration, against Technische Universität München, or Munich Technical University and hereafter TUM, to address issues regarding the calculation of payments due from Pieris Operating to TUM under Pieris Operating's Research and Licensing Agreement with TUM, as amended, or the TUM License Agreement. Pursuant to the terms of the TUM License Agreement, the arbitration is proceeding in Munich, Germany and governed by German law, in accordance with the arbitration rules of the Deutsche Institution für Schiedsgerichtsbarkeit.

On July 4, 2003, or the Effective Date, Pieris Operating and TUM entered into the TUM License Agreement, as superseded and replaced on July 26, 2007, under which TUM has exclusively licensed, or in some cases assigned, to Pieris Operating certain intellectual property and know-how that has become part of the Anticalin® proprietary technologies. In return, Pieris Operating agreed

to pay to TUM certain undisclosed annual license fees, milestones and royalties for its own proprietary drug development and sales, as well as an undisclosed variable fee as a function of out-licensing revenues, or the Out-License Fee, where such Out-License Fees are creditable against annual license payments to TUM.

As required by the TUM License Agreement, Pieris Operating provided to TUM its calculation of the Out-License Fee owed by Pieris Operating to TUM for the period beginning on the Effective Date and ending on December 31, 2012, the Dispute Period, in the amount of $0.4 million excluding value-added tax. TUM has asserted that, under the TUM License Agreement, the Out-License Fee due to TUM for the Dispute Period amounts to $3.4 million excluding value-added tax in the aggregate and has threatened to terminate the TUM License Agreement if the Out-License Fee is not paid. We believe that if TUM sought to terminate the license agreement for cause as a result of this dispute, it would potentially face wrongful termination claims for substantial damages if the arbitral tribunal in the TUM Arbitration sides with Pieris in its final decision regarding the proper amount of the Out-License Fee. Pieris Operating instituted the TUM Arbitration to request the arbitration tribunal to hold that Pieris Operating's calculation of the payments owed to TUM is accurate and shall govern all current and future payments due in respect of the Out-License Fee under the TUM License Agreement. Pieris Operating has reserved a liability on its balance sheet in respect of such payment in the amount of €271,000 ($373,000). An adverse ruling in the TUM Arbitration could have a material adverse effect on Pieris Operating's results of operations and financial condition.

In April 2014, TUM argued to the arbitrators that it is not the proper party to be sued under the action for a declaratory arbitration decision brought by Pieris Operating in relation to the Research and Licensing Agreement, and that instead, it is the Free State of Bavaria that is the proper respondent to the action. Pieris Operating has responded that TUM has capacity to be sued in relation to any disputes arising from and regarding contractual provisions of the Research and Licensing Agreement and is thus also the proper respondent in the action. In accordance with the arbitration rules of the Deutsche Institution für Schiedsgerichtsbarkeit, each party to the arbitration proceeding has appointed one arbitrator and the party-named arbitrators collectively selected the third arbitrator as the chairman of the arbitration panel. The panel has indicated that it will first decide the issue of whether TUM is the proper respondent in this action. The arbitration panel has set a date for a first hearing in Munich, Germany on January 20, 2015.

On December 1, 2014, TUM filed its statement of defense, maintaining its earlier calculation of the Out-License Fee. Pieris Operating has until January 12, 2015 to file a reply brief in response to TUM's defense.

As of the date of this report, other than the arbitration proceeding against TUM, we are not currently involved in any material legal proceedings. However, from time to time, we could be subject to various legal proceedings and claims that arise in the ordinary course of our business activities. Regardless of the outcome, legal proceedings can have an adverse impact on us because of defense and settlement costs, diversion of management resources and other factors.

Properties

We rent approximately 1,414 square meters of office and laboratory space in Freising, Germany under a lease and provides for a monthly rent payment of €18,200 ($25,078), or €218,400 ($300,933) annually. This lease may be terminated by either party subject to an 8-month notice period, provided, however, that such period must finish at the end of a quarter and, if not, the notice period will be extended to the following quarter-end. We believe that our facilities are sufficient to meet our current needs and we will look for suitable additional space as and when needed.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risks described below, together with the other information contained in this report, including our financial statements and the related notes attached as exhibits, before making any decision to invest in shares of our common stock. If any of the events contemplated by the following discussion of risks should occur, our business, results of operations and financial condition could suffer significantly. As a result, you could lose some or all of your investment in our common stock.

Risks Related to Our Business, Financial Position and Capital Requirements

We have incurred significant losses since our inception and anticipate that we will continue to incur losses for the foreseeable future. We currently have no product revenues and no approved products, and will need to raise additional capital to operate our business.

We are a clinical-stage biopharmaceutical company. To date, we have not generated any product revenue and are not profitable, and have incurred losses each year since our inception in August 2000. For the years ended December 31, 2013 and 2012 we reported net income of $0.1 million and net loss of $2.3 million, respectively. Our net profit for the year ended December 31, 2013 is not indicative of a trend. As of December 31, 2013, we had an accumulated deficit of $56.0 million. As of September 30, 2014, we had an accumulated deficit of $61.6 million. We expect to continue to incur losses for the foreseeable future, and we expect these losses to increase as we continue our development of, and seek regulatory approvals for, our drug candidates and the commercialization of approved products, if any.

We are currently focused primarily on the development of our lead drug candidates, PRS-080 and PRS-060, as well as our other programs, which we believe will result in our continued incurrence of significant research, development and other expenses related to those programs. If preclinical studies or the clinical trials for any of our drug candidates fail or produce unsuccessful results and those drug candidates do not gain regulatory approval, or if any of our drug candidates, if approved, fail to achieve market acceptance, we may never become profitable. Even if we achieve profitability in the future, we may not be able to sustain profitability in subsequent periods. Our prior losses, combined with expected future losses, have had and will continue to have an adverse effect on our stockholders' equity and working capital.

We will need substantial additional funding to continue our operations. We may not be able to raise capital when needed, if at all, which would force us to delay, reduce or eliminate our product development programs or commercialization efforts and could cause our business to fail.

Our operations have consumed substantial amounts of cash since inception. We expect to need substantial additional funding to pursue the clinical development of our drug candidates and launch and commercialize any drug candidates for which we receive regulatory approval.

We will require additional capital for the further development and commercialization of our drug candidates and may need to raise additional funds sooner if we choose to expand more rapidly than we currently anticipate. Further, we expect our expenses to increase in connection with our ongoing activities, particularly as we advance PRS-080 through a Phase I clinical trial and prepare for a potential Phase I clinical trial of PRS-060. In addition, if we obtain regulatory approval for any of our drug candidates, we expect to incur significant commercialization expenses related to regulatory requirements, product manufacturing, marketing, sales and distribution.

Furthermore, upon the closing of the Acquisition, we expect to incur additional costs associated with operating as a public company. We may also encounter unforeseen expenses, difficulties, complications, delays and other unknown factors that may increase our capital needs and/or cause us to spend our cash resources faster than we expect. Accordingly, we will need to obtain substantial additional funding in order to continue our operations.

To date, we have financed our operations through a mix of investments from private investors, the incurrence of debt, grant funding and technology licensing revenues, and we expect to continue to utilize such means of financing for the foreseeable future. Additional funding from those or other sources may not be available when or in the amounts needed, on acceptable terms, or at all.

If we raise capital through the sale of equity, or securities convertible into equity, it would result in dilution to our then existing stockholders, which could be significant depending on the price at which we may be able to sell our securities.

If we raise additional capital through the incurrence of indebtedness, we would likely become subject to covenants restricting our business activities, and holders of debt instruments may have rights and privileges senior to those of our equity investors. In addition, servicing the interest and principal repayment obligations under debt facilities could divert funds that would otherwise be available to support research and development, clinical or commercialization activities.

If we obtain capital through collaborative arrangements, these arrangements could require us to relinquish rights to our Anticalin®-brand technology or drug candidates and could result in our receipt of only a portion of the revenues associated with the partnered drug.

If we are unable to raise capital when needed or on attractive terms, we could be forced to delay, reduce or eliminate our research and development for our drug candidates or any future commercialization efforts. Any of these events could significantly harm our business, financial condition and prospects.

Our limited operating history as a clinical stage company may hinder our ability to successfully meet our objectives, and may limit the amount of information about us upon which you can base an evaluation of our business and prospects.

We were formed in August 2000 and, since that time our focus has been on discovery of Anticalin®-brand drug candidates. We are currently conducting clinical development of PRS-080, and are continuing preclinical development of our other drug candidates, as well as exploring additional indications that may be suitable for Anticalin-brand drug therapeutics, such as immuno-oncology. Our drug candidates are in early stages of development, have not obtained marketing approval, have never generated any sales and will require extensive testing before commercialization. We have limited operating experience with respect to clinical-stage operations and have not yet demonstrated an ability to successfully overcome many of the risks and uncertainties frequently encountered by companies in new and rapidly evolving fields, particularly in the biopharmaceutical area. In addition, the early-stage nature of our drug development operations can only provide limited operating results upon which you can evaluate our business and prospects.
Our limited operating history may adversely affect our ability to implement our business strategy and achieve our business goals, which include, among others, the following activities:

- developing our drug candidates using unproven technologies;
- undertaking preclinical development and clinical trials as well as formulating and manufacturing products;
- obtaining the human and financial resources necessary to develop, test, manufacture, commercialize and market our drug candidates;
- engaging corporate partners to assist in developing, testing, manufacturing and marketing our drug candidates;
- continuing to build and maintain an intellectual property portfolio covering our technology and our drug candidates;
- satisfying the requirements of clinical trial protocols, including patient enrollment, establishing and demonstrating the clinical safety and efficacy of our drug candidates and obtaining necessary regulatory approvals;
- achieving acceptance and use by the medical community of our drug candidates after they receive regulatory approvals;
- maintaining, growing and managing our internal teams as and to the extent we increase our operations and develop new segments of our business;
- developing and maintaining successful collaboration, strategic and other relationships for the development and commercialization of our drug candidates that receive regulatory approvals with existing and new partners; and
- managing our cash flows and any growth we may experience in an environment where costs and expenses relating to clinical trials, regulatory approvals and commercialization continue to increase.

If we are unsuccessful in accomplishing these objectives, we may not be able to develop drug candidates, raise capital, expand our business or continue our operations.

Our global operations subject us to various risks, and our failure to manage these risks could adversely affect our results of operations.

Our business is subject to certain risks associated with doing business globally. One of our growth strategies is to pursue opportunities for our business in several areas of the world, both inside and outside of the United States, Germany and Europe, any or all of which could be adversely affected by the risks set forth below. Accordingly, we face significant operational risks as a result of doing business internationally, such as:

- fluctuations in foreign currency exchange rates;
- potentially adverse tax consequences;

- challenges in providing solutions across a significant distance, in different languages and among different cultures;
- different, complex and changing laws governing intellectual property rights, sometimes affording reduced protection of intellectual property rights in certain countries;
- difficulties in staffing and managing foreign operations, particularly in new geographic locations;
- restrictions imposed by local labor practices and laws on our business and operations;
- rapid changes in government, economic and political policies and conditions, political or civil unrest or instability, terrorism or epidemics and other similar outbreaks or events;
- compliance with a wide variety of complex foreign laws, treaties and regulations;
- tariffs, trade barriers and other regulatory or contractual limitations on our ability to develop or sell our products in certain foreign markets; and
- becoming subject to the laws, regulations and court systems of multiple jurisdictions.

Our failure to manage the market and operational risks associated with our international operations effectively could limit the future growth of our business and adversely affect our results of operations.

Our international operations pose currency risks, which may adversely affect our operating results and net income.

Our operating results may be affected by volatility in currency exchange rates and our ability to effectively manage our currency transaction risks. Our reporting currency is the U.S. dollar and our functional currency is the euro. As such, the financial statements are translated for reporting purposes as follows: (1) asset and liability accounts at year-end rates, (2) income statement accounts at weighted average exchange rates for the year and (3) stockholders' equity accounts at historical rates. Corresponding translation gains or losses are recorded in stockholders' equity.

In 2013, 100% of our revenues were generated and 75.4 % of our costs were incurred in euros. As we realize upon our strategy to expand internationally, our exposure to currency risks will increase. We do not manage our foreign currency exposure in a manner that would eliminate the effects of changes in foreign exchange rates. Therefore, changes in exchange rates between these foreign currencies and the euro will affect our revenues and expenses and could result in exchange losses in any given reporting period.

We incur currency transaction risks whenever we enter into either a purchase or a sale transaction using a different currency other than the euro, our functional currency, in particular our arrangements for the purchase of supplies or licensing and collaboration agreements with partners outside of the euro zone. In such cases we may suffer an exchange loss because we do not currently engage in currency swaps or other currency hedging strategies to address this risk.

Given the volatility of exchange rates, we can give no assurance that we will be able to effectively manage our currency transaction risks or that any volatility in currency exchange rates will not have an adverse effect on our results of operations.

Risks Related to the Discovery and Development of Our Drug Candidates

We are heavily dependent on the success of PRS-080 and PRS-060, our early-stage lead drug candidates which are still in clinical and preclinical development, respectively, and we cannot be certain that PRS-080 and PRS-060 will receive regulatory approvals or be successfully commercialized even if we receive regulatory approvals.

We currently have no products that are approved for commercial sale. We expect that a substantial portion of our efforts and expenditures over the next few years will be devoted to our lead drug candidates, PRS-080 and PRS-060. We initiated a Phase I clinical trial with PRS-080 in healthy volunteers in November 2014 and PRS-060 is in preclinical development. All of our other drug candidates are in the discovery or early preclinical stage. Accordingly, our business is currently substantially dependent on the successful development, clinical testing, regulatory approval and commercialization of PRS-080 and PRS-060, which may never occur.

Before we can generate any revenues from sales of our lead drug candidates, we must complete the following activities for each of them, any one of which we may not be able to successfully complete:

- conduct additional preclinical and clinical development;

- manage preclinical, manufacturing and clinical activities;
- obtain regulatory approval;
- establish manufacturing relationships for the clinical supply of the applicable drug candidate;
- build a commercial sales and marketing team, either internally or by contract with third parties;
- develop and implement marketing strategies; and
- invest significant additional cash in each of the above activities.

If the results of the PRS-080 Phase I clinical trial are not successful, we may not be able to use those results as the basis for advancing the drug candidate into further clinical development. In that case, we may not have the resources to conduct new clinical trials, and/or we may determine that further clinical development of this drug candidate is not justified and may decide to discontinue the program. Clinical testing of PRS-060 has not yet commenced, and the results of any future preclinical studies or clinical trials of PRS-060, if unsuccessful, could lead to our abandonment of the development of that drug candidate as well. If studies of these two drug candidates produce unsuccessful results and we are forced or elect to cease their development, our business and prospects would be substantially harmed.

Preclinical and clinical testing of our drug candidates that have been conducted to date or will be conducted in future may not have been or may not be performed in compliance with applicable regulatory requirements, which could lead to increased costs or material delays for their further development.

Given the complexity as well as the uncertainty inherent in biopharmaceutical preclinical studies and clinical trials, and because of our limited operating experience, we may discover that our own development activities have not been or are not in compliance with applicable regulatory requirements or have otherwise been or are deficient, and, therefore, advancement of the development of the drug candidates on the basis of those trials and studies is not warranted or will be delayed.

We have also entered into license and partnership arrangements, such as with Allergan, Daiichi Sankyo, Sanofi, Zydus and Stelis, relating to certain of our drug candidates, and may continue to do so in the future. Under certain of such arrangements, the development of those drug candidates has been, or in the future may be, conducted wholly by such partners or any third parties with which the partners contract. As a result, we have not been or may not be closely involved with or have any control over those development activities. Although certain of such partners have provided information regarding those drug candidates and the related preclinical studies conducted to date, including certain data that is included in this report, we have not received and do not yet have access to comprehensive information regarding those development activities, including the raw data from the studies that have been conducted, information regarding the design, procedural implementation and structure and information regarding the manufacture of the drug candidates used in the studies. Because we have had no input on the development to date of these drug candidates, we may discover that all or certain elements of the trials and studies our partners have performed have not been, or may not in the future be, in compliance with applicable regulatory standards or have otherwise been or may be deficient, and that advancement of the development of these drug candidates on the basis of those trials and studies is not warranted.

Further, the majority of our development activities for each of our drug candidates to date have been conducted outside the United States, primarily in Europe as well as in Australia, and we may conduct some of our future development activities in other countries or regions. As a result, although those studies may meet the standards of certain applicable foreign regulatory bodies, the structure and design of those clinical and preclinical studies may not meet applicable FDA standards to allow immediate further development of those drug candidates in the United States, and also may not meet the standards of the applicable regulatory authorities in foreign countries in which we desire to pursue marketing approval for these drug candidates.

If the studies conducted by us or our partners or collaborators have not been in full compliance with applicable regulatory requirements or are otherwise not eligible for continued development in the United States, then we or our partners may be forced to conduct new studies in order to progress the development of our drug candidates. We, or our partners, may not have the funding or other resources to conduct or complete these new studies, which would severely delay the development plans for these drug candidates and their commercialization. Any such deficiency and delay in the development of these drug candidates would significantly harm our business plans, product revenues and prospects.

Our research and development is based on a rapidly evolving area of science, and our approach to drug discovery and development is novel and may never lead to marketable products.

Biopharmaceutical product development is generally a highly speculative undertaking and by its nature involves a substantial degree of risk. The specific line of our business, the discovery of Anticalin®-brand drug therapeutics for patients with a variety of diseases and conditions, such as anemia, asthma and cancer, is an emerging field, and the scientific discoveries that form the basis for our efforts to

develop drug candidates are relatively new. Further, the scientific evidence to support the feasibility of developing drug candidates based on those discoveries is both preliminary and limited. In contrast with companies who focus on more traditional drug classes, such as antibodies and small molecules, we believe we are the first, if not the only company, to work with Anticalin-brand drug therapeutics and work to advance it to a clinical stage of development. We are not aware of any company that has successfully developed and obtained approval for a drug based on Anticalin proteins. As a result, identifying drug targets based in part on their suitability with Anticalin-brand drug therapeutics, which is a fundamental aspect of our business approach, may not lead to the discovery or development of any drugs that successfully treat patients with the diseases and conditions we intend to target. Moreover, the lack of successful precedents in the development of Anticalin proteins could result in added complexities or delays in our development efforts. The failure of the scientific underpinnings of our business model to produce viable drug candidates would substantially harm our operations and prospects.

We may not be successful in our efforts to build a pipeline of drug candidates.

A key element of our strategy is to use and expand our Anticalin® drug platform to build a pipeline of drug candidates to address different targets, and progress those drug candidates through clinical development for the treatment of a variety of different types of diseases. Although our research efforts to date have resulted in identification of a series of targets, we may not be able to develop drug candidates that are safe and effective inhibitors or promoters of all or any of these targets. Even if we are successful in building a product pipeline, the potential drug candidates that we identify may not be suitable for clinical development for a number of reasons, including causing harmful side effects or demonstrating other characteristics that indicate a low likelihood of receiving marketing approval or achieving market acceptance. If our methods of identifying potential drug candidates fail to produce a pipeline of potentially viable drug candidates, then our success as a business will be dependent on the success of fewer potential drug candidates, which introduces risks to our business model and potential limitations to any success we may achieve.

Clinical drug development involves a lengthy and expensive process with uncertain outcomes, is very difficult to design and implement, and any of our clinical trials could produce unsuccessful results or fail at any stage in the process.

Clinical trials conducted on humans are expensive and can take many years to complete, and outcomes are inherently uncertain. Failure can occur at any time during the clinical trial process. Additionally, any positive results of preclinical studies and early clinical trials of a drug candidate may not be predictive of the results of later-stage clinical trials, such that drug candidates may reach later stages of clinical trials and fail to show the desired safety and efficacy traits despite having shown indications of those traits in preclinical studies and initial clinical trials. A number of companies in the biopharmaceutical industry have suffered significant setbacks in advanced clinical trials due to lack of efficacy or adverse safety profiles, notwithstanding promising results in earlier phases of the trials. Therefore, the results of any ongoing or future clinical trials we conduct may not be successful.

Although the clinical Phase I trial for PRS-080 in healthy volunteers will be conducted primarily in 2015, and although we are planning to initiate clinical trials for PRS-060 as early as 2016, we may experience delays in pursuing those or any other clinical trials, and any planned clinical trials may not begin on time, may require redesign, may not enroll sufficient healthy volunteers or patients in a timely manner, and may not be completed on schedule, if at all.

Clinical trials may be delayed for a variety of reasons, including delays related to:

- obtaining regulatory approval to commence a trial;
- reaching agreement on acceptable terms with prospective contract research organizations, or CROs, and clinical trial sites, the terms of which can be subject to extensive negotiation and may vary significantly among different CROs and trial sites;
- obtaining institutional review board, or IRB, approval at each trial site;
- enrolling suitable volunteers or patients to participate in a trial;
- developing and validating companion diagnostics on a timely basis;
- changes in dosing or administration regimens;
- having patients complete a trial or return for post-treatment follow-up;
- inability to monitor patients adequately during or after treatment;
- clinical investigators deviating from trial protocols or dropping out of a trial;
- regulators instituting a clinical hold due to observed safety findings or other reasons;
- adding new or substituting clinical trial sites; and
- manufacturing sufficient quantities of drug candidate for use in clinical trials.

We plan to rely on CROs and clinical trial sites to ensure the proper and timely conduct of our clinical trials. Although we expect that we will have agreements in place with CROs governing their committed activities and conduct, we will have limited influence over their actual performance. As a result, we ultimately will not have control over a CRO's compliance with the terms of any agreement it may have with us, its compliance with applicable regulatory requirements, or its adherence to agreed time schedules and deadlines, and a future CRO's failure to perform those obligations could subject any of our clinical trials to delays or failure.

Further, we may also encounter delays if a clinical trial is suspended or terminated by us, by any IRB or Ethics Committee at an institution in which such trials are being conducted, by the Data Safety Monitoring Board, or DSMB, for the trial, if applicable, or by the FDA, EMA or other regulatory authorities. Such authorities may impose such a suspension or termination due to a number of factors, including failure to conduct the clinical trial in accordance with regulatory requirements, inspection of the clinical trial operations or trial site by the FDA, EMA or other regulatory authorities resulting in the imposition of a clinical hold, exposing participants to health risks caused by unforeseen safety issues or adverse side effects, development of previously unseen safety issues, failure to demonstrate a benefit from using a drug candidate, changes in governmental regulations or administrative actions or lack of adequate funding to continue the clinical trial. Therefore, we cannot predict with any certainty the schedule for commencement or completion of any currently ongoing, planned or future clinical trials.

If we experience delays in the commencement or completion of, or suspension or termination of, any clinical trial for our drug candidates, the commercial prospects of the drug candidate could be harmed, and our ability to generate product revenues from the drug candidate may be delayed or eliminated. In addition, any delays in completing our clinical trials will increase our costs, slow down our drug candidate development and approval process and jeopardize regulatory approval of our drug candidates and our ability to commence sales and generate revenues. The occurrence of any of these events could harm our business, financial condition, results of operations and prospects significantly.

If we experience delays or difficulties in the enrollment of research subjects in clinical trials, those clinical trials could take longer than expected to complete and our receipt of necessary regulatory approvals could be delayed or prevented.

We may not be able to initiate or continue clinical trials for our drug candidates if we are unable to locate and enroll a sufficient number of research subjects to participate in these trials. In particular, for some diseases and conditions we are or will be focused on, our pool of suitable patients may be smaller and more selective and our ability to enroll a sufficient number of suitable patients may be limited or take longer than anticipated. In addition, some of our competitors have ongoing clinical trials for drug candidates that treat the same indications as our drug candidates, and volunteers or patients who would otherwise be eligible for our clinical trials may instead enroll in clinical trials of our competitors' drug candidates.

Patient enrollment for any of our clinical trials may also be affected by other factors, including without limitation:

- the severity of the disease under investigation;
- the frequency of the molecular alteration we are seeking to target in the applicable trial;
- the eligibility criteria for the clinical trial in question;
- the perceived risks and benefits of the drug candidate under the clinical trial;
- the extent of the efforts to facilitate timely enrollment in clinical trials;
- the patient referral practices of physicians;
- the ability to monitor volunteers or patients adequately during and after treatment; and
- the proximity and availability of clinical trial sites.

Our inability to enroll a sufficient number of patients for our clinical trials would result in significant delays and could require us to abandon one or more clinical trials altogether. Enrollment delays in our clinical trials may result in increased development costs for our drug candidates, and we may not have or be able to obtain sufficient cash to fund such increased costs when needed, which could result in the further delay or termination of the trial.

The review processes of regulatory authorities are lengthy, time consuming, expensive and inherently unpredictable. If we are unable to obtain approval for our drug candidates from applicable regulatory authorities, we will not be able to market and sell those drug candidates in those countries or regions and our business will be substantially harmed.

The research, testing, manufacturing, labeling, approval, sale, marketing and distribution of drug products are, and will remain, subject to extensive regulation by the FDA in the United States and by the respective regulatory authorities in other countries, which regulations differ from country to country. We are not permitted to market our drug candidates in the United States until we receive the respective approval of a BLA from the FDA, or in any foreign countries until we receive the requisite approval from the respective regulatory authorities in such countries. The time required to obtain approval, if any, by the FDA, EMA and comparable foreign authorities is unpredictable, but typically takes many years following the commencement of clinical trials and depends upon numerous factors, including the substantial discretion of the regulatory authorities. We have not submitted a BLA or similar filing (such as marketing authorization, or MA, from the European Medicines Agency, or EMA, for commercial sale in the European Union) or obtained regulatory approval for any drug candidate in any jurisdiction and it is possible that none of our existing drug candidates or any drug candidates we may seek to develop in the future will ever obtain regulatory approval.

Our drug candidates could fail to receive regulatory approval for many reasons, including any one or more of the following:

- the FDA, EMA or comparable foreign regulatory authorities may disagree with the design or implementation of our clinical trials;
- we may be unable to demonstrate to the satisfaction of the FDA, EMA or comparable foreign regulatory authorities that a drug candidate is safe and effective for its proposed indication;
- the results of clinical trials may not meet the level of statistical significance required by the FDA, EMA or comparable foreign regulatory authorities for approval;
- we may be unable to demonstrate that a drug candidate's clinical and other benefits outweigh its safety risks;
- the FDA, EMA or comparable foreign regulatory authorities may disagree with our interpretation of data from preclinical studies or clinical trials;
- the data collected from clinical trials of our drug candidates may not be sufficient to support the submission of a BLA or other submission or to obtain regulatory approval in the United States or elsewhere;
- the FDA, EMA or comparable foreign regulatory authorities may fail to approve the manufacturing processes or facilities of third-party manufacturers with which we contract for clinical and commercial supplies;
- the FDA, EMA or comparable foreign regulatory authorities may fail to approve the companion diagnostics we contemplate developing internally or with partners; and
- the approval policies or regulations of the FDA, EMA or comparable foreign regulatory authorities may significantly change in a manner rendering our clinical data insufficient for approval.

The time and expense of the approval process, as well as the unpredictability of future clinical trial results and other contributing factors, may result in our failure to obtain regulatory approval to market, in one or more jurisdictions, PRS-080, PRS-060, our discovery stage programs, such as the 300-Series, or any other drug candidates we may seek to develop in the future, which would significantly harm our business, results of operations and prospects. In such case, we may also not have the resources to conduct new clinical trials and/or we may determine that further clinical development of any such drug candidate is not justified and may discontinue any such programs.

In order to market and sell our products in any jurisdiction, we or our third party collaborators must obtain separate marketing approvals in that jurisdiction and comply with its regulatory requirements. The review and approval procedures can vary drastically among jurisdictions, and each jurisdiction may impose different testing and other requirements to obtain and maintain marketing approval. Further, the time required to obtain those approvals, if any, may differ substantially among jurisdictions. In addition, in many countries or regions outside the United States, it is required that the product be approved for reimbursement before the product can be approved for sale in that country or region. Moreover, approval by the FDA or an equivalent foreign authority does not ensure approval by regulatory authorities in any other countries or regions. As a result, the ability to market and sell a drug candidate in more than one jurisdiction can involve significant additional time, expense and effort to undertake separate approval processes, and would subject us and our collaborators to the numerous and varying post-approval requirements of each jurisdiction governing commercial sales, manufacturing, pricing and distribution of our drug candidates. We or any third parties with whom we may collaborate may not have the resources to pursue those approvals, and we or they may not be able to obtain any approvals that are pursued. The failure to obtain marketing approval for our drug candidates in foreign jurisdictions could severely limit their potential market and ability to generate revenue.

In addition, even if we were to obtain regulatory approval in one or more jurisdictions, regulatory authorities may approve any of our drug candidates for fewer or more limited indications than we request, may not approve the price we intend to charge for our products, may grant approval contingent on the performance of costly post-marketing clinical trials, or may approve a drug candidate with a label that does not include the labeling claims necessary or desirable for the successful commercialization of that drug candidate. Any of the foregoing circumstances could materially harm the commercial prospects for our drug candidates.

We may expend our limited resources to pursue a particular drug candidate or indication that does not produce any commercially viable products and may fail to capitalize on drug candidates or indications that may be more profitable or for which there is a greater likelihood of success.

Because we have limited financial and managerial resources, we must focus our efforts on particular research programs and drug candidates for specific indications. As a result, we may forego or delay pursuit of opportunities with other drug candidates or for other indications that later prove to have greater commercial potential. Further, our resource allocation decisions may result in our use of funds for research and development programs and drug candidates for specific indications that may not yield any commercially viable products.

If we do not accurately evaluate the commercial potential or target market for a particular drug candidate, we may relinquish valuable rights to that drug candidate through collaboration, licensing or other royalty arrangements in cases in which it would have been more advantageous for us to retain sole development and commercialization rights to such drug candidate. Any such failure to improperly assess potential drug candidates could result in missed opportunities and/or our focus on drug candidates with low market potential, which would harm our business and financial condition.

Risks Related to Our Dependence on Third Parties

We rely on third parties to conduct our preclinical studies and clinical trials. If these third parties do not successfully carry out their contractual duties or meet expected deadlines, we may not be able to obtain regulatory approval for our drug candidates and our business could be substantially harmed.

We depend upon independent investigators and contractors, such as CROs, universities and medical institutions, to conduct our preclinical studies and clinical trials. We rely upon, and plan to continue to rely upon, such third-party entities to execute our preclinical studies and clinical trials and to monitor and manage data produced by and relating to those studies and trials. However, we may not be able to in the future establish arrangements with CROs when needed or on terms that are acceptable to us, or at all, which could negatively affect our development efforts with respect to our drug candidates and materially harm our business, operations and prospects. As a result of the use of third-party contractors, we will have only limited control over certain aspects of their activities. Nevertheless, we are responsible for ensuring that each of our studies, including each of our clinical trials, is conducted in accordance with the applicable protocol, legal and regulatory requirements as well as scientific standards, and our reliance on any third-party entity will not relieve us of our regulatory responsibilities.

Based on our present expectations, we and our third-party contractors will be required to comply with current Good Clinical Practice, or cGCP, for all of our drug candidates in clinical development. Regulatory authorities enforce cGCP through periodic inspections of trial sponsors, clinical investigators and trial sites. If we or any of our contractors fail to comply with applicable cGCP, the clinical data generated in the applicable trial may be deemed unreliable and the FDA, EMA or comparable foreign regulatory authorities may require us to perform additional clinical trials before approving a drug candidate for marketing, which we may not have sufficient cash or other resources to support and which would delay our ability to generate revenue from any sales of such drug candidate. Any agreements governing our relationships with outside contractors such as CROs, or CROs or other contractors we may engage in the future, may provide those outside contractors with certain rights to terminate a clinical trial under specified circumstances. If such an outside contractor terminates its relationship with us during the performance of a clinical trial, we would be forced to seek an engagement with a substitute contractor, which we may not be able to do on a timely basis or on commercially reasonable terms, if at all, and the applicable clinical trial would experience delays or may not be completed.

If our contractors do not successfully carry out their contractual duties or obligations or meet expected deadlines, if they need to be replaced or if the quality or accuracy of the data they obtain is compromised due to a failure to adhere to our clinical protocols, legal and regulatory requirements or for other reasons, our clinical trials may be extended, delayed or terminated and we may not be able to obtain regulatory approval for, or successfully commercialize, the affected drug candidates. In addition, we will be unable to control whether or not they devote sufficient time and resources to our preclinical and clinical programs. These outside contractors may not assign as great a priority to our programs or pursue them as diligently as we would if we were undertaking such programs ourselves. As a result, our operations and the commercial prospects for the effected drug candidates would be harmed, our costs could increase and our ability to generate revenues could be delayed. These contractors may also have relationships with other commercial entities, some of whom may compete with us. If our contractors assist our competitors to our detriment, our competitive position would be harmed.

We rely and expect to continue to rely completely on third parties to formulate and manufacture our preclinical, clinical trial and post-approval drug supplies. The development and commercialization of any of our drug candidates could be stopped, delayed or made less profitable if those third parties fail to provide us with sufficient quantities of such drug supplies or fail to do so at acceptable quality levels, including in accordance with applicable regulatory requirements or contractual obligations and our operations could be harmed as a result.

We have no experience in drug formulation or manufacturing. We do not currently have, nor do we plan to acquire, the infrastructure or capability internally, such as our own manufacturing facilities, to manufacture our preclinical and clinical drug supplies for use in the conduct of our clinical trials or commercial quantities of any drug candidates that may obtain regulatory approval. Therefore, we lack the resources and expertise to formulate or manufacture our own drug candidates. We have entered into agreements with third-party manufacture contractors, or CMOs, for the clinical-stage manufacture of certain of our drug candidates, including PRS-080. We plan to enter into agreements with one or more manufacturers to manufacture, supply, store and distribute drug supplies for our current and future clinical trials and/or commercial sales. We intend to establish or continue those relationships for the supply of our drug candidates, however, there can be no assurance that we will be able to retain those relationships on commercially reasonable terms, if at all. If we are unable to maintain those relationships, we could experience delays in our development efforts as we locate and qualify new CMOs. If any of our current drug candidates or any drug candidates we may develop or acquire in the future receive regulatory approval, we will rely on one or more CMOs to manufacture the commercial supply of such drugs.

Our reliance on a limited number of CMOs exposes us to the following risks:

- We may be unable to identify manufacturers on acceptable terms, or at all, because the number of potential manufacturers is limited and the FDA must approve any replacement contractor. This approval would require new testing and compliance inspections. In addition, a new manufacturer would have to be educated in, or develop substantially equivalent processes for, production of our products after receipt of FDA approval, if any.
- Our third-party manufacturers might be unable to formulate and manufacture our drugs in the volume and of the quality required to meet our clinical needs and commercial needs, if any.
- Our future contract manufacturers may not perform as contractually agreed or may not remain in the contract manufacturing business for the time required to supply our clinical trials or to successfully produce, store and distribute our products.
- Drug manufacturers are subject to ongoing periodic unannounced inspection by the FDA, the Drug Enforcement Administration, and corresponding state agencies to ensure strict compliance with cGMP regulations and other government regulations and corresponding foreign standards. We do not have control over third-party manufacturers' compliance with these regulations and standards.
- If any third-party manufacturer makes improvements in the manufacturing process for our products, we may not own, or may have to share, the intellectual property rights to the innovation.

Each of these risks could delay our clinical trials, the approval, if any, of our drug candidates by the FDA or the commercialization of our drug candidates or result in higher costs or deprive us of potential product revenues.

We expect to have no control over the ability of our contract manufacturers to maintain adequate quality control, quality assurance and qualified personnel. If any of our contract manufacturers cannot successfully manufacture material that conforms to our specifications and the strict regulatory requirements of the FDA, EMA or other comparable foreign authorities, we would be prevented from obtaining regulatory approval for our drug candidates unless and until we engage a substitute contract manufacturer that can comply with such requirements, which we may not be able to do. Any such failure by any of our contract manufacturers would significantly impact our ability to develop, obtain regulatory approval for or market our drug candidates, if approved.

Further, we plan to rely on our manufacturers to purchase from third-party suppliers the materials necessary to produce our drug candidates for our clinical trials. We do not have, nor do we expect to enter into, any agreements for the commercial production of these raw materials, and we do not expect to have any control over the process or timing of our contract manufacturers' acquisition of raw materials needed to produce our drug candidates. Any significant delay in the supply of a drug candidate or the raw material components thereof for an ongoing clinical trial due to a manufacturer's need to replace a third-party supplier of raw materials could considerably delay completion of our clinical trials, product testing and potential regulatory approval of our drug candidates. Additionally, if our future manufacturers or we are unable to purchase these raw materials to commercially produce any of our drug candidates that gains regulatory approvals, the commercial launch of our drug candidates would be delayed or there would be a shortage in supply, which would impair our ability to generate revenues from the sale of our drug candidates.

Disagreements with respect to the commercial terms of our sales, licensing, purchase or manufacturing agreements may limit our commercial success.

The rights and obligations of the partners to which we may license our Anticalin® technology are governed by the licensing and collaboration agreements we enter into with those partners. In addition, our relationships with CROs and CMOs are governed by the service agreements between us and each manufacturer. Although we attempt to address the full range of possible events that may occur during the development or the manufacturing of Anticalin drug candidates and products, unanticipated or extraordinary events may occur beyond those contemplated by said agreements. Furthermore, our business relationships with our product manufacturers and our collaborators may include assumptions, understandings or agreements that are not included in our agreements with them, or that are inaccurately or incompletely represented by their terms. In addition, key terms in such agreements may be misunderstood or contested, even when both we and the other party previously believed that we had a mutual understanding of our obligations.

Any differences in interpretation or misunderstandings between us and other parties may result in substantial costs and delays with respect to the development, manufacturing or sale of Anticalin® drugs, and may negatively impact our revenues and operating results. Product manufacturers may fail to produce the products and partners may fail to develop the drug candidates under the timeline or in the manner we anticipated, and results may differ from the terms upon which we had agreed. As a result, we may be unable to supply drugs of the quality or in the quantity demanded or required. We may suffer harm to our reputation in the market from missed development goals or deadlines, and may be unable to capitalize upon market opportunities as a result. Resolution of these problems may entail costly and lengthy litigation or dispute resolution procedures. In addition, there is no guarantee that we will prevail in any such dispute or, if we do prevail, that any remedy we receive, whether legal or otherwise, will adequately redress the harm we have suffered. The delays and costs associated with such disputes may themselves harm our business and reputation and limit our ability to successfully compete in the market going forward.

Risks Related to the Commercialization of Our Drug Candidates

Even if we receive regulatory approval for any of our drug candidates, we will be subject to ongoing regulatory obligations and review. Maintaining compliance with ongoing regulatory requirements may result in significant additional expense to us, and any failure to maintain such compliance could subject us to penalties and cause our business to suffer.

Any regulatory approvals that we receive for our drug candidates may be subject to limitations on the approved indicated uses for which the products may be marketed, or contain requirements for potentially costly post-marketing testing, including Phase IV clinical trials. In addition, if the FDA, EMA or a comparable foreign regulatory authority approves any of our drug candidates, the manufacturing processes, labeling, packaging, distribution, adverse event reporting, storage, advertising, promotion and recordkeeping for the products will be subject to extensive and ongoing regulatory requirements. These requirements include submissions of safety and other post-marketing information and reports, registration, as well as continued compliance with cGMP. Later discovery of previously unknown problems with a product, including adverse events of unanticipated severity or frequency, or with our third-party manufacturers or manufacturing processes, or failure to comply with regulatory requirements, may result in, among other things:

- restrictions on the marketing or manufacturing of the product, complete withdrawal of the product from the market or product recalls;
- fines or warning letters;
- refusal of the FDA or other applicable regulatory authority to approve pending applications or supplements to approved applications;
- product seizure or detention, or refusal to permit the import or export of products; and
- consent decrees, injunctions or the imposition of civil or criminal penalties.

In addition, regulatory authorities' policies (such as those of the FDA or EMA) may change and additional government regulations may be enacted that could prevent, limit or delay regulatory approval of our drug candidates. If we are slow or unable to adapt to changes in existing requirements or the adoption of new requirements or policies, or if we are otherwise not able to maintain regulatory compliance, we may lose any marketing approval that we may have obtained, which would adversely affect our business, prospects and ability to achieve or sustain profitability.

Our commercial success depends upon attaining significant market acceptance of our drug candidates, if approved, among physicians, patients, healthcare payors and other members of the medical community.

Even if we obtain regulatory approval for our drug candidates, the products may not gain market acceptance among physicians, health care payors, patients and other members of the medical community, which is critical to commercial success. Market acceptance of any drug candidate for which we receive approval depends on a number of factors, including:

- perceptions by the medical community, physicians, and patients, regarding the safety and effectiveness of our products;
- the size of the markets for the drug candidate, based on the size of the patient subsets that we are targeting, in the territories for which we gain regulatory approval and have commercial rights;
- the potential and perceived advantages of the drug candidate over alternative treatments;
- the safety of the drug candidate as demonstrated through broad commercial distribution;
- the availability of adequate reimbursement and pricing for our products from governmental health programs and other third-party payors;
- relative convenience and ease of administration;
- cost-effectiveness of our product relative to competing products;
- the prevalence and severity of adverse effects; and
- the effectiveness of sales, marketing and distribution efforts by us and our licensees and distributors, if any.

If our drug candidates are approved but fail to achieve an adequate level of acceptance by key market participants, we will not be able to generate significant revenues, and we may not become or remain profitable, which may require us to seek additional financing.

Reimbursement may be limited or unavailable in certain market segments for our drug candidates, which could make it difficult for us to sell on a profitable basis any products for which we obtain marketing approvals.

There is significant uncertainty related to the third-party coverage and reimbursement of newly approved drugs. Market acceptance and successful commercialization of any of our drug candidates that obtain regulatory approval in domestic or international markets will depend significantly on the availability of adequate coverage and reimbursement from governmental authorities, private health insurers and other third-party payors for any of our drug candidates, and may be affected by existing and future healthcare reform measures.

Pricing and reimbursement for any of our drug candidates that obtain regulatory approval is uncertain. Government authorities, private health insurers and other third-party payors decide which drugs they will cover and establish reimbursement levels for them, and obtaining coverage and reimbursement approval for a product from any such third-party payors is a time consuming and costly process. Third-party payors also are increasingly challenging the effectiveness of and prices charged for medical products and services. As a result, any denial of private or government payor coverage or inadequate reimbursement for our drug candidates, if any are commercialized, could harm our business and reduce our prospects for generating revenue.

Further, there have been, and may continue to be, legislative and regulatory proposals at the federal and state levels and in foreign jurisdictions directed at broadening the availability and containing or lowering the cost of healthcare. The continuing efforts of the government, insurance companies, managed care organizations and other third-party payors to contain or reduce costs of healthcare may adversely affect our ability to set prices for our products that would allow us to achieve or sustain profitability. In addition, governments may impose price controls on any of our products that obtain marketing approval, which may adversely affect our future profitability.

In some foreign countries, particularly in the European Union, the pricing of prescription pharmaceuticals is subject to governmental control. In these countries, pricing negotiations with governmental authorities can be a long and expensive process after the receipt of marketing approval for a drug candidate. To obtain reimbursement or pricing approval in some countries, we may be required to conduct additional clinical trials that compare the cost-effectiveness of our drug candidates to other available therapies. If reimbursement of our drug candidates is unavailable or limited in scope or amount in a particular country, or if pricing is set at unsatisfactory levels, we may be unable to achieve or sustain profitability for sales of any of our drug candidates that are approved for marketing in that country.

We have no experience selling, marketing or distributing products and currently have no internal marketing and sales force. If we are unable to establish effective marketing and sales capabilities or enter into agreements with third parties to market and sell our drug candidates, we may not be able to effectively market and sell our drug candidates, if approved, or generate product revenues.

We currently have no sales, marketing or distribution capabilities and there can be no assurance that we will be able to market and sell our products in the United States or overseas. In order to commercialize any drug candidates, we must build on a territory-by-territory basis marketing, sales, distribution, managerial and other non-technical capabilities or make arrangements with third parties to perform these services, and we may not be successful in doing so. Therefore, with respect to the commercialization of all or certain of our drug candidates, we may choose to collaborate, either globally or on a territory-by-territory basis, with third parties that have direct sales forces and established distribution systems, either to augment our own sales force and distribution systems or in lieu of our own sales force and distribution systems. If so, our success will depend, in part, on our ability to enter into and maintain collaborative relationships for such capabilities, such collaborator's strategic interest in the products under development and such collaborator's ability to successfully market and sell any such products.

If we are unable to enter into such arrangements when needed on acceptable terms or at all, we may not be able to successfully commercialize any of our drug candidates that receive regulatory approval or any such commercialization may experience delays or limitations. Further, to the extent that we depend on third parties for marketing and distribution, any revenues we receive will depend upon the efforts of such third parties, and there can be no assurance that such efforts will be successful.

To the extent that we decide not to, or are unable to, enter into collaborative arrangements with respect to the sales and marketing of our products, we may in the future need to establish an internal sales and marketing team with technical expertise and supporting distribution capabilities to commercialize our drug candidates, which could be expensive and time consuming and which would require significant attention of our executive officers to manage. Further, may not have sufficient resources to allocate to the sales and marketing of our products.

Any failure or delay in the development of sales, marketing and distribution capabilities, either through collaboration with one or more third parties or through internal efforts, would adversely impact the commercialization of any of our products that we obtain approval to market. As a result, our future product revenue will suffer and we may incur significant additional losses.

We face significant competition from other biotechnology and pharmaceutical companies, and our operating results will suffer if we fail to compete effectively.

The biotechnology and pharmaceutical industries are intensely competitive and subject to rapid and significant technological advances. In addition, the competition in the anemia and asthma markets is intense. We have competitors both in the United States and internationally, including major multinational pharmaceutical companies, fully integrated pharmaceutical or biotechnology companies, smaller companies that are collaborating with larger pharmaceutical companies, academic institutions, and other public and private research organizations. Existing or future competing products may provide greater therapeutic convenience or clinical or other benefits for a specific indication than our products, or may offer comparable performance at a lower cost. If our products fail to capture and maintain market share, we may not achieve sufficient product revenue and our business will suffer.

Many of our competitors have substantially greater financial, technical and other resources than we do, such as larger research and development staff and experienced marketing and manufacturing organizations, as well as significantly greater experience in:

- developing drugs;
- undertaking preclinical testing and clinical trials;
- obtaining FDA and other regulatory approvals of drugs;
- prosecuting and enforcing intellectual property rights;
- formulating and manufacturing drugs; and
- launching, marketing and selling drugs.

Established pharmaceutical companies may invest heavily to accelerate discovery and development of or in-license novel compounds that could make our drug candidates less competitive. In addition, any new product that competes with an approved product must demonstrate compelling advantages in efficacy, convenience, tolerability and safety in order to overcome price competition and to be commercially successful. Accordingly, our competitors may succeed in obtaining patent protection, receiving FDA, EMA or other regulatory approval, or discovering, developing and commercializing medicines before we do, which would have a material adverse effect on our business and ability to achieve profitability from future sales of our approved drug candidates, if any. For additional information about our competitors, please see "Business—Competition."

We could be subject to product liability lawsuits based on the use of our drug candidates in clinical testing or, if obtained, following marketing approval and commercialization. If product liability lawsuits are brought against us, we may incur substantial liabilities and may be required to cease clinical testing or limit commercialization of our drug candidates.

We could be subject to product liability lawsuits if any drug candidate we develop allegedly causes injury or is found to be otherwise unsuitable for human use during product testing, manufacturing, marketing or sale. Any such product liability claims may include allegations of defects in manufacturing, defects in design, a failure to warn of dangers inherent in the product, negligence, strict liability and a breach of warranties. Claims could also be asserted under state consumer protection acts.

Our inability to obtain and retain sufficient product liability insurance at an acceptable cost to protect against potential product liability claims could prevent or inhibit the clinical testing and commercialization of products we develop on our own or with collaborators. We do not currently carry general product liability insurance. We have put in place applicable product liability insurance, covering us as sponsor and the investigators involved in our Phase I clinical trial of PRS-080. In the future, we will seek to obtain similar insurance coverage with respect to any future clinical trials of our other drug candidates, such as PRS-060, but we may not be able to obtain the levels of coverage desired on acceptable terms, or at all. If we do secure product liability insurance, we may subsequently determine that additional amounts of coverage would be desirable at later stages of clinical development of our drug candidates or upon commencing commercialization of any drug candidate that obtains required approvals, but we may not be able to obtain such additional coverage amounts when needed on acceptable terms, or at all. Unless and until we obtain such insurance, we would be solely responsible for any product liability claims relating to our preclinical and clinical development activities. Further, even after any such insurance coverage is obtained, any claim that may be brought against us could result in a court judgment or settlement in an amount that is not covered, in whole or in part, by any insurance policies we may then have or that is in excess of the limits of our insurance coverage. We would be required to pay any amounts awarded by a court or negotiated in a settlement that exceed the coverage limitations or that are not covered by any product liability insurance we may obtain, and we may not have, or be able to obtain, sufficient capital to pay such amounts.

Risks Related to Managing Any Growth We May Experience

We will need to grow the size of our organization, and we may not successfully manage any growth we may achieve.

Our success will depend upon the expansion of our operations and our ability to successfully manage our growth. Our future growth, if any, may place a significant strain on our management and on our administrative, operational and financial resources and require us to implement and improve our operational, financial and management systems.

In addition, our ability to manage our growth effectively will hinge upon our ability to expand, train, manage and motivate our employees. As of the date of this report, we have 25 full-time employees and seven part-time employees. As our development and commercialization plans and strategies develop, these demands may also require the hiring of additional research, development, managerial, operational, sales, marketing, financial, accounting, legal and other personnel.

Moreover, future growth could require the development of additional expertise by management and impose significant added responsibilities on members of management, including:

- effectively managing our clinical trials and submissions to regulatory authorities for marketing approvals;
- effectively managing our internal research and development efforts such as discovery research and preclinical development;
- identifying, recruiting, maintaining, motivating and integrating additional employees;
- effectively managing our internal and external business development efforts with current or future partners, such as entering into additional collaboration arrangements and increasing out-licensing revenues;
- establishing relationships with third parties essential to our business and ensuring compliance with our contractual obligations to such third parties;
- developing and managing new divisions of our internal business, including any sales and marketing segment we elect to establish;
- maintaining our compliance with public company reporting and other obligations, including establishing and maintaining effective internal control over financial reporting and disclosure controls and procedures; and
- improving our managerial, development, operational and finance systems.

We may not be able to accomplish any of those tasks, and our failure to do so could prevent us from effectively managing future growth, if any, and successfully growing our Company.

Any increase in resources devoted to research and product development without a corresponding increase in our operational, financial and management systems, could have a material adverse effect on our business, financial condition and results of operations.

If we fail to comply with environmental, health and safety laws and regulations that apply to us, we could become subject to fines or penalties or incur costs that could harm our business.

We are subject to numerous environmental, health and safety laws and regulations, including those governing laboratory procedures and the handling, use, storage, treatment and disposal of hazardous materials and wastes. Our operations involve the use of hazardous and flammable materials, including chemicals and biological materials. Our operations also produce hazardous waste products. We generally contract with third parties for the disposal of any hazardous materials we use and wastes we produce. The use of these materials in our business could result in contamination or injury, which could cause damage for which we may be responsible but may not have sufficient resources to pay. We also could incur significant costs associated with civil or criminal fines and penalties for failure to comply with these laws and regulations, which we may not be able to afford.

Although we maintain workers' compensation insurance for our operations in Germany to cover us for costs and expenses we may incur due to injuries to our employees resulting from the use of hazardous materials, this insurance may not provide adequate coverage against potential liabilities. We do not maintain insurance for environmental liability or toxic tort claims that may be asserted against us in connection with our storage or disposal of biological, hazardous or radioactive materials.

In addition, we may incur substantial costs in order to comply with current or future environmental, health and safety laws and regulations applicable to us. These current or future laws and regulations may impair our research, development or production efforts or impact the research activities we pursue, particularly with respect to research involving human subjects or animal testing. Our failure to comply with these laws and regulations also may result in substantial fines, penalties or other sanctions, which could cause our financial condition to suffer.

Health and safety regulations in the United States, Germany and in the countries where our technology and potential products are licensed or sold may prevent the sale or use of our technology or products in the future.

We are subject to a variety of regulations regarding worker health and safety in the United States, Germany and in the countries where our technology and potential products are licensed or sold. Because our technology and potential products may frequently involve the manufacture or use of certain chemical or biological compounds, we are required to certify their safety for industrial use and development in a variety of countries and contexts. As there has not been sufficient testing to determine the long-term health and environmental risks of all of the materials used in the production of Anticalin® products, future regulations may ban the use of our products due to the potential risk they pose to workers or may limit the use of our drug candidates in research and commercial settings. Any such regulations may have a substantial negative impact on our business and revenues, and may cause our business to fail. Because we cannot guarantee the long-term safety of use or exposure to materials used during development or manufacture of our products, we may face liability for health risks or harms caused as a result of developing, manufacturing or other processes that use such materials. Any such claims may have a negative impact on our revenues and may prove substantially disruptive to our business in the future.

In addition, under the European Union regulation on classification, labeling and packaging of substances and mixtures, or CLP, we may be required to publicly disclose the composition of our proprietary products or substances, which may facilitate infringement or avoidance of our intellectual property by third parties and may potentially reduce the margin we are able to charge for our products by allowing competitors to more accurately determine our production costs. Future development of the CLP regulation may have a further negative impact our revenues and a substantial negative impact on our business.

Our ability to utilize our net operating loss carryforwards and certain other tax attributes may be limited or eliminated as a result of the Acquisition or any other ownership change.

We have incurred substantial losses during our history and do not expect to become profitable in the foreseeable future and may never achieve profitability. Our net profit of $0.1 million for the year ended December 31, 2013 is not indicative of a trend. To the extent we continue to generate taxable losses, unused losses will carry forward to offset future taxable income, if any, until such unused losses expire or forfeit.

Tax losses under German corporate income tax and trade tax may be used to offset taxable income and trade profit attributable to the same taxpayer, or loss holding entity, within the boundaries of German tax law. As of December 31, 2013, Pieris Operating had net operating loss carryforwards of German corporate income tax of $58.5 million and of trade tax of $57.2 million. Under current laws, tax loss carryforwards may only be used to offset in any relevant later assessment period (calendar year) €1,000,000 ($1,377,900) plus 60% of the exceeding taxable income and trade profit of such period. Also, certain transactions, including transfers of shares or interest in the loss holding entity, may result in the partial or total forfeiture of tax losses existing at that date. Partial or total forfeiture of tax losses may further occur in corporate reorganizations of the loss holding entity.

Pieris Operating experienced an ownership change as a result of the Acquisition, and as a result may have lost some or all of the unused German corporate income and trade tax losses carryforwards existing or realized at the time of the Acquisition (including carryforwards). Any forfeiture of such tax losses due to the Acquisition, or due to any other such ownership change, could have an adverse effect on our results of operations.

Our business and operations would suffer in the event of system failures, and our operations are vulnerable to interruption by natural disasters, terrorist activity, power loss and other events beyond our control, the occurrence of which could materially harm our business.

Despite the implementation of security measures, our internal computer systems and those of our contractors and consultants are vulnerable to damage from computer viruses, unauthorized access as well as telecommunication and electrical failures. While we have not experienced any such system failure, accident or security breach to date, if such an event were to occur and cause interruptions in our operations, it could result in a material disruption of our drug development programs. For example, the loss of clinical trial data from completed or ongoing or planned clinical trials could result in delays in our regulatory approval efforts and we may incur substantial costs to attempt to recover or reproduce the data. If any disruption or security breach resulted in a loss of or damage to our data or applications, or inappropriate disclosure of confidential or proprietary information, we could incur liability and/or the further development of our drug candidates could be delayed.

We are also vulnerable to accidents, electrical blackouts, labor strikes, terrorist activities, war and other natural disasters and other events beyond our control, and we have not undertaken a systematic analysis of the potential consequences to our business as a result of any such events and do not have an applicable recovery plan in place. Except for our operations in Germany, where we have business interruption insurance against losses or damages resulting from fire, we do not carry other business interruption insurance that would compensate us for actual losses from interruptions of our business that may occur, and any losses or damages incurred by us could cause our business to materially suffer.

There could be an adverse change or increase in the laws and/or regulations governing our business.

We and our operating subsidiary are subject to various laws and regulations in different jurisdictions, and the interpretation and enforcement of laws and regulations are subject to change. We are also subject to different tax regulations in each of the jurisdictions where we conduct our business or where our management or the management of our operating subsidiary is located. We expect the scope and extent of regulation in the jurisdictions in which we conduct our business, or where our management or the management of our operating subsidiary is located, as well as regulatory oversight and supervision, to generally continue to increase. There can be no assurance that future regulatory, judicial and legislative changes in any jurisdiction will not have a material adverse effect on us or hinder us in the operation of its business.

We may engage in future acquisitions that could disrupt our business, cause dilution to our stockholders and harm our financial condition and operating results.

While we currently have no specific plans to acquire any other businesses, we may, in the future, make acquisitions of, or investments in, companies that we believe have products or capabilities that are a strategic or commercial fit with our current business or otherwise offer opportunities for our company. In connection with these acquisitions or investments, we may:

- issue common stock or other forms of equity that would dilute our existing stockholders' percentage of ownership;
- incur debt and assume liabilities; and
- incur amortization expenses related to intangible assets or incur large and immediate write-offs.

We may not be able to complete acquisitions on favorable terms, if at all. If we do complete an acquisition, we cannot assure you that it will ultimately strengthen our competitive position or that it will be viewed positively by customers, financial markets or investors. Furthermore, future acquisitions could pose numerous additional risks to our operations, including:

- problems integrating the purchased business, products or technologies;
- challenges in achieving strategic objectives, cost savings and other anticipated benefits;
- increases to our expenses;
- the assumption of significant liabilities that exceed the limitations of any applicable indemnification provisions or the financial resources of any indemnifying party;
- inability to maintain relationships with key customers, vendors and other business partners of the acquired businesses;
- diversion of management's attention from their day-to-day responsibilities;
- difficulty in maintaining controls, procedures and policies during the transition and integration;
- entrance into marketplaces where we have no or limited prior experience and where competitors have stronger marketplace positions;
- potential loss of key employees, particularly those of the acquired entity; and
- that historical financial information may not be representative or indicative of our results as a combined company.

Risks Related to Our Intellectual Property

If we breach any of the agreements under which we license from third parties the intellectual property rights or commercialization rights to our drug candidates, particularly our license agreement with TUM, we could lose license rights that are important to our business and our operations could be materially harmed.

Under the TUM License Agreement, we in-license significant intellectual property related to our Anticalin® platforms. For more information about the TUM License Agreement, see "Business—TUM License Agreement." We are also currently in a dispute with TUM, which is described in more detail under "Business—Legal Proceedings—Arbitration Proceeding with Technische Universität München".

In addition to the TUM License Agreement, we may seek to enter into additional agreements with other third parties in the future granting similar license rights with respect to other potential drug candidates. If we fail to comply with any of the conditions or obligations or otherwise breach the terms of our license agreement with TUM, or any future license agreement we may enter on which our business or drug candidates are dependent, TUM or other licensors may have the right to terminate the applicable agreement in whole or in part and thereby extinguish our rights to the licensed technology and intellectual property and/or any rights we have acquired to develop and commercialize certain drug candidates, including, with respect to our license agreement with TUM, our Anticalin® drug therapies. Under the TUM License Agreement, we can terminate the licenses to any or all licensed patents upon specified advance notice to TUM. TUM may terminate the license provisions of the agreement only for cause. Termination of the agreement does not terminate our rights in patents assigned to us but would terminate our rights to patents licensed to us under the agreement. The loss of the rights licensed to us under our license agreement with TUM, or any future license agreement that we may enter granting us rights on which our business or drug candidates are dependent, would eliminate our ability to further develop the applicable drug candidates and would materially harm our business, prospects, financial condition and results of operations.

If our efforts to protect the proprietary nature of the intellectual property related to our technologies are not adequate, we may not be able to compete effectively and our business would be harmed.

We rely upon a combination of patents, trade secret protection and confidentiality agreements to protect the intellectual property related to our technologies. Any disclosure to, or misappropriation by, third parties of our proprietary information could enable competitors to quickly duplicate or surpass our technological achievements, thus eroding any competitive advantage we may derive from the proprietary information.

The strength of patents in the biotechnology and pharmaceutical fields can be uncertain and involve complex legal and scientific questions. No consistent policy regarding the breadth of claims allowed in patents has emerged to date in the United States. Accordingly, we cannot predict the breadth of claims that may be allowed or enforced, or that the scope of any patent rights could provide a sufficient degree of protection that could permit us to gain or keep our competitive advantage with respect to these products and technologies. For example, we cannot predict:

- the degree and range of protection any patents will afford us against competitors, including whether third parties will find ways to make, use, sell, offer to sell or import competitive products without infringing our patents;
- if and when patents will be issued;
- whether or not others will obtain patents claiming inventions similar to those covered by our patents and patent applications; or
- whether we will need to initiate litigation or administrative proceedings (e.g. at the United State Patent and Trademark Office, or the USPTO, or the European Patent Office, or the EPO) in connection with patent rights, which may be costly whether we win or lose.

As a result, the patent applications we own or license may fail to result in issued patents in the United States or in foreign countries. Third parties may challenge the validity, enforceability or scope of any issued patents we own or license or any applications that may successfully issue in the future, which may result in those patents being narrowed, invalidated or held unenforceable. Even if they are unchallenged, our patents and patent applications may not adequately protect our intellectual property or prevent others from developing similar products that do not infringe the claims made in our patents. If the breadth or strength of protection provided by the patents we hold or pursue is threatened, our ability to commercialize any drug candidates with technology protected by those patents could be threatened. Further, if we encounter delays in our clinical trials, the period of time during which we would have patent protection for any covered drug candidates that obtain regulatory approval would be reduced. Since patent applications in the United States and most other countries are confidential for a period of time after filing, we cannot be certain at the time of filing that we are the first to file any patent application related to our drug candidates.

While patent term extensions under the Hatch-Waxman Act in the United States and under supplementary protection certificates in Europe may be available to extend our patent exclusivity for our drug candidates, the applicable patents may not meet the specified conditions for eligibility for any such term extension and, even if eligible, we may not be able to obtain any such term extension. Further, because filing, prosecuting and defending patents in multiple jurisdictions can be expensive, we may elect to pursue patent protection relating to our drug candidates in only certain jurisdictions. As a result, competitors would be permitted to use our technologies in jurisdictions where we have not obtained patent protection to develop their own products, any of which could compete with our drug candidates.

In addition to the protection afforded by patents, we seek to rely on trade secret protection and confidentiality agreements to protect proprietary know-how that is not patentable, processes for which patents are difficult to enforce and any other elements of our discovery platform and drug development processes that involve proprietary know-how, information or technology that is not covered by patents. Although we require all of our employees and certain consultants and advisors to assign inventions to us, and all of our employees, consultants, advisors and any third parties who have access to our proprietary know-how, information or technology to enter into confidentiality agreements, our trade secrets and other proprietary information may be disclosed or competitors may otherwise gain access to such information or independently develop substantially equivalent information. Further, the laws of some foreign countries do not protect proprietary rights to the same extent or in the same manner as the laws of the United States. As a result, we may encounter significant difficulty in protecting and defending our intellectual property both in the United States and abroad. If we are unable to prevent material disclosure of the intellectual property related to our technologies to third parties, we will not be able to establish or maintain the competitive advantage that we believe is provided by such intellectual property, which could materially adversely affect our market position and business and operational results.

Claims that we infringe the intellectual property rights of others may prevent or delay our drug discovery and development efforts.

Our research, development and commercialization activities, as well as any drug candidates or products resulting from those activities, may infringe or be accused of infringing a patent or other form of intellectual property under which we do not hold a license or other rights. Third parties may assert that we are employing their proprietary technology without authorization.

There may be third-party patents of which we are currently unaware with claims that cover the use or manufacture of our drug candidates. Because patent applications can take many years to issue, there may be currently pending patent applications that may later result in issued patents that our drug candidates may infringe. In addition, third parties may obtain patents in the future and claim that use of our drug candidates infringes upon these patents. If our activities or drug candidates infringe the patents or other intellectual property rights of third parties, the holders of such intellectual property rights may be able to block our ability to commercialize such drug candidates unless we obtain a license under the intellectual property rights or until any applicable patents expire or are determined to be invalid or unenforceable.

Defense of any intellectual property infringement claims against us, regardless of their merit, would involve substantial litigation expense and would be a significant diversion of resources from our business. In the event of a successful claim of infringement against us, we may have to pay substantial damages, obtain one or more licenses from third parties, limit our business to avoid the infringing activities, pay royalties and/or redesign our infringing drug candidates or alter related formulations, processes, methods or other technologies, any or all of which may be impossible or require substantial time and monetary expenditure. Further, if we were to seek a license from the third party holder of any applicable intellectual property rights, we may not be able to obtain the applicable license rights when needed or on reasonable terms, or at all. Some of our competitors may be able to sustain the costs of complex patent litigation or proceeding more effectively than us because they have substantially greater resources. The occurrence of any of the above events could prevent us from continuing to develop and commercialize one or more of our drug candidates and our business could materially suffer.

We may desire to, or be forced to, seek additional licenses to use intellectual property owned by third parties, and such licenses may not be available on commercially reasonable terms or at all.

In addition to TUM, other third parties may also hold intellectual property, including patent rights, that are important or necessary to the development of our drug candidates, in which case we would need to obtain a license from that third party or develop a different formulation of the product that does not infringe upon the applicable intellectual property, which may not be possible. Additionally, we may identify drug candidates that we believe are promising and whose development and other intellectual property rights are held by third parties. In such a case, we may desire to seek a license to pursue the development of those drug candidates. Any license that we may desire to obtain or that we may be forced to pursue may not be available when needed on commercially reasonable terms or at all. Any inability to secure a license that we need or desire could have a material adverse effect on our business, financial condition and prospects.

The patent protection covering some of our drug candidates may be dependent on third parties, who may not effectively maintain that protection.

While we expect that we will seek to gain the right to fully prosecute any patents covering drug candidates we may in-license from third-party owners, it is possible that the platform technology patents that cover our drug candidates remain controlled by our licensors. Similarly, some of our future licensing partners may retain the right, or may seek the rights, to prosecute patents covering the drug candidates we license to them and we may grant such rights to those partners for business reasons. If such third parties fail to appropriately maintain that patent protection, we may not be able to prevent competitors from developing and selling competing products and our ability to generate revenue from any commercialization of the affected drug candidates may suffer.

Certain technologies and patents have been developed with partners and we may face restrictions on this jointly-developed intellectual property.

We have entered into agreements with a number of commercial partners, including university partners, which cover intellectual property. We have, in some cases individually and in other cases along with our partners, filed for patent protection for a number of technologies developed under these agreements and may in the future file for further intellectual property protection and/or seek to commercialize such technologies. Under some of these agreements, certain intellectual property developed by us and the relevant partner may be subject to joint ownership by us and the partner and our commercial use of such intellectual property may be restricted, or may require written consent from, or a separate agreement with, the partner. In other cases, we may not have any rights to use intellectual property solely developed and owned by the partner. If we cannot obtain commercial use rights for such jointly-owned intellectual property or partner-owned intellectual property, our future product development and commercialization plans may be adversely affected.

We may be involved in lawsuits to protect or enforce our patents or the patents of our licensors, which could be expensive, time-consuming and unsuccessful.

Competitors may infringe our patents or the patents of our current or potential licensors. To attempt to stop infringement or unauthorized use, we may need to file infringement claims, which can be expensive and time-consuming and distract management.

If we pursue any infringement proceeding, a court may decide that a patent of ours or our licensors is not valid or is unenforceable, or may refuse to stop the other party from using the relevant technology on the grounds that our patents do not cover the technology in question. Further, the legal systems of certain countries, particularly certain developing countries, do not favor the enforcement of

patents, which could reduce the likelihood of success of, or the amount of damages that could be awarded resulting from, any infringement proceeding we pursue in any such jurisdiction. An adverse result in any infringement litigation or defense proceedings could put one or more of our patents at risk of being invalidated, held unenforceable, or interpreted narrowly and could put our patent applications at risk of not issuing, which could limit the ability of our drug candidates to compete in those jurisdictions.

Interference proceedings provoked by third parties or brought by the USPTO or at its foreign counterparts (such as the EPO) to determine the priority of inventions with respect to our patents or patent applications or those of our licensors. An unfavorable outcome could require us to cease using the related technology or to attempt to license rights to use it from the prevailing party. Our business could be harmed if the prevailing party does not offer us a license on commercially reasonable terms, or at all.

Litigation or interference proceedings may fail and, even if successful, may result in substantial costs and distract our management and other employees.

If we are unable to protect the confidentiality of our trade secrets, our business and competitive position would be harmed.

In addition to seeking patents for our Anticalin®-brand technology and some of our drug candidates, we also rely on trade secrets, including unpatented know-how, technology and other proprietary information, to maintain our competitive position. We currently, and expect in the future to continue to, seek to protect these trade secrets, in part, by entering into confidentiality agreements with parties who have access to them, such as our employees, collaborators, contract manufacturers, consultants, advisors, investigators and other third parties. We also enter into confidentiality and invention or patent assignment agreements with our employees and consultants. Despite these efforts, any of these parties may breach the agreements and disclose our proprietary information, including our trade secrets, and we may not be able to obtain adequate remedies for any such disclosure. Enforcing a claim that a party illegally disclosed or misappropriated a trade secret is difficult, expensive and time-consuming, and the outcome is unpredictable. In addition, some courts inside and outside the United States are less willing or unwilling to protect trade secrets. If any of our trade secrets were to be lawfully obtained or independently developed by a competitor, we would have no right to prevent them, or those to whom they disclose the trade secrets, from using that technology or information to compete with us. If any of our trade secrets were to be disclosed to or independently developed by a competitor, our competitive position would be harmed.

If we fail to protect our trademark rights, competitors may be able to take advantage of our goodwill, which would weaken our competitive position, reduce our revenues and increase our costs.

We believe that the protection of our trademark rights is an important factor in product recognition, maintaining goodwill, and maintaining or increasing market share. We may expend substantial cost and effort in an attempt to register, maintain and enforce our trademark rights. If we do not adequately protect our rights in our trademarks from infringement, any goodwill that we have developed in those trademarks could be lost or impaired.

Third parties may claim that the sale or promotion of our products, when and if we have any, may infringe on the trademark rights of others. Trademark infringement problems occur frequently in connection with the sale and marketing of pharmaceutical products. If we become involved in any dispute regarding our trademark rights, regardless of whether we prevail, we could be required to engage in costly, distracting and time-consuming litigation that could harm our business. If the trademarks we use are found to infringe upon the trademark of another company, we could be liable for damages and be forced to stop using those trademarks, and as result, we could lose all the goodwill that has been developed in those trademarks.

Certain of our employees and their inventions are subject to German law.

Almost all of the employees of Pieris Operating work in Germany and are subject to German employment law. Ideas, developments, discoveries and inventions made by such employees and consultants are subject to the provisions of the German Act on Employees' Inventions (*Gesetz über Arbeitnehmererfindungen*), which regulates the ownership of, and compensation for, inventions made by employees. We face the risk that disputes can occur between us and such employees or ex-employees pertaining to alleged non-adherence to the provisions of this act that may be costly to defend and take up our management's time and efforts whether we prevail or fail in such dispute. In addition, under the German Act on Employees' Inventions, certain employees retained rights to patents they invented or co-invented prior to 2009. Although most of these employees have subsequently assigned their interest in these patents to us, there is a risk that the compensation we provided to them may be deemed to be insufficient and we may be required under German law to increase the compensation due to such employees for the use of the patents. In those cases where employees have not assigned their interests to us, we may need to pay compensation for the use of those patents. If we are required to pay additional compensation or face other disputes under the German Act on Employees' Inventions, our results of operations could be adversely affected.

The future growth of our business may expose our intellectual property to a high risk of counterfeiting or unauthorized use.

As part of our business strategy, we intend to license our Anticalin® technology and sell our potential products, if any, in many different countries. As a result, we may do business with third parties in countries where intellectual property rights have been or are routinely disregarded, and the future growth of our business may expose our intellectual property to a high risk of counterfeiting or unauthorized use. Although we attempt to obtain broad international intellectual property rights for our Anticalin technology and proteins, we cannot guarantee that such rights, to the extent we can obtain them, will be enforceable in a timely fashion or at all in any particular country or jurisdiction, or that if enforced, will offer us adequate commercial protection or adequate redress for any harm suffered. Counterfeiting or unauthorized use of our technologies or products may also expose our business to harm for which no adequate monetary redress exists, and to the extent we are unable to stop such use, may cause us to lose rights with respect to intellectual property that is crucial to our business. Any such misuse of our intellectual property may have a substantial negative impact on our business and revenues, and may cause our business to fail.

Risks Related to our Employees

If we are not able to attract and retain highly qualified personnel, we may not be able to successfully implement our business strategy.

Our ability to compete in the highly competitive biotechnology and pharmaceuticals industries depends upon our ability to attract and retain highly qualified personnel. We are highly dependent on our management, scientific and medical personnel, especially Stephen S. Yoder, our Chief Executive Officer and President, whose services are critical to the successful implementation of our drug candidate development, our business development and partnerships, and our regulatory and commercialization strategies. Further, as our approach is built in part upon the drug discovery and development experience of our drug development team, which we believe is a significant contributor to our competitive advantage, we are dependent on the maintenance and growth of that team with qualified members containing high levels of expertise in specific scientific fields. We currently have 32 employees, and we may in the future hire additional employees for research and development or general and administrative activities.

We are not aware of any present intention of any of our executive officers or other members of our senior management team to leave our Company, but our industry tends to experience a high rate of turnover of management personnel and our employees are generally able to terminate their relationships with us on short notice. Pursuant to German employment law, our employment arrangements with employees of Pieris Operating are governed by employment contracts which provide certain defined terms for either party to terminate the employment relationship. Additionally, some members of our team, including our Acting Chief Financial Officer Darlene Deptula-Hicks, are consultants rather than employees, and could terminate their consulting relationship with us at any time or with short notice, depending on the terms of their respective consulting agreements with us.

The loss of the services of any of our executive officers, in particular Mr. Yoder, or other key employees and our inability to find suitable replacements could potentially harm our business, financial condition and prospects. Our success also depends on our ability to continue to attract, retain and motivate highly skilled junior and mid-level managers as well as junior and mid-level scientific and medical personnel.

Moreover, there is intense competition for a limited number of qualified personnel among biopharmaceutical, biotechnology, pharmaceutical and other related businesses. Many of the other companies against which we compete for qualified personnel have greater financial and other resources, different risk profiles, longer histories in the industry and greater ability to provide valuable cash or stock incentives to potential recruits than we do. They also may provide more diverse opportunities and better chances for career advancement. Some of these characteristics may be more appealing to high quality candidates than what we are able to offer as an early stage company. If we are unable to continue to attract and retain high quality personnel, the rate and success at which we can develop and commercialize drug candidates will be limited.

We may be subject to labor claims brought by our employees against us.

In the United States, an employment relationship with no specified duration is presumed to be employment “at-will” and the employer or employee may terminate the employment relationship at any time, with or without cause, except for public policy reasons including discrimination, participating in union activity or refusing to carry out an activity that violates the law.

In contrast, in Germany, there is no analogous doctrine of “employment at will”. By law, German employees must have written employment contracts that reflect the key aspects of the employment relationship. With respect to Pieris Operating, relations between German employers and employees are extensively regulated under German labor and employment laws and regulations. German employees enjoy, in particular, special protection against dismissals provided the employee has been employed by a company for more than six months and such company employs more than 10 employees.

German employment termination law is regulated by various codes, in particular the *Kündigungsschutzgesetz* (German Termination Protection Act) and is intended to give the employee maximum protection against unfair dismissal, including among other things:

- the employer must observe the applicable notice period, which is ordinarily determined by law (between four weeks and seven months, depending upon the length of employment), if a longer period is not otherwise agreed by the parties, and has to deliver a written notice of termination to the employee;
- for companies with more than ten employees, the German Termination Protection Act generally restricts termination of employment if the employee has been employed for more than six months, wherein the employee may be terminated only for a particular reason, including certain behavioral or personal reasons relating to the employee or certain developments relating to the business of the employer, such as a business restructuring which reduces the number of employee positions;
- special termination protection against unlawful dismissal applies to several other groups of employees, such as an employee that is an officially acknowledged handicapped person, an employee who was appointed as a company's data protection officer or as a member of the works council of a company, if any, an employee on three years' maternity leave or a pregnant employee; in these cases, approval of various German authorities is required prior to termination but usually very difficult to obtain; and
- if a company engages in a mass layoff, which is deemed to occur when the employer intends to dismiss a large percentage of its employees during a one-month period, prior written notification to the German employment office is required.

In this regard, if we downsize Pieris Operating for any reason and fail to adhere to the complex requirements articulated by the employee protection law, we could face legal actions brought by affected employees or former employees, and, as a result, we may incur operational or financial losses and the attention of our executive officers may be distracted from managing our business.

We may be subject to claims by third parties asserting that our employees or we have misappropriated their intellectual property, or claiming ownership of what we regard as our own intellectual property.

Many of our employees were previously employed at universities or other biotechnology or pharmaceutical companies, including our competitors or potential competitors. Although we try to ensure that our employees do not use the proprietary information or know-how of others in their work for us, through contractual provisions and other procedures, we may be subject to claims that these employees or we have used or disclosed intellectual property, including trade secrets or other proprietary information, of any such employee's former employers. Litigation may be necessary to defend against any such claims.

In addition, while it is our policy to require our employees and contractors who may be involved in the development of intellectual property to execute agreements assigning such intellectual property to us, we may be unsuccessful in executing such an agreement with each party who in fact contributes to the development of intellectual property that we regard as our own. Further, the terms of such assignment agreements may be breached and we may not be able to successfully enforce their terms, which may force us to bring claims against third parties, or defend claims they may bring against us, to determine the ownership of intellectual property rights we may regard and treat as our own.

Our employees may engage in misconduct or other improper activities, including noncompliance with regulatory standards and requirements, which could cause our business to suffer.

We are exposed to the risk of employee fraud or other misconduct. Misconduct by employees could include intentional failures to comply with FDA or EMA regulations, provide accurate information to the FDA or EMA, comply with manufacturing standards we have established, comply with federal, state and international healthcare fraud and abuse laws and regulations as they may become applicable to our operations, report financial information or data accurately or disclose unauthorized activities to us. Employee misconduct could also involve the improper use of information obtained in the course of clinical trials, which could result in regulatory sanctions and serious harm to our reputation. It is not always possible to identify and deter employee misconduct, and the precautions and procedures we currently take or may establish in the future as our operations and employee base expand to detect and prevent this type of activity may not be effective in controlling unknown or unmanaged risks or losses or in protecting us from governmental investigations or other actions or lawsuits stemming from a failure by our employees to comply with such laws or regulations. If any such actions are instituted against us, and we are not successful in defending ourselves or asserting our rights, those actions could have a significant impact on our business and results of operations, including the imposition of significant fines or other sanctions.

Risks Related to the Acquisition and Ownership of our Common Stock

There is not now, and there may never be, an active, liquid and orderly trading market for our common stock, which may make it difficult for you to sell your shares of our common stock.

Our common stock is eligible for quotation on OTC Markets, OTCPink (Current Information) tier of OTC Markets Group Inc., an over-the-counter quotation system, and there is not now, nor has there been since our inception, any significant trading activity in our common stock or a market for shares of our common stock, and an active trading market for our shares may never develop or be sustained. As a result, investors in our common stock must bear the economic risk of holding those shares for an indefinite period of time. We do not now, and may not in the future, meet the initial listing standards of any national securities exchange, and we presently anticipate that our common stock will be quoted on the OTC Markets in the OTCPink (Current Information) tier or another over-the-counter quotation system in the foreseeable future. In those venues, our stockholders may find it difficult to obtain accurate quotations as to the market value of their shares of our common stock, and may find few buyers to purchase their stock and few market makers to support its price. As a result of these and other factors, you may be unable to resell your shares of our common stock at or above the price for which you purchased them, at or near quoted bid prices, or at all. Further, an inactive market may also impair our ability to raise capital by selling additional equity in the future, and may impair our ability to enter into strategic partnerships or acquire companies or products by using shares of our common stock as consideration.

Our share price is expected to be volatile and may be influenced by numerous factors, some of which are beyond our control.

Market prices for shares of biotechnology companies such as ours are often volatile, and the trading price of our common stock is therefore likely to be highly volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond our control. In addition to the factors discussed in this "Risk Factors" section and elsewhere in this report, these factors include:

- the drug candidates we seek to pursue, and our ability to obtain rights to develop, commercialize and market those drug candidates;
- our decision to initiate a clinical trial, not to initiate a clinical trial or to terminate an existing clinical trial;
- actual or anticipated adverse results or delays in our clinical trials;
- our failure to commercialize our drug candidates, if approved;
- unanticipated serious safety concerns related to the use of any of our drug candidates;
- adverse regulatory decisions;
- additions or departures of key scientific or management personnel;
- changes in laws or regulations applicable to our drug candidates, including without limitation clinical trial requirements for approvals;
- disputes or other developments relating to patents and other proprietary rights and our ability to obtain patent protection for our drug candidates;
- our dependence on third parties, including CROs as well as our current and potential partners that produce companion diagnostic products;
- failure to meet or exceed any financial guidance or expectations regarding development milestones that we may provide to the public;
- actual or anticipated variations in quarterly operating results;
- failure to meet or exceed the estimates and projections of the investment community;
- overall performance of the equity markets and other factors that may be unrelated to our operating performance or the operating performance of our competitors, including changes in market valuations of similar companies;
- conditions or trends in the biotechnology and biopharmaceutical industries;
- introduction of new products offered by us or our competitors;
- announcements of significant acquisitions, strategic partnerships, joint ventures or capital commitments by us or our competitors;
- our ability to maintain an adequate rate of growth and manage such growth;
- issuances of debt or equity securities;
- sales of our common stock by us or our stockholders in the future, or the perception that such sales could occur;
- trading volume of our common stock;
- ineffectiveness of our internal control over financial reporting or disclosure controls and procedures;

- general political and economic conditions;
- effects of natural or man-made catastrophic events; and
- other events or factors, many of which are beyond our control.

In addition, the stock market in general, and the stocks of small-cap biotechnology companies in particular, have experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of these companies. Broad market and industry factors may negatively affect the market price of our common stock, regardless of our actual operating performance. In addition other biotechnology companies or our competitors' programs could have positive or negative results that impact their stock prices and their results or stock fluctuations could have a positive or negative impact on our stock price regardless of whether such impact is direct or not. The realization of any of the above risks or any of a broad range of other risks, including those described in these "Risk Factors," could have a dramatic and material adverse impact on the market price of our common stock.

Our common stock is subject to the "penny stock" rules of the SEC and the trading market in the securities is limited, which makes transactions in the stock cumbersome and may reduce the value of an investment in the stock.

Rule 15g-9 under the Exchange Act establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than $5.00 per share or with an exercise price of less than $5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require: (i) that a broker or dealer approve a person's account for transactions in penny stocks; and (ii) the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must: (i) obtain financial information and investment experience objectives of the person and (ii) make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the SEC relating to the penny stock market, which, in highlight form: (i) sets forth the basis on which the broker or dealer made the suitability determination; and (ii) confirms that the broker or dealer received a signed, written agreement from the investor prior to the transaction. Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our common stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker or dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

FINRA sales practice requirements may limit a stockholder's ability to buy and sell our stock.

The Financial Industry Regulatory Authority, or FINRA, has adopted rules requiring that, in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable for that customer. Prior to recommending speculative or low-priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA has indicated its belief that there is a high probability that speculative or low-priced securities will not be suitable for at least some customers. If these FINRA requirements are applicable to us or our securities, they may make it more difficult for broker-dealers to recommend that at least some of their customers buy our common stock, which may limit the ability of our stockholders to buy and sell our common stock and could have an adverse effect on the market for and price of our common stock.

If securities or industry analysts do not publish, or cease publishing, research or publish inaccurate or unfavorable research about our business or our market, or if they change their recommendations regarding our stock adversely, our stock price and any trading volume could decline.

Any trading market for our common stock that may develop will depend in part on the research and reports that securities or industry analysts publish about us or our business, markets or competitors. Securities and industry analysts do not currently, and may never, publish research on us or our business. If no securities or industry analysts commence coverage of our company, the trading price for our stock would be negatively affected. If securities or industry analysts initiate coverage, and one or more of those analysts downgrade our stock or publish inaccurate or unfavorable research about our business or our market, our stock price would likely decline. If one or more of these analysts cease coverage of our company or fail to publish reports on us regularly, demand for our stock could decrease, which might cause our stock price and any trading volume to decline.

We may have material liabilities that are not discovered until after the closing of the Acquisition.

As a result of the Acquisition, the former business plan and management of Pieris, previously known as Marika Inc., have been abandoned and replaced with the business and management team of Pieris Operating. Prior to the Acquisition, there were no relationships or other connections among the businesses or individuals associated with those two entities. As a result, Pieris may have material liabilities that are not discovered until after the Acquisition is completed. The Combined Company could experience losses as a result of any such undisclosed liabilities that are discovered following the Acquisition, which could materially harm our business and financial condition. Although the Acquisition Agreement contains customary representations and warranties from Pieris concerning its assets, liabilities, financial condition and affairs, there may be limited or no recourse against Pieris' pre-Acquisition stockholders or principals in the event those representations prove to be untrue. As a result, the stockholders of the Combined Company following the closing of the Acquisition will bear some, or all, of the risks relating to any such unknown or undisclosed liabilities.

We may be exposed to additional risks as a result of "going public" by means of a reverse acquisition transaction.

We may be exposed to additional risks because the business of Pieris Operating has become a public company through a "reverse acquisition" transaction. There has been increased focus by government agencies on transactions such as the Acquisition in recent years, and we may be subject to increased scrutiny by the SEC and other government agencies and holders of our securities as a result of the completion of that transaction. Further, as a result of our existence as a "shell company" under applicable rules of the SEC prior to the closing of the Acquisition on December 17, 2014, we are subject to certain restrictions and limitations for certain specified periods of time relating to potential future issuances of our securities and compliance with applicable SEC rules and regulations. Additionally, our "going public" by means of a reverse acquisition transaction may make it more difficult for us to obtain coverage from securities analysts of major brokerage firms following the Acquisition because there may be little incentive to those brokerage firms to recommend the purchase of our common stock. Further, investment banks may be less likely to agree to underwrite secondary offerings on our behalf than they might if we became a public reporting company by means of an IPO because they may be less familiar with our company as a result of more limited coverage by analysts and the media, and because we became public at an early stage in our development. The failure to receive research coverage or support in the market for our shares will have an adverse effect on our ability to develop a liquid market for our common stock. The occurrence of any such event could cause our business or stock price to suffer.

We will incur increased costs associated with, and our management will need to devote substantial time and effort to, compliance with public company reporting and other requirements.

As a public company, and particularly if and after we cease to be a "voluntary filer," an "emerging growth company" or a "smaller reporting company," we will incur significant legal, accounting and other expenses that Pieris Operating did not incur as a private company. In addition, the rules and regulations of the SEC and any national securities exchange to which we may be subject in the future impose numerous requirements on public companies, including requirements relating to our corporate governance practices, including requirements under Section 404 and other provisions of the Sarbanes-Oxley Act of 2002, as amended, or the Sarbanes-Oxley Act, with which we will now need to comply. Our management and other personnel will need to devote substantial time to gaining expertise regarding operations as a public company and compliance with applicable laws and regulations, and our efforts and initiatives to comply with those requirements could be expensive. The expenses incurred by public companies for reporting and corporate governance purposes have increased dramatically in recent years. We are unable currently to estimate these costs with any degree of certainty.

If we fail to maintain proper and effective internal controls, our ability to produce accurate and timely financial statements could be impaired, which could harm our operating results, our ability to operate our business and investors' views of us.

We will be required to comply with Section 404 of the Sarbanes-Oxley Act. Section 404 of the Sarbanes-Oxley Act requires public companies to conduct an annual review and evaluation of their internal controls. Pieris Operating was not subject to requirements to establish, and did not establish, internal control over financial reporting and disclosure controls and procedures prior to the Acquisition. Our management team and Board of Directors will need to devote significant efforts to maintaining adequate and effective disclosure controls and procedures and internal control over financial reporting in order to comply with applicable regulations, which may include hiring additional legal, financial reporting and other finance and accounting staff. Additionally, any of our efforts to improve our internal controls and design, implement and maintain an adequate system of disclosure controls may not be successful and will require that we expend significant cash and other resources.

Under the Jumpstart Our Business Startups Act of 2012, or the JOBS Act, issuers that qualify as "emerging growth companies" under the JOBS Act will not be required to provide an auditor's attestation report on internal controls for so long as the issuer qualifies as an emerging growth company. We currently qualify as an emerging growth company under the JOBS Act, and we may choose not to provide an auditor's attestation report on internal controls. However, if we cannot favorably assess the effectiveness of our internal control over financial reporting, or if we require an attestation report from our independent registered public accounting firm in the future and that firm is unable to provide an unqualified attestation report on the effectiveness of our internal controls over financial reporting, investor confidence and, in turn, our stock price could be materially adversely affected.

Ensuring that we have adequate internal financial and accounting controls and procedures in place so that we can produce accurate financial statements on a timely basis is a costly and time-consuming effort that will need to be evaluated frequently. Our failure to maintain the effectiveness of our internal controls in accordance with the requirements of the Sarbanes-Oxley Act could have a material adverse effect on our business. We could lose investor confidence in the accuracy and completeness of our financial reports, which could have an adverse effect on the price of our common stock. In addition, if our efforts to comply with new or changed laws, regulations, and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to practice, regulatory authorities may initiate legal proceedings against us and our business may be harmed.

We do not have sufficient accounting and supervisory personnel with the appropriate level of technical accounting experience and training necessary or adequate accounting policies, processes and procedures, particularly in the areas of revenue recognition, equity related transactions and other complex, judgmental areas for U.S. GAAP financial reporting and SEC reporting purposes and consequently, we must rely on third party consultants. These deficiencies represent a material weakness (as defined under the Exchange Act) in our internal control over financial reporting in both design and operation. We may identify additional material weaknesses in the future. Under the Exchange Act, a material weakness is defined as a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of a company's annual or interim financial statements will not be prevented or detected on a timely basis by the company's internal controls. We are currently developing a plan to design, review, implement and refine internal control over financial reporting and we have retained the services of Darlene Deptula-Hicks, as our Acting Chief Financial Officer, to help us with this process. However, we may identify deficiencies and weaknesses or fail to remediate previously identified deficiencies in our internal controls. If material weaknesses or deficiencies in our internal controls exist and go undetected or unremediated, our financial statements could contain material misstatements that, when discovered in the future, could cause us to fail to meet our future reporting obligations and cause the price of our common stock to decline.

We are not subject to compliance with rules requiring the adoption of certain corporate governance measures and as a result our stockholders have limited protections against interested director transactions, conflicts of interest and similar matters.

The Sarbanes-Oxley Act, as well as rule changes enacted by the SEC, the New York Stock Exchange and the NASDAQ Stock Market as a result of Sarbanes-Oxley, require the implementation of various measures relating to corporate governance. These measures are designed to enhance the integrity of corporate management and the securities markets and apply to securities which are listed on those exchanges. Because we are not presently required to comply with many of the corporate governance provisions we have not yet adopted these measures. As a result, we do not yet have an audit or compensation committee. Until we comply with such corporate governance measures, regardless of whether such compliance is required, the absence of such standards of corporate governance may leave our stockholders without protections against interested director transactions, conflicts of interest and similar matters.

We do not have a class of our securities registered under Section 12 of the Exchange Act. Until we do or we become subject to Section 15(d) of the Exchange Act, we will be a "voluntary filer."

We are not currently required under Section 13 or Section 15(d) of the Exchange Act to file periodic reports with the SEC. We have in the past voluntarily elected to file some or all of these reports to ensure that sufficient information about us and our operations is publicly available to our stockholders and potential investors. Because we are a voluntary filer, we are considered a non-reporting issuer under the Exchange Act. Until we become subject to the reporting rules under the Exchange Act, we are not required to file annual, quarterly or current reports and could cease doing so at any time. Additionally, until we register a class of our securities under Section 12 of the Exchange Act, we are not subject to the SEC's proxy rules, and large holders of our capital stock will not be subject to beneficial ownership reporting requirements under Sections 13 or 16 of the Exchange Act and their related rules. As a result, our stockholders and potential investors may not have available to them as much or as robust information as they may have if and when we become subject to those requirements.

Our principal stockholders own a significant percentage of our stock and will be able to exert significant control over matters subject to stockholder approval.

Certain of our principal stockholders own a significant percentage of our outstanding capital stock. As of the date of this report, our holders of 5% or more of our capital stock and their respective affiliates beneficially own approximately 80% of our outstanding voting stock (which includes shares they have the right to acquire within 60 days), after giving effect to the Acquisition. Accordingly, our large stockholders have significant influence over our affairs due to their substantial ownership, and have substantial voting power to approve matters requiring the approval of our stockholders. For example, these stockholders may be able to control elections of directors, amendments of our organizational documents, or approval of any merger, sale of assets, or other major corporate transaction. This concentration of ownership may prevent or discourage unsolicited acquisition proposals or offers for our common stock that some of our stockholders may believe is in their best interest.

Shares of our common stock that have not been registered under federal securities laws are subject to resale restrictions imposed by Rule 144, including those set forth in Rule 144(i) which apply to a former "shell company."

Prior to the closing of the Acquisition, we were deemed a "shell company" under applicable SEC rules and regulations because we had no or nominal operations and either no or nominal assets, assets consisting solely of cash and cash equivalents, or assets consisting of any amount of cash and cash equivalents and nominal other assets. Pursuant to Rule 144 promulgated under the Securities Act of 1933, as amended, or the Securities Act, sales of the securities of a former shell company, such as us, under that rule are not permitted (i) until at least 12 months have elapsed from the date on which this report, reflecting our status as a non-shell company, is filed with the SEC and (ii) unless at the time of a proposed sale, we are subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act and have filed all reports and other materials required to be filed by Section 13 or 15(d) of the Exchange Act, as applicable, during the preceding 12 months, other than Form 8-K reports. We are currently a "voluntary filer" and are not subject to the reporting requirements of Section 13 or Section 15(d) of the Exchange Act. As a result, unless we register such shares for sale under the Securities Act, most of our stockholders will be forced to hold their shares of our common stock for at least that 12-month period before they are eligible to sell those shares, and even after that 12-month period, sales may not be made under Rule 144 unless we and the selling stockholders are in compliance with other requirements of Rule 144. Further, it will be more difficult for us to raise funding to support our operations through the sale of debt or equity securities unless we agree to register such securities under the Securities Act, which could cause us to expend significant time and cash resources. Additionally, our previous status as a shell company could also limit our use of our securities to pay for any acquisitions we may seek to pursue in the future (although none are currently planned). The lack of liquidity of our securities as a result of the inability to sell under Rule 144 for a longer period of time than a non-former shell company could cause the market price of our securities to decline.

If we issue additional shares of our capital stock in the future, our existing stockholders will be diluted.

Our Amended and Restated Articles of Incorporation authorizes the issuance of up to 300,000,000 shares of our common stock and up to 10,000,000 shares of preferred stock with the terms, limitations, voting rights, relative rights and preferences and variations of each series that our Board of Directors may determine from time to time. Possible business and financial uses for our authorized capital stock include, without limitation, equity financing, future stock splits, acquiring other companies, businesses or products in exchange for shares of our capital stock, issuing shares of our capital stock to partners or other collaborators in connection with strategic alliances, attracting and retaining employees by the issuance of additional securities under our equity compensation plan, or other transactions and corporate purposes that our Board of Directors deems are in the interests of our company. Additionally, issuances of shares of our capital stock could have the effect of delaying or preventing changes in control or our management. Any future issuances of shares of our capital stock may not be made on favorable terms or at all, they may have rights, preferences and privileges that are superior to those of our common stock, and may have an adverse effect on our business or the trading price of our common stock. The issuance of any additional shares of our common stock will reduce the book value per share and may contribute to a reduction in the market price of the outstanding shares of our common stock. Additionally, any such issuance will reduce the proportionate ownership and voting power of all of our current stockholders.

Sales of a substantial number of shares of our common stock in the public market, or the perception that such sales could occur, could cause our stock price to fall.

If our existing stockholders sell, or indicate an intention to sell, substantial amounts of our common stock in the public market after the legal restrictions on resale discussed in this report lapse or after those shares become registered for resale pursuant to an effective registration statement, the trading price of our common stock could decline. As of the date of this report, a total of 22,500,000 shares of our common stock are outstanding. Of those shares, only approximately 2,500,000 are currently freely tradable, without restriction, in the public market. If we were to elect to file a registration statement with respect to outstanding shares of our common stock, those shares that become registered would be freely tradable without restriction, except for shares held by our affiliates, and any sales of those shares or any perception in the market that such sales may occur could cause the trading price of our common stock to decline.

In addition, shares of common stock that are either subject to outstanding options or reserved for future issuance under our equity incentive plan will become eligible for sale in the public market to the extent permitted by the provisions of various vesting schedules, Rule 144 under the Securities Act, and any future registration of such shares under the Securities Act. If these additional shares of common stock are sold, or if it is perceived that they will be sold, in the public market, the trading price of our common stock could decline.

Future sales and issuances of our common stock or rights to purchase common stock, including pursuant to our equity incentive plans or otherwise, could result in dilution of the percentage ownership of our stockholders and could cause our stock price to fall.

We expect that significant additional capital will be needed in the future to continue our planned operations. To raise capital, we may sell common stock, convertible securities or other equity securities in one or more transactions at prices and in a manner we determine from time to time. If we sell common stock, convertible securities or other equity securities in more than one transaction, investors in a prior transaction may be materially diluted by subsequent sales. Additionally, any such sales may result in material dilution to our existing stockholders, and new investors could gain rights, preferences and privileges senior to those of holders of our common stock. Further, any future sales of our common stock by us or resales of our common stock by our existing stockholders could cause the market price of our common stock to decline.

Pursuant to the Pieris Plan, we are authorized to grant equity awards to our employees, directors and consultants for up to an aggregate of 3,200,000 shares of our common stock and, as of the date hereof, we have granted options to purchase 2,519,500 shares of our common stock. The Pieris Plan also includes an "evergreen" provision which provides that the number of shares of our common stock reserved for issuance under the Pieris Plan shall be automatically increased on January 1 of each of year commencing in fiscal 2016 by the lesser of (i) 1,000,000 shares, (ii) 4% of the number shares of our common stock outstanding on such date, and (iii) such other amount determined by the Board of Directors. Any future grants of options, warrants or other securities exercisable or convertible into our common stock, or the exercise or conversion of such shares, and any sales of such shares in the market, could have an adverse effect on the market price of our common stock.

Anti-takeover provisions in our organizational documents could delay or prevent a change of control.

Certain provisions of our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws may have an anti-takeover effect and may delay, defer or prevent a merger, acquisition, tender offer, takeover attempt or other change of control transaction that a stockholder might consider to be in its interests, including attempts that might result in a premium over the market price for the shares held by our stockholders.

These provisions provide, among other things:

- a classified Board of Directors with staggered three-year terms;
- the ability of our Board of Directors to issue one or more series of preferred stock with voting or other rights or preferences that could have the effect of impeding the success of an attempt to acquire us or otherwise effect a change of control;
- advance notice for nominations of directors by stockholders and for stockholders to include matters to be considered at stockholder meetings;
- certain limitations on convening special stockholder meetings and the prohibition of stockholder action by written consent; and
- directors may only be removed for cause and only by the affirmative vote of the holders of at least eighty percent (80%) of the voting power of all of the then-outstanding shares of our capital stock entitled to vote at an election of directors, voting together as a single class.

These anti-takeover provisions, including those noted above, could make it more difficult for a third party to acquire us, even if the third party's offer may be considered beneficial by many of our stockholders. As a result, our stockholders may be limited in their ability to obtain a premium for their shares. See "Description of Securities."

Our Amended and Restated Articles of Incorporation designate the Eighth Judicial District Court of Clark County, Nevada, as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, and therefore limit our stockholders' ability to choose a forum for disputes with us or our directors, officers, employees or agents.

Our Amended and Restated Articles of Incorporation provide that, to the fullest extent permitted by law, and unless we consent to the selection of an alternative forum, the Eighth Judicial District Court of Clark County, Nevada shall be the sole and exclusive forum for any (i) derivative action or proceeding brought in the name or right of the corporation or on its behalf, (ii) action asserting a claim of breach of a fiduciary duty owed by any of our directors, officers, employees or agents to the corporation or any of our stockholders,

(iii) any action arising or asserting a claim arising pursuant to any provision of Chapters 78 or 92A of the NRS or any provision of the corporation's articles of incorporation or bylaws, (iv) any action to interpret, apply, enforce or determine the validity of our articles of incorporation or bylaws or (v) any action asserting a claim governed by the internal affairs doctrine. Our Amended and Restated Articles of Incorporation further provide that any person purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed, to the fullest extent permitted by law, to have notice of and consented to the foregoing provision.

We believe the choice-of-forum provision in our Amended and Restated Articles of Incorporation will help provide for the orderly, efficient and cost-effective resolution of Nevada-law issues affecting us by designating courts located in the State of Nevada (our state of incorporation) as the exclusive forum for cases involving such issues. However, this provision may limit a stockholder's ability to bring a claim in a judicial forum that it believes to be favorable for disputes with us or our directors, officers, employees or agents, which may discourage such lawsuits against us and our directors, officers, employees and agents. While there is no Nevada case law addressing the enforceability of this type of provision, Nevada courts have on prior occasion found persuasive authority in Delaware case law in the absence of Nevada statutory or case law specifically addressing an issue of corporate law. The Court of Chancery of the State of Delaware has ruled in June 2013 that choice-of-forum provisions of a type similar to those included in our Amended and Restated Articles of Incorporation are not facially invalid under corporate law and constitute valid and enforceable contractual forum selection clauses. However, if a court were to find the choice-of-forum provision in our Amended and Restated Articles of Incorporation inapplicable to, or unenforceable in respect of, one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could adversely affect our business, financial condition or results of operations.

The elimination of personal liability of our directors and officers under Nevada law and the existence of indemnification rights held by our directors, officers and employees may result in substantial expenses.

Our Amended and Restated Articles of Incorporation and our Amended and Restated Bylaws eliminate to the furthest extent permitted under Nevada law the personal liability of our directors and officers to us, our stockholders and creditors for damages as a result of any act or failure to act in his or her capacity as a director or officer. Further, our Amended and Restated Articles of Incorporation, our Amended and Restated Bylaws and individual indemnification agreements that we have entered with each of our directors and officers provide that we are obligated to indemnify, subject to certain exceptions, each of our directors or officers to the fullest extent authorized by Nevada law and, subject to certain conditions, to advance the expenses incurred by any director or officer in defending any action, suit or proceeding prior to its final disposition. Those indemnification obligations could expose us to substantial expenditures to cover the cost of settlement or damage awards against our directors or officers, which we may be unable to afford. Further, those provisions and resulting costs may discourage us or our stockholders from bringing a lawsuit against any of our current or former directors or officers for such damages, even if such actions might otherwise benefit our stockholders.

We do not intend to pay cash dividends on our capital stock in the foreseeable future.

We have never declared or paid any cash dividends on our common stock and do not anticipate paying any dividends in the foreseeable future. We currently intend to retain all future earnings to fund the development and growth of our business. Any future payment of cash dividends in the future will be at the discretion of our Board of Directors and will depend on, among other things, our earnings, financial condition, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that the Board of Directors deems relevant. Our stockholders should not expect that we will ever pay cash or other dividends on our outstanding capital stock.

We are an emerging growth company and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our common stock less attractive to investors.

We are an emerging growth company under the JOBS Act. For as long as we continue to be an emerging growth company, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies including, but not limited to, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, exemptions from the requirements of holding a nonbinding advisory stockholder vote on executive compensation and any golden parachute payments not previously approved, exemption from the requirement of auditor attestation in the assessment of our internal control over financial reporting and exemption from any requirement that may be adopted by the Public Company Accounting Oversight Board. If we do, the information that we provide stockholders may be different than what is available with respect to other public companies. We cannot predict if investors will find our common stock less attractive because we will rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile.

Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards until such time as those standards apply to private companies. We have irrevocably elected to take advantage of this extended transition period. Since we will not be required to comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for other public companies, our financial statements may not be comparable to the financial statements of companies that comply with the effective dates of those accounting standards.

We will remain an emerging growth company until the earliest of (1) the end of the fiscal year in which the market value of our common stock that is held by non-affiliates exceeds $700 million as of the end of the second fiscal quarter, (2) the end of the fiscal year in which we have total annual gross revenues of $1 billion or more during such fiscal year, (3) the date on which we issue more than $1 billion in non-convertible debt in a three-year period or (4) December 31, 2019, the end of the fiscal year following the fifth anniversary of the date of the first sale of our common stock pursuant to an effective registration statement filed under the Securities Act. Decreased disclosures in our SEC filings due to our status as an "emerging growth company" may make it harder for investors to analyze our results of operations and financial prospects.

We are a smaller reporting company, and we cannot be certain if the reduced disclosure requirements applicable to smaller reporting companies will make our common stock less attractive to investors.

We are currently a "smaller reporting company", meaning that we are not an investment company, an asset-backed issuer, or a majority-owned subsidiary of a parent company that is not a smaller reporting company and have a public float of less than $75 million and annual revenues of less than $50 million during the most recently completed fiscal year. In the event that we are still considered a "smaller reporting company," at such time we cease being an "emerging growth company", we will be required to provide additional disclosure in our SEC filings. However, similar to "emerging growth companies", "smaller reporting companies" are able to provide simplified executive compensation disclosures in their filings; are exempt from the provisions of Section 404(b) of the Sarbanes-Oxley Act requiring that independent registered public accounting firms provide an attestation report on the effectiveness of internal control over financial reporting; and have certain other decreased disclosure obligations in their SEC filings, including, among other things, only being required to provide two years of audited financial statements in annual reports and in a registration statement under the Exchange Act on Form 10. Decreased disclosures in our SEC filings due to our status as a "smaller reporting company" may make it harder for investors to analyze our results of operations and financial prospects.

Overview

On December 16, 2014, we changed our name from Marika Inc. to Pieris Pharmaceuticals, Inc. and on December 17, 2014 we consummated the Acquisition.

We are a clinical-stage biopharmaceutical company dedicated to the discovery and development of our Anticalin® class of biotherapeutics for patients with diseases in which we believe there is high unmet medical need. Our current development plans focus mainly on two drug candidates, PRS-080 and PRS-060. PRS-080 is an Anticalin protein that binds to hepcidin, a natural regulator of iron in the blood. PRS-080 has been designed to target hepcidin for the treatment of functional iron deficiency, or FID, in anemic patients with chronic kidney disease, or CKD, particularly in end-stage renal disease patients requiring dialysis. PRS-060 is a drug candidate that binds to the IL-4RA receptor, thereby inhibiting IL-4 and IL-13, two cytokines known to be key mediators in the inflammatory cascade that causes asthma and other inflammatory diseases. We initiated a Phase I clinical trial with PRS-080 in healthy volunteers in November 2014 and expect to report the data from this trial by the end of 2015. PRS-060 is currently in preclinical development, and we intend to begin a Phase I clinical trial with PRS-060 in 2016.

We are also developing PRS-110 and our 300-Series Anticalin® proteins in oncology. PRS-110 is a monovalent cMet antagonist that is designed to block both ligand-dependent and ligand-independent activity. cMet is a receptor tyrosine kinase, a well-known high-affinity cell surface receptor which is essential for embryonic development and wound healing and has been associated with several different cancers, including renal, gastric and lung carcinomas, central nervous system tumors and sarcomas. Our second set of oncology drug candidates is our 300-Series "platform within a product" opportunity in immuno-oncology. The 300-Series Anticalin proteins target checkpoint proteins and define a variety of multifunctional biotherapeutics that genetically link an antibody with one or more Anticalin proteins, thereby constituting a multispecific protein. We are conducting preclinical experiments on a number of 300-Series lead candidates and intend to choose a candidate for clinical trials in oncology by the end of 2015.

Our core Anticalin® technology and platform was developed in Germany, and we have partnership arrangements with major multi-national pharmaceutical companies headquartered in the U.S., Europe and Japan and with regional pharmaceutical companies headquartered in India. These include existing agreements with Daiichi Sankyo Company Limited, or Daiichi Sankyo, and Sanofi Group, or Sanofi, pursuant to which our Anticalin platform has consistently achieved its development milestones. We have discovery and preclinical collaboration and service agreements with both academic institutions and private firms in Australia. We also intend to establish a greater U.S. presence and take advantage of the U.S. capital markets, additional potential corporate partners, and the broad expertise found in the biotechnology industry in the United States.

Since inception, we have devoted nearly all of our efforts and resources to our research and development activities. We have incurred significant net losses since inception. For the years ended December 31, 2013 and 2012, we reported net income of $0.1 million and net loss of $2.3 million, respectively, and for the nine-month periods ended September 30, 2014 and 2013, we reported net losses of $5.7 million and $0.9 million, respectively. As of September 30, 2014, we had an accumulated deficit of $61.6 million. Our net profit for the year ended December 31, 2013 is not indicative of a trend. We expect to continue incurring substantial losses for the next several years as we continue to develop our clinical and preclinical drug candidates and programs. Our operating expenses are comprised of research and development expenses and general and administrative expenses.

We have not generated any revenues from product sales to date, and we do not expect to generate revenues from product sales for at least the next several years. Our revenues for the fiscal years ended December 31, 2013 and 2012 and the nine-month periods ended September 30, 2014 and 2013 were primarily from license and collaboration agreements with our partners, and, to a lesser extent, from grants from government agencies.

The U.S. dollar is the reporting currency for all periods presented. The functional currency for Pieris Operating is euros. All assets and liabilities denominated in euros are translated into U.S. dollars at the exchange rate on the balance sheet date. Revenues and expenses are translated at the average rate during the period. Equity transactions are translated using historical exchange rates. Adjustments resulting from translating foreign currency financial statements into U.S. dollars are included in accumulated other comprehensive loss.

Pieris is a holding company without operations or employees and the sole stockholder of Pieris Operating. The corporate headquarters and research facility of Pieris Operating are located in Freising, Germany. Pieris Australia Pty Ltd., a wholly owned subsidiary of Pieris Operating, was formed on February 14, 2014 to conduct research and development in Australia. Pieris Australia Pty Ltd. has entered into preclinical service agreements with certain service providers in Australia and such service providers have performed some of the services required under the respective agreements.

Recent Developments

Acquisition

On December 17, 2014, Pieris, Pieris Operating and the former stockholders of Pieris Operating entered into the Acquisition Agreement and completed the Acquisition. On December 5, 2014, Pieris completed a 2.272727-for-1 forward split of its common stock in the form of a share dividend, with the result that 6,100,000 shares of common stock outstanding immediately prior to the stock split became 13,863,635 shares of common stock outstanding immediately thereafter. On December 16, 2014, prior to the closing of the Acquisition, Pieris amended and restated its Articles of Incorporation to, among other things, change its name from Marika Inc. to "Pieris Pharmaceuticals, Inc.," and increase its authorized capital stock from 75,000,000 shares of common stock, par value $0.001 per share, to 300,000,000 shares of common stock, par value $0.001 per share, and 10,000,000 shares of "blank check" preferred stock, par value $0.001 per share. On December 17, 2014, Pieris transferred its pre-Acquisition assets and liabilities to its former majority stockholder, Aleksandrs Sviks, in exchange for the surrender by him and cancellation of 11,363,635 shares of Pieris common stock. All share and per share numbers in this Report relating to our shares of common stock have been adjusted to give effect to the stock split described above, unless otherwise stated.

At the closing of the Acquisition, Pieris issued an aggregate of 20,000,000 shares of its common stock to the former stockholders of Pieris Operating in exchange for all of the outstanding shares (common and preferred) of Pieris Operating's capital stock. Pieris Operating has become a wholly owned subsidiary of Pieris, and the former stockholders of Pieris Operating collectively own approximately 89% of the outstanding shares of Pieris' common stock.

In accordance with Financial Accounting Standards Board, or FASB, Accounting Standards Codification, or ASC, section 805 entitled, "*Business Combinations*," Pieris Operating is considered the accounting acquirer in the Acquisition and will account for the transaction as a capital transaction. Consequently, the assets and liabilities and the historical operations that will be reflected in our financial statements will be those of Pieris Operating and will be recorded at the historical cost basis of Pieris Operating.

2014 Series C Financing

In December 2014, Pieris Operating concluded a Series C financing round, or the 2014 Series C Financing, in which Pieris Operating issued Series C preferred shares for €5,970,149.15 ($8,226,269) in cash and the conversion of €3,000,000 ($4,133,700) outstanding under an existing convertible loan agreement dated November 12, 2012, or the 2012 Bridge Loan and a second convertible loan agreement dated April 14, 2014, or the 2014 Bridge Loan. The convertible loan agreements were terminated in the course of the 2014 Series C Financing.

As part of the 2014 Series C Financing, parties to existing investment agreements and shareholders agreement relating to prior rounds of financing agreed to become parties to the investment agreement and the consolidated shareholders' agreement for the 2014 Series C Financing and the prior agreements were terminated.

Prior to the Series C Financing, Pieris Operating entered into agreements in April 2014 relating to the 2014 Bridge Loan with certain of its stockholders pursuant to which Pieris Operating received a commitment for financing in the aggregate amount of €2,000,000 ($2,753,200), which loan amount, if drawn down by Pieris Operating, would be convertible into preferred shares of Pieris Operating after the maturity date or upon occurrence of certain events. The 2014 Bridge Loan provided for two tranches of financing: (i) Tranche A of €1,500,000 ($2,064,900) and (ii) Tranche B of €500,000 ($688,300). In June 2014, Pieris Operating called 67% of Tranche A, or €1,000,000 ($1,377,900). Loan amounts outstanding under the 2014 Bridge Loan accrued interest at a rate of 12% per year and had a maturity date of December 31, 2015, after which the loan amounts would have accrued interest at a rate of 18% per year. The stockholders party to the 2014 Bridge Loan invested the €1,000,000 ($1,377,900) remaining commitment in cash directly in the 2014 Series C Financing.

In addition, in March 2014, Pieris Operating and the lenders under the 2012 Bridge Loan entered into an amendment, pursuant to which, among other things, the parties agreed to postpone the ultimate maturity date with respect to the remaining balance of the loan from December 31, 2013 to December 31, 2015. The stockholders party to the 2012 Bridge Loan participated in the 2014 Series C Financing and waived their claims for repayment of the 2012 Bridge Loan as consideration.

TBG Loan

As of April 3, 2014, Pieris Operating and tbg Technologie-Beteiligungs-Gesellschaft mbH, or TBG, a subsidiary of KfW Bank, Frankfurt, signed a repayment agreement concerning Pieris Operating's repayment of its liabilities to TBG outstanding at December 31, 2013 in a total amount of €1.2 million ($1.65 million) under a silent partnership agreement between Pieris Operating and TBG, dated May 13, 2003, pursuant to which TBG had invested €750,000 ($1,033,425) as a silent partner in Pieris Operating. The silent partnership agreement expired on December 31, 2013. The outstanding amount of €1.2 million ($1.65 million) consisted of (i) the investment by TBG of €750,000 (($1,033,425) which bore interest at a rate of 10.53% per year, and (ii) €450,000 ($620,000), which represents an exit premium under the silent partnership agreement and which did not accrue interest. Under the repayment agreement, Pieris Operating had agreed to a payment schedule pursuant to which it would make semi-annual payments on the outstanding amount and interest until 2016. As of December 11, 2014, €150,000 ($206,685) of the outstanding amount had been paid, and €1,050,000 ($1.45 million) remained outstanding.

On December 11, 2014, Pieris Operating and TBG entered into an accelerated repayment agreement in respect of the claims of TBG against Pieris Operating with a gross settlement amount of €1,050,000 ($1.45 million), the outstanding amount under the repayment agreement. Under the terms of the accelerated repayment agreement, the exit premium of €450,000 ($620,000) is subject to German income tax and a solidarity surcharge resulting in a potential net payment amount by Pieris Operating of €331,312 ($456,515). This amount can change if the competent German tax authorities have a differing opinion regarding the tax treatment of the profit-based payment, but in no event shall Pieris Operating have to pay more than the gross settlement amount of €450,000 ($620,000). Pursuant to the terms of the accelerated repayment agreement, conditioned upon the closing of the Acquisition, Pieris Operating will be obligated to make two payments to satisfy the settlement as follows: a gross amount of €600,000 ($826,740) plus accrued interest on January 31, 2015 and a post-tax net amount of €331,312 ($456,515) on March 31, 2015, which may be adjusted by German tax authorities as described above. Upon full payment of the gross settlement amount of €1,050,000 ($1.45 million) and issuance of a tax confirmation by Pieris Operating to TBG, all claims of Pieris Operating and TBG against each other from or in connection with the silent partnership agreement dated May 13, 2003 and the repayment agreement entered into on April 3, 2014, shall be considered settled and repaid in full.

TUM Arbitration

On March 20, 2014, Pieris Operating instituted arbitration proceedings, against Technische Universität München, or TUM, to address issues regarding the calculation of payments due from Pieris Operating to TUM under Pieris Operating's Research and Licensing Agreement with TUM, as amended. Under the agreement, TUM has exclusively licensed, or in some cases assigned, to Pieris Operating certain intellectual property and know-how that has become part of the Anticalin® proprietary technologies. In return, Pieris Operating agreed to pay to TUM certain annual license fees, milestones and royalties for its own proprietary drug development and sales, as well as a variable fee as a function of out-licensing revenues, or the Out-License Fee, where such Out-License Fee is creditable against annual license payments to TUM. As required by the agreement, Pieris Operating provided to TUM its calculation of the Out-License Fee for the period beginning July 4, 2003 and ending on December 31, 2012 in the amount of $0.4 million excluding value-added tax. TUM has asserted that the Out-License Fee for this period amounts to €2.5 million ($3.4 million) excluding value-added tax and has threatened to terminate the license agreement if the Out-License Fee is not paid. We believe that if TUM sought to terminate the license agreement for cause as a result of this dispute, it would potentially face wrongful termination claims for substantial damages if the arbitral tribunal in the TUM Arbitration sides with Pieris in its final decision regarding the proper amount of the Out-License Fee. Pieris Operating instituted arbitration to request confirmation that Pieris Operating's calculation of the payments owed to TUM is accurate and will govern all current and future payments due in respect of the Out-License Fee under the agreement.

In April 2014, TUM argued to the arbitrators that it is not the proper party to be sued under the action for a declaratory arbitration decision brought by Pieris Operating in relation to the Research and Licensing Agreement, and that instead, it is the Free State of Bavaria that is the proper respondent to the action. Pieris Operating has responded that TUM has capacity to be sued in relation to any disputes arising from and regarding contractual provisions of the Research and Licensing Agreement and is thus also the proper respondent in the action. In accordance with the arbitration rules of the Deutsche Institution für Schiedsgerichtsbarkeit, each party to the arbitration proceeding has appointed one arbitrator and the party-named arbitrators collectively selected the third arbitrator as the chairman of the arbitration panel. The panel has indicated that it will first decide the issue of whether TUM is the proper respondent in this action. The arbitration panel has set a date for a first hearing in Munich, Germany on January 20, 2015. Pieris Operating has recorded a liability on its balance sheet in respect of such payment in the amount of €271,000 ($373,000).

On December 1, 2014, TUM filed its statement of defense, maintaining its earlier calculation of the Out-License Fee. Pieris Operating has until January 12, 2015 to file a reply brief in response to TUM's defense.

Daiichi Sankyo Collaboration

In June 2014, Pieris Operating achieved the second milestone for the second Daiichi Sankyo collaboration project by completing successful in vitro and in vivo studies validating a range of Anticalin® drug candidates designed to bind a target pre-selected by Daiichi Sankyo. This is the fifth milestone overall under the Daiichi Sankyo collaboration. With this achievement, Pieris Operating transferred further development responsibility of the second collaboration project, including in vivo studies in non-human primates, to Daiichi Sankyo. In October 2014, Pieris Operating achieved the fourth milestone for the first Daiichi Sankyo collaboration project by entering into a toxicology study using Anticalin drug candidates against a target pre-selected by Daiichi Sankyo. This is the sixth milestone overall under the Daiichi Sankyo collaboration.

Sanofi Collaboration

In October, 2014, Pieris Operating achieved a research milestone for one of the initial Sanofi collaboration projects based on a positive review of a broad range of *in vitro*, *in vivo* and CMC data for the collaboration project. With this achievement, Pieris Operating transferred further development responsibility for the collaboration project to Sanofi. This is the second milestone overall under the Sanofi collaboration.

Results of Operations

The following discussion summarizes the key factors our management believes are necessary for an understanding of our financial statements.

Revenues

We have not generated any revenues from product sales to date, and we do not expect to generate revenues from product sales for at least the next several years. Our revenues for the last two years have been primarily from the license and collaboration agreements with Sanofi and Daiichi Sankyo, and, to a much lesser extent, grants from government agencies.

The revenues from Sanofi and Daiichi Sankyo have been comprised primarily of upfront payments, research and development services and, to a lesser extent, milestone payments. We recognized revenues from upfront payments under these agreements on a straight-line basis over the required service period because we determined that the licenses to which the payments related did not have standalone value. Research service revenue is recognized when the costs are incurred and the services have been performed. Revenue from milestone payments is recognized when all of the following conditions are met: (1) the milestone payments are non-refundable, (2) the achievement of the milestone involves substantial risk and was not reasonably assured at the inception of the arrangement, (3) substantive effort on our part is involved in achieving the milestone, (4) the amount of the milestone payment is reasonable in relation to the effort expended or the risk associated with achievement of the milestone, and (5) a reasonable amount of time passes between the up-front license payment and the first milestone payment.

We expect our revenues for the next several years to consist of upfront payments, research funding and milestone payments from strategic collaborations we currently have or may establish in the future. We also may receive grants from government agencies and foundations funds in connection with our drug development efforts.

Expenses

The process of researching and developing drugs for human use is lengthy, unpredictable and subject to many risks. We expect to continue incurring substantial expenses for the next several years as we continue to develop our clinical and preclinical drug candidates and programs. We are unable with any certainty to estimate either the costs or the timelines in which those costs will be incurred. Our current development plans focus on two lead drug candidates: PRS-080 and PRS-060. These programs consume a large proportion of our current, as well as projected, resources. We anticipate that our expenses will increase significantly compared to recent years as we advance PRS-080 through clinical trials, including a Phase I clinical trial in healthy volunteers initiated in November 2014, engage in first-in-man-enabling preclinical studies for PRS-060 and, subsequently, clinical development activities for this program, and prepare drug supply for these and other product candidates. We also expect to incur expenses associated with:

- further preclinical development activities for 300-Series programs;
- establishing and managing relationships with third parties with respect to collaboration and out-licensing; and
- validating and developing additional novel drug candidates.

Any failure or delay in the advancement of PRS-080 or PRS-060 could require us to re-allocate resources from our other projects to the advancement of those drug candidates, which could have a material adverse impact on the advancement of other projects and on our operations.

Our operating expenses are comprised of research and development expenses and general and administrative expenses. Our research and development costs are comprised of:

- internal recurring costs, such as labor and fringe benefits, materials and supplies, facilities and maintenance costs; and
- fees paid to external parties who provide us with contract services, such as preclinical testing, manufacturing and related testing, and clinical trial activities.

General and administrative expenses consist primarily of salaries and benefits for employees in executive, finance, business development, legal, accounting, human resources and other support functions. Other significant general and administrative expenses include the costs associated with obtaining and maintaining our intellectual property portfolio, professional fees for accounting, auditing, consulting and legal services, travel and allocated expenses.

Comparison of Nine Months Ended September 30, 2014 and September 30, 2013

The following table sets forth our revenues and operating expenses for the nine months ended September 30, 2014 and 2013:

	Nine Months Ended September 30, 2014	Nine Months Ended September 30, 2013
	(in thousands)	
Revenues	$ 2,090	$ 9,002
Research and development expenses	(3,268)	(7,563)
General and administrative expenses	(4,104)	(1,901)

	Nine Months Ended September 30, 2014	Nine Months Ended September 30, 2013
	(in thousands)	
Other income (expense)	(402)	(379)
Income tax benefit	—	—
Net profit (loss)	$ (5,684)	$ (841)

Revenues

Total revenues were $2.1 million for the nine months ended September 30, 2014 as compared to $9.0 million for the nine months ended September 30, 2013. The following table provides a comparison of revenues for the nine months ended September 30, 2014 and 2013 (amounts in thousands):

	Nine Months Ended September 30, 2014	Nine Months Ended September 30, 2013
	(in thousands)	
Upfront payments	$ 473	$ 3,553
Research and development services	877	2,754
Milestone payments	685	661
Grants	55	2,034
Total	$ 2,090	$ 9,002

The decrease in revenues from upfront payments in the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 related primarily to the successful hand over to a collaboration partner of collaboration projects in June 2014 and March 2013 and the termination of one collaboration project in November 2013. We were able to record upfront payments for four collaboration projects from January to March 2013 and upfront payment revenues for three collaboration projects throughout the nine-month period ended September 30, 2013. In the nine months ended September 30, 2014, we were able to record upfront payment revenues for two collaboration projects, which were successfully handed over to collaboration partners in June 2014 and October 2014, respectively. Also contributing to the decrease was the termination of a collaboration project in November 2013, for which the collaboration partner made an upfront payment. As a result of the termination, all deferred revenues related to that upfront payment were recognized in 2013, leading to a reduction in revenues from upfront payments from that collaboration partner for the nine months ended September 30, 2014 compared to the same period in the prior year.

The decrease in revenues from research and development services for the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 related primarily to a $2.1 million decrease in research funding from collaboration partners. In the first nine months of 2013, we received research funding from collaboration partners for four collaboration projects; whereas, in the nine months ended September 30, 2014, we received research funding from collaboration partners for only two collaboration projects. Due to the successful hand over of both of these remaining collaboration projects, we have not received research funding from collaboration partners since July 2014.

Revenues from milestone payments were $0.7 million for the nine months ended September 30, 2014 as compared to $0.7 million for the nine months ended September 30, 2013. In the nine months ended September 30, 2014, we received two milestone payments from collaboration partners. In the first nine months of 2013, we achieved two milestones that triggered payments from collaboration partners. As the programs within our strategic collaborations mature, we may be able to recognize further milestone payments in the upcoming years.

The decrease in revenues from grants in the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013 resulted from a decrease in activities performed for PRS-080's development that are reimbursable under grants from the European Commission for PRS-080. In the nine months ended September 30, 2014, our activities were primarily comprised of a clinical trial application and submission, resulting in reduced grant payments from the European Commission compared to the prior-year period.

Research and Development Expenses

Total research and development expenses were $3.3 million for the nine months ended September 30, 2014 as compared to $7.6 million for the nine months ended September 30, 2013. This decrease of $4.3 million in total research and development expenses is primarily related to a decrease of $1.5 million due to the finalization before the first quarter of 2014 of preclinical studies and drug manufacturing activities in preparation for the clinical study with PRS-080.

Our internal research and development expenses were $3.1 million and $6.8 million during the nine months ended September 30, 2014 and September 30, 2013, respectively. As of September 30, 2014, we employed 20 full-time and seven part-time personnel in our research and development group compared to 32 full-time and four part-time personnel in our research and development group as of September 30, 2013. The research and development expenses incurred for amounts payable to external parties started to become a larger component of our research and development costs during the fiscal year ended December 31, 2012 and represented a significant portion of our research and development spending during the nine months ended September 30, 2013 due primarily to the development work related to PRS-080, including preclinical studies and Phase I trial preparation for PRS-080. We incurred expenses of approximately $0.1 million and $2.9 million during the nine months ended September 30, 2014 and 2013, respectively, for amounts payable to external parties who manufactured, tested and performed clinical trial activities for all of our projects. Because these activities were substantially completed for PRS-080 in 2013, we incurred significantly lower costs in the nine months ended September 30, 2014 than in the respective period in 2013.

As development of PRS-080 and PRS-060 progresses, we anticipate costs for these two programs to increase considerably as we continue the Phase I trial for PRS-080 and begin other clinical trials in relation to PRS-080 and PRS-060. We also will incur costs related to additional non-clinical testing required for FDA approval and for manufacturing the material needed for clinical trial use.

We incurred $0.2 million and $0.8 million of costs under the license and collaboration agreements with our collaboration partners for the nine months ended September 30, 2014 and the nine months ended September 30, 2013, respectively. These costs declined significantly during 2014 as the research phase of the license and collaboration agreements have been completed, and the three collaboration projects have been handed over to our collaboration partners as of March 2013, June 2014 and October 2014, respectively, for continued development by them.

General and Administrative Expenses

General and administrative expenses increased $2.2 million in the nine months ended September 30, 2014 compared to the nine months ended September 30, 2013. The increase resulted primarily from an increase in consulting fees in the nine months ended September 30, 2014 compared to nine months ended September 30, 2013. We expect that our general and administrative expenses will increase in the future as we expand our operating activities, maintain and expand our intellectual property portfolio, and incur additional costs associated with being a public company.

Comparison of Years Ended December 31, 2013 and December 31, 2012

The following table sets forth our revenues and operating expenses for the fiscal years ended December 31, 2013 and 2012:

	Year Ended December 31, 2013	Year Ended December 31, 2012
	(in thousands)	
Revenues	$ 12,427	$ 11,383
Research and development expenses	(9,412)	(10,855)
General and administrative expenses	(2,461)	(2,708)
Other income (expense)	(488)	(141)
Income tax benefit	0	0
Net profit (loss)	$ 66	$ (2,321)

Revenues

The following table provides a comparison of revenues for the years ended December 31, 2013 and 2012 (amounts in thousands):

	Year Ended December 31, 2013	Year Ended December 31, 2012
	(in thousands)	
Upfront payments	$ 5,159	$ 5,774
Research and development services	3,592	3,794
Milestone payments	1,129	257
Grants	2,547	1,558
Total	$ 12,427	$ 11,383

The decrease in revenues from upfront payments in the fiscal year ended December 31, 2013 compared to the fiscal year ended December 31, 2012 of $0.6 million is mainly due to a $1.9 million decrease in revenues because of the successful hand over of a collaboration project to a collaboration partner in 2013 offset by a $1.4 million increase in upfront payment revenues from another collaboration partner in the fiscal year ended December 31, 2013.

The $0.2 million decrease in revenues from research and development services in the fiscal year ended December 31, 2013 compared to the fiscal year ended December 31, 2012 related primarily to the successful hand over of a collaboration project to a collaboration partner in March 2013, following which Pieris Operating no longer received research funding from that collaboration partner.

The increase of $0.9 million in revenues from milestone payments is due the achievement of more milestones in the fiscal year ended December 31, 2013 compared to the fiscal year ended December 31, 2102. In the fiscal year ended December 31, 2012, we achieved a research milestone for one collaboration project; whereas in the fiscal year ended December 31, 2013, we achieved three research milestones under a collaboration project with a collaboration partner.

The increase in revenues from grants in the fiscal year ended December 31, 2013 compared to the fiscal year ended December 31, 2012 related primarily to our significantly increased activities related to PRS-080's development in 2013 compared to 2012, resulting in higher reimbursement from the European Commission for PRS-080's development.

Research and Development Expenses

The $1.4 million decrease in total research and development expenses in the fiscal year ended December 31, 2013 compared to the fiscal year ended December 31, 2012 is due primarily to decreased preclinical program expenses.

Our internal research and development expenses were $8.4 million and $9.7 million during the years ended December 31, 2013 and 2012, respectively. As of December 30, 2013, we employed 32 full-time and two part-time personnel in our research and development group compared to 36 full-time and four part-time personnel in our research and development group as of December 31, 2012. The research and development expenses incurred for amounts payable to external parties started to become a larger component of our research and development costs during the fiscal year ended December 31, 2012 and represented a significant portion of our research and development spending during the fiscal year ended December 31, 2013, due primarily to the development work related to PRS-080, including preclinical studies and Phase I trial preparation for PRS-080. We incurred expenses of approximately $3.3 million and $3.7 million during the years ended December 31, 2013 and 2012, respectively, for amounts payable to external parties who manufactured, tested and performed clinical trial activities for all of our projects.

We incurred $1.0 million and $1.2 million of costs under the license and collaboration agreements with our collaboration partners for the years ended December 31, 2013 and 2012, respectively.

General and Administrative Expenses

General and administrative expenses decreased from $2.7 million for the year ended December 31, 2012 to $2.5 million in 2013. The decrease resulted primarily from a decrease to payroll-related expense in 2013 compared to 2012 due to lower bonus compensation to employees and the replacement of our chief scientific officer. We expect that our general and administrative expenses will increase in the future as we expand our operating activities, maintain and expand our intellectual property portfolio, and incur additional costs associated with being a public company.

Other Income (Expense)

Other expense increased to $0.5 million in the fiscal year ended December 31, 2013 from $0.1 million for the fiscal year ended December 31, 2012. This increase is primarily due to interest expense arising from the $2.8 million convertible bridge loan we obtained in November 2012. The interest expense includes interest accruing at 12% per year on the outstanding amount of the loan.

Liquidity and Capital Resources

Through September 30, 2014, we have funded our operations with approximately $116.5 million of cash that has been obtained from the following main sources: $56.4 million from sales of equity; $7.0 million from loans; $13.2 million from grants from government agencies; and $39.9 million in total payments received under license and collaboration agreements, including $7.9 million for research and development services costs we received in 2012, 2013 and the first nine months of 2014 from Daiichi Sankyo and Sanofi. We expect that reimbursements of our development costs by Daiichi Sankyo and Sanofi will decline going forward, and we do not expect such reimbursements to be a significant source of funding in the future.

As of September 30, 2014, we had a total of $0.9 million in cash and cash equivalents and approximately $7.8 million of liabilities, consisting of $0.5 million of current liabilities from operations and $7.0 million in principal amount of loans (including the 2012 Bridge Loan, with an extended maturity date of December 31, 2015) and repayment obligations. We used approximately $2.8 million and $2.1 million of working capital to fund recurring operations during the nine months ended September 30, 2 and September 30, 2013, respectively.

As noted above, in December 2014, Pieris Operating concluded the 2014 Series C Financing in which Pieris Operating issued Series C preferred shares for €5,970,149.15 ($8,226,269) in cash and the conversion of €3,000,000 ($4,133,700) outstanding under existing bridge loans.

Pieris Operating has experienced operating losses since its inception and had a total accumulated deficit of $61.6 million as of September 30, 2014. Pieris Operating expects to incur additional costs and require additional capital. We have incurred losses in nearly every year since inception and in the nine months ended September 30, 2014. These losses have resulted in significant cash used in operations. During the fiscal years ended December 31, 2013 and 2012, our cash used in operations was approximately $3.1 million and $9.1 million, respectively. While we have several research and development programs underway, the PRS-080 and PRS-060 programs have advanced the furthest and will continue to consume increasing amounts of cash for conducting clinical trials and the testing and manufacturing of product material. As we continue to conduct these activities necessary to pursue FDA approval of PRS-080 and PRS-060 and our other product candidates, we expect the cash needed to fund operations to increase significantly over the next several years.

Our requirements for additional capital will depend on many factors, including the following:

- the scope, rate of progress, results and cost of our clinical studies, preclinical testing and other related activities;
- the cost of manufacturing clinical supplies, and establishing commercial supplies, of our drug candidates and any products that we may develop;
- the number and characteristics of drug candidates that we pursue;
- the cost, timing and outcomes of regulatory approvals;
- the cost and timing of establishing sales, marketing and distribution capabilities;
- the terms and timing of any collaborative, licensing and other arrangements that we may establish;
- the timing, receipt and amount of sales, profit sharing or royalties, if any, from our potential products;
- the cost of preparing, filing, prosecuting, defending and enforcing any patent claims and other intellectual property rights; and
- the extent to which we acquire or invest in businesses, products or technologies, although we currently have no commitments or agreements relating to any of these types of transactions.

We cannot be sure that future funding will be available to us on acceptable terms, or at all. Due to often volatile nature of the financial markets, equity and debt financing may be difficult to obtain. In addition, any unfavorable development or delay in the progress for our PRS-080 or PRS-060 program could have a material adverse impact on our ability to raise additional capital.

We may seek to raise any necessary additional capital through a combination of private or public equity offerings, debt financings, collaborations, strategic alliances, licensing arrangements and other marketing and distribution arrangements. To the extent that we raise additional capital through marketing and distribution arrangements or other collaborations, strategic alliances or licensing arrangements with third parties, we may have to relinquish valuable rights to our drug candidates, future revenue streams, research programs or product candidates or to grant licenses on terms that may not be favorable to us. If we raise additional capital through private or public equity offerings, the ownership interest of our existing stockholders will be diluted, and the terms of these securities may include liquidation or other preferences that adversely affect our stockholders' rights. If we raise additional capital through debt financing, we may be subject to covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, making capital expenditures or declaring dividends.

If we cannot raise adequate capital in the future, we will be required to delay and possibly eliminate the research and development work not only of our lead drug candidates PRS-080 and PRS-060, but also our other preclinical stage product candidates. In this case, we could be required to relinquish greater or all rights to our product candidates at an earlier stage of development and on less favorable terms than we would otherwise agree.

Our cash is maintained in money market accounts and, to a lesser extent, in CDs at major financial institutions. Due to the current low interest rates available for these instruments, we are earning limited interest income. Our investment portfolio has not been adversely impacted by the problems in the credit markets that have existed over the last several years, but there can be no assurance that our investment portfolio will not be adversely affected in the future.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States, or GAAP. The preparation of these financial statements requires management to make estimates and assumptions that affect reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses for the periods presented. Management makes estimates and exercises judgment in revenue recognition, share-based payments and income taxes. Judgments must also be made about the disclosure of contingent liabilities, and these estimates and assumptions form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from those estimates and under different assumptions or conditions. We periodically evaluate our estimates and judgments, including those described in greater detail below, in light of changes in circumstances, facts and experience.

We have identified the following accounting policies that we believe require application of management's most subjective judgments, often requiring the need to make estimates about the effect of matters that are inherently uncertain and may change in subsequent periods. Our actual results could differ from these estimates and such differences could be material.

Multiple-element arrangements

We enter into licensing and development agreements with collaboration partners for the development of Anticalin® therapeutics against a variety of targets in diseases and conditions. The terms of these agreements contain multiple elements and deliverables, which may include (i) licenses, or options to obtain licenses, to our Anticalin technology and (ii) research and development activities with respect to one or more therapeutics related to such licenses. Payments to us under these agreements may include upfront fees (which include license and option fees), payments for research and development services, payments based upon the achievement of certain milestones and royalties on product sales. There are no performance, cancellation, termination or refund provisions in any of the arrangements that contain material financial consequences to us. We follow the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 605-25, *Revenue Recognition—Multiple-Element Arrangements* and ASC Topic 605-28, *Revenue Recognition—Milestone Method* in accounting for these agreements.

When evaluating multiple-element arrangements, we identify the deliverables included within the agreement and evaluate which deliverables represent separate units of accounting based on whether certain criteria are met, including whether the delivered element has stand-alone value to the collaborator or if the arrangement includes a general right of return for delivered items.

The consideration received is allocated among the separate units of accounting using the relative selling price method, and the applicable revenue recognition criteria are applied to each of the separate units. We have used best estimate of selling price methodology to estimate the selling price for licenses and options to acquire additional licenses to our proprietary technology because we do not have Vendor Specific Objective Evidence or Third Party Evidence of selling price for these deliverables. To determine the estimated selling price of a license to our proprietary technology, we consider market conditions as well as entity-specific factors, including those factors contemplated in negotiating the agreements, terms of previous collaborative agreements, similar agreements entered into by third parties, market opportunity, estimated development costs, probability of success and the time needed to commercialize a product candidate pursuant to the license. Significant changes in key assumptions used to determine the best estimate of selling price could have a significant effect on the allocation of arrangement consideration, which could have a material effect on the timing of revenue recognition.

We typically receive upfront, nonrefundable payments when licensing our intellectual property in conjunction with a research and development agreement. In determining the units of accounting, management evaluates whether the license has stand-alone value from the undelivered elements to the collaboration partner based on the consideration of the relevant facts and circumstances for each arrangement. Factors considered in this determination include the stage of development of the license delivered, research capabilities of the partner and the availability of Anticalin® technology research expertise in the general marketplace.

When management believes the license to our intellectual property does not have stand-alone value from the other deliverables to be provided in the arrangement, we generally recognize revenue attributed to the license on a straight-line basis over our contractual or estimated performance period, which is typically the term of our research and development obligations. When management believes the license to our intellectual property has stand-alone value, we recognize revenue attributed to the license upon delivery. The periods over which revenue should be recognized are subject to estimates by management and may change over the course of the research and development agreement. Such a change could have a material impact on the amount of revenue we record in future periods.

The accounting treatment for options granted to collaborators depends upon the nature of the option granted to the collaboration partner. Options are considered substantive if, at the inception of an agreement, we are at risk as to whether the collaboration partner will choose to exercise the options to secure additional licenses. Factors that are considered in evaluating whether options are substantive include the overall objective of the arrangement, the benefit the collaborator might obtain from the agreement without exercising the options, the cost to exercise the options relative to the total upfront consideration, and the additional financial commitments or economic penalties imposed on the collaborator as a result of exercising the options.

In arrangements where options to obtain additional licenses are considered substantive, we do not consider the additional licenses to be a deliverable at the inception of the agreement. When a collaborator exercises the option to acquire the additional license, the exercise fee is attributed to the additional license, and we apply the multiple-element revenue recognition criteria to all deliverables in the arrangement, which will be consistent with the treatment of up-front payments for licenses (*i.e.,* license and research and development services). In the event an option expires and is not exercised, any deferred amounts attributable to the optional licenses are recognized into revenue upon expiration. For options that are non-substantive, the additional licenses to which the options pertain are considered deliverables upon inception of the arrangement, and we apply the multiple-element revenue recognition criteria to determine accounting treatment. None of our agreements has been determined to contain non-substantive options.

Payments or reimbursements resulting from our research and development efforts for those arrangements where such efforts are considered as deliverables are recognized as the services are performed and are presented on a gross basis so long as there is persuasive evidence of an arrangement, the fee is fixed or determinable, and collection of the related receivable is reasonably assured. Amounts received prior to satisfying the above revenue recognition criteria are recorded as deferred revenue.

Milestone payments

At the inception of each agreement that includes milestone payments, we evaluate whether each milestone is substantive and at risk to both parties on the basis of the contingent nature of the milestone. This evaluation includes an assessment of whether (a) the consideration is commensurate with either (1) the entity's performance to achieve the milestone or (2) the enhancement of the value of the delivered item(s) as a result of a specific outcome resulting from the entity's performance to achieve the milestone, (b) the consideration relates solely to past performance and (c) the consideration is reasonable relative to all of the deliverables and payment terms within the arrangement. We evaluate factors such as the scientific, regulatory, commercial and other risks that must be overcome to achieve the respective milestone, the level of effort and investment required to achieve the respective milestone and whether the milestone consideration is reasonable relative to all deliverables and payment terms in the arrangement in making this assessment.

We aggregate milestones into three categories (i) research milestones, (ii) development milestones and (iii) commercial milestones. Research milestones are typically achieved upon reaching certain success criteria as defined in each agreement related to developing an Anticalin® protein against the specified target. Development milestones are typically reached when a compound reaches a defined phase of clinical research or passes such phase, or upon gaining regulatory approvals. Commercial milestones are typically achieved when an approved pharmaceutical product reaches the status for commercial sale or certain defined levels of net sales by the licensee, such as when a product first achieves global sales or annual sales of a specified amount.

Revenues from research and development milestone payments, if the milestones are deemed substantive and the milestone payments are nonrefundable, are recognized entirely upon successful accomplishment of the milestones. Milestones that are not considered substantive are accounted for as license payments and recognized on a straight-line basis over the remaining period of performance. Revenues from commercial milestone payments are accounted for as royalties and are recorded as revenue upon achievement of the milestone, assuming all other revenue recognition criteria are met.

Government grants

Government grants are recognized when there is reasonable assurance that all conditions will be complied with and the grant will be received. As government grants received by us generally represent subsidies for specified activities, they are recognized when earned as a reduction of the expenses recorded for the activity that the grants are intended to compensate. Thus, revenues from a grant relating to research and development expense are recognized over the same period in which the related costs are incurred.

Loss contingencies

We record accruals for loss contingencies to the extent that we conclude that it is probable that a liability has been incurred and the amount of the related loss can be reasonably estimated. We evaluate, on a quarterly basis, developments in legal proceedings and other matters that could cause an increase or decrease in the amount of the liability that has been accrued previously. We consider all claims on a quarterly basis in accordance with GAAP and based on known facts assess whether potential losses are considered reasonably possible, probable and estimable. Based upon this assessment, we then evaluate disclosure requirements and whether to accrue for such claims in our financial statements.

Under the Research and Licensing Agreement between Pieris Operating and Technische Universität München dated as of July 26, 2007, Pieris Operating is required make payments to TUM based on the Pieris Operating's revenues generated from entering into sub-licensing agreements with any third party with respect to both University Inventions and Joint Inventions (each as defined in the agreement). These revenues include up-front payments as well as milestone payments received by Pieris Operating from third parties.

As Pieris Operating signed six sub-licensing agreements between 2004 and 2012 under which it has recorded revenues, Pieris Operating acknowledges an obligation to TUM. However, the parties disagree regarding the amount due. Pieris Operating commenced arbitration proceedings to resolve the dispute. Although it is not possible to predict the outcome of such arbitration, Pieris Operating has assessed the degree of probability and the reasonably possible losses that it could incur as a result of these matters. Pieris Operating believes that its accrual for possible liability under the agreement as of December 31, 2013 (in an amount of €271,000 ($373,000)) appropriately reflects its estimated future payment obligations. The amount currently in dispute is €2.2 million ($3.0 million). Please see the disclosure under the heading "Business—Legal Proceedings."

Income taxes

We apply ASC 740 – Income Taxes, which established financial accounting and reporting requirements for the effects of income taxes that result from our activities during the current and preceding years. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating losses and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted statutory tax rates expected to apply to taxable income in the jurisdictions and years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Where we determine that it is more likely than not that some portion or all of the deferred tax assets will not be realized in the future, the deferred tax assets are reduced by a valuation allowance. The valuation allowance is sufficient to reduce the deferred tax assets to the amount that we determine is more likely than not to be realized.

Management's evaluation with regard to the probability of realizing its deferred tax assets is that it is more likely than not that we may not realize the benefit of its deferred tax asset. This evaluation is based on our history of operating losses and an actual outlook that we will experience losses in the foreseeable future. The net profit for the year ended December 31, 2013 is not indicative of a trend. Accordingly deferred tax assets have been fully reserved as of December 31, 2012 and 2013 and September 30, 2014.

Recently Issued Accounting Pronouncements

We review new accounting standards to determine the expected financial impact, if any, that the adoption of each such standard will have. For the recently issued accounting standards that we believe may have an impact on our financial statements, see Exhibit 99.1, "Notes to Financial Statements – Note 2 – Summary of Significant Accounting Policies."

Emerging Growth Company and Smaller Reporting Company Status

The Jumpstart Our Business Startups Act of 2012, or the JOBS Act, establishes a class of company called an "emerging growth company," which generally is a company whose initial public offering was completed after December 8, 2011 and had total annual gross revenues of less than $1 billion during its most recently completed fiscal year. Additionally, Section 12b-2 of the Exchange Act establishes a class of company called a "smaller reporting company," which generally is a company with a public float of less than $75 million as of the last business day of its most recently completed second fiscal quarter or, if such public float is $0, had annual revenues of less than $50 million during the most recently completed fiscal year for which audited financial statements are available. We currently qualify as both an emerging growth company and a smaller reporting company.

As an emerging growth company and a smaller reporting company, we are eligible to take advantage of certain exemptions from various reporting requirements that are not available to public reporting companies that do not qualify for those classifications, including without limitation the following:

- An emerging growth company is exempt from any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and financial statements, commonly known as an "auditor discussion and analysis."
- An emerging growth company is not required to hold a nonbinding advisory stockholder vote on executive compensation or any golden parachute payments not previously approved by stockholders.
- Neither an emerging growth company nor a smaller reporting company is required to comply with the requirement of auditor attestation of management's assessment of internal control over financial reporting, which is required for other public reporting companies by Section 404 of the Sarbanes-Oxley Act of 2002.
- A company that is either an emerging growth company or a smaller reporting company is eligible for reduced disclosure obligations regarding executive compensation in its periodic and annual reports, including without limitation exemption from the requirement to provide a compensation discussion and analysis describing compensation practices and procedures.
- A company that is either an emerging growth company or a smaller reporting company is eligible for reduced financial statement disclosure in registration statements, which must include two years of audited financial statements rather than the three years of audited financial statements that are required for other public reporting companies. Smaller reporting companies are also eligible to provide such reduced financial statement disclosure in annual reports on Form 10-K.

For as long as we continue to be an emerging growth company and/or a smaller reporting company, we expect that we will take advantage of the reduced disclosure obligations available to us as a result of those respective classifications. We will remain an emerging growth company until the earliest of (i) the end of the fiscal year in which the market value of our common stock that is held by non-affiliates exceeds $700 million as of the end of the second fiscal quarter, (ii) the end of the fiscal year in which we have total annual gross revenues of $1 billion or more during such fiscal year, (iii) the date on which we issue more than $1 billion in non-convertible debt in a three-year period or (iv) December 31, 2019, the end of the fiscal year following the fifth anniversary of the date of the first sale of our common stock pursuant to an effective registration statement filed under the Securities Act. We expect that we will remain an emerging growth company for the foreseeable future, but cannot retain our emerging growth company status indefinitely and will no longer qualify as an emerging growth company on or before December 31, 2019. We will remain a smaller reporting company until we have a public float of $75 million or more as of the last business day of our most recently completed second fiscal quarter. We also expect that we will remain a smaller reporting company for the foreseeable future, and we could retain our smaller reporting company status indefinitely depending on the size of our public float.

Emerging growth companies may elect to take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act of 1933, as amended, for complying with new or revised accounting standards. This allows an emerging growth company to delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the benefits of this extended transition period. Our financial statements may therefore not be comparable to those of companies that comply with such new or revised accounting standards.

We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Mr. Prelack also previously served as director and audit committee chair for BioVex Group, Inc., a clinical-stage biotechnology company focused on the development and future commercialization of targeted treatments for cancer and the prevention of infectious disease, which was sold to Amgen in 2011, and as a director of VelQuest Corporation, OPCAT, Inc. and Foodsafe Solutions, Inc. Mr. Prelack is a Certified Public Accountant, received a B.B.A. degree from the University of Massachusetts at Amherst in 1979 and is a member of the National Association of Corporate Directors. We believe that Mr. Prelack adds value to our Board of Directors due to his extensive executive leadership experience, director experience within the biotechnology sector and his many years serving in senior financial and operational management roles.

Term of Office of Directors

We currently have authorized five directors. In accordance with our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws, our board of directors is divided into three classes with staggered three-year terms. At each annual meeting of stockholders commencing with the meeting in 2015, the successors to the directors whose terms then expire will be elected to serve until the third annual meeting following the election. Our directors are divided among the three classes as follows:

- the Class I director is Dr. Christina Takke and her term will expire at the annual meeting of stockholders to be held in 2015;
- the Class II directors are Chau Khuong and Steven Prelack, and their terms will expire at the annual meeting of stockholders to be held in 2016; and
- the Class III directors are Stephen S. Yoder and Michael Richman, and their terms will expire at the annual meeting of stockholders to be held in 2017.

Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that each class will consist of approximately one-third of the directors.

Family Relationships

There are no family relationships among any of our current or former directors or executive officers.

Involvement in Certain Legal Proceedings

None of our directors, executive officers, significant employees, promoters or control persons has been involved in any legal proceeding in the past 10 years that would require disclosure under Item 401(f) of Regulation S-K promulgated under the Securities Act.

Nominations to the Board of Directors

Director candidates are considered based upon various criteria, including without limitation their broad-based business and professional skills and experiences, expertise in or knowledge of the life sciences industry and ability to add perspectives relating to that industry, concern for the long-term interests of our stockholders, diversity, and personal integrity and judgment. Our Board of Directors has a critical role in guiding our strategic direction and overseeing the management of our business, and accordingly, we seek to attract and retain highly qualified directors who have sufficient time to engage in the activities of our Board of Directors and to understand and enhance their knowledge of our industry and business plans.

Under the Yoder AG Agreement, Mr. Yoder is prohibited during the term from setting up, purchasing, or participating directly or indirectly in any competing business of Pieris Operating, excluding the purchase of a non-majority equity interest in such a company where such equity interest also does not block any minority interests within such company. "Competing business" is interpreted as the business areas Mr. Yoder is engaged in while performing his duties under the Yoder AG Agreement during the two-year period prior to the termination of the Yoder AG Agreement, which includes areas of activity concerning the discovery and development of Anticalin® proteins. These restrictions also apply only to the geographical region in which Mr. Yoder engages in business activities during the two-year period prior to the termination of the Yoder AG Agreement. The agreement provided for an unlimited term unless earlier terminated if either party provides three months' prior written notice. Under the terms of the consulting agreement, Mr. Schalper receives $1,102 (€800) per day worked and is subject to customary confidentiality obligations, which extend indefinitely following termination of the consulting agreement. Mr. Schalper also agreed to assign certain intellectual property rights to Pieris Operating.

Chief Scientific Officer

Dr. Ulrich Moebius currently serves as Chief Scientific Officer of Pieris Operating pursuant to an employment agreement with Pieris Operating dated June 26, 2013, as amended on January 28, 2014 and October 21, 2014. The agreement terminates on September 30, 2015 unless earlier terminated if either party provides three months' prior written notice. Dr. Moebius received an initial annual base salary of $256,289 (€186,000), with any increases to be reviewed by the management board of Pieris Operating on an annual basis. In addition, Dr. Moebius is eligible to receive a bonus for each calendar year during the term of the agreement in an amount of up to 20% of his annual base salary, based upon achievement of certain individual and corporate objectives, each as approved by the supervisory board in consultation with Dr. Moebius.

Dr. Moebius is prohibited during the term of the agreement from (i) engaging in any secondary employment or employment which impairs his employment with Pieris Operating without the prior written consent of Pieris Operating, which shall not be unreasonably withheld, (ii) working, either directly or indirectly, in competition with Pieris Operating or (iii) owning, directly or indirectly, a financial interest in a competing business of Pieris Operating.

Dr. Moebius is also subject to customary confidentiality obligations, which are not limited by the term of the agreement. Dr. Moebius has also agreed to assign certain intellectual property rights to Pieris Operating.

Former Chief Scientific Officer

Dr. Laurent Audoly resigned as our Chief Scientific Officer as of June 30, 2013. In addition, Dr. Audoly was eligible to receive a bonus at the end of each calendar year the agreement was in effect in an amount of up to $41,337 (€30,000) based upon achievement of certain objectives. Potential Payments upon Termination or Change in Control

Chief Executive Officer

Under the terms of the Yoder AG Agreement, in the event Pieris Operating sold its shares or assets, or a Sale Event, Mr. Yoder would have been eligible to receive a cash payment equivalent to a 2.5% equity interest in the transaction value, or the Ownership Stake. If the Sale Event resulted in a purchase price of greater than $206.7 million (€150 million), Mr. Yoder would also have been entitled to a fee based upon the net proceeds of the offering as follows: (i) if the Sale Event resulted in a purchase price of greater than $206.7 million (€150 million) but less than or equal to $275.6 million (€200 million), 0.25% of all net proceeds; (ii) if the Sale Event resulted in a purchase price of greater than $275.6 million (€200 million) but less than or equal to $344.5 million (€250 million), 0.5% of all net proceeds; (iii) if the Sale Event resulted in a purchase price of greater than $344.5 million (€250 million) but less than or equal to $413.4 million (€300 million), 0.75% of all net proceeds; and (iv) if the Sale Event resulted in a purchase price of greater than $413.4 million (€300 million), 1.0% of all net proceeds, *provided that*, in the case of each of (i) through (iv), such net proceeds would be calculated after the deduction of all applicable transaction costs, or the Success Fee. If an additional dilutive financing round by Pieris Operating occurred, the Ownership Stake and Success Fee could be adjusted by the supervisory board of Pieris Operating accordingly, acting in good faith.

In the event that (i) Mr. Yoder's employment was terminated by Pieris Operating by non-renewal of the employment agreement within six or 12 months following the Sale Event and (ii) the net proceeds of the Sale Event were to exceed $206.7 million (€150 million), the amount of the Ownership Stake and the Success Fee would be reduced by 33% and 67%, respectively. In the event Pieris Operating terminated the employment agreement for cause, Mr. Yoder would not be entitled to the Ownership Stake or the Success Fee.

Pieris Operating and Mr. Yoder determined that the Acquisition was not deemed a Sale Event under the terms of the Yoder AG Agreement, and Mr. Yoder has expressly waived, in connection with the Acquisition, any claims under the Yoder AG Agreement for any payments in connection therewith.

Equity Compensation issued to Named Executive Officers

Prior to the Acquisition, Pieris Operating had in place a performance-based cash settled option plan that provided for the issuance of cash based on the increase in the value of the stock of Pieris Operating if the performance condition was achieved on or before December 31, 2013. The plan and the awards issued thereunder expired by their terms on December 31, 2013 and no payments were made thereunder.

Description of Pieris Plan

In December 2014, our Board of Directors and stockholders adopted the 2014 Employee, Director and Consultant Equity Incentive Plan, or the Pieris Plan, which became effective upon closing of the Acquisition. The Pieris Plan is intended to encourage ownership of common stock by our employees and directors and certain of our consultants, including employees of Pieris Operating, in order to attract and retain such people, to induce them to work for the benefit of us and to provide additional incentive for them to promote our success. The Pieris Plan reserves for issuance 3,200,000 shares of our common stock. In addition the Pieris Plan provides for an "evergreen" provision whereby the number of shares of our common stock reserved for issuance under the Pieris Plan shall be automatically increased on January 1 of each of year commencing in fiscal 2016 by the lesser of (i) 1,000,000 shares, (ii) 4% of the number of shares of our common stock outstanding on such date, and (iii) such other amount determined by the administrator. As of the date of this Current Report on Form 8-K, options to purchase 1,430,000 shares of our common stock have been issued under the Pieris Plan to our executive officers and directors, and options to purchase 1,089,500 shares have been issued under the Pieris Plan to other employees and consultants. For additional information, see "Executive Compensation—Director Compensation" and "Executive Compensation—Employment Arrangements with Executive Officers of Pieris Pharmaceuticals, Inc." As a result of such grants, 680,500 shares of our common stock remain available for future issuances under the Pieris Plan.

Types of Awards. The Pieris Plan provides for the granting of incentive stock options, non-qualified stock options, stock grants and other stock-based awards, including restricted stock units.

- *Incentive and Non-qualified Stock Options*. The plan administrator determines the exercise price of each stock option. The exercise price of a non-qualified stock option may not be less than the fair market value of our common stock on the date of grant. The exercise price of an incentive stock option may not be less than the fair market value of our common stock on the date of grant if the recipient holds 10% or less of the combined voting power of our securities, or 110% of the fair market value of a share of our common stock on the date of grant otherwise.
- *Stock Grants*. The plan administrator may grant stock, including restricted stock, to any participant, which purchase price, if any, may not be less than the par value of shares of our common stock. The stock grant will be subject to the conditions and restrictions determined by the administrator. The recipient of a stock grant shall have the rights of a stockholder with respect to the shares of stock as of the grant date.
- *Stock-Based Awards*. The administrator of the Pieris Plan may grant other stock-based awards, including stock appreciation rights, phantom stock awards and restricted stock units, with terms approved by the administrator, including restrictions related to the awards. The holder of a stock-based award shall not have the rights of a stockholder until shares of our common stock are issued pursuant to such award.

Plan Administration. Our Board of Directors is the administrator of the Pieris Plan, except to the extent it delegates its authority to a committee, in which case the committee shall be the administrator. The administrator has the authority to determine the recipients of the awards, the terms of awards, including exercise and purchase price, the number of shares subject to awards, the vesting schedule applicable to awards, the form of consideration, if any, payable upon exercise or settlement of an award and the terms of award agreements for use under the Pieris Plan. In addition, the administrator may amend any term or condition of any outstanding award including, without limitation, to reduce or increase the exercise price or purchase price, accelerate the vesting schedule or extend the expiration date, provided that no such amendment shall impair the rights of a participant without such participant's consent.

Eligibility. The administrator will determine the participants in the Pieris Plan from among our employees, directors and consultants. A grant may be approved in advance with the effectiveness of the grant contingent and effective upon such person's commencement of service within a specified period. No participant may receive awards for more than 1,500,000 shares of our common stock in any fiscal year.

Termination of Service. Unless otherwise provided by the administrator or in an award agreement, upon a termination of a participant's service, all unvested options then held by the participant will terminate and all other unvested awards will be forfeited.

Transferability. Awards under the Pieris Plan may not be transferred except by will or by the laws of descent and distribution, unless otherwise provided by our board in its discretion and set forth in the applicable agreement, provided that no award may be transferred for value.

Adjustment. In the event of a stock dividend, stock split, recapitalization or reorganization or other change in change in capital structure, the administrator will make appropriate adjustments to the number and kind of shares of stock or securities subject to awards.

Corporate Transaction. Upon a merger, consolidation or sale of all or substantially all of our assets, the administrator, or the board of directors of any corporation assuming our obligations, may, in its sole discretion, take any one or more of the following actions pursuant to our plan, as to some or all outstanding awards:

- provide that outstanding options will be assumed or substituted for shares of the successor corporation or consideration payable with respect to our outstanding stock in connection with the corporate transaction;
- provide that the outstanding options must be exercised within a certain number of days, either to the extent the options are then exercisable, or at the administrator's discretion, any such options being made partially or fully exercisable;
- terminate outstanding options in exchange for payment of an amount equal to the difference between (a) the consideration payable upon consummation of the corporate transaction to a holder of the number of shares into which such option would have been exercisable to the extent then exercisable (or, in the administrator's discretion, any such options being made partially or fully exercisable) and (b) the aggregate exercise price of those options;
- provide that outstanding awards will be assumed or substituted for shares of the successor corporation, become realizable or deliverable, or restrictions applicable to an award will lapse, in whole or in part, prior to or upon the corporate transaction; and

- terminate outstanding stock grants in exchange for payment of any amount equal to the consideration payable upon consummation of the corporate transaction to a holder of the same number of shares comprising the stock grant, to the extent the stock grant is no longer subject to any forfeiture or repurchase rights (or, at the administrator's discretion, all forfeiture and repurchase rights being waived upon the corporate transaction).

Amendment and Termination. The Pieris Plan will terminate on December 17, 2024 or at an earlier date by vote of the stockholders or our Board of Directors; provided, however, that any such earlier termination shall not affect any awards granted under the Pieris Plan prior to the date of such termination. The Pieris Plan may be amended by our Board of Directors, except that our Board of Directors may not alter the terms of the Pieris Plan if it would adversely affect a participant's rights under an outstanding stock right without the participant's consent. Stockholder approval will be required for any amendment to the Pieris Plan to the extent such approval is required by law, include the Internal Revenue Code or applicable stock exchange requirements.

Upon the closing of the Acquisition, Pieris granted a stock option to Mr. Yoder under the Pieris Plan to purchase 1,280,000 shares of our common stock with the exercise price being the fair market value of our common stock on the date of grant. 25% of the option shall vest immediately upon grant and (ii) 75% of the option shall vest ratably over three (3) years in equal installments on a quarterly basis beginning on the last day of the next calendar quarter after the date of grant, subject to Mr. Yoder's continued employment.

Mr. Yoder will initially receive an annual base salary of $375,000, and any adjustments thereto shall be subject to review in the sole discretion of the Board of Directors, or a committee of the Board of Directors. In addition, Mr. Yoder is eligible to receive an annual discretionary bonus of up to forty percent (40%) of Mr. Yoder's then-effective annual base salary, based upon achievement of individual and corporate performance objectives as determined by the Board of Directors or a committee thereof. Mr. Yoder is entitled to participate in any employee benefit programs, plans and practices on the same terms as other salaried employees on a basis consistent with the participation of other senior executives, provided, however, that while Mr. Yoder remains employed outside the United States we shall only be responsible for 50% of the total cost of health insurance for Mr. Yoder's spouse and children. Mr. Yoder will also be provided with a monthly automobile allowance while he is employed outside of the United States and up to $25,000 of relocation expenses in the event Mr. Yoder relocates to the United States. On the effective date of the Acquisition, Mr. Yoder was granted a stock option to purchase 1,280,000 shares of our common stock with the exercise price being the fair market value at the time of grant. The option is subject to and governed by the terms of the Pieris Plan and a stock option agreement, which stock option agreement provides for a ten year term, and that (i) 25% of the option shall vest immediately upon grant and (ii) 75% of the option shall vest ratably over three (3) years in equal installments on a quarterly basis beginning on the last day of the next calendar quarter after the date of grant, subject to Mr. Yoder's continued employment.

Under the Yoder Employment Agreement, Mr. Yoder is prohibited during the term of the agreement, subject to certain exceptions, from (i) accepting any other employment or consultancy, (ii) serving on the board of directors or similar body of any other entity, unless approved by the Chairman of the Board of Directors. and (iii) acquiring, assuming or participating in, directly or indirectly, any financial position, investment or interest known by Mr. Yoder to be adverse or antagonistic to Pieris, its business or prospects, financial or otherwise, or in any competing business.

The agreement contains (i) customary confidentiality obligations which are not limited by the term of the agreement, (ii) certain non-compete provisions extending during the term of the agreement and one year thereafter and (iii) certain non-solicitation provisions during the term of the agreement and for one year thereafter. Mr. Yoder also agreed to assign certain intellectual property rights to Pieris.

All compensation and benefits to be paid to Mr. Yoder pursuant to the Yoder Employment Agreement other than the equity awards shall be paid to Mr. Yoder through the terms and conditions of the Yoder AG Agreement with Pieris Operating, as amended and restated, for so long as Mr. Yoder remains employed at Pieris Operating. Upon termination of the Yoder AG Agreement provided that the Yoder Employment Agreement is still in effect, all compensation shall be paid by Pieris.

Termination for Any Reason

Upon termination of Mr. Yoder for any reason, Mr. Yoder will receive all earned but unpaid salary, any accrued vacation time, any vested benefits he may have under any employee benefit plan and any unpaid expense reimbursement accrued through the date of termination, or the Accrued Obligations.

Termination by us for Without Cause or by Executive for Good Reason

If Mr. Yoder's employment is terminated (i) by us without cause or (ii) by him for good reason, then we must pay Mr. Yoder (i) the Accrued Obligations earned through the date of termination, (ii) a lump-sum payment comprised of (a) an amount equal to 12 months of his base salary at the time of his termination, and (b) a pro rata portion of the bonus for the year in which the termination occurs, based on year-to-date performance as determined by the Board of Directors, or a committee thereof, in its sole discretion, and (iii) an amount equal to his health insurance premium, paid directly or as a reimbursement to Mr. Yoder, for up to a maximum of 12 months. Payments under items (i) – (iii) above are sometimes referred to in this section as Severance. All unvested equity awards held by Mr. Yoder will immediately vest in full and become exercisable following termination and any forfeiture restrictions will immediately lapse. The Severance and acceleration of any unvested options is expressly conditioned on Mr. Yoder executing and delivering to Pieris a release of claims.

Termination upon a Change of Control

If Mr. Yoder's employment is terminated (i) by us without cause or (ii) by Mr. Yoder for good reason within 12 months following a change in control, and Mr. Yoder executes and delivers to Pieris a release of claims, then Mr. Yoder shall receive (i) the Accrued Obligations earned through the date of termination, (ii) a lump-sum payment comprised of (a) an amount equal to 12 months of his base salary at the time of his termination, and (b) the target bonus for the year in which the termination occurs, and (iii) an amount equal to his health insurance premium, paid directly or as a reimbursement to Mr. Yoder, for up to a maximum of 12 months. All unvested equity awards will immediately vest in full and become exercisable following termination and any forfeiture restrictions will immediately lapse.

For purposes of the Yoder Employment Agreement, "cause" shall mean the occurrence of any of the following events, as determined by the Board of Directors or a committee designated by the Board of Directors, in its sole discretion: (i) Mr. Yoder's commission of any felony or any crime involving fraud, dishonesty, or moral turpitude under the laws of Germany, the United States or any state thereof; (ii) Mr. Yoder's attempted commission of, or participation in, a fraud against Pieris; (iii) Mr. Yoder's intentional, material violation of any contract or agreement between Mr. Yoder and Pieris or of any statutory duty owed to Pieris; (iv) Mr. Yoder's unauthorized use or disclosure of Pieris' confidential information or trade secrets; or (v) Mr. Yoder's gross misconduct.

For purposes of the Yoder Employment Agreement, "good reason" means Mr. Yoder's resignation from all positions he then holds with Pieris if (i) (a) there is a material diminution in Mr. Yoder's duties and responsibilities with Pieris; (b) there is a material reduction of Mr. Yoder's base salary; provided, however, that a material reduction in Mr. Yoder's base salary pursuant to a salary reduction program affecting all or substantially all of the employees of Pieris and that does not adversely affect Mr. Yoder to a greater extent than other similarly situated employees shall not constitute good reason; or (c) Mr. Yoder is required to relocate Mr. Yoder's primary work location to a facility or location that would increase Mr. Yoder's one-way commute distance by more than fifty (50) miles from Mr. Yoder's primary work location as of immediately prior to such change, (ii) Mr. Yoder provides written notice outlining such conditions, acts or omissions to Pieris within thirty (30) days immediately following such material change or reduction, (iii) such material change or reduction is not remedied by Pieris within thirty (30) days following Pieris' receipt of such written notice and (iv) Mr. Yoder's resignation is effective not later than thirty (30) days after the expiration of such thirty (30) day cure period.

For purposes of the Yoder Employment Agreement, a "change in control" shall be deemed to occur (i) when any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act becomes the "Beneficial Owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of Pieris representing 50% or more of the total voting power represented by Pieris' then outstanding voting securities (excluding for this purpose any such voting securities held by the Pieris or its affiliates or by any employee benefit plan of Pieris) pursuant to a transaction or a series of related transactions which the Board of Directors does not approve; or (ii) a merger or consolidation of Pieris whether or not approved by the Board of Directors, other than a merger or consolidation which would result in the voting securities of Pieris outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or the parent of such corporation) more than 50% of the total voting power represented by the voting securities of Pieris or such surviving entity or parent of such corporation, as the case may be, outstanding immediately after such merger or consolidation; or (iii) the sale or disposition by Pieris of all or substantially all of its assets in a transaction requiring stockholder approval.

Review, Approval or Ratification of Transactions with Related Persons

Due to the small size of our company, we do not at this time have a formal written policy regarding the review of related party transactions, and rely on our full Board of Directors to review, approve or ratify such transactions and identify and prevent conflicts of interest. Our Board of Directors reviews any such transaction in light of the particular affiliation and interest of any involved director, officer or other employee or stockholder and, if applicable, any such person's affiliates or immediate family members. Management aims to present transactions to our Board of Directors for approval before they are entered into or, if that is not possible, for ratification after the transaction has occurred. If our Board of Directors finds that a conflict of interest exists, then it will determine the appropriate action or remedial action, if any. Our Board of Directors approves or ratifies a transaction if it determines that the transaction is consistent with our best interests and the best interest of our stockholders.

Director Independence

In connection with the closing of the Acquisition, our Board of Directors undertook a review of the composition of our Board of Directors and independence of each director. Based upon information requested from and provided by each director concerning his background, employment and affiliations, including family relationships, our Board of Directors has determined that Chau Khuong, Dr. Christina Takke, Michael Richman and Steven Prelack would qualify as "independent" as that term is defined by NASDAQ Listing Rule 5605(a)(2). Stephen S. Yoder would not qualify as "independent" under applicable NASDAQ Listing Rules applicable to the Board of Directors generally or to separately designated board committees because he currently serves as our Chief Executive Officer. In making such determinations, our Board of Directors considered the relationships that each of our non-employee directors has with the Combined Company and all other facts and circumstances deemed relevant in determining independence, including the beneficial ownership of our capital stock by each non-employee director.

Subject to some exceptions, NASDAQ Listing Rule 5605(a)(2) provides that a director will only qualify as an "independent director" if, in the opinion of our Board of Directors, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director, and that a director cannot be an "independent director" if (a) the director is, or in the past three years has been, an employee of ours; (b) a member of the director's immediate family is, or in the past three years has been, an executive officer of ours; (c) the director or a member of the director's immediate family has received more than $120,000 per year in direct compensation from us within the preceding three years, other than for service as a director or benefits under a tax-qualified retirement plan or non-discretionary compensation (or, for a family member, as a non-executive employee); (d) the director or a member of the director's immediate family is a current partner of our independent public accounting firm, or has worked for such firm in any capacity on our audit at any time during the past three years; (e) the director or a member of the director's immediate family is, or in the past three years has been, employed as an executive officer of a company where one of our executive officers serves on the compensation committee; or (f) the director or a member of the director's immediate family is an executive officer, partner or controlling stockholder of a company that makes payments to, or receives payments from, us in an amount which, in any twelve-month period during our past three fiscal years, exceeds the greater of 5% of the recipient's consolidated gross revenues for that year or $200,000 (except for payments arising solely from investments in our securities or payments under non-discretionary charitable contribution matching programs). Additionally, in order to be considered an independent member of an audit committee under Rule 10A-3 of the Exchange Act, a member of an audit committee may not, other than in his or her capacity as a member of the audit committee, the Board of Directors, or any other committee of the Board of Directors, accept, directly or indirectly, any consulting, advisory, or other compensatory fee from the applicable company or any of its subsidiaries or otherwise be an affiliated person of the applicable company or any of its subsidiaries.

Dividends

We have never declared nor paid any cash dividends to stockholders. We do not intend to pay cash dividends on our common stock for the foreseeable future, and currently intend to retain any future earnings to fund our operations and the development and growth of our business. The declaration of any future cash dividend, if any, would be at the discretion of our Board of Directors (subject to limitations imposed under applicable Nevada law) and would depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions.

Shares Eligible for Future Sale

Upon the completion of the Acquisition, we had 22,500,000 shares of common stock outstanding. Of the outstanding shares of our common stock, 2,500,000 shares are freely tradable, without restriction, as of the date of this Current Report on Form 8-K. None of the 20,000,000 shares issued in connection with the Acquisition can be publicly sold under Rule 144 promulgated under the Securities Act until one year after the date of filing this Current Report on Form 8-K.

Rule 144

Rule 144 promulgated under the Securities Act will generally permit the public sale of outstanding shares of our common stock that have been issued as restricted securities by the following persons and under the following circumstances commencing one year following the filing of our "Form 10 information" in this Current Report on Form 8-K:

- any person that is not, and has not been for a period of at least 90 days, an affiliate of ours will be entitled to sell its restricted shares of our common stock freely and without restriction, provided that (i) such person has held its restricted shares of our common stock for at least 6 months, (ii) we are subject to the reporting obligations of the Exchange Act for at least 90 days prior to any such sale, and (iii) we remain compliant and current with our reporting obligations under the Exchange Act.
- any of our affiliates, which includes our directors, executive officers and any other person in control of us, will be entitled to sell its restricted shares of our common stock provided that each of clause (i), (ii) and (iii) set forth above with respect to sales by non-affiliates is satisfied, and the following additional conditions are met: (a) any such sale is made in compliance with certain manner of sale provisions, (b) a Form 144 is filed with the SEC, and (c) any such sale complies with certain volume limitations, which generally limit the sale of shares within any three-month period to a number of shares that does not exceed the greater of 1% of the total number of outstanding shares of our common stock and the average weekly trading volume of our common stock during the four calendar weeks preceding the filing of the Form 144 with respect to such sale.

Regulation S

Regulation S under the Securities Act provides that shares owned by any person may be sold without registration in the U.S., provided that the sale is effected in an offshore transaction and no directed selling efforts are made in the U.S. (as these terms are defined in Regulation S), subject to certain other conditions. In general, this means that our shares of common stock may be sold in some other manner outside the U.S. without requiring registration in the U.S.

Securities Authorized for Issuance under Equity Compensation Plans

Equity Compensation Plan Information

Effective as of immediately prior to the closing of the Acquisition on December 17, 2014, Pieris' Board of Directors and the holders of at least a majority of its then-outstanding capital stock adopted the 2014 Employee, Director and Consultant Equity Incentive Plan, or the Pieris Plan. For a description of the terms of the Pieris Plan, please see "Executive Compensation – Description of Pieris Plan." As of the date hereof, options to purchase 2,519,500 shares of our common stock have been issued under the Pieris Plan to our executive officers, directors, employees and consultants. For additional information, see "Executive Compensation—Director Compensation" and "Executive Compensation—Description of the Pieris Plan." As a result of such grants, 680,500 shares of our common stock are available for future issuances under the Pieris Plan.

We intend to file a registration statement on Form S-8 under the Securities Act covering all of the shares of common stock subject to equity grants outstanding or reserved under the Pieris Plan. Accordingly, shares of our common stock issued under the Pieris Plan will be eligible for sale in the public market, subject to vesting restrictions. However, resales of certain shares held by our affiliates registered on the Form S-8 will be subject to volume limitations, manner of sale, notice and public information requirements of Rule 144.

With respect to both Pieris and Pieris Operating, as of December 31, 2013, there were no compensation plans, including individual compensation arrangements, under which equity securities were authorized for issuance.

Issuer Purchases of Equity Securities

In connection with the Acquisition and pursuant to the Split-Off Agreement, we transferred our pre-Acquisition assets and liabilities to our former majority stockholder, Aleksandrs Sviks, in exchange for the surrender by him and cancellation of 11,363,635 shares of Pieris common stock.

RECENT SALES OF UNREGISTERED SECURITIES

The following summarizes all sales of unregistered securities by us within the past three years:

As described more fully under "The Acquisition" above, on December 17, 2014, we consummated the Acquisition. The issuances of securities in the Acquisition were exempt from registration pursuant to Section 4(a)(2) of, and Regulation D promulgated under, the Securities Act of 1933, as amended, or Rule 903 of Regulation S promulgated thereunder.

On June 26, 2013, Pieris issued 5,000,000 shares of its common stock, prior to adjustment for the forward stock split effected on December 5, 2014, to Aleksandrs Sviks, its former sole director and officer, for $5,000. There were no underwriters, and there were no underwriting discounts or commissions, in respect of the sale or the transactions thereunder. The shares issued to Aleksandrs Sviks were deemed to be exempt from registration under the Securities Act in reliance upon Section 4(a)(2) of the Securities Act (or Regulation D promulgated thereunder) as a transaction by an issuer not involving any public offering.

As more fully described in "Management's Discussion and Analysis of Financial Condition and results of Operations—2014 Series C Financing", in October through December 2014, Pieris Operating concluded a Series C financing round, or the 2014 Series C Financing, in which Pieris Operating issued Series C preferred shares for €5,970,149.15 ($8,226,269) in cash and the conversion of €3,000,000 ($4,133,700) outstanding under an existing convertible loan agreement dated November 12, 2012, or the 2012 Bridge Loan, as amended, and a second convertible loan agreement dated April 14, 2014, or the 2014 Bridge Loan. The convertible loan agreements terminated upon the effectiveness of the 2014 Series C Financing. As part of the 2014 Series C Financing, parties to existing investment agreements and shareholders agreement relating to prior rounds of financing agreed to become parties to the investment agreement and the consolidated shareholders' agreement for the 2014 Series C Financing and the prior agreements were terminated. The shares issued in connection with the 2014 Series C Financing were deemed to be exempt from registration under the Securities Act in reliance upon Section 4(a)(2) of the Securities Act (or Regulation D promulgated thereunder) as a transaction by an issuer not involving any public offering.

Reference is made to the disclosure set forth under Item 3.02 of this Current Report on Form 8-K regarding the issuance of shares of Pieris' common stock to former stockholders of Pieris Operating upon the closing of the Acquisition, which disclosure is incorporated herein by reference.

DESCRIPTION OF SECURITIES

The following describes the material terms of the capital stock of Pieris. The following description does not purport to be complete and is subject to, and qualified in its entirety by reference to, Pieris' Amended and Restated Articles of Incorporation and Amended and Restated Bylaws, which are attached as Exhibits 3.1 and 3.2, respectively, to this Current Report on Form 8-K and incorporated herein by reference. All Pieris stockholders are urged to read our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws carefully and in their entirety.

We currently have authorized capital stock of 310,000,000 shares, of which 300,000,000 are designated as common stock, par value $0.001 per share, and 10,000,000 shares are designated as preferred stock, par value $0.001 per share. The following is a summary of the rights of our common and preferred stock and some of the provisions of our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws, and the Nevada Revised Statutes, or the NRS. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description you should refer to our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws, copies of which have been filed as exhibits to this Current Report on Form 8-K, as well as the relevant provisions of the NRS.

Common Stock

As of December 17, 2014 after giving effect to the Acquisition, there were 22,500,000 shares of common stock outstanding. In addition, as of December 17, 2014 there were 680,500 shares of common stock reserved for future issuance under the Pieris Plan. The holders of our common stock are entitled to one vote per share on matters on which our stockholders vote. There are no cumulative voting rights. Subject to any preferential dividend rights of any outstanding shares of preferred stock, holders of our common stock are entitled to receive dividends, if declared by our Board of Directors, out of funds that we may legally use to pay dividends. If we liquidate or dissolve, holders of our common stock are entitled to share ratably in our assets once our debts and any liquidation preference owed to any then-outstanding preferred stockholders are paid. Our Amended and Restated Articles of Incorporation do not provide our common stock with any redemption, conversion or preemptive rights. All of the issued and outstanding shares of our common stock are duly authorized, validly issued, fully paid and non-assessable.

Preferred Stock

If we issue preferred stock in the future, such preferred stock may have priority over common stock with respect to dividends and other distributions, including the distribution of assets upon liquidation. Our Board of Directors has the authority, without further stockholder authorization, to issue from time to time up to 10,000,000 shares of preferred stock in one or more series and to fix the terms, limitations, voting rights, relative rights and preferences and variations of each series. Although we have no present plans to issue any shares of preferred stock, the issuance of shares of preferred stock, or the issuance of rights to purchase such shares, could decrease the amount of earnings and assets available for distribution to the holders of common stock, could adversely affect the rights and powers, including voting rights, of the common stock, and could have the effect of delaying, deterring or preventing a change of control of us or an unsolicited acquisition proposal. As of December 17, 2014, no shares of preferred stock were outstanding.

Dividends

Under NRS 78.288, the directors of a Nevada corporation may authorize, and the corporation may make, distributions (including cash dividends) to stockholders, but no such distribution may be made if, after giving it effect:

- the corporation would not be able to pay its debts as they become due in the usual course of business; or
- the corporation's total assets would be less than the sum of (x) its total liabilities plus (y) the amount that would be needed, if the corporation were to be dissolved at the time of distribution, to satisfy the preferential rights upon dissolution of stockholders whose preferential rights are superior to those receiving the distribution.

The NRS prescribes the timing of the determinations above depending on the nature and timing of payment of the distribution. For cash dividends paid within 120 days after the date of authorization, the determinations above must be made as of the date the dividend is authorized. When making their determination that a distribution is not prohibited by NRS 78.288, directors may consider:

- financial statements prepared on the basis of accounting practices that are reasonable in the circumstances;
- a fair valuation, including, but not limited to, unrealized appreciation and depreciation; and/or
- any other method that is reasonable in the circumstances.

Declaration and payment of any dividend will be subject to the discretion of our Board of Directors. The payment of any future dividends will be at the discretion of our Board of Directors; however, the time and amount of such dividends, if any, will be dependent upon our financial condition, operations, compliance with applicable law, cash requirements and availability, debt repayment obligations, capital expenditure needs and restrictions in our debt instruments, contractual restrictions, business prospects, industry trends, the provisions of Nevada law affecting the payment of distributions and any other factors our Board of Directors may consider relevant. Our ability to pay dividends on our common stock may depend in part on our receipt of cash dividends from our operating subsidiaries, which may be restricted from paying us dividends as a result of the laws of their jurisdiction of organization, agreements of our subsidiaries or covenants under any existing and future outstanding indebtedness we or our subsidiaries incur.

Anti-Takeover Effects of Our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws and Certain Provisions of Nevada Law

Our Amended and Restated Articles of Incorporation, Amended and Restated Bylaws and the NRS contain provisions that may have the effect of maintaining continuity and stability in the composition of our Board of Directors. These provisions may help us avoid costly takeover battles, reduce our vulnerability to a hostile change of control and enhance the ability of our Board of Directors to effectively evaluate and negotiate in connection with any unsolicited offer to acquire us. However, these provisions may have an anti-takeover effect and may delay, deter or prevent a merger or acquisition of our company by means of a tender offer, a proxy contest or other takeover attempt that a stockholder might consider to be in its best interest, including attempts that might result in a premium over the prevailing market price for the shares of common stock held by stockholders.

Business Combinations and Acquisition of Control Shares

Pursuant to provisions in our Amended and Restated Articles of Incorporation, we have elected not to be governed by certain Nevada statutes that may have the effect of discouraging corporate takeovers.

Nevada's "combinations with interested stockholders" statutes (NRS 78.411 through 78.444, inclusive) prohibit specified types of business "combinations" between certain Nevada corporations and any person deemed to be an "interested stockholder" for two years after such person first becomes an "interested stockholder" unless the corporation's board of directors approves the combination (or the transaction by which such person becomes an "interested stockholder") in advance, or unless the combination is approved by the board of directors and sixty percent of the corporation's voting power not beneficially owned by the interested stockholder, its affiliates and associates. Furthermore, in the absence of prior approval certain restrictions may apply even after such two-year period. For purposes of these statutes, an "interested stockholder" is any person who is (1) the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the outstanding voting shares of the corporation, or (2) an affiliate or associate of the corporation and at any time within the two previous years was the beneficial owner, directly or indirectly, of ten percent or more of the voting power of the then-outstanding shares of the corporation. The definition of the term "combination" is sufficiently broad to cover most significant transactions between a corporation and an "interested stockholder." These laws generally apply to Nevada corporations with 200 or more stockholders of record, but a Nevada corporation may elect in its articles of incorporation not to be governed by these particular laws. We have not made such an election in our Amended and Restated Articles of Incorporation.

Nevada's "acquisition of controlling interest" statutes (NRS 78.378 through 78.3793, inclusive) contain provisions governing the acquisition of a controlling interest in certain Nevada corporations. These "control share" laws provide generally that any person that acquires a "controlling interest" in certain Nevada corporations may be denied voting rights, unless a majority of the disinterested stockholders of the corporation elects to restore such voting rights. In our Amended and Restated Articles of Incorporation, we have elected to provide that these statutory provisions shall not apply to us or to any acquisition of our common stock. If at such later time when we no longer choose to so elect, and absent such provision in our articles of incorporation or a similar provision included in an amendment to our Amended and Restated Bylaws, these laws would then apply to us if we were to have 200 or more stockholders of record (at least 100 of whom have addresses in Nevada appearing on our stock ledger) and do business in the State of Nevada directly or through an affiliated corporation, unless our articles of incorporation or bylaws in effect on the tenth day after the acquisition of a controlling interest provide otherwise. These laws provide that a person acquires a "controlling interest" whenever a person acquires shares of a subject corporation that, but for the application of these provisions of the NRS, would enable that person to exercise (i) one-fifth or more, but less than one-third, (ii) one-third or more, but less than a majority or (iii) a majority or more, of all of the voting power of the corporation in the election of directors. Once an acquirer crosses one of these thresholds, shares which it acquired in the transaction taking it over the threshold and within the 90 days immediately preceding the date when the acquiring person acquired or offered to acquire a controlling interest become "control shares" to which the voting restrictions described above apply.

In addition, NRS 78.139 also provides that directors may resist a change or potential change in control if the directors, by majority vote of a quorum, determine that the change is opposed to, or not in, the best interest of the corporation.

Classified Board of Directors; Removal of Directors for Cause

Pursuant to our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws, our Board of Directors is divided into three classes, with the term of office of the first class to expire at the first annual meeting of stockholders following the initial classification of directors and until their successors are duly elected and qualified, the term of office of the second class to expire at the second annual meeting of stockholders following the initial classification of directors and until their successors are duly elected and qualified, and the term of office of the third class to expire at the third annual meeting of stockholders following the initial classification of directors and until their successors are duly elected and qualified. At each annual meeting of stockholders, directors elected to succeed those directors whose terms expire, other than directors elected by the holders of any series of preferred stock under specified circumstances, will be elected for a three-year term of office. All directors elected to our classified Board of Directors will serve until the election and qualification of their respective successors or their earlier resignation or removal. Members of the Board of Directors may only be removed for cause and only by the affirmative vote of at least 80% of our outstanding voting stock. These provisions are likely to increase the time required for stockholders to change the composition of the Board of Directors. For example, at least two annual meetings will be necessary for stockholders to effect a change in a majority of the members of the Board of Directors.

Advance Notice Provisions for Stockholder Proposals and Stockholder Nominations of Directors

Our Amended and Restated Bylaws provide that, for nominations to the Board of Directors or for other business to be properly brought by a stockholder before a meeting of stockholders, the stockholder must first have given timely notice of the proposal in writing to our Secretary. For an annual meeting, a stockholder's notice generally must be delivered not less than 90 days nor more than 120 days prior to the first anniversary of the previous year's annual meeting date. For a special meeting, the notice must generally be delivered not earlier than the 90th day prior to the meeting and not later than the later of (i) the 60th day prior to the meeting or

(ii) the 10th day following the day on which public announcement of the meeting is first made. Detailed requirements as to the form of the notice and information required in the notice are specified in the Amended and Restated Bylaws. If it is determined that business was not properly brought before a meeting in accordance with our bylaw provisions, such business will not be conducted at the meeting.

Special Meetings of Stockholders

Special meetings of the stockholders may be called only by our Board of Directors pursuant to a resolution adopted by a majority of the total number of directors.

No Stockholder Action by Written Consent

Any action to be effected by our stockholders must be effected at a duly called annual or special meeting of the stockholders.

Super Majority Stockholder Vote Required for Certain Actions

Our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws provide that the Board of Directors is expressly authorized to make, alter, amend, change, add to, rescind or repeal, in whole or in part, our bylaws without a stockholder vote in any manner not inconsistent with Nevada law and our Amended and Restated Articles of Incorporation. Our Amended and Restated Articles of Incorporation require the affirmative vote of the holders of at least 80% of our outstanding voting stock to amend or repeal any of the provisions discussed in this section under the heading "Anti-Takeover Effects of Our Amended and Restated Articles of Incorporation and Amended and Restated Bylaws and Certain Provisions of Nevada Law," as well as certain other provisions of our Amended and Restated Articles of Incorporation. This 80% stockholder vote would be in addition to any separate class vote that might in the future be required pursuant to the terms of any preferred stock that might then be outstanding. An 80% vote is also required for any amendment to, or repeal of, our Amended and Restated Bylaws by the stockholders and for the removal of any member of or our entire Board of Directors. Our Amended and Restated Bylaws may be amended or repealed by a majority vote of the Board of Directors.

Deemed Notice and Consent

Our Amended and Restated Articles of Incorporation provide that any person purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed, to the fullest extent permitted by law, to have notice of and consented to all of the provisions of our Amended and Restated Articles of Incorporation, our Amended and Restated Bylaws and any amendment to our articles of incorporation or bylaws enacted in accordance therewith and applicable law.

Transfer Agent and Registrar

Our transfer agent and registrar is Globex Transfer, LLC, 780 Deltona Blvd., Suite 202, Deltona, Florida. Their telephone number is (813) 344-4490.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

Indemnification of Directors and Officers

Our Amended and Restated Articles of Incorporation and our Amended and Restated Bylaws provide that each person who was or is made a party or is threatened to be made a party to or is otherwise involved (including, without limitation, as a witness) in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was one of our directors or officers or is or was serving at our request as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, whether the basis of such action, suit or proceeding is alleged action in an official capacity as a director, officer or trustee or in any other capacity while serving as a director, officer or trustee, shall be indemnified and held harmless by us to the fullest extent authorized by the NRS against all expense, liability and loss (including attorneys' fees and amounts paid in settlement) reasonably incurred or suffered by such.

NRS 78.7502 permits a corporation to indemnify any director or officer of the corporation against expenses (including attorneys' fees) and amounts paid in settlement actually and reasonably incurred in connection with any action, suit or proceeding brought by reason of the fact that such person is or was a director or officer of the corporation, if such person (i) is not liable pursuant to NRS 78.138 and (ii) acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the conduct was unlawful. In a derivative action (i.e., one brought by or on behalf of the corporation), indemnification may be provided only for expenses actually and reasonably incurred by any director or officer in connection with the defense or settlement of such an action or the suit if such person (i) is not liable pursuant to NRS 78.138 and (ii) acted in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be provided if such person shall have

been adjudged to be liable to the corporation, unless and only to the extent that the court in which the action or suit was brought or some other court of competent jurisdiction determines that such person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Our Amended and Restated Articles of Incorporation provide that the liability of our directors and officers shall be eliminated or limited to the fullest extent permitted by the NRS. NRS 78.138(7) provides that, subject to limited statutory exceptions and unless the articles of incorporation or an amendment thereto (in each case filed on or after October 1, 2003) provide for greater individual liability, a director or officer is not individually liable to a corporation or its stockholders or creditors for any damages as a result of any act or failure to act in his or her capacity as a director or officer unless it is proven that: (i) the act or failure to act constituted a breach of his or her fiduciary duties as a director or officer and (ii) the breach of those duties involved intentional misconduct, fraud or a knowing violation of law.

We have entered into indemnification agreements with our directors and certain officers, in addition to the indemnification provided in the NRS, our Amended and Restated Articles of Incorporation and our Amended and Restated Bylaws, and intend to enter into indemnification agreements with any new directors and officers in the future. We have purchased and intend to maintain insurance on behalf of any person who is or was a director or officer against any loss arising from any claim asserted against him or her and incurred by him or her in any such capacity, subject to certain exclusions.

The foregoing discussion of our Amended and Restated Articles of Incorporation, Amended and Restated Bylaws, indemnification agreements, indemnity agreement, and Nevada law is not intended to be exhaustive and is qualified in its entirety by such Amended and Restated Articles of Incorporation, Amended and Restated Bylaws, indemnification agreements, indemnity agreement, or law.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Item 3.02 Unregistered Sales of Equity Securities.

Reference is made to the disclosure set forth under Item 2.01 of this Current Report on Form 8-K, which disclosure is incorporated herein by reference.

Upon the closing of the Acquisition, we issued 20,000,000 shares of our common stock to 21 former stockholders of Pieris Operating in exchange for all of the outstanding shares of Pieris Operating's capital stock and a waiver by certain stockholders of all subscription and conversion rights with respect to certain stockholder agreements with former stockholders of Pieris Operating. The issuance and sale of such securities was not registered under the Securities Act, and such securities were issued in reliance upon exemptions from registration afforded by Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder and Rule 903 of Regulation S promulgated thereunder. In determining that the issuance of certain of such securities qualified for exemption under Section 4(a)(2) of the Securities Act, we relied on the following facts: the securities were issued to recipients that each represented that it was an "accredited investor" as defined in Rule 501 promulgated under the Securities Act, it was acquiring the securities for investment purposes and without a view toward disposition thereof, and it had sufficient investment experience to evaluate the risks of the investment; we used no advertising or general solicitation in connection with the issuance and sale of the securities; and the securities were issued as restricted securities. In determining that the issuance of certain of such securities qualified for exemption in reliance on Regulation S, we relied on the following facts: each recipient represented that it is not a "U.S. Person" within the meaning of Regulation S under the Securities Act and that he, she or it would not sell the shares in the U.S. for a period of at least one year after purchase.

Item 3.03 Material Modification of Rights of Security Holders.

Item 4.01 Changes in Registrant's Certifying Accountant.

(a) Effective on December 17, 2014 and with the approval of our Board of Directors, we dismissed Harris & Gillespie CPA'S PLLC, or Harris & Gillespie, as our independent registered public accounting firm engaged to audit our financial statements.

The reports issued by Harris & Gillespie on our financial statements as of and for the years ended June 30, 2014 and June 30, 2013 contained an explanatory paragraph stating that there was substantial doubt about our ability to continue as a going concern. Other than as disclosed above, such reports did not contain an adverse opinion or disclaimer of opinion and were not qualified as to uncertainty, audit scope or accounting principles.

Our decision to dismiss Harris & Gillespie is not the result of any disagreement between us and Harris & Gillespie on matters of accounting principles or practices, financial statement disclosure or auditing scope or procedures. During our two most recent fiscal years, there were no disagreements with Harris & Gillespie on any matter of accounting principles or practices, financial statement disclosure or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of Harris & Gillespie, would have caused Harris & Gillespie to make a reference to the subject matter of the disagreement in connection with its reports. Pursuant to the rules of the SEC applicable to smaller reporting companies, Harris & Gillespie was not required to provide an attestation as to the effectiveness of our internal control over financial reporting for any period since our inception.

Other than as disclosed above, there were no reportable events (as that term is defined in Item 304(a)(1)(v) of Regulation S-K) during our two most recent fiscal years. Our Board of Directors discussed the subject matter referred to above with Harris & Gillespie. We authorized Harris & Gillespie to respond fully and without limitation to all requests of our successor accountant concerning all matters related to the annual and interim periods audited and reviewed by Harris & Gillespie, including with respect to the subject matter of any reportable event.

We provided Harris & Gillespie with a copy of the above disclosures we are making in response to Item 4.01 of this Current Report on Form 8-K and requested that Harris & Gillespie furnish a letter addressed to the SEC stating whether or not it agrees with the above statements, and, if not, stating the respects in which it does not agree. A copy of the letter dated December 17, 2014, is filed as Exhibit 16.1 to this Current Report on Form 8-K.

(b) Ernst & Young GmbH Wirtschaftsprüfungsgesellschaft, or E&Y, was engaged by Pieris Operating before it became our wholly owned subsidiary to audit its financial statements for the years ended December 31, 2013 and 2012 and the related statements of operations, changes in stockholders' deficit and cash flows for each of the years then ended, which are filed as Exhibits 99.1 and 99.2 to this Current Report on Form 8-K. We are in the process of negotiating with E&Y to engage them as our new independent registered public accounting firm.

During our two most recent fiscal years and through the date of our engagement of E&Y, neither we nor anyone on our behalf consulted with E&Y regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered with respect to our financial statements, and no written report or oral advice was provided to us by E&Y that was an important factor considered by us in reaching a decision as to any accounting, auditing or financial reporting issue; or (ii) any matter that was the subject of a disagreement (as that term is defined in Item 304(a)(1)(iv) of Regulation S-K promulgated under the Securities Act and the related instructions) or a reportable event (as that term is defined in Item 304(a)(1)(v) of Regulation S-K) relating to our company.

Item 5.01 Changes in Control of the Registrant.

Reference is made to the disclosure set forth under Item 2.01 of this Current Report on Form 8-K, which disclosure is incorporated herein by reference.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

(b)-(c): Effective upon the closing of the Acquisition on December 17, 2014, (i) our sole executive officer prior to the Acquisition, Aleksandrs Sviks, tendered his resignation from all positions then held with Pieris and (ii) the members of our Board of Directors that

were elected in connection with the closing of the Acquisition, as described in part (d) of this Item 5.02 below, appointed as the executive officers of Pieris the individuals to the executive officer positions set forth under the heading "Management—Directors, Executive Officers and Other Non-Executive Officers" in Item 2.01 of this Current Report on Form 8-K.

For information regarding the terms of employment of our newly appointed executive officers, see "Executive Compensation" in Item 2.01 of this Current Report on Form 8-K, which description is incorporated herein by reference. For certain biographical, related party and other information regarding our newly appointed executive officers, see the disclosure under the heading "Management" and "Certain Relationships and Related Transactions, and Director Independence—Related Party Transactions" in Item 2.01 of this Current Report on Form 8-K, which disclosure is incorporated herein by reference.

(d) Effective upon the closing of the Acquisition, our sole director prior to the Acquisition, Aleksandrs Sviks, (i) resigned as a director, and (ii) appointed as our new directors the five individuals identified as directors under the heading "Management—Directors, Executive Officers and Other Non-Executive Officers" in Item 2.01 of this Current Report on Form 8-K. ACQUISITION AGREEMENT

THIS ACQUISITION AGREEMENT ("**Agreement**") is made and entered into as of December 17, 2014 (the "**Execution Date**"), by and among: **PIERIS PHARMACEUTICALS, INC**. (f/k/a Marika Inc.), a Nevada corporation with its registered office located in Henderson, Nevada ("**Parent**"); **PIERIS AG**, a stock corporation formed under the laws of Germany with its registered office in Freising, Germany, and registered with the commercial register (*Handelsregister*) of the local court of Munich (the "**Commercial Register**") under HR B 133223 (the "**Company**"); and the shareholders of the Company listed on **Exhibit B**, attached hereto (the "**Holders**"). Certain capitalized terms used in this Agreement are defined in **Exhibit A**.

RECITALS

A. Parent is currently a "shell" company (as defined in Rule 12b-2 of the Exchange Act).

B. The Company is a privately-held company seeking to access capital markets by becoming a publicly-quoted company.

C. The Holders own (i) common shares (*Stammaktien*) issued by the Company registered with the Commercial Register and/or (ii) preferred shares (*Vorzugsaktien*) issued by the Company and registered with the Commercial Register in the form of Series (A) Preferred Shares (*Vorzugsaktien Serie (A)*), Series (A-1) Preferred Shares (*Vorzugsaktien Serie (A-1)*), Series (B) Preferred Shares (*Vorzugsaktien Serie (B)*), and/or Series (C) Preferred Shares (*Vorzugsaktien Serie (C)*) in accordance with the Articles of Association (*Satzung*) of the Company (the "**Articles**") (collectively all together, the "**Existing Shares**").

D. On October 10, 2014 the Company entered into (i) a consolidated shareholders' agreement with the Holders, which set forth the principles of the legal relationship between all shareholders of the Company (the "**CSA 2014**"), and (ii) an investment agreement with the Holders, which set forth the terms of a financing through the issuance of new Series (C) Preferred Shares (*Vorzugsaktien Serie (C)*) (the "**IA 2014**"). The CSA 2014 and IA 2014 replaced in full any and all prior shareholders' agreements and/or investment agreements among all or individual shareholders relating to their participation in the Company, including the consolidated shareholders' agreement and investment agreement both dated November 12, 2012.

E. Through this Agreement, Parent, the Company, and the Holders intend to effect a transaction whereby the Holders contribute, transfer, assign and deliver all of the Existing Shares owned by them, and all of their rights with respect to such Existing Shares to Parent in exchange for shares of Parent Common Stock, with the result of the Company becoming a wholly-owned subsidiary of Parent (the "**Transaction**").

F. Under Section 7 of the Company's Articles, legal ownership of the Company's shares may only be validly transferred upon approval of the Company as declared by its management board (*Vorstand*) upon a resolution by its supervisory board (Aufsichtsrat).

G. Prior to the execution and delivery of this Agreement, Parent has (i) obtained and delivered to the Company the written consent of Parent's stockholders necessary to approve the filing of the Amended and Restated Articles of Incorporation attached hereto as **Exhibit C** (the "**Parent Restated Charter**") and the Parent Equity Plan (as defined in Section 6.9), (ii) filed the Parent Restated Charter with the Secretary of State of the State of Nevada, (iii) obtained and delivered to the Company letters of resignation from each of Parent's officers and directors, effective immediately prior to the Effective Time (as defined in Section 1.2), and (iv) caused the individuals set forth on **Exhibit D** to have been appointed as the officers and/or directors of Parent effective as of the Effective Time.

H. Contemporaneously with the Closing (as defined in Section 1.2), the Parent shall split-off its existing business and its wholly owned subsidiary, Marika Enterprises Inc., a Nevada corporation (the "**Split-Off Subsidiary**"), through the assignment of all of the Parent's assets and liabilities (other than those under this Agreement and the other related agreements and transactions contemplated hereby) to, and the sale of all of the outstanding capital stock of, the Split-Off Subsidiary (the "**Split-Off**") upon the terms and conditions of a split-off agreement by and among the Parent, the Split-Off Subsidiary and Aleksandrs Sviks (the "**Split-Off Purchaser**"), in the form of **Exhibit E** attached hereto (the "**Split-Off Agreement**").

I. Simultaneously with the Closing (as defined in Section 1.2), the Parent, Split-Off Subsidiary and Split-Off Purchaser shall enter into a general release agreement in the form of **Exhibit F** attached hereto (the "**General Release Agreement**").

J. The Company has approved the Transaction pursuant to this Agreement, and the other transactions contemplated herein (the "**Contemplated Transactions**"), including the transfer of shares, in accordance with the Articles, as evidenced by the resolution of the supervisory board (*Aufsichtsrat*) and the approval declared by management board (*Vorstand*) of the Company, in the forms attached hereto as **Exhibit G** (the "**Company Board Approval**"). Parent has delivered to the Company the written consent of Parent's board of directors necessary to adopt this Agreement and approve the Contemplated Transactions, in the form attached hereto as **Exhibit H** (the "**Parent Written Consent**").

AGREEMENT

NOW, THEREFORE, in consideration of the mutual promises set forth herein and for other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

SECTION 1 DESCRIPTION OF TRANSACTION.

1.1 The Transaction.

(a) Upon the terms and subject to the conditions set forth in this Agreement, at the Effective Time (as defined in Section 1.2), each Holder whose name is set forth on **Exhibit B** hereto hereby irrevocably contributes, transfers by assignment pursuant to Section 398, 413 of the German Civil Code (BGB), and delivers to Parent (i) all of the Existing Shares held by such Holder as legal and beneficial owner (*rechtlicher und wirtschaftlicher Eigentümer*) as set forth in

the column entitled "Pieris AG Shares (all classes)" opposite such Holder's name on **Exhibit B** hereto, that are of the class of security set forth in the columns entitled "Pieris AG Class of Shares"; and (ii) any and all rights associated with such Existing Shares held by such Holder, in exchange for that number of shares of Parent Common Stock as set forth on **Exhibit B** in the column entitled "**Parent Common Stock**".

(b) If, during the period from the Execution Date through the Effective Time, the outstanding shares of Parent Common Stock are changed into a different number or class of shares by reason of any stock split, division or subdivision of shares, stock dividend, reverse stock split, consolidation of shares, reclassification, recapitalization or other similar transaction, or if a stock dividend is declared by Parent during such period, or a record date with respect to any such event shall occur during such period, then appropriate adjustments shall be made to number of shares of Parent Common Stock set forth on **Exhibit B**; provided, however, that no fractional shares of Parent Common Stock shall be issued in connection with the Transaction.

(c) Without undue delay after the Effective Time (but in any event within two (2) business days following the Effective Time), Parent shall cause the shares of Parent Common Stock issuable pursuant to Section 1.1(a) to be issued to the Holders.

(d) Prior to the Effective Time the Split-Off Purchaser shall surrender to the Parent 11,363,635 shares of Parent Common Stock (the "**Share Contribution**") and the Parent shall transfer and assign to the Split-Off Purchaser all of the issued and outstanding shares of capital stock of Split-Off Subsidiary in connection with the Split-Off.

1.2 Closing; Effective Times of the Transaction.

The date on which the Closing actually takes place is referred to as the "**Closing Date**."

(b) Subject to the provisions of this Agreement, the Closing of the Transaction shall be effective at the time on the Closing Date when the fully-executed Transfer Agent Confirmation has been received by Orrick, Herrington & Sutcliffe LLP in accordance with Section 1.2(e)(ii), below (which time is referred to as the "**Effective Time**").

(c) Parent Closing Conditions. The obligation of Parent to effect the Closing shall be conditioned upon the satisfaction of the following conditions or the waiver by Parent thereof:

(ii) All of the representations and warranties made by the Company in Section 2 and each of the Holders in Section 3 hereof being accurate in all material respects as of the Closing Date and the fulfillment in all material respects of all covenants of the Holders and the Company required by this Agreement. This condition shall be

deemed satisfied unless written notice is received by the Company and the Holders, in advance of the Effective Time, notifying them that Parent believes certain of the representations and warranties made by the Company in Section 2 and each of the Holders in Section 3 are materially incorrect; and

(iii) The Company shall have delivered to the Parent (A) a substantially final draft of a Current Report on Form 8-K reporting the information required in respect of the transactions contemplated by this Agreement and containing "Form 10 information" complying with Instruction (f) to Item 2.01 of Form 8-K and Instruction (a)(8) to Item 5.01 of Form 8-K, and (B) audited and interim unaudited financial statements of the Company and pro forma financial statements reflecting the Acquisition, compliant as to form with applicable SEC regulations for inclusion under Item 2.01(f) and/or 5.01(a)(8) of Form 8-K.

(d) Company Closing Conditions. The obligation of the Company to effect the Closing shall be conditioned upon the satisfaction of the following conditions or the waiver by the Company thereof:

(i) Delivery to the Company of (i) the Parent Written Consent, (ii) the written consent of all of the members of the board of directors of the Split-Off Subsidiary, and (iii) the written consent of the sole stockholder of the Split-Off Subsidiary;

(ii) All of the representations and warranties made by Parent in Section 4 hereof being accurate in all material respects as of the Closing Date and the fulfillment in all material respects of all covenants of the Holders and the Company required by this Agreement. This condition shall be deemed satisfied unless written notice is received by Parent and the Holders, in advance of the Effective Time, notifying them that the Company believes certain of the representations and warranties made by Parent in Section 4 are materially incorrect;

(iii) All liabilities, including any indebtedness, of Parent due and owing as of the Effective Time shall have been paid, forgiven or otherwise discharged by Parent without any liability to Parent or any other party hereto following the Closing, including but not limited to notes payable and accounts payable;

(iv) The execution and delivery to the Company by the Parent, the Split-Off Subsidiary and the Split-Off Purchaser of the Split-Off Agreement and a General Release Agreement, and all other documents anticipated by such agreements and the Split-Off;

(v) Surrender by the Split-Off Purchaser to the Parent the certificates for Parent Common Stock representing the Share Contribution, duly endorsed to the Parent or in blank); and

(vi) Delivery by Parent to the Split-Off Purchaser of certificates representing all of the issued and outstanding shares of capital stock of Split-Off

Subsidiary deliverable to the Split-Off Purchaser under the Split-Off Agreement, duly registered in the name of the Split-Off Purchaser or as directed by the Split-Off Purchaser.

(e) Holders Closing Conditions. The obligation of the Holders to effect the Closing shall be conditioned upon the satisfaction of the following conditions or the waiver by the Company thereof:

(i) The conditions set forth in Sections 1.2(c) and (d) have been met or waived by the appropriate party, and no written notice has been received by Parent, the Company or the Holders, from the other, alleging a representation and warranty by a party is materially incorrect;

(ii) Receipt by Orrick, Herrington & Sutcliffe LLP of a certificate signed by Parent and the Company stating that (A) at least ten million dollars ($10,000,000) in gross proceeds (the "**Minimum Amount**") is held in escrow in respect of the Private Offering (as defined below); (B) there is no condition to closing of the Private Offering of at least the Minimum Amount that remains unsatisfied other than consummation of the Transaction; and (C) the Private Offering of at least the Minimum Amount will be consummated immediately following the Closing of the Transaction (it being understood that there may be subsequent closings of the Private Offering for additional proceeds); and

(iii) Receipt by Orrick, Herrington & Sutcliffe LLP, with no restrictions on the release of any signature thereon (other than the occurrence of the Effective Time), of irrevocable issuance instructions by Parent to the Parent's transfer agent authorizing the transfer agent to issue each Holder the shares of Parent Common Stock as set forth on **Exhibit B** upon the Closing, countersigned by the transfer agent indicating they will comply with such instructions and are in receipt of all documents necessary to issue such shares of Parent Common Stock (the "**Transfer Agent Confirmation**").

1.3 Tax Consequences. For U.S. federal income Tax purposes, the Transaction is intended to constitute a transaction described in Section 351(a) of the Code, and the parties will report the Transaction as such for U.S. federal income Tax purposes. None of the parties will knowingly take any action, or fail to take any action, which action or failure to act would cause the Transaction to fail to qualify as a transaction described in Section 351(a) of the Code.

1.4 Waiver of Rights by Holders. At the Effective Time, each Holder hereby waives and relinquishes the following rights with regard to his respective shareholding in the Company as partial consideration for the receipt of Parent Common Stock:

(a) any and all subscription rights he may hold and/or own as legal or beneficial owner (the "**Subscription Rights**");

(b) any and all options and/or rights to acquire shares in the Company resulting from convertible loan, convertible bonds, option rights or option bonds, in any case the totality of rights to acquire or subscribe for shares in the Company (the "**Options**"); and

(c) any and all rights such Holder may have under the CSA 2014, including, but not limited to, rights of first refusal.

1.5 Company Consent, Approval and Waiver. The Company hereby approves and accepts the contributions, assignments, delegations, transfers and waivers as set forth in Sections 1.1 and 1.4 above, including with respect to the Existing Shares, the Subscription Rights and all rights under the CSA 2014. Sec. 23 of the CSA 2012 referred to deferred payments to the Company's capital reserves pursuant to Sec. 272 Para. 2 no. 4 German Commercial Code (*Handelsgesetzbuch*) resulting from the seed finance round in 2001, which are owed by the following Holders: Steffen Schlehuber, Claus Schalper, Dr. Karsten Schürle, MAPO Beteiligungsgesellschaft mbH and are subject to dilution and reduction. The Company and the Holders determined the value of such deferred payments to the Company's capital reserves to remain EUR 0.00 in total under the IA 2014, and therefore did not make any reference hereto in the CSA 2014. As a matter of precaution the Company waives, with effect as of the Effective Time, all deferred payment claims against the aforementioned Holders, who accept such waiver.

1.6 Parent's Acceptance of the Existing Shares. Parent hereby accepts the contribution, transfer, assignment and delivery of the Existing Shares under Section 1.1(a). The Company hereby accepts the waiver of rights under the CSA 2014 as set forth under Section 1.4 above. The right to receive undistributed profits with regard to Existing Shares as well as any Subscription Rights shall belong exclusively to Parent.

1.7 Further Action. If, at any time after the Effective Time, any further action is determined by Parent and the Company to be necessary or desirable to carry out the purposes of this Agreement or to vest the Company with full right, title and possession of and to all rights and property of the Company, the officers and directors of the Company and Parent shall be, to the extent permitted by law, fully authorized (in the name of the Company and otherwise) to take such action. If, at any time after the Effective Time, any further action is determined by Parent and the Company to be necessary or desirable to carry out the purposes of this Agreement or to vest Parent with full right, title and possession of the Existing Shares, the officers and directors of the Company and Parent shall be, to the extent permitted by law, fully authorized (in the name of Parent and otherwise) to take such action. Following the Effective Time, the Holders agree to take all reasonable action requested by Parent or the Company in order to approve any of the actions described herein on behalf of the Company or to vest Parent with full right, title and possession of the Existing Shares.

1.8 Registration Rights. The Holders acknowledge that the Company intends for Parent to enter into a private offering of its equity securities immediately following the Effective Time in one or more closings (the "**Private Offering**") pursuant to which the investors in such Private Offering will enter into a registration rights agreement with Parent in the form attached hereto as **Appendix I** (the "**Registration Rights Agreement**"). Not later than the consummation of the Private Offering, Parent and the Holders shall enter into the Registration Rights Agreement, pursuant to which Parent shall provide certain registration rights to the

Holders (in addition to the investors in the Private Offering) with respect to the shares of Parent Common Stock received by them pursuant to this Agreement. In the event that, for any reason, the Private Offering is not consummated within thirty (30) days following the Effective Time, Parent and the Holders shall execute and deliver the Registration Rights Agreement as modified to remove any reference to such Private Offering.

SECTION 2 REPRESENTATIONS AND WARRANTIES OF THE COMPANY. The Company represents and warrants to Parent, as of the Effective Time, as follows:

Ltd., a proprietary limited company wholly-owned by the Company and incorporated under the laws of Australia, the Company does not have any Subsidiaries and it does not own any capital stock of, or any equity interest of any nature in, any other Entity. The Company has not agreed to, nor is it obligated to make, or bound by any Contract under which it may become obligated to make, any future investment in or capital contribution to any other Entity.

(b) The Company is a stock corporation formed under the laws of Germany, duly organized, validly existing and is in good standing under the laws of the Germany and has all necessary power and authority: (i) to own and use its assets in the manner in which its assets are currently owned and used; and (ii) to perform its obligations under all Contracts by which it is bound.

2.2 Capitalization. The issued and outstanding share capital (*Grundkapital*) of the Company is currently euro 2,844,047, divided into 59,993 common shares and 2,784,054 preferred shares. **Exhibit B** attached hereto sets forth a complete and accurate list of all of the holders of issued and outstanding shares of the Company. 5.2 If one or more of the representations and warranties made by one of the Holders in this Agreement proves to be completely or partially inaccurate or incomplete then Parent shall be entitled to demand that the respective Holder puts Parent or the Company into the same situation it would have been had such representation or warranty been accurate and complete or had such obligation been complied with (*Naturalrestitution*) within a period of two months following receipt of a written demand. If the respective Holder fails to establish the said situation within such time period following such demand, or if the establishment of such situation is not possible, or is unacceptable to Parent or the respective Holder, Parent shall be entitled to demand payment of its (or the Company's) damages based on or arising out of such inaccuracy or failure (*kleiner Schadensersatz*) (collectively, the "**Damages**").

5.3 Parent shall, to the extent it has been positively aware of the situation, advise the Holders without undue delay (*unverzüglich*) in writing concerning the inaccuracy of a representation or warranty or the failure of Holders to comply with their obligations, the underlying facts and the expected amount of the Damages (hereinafter referred to as "**Parent's Claim**"). Parent shall provide the Holders with the information forming the basis of the respective Parent's Claim.

5.4 The parties agree that the provisions contained in this Agreement conclusively settle the Holders' liability to Parent following the Closing and the legal consequences of any breach of this Agreement, in particular regarding the inaccuracy of the representations or warranties made by and the failure by the Holders to perform their obligations under this Agreement and that in the event of a breach of such representations or warranties and obligations or other legal, contractual or quasi-contractual obligations of the Holders, Parent shall not be entitled to any other claims under or in connection with this Agreement following the Closing. Insofar as legally permissible, i.e. not in cases of willful misconduct (*Vorsatz*) or fraudulent intent (*Arglist*) on the part of Holders, Parent hereby waives the right following the Closing to raise any other contractual, quasi-contractual legal or other rights or claims – irrespective of the legal grounds thereof – and, in particular the right to rescind, claims to large damage compensation (*großer Schadenersatz*) and to assert claims to reverse transactions, rights of avoidance, claims for supplementary performance as well as claims for the positive violation of a contractual duty and frustration of contract. The Holders hereby accept such waiver.

5.5 The parties further agree that the representations and warranties do not under any circumstances constitute a "representation and warranty concerning the quality of the object" within the meaning of Section 443 of the German Civil Code (*BGB*). The parties consequently expressly waive the application of Sections 442 and 444 of the German Civil Code (*BGB*) following the Closing; Parent further expressly waives any rights pursuant to Sections 437 through 441 of the German Civil Code (*BGB*) following the Closing. Section 377 of the German Commercial Code (*HGB*) shall not apply following the Closing. Should it turn out that the aforementioned provisions concerning the limitation of the Holders' liability are completely or partially ineffective, Parent waives any right to bring claims following the Closing against the Holders, going beyond the limitations on liability in this Section 5 and the other limitations on liability contained in this Agreement, which the parties hereto intended to stipulate in the aforementioned provisions. The Holders hereby accept such waivers.

5.6 Following the Closing, Parent shall only be entitled to bring claims against a Holder hereunder if and to the extent that an individual claim exceeds the amount of EUR 25,000.00 (in words: twenty-five thousand euros) and, in addition, all claims in total exceed the amount of EUR 1,000,000.00 (in words: one million euros); thereafter, the claims are payable in full (exemption amount; *Freigrenze*). The total amount of claims by Parent against a Holder hereunder following the Closing shall not exceed fifty percent of the pre money valuation of the respective shares of the Company with regard to each contributing Holder hereunder.

5.7 The limitations of liability pursuant to Section 5.6 shall not apply to willful or fraudulent acts of the Holders. In this case, the claims of Parent under this Agreement following the Closing shall be limited to the consideration received by the Holders hereunder.

5.8 The Holders' liability pursuant to this Agreement following the Closing shall be excluded if and to the extent that one of the following situations exists:

(a) The fact or Damages themselves forming the basis of the inaccuracy and/or incompleteness of the representations and warranties has been disclosed to Parent in this Agreement and/or its schedules and exhibits.

(b) The Damages have been completely or partially taken into account in one, several or all of the Company's financial statements as a result of liability reserves or accruals.

(c) The Damages are offset in full or in part within Parent and/or the Company pursuant to the principles of benefit-sharing (*Grundsätze des Vorteilsausgleichs*).

(d) The Damages stem from the fact that as far as is currently known an existing law or other existing legal provision is being amended, or a new law or another new legal provision is coming into force, or from the fact that an official order is being issued.

(e) The Parent's Claim has been satisfied through any insurance.

(f) Contributory negligence pursuant to the legal principle contained in Section 254 of the German Civil Code (*BGB*) regarding the creation of the Parent's Claim has to be attributed to Parent.

5.9 Should one or more of the representations or warranties made by Parent under this Agreement turn out to be incorrect and/or incomplete, the provisions of this Section 5 shall apply mutatis mutandis.

5.10 Any claim by Parent with respect to the title or ownership of, and/or lack of encumbrances on, the Existing Shares represented by the Holders under Section 3.1 (a) shall survive indefinitely. All other representation and warranty claims shall expire, in deviation from the statutory provisions, two (2) years after the Closing Date, if and to the extent any provision in this Agreement does not provide otherwise.

SECTION 6 CERTAIN COVENANTS OF THE PARTIES.

6.1 Rights.

(a) Each Holder holding shares in the Company and any and all rights under the CSA 2014 or IA 2014 and/or any investment agreement hereby agrees not to transfer, assign or encumber any such shares or rights in the period from the Execution Date to the Effective Time.

(b) The Company shall not grant and the Holders shall not approve such granting to any Holder, or any other person, any rights, including without limitation any conversion rights or option rights, to subscribe for or to receive any existing or future shares or other securities of the Company in the period from the Execution Date to the Effective Time.

6.2 Extinguishment of Rights. Each Holder acknowledges and agrees that effective as of the Closing, such Shareholder shall no longer be shareholder of the Company and shall have no rights with respect to the Existing Shares and any Subscription Rights, except the right to receive the shares of Parent Common Stock as provided herein.

6.3 Commercial Register. The Company shall not make or submit any modifications or amendments of corporate documents, including but not limited to the Articles, to the Commercial Register prior to the Closing Date, except as required by the Commercial Register prior to the Closing.

6.5 No Exercise of Rights. Each Holder shall not, and hereby agrees not to, exercise any Subscription Rights or any conversion rights or options to receive shares under any Convertible Note or any Option held by such Holder in the period between the Execution Date and the Effective Time.

6.6 Press Releases. The Company and Parent shall agree with each other as to the form and substance of any press release or public announcement related to this Agreement or the Contemplated Transactions; *provided*, *however*, that nothing contained herein shall prohibit any party hereto, following notification to the other parties hereto, from making any disclosure which is required by law or regulation. If any such press release or public announcement is so required, the party making such disclosure shall consult with the other parties prior to making such disclosure, and the parties shall use all reasonable efforts, acting in good faith, to agree upon a text for such disclosure which is satisfactory to the parties.

6.7 Closing Efforts. Each of the parties hereto shall use its best efforts, to the extent commercially reasonable in light of the circumstances ("**Reasonable Best Efforts**"), to take all actions and to do all things necessary, proper or advisable to consummate the Transaction contemplated by this Agreement and the Contemplated Transactions, including without limitation using its Reasonable Best Efforts to ensure that (i) its representations and warranties remain true and correct in all material respects through the Closing Date and (ii) the conditions to the obligations of the other parties hereto to consummate the Acquisition are satisfied. Each of the parties hereto shall use its Reasonable Best Efforts to cooperate in the preparation and timely filing of all SEC and other filings required to be completed or filed in connection with the Acquisition, including but not limited to a Form 8-K disclosing, among other things, the Acquisition.

6.8 Parent Equity Plan. Prior to or as of the Effective Time, the board of directors and shareholders of Parent shall adopt the equity incentive plan attached hereto as **Exhibit J** (the "**Parent Equity Plan**") reserving for issuance 3,200,000 shares of Parent Common Stock for equity awards to be made thereunder.

SECTION 7 MISCELLANEOUS PROVISIONS.

7.1 Amendment. This Agreement may be amended only in writing signed on behalf of each party to this Agreement. This also applies to this Section. However, the written form requirement pursuant to sentence 1 of this Section 7.1 does not apply to any changes or additions to this Agreement and/or to its appendices, schedules and/or exhibits that are made after one

party's execution and before the Effective Time; for such changes or additions it shall be sufficient that an email confirmation of the changes or additions is sent to Orrick, Herrington & Sutcliffe LLP by each party to this Agreement.

7.2 Waiver.

(a) Any party hereto may: (i) extend the time for the performance of any of the obligations or other acts of the other parties to this Agreement; (ii) waive any inaccuracy in or breach of any representation, warranty, covenant or obligation of the other party in this Agreement or in any document delivered pursuant to this Agreement; and (iii) waive compliance with any covenant, obligation or condition for the benefit of such party contained in this Agreement; in each case, without the consent of any other party hereto.

(b) No failure on the part of any party to exercise any power, right, privilege or remedy under this Agreement, and no delay on the part of any party in exercising any power, right, privilege or remedy under this Agreement, shall operate as a waiver of such power, right, privilege or remedy; and no single or partial exercise of any such power, right, privilege or remedy shall preclude any other or further exercise thereof or of any other power, right, privilege or remedy.

(c) No party shall be deemed to have waived any claim arising out of this Agreement, or any power, right, privilege or remedy under this Agreement, unless the waiver of such claim, power, right, privilege or remedy is expressly set forth in a written instrument duly executed and delivered on behalf of such party; and any such waiver shall not be applicable or have any effect except in the specific instance in which it is given.

7.3 No Survival of Representations and Warranties. None of the representations and warranties contained in this Agreement shall survive the Transaction, provided that there is no violation of the representations and warranties at the point in time the Transaction is consummated.

7.4 Entire Agreement; Counterparts; Exchanges by Facsimile or Electronic Delivery. This Agreement and the appendices, schedules and exhibits referred to herein, the Split-Off Agreement and the General Release Agreement constitute the entire agreement and supersede all prior agreements and understandings, both written and oral, among or between any of the parties with respect to the subject matter hereof and thereof; *provided*, *however*, that covenants in respect of confidential information contained in that certain Term Sheet dated November 7, 2014 between the Company and Montrose Capital Limited shall not be superseded and shall remain in full force and effect. This Agreement may be executed in several counterparts, each of which shall be deemed an original and all of which shall constitute one and the same instrument. The exchange of a fully executed Agreement (in counterparts or otherwise) by facsimile or by electronic delivery shall be sufficient to bind the parties to the terms and conditions of this Agreement.

7.5 Applicable Law; Jurisdiction. This Agreement shall be exclusively governed by the law of the Federal Republic of Germany to the exclusion of private international law and the UN Convention on the International Sale of Goods (CISG).

7.6 Expenses. All fees and expenses incurred in connection with this Agreement and the Contemplated Transactions shall be paid by the party incurring such expenses, whether or not the Transaction is consummated, provided that if the Transaction is consummated, Parent will pay the fees and expenses of Crone Kline Rinde LLP up to a maximum amount of $150,000, amounts above which shall be paid by Montrose Capital Limited.

7.7 Attorneys' Fees. In any action at law or suit in equity to enforce this Agreement or the rights of any of the parties hereunder, the prevailing party in such action or suit shall be entitled to receive a reasonable sum for its attorneys' fees and all other reasonable costs and expenses incurred in such action or suit from the non prevailing party.

7.8 Assignability; No Third Party Rights. This Agreement shall be binding upon, and shall be enforceable by and inure solely to the benefit of, the parties hereto and their respective successors and assigns; *provided*, *however*, that neither this Agreement nor any party's rights or obligations hereunder may be assigned or delegated by such party without the prior written consent of the other parties, and any attempted assignment or delegation of this Agreement or any of such rights or obligations by any party without the prior written consent of the other parties shall be void and of no effect. Nothing in this Agreement, express or implied, is intended to or shall confer upon any Person (other than the parties hereto) any right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

7.9 Notices. All notices, requests, demands and other communications under this Agreement shall be in writing and shall be deemed to have been duly given or made as follows: (a) if sent by registered or certified mail in the United States return receipt requested, upon receipt; (b) if sent by nationally recognized overnight air courier (such as DHL or Federal Express), two business days after sending; (c) if sent by facsimile transmission before 5:00 p.m. recipient local time, when transmitted and receipt is confirmed; (d) if sent by facsimile transmission after 5:00 p.m. recipient local time and receipt is confirmed, on the following business day; and (e) if otherwise actually personally delivered, when delivered, provided that such notices, requests, demands and other communications are delivered to the address set forth below (for the Holders to the address set forth in this Section pre-Closing, and to the address set forth in each Holder's signature block post-Closing), or to such other address as any party shall provide by like notice to the other parties to this Agreement:

B. The amendment and restatement of the articles of incorporation as set forth below has been approved by a majority of the voting power of the stockholders of the corporation, which is sufficient for approval thereof.

C. This certificate sets forth the text of the articles of incorporation of the corporation as amended and restated in their entirety to this date as follows:

AMENDED AND RESTATED ARTICLES OF INCORPORATION
OF
PIERIS PHARMACEUTICALS, INC.

ARTICLE I

The name of the corporation is Pieris Pharmaceuticals, Inc. (the "Corporation").

ARTICLE II

The Corporation may, from time to time, in the manner provided by law, change the registered agent and registered office within the State of Nevada. The Corporation may also maintain an office or offices for the conduct of its business, either within or without the State of Nevada.

ARTICLE III

The purpose of the Corporation is to engage in any lawful act or activity or carry on any business for which corporations may be organized under the laws of the State of Nevada.

ARTICLE IV

Section 1. Designation and Number of Shares.

(a) The total number of shares of all classes of stock which the Corporation shall have the authority to issue is 310,000,000 shares, consisting of 300,000,000 shares of common stock, par value $0.001 per share (the "Common Stock"), and 10,000,000 shares of preferred stock, par value $0.001 per share (the "Preferred Stock").

(b) The number of authorized shares of Common Stock or Preferred Stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the voting power of all of the then outstanding shares of capital stock of the Corporation entitled to vote thereon, voting together as a single class, without a vote of the holders of the Preferred Stock, or of any series thereof, unless a vote of any such holders is required pursuant to the terms of any Preferred Stock designation.

Section 2. Preferred Stock.

(a) Shares of Preferred Stock may be issued in one or more series at such time or times and for such consideration as the Board of Directors of the Corporation may determine.

(b) Authority is hereby expressly granted to the Board of Directors to fix from time to time, by resolution or resolutions providing for the establishment and/or issuance of any series of Preferred Stock, the designation and number of the shares of such series and the powers, preferences and rights of such series, and the qualifications, limitations or restrictions thereof, to the fullest extent such authority may be conferred upon the Board of Directors under the laws of the State of Nevada. Without limiting the generality of the foregoing, the resolutions providing for issuance of any series of Preferred Stock may provide that such series shall be superior or rank equally or be junior to the Preferred Stock of any other series to the extent permitted by law.

Section 3. Common Stock.

(a) Dividends. Dividends may be declared and paid on the Common Stock from funds legally available therefor, if, as and when determined by the Board of Directors in their sole discretion, subject to provisions of law, any provision of these Restated Articles of Incorporation and subject to the relative rights and preferences of any shares of Preferred Stock authorized, issued and outstanding hereunder. The term "Restated Articles of Incorporation" as used herein shall mean these Amended and Restated Articles of Incorporation of the Corporation, as amended from time to time.

(b) Voting. The holders of the Common Stock are entitled to one vote for each share held on each matter properly submitted to the stockholders of the Corporation for their vote; provided, however, that, except as otherwise required by law, holders of Common Stock shall not be entitled to vote on any amendment to these Restated Articles of Incorporation (including any certificate of designation relating to Preferred Stock) that relates solely to the terms of one or more outstanding series of Preferred Stock if the holders of such affected series are entitled to vote thereon, either separately or together as a class with the holders of one or more other such series, as required by law or pursuant to these Restated Articles of Incorporation (including any certificate of designation relating to Preferred Stock).

ARTICLE V

The following provisions are inserted for the management of the business and the conduct of the affairs of the Corporation, and for further definition, limitation and regulation of the powers of the Corporation and of its directors and stockholders:

Section 1. The business and affairs of the Corporation shall be managed by or under the direction of the Board of Directors. In addition to the powers and authority expressly conferred upon them by law or by these Restated Articles of Incorporation or the Amended and Restated Bylaws of the Corporation as in effect from time to time (the "Bylaws"), the directors are hereby empowered to exercise all such powers and do all such acts and things as may be exercised or done by the Corporation.

Section 2. The directors of the Corporation need not be elected by written ballot unless the Bylaws so provide.

Section 3. Subject to the rights of the holders of any series of Preferred Stock then outstanding, any action required or permitted to be taken by the stockholders of the Corporation may be effected only at a duly called annual or special meeting of stockholders of the Corporation and not by written consent.

Section 4. Special meetings of the stockholders may only be called by the Board of Directors acting pursuant to a resolution adopted by a majority of the Whole Board. For the purposes of these Restated Articles of Incorporation, the term "Whole Board" shall mean the total number of authorized directors whether or not there exist any vacancies in previously authorized directorships. Business transacted at any special meeting of stockholders shall be limited to matters relating to the purpose or purposes stated in the notice of meeting.

ARTICLE VI

Section 1. Subject to the rights of the holders of shares of any series of Preferred Stock then outstanding to elect additional directors under specified circumstances, the number of directors shall be fixed from time to time exclusively by the Board of Directors pursuant to a resolution adopted by a majority of the Whole Board.

Section 2. The directors, other than those who may be elected by the holders of shares of any series of Preferred Stock under specified circumstances, shall be divided into three classes, with the term of office of the first class to expire at the first annual meeting of stockholders following the initial classification of directors and until their successors are duly elected and qualified, the term of office of the second class to expire at the second annual meeting of stockholders following the initial classification of directors and until their successors are duly elected and qualified, and the term of office of the third class to expire at the third annual meeting of stockholders following the initial classification of directors and until their successors are duly elected and qualified. At each annual meeting of stockholders, directors elected to succeed those directors whose terms expire, other than directors elected by the holders of any series of Preferred Stock under specified circumstances, shall be elected for a term of office to expire at the third succeeding annual meeting of stockholders after their election and until their successors are duly elected and qualified. The Board of Directors is authorized to assign members of the Board already in office to such classes as it may determine at the time the classification of the Board of Directors pursuant to these Restated Articles of Incorporation becomes effective.

Section 3. Subject to the rights of the holders of any series of Preferred Stock then outstanding, newly created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board of Directors resulting from death, resignation, retirement, disqualification, removal from office or other cause shall, unless otherwise required by law or by resolution of the Board of Directors, be filled only by a majority vote of the directors then in office even though less than a quorum, or by a sole remaining director, and not by stockholders, and directors so chosen shall serve for a term expiring at the annual meeting of stockholders at which the term of office of the class to which they have been chosen expires and until such director's successor shall have been duly elected and qualified. No decrease in the authorized number of directors shall shorten the term of any incumbent director.

Section 4. Advance notice of stockholder nominations for the election of directors and of business to be brought by stockholders before any meeting of the stockholders of the Corporation shall be given in the manner provided in the Bylaws of the Corporation.

Section 5. Subject to the rights of the holders of any series of Preferred Stock then outstanding, any director, or the entire Board of Directors, may be removed from office at any time only for cause and only by the affirmative vote of the holders of at least eighty percent (80%) of the voting power of all of the then outstanding shares of capital stock of the Corporation entitled to vote at an election of directors, voting together as a single class.

ARTICLE VII

The Board of Directors is expressly empowered to adopt, amend or repeal Bylaws of the Corporation. Any adoption, amendment or repeal of the Bylaws of the Corporation by the Board of Directors shall require the approval of a majority of the Whole Board. The stockholders shall also have power to adopt, amend or repeal the Bylaws of the Corporation; provided, that in addition to the affirmative vote of the holders of any class or series of the shares of capital stock of the Corporation required by law or by these Restated Articles of Incorporation, the affirmative vote of the holders of at least eighty percent (80%) of the voting power of all of the then outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors, voting together as a single class, shall be required for the stockholders to adopt, amend or repeal any provision of the Bylaws of the Corporation.

ARTICLE VIII

Section 1. Each person who was or is made a party or is threatened to be made a party to or is otherwise involved (including, without limitation, as a witness) in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was a director or an officer of the Corporation or is or was serving at the request of the Corporation as a director, officer, or trustee of another corporation, or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (hereinafter an "Indemnitee"), whether the basis of such action, suit or proceeding is alleged action in an official capacity as a director, officer or trustee or in any other capacity while serving as a director, officer or trustee, shall be indemnified and held harmless by the Corporation to the fullest extent permitted by the laws of the State of Nevada, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that

such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such Indemnitee in connection therewith; provided, however, that, except as provided in Section 3 of this Article VIII with respect to proceedings to enforce rights to indemnification or an advancement of expenses or as otherwise required by law, the Corporation shall not be required to indemnify or advance expenses to any such Indemnitee in connection with an action, suit or proceeding (or part thereof) initiated by such Indemnitee unless such action, suit or proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

Section 2. In addition to the right to indemnification conferred in Section 1 of this Article VIII, an Indemnitee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) incurred in defending any such action, suit or proceeding in advance of its final disposition; provided, however, that, if the laws of the State of Nevada then requires an advancement of expenses incurred by an Indemnitee in his capacity as a director or officer (and not in any other capacity in which service was or is rendered by such Indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking, by or on behalf of such Indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal that such Indemnitee is not entitled to be indemnified for such expenses under this Section 2.

Section 3. If a claim under Sections 1 or 2 of this Article VIII is not paid in full by the Corporation within sixty (60) days after a written claim has been received by the Corporation, except in the case of a claim for an advancement of expenses, in which case the applicable period shall be twenty (20) days, the Indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. If successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Indemnitee shall also be entitled to be paid the expenses of prosecuting or defending such suit. In any suit brought by the Indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the Indemnitee to enforce a right to an advancement of expenses) it shall be a defense that the Indemnitee has not met any applicable standard for indemnification set forth in the laws of the State of Nevada. In any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that the Indemnitee has not met any applicable standard for indemnification set forth in the laws of the State of Nevada. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the Indemnitee is proper in the circumstances because the Indemnitee has met the applicable standard of conduct set forth in the laws of the State of Nevada, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) that the Indemnitee has not met such applicable standard of conduct, shall create a presumption that the Indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the Indemnitee, be a defense to such suit. In any suit brought by the Indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the Indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article VIII or otherwise shall be on the Corporation.

Section 4. The rights to indemnification and to the advancement of expenses conferred in this Article VIII shall not be exclusive of any other right which any person may otherwise have or hereafter acquire including any right provided by law, these Restated Articles of Incorporation as amended from time to time, the Corporation's Bylaws, as well as by any agreement or any vote of stockholders or directors as permitted by the laws of the State of Nevada.

Section 5. The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of (i) the Corporation or (ii) another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the laws of the State of Nevada.

Section 6. The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article VIII with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

Section 7. The rights conferred upon Indemnitees in this Article VIII shall be contract rights and such rights shall continue as to an Indemnitee who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the Indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this Article VIII that adversely affects any right of an Indemnitee or its successors shall be prospective only and shall not limit or eliminate any such right with respect to any action, suit or proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to any such amendment, alteration or repeal.

Section 8. If any word, clause, provision or provisions of this Article VIII shall be held to be invalid, illegal or unenforceable for any reason whatsoever: (i) the validity, legality and enforceability of the remaining provisions of this Article VIII (including, without limitation, each portion of any section of this Article VIII containing any such provision held to be invalid, illegal or unenforceable, that is not itself held to be invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby; and (ii) to the fullest extent possible, the provisions of this Article VIII (including, without limitation, each such portion of any section of this Article VIII containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested by the provision held invalid, illegal or unenforceable.

ARTICLE IX

The liability of directors and officers of the Corporation shall be eliminated or limited to the fullest extent permitted by the Nevada Revised Statutes (as amended from time to time, "NRS"). No amendment to or repeal of this Article IX shall apply to or have any effect on the liability or alleged liability of any director for or with respect to any acts or omissions of such

director occurring prior to such amendment or repeal. If the NRS is amended to further eliminate or limit or authorize corporate action further eliminating or limiting the personal liability of directors or officers, then the liability of a director of the Corporation shall be eliminated or limited to the fullest extent permitted by the NRS, as so amended. All references in this Article IX to a director or officer shall also be deemed to refer to any such director acting in his or her capacity as a Continuing Director (as defined in Article XI).

ARTICLE X

The Corporation reserves the right to amend or repeal any provision contained in these Restated Articles of Incorporation in the manner prescribed by the laws of the State of Nevada and all rights conferred upon stockholders are granted subject to this reservation; provided, however, that in addition to the affirmative vote of the holders of any class or series of the shares of capital stock of the Corporation required by law or by these Restated Articles of Incorporation, the affirmative vote of the holders of at least eighty percent (80%) of the voting power of all of the then outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors, voting together as a single class, shall be required to amend, alter or repeal, or adopt any provision inconsistent with, Articles V, VI, VII, VIII, and IX, this Article X, and Articles XI, XII and XIII of these Restated Articles of Incorporation.

ARTICLE XI

The Board of Directors is expressly authorized to cause the Corporation to enter into agreements necessary and convenient to the conduct of the business of the Corporation. The Board of Directors is expressly authorized to cause the Corporation to issue rights or options pursuant to NRS 78.200 and, in that connection and to enter into any agreements necessary or convenient for such issuance. Any such agreement may include provisions limiting, in certain circumstances, the ability of the Board of Directors of the Corporation to redeem the securities issued pursuant thereto or to take other action thereunder or in connection therewith unless there is at least a specified number or percentage of Continuing Directors then in office. Pursuant to NRS 78.120 and 78.135, the Continuing Directors shall have the power and authority to make all decisions and determinations and exercise or perform such other acts, which such Continuing Directors shall make, exercise or perform as provided in any such agreement. For purposes of this Article XI and any such agreement, the term, "Continuing Directors," shall mean (1) those directors (i) who were members of the Board of Directors of the Corporation at the time the Corporation entered into such agreement or (ii) who subsequently becomes a member of the Board of Directors, if such director's nomination for election to the Board of Directors is recommended or approved by the majority vote of the Continuing Directors then in office; and (2) such members of the Board of Directors designated in, or in the manner provided in, such agreement as Continuing Directors.

ARTICLE XII

Section 1. Exclusive Forum. To the fullest extent permitted by law, and unless the Corporation, pursuant to a resolution adopted by a majority of the Whole Board, consents in writing to the selection of an alternative forum, the Eighth Judicial District Court of Clark County, Nevada, shall be the sole and exclusive forum for (a) any derivative action or

proceeding brought in the name or right of the Corporation or on its behalf, (b) any action asserting a claim for breach of any fiduciary duty owed by any director, officer, employee or agent of the Corporation to the Corporation or the Corporation's stockholders, (c) any action arising or asserting a claim arising pursuant to any provision of NRS Chapters 78 or 92A or any provision of these Restated Articles of Incorporation or Bylaws, (d) any action to interpret, apply, enforce or determine the validity of these Restated Articles of Incorporation or Bylaws or (e) any action asserting a claim governed by the internal affairs doctrine.

Section 2. Deemed Notice and Consent. To the fullest extent permitted by law, each and every person purchasing or otherwise acquiring any interest (of any nature whatsoever) in any shares of the capital stock of the Corporation shall be deemed, by reason of and from and after the time of such purchase or other acquisition, to have notice of and to have consented to all of the provisions of (a) the Restated Articles of Incorporation, (b) the Bylaws and (c) any amendment to the Restated Articles of Incorporation or the Bylaws enacted or adopted in accordance with the Restated Articles of Incorporation, the Bylaws and applicable law.

ARTICLE XIII

In accordance with the provisions of NRS 78.378, the provisions of NRS 78.378 to 78.3793, inclusive, as amended from time to time, or any successor statutes, relating to acquisitions of controlling interests in the Corporation, shall not apply to the Corporation or to any acquisition of any shares of the Corporation's capital stock as permitted by the laws of the State of Nevada.

Notice of the place, if any, date, and time of all meetings of the stockholders, and the means of remote communications, if any, by which the stockholders and proxyholders thereof may be deemed to be present in person and vote at such meeting, shall be given by the Corporation, not less than ten (10) nor more than sixty (60) days before the date on which the meeting is to be held, to each stockholder entitled to vote at such meeting, except as otherwise provided herein or required by law (by law meaning, here and hereinafter, by the NRS and Corporation's Amended and Restated Articles of Incorporation, as amended or restated from time to time (the "Restated Articles of Incorporation")).

When a meeting is adjourned to another place, if any, date or time, notice need not be given of the adjourned meeting if the place, if any, date and time thereof, and the means of remote communications, if any, by which the stockholders and proxyholders thereof may be deemed to be present in person and vote at such adjourned meeting, are announced at the meeting at which the adjournment is taken; provided, however, that (i) if the date of any adjourned meeting is more than thirty (30) days after the date for which the meeting was originally noticed, or (ii) if a new record date is fixed for the adjourned meeting, notice of the place, if any, date, and time of the adjourned meeting, and the means of remote communications, if any, by which the stockholders and proxyholders thereof may be deemed to be present in person and vote at such adjourned meeting, shall be given in conformity with the first paragraph of this Section 3. At any adjourned meeting, any business may be transacted which might have been transacted at the original meeting.

Section 4. Quorum.

At any meeting of the stockholders, the holders of a majority of the voting power of all of the shares of capital stock of the Corporation entitled to vote at the meeting, present in person or by proxy, shall constitute a quorum for all purposes, unless or except to the extent that the presence of a larger number may be required by law, by the Restated Articles of Incorporation or by rules of any stock exchange upon which the Corporation's securities are listed. Where a separate vote by a class or classes of the shares of capital stock of the Corporation is required, a majority of the voting power of the shares of such class or classes present in person or represented by proxy shall constitute a quorum entitled to take action with respect to that vote on that matter, unless or except to the extent that the presence of a larger number may be required by law, by the Restated Articles of Incorporation or by rules of any stock exchange upon which the Corporation's securities are listed.

If a quorum shall fail to attend any meeting, the chairman of the meeting may adjourn the meeting to another place, if any, date, or time.

C. Certain Matters Pertaining to Stockholder Business and Nominations.

(1) For nominations or other business to be properly brought by a stockholder before an annual meeting pursuant to clause (c) of paragraph A of this Section 6 or a special meeting pursuant to paragraph B of this Section 6, (1.) the stockholder must have given timely notice thereof in writing to the Secretary of the Corporation, (2.) such other business must otherwise be a proper matter for stockholder action under the NRS, (3.) if the stockholder, or the beneficial owner on whose behalf any such proposal or nomination is made, has provided the Corporation with a Solicitation Notice, as that term is defined in this paragraph C, such stockholder or beneficial owner must, in the case of a proposal, have delivered a proxy statement and form of proxy to holders of a sufficient percentage of the Corporation's voting shares required by law to carry any such proposal, or, in the case of a nomination or nominations, have delivered a proxy statement and form of proxy to holders of a percentage of the Corporation's voting shares reasonably believed by such stockholder or beneficial holder to be sufficient to elect the nominee or nominees proposed to be nominated by such stockholder, and must, in either case, have included in such materials the Solicitation Notice, and (4.) if no Solicitation Notice relating thereto has been timely provided pursuant to paragraph C of this Section 6, the stockholder or beneficial owner proposing such business or nomination must not have solicited a number of proxies sufficient to have required the delivery of such a Solicitation Notice under this Section.

To be timely, a stockholder's notice pertaining to an annual meeting shall be delivered to the Secretary at the principal executive office of the Corporation not less than ninety (90) or more than one-hundred and twenty (120) days prior to the first anniversary (the

"Anniversary") of the date of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is more than thirty (30) days before or more than thirty (30) days after the Anniversary, to be timely, notice by the stockholder must be so delivered not earlier than the close of business (at the principal executive office of the Corporation) on the one-hundred and twentieth (120th) day prior to such annual meeting and not later than the close of business on the later of (i) the ninetieth (90th) day prior to such annual meeting or (ii) the close of business on the tenth (10th) day following the day on which public announcement of the date of such meeting is first made by the Corporation. (iii) to the extent known by the stockholder, the name and address of any other securityholder of the Corporation who owns, beneficially or of record, any securities of the Corporation and who supports any nominee proposed by such stockholder; and

(c) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made:

(i) the name and address of such stockholder, as they appear on the Corporation's books, and of such beneficial owner;

(ii) (A) the class or series and number of shares of the Corporation's capital stock which are, directly or indirectly, owned beneficially and of record by such stockholder and such beneficial owner, (B) any option, warrant, convertible security, stock appreciation right, or similar right with an exercise or conversion privilege or a settlement payment or mechanism at a price related to any class or series of the shares of the Corporation's capital stock or with a value derived in whole or in part from the value of any class or series of the shares of the Corporation's capital stock, whether or not such instrument or right shall be subject to settlement in the underlying class or series of the shares of capital stock of the Corporation (a "Derivative Instrument") directly or indirectly owned beneficially by such stockholder and such beneficial owner as well as any other direct or indirect opportunity for such stockholder and such beneficial owner to profit or share in any profit derived from any increase or decrease in the value of shares of the Corporation, (C) any proxy, contract, arrangement, understanding, or relationship pursuant to which such stockholder has a right to vote any shares of any security of the Corporation, (D) any short interest in any security of the Corporation (for purposes of these Bylaws, a person shall be deemed to have a short interest in a security if such person directly or indirectly, through any contract, arrangement, understanding, relationship or otherwise, has the opportunity to profit or share in any profit derived from any decrease in the value of the subject security), (E) any rights to dividends on the shares of the Corporation owned beneficially by such stockholder that are separated or separable from the underlying shares of the Corporation, (F) any proportionate interest in shares of the Corporation or Derivative Instruments held, directly or indirectly, by a general or limited partnership in which such stockholder or beneficial owner (i) is a general partner or, (ii) directly or indirectly, beneficially owns an interest in such general partner, and (G) any performance-related fees (other than an asset-based fee) that such stockholder or beneficial owner is entitled to based on any increase or decrease in the value of shares of the Corporation or Derivative Instruments as of the date of such notice, including, without limitation, any such interests held by members of such stockholder or beneficial owner's immediate family sharing the same household (which

information shall be supplemented by such stockholder and beneficial owner not later than ten (10) days after the record date for the meeting to disclose such ownership as of the record date; provided, however, that if such date is after the date of the meeting, not later than the day prior to the meeting);

(iii) any other information relating to such stockholder and beneficial owner, if any, that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for, as applicable, the proposal and/or for the election of directors in a contested election pursuant to Regulation 14A under the Exchange Act and the rules and regulations promulgated thereunder;

(iv) a description of all agreements, arrangements and understandings between such stockholder and beneficial owner, if any, and any other person or persons (including their names) in connection with the proposal of such business by such stockholder; and

(v) a statement of whether or not either such stockholder or beneficial owner intends to deliver a proxy statement and form of proxy, in the case of a proposal, to holders of a sufficient percentage of the Corporation's voting shares required by law to carry the proposal or, in the case of a nomination or nominations, to holders of a sufficient percentage of the Corporation's voting shares to elect such nominee or nominees (an affirmative statement of such intent, a "Solicitation Notice").

(2) Notwithstanding anything in the second sentence of paragraph C(1) of this Section 6 to the contrary, in the event that the number of directors to be elected to the Board of Directors is increased and there is no public announcement by the Corporation naming all of the nominees for director or specifying the size of the increased Board of Directors at least fifty-five (55) days prior to the Anniversary (or, if the annual meeting is held more than thirty (30) days before or thirty (30) days after the Anniversary, at least fifty-five (55) days prior to such annual meeting), a stockholder's notice required by this Section 6 shall also be considered timely, but only with respect to nominees for directorships newly created by such increase, and only if it is delivered to the Secretary at the principal executive office of the Corporation not later than the close of business on the tenth (10th) day following the day on which such public announcement is first made by the Corporation.

(3) In the event the Corporation calls a special meeting of the stockholders for the purpose of electing one or more directors to the Board of Directors, any such stockholder may nominate a person or persons (as the case may be), for election to such directorship(s) as specified in the Corporation's notice of meeting, provided, however, that the stockholder's notice required by paragraph C(1) of this Section 6 is delivered to the Secretary at the principal executive office of the Corporation not earlier than the ninetieth (90th) day prior to such special meeting nor later than the close of business on the later of (i) the sixtieth (60th) day prior to such special meeting, or (ii) the tenth (10th) day following the day on which public announcement is first made of the date of the special meeting and of the nominees proposed by the Board of Directors to be elected at such meeting.

D. General.

(1) Only such persons who are nominated in accordance with the procedures set forth in this Section 6 shall be eligible to serve as directors of the Corporation and only such business brought before a meeting of the stockholders in accordance with the procedures set forth in this Section 6 shall be conducted at such meeting. Except as otherwise provided by law, the Restated Articles of Incorporation or these Bylaws, the chairman of the meeting shall have the power and duty to determine whether a nomination or any business proposed to be brought before the meeting was made or proposed, as the case may be, in accordance with the procedures set forth in these Bylaws and, if any proposed nomination or business is not in compliance herewith, to declare that such defective proposal or nomination shall be disregarded.

(2) For purposes of this Section 6, "public announcement" shall mean disclosure in a press release reported by the Dow Jones News Service, Associated Press or comparable national news service or in a document publicly filed by the Corporation with the Securities and Exchange Commission pursuant to Section 13, 14 or 15(d) of the Exchange Act.

(3) Notwithstanding the foregoing provisions of this Section 6, a stockholder shall also comply with all applicable requirements of the Exchange Act and the rules and regulations thereunder with respect to the matters set forth herein. Nothing in this Section 6 shall be deemed to affect any rights (i) of the stockholders of the Corporation to request inclusion of proposals in the Corporation's proxy statement pursuant to Rule 14a-8 under the Exchange Act or (ii) of the holders of any series of Preferred Stock then outstanding to elect directors under specified circumstances.

(4) In addition to the requirements set forth elsewhere in these Bylaws, to be eligible to be a nominee for election or reelection as a director of the Corporation, a person must deliver, in accordance with the time periods prescribed for delivery of notice under Section 6(C) of this Article I, to the Secretary at the principal executive office of the Corporation a completed and signed questionnaire with respect to the background and qualification of such person and the background of any other person or entity on whose behalf the nomination is being made (which questionnaire shall be provided by the Secretary upon written request) and a written representation and agreement (in the form provided by the Secretary upon written request) that such person (i) is not and will not become a party to (A) any agreement, arrangement or understanding with, and has not given any commitment or assurance to, any other person or entity as to how such person, if elected as a director of the Corporation, will act or vote on any issue or question (a "Voting Commitment") that has not been disclosed to the Corporation or (B) any Voting Commitment that could limit or interfere with such person's ability to comply, if elected as a director of the Corporation, with such person's fiduciary duties under applicable law, (ii) is not and will not become a party to any agreement, arrangement or understanding with any other person or entity, other than the Corporation, with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director of the Corporation, and (iii) in such person's individual capacity and on behalf of any

other person or entity on whose behalf the nomination is being made, would be in compliance, if elected as a director of the Corporation, and will comply with, applicable law and all applicable publicly disclosed corporate governance, code of conduct and ethics, conflict of interest, corporate opportunities, trading and any other policies and guidelines of the Corporation applicable to directors.

(5) Notwithstanding the foregoing provisions of this Section 6, unless otherwise required by law, if a stockholder of the Corporation (or a qualified representative of the stockholder) does not appear in person at the annual or special meeting of the stockholders of the Corporation to make its nomination or propose any other matter, such nomination shall be disregarded and such other proposed matter shall not be transacted, even if proxies in respect of such vote have been received by the Corporation. For purposes of this Article I, to be considered a "qualified representative" of the stockholder, a person must be (i) a duly authorized officer, manager or partner of such stockholder or (ii) must be authorized by a writing executed by such stockholder or an electronic transmission delivered by such stockholder to act for such stockholder as proxy at the meeting of the stockholders, and such person must produce such writing or electronic transmission, or a reliable reproduction of the writing or electronic transmission, at the commencement of the meeting of the stockholders.

Section 7. Proxies and Voting.

At any meeting of the stockholders, every stockholder entitled to vote may vote (i) in person or (ii) by proxy authorized by an instrument, in writing or by a transmission, as permitted by law and the Restated Articles of Incorporation and filed in accordance with the procedure established for the meeting by the chairman of the meeting. Any copy, facsimile telecommunication or other reliable reproduction of the writing or transmission may be substituted or used in lieu of the original writing or transmission for any and all purposes under this Section 7 for which the original writing or transmission could be used, provided, however, that such copy, facsimile telecommunication or other reproduction shall be a complete reproduction of the entire original writing or transmission.

All voting, including on the election of directors but excepting where otherwise required by law, may be by voice vote. Any vote not taken by voice shall be taken by written ballots, each of which shall state the name of the stockholder or proxy voting and such other information as may be required by law, the Restated Articles of Incorporation and the procedure established for the meeting by the chairman of the meeting. The Corporation may, and to the extent required by law, shall, in advance of any meeting of the stockholders, appoint one or more inspectors to act at the meeting and make a written report thereof. The Corporation may designate one or more persons as alternate inspectors to replace any inspector who fails to act. If no inspector or alternate is able to act at a meeting of the stockholders, the person presiding at the meeting may, and to the extent required by law, shall, appoint one or more inspectors to act at the meeting and make a written report thereof. Each inspector, before entering upon the discharge of his duties, shall take and sign an oath to faithfully execute the duties of an inspector with strict impartiality and according to the best of his ability. Every vote taken by written ballots shall be counted by a duly appointed inspector or inspectors.

Except as otherwise provided in the terms of any class or series of Preferred Stock of the Corporation, (i) all elections of directors of the Corporation at any meeting of the stockholders shall be determined by a plurality of the votes cast, and (ii) except as otherwise required by law, these Bylaws, the Restated Articles of Incorporation or the rules of any stock exchange upon which the Corporation's securities are listed, all other matters proposed at any meeting of the stockholders shall be determined by a majority of the votes cast affirmatively or negatively.

Section 8. Action Without Meeting.

Any action required or permitted to be taken by the stockholders of the Corporation may be effected only at a duly called annual or special meeting of the stockholders of the Corporation and may not be effected by written consent.

Section 9. Stock List.

A complete list of stockholders entitled to vote at any meeting of the stockholders, arranged in alphabetical order for each class or series of the shares of capital stock of the Corporation and showing the address of each such stockholder and the number of shares registered in his or her name, shall be open to the examination of any such stockholder for a period of at least ten (10) days prior to the meeting in the manner provided by law.

The stock list shall also be open to the examination of any stockholder during the whole time of the meeting as provided by law. Such list shall presumptively determine the identity of the stockholders entitled to examine such stock list and to vote at the meeting and the number of shares held by each of them. Any alleged mistake in such list will be examined by the Corporation within thirty (30) days after being notified thereof and any mistake discovered will be corrected by the Corporation in due course, without affecting the aforementioned presumption.

ARTICLE II - BOARD OF DIRECTORS

Section 1. General Powers, Number, Election, Tenure, Qualification and Chairman.

A. The business and affairs of the Corporation shall be managed by or under the direction of its Board of Directors.

B. Subject to the rights of the holders of any series of Preferred Stock then outstanding to elect additional directors under specified circumstances, the number of directors shall be fixed from time to time exclusively by the Board of Directors pursuant to a resolution adopted by a majority of the Whole Board.

C. Subject to the rights of the holders of shares of any series of Preferred Stock then outstanding to elect additional directors under specified circumstances, the Board of Directors of the Corporation shall be divided into three classes, with the term of office of the first class to expire at the first annual meeting of the stockholders following the initial classification of directors and until their successors are duly elected and qualified, the term of office of the second class to expire at the second annual meeting of the stockholders following the initial classification of directors and until their successors are duly elected and qualified, and the term of office of the third class to expire at the third annual meeting of the stockholders following the initial classification of directors and until their successors are duly elected and qualified. At each annual meeting of the stockholders, directors elected to succeed those directors whose terms expire, other than directors elected by the holders of any series of Preferred Stock, shall be elected for a term of office to expire at the third succeeding annual meeting of the stockholders after their election and until their successors are duly elected and qualified, and if authorized by a resolution of the Board of Directors, directors may be elected to fill any vacancy on the Board of Directors, regardless of how such vacancy was created.

D. The Chairman of the Board of Directors and any Vice Chairman appointed to act in the absence of the Chairman, if any, shall be elected by and from the Board of Directors. The Chairman shall preside at all meetings of the Board of Directors at which he or she is present and shall have such authority and perform such duties as may be prescribed by these Bylaws or from time to time be determined by the Board of Directors.

Section 2. Vacancies and Newly Created Directorships.

Subject to the rights of the holders of any series of Preferred Stock then outstanding, newly created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board of Directors resulting from death, resignation, retirement, disqualification, removal from office or other cause shall, unless otherwise required by law, by the Restated Articles of Incorporation or by resolution of the Board of Directors, be filled only by a majority vote of the directors then in office even though less than a quorum, or by a sole remaining director, and not by the stockholders of the Corporation, and directors so chosen shall serve for a term expiring at the annual meeting of the stockholders at which the term of office of the class to which they have been chosen expires and until such director's successor shall have been duly elected and qualified. No decrease in the authorized number of directors shall shorten the term of any incumbent director. In the event of a vacancy in the Board of Directors, the remaining directors, except as otherwise provided by law, the Restated Articles of Incorporation or these Bylaws, may exercise the powers of the full Board of Directors until the vacancy is filled.

Section 3. Resignation and Removal.

Any director may resign at any time upon notice given in writing or by electronic transmission to the Corporation at its principal executive office or to the Chairman of the Board, Chief Executive Officer, President or Secretary. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event. Subject to the rights of the holders of any series of Preferred Stock then outstanding, any director, or the entire Board of Directors, may be removed from office at any time only for cause and only by the affirmative vote of the holders of at least eighty percent (80%) of the voting power of all of the then outstanding shares of capital stock of the Corporation entitled to vote at an election of directors, voting together as a single class.

Section 4. Regular Meetings.

Regular meetings of the Board of Directors shall be held at such place or places, or the means of remote communications, if any, on such date or dates, and at such time or times as shall have been established by the Board of Directors and publicized among all directors. A notice of each regular meeting shall not be required.

Section 5. Special Meetings.

Special meetings of the Board of Directors may be called by the Chairman of the Board of Directors or the Chief Executive Officer, and shall be called by the Secretary if requested by a majority of the Whole Board, and shall be held at such place, or via the means of remote communications, if any, on such date, and at such time as the Secretary shall reasonably fix. Notice of the place, date, and time of each such special meeting shall be given to each director by whom it is not waived by mailing written notice not less than five (5) days before the meeting or orally, by telegraph, telex, cable, telecopy or electronic transmission given not less than twenty-four (24) hours before the meeting. Unless otherwise indicated in the notice thereof, any and all business may be transacted at a special meeting.

Section 6. Quorum.

At any meeting of the Board of Directors, a majority of the Whole Board shall constitute a quorum for all purposes. If a quorum shall fail to attend any meeting, a majority of those present may adjourn the meeting to another place, date, or time, without further notice or waiver thereof.

Section 7. Action by Consent.

Unless otherwise restricted by law or these Bylaws, any action required or permitted to be taken at any meeting of the Board of Directors may be taken without a meeting, if all members of the Board consent thereto in writing or by electronic transmission. Each such writing or electronic transmission shall be filed with the minutes of proceedings of the Board of Directors. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

Section 8. Action by Meeting.

Members of the Board of Directors or of any committee designated by the Board of Directors may participate in a meeting of the Board of Directors or such committee by any means of electronic or telephonic communications, videoconferencing, teleconferencing or other available technology permitted under the NRS (including, without limitation, a telephone conference or similar method of communication by which all individuals participating in the meeting can hear each other). If any conferencing means are utilized, the Corporation shall, to the extent required under the NRS, implement reasonable measures to (a) verify the identity of each person participating in the conference through such means as a director or member of the committee, as the case may be, and (b) provide the directors or members of the committee a reasonable opportunity to participate in the conference and to vote on matters submitted to the directors or members of the committee, including an opportunity to communicate, and to read or hear the proceedings of the conference in a substantially concurrent manner with such proceedings. Participation in a meeting pursuant to this Section 8 constitutes presence in person at the meeting.

Section 9. Conduct of Business.

At any meeting of the Board of Directors, business shall be transacted in such order and manner as the Board of Directors may from time to time determine and publicized among all directors, and all matters shall be determined by the vote of a majority of the directors present, except as otherwise provided herein, under the Restated Articles of Incorporation or required by law.

Section 10. Powers.

The Board of Directors may, except as otherwise required by law, exercise all such powers and do all such acts and things as may be exercised or done by the Corporation, including, without limiting the generality of the foregoing, the unqualified power:

(1) To declare distributions (including dividends) from time to time in accordance with law;

(2) To purchase or otherwise acquire any property, rights or privileges on such terms as it shall determine;

(3) To authorize the creation, making and issuance, in such form as it may determine, of written obligations of every kind, negotiable or non-negotiable, secured or unsecured, to borrow funds and guarantee obligations, and to do all things necessary in connection therewith;

(4) To remove any officer of the Corporation with or without cause, and from time to time to devolve the powers and duties of any officer upon any other person for the time being;

(5) To confer upon any officer of the Corporation the power to appoint, remove and suspend subordinate officers, employees and agents;

(6) To adopt from time to time such stock, option, stock purchase, bonus or other compensation plans for directors, officers, employees and agents of the Corporation and its subsidiaries;

(7) To adopt from time to time such insurance, retirement, and other benefit plans for directors, officers, employees and agents of the Corporation and its subsidiaries; and,

(8) To adopt from time to time regulations, not inconsistent with these Bylaws, for the management of the Corporation's business and affairs.

Section 11. Compensation of Directors.

Unless otherwise restricted by law, the Board of Directors shall have the authority to fix the compensation of the directors. The directors may be paid their expenses, if any, of attendance at each meeting of the Board of Directors and may be paid a fixed sum for attendance at each meeting of the Board of Directors or paid a stated salary or paid other compensation as director. No such payment shall preclude any director from serving the Corporation in any other capacity and receiving compensation therefor. Members of special or standing committees may receive compensation for attending committee meetings.

ARTICLE III - COMMITTEES

Section 1. Committees of the Board of Directors.

The Board of Directors may from time to time designate committees of the Board, with such lawfully delegable powers and duties as it thereby confers. For those committees, the Board of Directors may (i) elect a director or directors to serve as the member or members of such committees and may designate other directors as alternate members who may replace any absent or disqualified member of any such committee and (ii) may determine the procedural rules for any such committee's meeting and conducting of business. Any such committee, to the extent provided in the resolution of the Board of Directors, shall have and may exercise all the powers and authority

of the Board of Directors in the management of the business and affairs of the Corporation to the fullest extent authorized by law. In the absence or disqualification of any member of any committee and any alternate member in his or her place, the member or members of the committee present at the meeting and not disqualified from voting, whether or not he or she or they constitute a quorum of such committee, may by unanimous vote appoint another member of the Board of Directors to act in the place of the absent or disqualified member.

Section 2. Conduct of Business.

Each committee may determine the procedural rules for meeting and conducting its business and shall act in accordance therewith, except as otherwise determined by the Board of Directors, provided herein or required by law. Adequate provision shall be made for notice to members of all meetings; one-third (1/3) of the members of any committee shall constitute a quorum unless the committee shall consist of one (1) or two (2) members, in which event one (1) member shall constitute a quorum; and all matters shall be determined by a majority vote of the members present. Action may be taken by any committee without a meeting if all members thereof consent thereto in writing or by electronic transmission. Each such writing or electronic transmission shall be filed with the minutes of the proceedings of such committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

ARTICLE IV - OFFICERS

Section 1. Enumeration.

The officers of the Corporation shall consist of a Chief Executive Officer, President, Chief Financial Officer, Treasurer, Secretary and such other officers as the Board of Directors or the Chief Executive Officer may determine, including, but not limited to, one or more Vice Presidents, Assistant Treasurers and Assistant Secretaries. No officer needs be a director. Two or more offices may be held by any one person.

Section 4. Tenure and Removal.

Each officer elected or appointed by the Board of Directors shall hold office until the first meeting of the Board of Directors following the next annual meeting of the stockholders and until his or her successor is elected or appointed and qualified, unless he or she dies, resigns, is removed or becomes disqualified or a shorter term is specified in the vote electing or appointing said officer. Each officer appointed by the Chief Executive Officer shall hold office until his or her successor is elected or appointed and qualified, unless he or she dies, resigns, is removed or becomes disqualified or a shorter term is specified by any agreement or other instrument appointing such officer. Any officer may resign by notice given in writing or by electronic transmission of his or her resignation to the Chief Executive Officer, the President, or the Secretary, or to the Board of Directors at a meeting of the Board. Such resignation shall be effective upon receipt unless it is specified to be effective at some other time or upon the happening of some other event. Any officer elected or appointed by the Board of Directors may be removed from office with or without cause only by vote of a majority of the directors then in office even though less than a quorum or by a sole remaining director. Any officer appointed by the Chief Executive Officer may be removed with or without cause by the Chief Executive Officer, or by vote of a majority of the directors then in office even though less than a quorum, or by a sole remaining director.

The Chief Executive Officer shall have general supervision and direction of all of the other officers, employees and agents of the Corporation, other than the Chairman of the Board or any Vice Chairman. The Chief Executive Officer shall have the power and authority to determine the duties of all officers, employees and agents of the Corporation and determine the compensation of any officers (except those whose compensation is established by the Board of Directors), employees and agents. The Chief Executive Officer is expressly authorized to sign all stock certificates, contracts and other instruments for and on behalf of the Corporation unless otherwise directed by the Board of Directors.

Section 6. President.

Except for meetings at which the Chief Executive Officer or the Chairman of the Board, if any, presides, the President shall, if present, preside at all meetings of the stockholders, and if a director, at all meetings of the Board of Directors. The President shall, subject to the control and direction of the Chief Executive Officer and the Board of Directors, have and perform such powers and duties as may be prescribed by these Bylaws or from time to time be determined by the Chief Executive Officer or the Board of Directors. The President shall have power to sign all

stock certificates, contracts and other instruments for and on behalf of the Corporation to the extent authorized by the Board of Directors. In the absence of a Chief Executive Officer, the President shall be the chief executive officer of the Corporation and shall, subject to the direction of the Board of Directors, have responsibility for the general management and control of the business and affairs of the Corporation, have general supervision and direction of all of the officers, employees and agents of the Corporation, other than the Chairman of the Board or any Vice Chairman, and have all other powers and duties of the Chief Executive Officer as set forth in this Article IV.

Section 7. Vice Presidents.

The Vice Presidents, if any, in the order of their election (if otherwise directed by the Board of Directors or the Chief Executive Officer, in such other order as the Board of Directors or the Chief Executive Officer may determine), shall have the powers and duties of the President as set forth in this Article IV whenever the President is absent or unable to act. The Vice Presidents, if any, shall also have such other powers and duties as may from time to time be determined by the Board of Directors or the Chief Executive Officer.

Section 8. Chief Financial Officer, Treasurer and Assistant Treasurers.

The Chief Financial Officer shall, subject to the control and direction of the Board of Directors and the Chief Executive Officer, be the chief financial officer of the Corporation and shall have and perform such powers and duties as may be prescribed in these Bylaws or be determined from time to time by the Board of Directors and the Chief Executive Officer. All property of the Corporation in the custody of the Chief Financial Officer shall be subject at all times to the inspection and control of the Board of Directors and the Chief Executive Officer. The Chief Financial Officer shall have the responsibility for maintaining the financial records of the Corporation. The Chief Financial Officer shall make such disbursements of the funds of the Corporation to the extent authorized by law, the Restated Articles of Incorporation and the Board of Directors and shall render from time to time an account of all such transactions and of the financial condition of the Corporation whenever requested by the Board of Directors or the Chief Executive Officer. Unless the Board of Directors has designated another person as the Corporation's Treasurer, the Chief Financial Officer shall also be the Treasurer. Unless otherwise directed by the Board of Directors, the Treasurer (if different than the Chief Financial Officer) and each Assistant Treasurer (whenever the Treasurer is absent or unable to act and in such other order as the Board of Directors or the Chief Executive Officer may determine), if any, shall have and perform the powers and duties of the Chief Financial Officer whenever the Chief Financial Officer is absent or unable to act, and may at any time exercise such of the powers of the Chief Financial Officer.

Section 9. Secretaries.

Unless otherwise directed by the Board of Directors, the Secretary and, in his or her absence, an Assistant Secretary, shall attend all meetings of the directors and the stockholders and shall record all votes of the Board of Directors and stockholders and produce minutes of the proceedings

at such meetings. The Secretary and, in his or her absence, an Assistant Secretary, shall notify the directors and the stockholders of their meetings, and shall also have such other powers and duties as may from time to time be determined by the Board of Directors. In the absence of the Secretary and any Assistant Secretary at any meeting of directors or stockholders, a temporary secretary may be appointed by the chairman of that meeting.

Section 10. Action with Respect to Securities of Other Corporations.

Unless otherwise directed by the Board of Directors, the Chief Executive Officer or the President is expressly authorized to (i) vote for and on behalf of the Corporation, in person or by proxy, at any meeting of the stockholders of any other corporation, in which this Corporation holds securities and (ii) exercise any and all other rights and powers, which this Corporation possesses by reason of its ownership of securities in such other corporation, for and on behalf of this Corporation, in person or by proxy.

ARTICLE V - STOCK

Section 1. Certificated and Uncertificated Stock.

(a) The shares of the Corporation's capital stock may be certificated or uncertificated, as provided under the NRS, and shall be entered in the books of the Corporation and registered as they are issued. Any certificates representing shares of stock shall be in such form as the Board of Directors shall prescribe and shall certify the number and class and series of the shares of capital stock of the Corporation owned by the stockholder. Any certificates issued to a stockholder of the Corporation shall bear the name of the Corporation and shall be signed by the Chairman of the Board of Directors, or the President or a Vice President, and by the Treasurer or an Assistant Treasurer, or the Secretary or an Assistant Secretary. Any or all of the signatures on the certificate may be by facsimile. In the event that any officer who has signed, or whose facsimile signatures has been used on any certificate or certificates for stock cease to be an officer because of death, resignation or other reason, before the certificate or certificates for stock have been delivered by the Corporation, the certificate or certificates may nevertheless be adopted by the Corporation and be issued and delivered as though the person who signed the certificate or certificates, or whose facsimile signature has been used thereon, had not ceased to be an officer of the Corporation.

(b) Within a reasonable time after the issuance or transfer of uncertificated shares, the Corporation shall send to the registered owner thereof a written statement certifying the number and class (and the designation of the series, if any) of the shares owned by such stockholder in the Corporation and any restrictions on the transfer or registration of such shares imposed by the Restated Articles of Incorporation, these Bylaws, any agreement among stockholders or any agreement between the stockholders and the Corporation, and, at least annually thereafter, the Corporation shall provide to such stockholders of record holding uncertificated shares, a written statement confirming the information contained in such written statement previously sent. Except as otherwise expressly provided by the NRS, the rights and obligations of the stockholders of the Corporation shall be identical whether or not their shares of stock are represented by certificates.

Section 2. Transfers of Stock.

Transfers of shares of capital stock of the Corporation shall be made only (i) by entering upon the stock-transfer books of the Corporation or (ii) by transfer agents designated to transfer shares of capital stock of the Corporation. Except where a certificate is issued in accordance with Section 4 of this Article V or in the case of uncertificated shares, an outstanding certificate for the number of shares involved shall be surrendered for cancellation before a new certificate is issued therefor.

Section 3. Record Date.

With respect to notice (i) of any meeting of the stockholders, or (ii) for the stockholders to receive payment of any dividend or other distribution or allotment of any rights or (iii) for the stockholders to exercise any rights in respect of any change, conversion or exchange of the shares of the Corporation's capital stock or (iv) for any other lawful purpose, the Board of Directors may fix a record date, provided, however, that such record date (a) shall not precede the date on which the resolution fixing the record date is adopted and (b) shall not be more than sixty (60) nor less than ten (10) days before the date of any meeting of the stockholders, nor more than sixty (60) days prior to the time for such other action as hereinbefore described (receiving payments and exercising rights by the stockholders). If the Board of Directors so fixes a date, such date shall also be the record date for determining the stockholders of record entitled to vote at such meeting, unless the Board of Directors at the time it fixes such record date directs that a later date on or before the date of the meeting shall be the date for making such determination. If no record date is fixed by the Board of Directors, (i) the record date for determining stockholders of record entitled to notice of and to vote at a meeting of the stockholders shall be at the close of business on the day immediately preceding the day on which notice is given or, if notice is waived, at the close of business on the day immediately preceding the day on which the meeting is held, and, (ii) the record date, for determining stockholders of record entitled to receive payment of any dividend or other distribution or allotment of rights or to exercise any rights of change, conversion or exchange of the shares of the Corporation's capital stock or for any other purpose, shall be at the close of business on the day on which the Board of Directors adopts a resolution relating thereto.

A determination of stockholders of record entitled to notice of or to vote at a meeting of the stockholders shall apply to any adjournment of the meeting; provided, however, that the Board of Directors may fix a new record date for determination of the stockholders of record entitled to vote at the adjourned meeting, and in such case shall also fix as the record date for the stockholders of record entitled to notice of such adjourned meeting the same or an earlier date as that fixed for determination of the stockholders of record entitled to vote in accordance with the foregoing provisions of this Section 3 at the adjourned meeting.

Section 4. Lost, Stolen or Destroyed Certificates.

In the event of the loss, theft or destruction of any certificate of shares of capital stock of the Corporation, the Corporation may issue a new certificate of shares of capital stock or uncertificated

shares in place of any certificate previously issued by the Corporation pursuant to such regulations as the Board of Directors may establish concerning proof of such loss, theft or destruction and pledging of a satisfactory bond or bonds of indemnity.

Section 5. Regulations.

The issue, transfer, conversion and registration of certificates of the shares of capital stock shall be governed by these Bylaws and such other regulations as the Board of Directors may establish.

ARTICLE VI - NOTICES

Section 1. Notices.

If mailed, notice to the stockholders shall be deemed given when deposited in the mail, postage prepaid, directed to the stockholder at such stockholder's address as it appears on the records of the Corporation. Without limiting the manner by which notice otherwise may be given effectively to the stockholders as permitted by law, any notice to the stockholders may be given by electronic transmission in the manner permitted under NRS 78.370 and NRS Chapter 75.

Section 2. Waiver of Notice.

A written waiver of any notice, signed by a stockholder or director, or waiver by electronic transmission by such person or entity, whether before or after the time of the event for which notice is to be given, shall be deemed equivalent to the notice required to be given to such person or entity. Neither the business nor the purpose of any meeting need be specified in such a waiver. Attendance at any meeting shall constitute waiver of notice, except for attendance for the express purpose of objecting, at the beginning of the meeting, to the election or the transaction of business at such meeting because the meeting is not lawfully called or convened.

ARTICLE VII - INDEMNIFICATION OF DIRECTORS AND OFFICERS

Section 1. Right to Indemnification.

Each person who was or is made a party or is threatened to be made a party to or is otherwise involved (including, without limitation, as a witness) in any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was a director or an officer of the Corporation or is or was serving at the request of the Corporation as a director, officer, or trustee of another corporation, or of a partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (hereinafter an "Indemnitee"), whether the basis of such action, suit or proceeding is alleged action in an official capacity as a director, officer or trustee or in any other capacity while serving as a director, officer or trustee, shall

be indemnified and held harmless by the Corporation to the fullest extent permitted by law, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than such law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such Indemnitee in connection therewith; provided, however, that, except as provided in Section 3 of this Article VII with respect to proceedings to enforce rights to indemnification or an advancement of expenses or as otherwise required by law, the Corporation shall not be required to indemnify or advance expenses to any such Indemnitee in connection with an action, suit or proceeding (or part thereof) initiated by such Indemnitee unless such action, suit or proceeding (or part thereof) was authorized by the Board of Directors of the Corporation.

Section 2. Right to Advancement of Expenses.

In addition to the right to indemnification conferred in Section 1 of this Article, an Indemnitee shall also have the right to be paid by the Corporation the expenses (including attorney's fees) incurred in defending any such proceeding in advance of its final disposition; provided, however, that, if the NRS then requires, an advancement of expenses incurred by an Indemnitee in his capacity as a director or officer (and not in any other capacity in which service was or is rendered by such Indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to the Corporation of an undertaking, by or on behalf of such Indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal that such Indemnitee is not entitled to be indemnified for such expenses under this Section 2.

Section 3. Right of Indemnitees to Bring Suit.

If a claim under Section 1 or 2 of this Article VII is not paid in full by the Corporation within sixty (60) days after a written claim has been received by the Corporation, except in the case of a claim for an advancement of expenses, in which case the applicable period shall be twenty (20) days, the Indemnitee may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim. If successful in whole or in part in any such suit, or in a suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Indemnitee shall also be entitled to be paid the expenses of prosecuting or defending such suit. In any suit brought by the Indemnitee to enforce a right to indemnification hereunder (but not in a suit brought by the Indemnitee to enforce a right to an advancement of expenses) it shall be a defense that the Indemnitee has not met any applicable standard for indemnification set forth in the NRS. In any suit brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the Corporation shall be entitled to recover such expenses upon a final adjudication that, the Indemnitee has not met any applicable standard for indemnification set forth in the NRS. Neither the failure of the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such suit that indemnification of the Indemnitee is proper in the circumstances because the Indemnitee has met the applicable standard of conduct set

forth in the NRS, nor an actual determination by the Corporation (including its directors who are not parties to such action, a committee of such directors, independent legal counsel, or its stockholders) that the Indemnitee has not met such applicable standard of conduct, shall create a presumption that the Indemnitee has not met the applicable standard of conduct or, in the case of such a suit brought by the Indemnitee, be a defense to such suit. In any suit brought by the Indemnitee to enforce a right to indemnification or to an advancement of expenses hereunder, or brought by the Corporation to recover an advancement of expenses pursuant to the terms of an undertaking, the burden of proving that the Indemnitee is not entitled to be indemnified, or to such advancement of expenses, under this Article VII or otherwise shall be on the Corporation.

Section 4. Non-Exclusivity of Rights.

The rights to indemnification and to the advancement of expenses conferred in this Article IV shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, the Restated Certificate of Incorporation as amended from time to time, these Bylaws, any agreement, any vote of stockholders or directors as permitted by the NRS or otherwise.

Section 5. Insurance.

The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of (i) the Corporation or (ii) another corporation, partnership, joint venture, trust or other enterprise, against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the NRS.

Section 6. Indemnity Agreements.

The Corporation may enter into indemnity agreements from time to time (i) with the persons who are members of its Board of Directors, (ii) with such officers, employees and agents of the Corporation and (iii) with such officers, directors, employees and agents of subsidiaries or affiliates of the Corporation. Such indemnity agreements may provide in substance that the Corporation will indemnify such persons to the full extent as contemplated by this Article VII or permitted by law and the Restated Articles of Incorporation, and may include any other substantive or procedural provisions regarding indemnification as are not inconsistent with the laws of the State of Nevada. The provisions of such indemnity agreements shall prevail to the extent that they limit or condition or differ from the provisions of this Article VII.

Section 7. Indemnification of Employees and Agents of the Corporation.

The Corporation may, to the extent authorized from time to time by the Board of Directors, grant rights to indemnification and to the advancement of expenses to any employee or agent of the Corporation to the fullest extent of the provisions of this Article VII with respect to the indemnification and advancement of expenses of directors and officers of the Corporation.

Section 8. Nature of Rights.

The rights conferred upon Indemnitees in this Article VII shall be contract rights and such rights shall continue as to an Indemnitee who has ceased to be a director, officer, employee, agent or trustee and shall inure to the benefit of the Indemnitee's heirs, executors and administrators. Any amendment, alteration or repeal of this Article VII that adversely affects any right of an Indemnitee or its successors shall be prospective only and shall not limit, eliminate, or impair any such right with respect to any action, suit or proceeding involving any occurrence or alleged occurrence of any action or omission to act that took place prior to such amendment, alteration or repeal.

Section 9. Severability.

If any word, clause, provision or provisions of this Article VII shall be held to be invalid, illegal or unenforceable for any reason whatsoever: (i) the validity, legality and enforceability of the remaining provisions of this Article VII (including, without limitation, each portion of any section of this Article containing any such provision held to be invalid, illegal or unenforceable, that is not itself held to be invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby; and (ii) to the fullest extent possible, the provisions of this Article VII (including, without limitation, each such portion of any section of this Article VII containing any such provision held to be invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested by the provision held invalid, illegal or unenforceable.

ARTICLE VIII - CERTAIN TRANSACTIONS

Section 1. Transactions with Interested Parties.

No contract or transaction between the Corporation and one or more of its directors or officers, or between the Corporation and any other corporation, partnership, association, or other organization in which one or more of its directors or officers are directors or officers, or have a financial interest, shall be void or voidable (i) solely for this reason, or (ii) solely because the director or officer is present at or participates in the meeting of the Board or committee thereof, which authorizes the contract or transaction, or (iii) solely because the votes of such director or officer are counted for such purpose, if:

(a) The material facts as to his or her relationship or interest and as to the contract or transaction are disclosed to or are known to the Board of Directors or the committee, and the Board or committee in good faith authorizes the contract or transaction by the affirmative votes of a majority of the disinterested directors, even though the disinterested directors be less than a quorum; or

(b) The material facts as to his or her relationship or interest and as to the contract or transaction are disclosed or are known to the stockholders entitled to vote thereon, and the contract or transaction is specifically approved in good faith by vote of the stockholders; or

(c) The contract or transaction is fair as to the Corporation as of the time it is authorized, approved or ratified, by the Board of Directors, a committee thereof, or the stockholders.

Section 2. Quorum.

Interested directors or stockholders, as applicable, may be counted in determining the presence of a quorum (i) at the meeting of the Board of Directors or of a committee which authorizes the contract or transaction, or (ii) at the meeting of the stockholders which approves the contract or transaction.

ARTICLE IX - MISCELLANEOUS

Section 1. Facsimile Signatures.

In addition to the provisions specifically authorizing use of facsimile signatures in these Bylaws, facsimile signatures of any officer or officers of the Corporation may be used whenever and as authorized by the Board of Directors or a committee thereof.

Section 2. Corporate Seal.

The Board of Directors may provide a suitable seal, containing the name of the Corporation, which seal shall be in the charge of the Secretary. If and when so directed by the Board of Directors or a committee thereof, duplicates of the seal may be kept and used by the Treasurer or by an Assistant Secretary or Assistant Treasurer.

Section 3. Reliance upon Books, Reports and Records.

Without limitation of any provision of the NRS (including NRS 78.138), each director of the Corporation, each member of any committee designated by the Board of Directors, and each officer of the Corporation shall, in the performance of his or her duties, be entitled to rely, and be fully protected in relying upon the books of account or other records of the Corporation and upon such information, opinions, reports or statements presented to the Corporation by any of its agents, officers or employees, or committees of the Board of Directors, or by any other person as to matters which such director, committee member or officer reasonably believes are within such other person's professional or expert competence, but a director or officer is not entitled to rely on such information, opinions, reports, books of account or statements if the director or officer has knowledge concerning the matter in question that would cause reliance thereon to be unwarranted.

Section 4. Fiscal Year.

Except as otherwise determined by the Board of Directors from time to time, the fiscal year of the Corporation shall end on the last day of December of that year.

Section 5. Time Periods.

In applying any provision of these Bylaws which requires that an act be done or not be done during a period of a specified number of days prior and/or following an event, calendar days shall be used, the day of the doing of the act shall be excluded, and the day of the event shall be included.

Section 6. Pronouns.

Whenever the context may require, any pronouns used in these Bylaws shall include the corresponding masculine, feminine or neuter forms.

Section 7. Interpretation.

The Board of Directors shall have the power to interpret all of the terms and provisions of these Bylaws, which interpretation shall be conclusive.

ARTICLE XI - AMENDMENTS

In furtherance and not in limitation of the powers conferred by law and the Restated Articles of Incorporation, the Board of Directors is expressly authorized to adopt, amend and repeal these Bylaws, but subject to the power of the holders of the shares of capital stock of the Corporation to adopt, amend or repeal these Bylaws; provided, however, that, with respect to the power of such holders, notwithstanding any other provision of these Bylaws or any provision of the NRS which might otherwise permit a lesser vote or no vote, and in addition to the affirmative vote of the holders of any class or series of the shares of capital stock of the Corporation required by law, the Restated Articles of Incorporation, these Bylaws or any Preferred Stock, the affirmative vote of the holders of at least eighty percent (80%) of the voting power of all of the then outstanding shares of capital stock of the Corporation entitled to vote generally in the election of directors, voting together as a single class, shall be required to adopt, amend or repeal any provision of these Bylaws.

2. PURPOSES OF THE PLAN.

The Plan is intended to encourage ownership of Shares by Employees and Directors of and certain Consultants to the Company and its Affiliates in order to attract and retain such people, to induce them to work for the benefit of the Company or of an Affiliate and to provide additional incentive for them to promote the success of the Company or of an Affiliate. The Plan provides for the granting of ISOs, Non-Qualified Options, Stock Grants and Stock-Based Awards.

3. SHARES SUBJECT TO THE PLAN.

(a) The number of Shares which may be issued from time to time pursuant to this Plan shall be 3,200,000, or the equivalent of such number of Shares after the Administrator, in its sole discretion, has interpreted the effect of any stock split, stock dividend, combination, recapitalization or similar transaction in accordance with Paragraph 23 of the Plan.

(b) Notwithstanding Subparagraph (a) above, on the first day of each fiscal year of the Company during the period beginning in fiscal year 2016, and ending on the second day of fiscal year 2024, the number of Shares that may be issued from time to time pursuant to the Plan, shall be increased by an amount equal to the lesser of (i) 1,000,000 Shares or the equivalent of such number of Shares after the Administrator, in its sole discretion, has interpreted the effect of any stock split, stock dividend, combination, recapitalization or similar transaction in accordance with Paragraph 23 of the Plan; (ii) 4% of the number of outstanding shares of Common Stock on such date; and (iii) an amount determined by the Board.

(c) If an Option ceases to be "outstanding", in whole or in part (other than by exercise), or if the Company shall reacquire (at not more than its original issuance price) any Shares issued pursuant to a Stock Grant or Stock-Based Award, or if any Stock Right expires or is forfeited, cancelled, or otherwise terminated or results in any Shares not being issued, the unissued or reacquired Shares which were subject to such Stock Right shall again be available for issuance from time to time pursuant to this Plan. Notwithstanding the foregoing, if a Stock Right is exercised, in whole or in part, by tender of Shares or if the Company or an Affiliate's tax withholding obligation is satisfied by withholding Shares, the number of Shares deemed to have been issued under the Plan for purposes of the limitation set forth in Paragraph 3(a) above shall be the number of Shares that were subject to the Stock Right or portion thereof, and not the net number of Shares actually issued. However, in the case of ISOs, the foregoing provisions shall be subject to any limitations under the Code.

4. **ADMINISTRATION OF THE PLAN.**

The Administrator of the Plan will be the Board of Directors, except to the extent the Board of Directors delegates its authority to the Committee, in which case the Committee shall be the Administrator. Subject to the provisions of the Plan, the Administrator is authorized to:

(a) Interpret the provisions of the Plan and all Stock Rights and to make all rules and determinations which it deems necessary or advisable for the administration of the Plan;

(b) Determine which Employees, Directors and Consultants shall be granted Stock Rights;

(c) Determine the number of Shares for which a Stock Right or Stock Rights shall be granted, provided, however, that in no event shall Stock Rights with respect to more than 1,500,000 Shares be granted to any Participant in any fiscal year;

(d) Specify the terms and conditions upon which a Stock Right or Stock Rights may be granted;

(e) Amend any term or condition of any outstanding Stock Right, including, without limitation, to reduce or increase the exercise price or purchase price, accelerate the vesting schedule or extend the expiration date, provided that (i) such term or condition as amended is permitted by the Plan; (ii) any such amendment shall not impair the rights of a Participant under any Stock Right previously granted without such Participant's consent or in the event of death of

the Participant the Participant's Survivors; and (iii) any such amendment shall be made only after the Administrator determines whether such amendment would cause any adverse tax consequences to the Participant, including, but not limited to, the annual vesting limitation contained in Section 422(d) of the Code and described in Paragraph 6(b)(iv) below with respect to ISOs and pursuant to Section 409A of the Code;

(f) Buy out for a payment in cash or Shares, a Stock Right previously granted and/or cancel any such Stock Right and grant in substitution therefor other Stock Rights, covering the same or a different number of Shares and having an exercise price or purchase price per share which may be lower or higher than the exercise price or purchase price of the cancelled Stock Right, based on such terms and conditions as the Administrator shall establish and the Participant shall accept; and

(g) Adopt any sub-plans applicable to residents of any specified jurisdiction as it deems necessary or appropriate in order to comply with or take advantage of any tax or other laws applicable to the Company, any Affiliate or to Participants or to otherwise facilitate the administration of the Plan, which sub-plans may include additional restrictions or conditions applicable to Stock Rights or Shares issuable pursuant to a Stock Right;

provided, however, that all such interpretations, rules, determinations, terms and conditions shall be made and prescribed in the context of not causing any adverse tax consequences under Section 409A of the Code and preserving the tax status under Section 422 of the Code of those Options which are designated as ISOs. Subject to the foregoing, the interpretation and construction by the Administrator of any provisions of the Plan or of any Stock Right granted under it shall be final, unless otherwise determined by the Board of Directors, if the Administrator is the Committee. To the extent permitted under applicable law, the Board of Directors or the Committee may allocate all or any portion of its responsibilities and powers to any one or more of its members and may delegate all or any portion of its responsibilities and powers to any other person selected by it. The Board of Directors or the Committee may revoke any such allocation or delegation at any time. Notwithstanding the foregoing, only the Board of Directors or the Committee shall be authorized to grant a Stock Right to any Director of the Company or to any "officer" of the Company as defined by Rule 16a-1 under the Exchange Act.

5. ELIGIBILITY FOR PARTICIPATION.

The Administrator will, in its sole discretion, name the Participants in the Plan; provided, however, that each Participant must be an Employee, Director or Consultant of the Company or of an Affiliate at the time a Stock Right is granted. Notwithstanding the foregoing, the Administrator may authorize the grant of a Stock Right to a person not then an Employee, Director or Consultant of the Company or of an Affiliate; provided, however, that the actual grant of such Stock Right shall be conditioned upon such person becoming eligible to become a Participant at or prior to the time of the execution of the Agreement evidencing such Stock Right. ISOs may be granted only to Employees who are deemed to be residents of the United

States for tax purposes. Non-Qualified Options, Stock Grants and Stock-Based Awards may be granted to any Employee, Director or Consultant of the Company or an Affiliate. The granting of any Stock Right to any individual shall neither entitle that individual to, nor disqualify him or her from, participation in any other grant of Stock Rights or any grant under any other benefit plan established by the Company or any Affiliate for Employees, Directors or Consultants.

6. TERMS AND CONDITIONS OF OPTIONS.

Each Option shall be set forth in writing in an Option Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Administrator may provide that Options be granted subject to such terms and conditions, consistent with the terms and conditions specifically required under this Plan, as the Administrator may deem appropriate including, without limitation, subsequent approval by the stockholders of the Company of this Plan or any amendments thereto. The Option Agreements shall be subject to at least the following terms and conditions:

(a) Non-Qualified Options: Each Option intended to be a Non-Qualified Option shall be subject to the terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company, subject to the following minimum standards for any such Non-Qualified Option:

(i) Exercise Price: Each Option Agreement shall state the exercise price (per share) of the Shares covered by each Option, which exercise price shall be determined by the Administrator and shall be at least equal to the Fair Market Value per share of Common Stock on the date of grant of the Option.

(ii) Number of Shares: Each Option Agreement shall state the number of Shares to which it pertains.

(iii) Option Periods: Each Option Agreement shall state the date or dates on which it first is exercisable and the date after which it may no longer be exercised, and may provide that the Option rights accrue or become exercisable in installments over a period of months or years, or upon the occurrence of certain conditions or the attainment of stated goals or events.

(iv) Option Conditions: Exercise of any Option may be conditioned upon the Participant's execution of a Share purchase agreement in form satisfactory to the Administrator providing for certain protections for the Company and its other stockholders, including requirements that:

A. *The Participant's or the Participant's Survivors' right to sell or transfer the Shares may be restricted; and*

B. *The Participant or the Participant's Survivors may be required to execute letters of investment intent and must also acknowledge that the Shares will bear legends noting any applicable restrictions.*

(v) Term of Option: Each Option shall terminate not more than ten years from the date of the grant or at such earlier time as the Option Agreement may provide.

(b) ISOs: Each Option intended to be an ISO shall be issued only to an Employee who is deemed to be a resident of the United States for tax purposes, and shall be subject to the following terms and conditions, with such additional restrictions or changes as the Administrator determines are appropriate but not in conflict with Section 422 of the Code and relevant regulations and rulings of the Internal Revenue Service:

(i) Minimum standards: The ISO shall meet the minimum standards required of Non-Qualified Options, as described in Paragraph 6(a) above, except clause (i) and (v) thereunder.

(ii) Exercise Price: Immediately before the ISO is granted, if the Participant owns, directly or by reason of the applicable attribution rules in Section 424(d) of the Code:

A. 10% or less of the total combined voting power of all classes of stock of the Company or an Affiliate, the exercise price per share of the Shares covered by each ISO shall not be less than 100% of the Fair Market Value per share of the Common Stock on the date of grant of the Option; or

B. More than 10% of the total combined voting power of all classes of stock of the Company or an Affiliate, the exercise price per share of the Shares covered by each ISO shall not be less than 110% of the Fair Market Value per share of the Common Stock on the date of grant of the Option.

(iii) Term of Option: For Participants who own:

A. 10% or less of the total combined voting power of all classes of stock of the Company or an Affiliate, each ISO shall terminate not more than ten years from the date of the grant or at such earlier time as the Option Agreement may provide; or

B. More than 10% of the total combined voting power of all classes of stock of the Company or an Affiliate, each ISO shall terminate not more than five years from the date of the grant or at such earlier time as the Option Agreement may provide.

(iv) Limitation on Yearly Exercise: The Option Agreements shall restrict the amount of ISOs which may become exercisable in any calendar year (under this or any other ISO plan of the Company or an Affiliate) so that the aggregate Fair Market Value (determined on the date each ISO is granted) of the stock with respect to which ISOs are exercisable for the first time by the Participant in any calendar year does not exceed $100,000.

7. **TERMS AND CONDITIONS OF STOCK GRANTS.**

Each Stock Grant to a Participant shall state the principal terms in a Stock Grant Agreement duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Stock Grant Agreement shall be in a form approved by the Administrator and shall contain terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company, subject to the following minimum standards:

(a) Each Stock Grant Agreement shall state the purchase price per share, if any, of the Shares covered by each Stock Grant, which purchase price shall be determined by the Administrator but shall not be less than the minimum consideration required by the Nevada Revised Statutes**,** if any, on the date of the grant of the Stock Grant;

(b) Each Stock Grant Agreement shall state the number of Shares to which the Stock Grant pertains; and

(c) Each Stock Grant Agreement shall include the terms of any right of the Company to restrict or reacquire the Shares subject to the Stock Grant, including the time and events upon which such rights shall accrue and the purchase price therefor, if any.

8. **TERMS AND CONDITIONS OF OTHER STOCK-BASED AWARDS.**

The Administrator shall have the right to grant other Stock-Based Awards based upon the Common Stock having such terms and conditions as the Administrator may determine, including, without limitation, the grant of Shares based upon certain conditions, the grant of securities convertible into Shares and the grant of stock appreciation rights, phantom stock awards or stock units. The principal terms of each Stock-Based Award shall be set forth in a Stock Award Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Stock Award Agreement shall be in a form approved by the Administrator and shall contain terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company.

The Company intends that the Plan and any Stock-Based Awards granted hereunder be exempt from the application of Section 409A of the Code or meet the requirements of paragraphs (2), (3) and (4) of subsection (a) of Section 409A of the Code, to the extent applicable, and be operated in accordance with Section 409A so that any compensation deferred under any Stock-Based Award (and applicable investment earnings) shall not be included in income under Section 409A of the Code. Any ambiguities in the Plan shall be construed to effect the intent as described in this Paragraph 8.

9. **EXERCISE OF OPTIONS AND ISSUE OF SHARES.**

An Option (or any part or installment thereof) shall be exercised by giving written notice to the Company or its designee (in a form acceptable to the Administrator, which may include

electronic notice), together with provision for payment of the aggregate exercise price in accordance with this Paragraph for the Shares as to which the Option is being exercised, and upon compliance with any other condition(s) set forth in the Option Agreement. Such notice shall be signed by the person exercising the Option (which signature may be provided electronically in a form acceptable to the Administrator), shall state the number of Shares with respect to which the Option is being exercised and shall contain any representation required by the Plan or the Option Agreement. Payment of the exercise price for the Shares as to which such Option is being exercised shall be made (a) in United States dollars in cash or by check, or (b) at the discretion of the Administrator, through delivery of shares of Common Stock held for at least six months (if required to avoid negative accounting treatment) having a Fair Market Value equal as of the date of the exercise to the aggregate cash exercise price for the number of Shares as to which the Option is being exercised, or (c) at the discretion of the Administrator, by having the Company retain from the Shares otherwise issuable upon exercise of the Option, a number of Shares having a Fair Market Value equal as of the date of exercise to the aggregate exercise price for the number of Shares as to which the Option is being exercised, or (d) at the discretion of the Administrator, in accordance with a cashless exercise program established with a securities brokerage firm, and approved by the Administrator, or (e) at the discretion of the Administrator, by any combination of (a), (b), (c) and (d) above or (g) at the discretion of the Administrator, by payment of such other lawful consideration as the Administrator may determine. Notwithstanding the foregoing, the Administrator shall accept only such payment on exercise of an ISO as is permitted by Section 422 of the Code.

The Company shall then reasonably promptly deliver the Shares as to which such Option was exercised to the Participant (or to the Participant's Survivors, as the case may be). In determining what constitutes "reasonably promptly," it is expressly understood that the issuance and delivery of the Shares may be delayed by the Company in order to comply with any law or regulation (including, without limitation, state securities or "blue sky" laws) which requires the Company to take any action with respect to the Shares prior to their issuance. The Shares shall, upon delivery, be fully paid, non-assessable Shares.

10. PAYMENT IN CONNECTION WITH THE ISSUANCE OF STOCK GRANTS AND STOCK-BASED AWARDS AND ISSUE OF SHARES.

Any Stock Grant or Stock-Based Award requiring payment of a purchase price for the Shares as to which such Stock Grant or Stock-Based Award is being granted shall be made (a) in United States dollars in cash or by check, or (b) at the discretion of the Administrator, through delivery of shares of Common Stock held for at least six months (if required to avoid negative accounting treatment) and having a Fair Market Value equal as of the date of payment to the purchase price of the Stock Grant or Stock-Based Award, or (c) at the discretion of the Administrator, by any combination of (a) and (b) above; or (c) at the discretion of the Administrator, by payment of such other lawful consideration as the Administrator may determine.

The Company shall when required by the applicable Agreement, reasonably promptly deliver the Shares as to which such Stock Grant or Stock-Based Award was made to the Participant (or to the Participant's Survivors, as the case may be), subject to any escrow

provision set forth in the applicable Agreement. In determining what constitutes "reasonably promptly," it is expressly understood that the issuance and delivery of the Shares may be delayed by the Company in order to comply with any law or regulation (including, without limitation, state securities or "blue sky" laws) which requires the Company to take any action with respect to the Shares prior to their issuance.

11. **RIGHTS AS A STOCKHOLDER.**

No Participant to whom a Stock Right has been granted shall have rights as a stockholder with respect to any Shares covered by such Stock Right except after due exercise of an Option or issuance of Shares as set forth in any Agreement, tender of the aggregate exercise or purchase price, if any, for the Shares being purchased and registration of the Shares in the Company's share register in the name of the Participant.

12. **ASSIGNABILITY AND TRANSFERABILITY OF STOCK RIGHTS.**

By its terms, a Stock Right granted to a Participant shall not be transferable by the Participant other than (i) by will or by the laws of descent and distribution, or (ii) as approved by the Administrator in its discretion and set forth in the applicable Agreement provided that no Stock Right may be transferred by a Participant for value. Notwithstanding the foregoing, an ISO transferred except in compliance with clause (i) above shall no longer qualify as an ISO. The designation of a beneficiary of a Stock Right by a Participant, with the prior approval of the Administrator and in such form as the Administrator shall prescribe, shall not be deemed a transfer prohibited by this Paragraph. Except as provided above during the Participant's lifetime a Stock Right shall only be exercisable by or issued to such Participant (or his or her legal representative) and shall not be assigned, pledged or hypothecated in any way (whether by operation of law or otherwise) and shall not be subject to execution, attachment or similar process. Any attempted transfer, assignment, pledge, hypothecation or other disposition of any Stock Right or of any rights granted thereunder contrary to the provisions of this Plan, or the levy of any attachment or similar process upon a Stock Right, shall be null and void.

13. **EFFECT ON OPTIONS OF TERMINATION OF SERVICE OTHER THAN FOR CAUSE OR DEATH OR DISABILITY.**

Except as otherwise provided in a Participant's Option Agreement, in the event of a termination of service (whether as an Employee, Director or Consultant) with the Company or an Affiliate before the Participant has exercised an Option, the following rules apply:

(a) A Participant who ceases to be an Employee, Director or Consultant of the Company or of an Affiliate (for any reason other than termination for Cause, Disability, or death for which events there are special rules in Paragraphs 14, 15, and 16, respectively), may exercise any Option granted to him or her to the extent that the Option is exercisable on the date of such termination of service, but only within such term as the Administrator has designated in a Participant's Option Agreement.

(b) Except as provided in Subparagraph (c) below, or Paragraph 15 or 16, in no event may an Option intended to be an ISO, be exercised later than three months after the Participant's termination of employment.

(c) The provisions of this Paragraph, and not the provisions of Paragraph 15 or 16, shall apply to a Participant who subsequently becomes Disabled or dies after the termination of employment, director status or consultancy; provided, however, in the case of a Participant's Disability or death within three months after the termination of employment, director status or consultancy, the Participant or the Participant's Survivors may exercise the Option within one year after the date of the Participant's termination of service, but in no event after the date of expiration of the term of the Option.

(d) Notwithstanding anything herein to the contrary, if subsequent to a Participant's termination of employment, termination of director status or termination of consultancy, but prior to the exercise of an Option, the Administrator determines that, either prior or subsequent to the Participant's termination, the Participant engaged in conduct which would constitute Cause, then such Participant shall forthwith cease to have any right to exercise any Option.

(e) A Participant to whom an Option has been granted under the Plan who is absent from the Company or an Affiliate because of temporary disability (any disability other than a Disability as defined in Paragraph 1 hereof), or who is on leave of absence for any purpose, shall not, during the period of any such absence, be deemed, by virtue of such absence alone, to have terminated such Participant's employment, director status or consultancy with the Company or with an Affiliate, except as the Administrator may otherwise expressly provide; provided, however, that, for ISOs, any leave of absence granted by the Administrator of greater than ninety days, unless pursuant to a contract or statute that guarantees the right to reemployment, shall cause such ISO to become a Non-Qualified Option on the 181st day following such leave of absence.

(f) Except as required by law or as set forth in a Participant's Option Agreement, Options granted under the Plan shall not be affected by any change of a Participant's status within or among the Company and any Affiliates, so long as the Participant continues to be an Employee, director or Consultant of the Company or any Affiliate.

14. **EFFECT ON OPTIONS OF TERMINATION OF SERVICE FOR CAUSE.**

Except as otherwise provided in a Participant's Option Agreement, the following rules apply if the Participant's service (whether as an Employee, director or Consultant) with the Company or an Affiliate is terminated for Cause prior to the time that all his or her outstanding Options have been exercised:

(a) All outstanding and unexercised Options as of the time the Participant is notified his or her service is terminated for Cause will immediately be forfeited.

(b) Cause is not limited to events which have occurred prior to a Participant's termination of service, nor is it necessary that the Administrator's finding of Cause occur prior to termination. If the Administrator determines, subsequent to a Participant's termination of service

but prior to the exercise of an Option, that either prior or subsequent to the Participant's termination the Participant engaged in conduct which would constitute Cause, then the right to exercise any Option is forfeited.

15. **EFFECT ON OPTIONS OF TERMINATION OF SERVICE FOR DISABILITY.**

Except as otherwise provided in a Participant's Option Agreement:

(a) A Participant who ceases to be an Employee, director or Consultant of the Company or of an Affiliate by reason of Disability may exercise any Option granted to such Participant:

(i) To the extent that the Option has become exercisable but has not been exercised on the date of the Participant's termination of service due to Disability; and

(ii) In the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of the Participant's termination of service due to Disability of any additional vesting rights that would have accrued on the next vesting date had the Participant not become Disabled. The proration shall be based upon the number of days accrued in the current vesting period prior to the date of the Participant's termination of service due to Disability.

(b) A Disabled Participant may exercise the Option only within the period ending one year after the date of the Participant's termination of service due to Disability, notwithstanding that the Participant might have been able to exercise the Option as to some or all of the Shares on a later date if the Participant had not been terminated due to Disability and had continued to be an Employee, director or Consultant or, if earlier, within the originally prescribed term of the Option.

(c) The Administrator shall make the determination both of whether Disability has occurred and the date of its occurrence (unless a procedure for such determination is set forth in another agreement between the Company and such Participant, in which case such procedure shall be used for such determination). If requested, the Participant shall be examined by a physician selected or approved by the Administrator, the cost of which examination shall be paid for by the Company.

16. **EFFECT ON OPTIONS OF DEATH WHILE AN EMPLOYEE, DIRECTOR OR CONSULTANT.**

Except as otherwise provided in a Participant's Option Agreement:

(a) In the event of the death of a Participant while the Participant is an Employee, director or Consultant of the Company or of an Affiliate, such Option may be exercised by the Participant's Survivors:

(i) To the extent that the Option has become exercisable but has not been exercised on the date of death; and

(ii) In the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of death of any additional vesting rights that would have accrued on the next vesting date had the Participant not died. The proration shall be based upon the number of days accrued in the current vesting period prior to the Participant's date of death.

(b) If the Participant's Survivors wish to exercise the Option, they must take all necessary steps to exercise the Option within one year after the date of death of such Participant, notwithstanding that the decedent might have been able to exercise the Option as to some or all of the Shares on a later date if he or she had not died and had continued to be an Employee, director or Consultant or, if earlier, within the originally prescribed term of the Option.

17. **EFFECT OF TERMINATION OF SERVICE ON STOCK GRANTS AND STOCK-BASED AWARDS.**

For purposes of this Paragraph 17, a Participant to whom a Stock Grant or Stock-Based Award has been issued under the Plan who is absent from work with the Company or with an Affiliate because of temporary disability (any disability other than a Disability as defined in Paragraph 1 hereof), or who is on leave of absence for any purpose, shall not, during the period of any such absence, be deemed, by virtue of such absence alone, to have terminated such Participant's employment, director status or consultancy with the Company or with an Affiliate, except as the Administrator may otherwise expressly provide.

In addition, for purposes of this Paragraph 17 any change of employment or other service within or among the Company and any Affiliates shall not be treated as a termination of employment, director status or consultancy so long as the Participant continues to be an Employee, Director or Consultant of the Company or any Affiliate.

Except as otherwise provided in a Participant's Agreement, in the event of a termination of service for any reason (whether as an Employee, Director or Consultant), other than termination for Cause, death or Disability for which there are special rules in Paragraphs 19, 20, and 22 below, before all forfeiture provisions or Company rights of repurchase shall have lapsed, then the Company shall have the right to cancel or repurchase that number of Shares subject to a Stock Grant or Stock-Based Award as to which the Company's forfeiture or repurchase rights have not lapsed.

18. **EFFECT ON STOCK GRANTS AND STOCK-BASED AWARDS OF TERMINATION OF SERVICE FOR CAUSE.**

Except as otherwise provided in a Participant's respective Stock Grant Agreement or Stock Award Agreement, the following rules apply if the Participant's service (whether as an Employee, Director or Consultant) with the Company or an Affiliate is terminated for Cause:

(a) All Shares subject to any Stock Grant or Stock-Based Award that remain subject to forfeiture provisions or as to which the Company shall have a repurchase right shall be immediately forfeited to the Company as of the time the Participant is notified his or her service is terminated for Cause.

(b) Cause is not limited to events which have occurred prior to a Participant's termination of service, nor is it necessary that the Administrator's finding of Cause occur prior to termination. If the Administrator determines, subsequent to a Participant's termination of service, that either prior or subsequent to the Participant's termination the Participant engaged in conduct which would constitute Cause, then all Shares subject to any Stock Grant or Stock-Based Award that remained subject to forfeiture provisions or as to which the Company had a repurchase right on the date of termination shall be immediately forfeited to the Company.

19. **EFFECT ON STOCK GRANTS AND STOCK-BASED AWARDS OF TERMINATION OF SERVICE FOR DISABILITY.**

Except as otherwise provided in a Participant's respective Stock Grant Agreement or Stock Award Agreement, the following rules apply if a Participant ceases to be an Employee, Director or Consultant of the Company or of an Affiliate by reason of Disability: to the extent the forfeiture provisions or the Company's rights of repurchase have not lapsed on the date of Disability, they shall be exercisable; provided, however, that in the event such forfeiture provisions or rights of repurchase lapse periodically, such provisions or rights shall lapse to the extent of a pro rata portion of the Shares subject to such Stock Grant or Stock-Based Award through the date of Disability as would have lapsed had the Participant not become Disabled. The proration shall be based upon the number of days accrued prior to the date of Disability.

The Administrator shall make the determination both as to whether Disability has occurred and the date of its occurrence (unless a procedure for such determination is set forth in another agreement between the Company and such Participant, in which case such procedure shall be used for such determination). If requested, the Participant shall be examined by a physician selected or approved by the Administrator, the cost of which examination shall be paid for by the Company.

20. **EFFECT ON STOCK GRANTS AND STOCK-BASED AWARDS OF DEATH WHILE AN EMPLOYEE, DIRECTOR OR CONSULTANT.**

Except as otherwise provided in a Participant's Stock Grant Agreement, the following rules apply in the event of the death of a Participant while the Participant is an Employee, Director or Consultant of the Company or of an Affiliate: to the extent the forfeiture provisions or the Company's rights of repurchase have not lapsed on the date of death, they shall be exercisable; provided, however, that in the event such forfeiture provisions or rights of

repurchase lapse periodically, such provisions or rights shall lapse to the extent of a pro rata portion of the Shares subject to such Stock Grant through the date of death as would have lapsed had the Participant not died. The proration shall be based upon the number of days accrued prior to the Participant's date of death.

21. **PURCHASE FOR INVESTMENT.**

Unless the offering and sale of the Shares shall have been effectively registered under the Securities Act, the Company shall be under no obligation to issue Shares under the Plan unless and until the following conditions have been fulfilled:

(a) The person who receives a Stock Right shall warrant to the Company, prior to the receipt of Shares, that such person is acquiring such Shares for his or her own account, for investment, and not with a view to, or for sale in connection with, the distribution of any such Shares, in which event the person acquiring such Shares shall be bound by the provisions of the following legend (or a legend in substantially similar form) which shall be endorsed upon the certificate evidencing the Shares issued pursuant to such exercise or such grant or award:

> "The shares represented by this certificate have been taken for investment and they may not be sold or otherwise transferred by any person, including a pledgee, unless (1) either (a) a Registration Statement with respect to such shares shall be effective under the Securities Act of 1933, as amended, or (b) the Company shall have received an opinion of counsel satisfactory to it that an exemption from registration under such Act is then available, and (2) there shall have been compliance with all applicable state securities laws."

(b) At the discretion of the Administrator, the Company shall have received an opinion of its counsel that the Shares may be issued in compliance with the Securities Act without registration thereunder.

22. **DISSOLUTION OR LIQUIDATION OF THE COMPANY.**

Upon the dissolution or liquidation of the Company, all Options granted under this Plan which as of such date shall not have been exercised and all Stock Grants and Stock-Based Awards which have not been accepted, to the extent required under the applicable Agreement, will terminate and become null and void; provided, however, that if the rights of a Participant or a Participant's Survivors have not otherwise terminated and expired, the Participant or the Participant's Survivors will have the right immediately prior to such dissolution or liquidation to exercise or accept any Stock Right to the extent that the Stock Right is exercisable or subject to acceptance as of the date immediately prior to such dissolution or liquidation. Upon the dissolution or liquidation of the Company, any outstanding Stock-Based Awards shall immediately terminate unless otherwise determined by the Administrator or specifically provided in the applicable Agreement.

23. **ADJUSTMENTS.**

Upon the occurrence of any of the following events, a Participant's rights with respect to any Stock Right granted to him or her hereunder shall be adjusted as hereinafter provided, unless otherwise specifically provided in a Participant's respective Agreement:

(a) Stock Dividends and Stock Splits. If (i) the shares of Common Stock shall be subdivided or combined into a greater or smaller number of shares or if the Company shall issue any shares of Common Stock as a stock dividend on its outstanding Common Stock, or (ii) additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Common Stock, each Stock Right and the number of shares of Common Stock deliverable thereunder shall be appropriately increased or decreased proportionately, and appropriate adjustments shall be made including, in the exercise or purchase price per share, to reflect such events. The number of Shares subject to the limitations in Paragraph 3(a), 3(b) and 4(c) shall also be proportionately adjusted upon the occurrence of such events.

(b) Corporate Transactions. If the Company is to be consolidated with or acquired by another entity in a merger, consolidation, or sale of all or substantially all of the Company's assets other than a transaction to merely change the state of incorporation (a "Corporate Transaction"), the Administrator or the board of directors of any entity assuming the obligations of the Company hereunder (the "Successor Board"), shall, as to outstanding Options, either (i) make appropriate provision for the continuation of such Options by substituting on an equitable basis for the Shares then subject to such Options with the securities of any successor or acquiring entity; or (ii) upon written notice to the Participants, provide that such Options must be exercised (either (A) to the extent then exercisable or, (B) at the discretion of the Administrator, any such Options being made partially or fully exercisable for purposes of this Subparagraph), within a specified number of days of the date of such notice, at the end of which period such Options which have not been exercised shall terminate; or (iii) terminate such Options in exchange for payment of an amount equal to the (a) consideration or (b) securities of any successor or acquiring entity or any combination of (a) or (b) payable upon consummation of such Corporate Transaction to a holder of the same number of shares of Common Stock as the number of Shares into which such Option would have been exercisable (either (A) to the extent then exercisable or, (B) at the discretion of the Administrator, any such Options being made partially or fully exercisable for purposes of this Subparagraph) less the aggregate exercise price thereof. For purposes of determining the payments to be made pursuant to Subclause (iii) above, in the case of a Corporate Transaction the consideration for which, in whole or in part, is other than cash, the consideration other than cash shall be valued at the fair value thereof as determined in good faith by the Board of Directors.

With respect to outstanding Stock Grants and Stock-Based Awards, the Administrator or the Successor Board, shall make appropriate provision for the continuation of such Stock Grants and Stock-Based Award on the same terms and conditions by substituting on an equitable basis for the Shares then subject to such Stock Grants or Stock-Based Award with the securities of any successor or acquiring entity. In lieu of the foregoing, in connection with any Corporate Transaction, the Administrator may provide that, upon consummation of the Corporate Transaction, each outstanding Stock Grant or Stock-Based Award shall be terminated in

exchange for payment of an amount equal to the (a) consideration or (b) securities of any successor or acquiring entity or any combination of (a) or (b) payable upon consummation of such Corporate Transaction to a holder of the same number of shares of Common Stock as the number of Shares then subject to such Stock Grant or Stock-Based Award (to the extent such Stock Grant or Stock-Based Award is no longer subject to any forfeiture or repurchase rights then in effect or, at the discretion of the Administrator, all forfeiture and repurchase rights being waived upon such Corporate Transaction) less the purchase price thereof, if any.

In taking any of the actions permitted under this Paragraph 23(b), the Administrator shall not be obligated by the Plan to treat all Stock Rights, all Stock Rights held by a Participant, or all Stock Rights of the same type, identically, as long as in compliance with terms under this Paragraph 23(b).

(c) Recapitalization or Reorganization. In the event of a recapitalization or reorganization of the Company other than a Corporate Transaction pursuant to which securities of the Company or of another corporation are issued with respect to the outstanding shares of Common Stock, a Participant upon exercising an Option or accepting a Stock Grant after the recapitalization or reorganization shall be entitled to receive for the price paid upon such exercise or acceptance if any, the number of replacement securities which would have been received if such Option had been exercised.

(d) Adjustments to Stock-Based Awards. Upon the happening of any of the events described in Subparagraphs (a), (b) or (c) above, any outstanding Stock-Based Award shall be appropriately adjusted to reflect the events described in such Subparagraphs. The Administrator or the Successor Board shall determine the specific adjustments to be made under this Paragraph 24, including, but not limited to the effect of any, Corporate Transaction and, subject to Paragraph 4, its determination shall be conclusive.

(e) Modification of Options. Notwithstanding the foregoing, any adjustments made pursuant to Subparagraph (a), (b) or (c) above with respect to Options shall be made only after the Administrator determines whether such adjustments would (i) constitute a “modification” of any ISOs (as that term is defined in Section 424(h) of the Code) or (ii) cause any adverse tax consequences for the holders of Options, including, but not limited to, pursuant to Section 409A of the Code. If the Administrator determines that such adjustments made with respect to Options would constitute a modification or other adverse tax consequence, it may refrain from making such adjustments, unless the holder of an Option specifically agrees in writing that such adjustment be made and such writing indicates that the holder has full knowledge of the consequences of such “modification” on his or her income tax treatment with respect to the Option. This paragraph shall not apply to the acceleration of the vesting of any ISO that would cause any portion of the ISO to violate the annual vesting limitation contained in Section 422(d) of the Code, as described in Paragraph 6(b)(iv).

24. **ISSUANCES OF SECURITIES.**

Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no

adjustment by reason thereof shall be made with respect to, the number or price of shares subject to Stock Rights. Except as expressly provided herein, no adjustments shall be made for dividends paid in cash or in property (including without limitation, securities) of the Company prior to any issuance of Shares pursuant to a Stock Right.

25. **FRACTIONAL SHARES.**

No fractional shares shall be issued under the Plan and the person exercising a Stock Right shall receive from the Company cash in lieu of such fractional shares equal to the Fair Market Value thereof.

26. **CONVERSION OF ISOS INTO NON-QUALIFIED OPTIONS; TERMINATION OF ISOS.**

The Administrator, at the written request of any Participant, may in its discretion take such actions as may be necessary to convert such Participant's ISOs (or any portions thereof) that have not been exercised on the date of conversion into Non-Qualified Options at any time prior to the expiration of such ISOs, regardless of whether the Participant is an Employee of the Company or an Affiliate at the time of such conversion. At the time of such conversion, the Administrator (with the consent of the Participant) may impose such conditions on the exercise of the resulting Non-Qualified Options as the Administrator in its discretion may determine, provided that such conditions shall not be inconsistent with this Plan. Nothing in the Plan shall be deemed to give any Participant the right to have such Participant's ISOs converted into Non-Qualified Options, and no such conversion shall occur until and unless the Administrator takes appropriate action. The Administrator, with the consent of the Participant, may also terminate any portion of any ISO that has not been exercised at the time of such conversion.

27. **WITHHOLDING.**

In the event that any federal, state, or local income taxes, employment taxes, Federal Insurance Contributions Act ("F.I.C.A.") withholdings or other amounts are required by applicable law or governmental regulation to be withheld from the Participant's salary, wages or other remuneration in connection with the issuance of a Stock Right or Shares under the Plan or for any other reason required by law, the Company may withhold from the Participant's compensation, if any, or may require that the Participant advance in cash to the Company, or to any Affiliate of the Company which employs or employed the Participant, the statutory minimum amount of such withholdings unless a different withholding arrangement, including the use of shares of the Company's Common Stock or a promissory note, is authorized by the Administrator (and permitted by law). For purposes hereof, the fair market value of the shares withheld for purposes of payroll withholding shall be determined in the manner set forth under the definition of Fair Market Value provided in Paragraph 1 above, as of the most recent practicable date prior to the date of exercise. If the Fair Market Value of the shares withheld is less than the amount of payroll withholdings required, the Participant may be required to advance the difference in cash to the Company or the Affiliate employer. The Administrator in its discretion may condition the exercise of an Option for less than the then Fair Market Value on the Participant's payment of such additional withholding.

28. **NOTICE TO COMPANY OF DISQUALIFYING DISPOSITION.**

Each Employee who receives an ISO must agree to notify the Company in writing immediately after the Employee makes a Disqualifying Disposition of any Shares acquired pursuant to the exercise of an ISO. A Disqualifying Disposition is defined in Section 424(c) of the Code and includes any disposition (including any sale or gift) of such Shares before the later of (a) two years after the date the Employee was granted the ISO, or (b) one year after the date the Employee acquired Shares by exercising the ISO, except as otherwise provided in Section 424(c) of the Code. If the Employee has died before such Shares are sold, these holding period requirements do not apply and no Disqualifying Disposition can occur thereafter.

29. **TERMINATION OF THE PLAN.**

The Plan will terminate on December 17, 2024, the date which is ten years from the earlier of the date of its adoption by the Board of Directors and the date of its approval by the stockholders of the Company. The Plan may be terminated at an earlier date by vote of the stockholders or the Board of Directors of the Company; provided, however, that any such earlier termination shall not affect any Agreements executed prior to the effective date of such termination. Termination of the Plan shall not affect any Stock Rights theretofore granted.

30. **AMENDMENT OF THE PLAN AND AGREEMENTS.**

The Plan may be amended by the Administrator, including, without limitation, to the extent necessary to qualify any or all outstanding Stock Rights granted under the Plan or Stock Rights to be granted under the Plan for favorable federal income tax treatment as may be afforded incentive stock options under Section 422 of the Code (including deferral of taxation upon exercise), and to the extent necessary to qualify the Shares issuable under the Plan for listing on any national securities exchange or quotation in any national automated quotation system of securities dealers. Any amendment approved by the Administrator which the Administrator determines is of a scope that requires stockholder approval shall be subject to obtaining such stockholder approval. Any modification or amendment of the Plan shall not, without the consent of a Participant, adversely affect his or her rights under a Stock Right previously granted to him or her. With the consent of the Participant affected, the Administrator may amend outstanding Agreements referred herein in a manner which may be adverse to the Participant but which is not inconsistent with the Plan. In the discretion of the Administrator, outstanding Agreements referred herein may be amended by the Administrator in a manner which is not adverse to the Participant.

31. **EMPLOYMENT OR OTHER RELATIONSHIP.**

Nothing in this Plan or any Agreement referred herein shall be deemed to prevent the Company or an Affiliate from terminating the employment, consultancy or director status of a Participant, nor to prevent a Participant from terminating his or her own employment, consultancy or director status or to give any Participant a right to be retained in employment or other service by the Company or any Affiliate for any period of time.

32. **GOVERNING LAW.**

This Plan shall be construed and enforced in accordance with the law of the State of Nevada, without giving effect to the conflict of law principles thereof.

STOCK OPTION AGREEMENT - INCORPORATED TERMS AND CONDITIONS

AGREEMENT made as of the date of grant set forth in the Stock Option Grant Notice by and between Pieris Pharmaceuticals, Inc. (the "Company"), a Nevada corporation, and the individual whose name appears on the Stock Option Grant Notice (the "Participant").

WHEREAS, the Company desires to grant to the Participant an Option to purchase shares of its common stock, $0.001 par value per share (the "Shares"), under and for the purposes set forth in the Company's 2014 Employee, Director and Consultant Equity Incentive Plan (the "Plan");

WHEREAS, the Company and the Participant understand and agree that any terms used and not defined herein have the same meanings as in the Plan; and

WHEREAS, the Company and the Participant each intend that the Option granted herein shall be of the type set forth in the Stock Option Grant Notice.

NOW, THEREFORE, in consideration of the mutual covenants hereinafter set forth and for other good and valuable consideration, the parties hereto agree as follows:

1. GRANT OF OPTION.

The Company hereby grants to the Participant the right and option to purchase all or any part of an aggregate of the number of Shares set forth in the Stock Option Grant Notice, on the terms and conditions and subject to all the limitations set forth herein, under United States securities and tax laws, and in the Plan, which is incorporated herein by reference. The Participant acknowledges receipt of a copy of the Plan.

2. EXERCISE PRICE.

The exercise price of the Shares covered by the Option shall be the amount per Share set forth in the Stock Option Grant Notice, subject to adjustment, as provided in the Plan, in the event of a stock split, reverse stock split or other events affecting the holders of Shares after the date hereof (the "Exercise Price"). Payment shall be made in accordance with Paragraph 9 of the Plan.

3. EXERCISABILITY OF OPTION.

Subject to the terms and conditions set forth in this Agreement and the Plan, the Option granted hereby shall become vested and exercisable as set forth in the Stock Option Grant Notice and is subject to the other terms and conditions of this Agreement and the Plan.

4. TERM OF OPTION.

This Option shall terminate on the Option Expiration Date as specified in the Stock Option Grant Notice and, if this Option is designated in the Stock Option Grant Notice as an ISO and the Participant owns as of the date hereof more than 10% of the total combined voting power of all classes of capital stock of the Company or an Affiliate, such date may not be more than five years from the date of this Agreement, but shall be subject to earlier termination as provided herein or in the Plan.

If the Participant ceases to be an Employee, director or Consultant of the Company or of an Affiliate for any reason other than the death or Disability of the Participant, or termination of the Participant for Cause (the "Termination Date"), the Option to the extent then vested and exercisable pursuant to Section 3 hereof as of the Termination Date, and not previously terminated in accordance with this Agreement, may be exercised within three months after the Termination Date, or on or prior to the Option Expiration Date as specified in the Stock Option Grant Notice, whichever is earlier, but may not be exercised thereafter except as set forth below. In such event, the unvested portion of the Option shall not be exercisable and shall expire and be cancelled on the Termination Date.

If this Option is designated in the Stock Option Grant Notice as an ISO and the Participant ceases to be an Employee of the Company or of an Affiliate but continues after termination of employment to provide service to the Company or an Affiliate as a director or Consultant, this Option shall continue to vest in accordance with Section 3 above as if this Option had not terminated until the Participant is no longer providing services to the Company. In such case, this Option shall automatically convert and be deemed a Non-Qualified Option as of the date that is three months from termination of the Participant's employment and this Option shall continue on the same terms and conditions set forth herein until such Participant is no longer providing service to the Company or an Affiliate.

Notwithstanding the foregoing, in the event of the Participant's Disability or death within three months after the Termination Date, the Participant or the Participant's Survivors may exercise the Option within one year after the Termination Date, but in no event after the Option Expiration Date as specified in the Stock Option Grant Notice.

In the event the Participant's service is terminated by the Company or an Affiliate for Cause, the Participant's right to exercise any unexercised portion of this Option even if vested shall cease immediately as of the time the Participant is notified his or her service is terminated for Cause, and this Option shall thereupon terminate. Notwithstanding anything herein to the contrary, if subsequent to the Participant's termination, but prior to the exercise of the Option, the Administrator determines that, either prior or subsequent to the Participant's termination, the Participant engaged in conduct which would constitute Cause, then the Participant shall immediately cease to have any right to exercise the Option and this Option shall thereupon terminate.

In the event of the Disability of the Participant, as determined in accordance with the Plan, the Option shall be exercisable within one year after the Participant's termination of service due to Disability or, if earlier, on or prior to the Option Expiration Date as specified in the Stock Option Grant Notice. In such event, the Option shall be exercisable:

(a) to the extent that the Option has become exercisable but has not been exercised as of the date of the Participant's termination of service due to Disability; and

(b) in the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of the Participant's termination of service due to Disability of any additional vesting rights that would have accrued on the next vesting date had the Participant not become Disabled. The proration shall be based upon the number of days accrued in the current vesting period prior to the date of the Participant's termination of service due to Disability.

In the event of the death of the Participant while an Employee, director or Consultant of the Company or of an Affiliate, the Option shall be exercisable by the Participant's Survivors within one year after the date of death of the Participant or, if earlier, on or prior to the Option Expiration Date as specified in the Stock Option Grant Notice. In such event, the Option shall be exercisable:

(x) to the extent that the Option has become exercisable but has not been exercised as of the date of death; and

(y) in the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of death of any additional vesting rights that would have accrued on the next vesting date had the Participant not died. The proration shall be based upon the number of days accrued in the current vesting period prior to the Participant's date of death.

5. METHOD OF EXERCISING OPTION.

Subject to the terms and conditions of this Agreement, the Option may be exercised by written notice to the Company or its designee, in substantially the form of Exhibit A attached hereto (or in such other form acceptable to the Company, which may include electronic notice). Such notice shall state the number of Shares with respect to which the Option is being exercised and shall be signed by the person exercising the Option (which signature may be provided electronically in a form acceptable to the Company). Payment of the Exercise Price for such Shares shall be made in accordance with Paragraph 9 of the Plan. The Company shall deliver such Shares as soon as practicable after the notice shall be received, provided, however, that the Company may delay issuance of such Shares until completion of any action or obtaining of any consent, which the Company deems necessary under any applicable law (including, without limitation, state securities or "blue sky" laws). The Shares as to which the Option shall have been so exercised shall be registered in the Company's share register in the name of the person so exercising the Option (or, if the Option shall be exercised by the Participant and if the Participant shall so request in the notice exercising the Option, shall be registered in the

Company's share register in the name of the Participant and another person jointly, with right of survivorship) and shall be delivered as provided above to or upon the written order of the person exercising the Option. In the event the Option shall be exercised, pursuant to Section 4 hereof, by any person other than the Participant, such notice shall be accompanied by appropriate proof of the right of such person to exercise the Option. All Shares that shall be purchased upon the exercise of the Option as provided herein shall be fully paid and nonassessable.

6. PARTIAL EXERCISE.

Exercise of this Option to the extent above stated may be made in part at any time and from time to time within the above limits, except that no fractional share shall be issued pursuant to this Option.

7. NON-ASSIGNABILITY.

The Option shall not be transferable by the Participant otherwise than by will or by the laws of descent and distribution. If this Option is a Non-Qualified Option then it may also be transferred pursuant to a qualified domestic relations order as defined by the Code or Title I of the Employee Retirement Income Security Act or the rules thereunder. Except as provided above in this paragraph, the Option shall be exercisable, during the Participant's lifetime, only by the Participant (or, in the event of legal incapacity or incompetency, by the Participant's guardian or representative) and shall not be assigned, pledged or hypothecated in any way (whether by operation of law or otherwise) and shall not be subject to execution, attachment or similar process. Any attempted transfer, assignment, pledge, hypothecation or other disposition of the Option or of any rights granted hereunder contrary to the provisions of this Section 7, or the levy of any attachment or similar process upon the Option shall be null and void.

8. NO RIGHTS AS STOCKHOLDER UNTIL EXERCISE.

The Participant shall have no rights as a stockholder with respect to Shares subject to this Agreement until registration of the Shares in the Company's share register in the name of the Participant. Except as is expressly provided in the Plan with respect to certain changes in the capitalization of the Company, no adjustment shall be made for dividends or similar rights for which the record date is prior to the date of such registration.

9. ADJUSTMENTS.

The Plan contains provisions covering the treatment of Options in a number of contingencies such as stock splits and mergers. Provisions in the Plan for adjustment with respect to stock subject to Options and the related provisions with respect to successors to the business of the Company are hereby made applicable hereunder and are incorporated herein by reference**.**

10. TAXES.

The Participant acknowledges that any income or other taxes due from him or her with respect to this Option or the Shares issuable pursuant to this Option shall be the Participant's responsibility. The Participant acknowledges and agrees that (i) the Participant was free to use professional advisors of his or her choice in connection with this Agreement, has received advice from his or her professional advisors in connection with this Agreement, understands its meaning and import, and is entering into this Agreement freely and without coercion or duress; (ii) the Participant has not received and is not relying upon any advice, representations or assurances made by or on behalf of the Company or any Affiliate or any employee of or counsel to the Company or any Affiliate regarding any tax or other effects or implications of the Option, the Shares or other matters contemplated by this Agreement; and (iii) neither the Administrator, the Company, its Affiliates, nor any of its officers or directors, shall be held liable for any applicable costs, taxes, or penalties associated with the Option if, in fact, the Internal Revenue Service were to determine that the Option constitutes deferred compensation under Section 409A of the Code.

If this Option is designated in the Stock Option Grant Notice as a Non-Qualified Option or if the Option is an ISO and is converted into a Non-Qualified Option and such Non-Qualified Option is exercised, the Participant agrees that the Company may withhold from the Participant's remuneration, if any, the minimum statutory amount of federal, state and local withholding taxes attributable to such amount that is considered compensation includable in such person's gross income. At the Company's discretion, the amount required to be withheld may be withheld in cash from such remuneration, or in kind from the Shares otherwise deliverable to the Participant on exercise of the Option. The Participant further agrees that, if the Company does not withhold an amount from the Participant's remuneration sufficient to satisfy the Company's income tax withholding obligation, the Participant will reimburse the Company on demand, in cash, for the amount under-withheld.

11. PURCHASE FOR INVESTMENT.

Unless the offering and sale of the Shares to be issued upon the particular exercise of the Option shall have been effectively registered under the Securities Act, the Company shall be under no obligation to issue the Shares covered by such exercise unless the Company has determined that such exercise and issuance would be exempt from the registration requirements of the Securities Act and until the following conditions have been fulfilled:

(a) The person(s) who exercise the Option shall warrant to the Company, at the time of such exercise, that such person(s) are acquiring such Shares for their own respective accounts, for investment, and not with a view to, or for sale in connection with, the distribution of any such Shares, in which event the person(s) acquiring such Shares shall be bound by the provisions of the following legend which shall be endorsed upon any certificate(s) evidencing the Shares issued pursuant to such exercise:

"The shares represented by this certificate have been taken for investment and they may not be sold or otherwise transferred by any person, including a pledgee, unless (1) either (a) a Registration Statement with respect to such shares shall be effective under the Securities Act of 1933, as amended, or (b) the Company shall have received an opinion of counsel satisfactory to it that an exemption from registration under such Act is then available, and (2) there shall have been compliance with all applicable state securities laws;" and

(b) If the Company so requires, the Company shall have received an opinion of its counsel that the Shares may be issued upon such particular exercise in compliance with the Securities Act without registration thereunder. Without limiting the generality of the foregoing, the Company may delay issuance of the Shares until completion of any action or obtaining of any consent, which the Company deems necessary under any applicable law (including without limitation state securities or "blue sky" laws).

12. RESTRICTIONS ON TRANSFER OF SHARES.

12.1 The Participant agrees that in the event the Company proposes to offer for sale to the public any of its equity securities and such Participant is requested by the Company and any underwriter engaged by the Company in connection with such offering to sign an agreement restricting the sale or other transfer of Shares, then it will promptly sign such agreement and will not transfer, whether in privately negotiated transactions or to the public in open market transactions or otherwise, any Shares or other securities of the Company held by him or her during such period as is determined by the Company and the underwriters, not to exceed 180 days following the closing of the offering, plus such additional period of time as may be required to comply with Marketplace Rule 2711 of the National Association of Securities Dealers, Inc. or similar rules thereto (such period, the "Lock-Up Period"). Such agreement shall be in writing and in form and substance reasonably satisfactory to the Company and such underwriter and pursuant to customary and prevailing terms and conditions. Notwithstanding whether the Participant has signed such an agreement, the Company may impose stop-transfer instructions with respect to the Shares or other securities of the Company subject to the foregoing restrictions until the end of the Lock-Up Period.

12.2 The Participant acknowledges and agrees that neither the Company, its stockholders nor its directors and officers, has any duty or obligation to disclose to the Participant any material information regarding the business of the Company or affecting the value of the Shares before, at the time of, or following a termination of the service of the Participant by the Company, including, without limitation, any information concerning plans for the Company to make a public offering of its securities or to be acquired by or merged with or into another firm or entity.

13. NO OBLIGATION TO MAINTAIN RELATIONSHIP.

The Participant acknowledges that: (i) the Company is not by the Plan or this Option obligated to continue the Participant as an employee, director or Consultant of the Company or an Affiliate; (ii) the Plan is discretionary in nature and may be suspended or terminated by the Company at any time; (iii) the grant of the Option is a one-time benefit which does not create any contractual or other right to receive future grants of options, or benefits in lieu of options; (iv) all determinations with respect to any such future grants, including, but not limited to, the times when options shall be granted, the number of shares subject to each option, the option price, and the time or times when each option shall be exercisable, will be at the sole discretion of the Company; (v) the Participant's participation in the Plan is voluntary; (vi) the value of the Option is an extraordinary item of compensation which is outside the scope of the Participant's employment or consulting contract, if any; and (vii) the Option is not part of normal or expected compensation for purposes of calculating any severance, resignation, redundancy, end of service payments, bonuses, long-service awards, pension or retirement benefits or similar payments.

14. IF OPTION IS INTENDED TO BE AN ISO.

If this Option is designated in the Stock Option Grant Notice as an ISO so that the Participant (or the Participant's Survivors) may qualify for the favorable tax treatment provided to holders of Options that meet the standards of Section 422 of the Code then any provision of this Agreement or the Plan which conflicts with the Code so that this Option would not be deemed an ISO is null and void and any ambiguities shall be resolved so that the Option qualifies as an ISO. The Participant should consult with the Participant's own tax advisors regarding the tax effects of the Option and the requirements necessary to obtain favorable tax treatment under Section 422 of the Code, including, but not limited to, holding period requirements.

Notwithstanding the foregoing, to the extent that the Option is designated in the Stock Option Grant Notice as an ISO and is not deemed to be an ISO pursuant to Section 422(d) of the Code because the aggregate Fair Market Value (determined as of the Date of Option Grant) of any of the Shares with respect to which this ISO is granted becomes exercisable for the first time during any calendar year in excess of $100,000, the portion of the Option representing such excess value shall be treated as a Non-Qualified Option and the Participant shall be deemed to have taxable income measured by the difference between the then Fair Market Value of the Shares received upon exercise and the price paid for such Shares pursuant to this Agreement.

Neither the Company nor any Affiliate shall have any liability to the Participant, or any other party, if the Option (or any part thereof) that is intended to be an ISO is not an ISO or for any action taken by the Administrator, including without limitation the conversion of an ISO to a Non-Qualified Option.

15. NOTICE TO COMPANY OF DISQUALIFYING DISPOSITION OF AN ISO.

If this Option is designated in the Stock Option Grant Notice as an ISO then the Participant agrees to notify the Company in writing immediately after the Participant makes a

Disqualifying Disposition of any of the Shares acquired pursuant to the exercise of the ISO. A Disqualifying Disposition is defined in Section 424(c) of the Code and includes any disposition (including any sale) of such Shares before the later of (a) two years after the date the Participant was granted the ISO or (b) one year after the date the Participant acquired Shares by exercising the ISO, except as otherwise provided in Section 424(c) of the Code. If the Participant has died before the Shares are sold, these holding period requirements do not apply and no Disqualifying Disposition can occur thereafter.

18. BENEFIT OF AGREEMENT.

This Agreement, together with the Plan, embodies the entire agreement and understanding between the parties hereto with respect to the subject matter hereof and supersedes all prior oral or written agreements and understandings relating to the subject matter hereof. No statement, representation, warranty, covenant or agreement not expressly set forth in this Agreement shall affect or be used to interpret, change or restrict, the express terms and provisions of this Agreement, provided, however, in any event, this Agreement shall be subject to and governed by the Plan.

20. MODIFICATIONS AND AMENDMENTS.

The terms and provisions of this Agreement may be modified or amended as provided in the Plan.

21. WAIVERS AND CONSENTS.

Except as provided in the Plan, the terms and provisions of this Agreement may be waived, or consent for the departure therefrom granted, only by written document executed by the party entitled to the benefits of such terms or provisions. No such waiver or consent shall be deemed to be or shall constitute a waiver or consent with respect to any other terms or provisions of this Agreement, whether or not similar. Each such waiver or consent shall be effective only in the specific instance and for the purpose for which it was given, and shall not constitute a continuing waiver or consent.

22. DATA PRIVACY.

By entering into this Agreement, the Participant: (i) authorizes the Company and each Affiliate, and any agent of the Company or any Affiliate administering the Plan or providing Plan recordkeeping services, to disclose to the Company or any of its Affiliates such information and data as the Company or any such Affiliate shall request in order to facilitate the grant of options and the administration of the Plan; and (ii) authorizes the Company and each Affiliate to store and transmit such information in electronic form for the purposes set forth in this Agreement.

3. CONDUCT OF THE COLLABORATION

3.1 The Parties will conduct the research described in the Research Plan (attached as Exhibit A) and as described below. The JDC may amend the Research Plan at any time, but may not (i) impose on a Party an obligation that is inconsistent with this Agreement, without that Party's consent, or (ii) amend the Research Plan in such a way that is inconsistent with Commercially Reasonable Efforts without the unanimous consent of all JDC representatives. The JDC may not amend this Agreement. Where there is a conflict between the Research Plan and this Agreement, the provisions of this Agreement will prevail.

3.2 The Parties will conduct all activities pursuant to this Agreement in compliance with all applicable good laboratory practices, good manufacturing practices, and all laws.

Pieris Responsibilities

3.3 Pieris will at its own expense

- **a)** Supply Allergan for evaluation purposes within the Allergan Field with i) [***]; and ii) [***] (provided that Pieris is not prohibited from supplying [***] under any agreement concluded with any third party); and

3.4 Pieris will modify [***] supplied pursuant to Section 3.3 [***] as specified in the Research Plan or as otherwise agreed to by the JDC, in return for which Allergan will pay all costs and expenses of Pieris for performing such research at an FTE rate of US Dollars [***] $[***]) per year and to reimburse to Pieris all third party costs incurred by Pieris in connection with any such research. Notwithstanding anything to the contrary in this Agreement (such as the provisions of Section 10.3), Allergan will have the exclusive right to make, have made, use, sell, offer for sale, and import such [***] within the Allergan Field, and Pieris [***]. 3.5 On Allergan's request, Pieris will use commercially reasonable efforts to provide to Allergan any Compounds that the JDC designates as Lead Compounds or Development Compounds, in the quantities and having the characteristics specified in the Research Plan, or in the quantities and having the characteristics as otherwise agreed to by the JDC, up to a maximum of [***] per Compound. Allergan will pay Pieris COGS [***] for all Compounds delivered to Allergan that Pieris has manufactured at its facilities.

3.6 Pieris may meet its obligations under the previous section (Section 3.5) by contracting with a third party for the manufacture of Compounds. Should Pieris do so, then (i) Allergan will pay Pieris the amount which Pieris owes to the third party in connection with the manufacture of the Compounds that Pieris supplies to Allergan (including any costs relating to any failed batch), and (ii) Allergan's rights and remedies, and Pieris' liability, with respect to such Compounds will be limited to the rights and remedies that Pieris has towards the third party manufacturer under its agreement with such manufacturer.

3.7 Pieris will not be obligated to carry out any [***] under the Research Plan or otherwise under this Agreement. For the avoidance of doubt, all obligations of Pieris pursuant to this Section 3 will end [***] years from the Effective Date.

5.2 Pieris grants to Allergan a non-exclusive license to use, for the purpose of researching, developing, making, having made, and selling Compounds in the Allergan Field, any Know-How that Pieris discloses to Allergan. For the avoidance of doubt, any such Know-How may not be used by Allergan or any of its employees in the Pieris Field.

5.3 Allergan may sublicense its rights under the preceding two sections (Sections 5.1 and 5.2) to any third party without Pieris's consent, provided that any such third party agrees in writing to be bound by the terms of this Agreement. No such sublicense will relieve Allergan of liability for its obligations to Pieris under this Agreement.

5.4 In the event that a) Pieris licenses a Pieris Patent from a third party, and b) the license would require Pieris to [***] for Allergan's manufacture, use, sale, or importation of Compounds, Lead Compounds, Development Compounds, Modified Compounds, or Licensed Products, if Pieris were to grant to Allergan a sublicense for such manufacture, use, sale, or importation; then [***]. If Allergan desires a sublicense, then [***] for Allergan's manufacture, use, sale or importation of Compounds, Lead Compounds, Development Compounds, Modified Compounds, and Licensed Products; [***].

5.5 For the avoidance of doubt, Pieris has no rights to make, use, sell, offer for sale or otherwise exploit any [***], and Pieris may not prevent Allergan from making, using, selling, offering for sale or otherwise exploiting any such [***] in any way that Allergan chooses.

6.2 Allergan will pay to Pieris [***] dollars [***] $[***] days of the date on which Allergan [***]. Allergan's [***] will not entitle Pieris to any additional payment under this section. In no event will Allergan pay to Pieris more than [***] dollars [***] $[***] under this section.

6.3 In the event that [***], then Allergan will pay to Pieris [***] dollars [***] $[***] within [***] of a) [***]; or b) [***], whichever occurs later. Only [***] – will entitle Pieris to a payment under this section. In no event will Allergan pay to Pieris more than [***] dollars [***] $[***]) under this section.

6.4 Allergan will pay to Pieris [***] dollars [***] $[***]) within [***] days of the date on which Allergan [***], after [***]. Allergan's [***] will not entitle Pieris to any additional payment under this section. In no event will Allergan pay to Pieris more than [***]dollars[***]$[***]) under this section.

6.5 In the event that [***], then Allergan will pay to Pieris an [***] dollars ($[***]) within [***] days of a) [***]; or b) [***], whichever occurs later. Only [***], will entitle Pieris to a payment under this section. For example, [***] on [***] and [***] on [***], then Allergan will pay to Pieris [***] dollars [***] $[***]) by [***]; if [***] on [***], then Allergan will pay to Pieris [***] ($[***]) by [***]. [***]. [***] dollars [***] $ [***].

6.6 The preceding five sections (Sections 6.1, 6.2, 6.3, 6.4, and 6.5) set forth the entirety of Allergan's monetary obligations to Pieris in connection with Allergan's manufacture, use, or sale of Licensed Products; no additional amounts will be due for Allergan's selling, offering for sale, manufacturing, or importing of Licensed Products. In no event will Allergan pay to Pieris more than twenty three million dollars ($23,000,000) under those sections.

6.7 All payments due under this Agreement are expressed in U.S. dollars. Allergan will pay Pieris by wire transfer to the bank and account it designates in writing to Allergan. In the event that withholding taxes apply under the laws of any jurisdiction, Allergan will be entitled to withhold from any payment due to Pieris under this Agreement any taxes that Allergan is required to pay, and such withholding will decrease by an equivalent amount the payment due to Pieris. Allergan will timely pay the amount of any taxes withheld to the proper governmental authority and provide Pieris with an official tax certificate or other evidence of tax obligation, together with proof of payment from the relevant governmental authority sufficient to enable Pieris to evidence such payment of taxes. Allergan will reasonably cooperate with Pieris in its attempts to reduce or be exempted from any taxes that Allergan withholds under this section.

7. TERM

7.1 This Agreement is effective as of the Effective Date and will continue until Allergan pays to Pieris twenty three million dollars ($23,000,000) under Sections 6.1 to 6.5. Thereafter, Allergan will have a fully paid-up, irrevocable license to exercise the rights conferred in Section 5 without further obligation to Pieris, and this Agreement will expire. Sections 1, 4, 5, 7.6, 8.5 - 8.10, 9, 10, 11, 13 and 14 will survive any such expiration of this Agreement.

7.2 Each Party may terminate this Agreement on written notice to the other Party if any of the following occurs:

a) the other Party files a petition in bankruptcy or the other Party is served with an involuntary petition in bankruptcy and the involuntary petition is not dismissed within [***] days; or

b) the other Party breaches any material term of this Agreement and does not cure the breach within [***]days for non-payment of any non-disputed sums) after receipt of written notice of the breach from the non-breaching Party. For the avoidance of doubt, non-compliance by Allergan with its obligations pursuant to Section 3.9 will constitute a breach of a material term of this Agreement.

7.3 Allergan may terminate this Agreement without cause on [***] days written notice to Pieris. Termination under this section will extinguish Allergan's obligation to make any payment under Section 6 with respect to any event that does not occur by the end of the [***]-day notice period.

7.4 Subject to Sections 7.5 - 7.7, 8.5, 8.6, 10.1 to 10.3, 10.11 to 10.14, 11, 13 and 14 which will survive any termination of this Agreement, all rights and obligations of either Party under this Agreement (including, without limitation, the licenses granted pursuant to Section 5 and the exclusivity obligations contained in Section 4) will terminate on the effective date of any termination of this Agreement.

7.5 Promptly after termination of this Agreement pursuant to Section 7.2 or 7.3, each Party will at the request of the other Party return or destroy any Confidential Information of the other Party in accordance with that Party's instructions, except that a Party may retain one copy of the information for archival purposes.

7.6 The termination or expiration of this Agreement, in whole or in part, will be without prejudice to (a) the right of Pieris to receive all amounts accrued hereunder prior to the effective date of such termination or expiration and (b) any other remedies as may now or hereafter be available to any Party, whether under this Agreement or otherwise.

7.7 In the event that Pieris terminates this Agreement under Section 7.2 or Allergan terminates this Agreement under Section 7.3, then Pieris (and any person to whom Pieris may license or transfer rights in any Compound, Lead Compound, Development Compound, Modified Compound or Licensed Product) will have the right to reference for no consideration any Data

submitted by Allergan to any regulatory authority to the extent reference to such Data is required for any regulatory filing in connection with the research, development or commercialization of that Compound, Lead Compound, Development Compound, Modified Compound or Licensed Product. This section does not obligate Allergan to continue or otherwise maintain any regulatory filings following termination of this Agreement, nor does it obligate Allergan to convey to Pieris any rights to any regulatory filing. Furthermore, in no event will Allergan be obligated to convey to Pieris any rights to any [***].

8. MAINTENANCE, REPORTING, AND REGULATORY SUPPORT

8.1 Within [***] days of the Effective Date, Pieris will disclose to Allergan all Know-How that Pieris owns or otherwise controls, provided that Pieris is not prohibited from disclosing such Know-How under any agreement concluded with any third party. Thereafter, and until the expiration of the [***] year following the Effective Date, Pieris will disclose to Allergan any additional Know-How that Pieris is allowed to disclose within a reasonable period of time after Pieris creates or otherwise acquires such Know-How. After the expiration of the [***] year following the Effective Date, Pieris will disclose to Allergan, on Allergan's reasonable request, any Know-How that may facilitate Allergan's development of Compounds, Development Compounds, or Licensed Products under this Agreement.

8.2 At least once per quarter, or as frequently as the JDC may otherwise determine, Pieris will provide Allergan with written reports setting forth a summary and interpretation of Data it obtains in performing research pursuant to this Agreement. The report will contain such other information as determined by the JDC.

8.3 Pieris will create and maintain complete and accurate written records of Data obtained under this Agreement, for as long as required under applicable law, or until the termination or expiration of this Agreement, whichever is longer, and will make such records available to Allergan for inspection and copying (at Allergan's expense) during regular business hours on reasonable advance notice.

8.4 Representatives of Allergan may, on reasonable notice and at times reasonably acceptable to Pieris, visit for any purpose determined by the JDC those facilities of Pieris where it conducts activities under this Agreement.

Ownership of Data

8.5 Pieris will solely own all Data it generates alone or generates jointly with Allergan relating to the synthesis, discovery, design or manufacture of Compounds, and will grant to Allergan an exclusive right to use such Data to research, develop, make, have made, and sell Compounds within the Allergan Field. Pieris will have the right to use such Data for any purpose outside the Allergan Field, provided that such use is not inconsistent with any other provision of this Agreement.

8.6 Notwithstanding Section 8.5, Allergan will solely own all Data it generates alone or generates jointly with Pieris relating to [***], or the combination of [***], and will grant to Pieris a non-exclusive right to use such Data for the purpose of conducting research pursuant to this Agreement. Subject to Section 10.12, Allergan will have the right to use the Data for any purpose.

Regulatory Rights and Cooperation Regarding Regulatory Matters

8.7 [***] will determine all regulatory plans and strategies for [***] in the Allergan Field (which plans and strategies will be in compliance with Section 3.9), and will [***] submit to and prosecute before Regulatory Authorities any matter with respect to Compounds, Lead Compounds, Development Compounds, Modified Compounds, and Licensed Products in the Allergan Field. Allergan will own all submissions to and approvals granted by Regulatory Authorities. Allergan will inform Pieris of any such submissions or approvals.

8.8 Notwithstanding any provision in this Agreement to the contrary, Allergan may disclose any Confidential Information to any Regulatory Authority.

8.9 The Parties will disclose to each other any information showing that any Development Compound or Licensed Product that the Parties are both developing or commercializing, in any field, are associated with any serious adverse event in any human. The Parties will disclose this information as soon as practical after acquiring it, and at most [***] days. In connection with humans, "serious adverse event" has the same meaning as that term in *International Conference on Harmonisation, Guideline for Industry, Clinical Safety Data Management: Definitions and Standards for Expedited Reporting* (March, 1995). Within a reasonable time, but no later than [***] months after the Effective Date, the Parties will negotiate an agreement establishing additional procedures for the exchange of such information.

8.10 [***] will make its employees and others working on its behalf reasonably available to consult with [***] and with any Regulatory Authority on any issue arising under this Agreement, [***].

9. MANUFACTURE OF COMPOUNDS

9.1 Allergan will have the right to manufacture or have a third party manufacture all of Allergan's requirements of Compounds for pre-clinical studies, clinical trials, and for commercial sale, without further obligation to Pieris. At Allergan's request, Pieris will reasonably assist Allergan, at Allergan's expense, in manufacturing or having manufactured the Compounds, including disclosing to Allergan or the third party such Know-How that is reasonably necessary to manufacture the Compound. If not already conveyed to Allergan under Section 5, Pieris will convey to Allergan such rights that Pieris owns or is able to license to Allergan (subject to Section 5.4) as are required for Allergan to manufacture the Compounds or have the third party manufacture them; such rights will include[***] in accordance with [***] set forth in that agreement, [***]. If Allergan wishes to [***]. The Parties agree that it is the goal of Pieris and Allergan that [***] in relation to the Compounds as soon as possible following the execution of this Agreement, and both Parties will cooperate to achieve such goal.

9.2 As a condition of any disclosure of Pieris Know-How from Allergan to a third party, the third party must agree to be bound by an agreement obligating it to maintain the Know-How in confidence under substantially the same terms as those set forth in Section 11 and not to use such Know-How for any purposes outside of the Allergan Field.

10. INTELLECTUAL PROPERTY

Ownership

10.1 Each Party will solely own any invention it solely invents. The Parties will jointly own any invention they jointly invent. Allergan will have the exclusive right to use and commercialize (including by way of license or transfer of rights) any joint invention in the Allergan Field, and Pieris will have the exclusive right to use and commercialize (including by way of license or transfer of rights) any joint invention in the field of [***]. In all other fields [***], no Party will be entitled to use or commercialize (including by way of license or transfer of rights) any joint invention without the consent of the other Party.

10.2 Notwithstanding the preceding section (Section 10.1), Allergan will solely own all inventions Allergan invents alone or jointly with Pieris relating to [***], whether [***] or other [***].

10.3 Subject to the restrictions applicable to Modified Compounds as set forth in Section 3.4, Allergan hereby grants to Pieris an exclusive license, with the right to sublicense, to make, have made, use, sell, offer for sale, and import in the field [***] all joint inventions relating to Compounds, Lead Compounds, Development Compounds, or Licensed Products or their respective synthesis, discovery, design, or manufacture [***]. A claim of any patent or patent application defining such inventions will be a "**Pieris Claim**."

10.4 Each Party will promptly disclose to the other Party any inventions that are jointly owned pursuant to Sections 10.1 and 10.2. In addition, each Party will ensure in its contracts with its employees, agents, consultants or contractors that the ownership rights set forth in Sections 10.1 and 10.2 be conferred on the other Party.

Prosecution

10.5 Pieris will be responsible for drafting, prosecuting, and maintaining (all of these activities will be referred to as **"Prosecuting"**), at its expense, the Pieris Patents.

10.6 Pieris will provide Allergan with copies of any documents received or prepared in connection with the Prosecution of the Pieris Patents which are material to Allergan's rights hereunder and will inform Allergan of the progress of it. Before filing in connection with the Prosecution of the Pieris Patents any document with a patent office which is material to Allergan's rights hereunder, Pieris will provide a copy of the document to Allergan sufficiently in advance of any deadline for filing it, and Pieris will give due consideration to any comments that Allergan may have. Pieris will moreover not unreasonably decline to file within the patent office of any country any claim or claim amendment (drafting a new application, if necessary) materially affecting Allergan's rights under this Agreement that Allergan reasonably requests Pieris to file (provided that Allergan will reimburse to Pieris all reasonable external costs incurred by Pieris as a result of such request, to the extent that such costs are incurred for the purpose of filing or

prosecuting claims covering inventions within the Allergan Field or, in relation to Modified Compounds only, covering claims within and outside of the Allergan Field), and Pieris will use commercially reasonable efforts to prosecute such claims to issuance. Allergan's request will be reasonable, and Pieris will have no reasonable grounds for declining it, if it relates to a Modified Compound, if it relates to the use (including, for example, the delivery) of a Compound in the Allergan Field, or if it relates to an application that Pieris has filed and there is support in the application for such claim (the foregoing is not an exhaustive list; there may be other requests that are reasonable), provided that the request complies with the terms of this Agreement (including Section 10.12). Any such claims will be regarded as Pieris Patents and be subject to the license granted to Allergan under Section 5 above. Pieris will not reasonably do or fail to do anything that will render any Pieris Patent unenforceable.

10.7 The Parties will confer regarding where to Prosecute the Pieris Patents, but, at a minimum and subject to Section 10.8, Pieris will Prosecute the Pieris Patents in [***]; Pieris will [***].

10.8 In the event that Pieris elects not to Prosecute in any country any Patent Right under the Pieris Patents, including an application containing a claim that Allergan reasonably requests Pieris to file under Section 10.6, Pieris will give Allergan at least [***] days notice before any relevant deadline and provide to Allergan all information reasonably relating to such Patent Right. Allergan will have the right, exercisable within [***] days of such notice, to take an assignment and to control the further Prosecution of such Patent Right, at Allergan's expense, provided that Pieris will retain a royalty-free, milestone-free, irrevocable, non-exclusive license (with the right to sub-license) to such Patent Right in the Pieris Field.

10.9 The Parties will confer regarding the desirability of seeking in any country any supplemental patent protection (e.g., such as that afforded by a supplemental patent certificate) or patent term extension in connection with any Pieris Patent or any Pieris Claim. Pieris will, however, not be obliged to seek Allergan's consent to apply or not to apply for any such extension or protection for any Pieris Patent and Allergan will not apply for any such extension or protection for any Pieris Patent without Pieris' prior written consent. Allergan may, however, apply for any patent term extension or supplemental patent protection for any Pieris Claim without Pieris's consent, and may request that Pieris apply for such extension or protection, in which case Pieris will do so, in return for which Allergan will reimburse to Pieris all reasonable external costs incurred by Pieris for the application.

10.10 Allergan may apply for any patent term extension or supplemental patent protection without Pieris's consent for any Pieris Patent specifically relating to a Modified Compound or its manufacture or use [***], and may request that Pieris apply for such extension or protection, in which case Pieris will do so, in return for which Allergan will reimburse to Pieris all reasonable external costs incurred by Pieris for the application, so long as such application (whether by Allergan or Pieris) does not preclude Pieris from obtaining for a Pieris Patent a patent term extension or supplemental patent protection with respect to a) [***] and [***]; or b) any Anticalin, other than a Modified Compound, that Pieris, whether by itself or through a third party (such as, e.g., a licensee), is testing in a human clinical trial or is selling to the public.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

10.11 Allergan will be responsible for Prosecuting, at its expense, Patent Rights claiming joint inventions. Allergan will provide Pieris with copies of any documents received or prepared in connection with the Prosecution of the Patent Rights claiming joint inventions and will inform Pieris of the progress of it. Before filing any document with a patent office in connection with the Prosecution of such Patent Rights, Allergan will provide a copy of the document to Pieris sufficiently in advance of any deadline for filing it, and Allergan will give due consideration to any comments that Pieris may have. The foregoing notwithstanding, Allergan will not reasonably do or fail to do anything that will render any such Patent Rights unenforceable.

10.12 Notwithstanding Section 10.11, Allergan will not be entitled to use any Data for the purposes of or in connection with any patent application which includes patent claims outside of the Allergan Field.

10.13 In the event that Allergan elects not to Prosecute in any country any Patent Rights claiming joint inventions, Allergan will give Pieris [***] days notice before any relevant deadline and provide to Pieris all information reasonably relating to Patent Rights. Pieris will have the right, exercisable within [***] days of such notice, to take an assignment and to control the further Prosecution of such Patent Right, at Pieris' expense, provided that (i) Allergan will retain a royalty-free, milestone-free, irrevocable, non-exclusive license (with the right to sub-license) to such Patent Right in the Allergan Field and (ii) such Patent Right will be regarded as "Pieris Claim" for the purposes of Section 6.

10.14 Each Party will, and will cause its employees, agents, consultants and contractors to, execute such documents and take such other actions as reasonably necessary or appropriate to enable the other Party to document its ownership in, or Prosecute, Patent Rights in accordance with the provisions of this Section 10.

Infringement by Third Parties

10.15 The Parties will promptly notify each other of any actual or threatened infringement of the Pieris Patents and of any Pieris Claims solely owned by Pieris or jointly owned by the Parties.

10.16 Allergan will have the exclusive right to bring and control, at its expense, any proceeding before any government or private tribunal ("**Infringement Action**") to remedy the infringement of any Pieris Patent or Pieris Claim in the Allergan Field. Pieris will have the right, at its own expense and by counsel of its choice, to be represented in any such action. Allergan will be entitled to [***] of any recovery realized as a result of any such Infringement Action ([***]).

10.17 Pieris will have the exclusive right to bring and control, at its expense, any Infringement Action to remedy the infringement of any Pieris Patent or Pieris Claim in the Pieris Field. Allergan will have the right, at its own expense and by counsel of its choice, to be represented in any such action. Pieris will be entitled to [***] of any recovery realized as a result of any such Infringement Action ([***]).

Infringement of Third-Party Rights

10.18 The Parties will promptly notify each other of any allegation that any activity pursuant to this Agreement infringes or may infringe the intellectual property rights of any third party.

10.19 In any allegation that the manufacture or sale of Licensed Products infringes an intellectual property right, Allergan will have the exclusive right to control, at its expense, the defense of any claim involving such allegation.

10.20 The Parties will cooperate in all respects with one another in prosecuting or defending any action pursuant to this section.

11. CONFIDENTIALITY AND PUBLICATION

Where the payments due to Pieris are being converted from a currency other than Euro, conversion of Net Sales recorded in local currencies to Euros shall be performed in a manner consistent with Sanofi normal practices used to prepare its audited financial statements for internal and external reporting purposes, which uses a widely accepted source of published exchange rates. All payments will be made without deduction of exchange, collection or other charges. If by law, regulation or policy of a particular country, a remittance of royalties in the currency stipulated in Section 5.10.1 above is restricted or forbidden, notice thereof will be promptly given to Pieris, and payment of the royalty shall be made by the deposit thereof in local currency to the credit of Pieris in a recognized banking institution designated by Pieris or its Affiliates. When in any country a law or regulation that prohibits both the transmittal and deposit of such payments ceases to be in effect, all royalties or other sums that Sanofi would have been under obligation to transmit or deposit but for the prohibition, shall forthwith be deposited or transmitted promptly to the extent allowable.

5.10.3 Taxes. All payments shall be made free and clear of and without deduction or deferment in respect of any disputes or claims whatsoever and/or as far as is legally possible in respect of any taxes imposed by or under the authority of any government or public authority. Any tax (other than VAT) which Sanofi is required to pay or withhold with respect to the payments to be made to Pieris hereunder shall be deducted from the amount otherwise due provided that, in regard to any such deduction, Sanofi shall cooperate with respect to all documentation that may be required by any revenue authority and other revenue services, as may reasonably be necessary to enable Pieris to claim exemption therefrom or obtain a repayment thereof or a reduction thereof and shall upon request provide such additional documentation from time to time as is needed to confirm the payment of tax. In particular, at the request of Pieris, Sanofi shall forward to Pieris relevant application forms, which Pieris shall return to Sanofi duly filled and signed before the date when a payment is due. (b) prior to any such examination taking place, such firm of accountants shall undertake to Sanofi that they shall keep all information and data contained in such books and records, strictly confidential and shall not disclose such information or copies of such books and records to any third person including Pieris, but shall only use the same for the purpose of calculations which they need to perform in order to issue the certificate to which this Section envisages;

(c) any such access examination and certification shall occur no more than [***];

(d) the relevant Sanofi Party shall make available personnel to answer queries on all books and records required for the purpose of that certification;

(e) any amount shown by the accountant to be owed but overpaid or underpaid and in need of reimbursement shall be paid or refunded (as the case may be) within [***] days from receipt of the corresponding invoice from the Party to which money is due pursuant to the accountant report, and

(f) the cost of the accountant (including reasonable attorneys' fees of Pieris, if applicable) shall be the responsibility of Sanofi if the certification shows it to have underpaid monies to Pieris by more than [***] and the responsibility of Pieris otherwise.

5.10.5 VAT. All payments due to Pieris under the terms of this Agreement are expressed to be exclusive of value added tax (VAT) howsoever arising. If Pieris is required to charge VAT on any such payment, due to German or EU VAT regulations, Pieris will notify Sanofi beforehand. If having used all commercially reasonable endeavors Sanofi is not able to reclaim the VAT (in whole or in part) the Parties agree that the amount of any VAT payable will be shared between them equally.

For the avoidance of doubt, such Patent Rights owned by Sanofi pursuant to this sub-section 6.4.3(a)(iii) shall thereafter be considered as Sanofi Patent Rights (and Sanofi Valid Patent Claims, as the case may be).

(iv) Unless otherwise agreed between the Parties, Sanofi shall have the first right (but not the obligation), at its sole expense, to control the

preparation, filing, prosecution and maintenance of all Patent Rights relating to Sanofi Foreground IP. With respect to such patent applications or patents, sub-sections (ii) and (iii) shall apply reciprocally *mutatis mutandis*.

(b) Enforcement Within Scope of Exclusive License.

(i) Sanofi shall have the first right (but not the obligation), at its sole expense and sole discretion, to control the enforcement or defense of Pieris Foreground IP and Sanofi Foreground IP, so long as Sanofi owns, or possesses a license under Section 6.3 under the respective Pieris Foreground IP and Sanofi Foreground IP. Prior to undertaking any such action to enforce such Patent Rights, Sanofi shall notify Pieris in writing. The Parties shall reasonably cooperate with each other in the planning and execution of any such action to enforce such Patent Rights (including the obligation to be named or joined as a party in a lawsuit, as applicable), provided that Sanofi shall reimburse to Pieris all costs incurred by Pieris in connection with such enforcement action. All monies recovered upon the final judgment or settlement of any such suit or action to enforce such Patent Rights shall be applied in the following order of priority: (x) first, the Parties shall be reimbursed for all costs incurred in connection with such suit or action paid by the Parties and not otherwise recovered; and (y) thereafter, any remainder shall be shared between the Parties as follows: [***] percent ([***]%) to Sanofi and [***] percent ([***]%) to Pieris. In the event that Sanofi does not wish to enforce such Patent Rights against such a potential infringer, then Sanofi shall deliver prompt written notice thereof to Pieris. For the avoidance of doubt, [***].

(ii) In the event that Sanofi delivers to Pieris written notice described in the previous paragraph that Sanofi does not wish to enforce such Patent Rights against such a potential infringer, then Pieris shall have the option to assume the right (but not the obligation), at its sole expense and sole discretion, to control such enforcement of such Patent Rights against such infringer. If Pieris timely exercises such option, then (x) Pieris shall thereafter assume the rights and obligations attributed to Sanofi under the preceding paragraph, and (y) Sanofi shall thereafter assume the rights and obligations attributed to Pieris under the preceding paragraph.

6.4.4 Notice to Pieris Regarding Licensed Products. Upon request by Pieris (which shall be permitted no more than once per calendar year), Sanofi shall inform Pieris about the status of its preparation, filing, prosecution and maintenance of Patent Rights of any Sanofi Party relating to the Licensed Product(s).

6.4.5 Cooperation. Each Party agrees to cooperate with, and perform such lawful acts and execute such documents in order to reasonably assist, the other Party with respect to the preparation, filing, prosecution, defense, enforcement and maintenance of Patent Rights pursuant to this Section 6.4. Furthermore, the Parties shall cooperate with each other in gaining patent term extensions wherever applicable to any of the Foreground IP.

SECTION 7

7.1.2 [***] Program Exclusivity. In addition, and to the extent permitted by applicable law, with respect to [***] Programs [***], Pieris shall not pursue any research or development activities for its own benefit or with or for the benefit of any Third Party, nor grant any rights to any Third Party, in relation to any Anticalin [***] (i) [***]to which [***] Program relates or (ii) [***]. The obligation of this Section 7.1.2 shall apply from the initiation of Phase A of the relevant [***] Program until the earlier of (i) the termination of such I[***] Program, (ii) Sanofi's decision not to enter into Phase B of such [***] Program, and (iii) [***] months from the decision by Sanofi to enter into Phase B with respect to such [***] Program.

7.1.3 [***]. To the extent permitted by applicable law, during the Program Term of any Program, Pieris shall not pursue any research or development activities for its own benefit or with or for the benefit of any Third Party, nor grant any rights to any Third Party, [***].

7.1.4 [***]. To the extent [***], to the extent [***].

7.2 Injunctive Relief. Pieris acknowledges that money damages alone would not adequately compensate Sanofi in the event of any breach by Pieris of Section 7.1, and that, in addition to all other remedies available to Sanofi under this Agreement or at law, Sanofi shall be entitled to seek injunctive relief for the enforcement of its rights under Section 7.1.

SECTION 8
CONFIDENTIALITY AND PUBLICITY

8.1 Confidential Information. During the term of this Agreement and for a period of [***]years after any termination or expiration thereof, each Party agrees to keep in confidence and not to disclose to any Third Party, or use for any purpose, except pursuant to, and in order to carry out, the terms and objectives of this Agreement, any Confidential Information of the other Party. As used herein, "Confidential Information" shall mean all trade secrets or confidential or proprietary information designated as such in writing by the disclosing Party, whether by letter or by the use of an appropriate stamp or legend, prior to or at the time any such trade secret or confidential or proprietary information is disclosed by the disclosing Party to the receiving Party. Notwithstanding the foregoing, information which is orally or visually disclosed to the receiving Party by the disclosing Party, or is disclosed in writing without an appropriate letter, stamp or legend, shall constitute Confidential Information if (i) it would be obvious to a reasonable person, familiar with the disclosing Party's activities and the industry in which it operates, that such information is of a confidential or proprietary nature, or if (ii) the disclosing Party, within [***] days after such disclosure, delivers to the receiving Party a written document or documents describing such information and referencing the place and date of such oral, visual or written disclosure and, if possible, the names of the employees or officers of the receiving Party to whom such disclosure was made. The restrictions on the disclosure and use of Confidential Information set forth in the first sentence of this Section 8.1 shall not apply to any Confidential Information that:

(a) was known by the receiving Party (or any of its Affiliates) prior to disclosure by the disclosing Party hereunder (as evidenced by the receiving Party's written records); or

(b) becomes part of the public domain through no fault of the receiving Party; or

(c) is disclosed to the receiving Party (or any of its Affiliates) by a Third Party having a legal right to make such a disclosure without violating any confidentiality or non-use obligation that such Third Party has to the disclosing Party; or

(d) is independently developed by the receiving Party (or any of its Affiliates) (as evidenced by the receiving Party's written records).

Notwithstanding the obligations of confidentiality and non-use set forth above, a receiving Party may provide Confidential Information disclosed to it to (i) governmental or other Regulatory Authorities in order to obtain, maintain or defend patents or to gain or maintain approval to conduct clinical studies or to otherwise develop, manufacture or commercialize a Licensed Product; provided, that such disclosure shall be subject to the prior written consent of the Party whose Confidential Information is intended to be disclosed (which consent shall not be unreasonably withheld or delayed), and such Confidential Information shall be disclosed only to the extent reasonably necessary to obtain, maintain or defend patents or authorizations, (ii) the extent required by applicable law, including without limitation by the rules or regulations of the United States Securities and Exchange Commission or similar regulatory agency in a country other than the United States or of any stock exchange or listing entity, (iii) any bona fide actual or prospective underwriters, investors, lenders or other financing sources or bona fide actual or prospective collaborators or strategic partners who are obligated to keep such information confidential, to the extent reasonably necessary to enable such actual or prospective underwriters, investors, lenders or other financing sources or collaborators to determine their interest in underwriting or making an investment in, or otherwise providing financing to, or collaborating with the receiving Party and (iv) consultants and advisors, subject to Section 8.2. In addition, if either Party is required to disclose Confidential Information of the other Party by regulation, law or legal process, including without limitation by the rules or regulations of the United States Securities and Exchange Commission or similar agency or other governmental or administrative body in a country or region other than the United States or of any stock exchange or listing entity, such Party shall provide prior notice of such intended disclosure to such other Party if practicable under the circumstances and shall disclose only such Confidential Information of such other Party as is required to be disclosed.

8.2 Employee, Consultant and Advisor Obligations. Each Party agrees that it and its Affiliates shall provide or permit access to Confidential Information received from the other Party only to the receiving Party's employees, consultants, advisors and permitted subcontractors who have a need to know such Confidential Information to assist the receiving Party with the development, manufacturing and/or commercialization of a Licensed Compound and/or Licensed Product and the activities contemplated by this Agreement and who are subject to obligations of confidentiality and non-use with respect to such Confidential Information similar to the obligations of confidentiality and non-use of the receiving Party pursuant to Section 8.1; provided, that Pieris and Sanofi shall each remain responsible for any failure by its Affiliates, and its Affiliates' respective employees, consultants, advisors and permitted

subcontractors, Sublicensees and distributors, to treat such Confidential Information as required under Section 8.1 (as if such Affiliates, employees, consultants, advisors and permitted subcontractors, Sublicensees and distributors were Parties directly bound to the requirements of Section 8.1).

8.3 Injunctive Relief. The Parties acknowledge that money damages alone would not adequately compensate the disclosing Party in the event of a breach by the receiving Party of this Section 8, and that, in addition to all other remedies available to the disclosing Party at law or in equity, it shall be entitled to seek injunctive relief for the enforcement of its rights under this Section 8.

8.4 Liability. A Party shall be liable for a breach of the obligations of this Section 8 by an Affiliate, Sublicensee, director, officer, employee, consultant or agent of such Party.

8.5 Return of Confidential Information. Upon termination or expiration of any Program or this Agreement, upon the request of the disclosing Party, the receiving Party shall promptly return to the disclosing Party or destroy the disclosing Party's Confidential Information, including all copies thereof, except to the extent that retention of such Confidential Information is reasonably necessary for the receiving Party to exploit any continuing rights it may have (in particular the rights under Section 12.4) and/or to fulfill its obligations contemplated herein, including its obligations of non-disclosure and non-use hereunder. Any such destruction requested by the disclosing Party shall be certified in writing to the disclosing Party by an authorized officer of the receiving Party. The return and/or destruction of such Confidential Information as provided above shall not relieve the receiving Party of its obligations under this Agreement.

8.6 Publicity. No public announcement or other disclosures concerning the terms of this Agreement shall be made to a Third Party, whether directly or indirectly, by either Party (except confidential disclosures to those parties described in Section 8.1 and 8.2) without first obtaining the written approval of the other Party and agreement upon the nature and text of such announcement or disclosure except that: (i) a Party may disclose those terms which it is required by regulation or law to disclose, provided that it takes advantage of all provisions to keep confidential as many terms as possible; and (ii) a Party desiring to make such public announcement or other public disclosure shall obtain the consent of the other Party to the proposed announcement or public disclosure prior to public release. Each Party agrees that it shall cooperate fully with the other with respect to all disclosures regarding this Agreement as required under the regulations of the U.S. Securities and Exchange Commission, applicable stock exchanges, NASDAQ and any other comparable foreign body including requests for confidential information or proprietary information of either Party included in any such disclosure. Sanofi agrees that Pieris may include Sanofi on a list of Pieris licensees. Pieris agrees that Sanofi and any Sanofi Party may state that they are licensed under the rights hereunder. The Parties agree to release a mutually agreeable press release within [***] days of executing this Agreement (for the avoidance of doubt, the Parties will not issue a joint press release but each Party will have the option but not the obligation to issue a press release it being understood that should either Party so decides, it will comply to such mutually agreeable content and such timeline).

8.7 Publication. In the event that either Party (the "Publishing Party") wishes to publish, in oral or written form, any Confidential Information of the other Party (the "Non-Publishing Party"), such Publishing Party will promptly notify the Non-Publishing Party and provide the Non-Publishing Party with a written copy of the proposed publication prior to its submission for publication. At the Non-Publishing Party's request, the Publishing Party will delay publication in order to permit the Non-Publishing Party to take the steps necessary to secure any Intellectual Property arising from the Publishing Party's use of Confidential Information, including the filing of one or more patent applications. In no event will such delay exceed [***] days from the date the Non-Publishing Party receives a written copy of the proposed publication. If the Non-Publishing Party makes such a request, the Publishing Party agrees to cooperate with the Non-Publishing Party in securing such Intellectual Property using the Non-Publishing Party's choice of counsel and the Non-Publishing Party will bear all costs of such patent filing. No patent application describing an invention resulting from the Publishing Party's use of Confidential Information will be filed or caused to be filed by the Publishing Party without first notifying the Non-Publishing Party as described above for proposed publications. Any publication or patent application will acknowledge the Non-Publishing Party's contribution. No publication or patent application will disclose any Confidential Information of a Party without the prior written permission of that Party.

SECTION 9
REPRESENTATIONS AND WARRANTIES

9.1 Mutual Representations. Each Party hereby represents and warrants to the other Party that as of the Effective Date, it has full corporate right, power and authority to enter into this Agreement, to grant the rights it grants to the other Party and to perform its respective obligations under this Agreement.

9.2 No Conflict. Each Party hereby represents and warrants to the other Party that, notwithstanding anything to the contrary in this Agreement, the execution and delivery of this Agreement by such Party, the performance of such Party's obligations hereunder and the licenses and sublicenses to be granted by such Party pursuant to this Agreement (a) to the best of its knowledge, do not conflict with or violate any requirement of any laws, rules or regulations existing as of the Effective Date and applicable to such Party and (b) do not conflict with, violate, breach or constitute a default under any contractual obligations of such Party or any of its Affiliates existing as of the Effective Date.

9.3 Disclaimer of Warranties. EXCEPT AS OTHERWISE EXPRESSLY SET FORTH HEREIN, NEITHER PARTY MAKES ANY REPRESENTATION OR EXTENDS ANY WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, TO THE OTHER PARTY, AND EACH PARTY HEREBY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, VALIDITY AND ENFORCEABILITY OF ANY PATENT LICENSED HEREUNDER, AND NONINFRINGEMENT WITH RESPECT TO THE PROGRAM COMPOUNDS AND

LICENSED PRODUCTS. EACH PARTY HEREBY DISCLAIMS ANY REPRESENTATION OR WARRANTY THAT THE DEVELOPMENT, MANUFACTURE AND COMMERCIALIZATION OF THE PROGRAM COMPOUNDS OR LICENSED PRODUCTS PURSUANT TO THIS AGREEMENT WILL BE SUCCESSFUL.

9.4 Representations and Warranties of Pieris. Pieris represents and warrants to Sanofi, as of the Effective Date that:

9.4.1 It owns or Controls sufficient right, title and interest in the Pieris Background Patent Rights and the Pieris Background Know-How to enter into this Agreement and to grant the rights granted to Sanofi hereunder. For the avoidance of doubt, the existence of any Third Party intellectual property rights that may be infringed by the use or exploitation of the Pieris Background Patent Rights and/or the Pieris Background Know-How shall not constitute a violation of this warranty.

9.4.2 The Pieris Background Patent Rights have been filed in good faith, have been and are being reasonably prosecuted, no official deadlines with respect to the prosecution thereof have been missed and no fees due and owing remain unpaid with respect thereto.

9.4.3 The Pieris Background Patent Rights and Pieris Background Know-How are free and clear of all encumbrances or liens that would restrict Sanofi's rights as granted under this Agreement or use thereof as otherwise permitted under this Agreement. For the avoidance of doubt, the existence of any Third Party intellectual property rights that may be infringed by the use or exploitation of the Pieris Background Patent Rights and/or the Pieris Background Know-How shall not constitute a violation of this warranty.

9.4.4 To Pieris' best knowledge, Pieris has taken reasonable measures to protect the confidentiality or the Pieris Background Know-How and no event has occurred which has resulted in the unauthorized disclosure by Pieris or its personnel or consultants or subcontractors of any part of the Pieris Background Know-How of which otherwise resulted in any part of the Pieris Background Know-How falling in the public domain or becoming public knowledge.

9.4.5 Pieris has received no notice which claims that the use or exploitation of the Pieris Background IP infringes any Patent Rights or other intellectual property rights of any Third Party. To the knowledge of Pieris, the general operation or use of the Pieris Background IP does not infringe any Third Party Patent Rights and does not misappropriate any Third Party Know-How.

9.4.6 To the knowledge of Pieris, none of the Pieris Patent Rights is infringed by any Third Party.

SECTION 10
INDEMNIFICATION AND LIABILITY

10.1 Indemnification.

(a) By Sanofi. Sanofi will defend, indemnify and hold harmless Pieris, its Affiliates and their respective directors, officers, employees and agents (the "Pieris Indemnified Parties") from and against all claims, demands, liabilities, damages, penalties, fines, costs and expenses, including reasonable attorneys' and expert fees and costs, and costs or amounts paid to settle (subject to Section 10.1(c)(v) (collectively, "Losses"), arising from or occurring as a result of a Third Party's claim (including any Third Party product liability or infringement claim), action, suit, judgment or settlement to the extent such Losses are due to or based upon:

(i) the gross negligence, recklessness, bad faith, intentional wrongful acts or omissions or violations of applicable law or regulation by or of Sanofi, its Affiliates, Sublicensees, wholesale distributors, contractors or their respective directors, officers, employees or agents in connection with the development, manufacture or commercialization of any Licensed Product by Sanofi, a Sanofi Party, wholesale distributors or contractors; or

(ii) the material breach by Sanofi of the terms of, or the material inaccuracy of any representation or warranty made by it in, this Agreement; or

(iii) any claim or allegation that any Licensed Compound and/or Licensed Product may infringe any Third Party intellectual property rights, except if such infringement is solely due to the use of Pieris Background IP; or

(iv) development, manufacture or commercialization of any Licensed Product by Sanofi or a Sanofi Party, wholesale distributors or contractors, except to the extent that such Losses arise out of, and are allocable to, the gross negligence, recklessness, bad faith, intentional wrongful acts, omissions or violations of law or breach of this Agreement committed by the Pieris Indemnified Parties.

(b) By Pieris. Pieris will defend, indemnify and hold harmless Sanofi, any Sanofi Party, wholesale distributors, contractors and their respective directors, officers, employees and agents (the "Sanofi Indemnified Parties") from and against all Losses arising from or occurring as a result of a Third Party's claim, action, suit, judgment or settlement (subject to Section 10.1(c)(v) below) that is due to or based upon the material breach by Pieris of the terms of, or the material inaccuracy of any representation or warranty made by it in, this Agreement.

(c) Claims for Indemnification.

(i) A person entitled to indemnification under this Section 10.1 (an "Indemnified Party") shall give prompt written notification to the person from whom indemnification is sought (the "Indemnifying Party") of the commencement of any action, suit or proceeding relating to a Third Party claim for which indemnification may be sought or, if earlier, upon the assertion of any such claim by a Third Party (it being understood and agreed, that the failure by an Indemnified Party to give notice of a Third Party claim as provided in this Section 10.1 shall relieve the Indemnifying Party of its indemnification obligation under this Agreement unless the Indemnified Party can demonstrate that such failure to give notice has not resulted in any prejudice to the Indemnifying Party).

(ii) Within thirty (30) days after receipt of such notification, the Indemnifying Party may, upon written notice thereof to the Indemnified Party, assume control of the defense of such action, suit, proceeding or claim with counsel of its choice. If the Indemnifying Party does not assume control of such defense, the Indemnified Party shall control such defense.

(iii) The Party not controlling such defense may participate therein at its own expense; provided, that if the Indemnifying Party assumes control of such defense and the Indemnified Party reasonably concludes, based on advice from counsel, that the Indemnifying Party and the Indemnified Party have conflicting interests with respect to such action, suit, proceeding or claim, the Indemnifying Party shall be responsible for the reasonable fees and expenses of counsel to the Indemnified Party solely in connection with the matter raising a conflict of interest between the Indemnifying Party and the Indemnified Party; provided further, however, that in no event shall the Indemnifying Party be responsible for the fees and expenses of more than one (1) counsel in any one (1) jurisdiction for all Indemnified Parties.

(iv) The Party controlling such defense shall keep the other Party advised of the status of such action, suit, proceeding or claim and the defense thereof and shall consider reasonable recommendations made by the other Party with respect thereto.

(v) The Indemnified Party shall not agree to any settlement of such action, suit, proceeding or claim without the prior written consent of the Indemnifying Party, which shall not be unreasonably withheld. The Indemnifying Party shall not agree to any settlement of such action, suit, proceeding or claim or consent to any judgment in respect thereof that does not include a complete and unconditional release of the Indemnified Party from all liability with respect thereto or that imposes any liability or obligation on the Indemnified Party without the prior written consent of the Indemnified Party.

10.2 Limitation of Liability. IN NO EVENT SHALL EITHER PARTY BE LIABLE OR OBLIGATED TO THE OTHER PARTY IN ANY MANNER FOR ANY SPECIAL, NON-COMPENSATORY, CONSEQUENTIAL, INDIRECT, INCIDENTAL, STATUTORY OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING, WITHOUT LIMITATION, LOST PROFITS AND LOST REVENUE, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT PRODUCT LIABILITY, OR OTHERWISE, EVEN IF INFORMED OF OR AWARE OF THE POSSIBILITY OF ANY SUCH DAMAGES IN ADVANCE. THE LIMITATIONS SET FORTH ABOVE SHALL BE DEEMED TO APPLY TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND NOTWITHSTANDING THE FAILURE OF THE ESSENTIAL PURPOSE OF ANY LIMITED REMEDIES. THE PARTIES ACKNOWLEDGE AND AGREE THAT THEY HAVE FULLY CONSIDERED THE FOREGOING ALLOCATION OF RISK AND FIND IT REASONABLE, AND THAT THE FOREGOING LIMITATIONS ARE AN ESSENTIAL BASIS OF THE BARGAIN BETWEEN THE PARTIES. The above limitation of liability shall not apply to the indemnifications set forth in Section 10.1 and any breach of Section 8 (“CONFIDENTIALITY”).

10.3 Insurance. Each Party shall maintain, and shall require its Affiliates and Sublicensees hereunder to maintain, a commercial general liability and, as regards Sanofi only, a product liability insurance program on terms customary in the pharmaceutical and biopharmaceutical industry covering all activities and obligations of it, and, as the case may be, its Affiliates, hereunder, or other insurance programs with comparable coverage, up to and beyond the expiration or termination of this Agreement and a commercially reasonable period thereafter.

(i) except to the extent permitted by this Agreement or otherwise agreed to in writing, keep confidential and not disclose to any third party any Confidential Information of the other Party;

(ii) except in connection with the activities contemplated by or the exercise of rights permitted by this Agreement or as otherwise agreed to in writing, not use for any purpose any Confidential Information of the other Party; and

(iii) take all reasonable precautions to protect the Confidential Information of the other Party (including all precautions a Party employs with respect to its own confidential information of a similar nature and taking reasonable precautions to assure that no unauthorized use or disclosure is made by others to whom access to the Confidential Information of the Party is granted).

8.3 Exceptions. Notwithstanding anything set forth in this Article 8 to the contrary, the obligations of Section 8.2 above shall not apply to the extent that the Party seeking the benefit of the exclusion can demonstrate that the Confidential Information of the other Party:

(ii) was generally available to the public or otherwise part of the public domain at the time of its receipt by the receiving Party;

(v) was independently developed by or for the receiving Party without use of or reference to the Confidential Information of the other Party;

(vi) was released from the restrictions set forth in this Agreement by express prior written consent of the other Party; or

(vii) is required to be disclosed by court order or any competent government authority or under applicable stock exchange or similar rules or regulations, in which case the receiving Party will provide reasonable advanced written notice to the disclosing Party and will use reasonable efforts to limit public disclosure of the Confidential Information by seeking a protective order or similar protection permitted under applicable law.

If any of the Confidential Information becomes subject to the exceptions above, then the receiving Party shall all the same not disclose to any third party the fact that such information was received from or used by the disclosing Party, unless such fact becomes subject to the exceptions listed in subsections (i)-(vii) above.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

The Confidential Information shall not be deemed to be in the public domain merely because any part of the Confidential Information is embodied in any general disclosure or because individual features, components or combinations thereof are known to the public.

Each Party agrees that it and its Affiliates shall provide or permit access to Confidential Information received from the other Party only to the receiving Party's employees, scientific consultants, scientific or professional advisors and permitted subcontractors who have a need to know such Confidential Information to assist the receiving Party with the development, manufacturing and/or commercialization of a Project Compound and/or Licensed Product and the activities contemplated by this Agreement and who are subject to obligations of confidentiality and non-use with respect to such Confidential Information similar to the obligations of confidentiality and non-use of the receiving Party pursuant to Section 8.2; provided, that Pieris and DS shall each remain responsible for any failure by its Affiliates, and its and its Affiliates' respective employees, consultants, advisors and permitted subcontractors, Sublicensees and distributors, to treat such Confidential Information as required under Section 8.2 (as if such Affiliates, employees, consultants, advisors and permitted subcontractors, Sublicensees and distributors were Parties directly bound to the requirements of Section 8.2). In addition, a receiving Party may provide Confidential Information disclosed to it to any bona fide actual or prospective collaborators or strategic partners who are obligated to keep such information confidential, to the extent reasonably necessary to enable such actual or prospective collaborators to determine their interest in or collaborating with the receiving Party.

8.5 Return of Confidential Information. Upon termination or expiration of any Program or this Agreement, upon the request of the disclosing Party, the receiving Party shall promptly return to the disclosing Party or destroy the disclosing Party's Confidential Information, including all copies thereof, except to the extent that retention of such Confidential Information is reasonably necessary for the receiving Party to exploit any continuing rights it may have (in particular the rights under Section 11.10) and/or to fulfill its obligations contemplated herein, including its obligations of non-disclosure and non-use hereunder. Any such destruction requested by the disclosing Party shall be certified in writing to the disclosing Party by an authorized officer of the receiving Party. The return and/or destruction of such Confidential Information as provided above shall not relieve the receiving Party of its obligations under this Agreement.

9. REPRESENTATIONS AND WARRANTIES

9.1 Mutual Representations. Each Party hereby represents and warrants to the other Party that as of the Effective Date, it has full corporate right, power and authority to enter into this Agreement, to grant the rights it grants to the other Party and to perform its respective obligations under this Agreement.

9.2 No Conflict. Each Party hereby represents and warrants to the other Party that, notwithstanding anything to the contrary in this Agreement, the execution and delivery of this Agreement by such Party, the performance of such Party's obligations hereunder and the licenses and sublicenses to be granted by such Party pursuant to this Agreement (a) to the best of its knowledge, do not conflict with or violate any requirement of any laws, rules or regulations existing as of the Effective Date and applicable to such Party and (b) do not conflict with, violate, breach or constitute a default under any contractual obligations of such Party or any of its Affiliates existing as of the Effective Date.

9.3 Disclaimer of Warranties. EXCEPT AS OTHERWISE EXPRESSLY SET FORTH HEREIN, NEITHER PARTY MAKES ANY REPRESENTATION OR EXTENDS ANY WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, TO THE OTHER PARTY, AND EACH PARTY HEREBY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, VALIDITY AND ENFORCEABILITY OF ANY PATENT LICENSED HEREUNDER, AND NON-INFRINGEMENT WITH RESPECT TO THE PROGRAM COMPOUNDS AND LICENSED PRODUCTS. EACH PARTY HEREBY DISCLAIMS ANY REPRESENTATION OR WARRANTY THAT THE DEVELOPMENT, MANUFACTURE AND COMMERCIALIZATION OF THE PROGRAM COMPOUNDS OR LICENSED PRODUCTS PURSUANT TO THIS AGREEMENT WILL BE SUCCESSFUL.

10.1 Indemnification.

10.1.1 Indemnification [***]. [***] will defend, indemnify and hold harmless [***], its Affiliates and their respective directors, officers, employees and agents (the "[***]") from and against all claims, demands, liabilities, damages, penalties, fines, costs and expenses, including reasonable attorneys' and expert fees and costs, and costs or amounts paid to settle (collectively, "Losses"), arising from or occurring as a result of a third party's claim (including any third party product liability or infringement claim), action, suit, judgment or settlement to the extent such Losses are due to or based upon:

(i) [***]; or

(ii) [***]; or

(iii) [***].

10.1.2 Indemnification [***]. [***] will defend, indemnify and hold harmless [***], its Affiliates, and their respective directors, officers, employees and agents (the "[***]") from and against all Losses arising from or occurring as a result of a third party's claim, action, suit, judgment or settlement that is due to or based upon the material breach by [***] of the terms of, or the material inaccuracy of any representation or warranty made by it in, this Agreement.

10.2 Claims for Indemnification.

10.2.1 A person entitled to indemnification under this Section 10.1 (an "Indemnified Party") shall give prompt written notification to the person from whom indemnification is sought (the "Indemnifying Party") of the commencement of any action, suit or proceeding relating to a third party claim for which indemnification may be sought or, if earlier, upon the assertion of any such claim by a third party (it being understood and agreed, that the failure by an Indemnified Party to give notice of a third party claim as provided in this Section 10.2.1 shall relieve the Indemnifying Party of its indemnification obligation under this Agreement unless the Indemnified Party can demonstrate that such failure to give notice has not resulted in any prejudice to the Indemnifying Party).

10.2.2 Within [***] days after receipt of such notification, the Indemnifying Party may, upon written notice thereof to the Indemnified Party, assume control of the defense of such action, suit, proceeding or claim with counsel of its choice. If the Indemnifying Party does not assume control of such defense, the Indemnified Party shall control such defense.

10.2.3 The Party not controlling such defense may participate therein at its own expense; provided, that if the Indemnifying Party assumes control of such defense and the Indemnified Party reasonably concludes, based on advice from counsel, that the Indemnifying Party and the Indemnified Party have conflicting interests with respect to such action, suit, proceeding or claim, the Indemnifying Party shall be [***].

10.2.4 The Party controlling such defense shall keep the other Party advised of the status of such action, suit, proceeding or claim and the defense thereof and shall consider reasonable recommendations made by the other Party with respect thereto.

The Indemnifying Party shall not agree to any settlement of such action, suit, proceeding or claim or consent to any judgment in respect thereof that does not include a complete and unconditional release of the Indemnified Party from all liability with respect thereto or that imposes any liability or obligation on the Indemnified Party without the prior written consent of the Indemnified Party.

10.3 Limitation of Liability. IN NO EVENT SHALL EITHER PARTY BE LIABLE OR OBLIGATED TO THE OTHER PARTY IN ANY MANNER FOR ANY SPECIAL, NON-COMPENSATORY, CONSEQUENTIAL, INDIRECT, INCIDENTAL, STATUTORY OR PUNITIVE DAMAGES OF ANY KIND, INCLUDING, WITHOUT LIMITATION, LOST PROFITS AND LOST REVENUE, REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT PRODUCT LIABILITY, OR OTHERWISE, EVEN IF INFORMED OF OR AWARE OF THE POSSIBILITY OF ANY SUCH DAMAGES IN ADVANCE. THE LIMITATIONS SET FORTH ABOVE SHALL BE DEEMED TO APPLY TO THE

MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW AND NOTWITHSTANDING THE FAILURE OF THE ESSENTIAL PURPOSE OF ANY LIMITED REMEDIES. THE PARTIES ACKNOWLEDGE AND AGREE THAT THEY HAVE FULLY CONSIDERED THE FOREGOING ALLOCATION OF RISK AND FIND IT REASONABLE, AND THAT THE FOREGOING LIMITATIONS ARE AN ESSENTIAL BASIS OF THE BARGAIN BETWEEN THE PARTIES. The above limitation of liability shall not apply to the indemnifications set forth in Section 10.1 and any breach of Article 8 ("CONFIDENTIALITY").

10.4 Insurance. Each Party shall maintain, and shall require its Affiliates and Sublicensees hereunder to maintain, a commercial general liability and, as regards DS only, a product liability insurance program on terms customary in the pharmaceutical and biopharmaceutical industry covering all activities and obligations of it, and, as the case may be, its Affiliates, hereunder, or other insurance programs with comparable coverage, up to and beyond the expiration or termination of this Agreement and a commercially reasonable period thereafter.

—cMet antagonist, PRS-110, to be the flagship program—

Ahmedabad, India; Freising, Germany.

Zydus Cadila, an innovative global pharmaceutical company that discovers, develops, manufactures and markets a broad range of healthcare products, and Pieris AG, a next generation therapeutic protein R&D company, have entered into an alliance for development and commercialization of multiple novel Anticalin®-based protein therapeutics, both companies announced today. Under the terms of the agreement, Zydus will take the lead in advancing Anticalin drug candidates through formal pre-clinical development and into clinical development, undertaking drug development in accordance with ICH guidelines. Zydus has been granted exclusive marketing rights in India and several other emerging markets, while Pieris retains exclusive marketing rights in key developed markets.

Mr. Pankaj R. Patel, Chairman and Managing Director, Zydus group said, "Collaborating with established biotech companies on differentiated drug candidates is an important component of Zydus' ongoing transformation into an innovation-led global healthcare provider, and we are pleased to add Anticalins to our novel biologics pipeline". Pieris CEO, Stephen Yoder, added, "With Zydus' state-of-the-art manufacturing facilities and seasoned drug development team, this collaboration will allow Pieris to unlock value on a global scale in a cost-effective manner, significantly expanding the number of proprietary Anticalin programs we can advance into clinical trials."

The most advanced program in the collaboration is PRS-110, an Anticalin specific for cMet, a target becoming increasingly validated across a broad spectrum of tumors. PRS-110, which is a pure antagonist due to its monovalent target engagement, has demonstrated the ability to

About Pieris & Anticalins

Pieris AG is an independent, clinical-staged biotechnology company advancing its proprietary Anticalin® technology to create differentiated drugs that are safer and more effective than conventional approaches. Exclusive to Pieris, Anticalins promise to address high-unmet medical needs and expand the potential of targeted therapeutics. The company currently has a diverse proprietary pipeline and has, in addition to Zydus, ongoing R&D collaborations with Daiichi Sankyo, the Sanofi Group and Allergan. Privately held, Pieris has been funded by premier biotechnology-focused venture capital, including lead investors OrbiMed Advisors and Global Life Science Ventures. For more information, please visit: www.pieris-ag.com.

Anticalins® are recombinantly engineered versions of human lipocalins, low-molecular weight polypeptides that naturally bind, store and transport a wide spectrum of molecules. To make Anticalins, Pieris makes discrete changes to those lipocalin amino acid positions responsible in endogenous ligand binding, thereby redirecting specificity away from the natural ligand and to virtually any target of interest. By utilizing an endogenous binding protein as a template, Pieris "hijacks" the natural function of the lipocalin to enable diverse therapeutic applications.

Each Party represents and warrants to the other Party that: (a) as of the Effective Date, it has the power and authority to enter into this Agreement and to perform its obligations hereunder and to grant to the other Party the rights granted to such other Party under this Agreement; (b) as of the Effective Date, it has obtained all necessary corporate and other approvals to enter into and execute this Agreement; and (c) it is not, as of the Effective Date, a party to, nor will it enter into or assume during the Term, any contract or other obligation with a Third Party that would in any way limit the performance of its obligations under this Agreement (d) this Agreement will, when executed, constitute valid and

binding obligations on the Parties; and (e) entry into and performance by it of this Agreement will not (i) breach any provision of its bylaws or equivalent constitutional documents; or (ii) result in a breach of any Applicable Laws in its jurisdiction of incorporation or of any order, decree or judgment of any court or any Regulatory Authority, where any such breach would affect to a material extent its ability to enter into or perform its obligations under this Agreement.

12.2 No Debarment. Each Party further represents and warrants that neither it, nor any of its Affiliates, nor any of their respective employees or contractors involved in the performance of this Agreement have been "debarred" by the FDA pursuant to 21 U.S.C. § 335a or subject to a similar sanction from any Regulatory Authority in any other jurisdiction, nor have debarment or similar proceedings against such Party, any of its Affiliates, or any of their respective employees or contractors involved in the performance of this Agreement been commenced. Each Party will promptly notify the other Party in writing if any such proceedings are commenced or if such Party, any of its Affiliates, or any of their respective employees or contractors involved in the performance of this Agreement are debarred or similarly sanctioned by any Regulatory Authority.

12.3.1 GENERAL. EXCEPT AS EXPRESSLY PROVIDED IN THIS AGREEMENT, NEITHER PARTY MAKES ANY WARRANTIES (EXPRESS, IMPLIED, STATUTORY OR OTHERWISE) WITH RESPECT TO THE SUBJECT MATTER HEREOF (SUCH AS PIERIS MATERIALS AND DELIVERABLES) AND EACH PARTY EXPRESSLY DISCLAIMS ANY SUCH ADDITIONAL WARRANTIES WITH RESPECT TO THE SUBJECT MATTER HEREOF (SUCH AS PIERIS MATERIALS AND DELIVERABLES), INCLUDING ANY IMPLIED WARRANTIES OF FITNESS FOR A PARTICULAR PURPOSE, MERCHANTABILITY OR NONINFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS.

12.3.2 PIERIS MATERIALS AND DELIVERABLES. EXCEPT AS PROVIDED IN ARTICLE 4.2, THE PIERIS MATERIALS AND DELIVERABLES ARE PROVIDED "AS-IS."

12.3.3 LIMITATION OF LIABILITY. NEITHER PARTY WILL BE LIABLE TO THE OTHER PARTY FOR INDIRECT, INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES INCLUDING, BUT NOT LIMITED TO, LOST PROFITS ARISING FROM OR RELATING TO THIS AGREEMENT, REGARDLESS OF ANY NOTICE OF THE POSSIBILITY OF SUCH DAMAGES. HOWEVER, NOTHING IN THIS ARTICLE IS INTENDED TO LIMIT OR RESTRICT THE INDEMNIFICATION RIGHTS OR OBLIGATIONS OF EITHER PARTY UNDER ARTICLE 13.

Article 13
INDEMNIFICATION

13.1 Pieris. Pieris shall indemnify, defend and hold harmless Stelis BioPharma, its directors, officers, employees, agents, successors and assigns from and against any liabilities, expenses or costs (including reasonable attorneys' fees and court costs) arising out of any claim, complaint,

suit, proceeding or cause of action against any of them by a Third Party resulting from: (a) the negligent or intentionally wrongful acts or omissions of Pieris, its Affiliates and subcontractors during the performance of any Development Plan or (b) any breach by Pieris of its representations and warranties under this Agreement; in each case, subject to the requirements set forth in Article 13.3 below. Notwithstanding the foregoing, Pieris shall have no obligations under this Article 13 for any liabilities, expenses or costs arising out of or relating to claims to the extent covered under Article 13.2 below.

13.2 Stelis BioPharma. Stelis BioPharma shall indemnify, defend and hold harmless Pieris, its directors, officers, employees, agents, successors and assigns from and against all liabilities, expenses, and costs (including reasonable attorneys' fees and court costs) arising out of any claim, complaint, suit, proceeding or cause of action against any of them by a Third Party resulting from: (a) the negligent or intentionally wrongful acts or omissions of Stelis BioPharma, its Affiliates and subcontractors during the performance of any Development Plan or (b) any breach by Stelis BioPharma of any of its representations and warranties under this Agreement; in each case, subject to the requirements set forth in Article 13.3 below. Notwithstanding the foregoing, Stelis BioPharma shall have no obligations under this Article 13 for any liabilities, expenses or costs arising out of or relating to claims to the extent covered under Article 13.1 above.

13.3 Indemnification Procedure. Any Party seeking indemnification under this Article 13 (the "Indemnitee") shall: (a) promptly notify the indemnifying Party (the "Indemnitor") of such claim; (b) agree to the Indemnitor sole control over the defense or settlement thereof; and (c) at the Indemnitor's request and expense, provide full information and reasonable assistance to Indemnitor with respect to such claims. Without limiting the foregoing, with respect to claims brought under Article 13.1 or 13.2 above the Indemnitee, at its own expense, shall have the right to participate with counsel of its own choosing in the defense or settlement of any such claim. The indemnification under this Article 13 shall not apply to amounts paid in settlement of any claim if such settlement is effected without the consent of the Indemnitor.

13.4 Insurance. Each Party will procure and maintain, at its own expense, insurance, with a financially sound and reputable insurer, reasonably sufficient to cover such Party's activities and its obligations under this Agreement with minimum coverage amounts customary for the activities of such Party hereunder in the jurisdiction(s) where such activities are performed.

Article 14
GENERAL PROVISIONS

14.1 Affiliates. Each Party may perform any obligations and exercise any rights hereunder through any of its Affiliates. Each Party hereby guarantees the performance by its Affiliates of such Party's obligations under this Agreement, and will cause its Affiliates to comply with the provisions of this Agreement in connection with such performance. Any breach by a Party's Affiliate of any of such Party's obligations under this Agreement will be deemed a breach by such Party, and the other Party may proceed directly against such Party without any obligation to first proceed against such Party's Affiliate.

14.2 Assignment. Each Party agrees that its rights and obligations under this Agreement may not be assigned or otherwise transferred to a Third Party without the prior written consent of the

other Party hereto. Notwithstanding the foregoing, either Party may transfer or assign its rights and obligations under this Agreement to (a) an Affiliate, subject to the prior notice to the other Party and the assigning Party remaining responsible for such Affiliate's performance or (b) a successor to all or substantially all of its business or assets relating to this Agreement whether by sale, merger, operation of law or otherwise, without the prior written consent of the other Party; provided that such assignee or transferee has agreed to be bound by the terms and conditions of this Agreement. Subject to the foregoing, this Agreement shall be binding upon and inure to the benefit of the Parties hereto, their successors and assigns.

14.3 Severability. If any clause, provision, or Article of this Agreement attached hereto, shall, for any reason, be held illegal, invalid or unenforceable, the Parties shall negotiate in good faith and in accordance with reasonable standards of fair dealing, a valid, legal, and enforceable substitute provision or provisions that most nearly reflect the original intent of the Parties under this Agreement in a manner that is commensurate in magnitude and degree with the changes arising as a result of any such substitute provision or provisions. All other provisions in this Agreement shall remain in full force and effect and shall be construed in order to carry out the original intent of the Parties as nearly as possible (consistent with the necessary reallocation of benefits) and as if such invalid, illegal, or unenforceable provision had never been contained herein. In performing this Agreement, the Parties shall comply with all Applicable Laws. Nothing in this Agreement shall be construed so as to require the violation of any law, and wherever there is any conflict between any provision of this Agreement and any law the law shall prevail, but in such event the affected provision of this Agreement shall be affected only to the extent necessary to bring it within the Applicable Laws.

14.4 Merger of Understandings; Amendment. This Agreement (and the Exhibits attached hereto) constitute the entire agreement between the Parties regarding the subject matter hereof and all prior negotiations and understandings between the Parties are deemed to be merged into this Agreement. No agreement or understanding varying or extending this Agreement shall be binding upon either Party hereto, unless set forth in a writing which specifically refers to the Agreement signed by duly authorized officers or representatives of the respective Parties, and the provisions hereof not specifically amended thereby shall remain in full force and effect.

14.5 Waiver. Any waiver of the terms and conditions hereof must be explicitly in writing and executed by a duly authorized officer of the Party waiving compliance. The waiver by either of the Parties of any breach of any provision hereof by the other shall not be construed to be a waiver of any succeeding breach of such provision or a waiver of the provision itself. The delay or failure of any Party at any time to require performance of any provision of this Agreement shall in no manner affect such Party's rights at a later time to enforce the same.

14.6 Notices. Any notice, report or other communication required or permitted to be given by either Party under this Agreement shall be given in writing and may be delivered by hand, reputable international 3- or 4-day courier service or by mailing if mailed by registered or certified mail, postage prepaid and return receipt requested (or the international equivalent), or by email or fax (with printed confirmation of transmission and with confirmation copy forwarded by reputable international 3- or 4-day courier service), addressed to each Party as follows. Such information may be updated by a Party upon written notice to the other Party. A notice shall be deemed delivered upon receipt, unless the notice is received on a day other than a business day in

the jurisdiction of the recipient or after 5:30 p.m. at the location of delivery, in which case delivery shall be deemed to be the next business day after receipt (as determined in the jurisdiction of recipient).

14.7 Force Majeure. Neither of the Parties shall be liable for any default or delay in performance of any obligation under this Agreement caused by any of the following: Act of God, war, terrorism, riot, fire, explosion, accident, flood, sabotage, compliance with governmental requests, laws, regulations, orders or actions, national defense requirements or any other event beyond the reasonable control of such Party, or labor trouble, strike, lockout or injunction, provided that neither of the Parties shall be required to settle a labor dispute against its own best judgment, (collectively, "Force Majeure"). The Party invoking the provisions of this Article 14.7 shall give the other Party written notice and full particulars of such force majeure event. Both Pieris and Stelis BioPharma shall use reasonable business efforts to resolve or at least mitigate the effects of any force majeure on their respective part.

14.8 Relationship of the Parties. Pieris and Stelis BioPharma shall always remain independent contractors in its performance of this Agreement. Neither Party shall have any authority to employ any individual as an employee or agent for or on behalf of the other Party to this Agreement for any purpose, and neither Party, nor any person performing any duties or engaging in any work at the request of such Party, shall be deemed to be an employee or agent of the other Party.

14.9 Choice of Law. This Agreement shall be governed by and construed in accordance with the then-current substantive law of England and Wales, without regard to the conflict of laws principles thereof, and shall not be governed by the United Nations Convention on Contracts for the International Sale of Goods.

14.10 Dispute Resolution.

14.10.1 General. Either Party should first try to resolve a Dispute amicably before resorting to the arbitration proceeding referred in Article 14.10.2. In this regard, either Party may, by written notice to the other Party, have a Dispute referred to the Chief

Executive Officers of Parties for attempted resolution by good faith negotiations. Promptly after such notice is received, each Party shall cause its Chief Executive Officers to meet (face-to-face or by teleconference) and be available to attempt to resolve such issue. If the Parties are able to resolve such a Dispute, a written document such as a letter or memorandum setting forth the Parties' agreement will be prepared and signed by both Parties if requested by either Party. The Parties shall cooperate in an effort to limit the issues for consideration in such manner as narrowly as reasonably practicable in order to resolve the Dispute.

14.10.2 [***]. In the event that the Parties are unable to resolve a Dispute in the manner referred in Article 14.10.1 within [***] days from the date such dispute was referred to the Chief Executive Officers of the Parties, then either Party may [***]. [***].

14.12 Counterparts. This Agreement may be executed in any number of counterparts with the same effect as if all Parties had signed the same document. All such counterparts shall be deemed an original, shall be construed together and shall constitute one and the same instrument.

PREAMBLE

The Parties are jointly conducting research aimed at gaining fundamental insights in the realm of anticalins and lipocalins. To that effect the Parties signed a Research and Licensing Agreement on 26 June / 04 July 2003[***].

The UNIVERSITY, Chair of Biochemistry, Prof. Skerra, maintains cooperative research relations on the subject of this Agreement [***] who, inter alia, [***], while under this Agreement, against payment of licence fees, UNIVERSITY grants licences or assigns to PIERIS patent rights to be obtained or already secured by UNIVERSITY in connection with this research activity. PIERIS endeavours to commercially exploit the knowledge thus acquired and patents granted.

Both Parties understand that, before the object of this Agreement can be marketed, PIERIS will have to expend substantial future research efforts and financial means above and beyond this Agreement.

§ 1
OBJECT OF THE AGREEMENT

1.1 The object of this Agreement is a joint research effort aimed at optimising the anticalin technology developed by Prof. Skerra for deployment in therapeutic, prophylactic and diagnostic applications and as research reagents and, beyond that, at gaining fundamental insights in the realm of anticalins and lipocalins. For the purpose of this research, the Parties are conducting joint research projects (hereinafter the "PROJECTS"), initially defined in more detail in Appendix 1 and subject to updates as a function of the progress of the project.

1.2 As set forth in § 4, PIERIS shall provide UNIVERSITY with funding for the execution of the PROJECTS.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

§ 2
COOPERATION BETWEEN UNIVERSITY AND PIERIS

2.1 The Parties to this Agreement concur that the success of the project depends in large measure on cooperation in mutual trust and on a regular exchange of information. Both Parties therefore agree to vigorously promote the project by discussing their activities and exchanging their experiences.

2.2 The Parties to the Agreement concur that it is necessary to adhere as much as possible to the PROJECTS, described in some detail in Appendix 1, both in terms of substance and schedules, but that they must remain flexibly adjustable in view of the dynamics of the development. Such adjustments shall be made in the course of periodic progress meetings on the occasion of which the next project steps shall also be determined. The results shall be defined in dated, consecutively numbered minutes, signed by both Parties and integrated as updates to Appendix 1 of this Agreement. On the part of the UNIVERSITY, such updates shall be within the purview of Prof. Dr. Arne Skerra.

§ 3
THE UNIVERSITY'S CONTRIBUTION

3.1 For subject research under this Agreement, the UNIVERSITY, Chair of Biochemistry, Prof. Skerra, shall cooperate [***] throughout the duration of the project, collaboration with non-commercial parties excepted. Within the scope of this cooperation the UNIVERSITY shall make everything available that is required for the research hereunder and for the fulfilment of this Agreement, in particular the necessary equipment as well as the findings and insights gained to date.

3.2 The UNIVERSITY commits itself to having the PROJECTS carried out by at least [***] or, alternatively, by [***]. The extent of the activities will be determined by the respective update to Appendix 1.

3.3 These activities shall be supervised by Prof. Dr. Arne Skerra, Chair of Biochemistry at the Technical University in Freising/Weihenstephan. Prof. Skerra will perform his activities within the scope of the research project without basing it on any employment status with PIERIS. [***].

3.4 The UNIVERSITY and its associates shall make every effort, in due consideration of the latest scientific findings, to advance the project to the best of their ability.

3.5 On at least [***] basis the UNIVERSITY shall prepare a written summary of the project status attained, indicating the deployment of personnel and materials, and submit these reports to PIERIS.

3.7 Both Parties concur that the data, MATERIALS or patents conveyed by UNIVERSITY to PIERIS within the scope of this Agreement shall [***]in accordance with [***]. In the event of [***] UNIVERSITY shall [***]. Independent thereof, UNIVERSITY shall [***].

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

§ 4
PIERIS' CONTRIBUTION

4.1 As its contribution to the funding of the cost of personnel and materials incurred by Prof. Skerra's work group in connection with the PROJECTS, PIERIS shall allocate to the UNIVERSITY the total amount of EUR[***]for PROJECT [***] during the period [***], [***] EUR[***] at the [***]. PIERIS shall remit all payments, identified by an accounting entry code to be provided by the UNIVERSITY in each case and with the annotation "Chair of Biochemistry, Prof. Dr. Skerra", into account number [***]. The payee and owner of that account is [***].

4.2 The Parties to this Agreement concur that the PROJECTS described in more detail in Appendix 1 hereto shall be adhered to as much as possible in terms of substance and target dates. PIERIS expressly abstains from committing [***] extending beyond the term of this Agreement. PIERIS is aware, however, of the fact that [***]. In the event of a premature cancellation of this Agreement brought about by PIERIS, PIERIS shall [***] stated under 4.1.

4.3 To the extent that within the scope of the PROJECTS and as agreed with PIERIS, joint work sessions or the support services to be provided by the UNIVERSITY involve travel expenses, PIERIS shall reimburse the UNIVERSITY [***].

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

§ 5
CONFIDENTIALITY

5.1 Each Party to this Agreement agrees to treat as confidential vis-à-vis third parties all documentation and other data received from the respective other Party as well as the results achieved within the scope of this project and the MATERIAL made available by the respective other Party and developed MATERIAL (information), subject to the provisions of § 5.3 and § 5.4, and to publish them only with the prior consent of the respective other Party to this Agreement. The Parties to the Agreement shall limit the dissemination of data to the group of persons participating in the project. This obligation shall not apply if the information was (i) verifiably available to the recipient prior to the date of this Agreement, was in the public domain or was generally accessible prior to the publication; or (ii) essentially corresponds to data disclosed or made accessible to the recipient at any given time by an authorised third party; or (iii) the data are verifiably based on an independent development made by the recipient.

5.2 Each Party to this Agreement shall make certain that the persons engaged in this project, including in particular Prof. Skerra, are made aware of, and consent to, the conditions of this Agreement, especially with regard to the confidentiality obligation. Each Party hereto agrees to have all persons involved in the project sign a corresponding confidentiality undertaking (Appendix 2), providing the respective other Party with a copy thereof prior to the inception of the project.

5.3 For PIERIS the confidentiality-related provisions of this § 5 shall not be applicable to the extent that the information-related MATERIAL had been turned over to PIERIS or the information-related patents were transferred to PIERIS by way of assignment or licensing or if the release of the information to potential or current investors is desirable or otherwise customary. PIERIS may share the information with sub-licensees or collaborative partners only if these commit to the customary extent of confidentiality or if the UNIVERSITY waives the confidentiality requirement.

5.4 UNIVERSITY shall not pass on to third parties biological material previously or subsequently given to it by PIERIS or any biological material generated within the scope of this Agreement. UNIVERSITY shall bring this obligation to the attention of its co-workers who are involved in the research project under this Agreement. The exceptional release of biological material to third parties by UNIVERSITY shall require a written consent via a Material Transfer Agreement, attached hereto as Appendix 4. Upon request by PIERIS, the transfer of biological material from PIERIS to UNIVERSITY shall also be documented in writing by way of a Material Transfer Agreement. In that case, clause 6

of the Material Transfer Agreement per Appendix 4 shall not apply to the relationship between UNIVERSITY and PIERIS with regard to material which was transferred during the PROJECT PHASE per § 8.1. Per mutual consent, both Parties shall be able to modify Appendix 4 in individual cases or to waive the use of Appendix 4.

§ 6
PUBLICATIONS

6.1 The Parties concur that the objective of their cooperation consists in the development of exploitable inventions and their protection through patents or other intellectual property rights. Patent protection, however, can only be obtained if at the time the application is filed the novel realisations have not yet been published. On the other hand, the UNIVERSITY and its participating co-workers have an interest in publishing the results achieved and scientific knowledge gained at the University during the cooperative activity. Nevertheless, patent applications planned by PIERIS or the UNIVERSITY on the object of the research or this Agreement must not be jeopardised by prepublications prejudicial to novelty.

6.2 UNIVERSITY agrees that, when publishing scientific papers including dissertations, it will take PIERIS' interests into account. Therefore, [***] prior to such publication, UNIVERSITY shall submit to PIERIS the text of the intended publication or dissertation. Upon request by PIERIS, both Parties shall deliberate a wording that satisfies the interests of both Parties.

6.3 PIERIS agrees to review the proposed publications (manuscripts) with regard to prepublication [***] within [***] and to correspondingly advise UNIVERSITY of its position. If after expiration of [***] UNIVERSITY has not received a written position statement from PIERIS, PIERIS's consent regarding publication shall be deemed to have been given, provided PIERIS has at least acknowledged to UNIVERSITY, in writing, the receipt of the publication proposal. After the expiration of [***] from its submittal to PIERIS, the manuscript may be published irrespective of any consent by PIERIS. Dissertations, however, may in any event be published after expiration of [***] from submittal to PIERIS.

6.4 If so requested by it, publications shall name PIERIS as a co-initiator and sponsor of the study.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

§ 7
USE RIGHTS, INTELLECTUAL PROPERTY RIGHTS

7.1 In accordance with this § 7, UNIVERSITY shall assign to PIERIS the property as well as the right to use all material results of its work (MATERIAL). MATERIAL as defined for the purpose of this Agreement shall include all biological and other materials, records, laboratory books, data and other relevant activity results, the reports and documents generated as well as the copyrights on these, derived within the scope of the PROJECTS per 1.1. To the extent that UNIVERSITY is required by law to store or archive parts of the MATERIALS, PIERIS grants UNIVERSITY proprietary rights restricted to that purpose.

7.2 In addition, UNIVERSITY assigns the right to use all non-patentable expertise, know-how and all other intangible results generated within the framework of the projects.

7.3 The Parties concur that (i) in the course of the PROJECTS, inventions and thus rights to patents (intellectual property rights) may be generated and that (ii) the Parties shall be entitled to these rights as follows:

(a) PIERIS INVENTIONS

Inventions made exclusively by PIERIS employees (hereinafter "PIERIS INVENTIONS") shall belong exclusively to PIERIS;

(b) JOINT INVENTIONS

Inventions made by both PIERIS employees and UNIVERSITY personnel (including Prof. Dr. Arne Skerra) with at least [***] inventive contribution by PIERIS employees (hereinafter "JOINT INVENTIONS") shall be exclusively credited to PIERIS. To that effect, under this § 7, the UNIVERSITY hereby assigns in advance its proportional rights in such JOINT INVENTIONS to PIERIS.

(c) UNIVERSITY INVENTIONS

Inventions made exclusively by UNIVERSITY personnel or inventions in which the inventive contribution by PIERIS employees is [***] (hereinafter "UNIVERSITY INVENTIONS") are credited to the UNIVERSITY with the proviso that, by advance assignment per this § 7, the UNIVERSITY grants PIERIS exclusive rights to use these UNIVERSITY INVENTIONS.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

In the event that controversies regarding the proportional inventive contribution cannot be resolved, the case shall be decided by an arbitration tribunal according to § 11.3.

7.4 In exchange for participation in accordance with the licensing model per § 9 under the Research and Licensing Agreement of [***], extended and modified by the Amended and Continued Agreement of [***] and incorporated in this present Agreement, UNIVERSITY has legally assigned to PIERIS the rights to patent [***], already applied for by PIERIS, retroactively to [***] and to [***] (see Appendix 5.1). In addition, in exchange for participation in accordance with the licensing model per § 9, UNIVERSITY is hereby assigning the patent rights, already applied for by PIERIS, to "[***]" (see Appendix 5.1). For these rights, PIERIS has defrayed all application, maintenance and internal administrative costs in the past and shall cover them in the future as well. Furthermore, in exchange for participation in accordance with the licensing model per § 9 of this Agreement, the University hereby grants PIERIS an exclusive licence, unlimited in time and geography, and revocable only per §§ 8.2, 8.3, sub-licensable and freely transferable, for the use of the patent rights under "[***]" (see Appendix 5.2), with the proviso that the rights of [***] project, derived from the [***]", especially with regard to [***], shall be protected and shall take precedence over this present Agreement.

7.5 In accordance with this § 7, UNIVERSITY shall inform PIERIS of additional inventions and developments within the scope of the PROJECTS, granting PIERIS an exclusive licence, unlimited in time and geography, and revocable only per §§ 8.2, 8.3, sub-licensable and freely transferable, on new UNIVERSITY INVENTIONS per § 7.3 c). In addition, UNIVERSITY shall assign to PIERIS the entirety of its share in JOINT INVENTIONS per § 7.3.b). In exchange, PIERIS shall pay royalties per § 9.

7.6 On licensed UNIVERSITY INVENTIONS and assigned JOINT INVENTIONS, PIERIS shall grant the UNIVERSITY and its participating co-workers a free, non-transferable, non-exclusive research and teaching licence subject to the provisions of the confidentiality undertaking (co-worker declaration) and, to the same extent, the right to use all activity results. This precludes the right to perform contract research for third parties as well as any research projects and cooperative research activities that would involve the transfer of research results to commercial third parties.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

7.7 The MATERIAL generated by the UNIVERSITY in the course of the PROJECTS shall be disclosed to PIERIS as soon as possible, completely and comprehensively, handed over in its original form or copies thereof, and made over, along with the use rights necessary for its exploitation. Within its legal possibilities, UNIVERSITY shall make certain by appropriate measures that the employees report inventions in compliance with Employee Inventions Act § 5.

7.8 For JOINT INVENTIONS and UNIVERSITY INVENTIONS per § 7.3.b) and c), UNIVERSITY shall promptly inform PIERIS of reports submitted in compliance with Employee Inventions Act § 5, indicating the date of the invention report and the names of the persons involved. PIERIS shall promptly send to the University a written acknowledgment indicating the date the information was received.

7.9 PIERIS shall advise the University whether it is interested in these inventions. PIERIS shall provide a corresponding written statement within a maximum of [***] after having received the information from UNIVERSITY. After a positive assessment by PIERIS, UNIVERSITY shall claim unrestricted ownership of the invention. UNIVERSITY shall ensure compensation of its employed inventors in accordance with the Employee Inventions Act. If within the stated time limit PIERIS does not assess or positively assess a reported invention, the UNIVERSITY shall have exclusive rights to the invention concerned or to the corresponding share in the invention.

7.10 The patent rights, once claimed, shall be listed in Appendix 5.

7.11 The exclusive licence for UNIVERSITY INVENTIONS includes the right to file a patent or utility-patent application for such UNIVERSITY INVENTIONS in the name of the UNIVERSITY and to use them for research, development as well as any commercial or other exploitation.

7.12 “Exploitation” as defined for the purpose of this Agreement includes the use, manufacture, out-sourced manufacture, sub-licensing, advertising, marketing, selling, renting, leasing and any other paid-for utilisation of the JOINT INVENTIONS and/or UNIVERSITY INVENTIONS. Paid-for utilisation also includes valuable consideration generated by PIERIS or its sub-licensees through the use of the contractual patent rights in connection with cross-licensing, arm’s-length agreements and all other contracts with third parties which contain a negative or positive licence or which are secured on the basis of court proceedings (before a court of justice and/or an arbitration tribunal) and in judicial and/or extrajudicial adjustment procedures. Any exploitation should take place under standard commercial conditions. Valuable consideration does not include R&D expenses paid by third parties to PIERIS.

Portions of the exhibit, indicated by the mark “[***],” were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant’s application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

7.13 The Parties to this Agreement shall inform each other of any patent infringements of which they become aware and, in the event of an infringement and/or nullity suit, to compare notes on a

suitable approach. Neither Party shall have the obligation to take action against infringing persons. Should UNIVERSITY prefer not to take action against infringers, PIERIS shall be free, at its own expense, to take action against infringements of the patent rights. In that case, PIERIS shall promptly inform UNIVERSITY ahead of its action and UNIVERSITY shall immediately provide PIERIS with all necessary information, carrying out measures of its own, declarations and actions only as instructed by PIERIS.

7.14 [***] shall assume all reasonable or generally customary costs, [***], in connection with the patent application ([***]), defence and enforcement including all attorneys' fees verifiably paid or payable in connection with patents to which PIERIS has been granted exclusive rights, or if PIERIS itself pursues the assigned patent rights or has given its written consent to having an attorney handle the application and follow-up on the exclusively licensed patent rights. The selection of appropriate attorneys shall be made by [***]. [***] shall fully exempt the attorneys from the confidentiality obligation while requiring them to keep [***] informed.

7.15 If because of the use of intellectual property rights either Party is sued for the infringement of the rights of a third party, it shall immediately notify the respective other Party hereto. The respective other Party shall in any such case have the right to join in the legal dispute.

7.16 Should one of the Parties to this Agreement choose not to continue pursuing a patent, it shall so advise the respective other Party hereto early enough to enable the other Party to further pursue the patent concerned within a time limit of [***]. The Party concerned shall offer the respective other Party the assignment of the patent rights concerned under simultaneous recognition of a free, non-exclusive right to use the inventions/patent rights for its own research purposes (not including contract research for third parties nor exploitation per § 7.12) while, if applicable, providing the other Party hereto with the documentation needed for further pursuing the patent and submitting any other additionally required explanations. In the event of an assignment of the patent rights the receiving Party hereto shall exempt the other Party from its obligations vis-à-vis the latter's employed inventors. If the offer is accepted, the accepting Party shall defray the cost of maintaining the patent rights assigned to it. In addition, in the event of a reverse assignment, UNIVERSITY shall cover the investments made by PIERIS toward the development of the patent rights as well as all costs and fees incurred as of that date in connection with the patent, with UNIVERSITY only having to make these payments out of royalty income and other payments received from third parties relative to the patent, as well as out of

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

its own net proceeds analogously defined in § 9.5.4. The costs incurred by the UNIVERSITY for continuing the patent rights as well as a reasonable risk allowance shall be deducted from these payments.

§ 8
TERM OF THIS AGREEMENT

8.1 The individual PROJECT PHASES extend over a period of [***], to wit: PROJECT [***], PROJECT [***], and PROJECT [***]. If PIERIS intends to extend the Research Agreement, it shall so inform the UNIVERSITY by [***]. Thereupon, [***].

8.2 The licensing provisions of this Agreement set forth in §§ 7 and 9 shall remain in effect until the patent concerned expires or at least for as long as royalties have to be paid according to § 9, unless this Agreement is prematurely cancelled in its entirety or for individual patents. The stipulations regarding publication and confidentiality per §§ 5 and 6 shall become void [***] after the expiration of the specific PROJECT PHASE concerned.

8.3 The Parties to this Agreement may prematurely cancel the licensing arrangements for cause only. On the part of the UNIVERSITY, such cause exists if, a written reminder and a reasonable deadline notwithstanding, PIERIS has failed [***] to pay the fees due according to the Agreement. The notice of cancellation must be in writing and delivered via registered mail. PIERIS may cancel the Licensing Agreement for individual and/or all licensed patent rights at [***] notice as of the end of a month. No such right to cancel exists with regard to patents assigned to PIERIS, but PIERIS shall have the right to offer such patents per 7.16 for reverse assignment to the UNIVERSITY.

§ 9
License Fees

9.1 In exchange for the assignment or licensing of shares in JOINT INVENTIONS and/or UNIVERSITY INVENTIONS by UNIVERSITY to PIERIS, a remuneration along a licence model per §§ 9.3 – 9.6 shall be payable. To the extent that it relates to UNIVERSITY INVENTIONS, the licence model shall apply in full. In the case of JOINT INVENTIONS, the license fee amounts shown shall be prorated according to the proportion of the invention contributed by UNIVERSITY.

Portions of the exhibit, indicated by the mark "[***]," were omitted and have been filed separately with the Securities and Exchange Commission pursuant to the Registrant's application requesting confidential treatment pursuant to Rule 24b-2 of the Securities Exchange Act of 1934, as amended.

9.2 The payments required per §§ 9.3 – 9.6 shall not begin until the time of the first patent application and end upon expiration of the longest-running patent.

9.3 If a licensed or assigned patent is legally declared null and void, no further license fee payments shall be due for that particular patent. PIERIS cannot require repayment of fees paid per § 9.

9.4 For all patents covered under this Agreement, PIERIS shall make the following [***] license fee payment in the year concerned (all amounts shown below are in Euros), if no other income has been or is being generated through sales revenues or other valuations, the total of which results in an income for UNIVERSITY that exceeds the respective annually payable minimum license fee according to the following table (if the total amount of such other income is higher than the minimum license fee for a given year, the excess amount shall be applied toward the minimum license fee for the subsequent years):

§ 11
MISCELLANEOUS

11.1 This Agreement in its present wording definitively governs the relations between the Parties with regard to the object of the Agreement. Collateral parol evidence does not exist or is voided. 11.2 Should one or more of the provisions of this Agreement be or become invalid, the Parties shall be obligated to replace the invalid provisions with other, valid provisions the financial result of which comes so close to that of the invalid provisions that the Parties can be reasonably expected to have signed the Agreement with that clause as well.

If such a solution cannot be found, the invalidity of one or several provisions of the Agreement shall not affect the validity of this Agreement in its entirety unless the significance of the invalid provisions is such that the Parties could be reasonably expected not to have signed this Agreement without the invalid stipulations.

11.3 Any disputes arising in connection with this Research and Licensing Agreement, its interpretation or execution or its validity, relating in particular to proprietary rights to the inventions per § 7, shall be negotiated and finally decided in the German language, admitting of no legal appeal, by an arbitration tribunal with three arbitrators, in accordance with the Arbitration Rules of the Deutsche Institution für Schiedsgerichtbarkeit e.V. EXHIBIT 10.10

INDEMNIFICATION AGREEMENT

THIS INDEMNIFICATION AGREEMENT (this "Agreement") is made and entered into this day of , 2014, by and between Pieris Pharmaceuticals, Inc., a Nevada corporation (the "Company"), and ("Indemnitee").

WHEREAS, qualified persons are reluctant to serve corporations as directors, officers or otherwise unless they are provided with broad indemnification and insurance against claims arising out of their service to and activities on behalf of such corporations; and

WHEREAS, the Company has determined that attracting and retaining such persons is in the best interests of the Company's stockholders and that it is reasonable, prudent and necessary for the Company to indemnify such persons to the fullest extent permitted by applicable law and to provide reasonable assurance regarding insurance;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Company and Indemnitee, each intending to be legally bound, hereby agree as follows:

1. Defined Terms; Construction.

(a) Defined Terms. As used in this Agreement, the following terms shall have the following meanings:

"Board of Directors" means the Board of Directors of the Company.

"Change in Control" means, and shall be deemed to have occurred if, on or after the date of this Agreement, (i) any "person" (as such term is used in Sections 13(d) and 14(d) of the Exchange Act, as amended), other than (A) a trustee or other fiduciary holding securities under an employee benefit plan of the Company or any of its subsidiaries acting in such capacity, or (B) a corporation owned directly or indirectly by the stockholders of the Company in substantially the same proportions as their ownership of stock of the Company, is or becomes the "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing more than twenty percent (20%) of the total voting power represented by the Company's then outstanding Voting Securities, (ii) during any period of two (2) consecutive years, individuals who at the beginning of any such period constitute the Board of Directors and any new director whose election by the Board of Directors or nomination for election by the Company's stockholders was approved by a resolution of at least two-thirds (2/3) of the directors then still in office who either were directors at the beginning of the period or whose election or nomination for election was previously so approved, cease for any reason to constitute a majority thereof, (iii) the stockholders of the Company approve a merger or consolidation of the Company with any other entity other than a merger or consolidation that would result in the Voting Securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into Voting Securities of the surviving entity) at least eighty percent (80%) of the total voting power represented by the Voting Securities of the Company or such surviving entity outstanding immediately after such merger or consolidation, (iv) the stockholders of the Company approve a plan of complete liquidation of the Company or an agreement for the sale or disposition by the

Company (in one (1) transaction or a series of related transactions) of all or substantially all of its assets, or (v) the Company shall file or have filed against it, and such filing shall not be dismissed, any bankruptcy, insolvency or dissolution proceedings, or a trustee, administrator or creditors committee shall be appointed to manage or supervise the affairs of the Company.

"Corporate Status" means the status of a person who is, becomes, was or may be deemed to be a director (or a member of any committee of the Board of Directors), officer, employee or agent (including without limitation a manager of a limited liability company or general partner of a limited partnership) of the Company or any of its subsidiaries, or of any predecessor thereof, or is, begins or was serving at the request of the Company as a director (or a member of any committee of the Board of Directors), officer, employee or agent (including without limitation a manager of a limited liability company) of another entity, or of any predecessor thereof, including service with respect to an employee benefit plan.

"Determination" means a determination that either (x) there is a reasonable basis for the conclusion that indemnification of Indemnitee is proper in the circumstances because Indemnitee met a particular standard of conduct (a "Favorable Determination") or (y) there is no reasonable basis for the conclusion that indemnification of Indemnitee is proper in the circumstances because Indemnitee met a particular standard of conduct (an "Adverse Determination"). An Adverse Determination shall include the decision that a Determination was required in connection with indemnification and the decision as to the applicable standard of conduct.

"Exchange Act" means the Securities Exchange Act of 1934, as amended.

"Expenses" means all (i) attorneys' fees and expenses, retainers, court, arbitration and mediation costs, transcription costs, fees and expenses of experts, witness and public relations consultants bonds and fees, traveling expenses, costs of collecting and producing documents, duplication costs, printing and binding costs, telephone charges, postage, delivery service fees and all other disbursements or expenses of the types customarily incurred in connection with prosecuting, defending, preparing to prosecute or defend, investigating, being or preparing to be a witness in, appealing or otherwise participating in a Proceeding or responding to, or objecting to, a request to provide discovery in any Proceeding, (ii) damages, judgments, fines and amounts paid in settlement and any other amounts that Indemnitee becomes legally obligated to pay (including any federal, state or local taxes and ERISA excise taxes imposed on Indemnitee as a result of receipt of reimbursements or advances of expenses under this Agreement) and (iii) the premium, security for, and other costs relating to any costs bond, supersedes bond or other appeal bond or its equivalent, whether civil, criminal, arbitrational, administrative or investigative with respect to any Proceeding actually and reasonably incurred by Indemnitee, or on Indemnitee's behalf, because of any claim or claims made against or by him in connection with any Proceeding, whether formal or informal (including an action by or in the right of the Company), to which Indemnitee is, was or at any time becomes a party or a witness, or is threatened to be made a party to, participant in or a witness with respect to, by reason of Indemnitee's Corporate Status.

"Independent Legal Counsel" means an attorney or firm of attorneys competent to render an opinion under the applicable law, selected in accordance with the provisions of Section 5(e), who has not performed any services (other than services similar to those contemplated to be performed by Independent Legal Counsel under this Agreement) for the Company or any of its subsidiaries or for Indemnitee within the last three years.

"NRS" means the Nevada Revised Statutes, as amended from time to time.

"Proceeding" means a threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, including without limitation a claim, demand, discovery request, formal or informal investigation, inquiry, administrative hearing, arbitration or other form of alternative dispute resolution, including an appeal from any of the foregoing.

"Voting Securities" means any securities of the Company that vote generally in the election of directors.

(b) Construction. For purposes of this Agreement,

(i) References to the Company and any of its "subsidiaries" shall include any corporation, limited liability company, partnership, joint venture, trust or other entity or enterprise that before or after the date of this Agreement is party to a merger or consolidation with the Company or any such subsidiary or that is a successor to the Company as contemplated by Section 8(e) (whether or not such successor has executed and delivered the written agreement contemplated by Section 8(e)).

(ii) References to "fines" shall include any excise taxes assessed on Indemnitee with respect to an employee benefit plan.

(iii) References to a "witness" in connection with a Proceeding shall include any interviewee or person called upon to produce documents in connection with such Proceeding.

2. Agreement to Serve.

Indemnitee agrees to serve as a director of the Company, an officer of the Company, or both, and/or to serve as a director, officer or both of one or more of the Company's subsidiaries and in such other capacities as Indemnitee may serve at the request of the Company from time to time, and by its execution of this Agreement the Company confirms its request that Indemnitee serve as a director, officer and in such other capacities. Indemnitee shall be entitled to resign or otherwise terminate such service with immediate effect at any time, and neither such resignation, termination nor the length of such service shall affect Indemnitee's rights under this Agreement. This Agreement shall not constitute an employment agreement, supersede any employment agreement to which Indemnitee is a party or create any right of Indemnitee to continued employment or appointment.

3. Indemnification.

(a) General Indemnification. The Company shall indemnify Indemnitee, to the fullest extent permitted by applicable law in effect on the date hereof or as amended to increase the scope of permitted indemnification, against Expenses, losses, liabilities, judgments,

fines, penalties and amounts paid in settlement (including all interest, taxes, assessments and other charges in connection therewith) incurred by Indemnitee or on Indemnitee's behalf in connection with any Proceeding connected with, resulting from or relating to Indemnitee's Corporate Status.

(b) Additional Indemnification Regarding Expenses. Without limiting the foregoing, in the event any Proceeding is initiated by Indemnitee, the Company or any other person (as such term is used in Sections 13(d) and 14(d) of the Exchange Act) to enforce or interpret this Agreement or any rights of Indemnitee to indemnification or advancement of Expenses (or related obligations of Indemnitee) under the Company's or any such subsidiary's articles or certificate of incorporation, bylaws or other organizational agreement or instrument of the Company, any other agreement to which Indemnitee and the Company or any of its subsidiaries are party, any vote of the stockholders or resolution of the directors of the Company or any of its subsidiaries, the NRS, any other applicable law or any liability insurance policy, the Company shall indemnify Indemnitee against Expenses incurred by Indemnitee or on Indemnitee's behalf in connection with such Proceeding in proportion to the success achieved by Indemnitee in such Proceeding and the efforts required to obtain such success, as determined by the court presiding over such Proceeding.

(c) Partial Indemnification. If Indemnitee is entitled under any provision of this Agreement to indemnification by the Company for a portion of any Expenses, losses, liabilities, judgments, fines, penalties and amounts paid in settlement incurred by Indemnitee, but not for the total amount thereof, the Company shall nevertheless indemnify Indemnitee for such portion.

(d) Nonexclusivity. The indemnification provided by this Agreement shall not be deemed exclusive of any rights to which Indemnitee may be entitled under the certificate of incorporation, bylaws or other organizational agreement or instrument of the Company or any of its subsidiaries, any other agreement, any vote of the stockholders or resolution of the directors, the NRS, any other applicable law or any liability insurance policy.

(e) Exceptions. Any other provision herein to the contrary notwithstanding, the Company shall not be obligated under the Agreement to indemnify Indemnitee:

(i) For Expenses incurred in connection with Proceedings initiated or brought voluntarily by Indemnitee and not by way of defense, counterclaim or crossclaim, except (x) as contemplated by Section 3(b), (y) in specific cases if the Board of Directors has approved the initiation or bringing of such Proceeding, and (z) as may be required by law.

(ii) For an accounting of profits arising from the purchase and sale by Indemnitee of securities within the meaning of Section 16(b) of the Exchange Act, or any similar provisions of any federal, state or local law if the final, non-appealable judgment of a court of competent jurisdiction finds Indemnitee to be liable for disgorgement under such Section 16(b).

(iii) On account of Indemnitee's acts or omissions that are established by a final adjudication as involving intentional misconduct, fraud or a knowing violation of the law and, in each case, that was material to the cause of action.

(iv) For which payment is actually made to Indemnitee under a valid and collectible insurance policy or under a valid and enforceable indemnity clause, bylaw or agreement, except in respect of any excess beyond payment actually received by Indemnitee under such insurance, clause, bylaw or agreement.

(v) if and to the extent indemnification is prohibited by applicable law.

(f) Subrogation. In the event of payment under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of Indemnitee, who shall execute such documents and do such acts as the Company may reasonably request to secure such rights and to enable the Company effectively to bring suit to enforce such rights.

4. Advancement of Expenses.

To the fullest extent permitted by law, the Company shall pay all Expenses incurred by Indemnitee in connection with any Proceeding connected with, resulting from or relating to Indemnitee's Corporate Status, other than a Proceeding initiated by Indemnitee for which the Company would not be obligated to indemnify Indemnitee pursuant to Section 3(e)(i), in advance of the final disposition (in accordance with Section 5(c)) of such Proceeding and without regard to whether Indemnitee will ultimately be entitled to be indemnified for such Expenses and without regard to whether an Adverse Determination has been made, except as contemplated by the last sentence of Section 5(f). The right to advances under this Section 4 shall in all instances continue until final disposition of any Proceeding, including any appeal therein. Advances shall be made without regard to Indemnitee's ability to repay the Expenses and without regard to Indemnitee's ultimate entitlement to indemnification under the other provisions of this Agreement. Indemnitee shall qualify for advances upon the execution and delivery to the Company of this Agreement, and Indemnitee shall repay such amounts advanced only if and to the extent that it shall ultimately be determined in a decision by a court of competent jurisdiction from which no appeal can be taken that Indemnitee is not entitled to be indemnified by the Company for such Expenses. The right to advancement described in this Section 4 is vested. Any repayment obligation shall be unsecured and shall not bear interest. The Company shall not impose on Indemnitee any additional conditions to advancement or require from Indemnitee additional undertakings regarding repayment.

5. Indemnification Procedure.

(a) Notice of Proceeding; Cooperation. Indemnitee shall give the Company notice in writing as soon as practicable, and in any event, no later than thirty (30) days after Indemnitee becomes aware, of any Proceeding for which indemnification will or could be sought under this Agreement, provided that any failure or delay in giving such notice shall not relieve the Company of its obligations under this Agreement unless and to the extent that (i) none of the Company and its subsidiaries are party to or aware of such Proceeding and (ii) the Company is materially prejudiced by such failure or delay.

(b) Settlement. The Company will not, without the prior written consent of Indemnitee, which may be provided or withheld in Indemnitee's sole discretion, effect any settlement of any Proceeding against Indemnitee or which could have been brought against Indemnitee unless such settlement solely involves the payment of money by persons other than Indemnitee and includes an unconditional release of Indemnitee from all liability on any matters that are the subject of such Proceeding and an acknowledgment that Indemnitee denies all wrongdoing in connection with such matters. The Company shall not be obligated to indemnify Indemnitee against amounts paid in settlement of a Proceeding against Indemnitee if such settlement is effected by Indemnitee without the Company's prior written consent, which shall not be unreasonably withheld.

(c) Request for Payment; Timing of Payment. To obtain indemnification payments or advances under this Agreement, Indemnitee shall submit to a Company a written request therefor, together with such invoices or other supporting information as may be reasonably requested by the Company and reasonably available to Indemnitee. The Company shall make indemnification payments to Indemnitee no later than sixty (60) days, and advances to Indemnitee no later than twenty (20) days, after receipt of such written request from Indemnitee.

(d) Determination. The Company intends that Indemnitee shall be indemnified to the fullest extent permitted by applicable law as provided in Section 3 and that no Determination shall be required in connection with such indemnification. In no event shall a Determination be required in connection with the advancement of Expenses pursuant to Section 4 or in connection with the indemnification for Expenses incurred as a witness or incurred in connection with any Proceeding or portion thereof with respect to which Indemnitee has been successful on the merits or otherwise. Any decision that a Determination is required by law in connection with any other indemnification of Indemnitee, and any such Determination, shall be made within thirty (30) days after receipt of Indemnitee's written request for indemnification, as follows:

(i) If no Change in Control has occurred, (w) by a resolution of a majority of the directors of the Company who are not parties to such Proceeding, even if less than a quorum, with the advice of Independent Legal Counsel, or (x) by a committee of such directors designated by a resolution of a majority of such directors, even if less than a quorum, with the advice of Independent Legal Counsel, or (y) if there are no such directors, or if such directors so direct, by Independent Legal Counsel in a written opinion to the Company and Indemnitee, or (z) by the vote of holders of shares of capital stock of the Company then outstanding that vote generally in the election of directors.

(ii) If a Change in Control has occurred, by Independent Legal Counsel in a written opinion to the Company and Indemnitee.

The Company shall pay all Expenses incurred by Indemnitee in connection with a Determination.

(e) Independent Legal Counsel. If there has not been a Change in Control, Independent Legal Counsel shall be selected by the Board of Directors and approved by

Indemnitee (which approval shall not be unreasonably withheld or delayed). If there has been a Change in Control, Independent Legal Counsel shall be selected by Indemnitee and approved by the Company (which approval shall not be unreasonably withheld or delayed). The Company shall pay the fees and expenses of Independent Legal Counsel and indemnify Independent Legal Counsel against any and all expenses (including attorneys' fees), claims, liabilities and damages arising out of or relating to its engagement.

(f) Consequences of Determination; Remedies of Indemnitee. The Company shall be bound by and shall have no right to challenge a Favorable Determination. If an Adverse Determination is made, or if for any other reason the Company does not make timely indemnification payments or advances of Expenses, Indemnitee shall have the right to commence a Proceeding before a court of competent jurisdiction to challenge such Adverse Determination and/or to require the Company to make such payments or advances. Indemnitee shall be entitled to be indemnified for all Expenses incurred in connection with such a Proceeding in accordance with Section 3(b) and to have such Expenses advanced by the Company in accordance with Section 4. If Indemnitee fails to timely challenge an Adverse Determination, or if Indemnitee challenges an Adverse Determination and such Adverse Determination has been upheld by a final judgment of a court of competent jurisdiction from which no appeal can be taken, then, to the extent and only to the extent required by such Adverse Determination or final judgment, the Company shall not be obligated to indemnify or advance Expenses to Indemnitee under this Agreement.

(g) Presumptions; Burden and Standard of Proof. In connection with any Determination, or any review of any Determination, by any person, including a court:

(i) It shall be a presumption that a Determination is not required.

(ii) It shall be a presumption that Indemnitee has met the applicable standard of conduct and that indemnification of Indemnitee is proper in the circumstances.

(iii) The burden of proof shall be on the Company to overcome the presumptions set forth in the preceding clauses (i) and (ii), and each such presumption shall only be overcome if the Company establishes that there is no reasonable basis to support it.

(iv) The termination of any Proceeding by judgment, order, finding, settlement (whether with or without court approval) or conviction, or upon a plea of *nolo contendere*, or its equivalent, shall not create a presumption that indemnification is not proper or that Indemnitee did not meet the applicable standard of conduct or that a court has determined that indemnification is not permitted by this Agreement or otherwise.

(v) Neither the failure of any person or persons to have made a Determination nor an Adverse Determination by any person or persons shall be a defense to Indemnitee's claim or create a presumption that Indemnitee did not meet the applicable standard of conduct, and any Proceeding commenced by Indemnitee pursuant to Section 5(f) shall be *de novo* with respect to all determinations of fact and law.

6. Directors and Officers Liability Insurance.

(a) Maintenance of Insurance. So long as the Company or any of its subsidiaries maintains liability insurance for any directors, officers, employees or agents of any such person, the Company shall ensure that Indemnitee is covered by such insurance in such a manner as to provide Indemnitee the same rights and benefits as are accorded to the most favorably insured of the Company's and its subsidiaries' then current directors and officers. If at any date (i) such insurance ceases to cover acts and omissions occurring during all or any part of the period of Indemnitee's Corporate Status or (ii) neither the Company nor any of its subsidiaries maintains any such insurance, the Company shall ensure that Indemnitee is covered, with respect to acts and omissions prior to such date, for at least six years (or such shorter period as is available on commercially reasonable terms) from such date, by other directors and officers liability insurance, in amounts and on terms (including the portion of the period of Indemnitee's Corporate Status covered) no less favorable to Indemnitee than the amounts and terms of the liability insurance maintained by the Company on the date hereof.

(b) Notice to Insurers. Upon receipt of written notice of a Proceeding pursuant to Section 5(a), the Company shall give or cause to be given prompt notice of such Proceeding to all insurers providing liability insurance in accordance with the procedures set forth in all applicable or potentially applicable policies. The Company shall thereafter take all necessary action to cause such insurers to pay all amounts payable in accordance with the terms of such policies.

7. Exculpation, etc.

(a) Limitation of Liability. The liability of directors and officers of the Company shall be eliminated or limited to the fullest extent permitted by the NRS. If the NRS or such other applicable law shall be amended to permit further elimination or limitation of or authorize corporate action further eliminating or limiting the personal liability of directors and/or officers, then the liability of Indemnitee shall, automatically, without any further action, be eliminated or limited to the fullest extent permitted by the NRS or such other applicable law as so amended.

(b) Period of Limitations. No legal action shall be brought and no cause of action shall be asserted by or in the right of the Company or any of its subsidiaries against Indemnitee or Indemnitee's estate, spouses, heirs, executors, personal or legal representatives, administrators or assigns after the expiration of two (2) years from the date of accrual of such cause of action, and any claim or cause of action of the Company shall be extinguished and deemed released unless asserted by the timely filing of a legal action within such two (2) year period, *provided, however*, that if any shorter period of limitations is otherwise applicable to any such cause of action, such shorter period shall govern.

8. Miscellaneous.

(a) Non-Circumvention. The Company shall not seek or agree to any order of any court or other governmental authority that would prohibit or otherwise interfere, and shall not take or fail to take any other action if such action or failure would reasonably be expected to have the effect of prohibiting or otherwise interfering, with the performance of the Company's indemnification, advancement or other obligations under this Agreement.

(b) Severability. (b) Company's Obligations.

(i) Payments of Accrued Obligations upon Termination of Employment. Upon a termination of Executive's employment for any reason, Executive (or Executive's estate or legal representative, as applicable) shall be entitled to receive, within ten (10) days after the date Executive terminates employment with the Company (or such earlier date as may be required by applicable law): (i) any portion of Executive's annual base salary earned through Executive's termination date not theretofore paid, (ii) any expenses owed to Executive under Section 2(f) above, (iii) any accrued but unused vacation pay owed to Executive pursuant to Section 2(e) above, and (iv) any amount arising from Executive's participation in, or benefits under, any employee benefit plans, programs or arrangements under Section 2(d) above, which amounts shall be payable in accordance with the terms and conditions of such employee benefit plans, programs or arrangements.

(c) Severance Payments upon a Covered Termination Other Than During a Change in Control Period. If Executive experiences a Covered Termination at any time other than during a Change in Control Period, and if Executive executes and does not revoke during any applicable revocation period a general release of all claims against the Company and its Affiliates in a form acceptable to the Company (a "Release of Claims") within a reasonable period of time specified by the Company and in compliance with applicable law, following such Covered Termination, then in addition to any accrued obligations payable under Section 4(b)(i) above, the Company shall provide Executive with the following:

(A) Severance. Executive shall be entitled to receive an amount equal to (i) twelve (12) months of Executive's Base Salary in effect as of Executive's termination date plus (ii) Executive's Target Bonus Amount, pro-rated based on the total number of days elapsed in the calendar year as of the termination date, but only if, as of the date of Executive's termination of employment, the Company and Executive were "on target" to achieve all applicable performance goals for such annual bonus as determined by the Board or a committee of the Board in their sole discretion minus (iii) any amounts paid to Executive by Pieris Operating under the Management Agreement that would not be deemed Accrued Obligations if paid pursuant to this Agreement. Such amount will be subject to applicable withholdings and payable in a single lump sum cash payment on the first regular payroll date following the date the Release of Claims becomes effective and irrevocable or if the Executive is subject to Section 409A the date set forth in Section 10(a) hereof.

(B) Equity Awards. Each outstanding equity award, including, without limitation, each stock option held by Executive shall automatically become vested and, if applicable, exercisable and any forfeiture restrictions shall immediately lapse.

(C) Continued Healthcare. The Company shall notify Executive of any right to continue group health plan coverage sponsored by the Company or an Affiliate immediately prior to Executive's date of termination pursuant to the provisions of applicable law including, but not limited to, the provisions of the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended ("COBRA"). If Executive elects to receive such continued healthcare coverage, the Company shall directly pay, or reimburse Executive for, the premium for Executive and Executive' s covered dependents, less the amount of Executive's monthly premium contributions for such coverage prior to termination, for the period commencing on the first day of the first full calendar month following the date the Release of Claims becomes effective and irrevocable through the earlier of (i) the last day of the twelve (12) full calendar months following the date the Release of Claims becomes effective and irrevocable and (ii) the date Executive and Executive's covered dependents, if any, become eligible for healthcare coverage under another employer's plan(s). Executive shall notify the Company immediately if Executive becomes covered by a group health plan of a subsequent employer. After the Company ceases to pay premiums pursuant to this subsection, Executive may, if eligible, elect to continue healthcare coverage at Executive's expense in accordance the provisions of COBRA or other applicable law.

(d) Severance Payments upon a Covered Termination During a Change in Control Period. If Executive experiences a Covered Termination during a Change in Control Period, and if Executive executes and does not revoke during any applicable revocation period a Release of Claims within a reasonable period of time specified by the Company, following such Covered Termination, then in addition to any accrued obligations payable under Section 4(b)(i) above, the Company shall provide Executive with the following:

(A) Severance. Executive shall be entitled to receive an amount equal to (i) twelve (12) months of Executive's Base Salary in effect as of Executive's termination date plus (ii) Executive's Target Bonus Amount for the year of termination minus (iii) any amounts paid to Executive by Pieris Operating under the Management Agreement that would not be deemed Accrued Obligations if paid pursuant to this Agreement. Such amount will be subject to applicable withholdings and payable in a single lump sum cash payment on the first regular payroll date following the date the Release of Claims becomes effective and irrevocable or if the Executive is subject to Section 409A the date set forth in Section 10(a) hereof.

(B) Equity Awards. Each outstanding equity award, including, without limitation, each stock option held by Executive shall automatically become vested and, if applicable, exercisable and any forfeiture restrictions shall immediately lapse.

(C) Continued Healthcare. The Company shall notify Executive of any right to continue group health plan coverage sponsored by the Company or an Affiliate immediately prior to Executive's date of termination pursuant to the provisions of applicable law including, but not limited to, the provisions of COBRA. If Executive elects to receive such continued healthcare coverage, the Company shall directly pay, or reimburse Executive for, the premium for Executive and Executive' s covered dependents, less the amount of Executive's monthly premium contributions for such coverage prior to termination, for the period commencing on the first day of the first full calendar month following the date the Release of Claims becomes effective and irrevocable through the earlier of (i) the last day of the twelve (12) full calendar months following the date Release of Claims becomes effective and irrevocable and (ii) the date Executive and Executive's covered dependents, if any, become eligible for healthcare coverage under another employer's plan(s). Executive shall notify the Company immediately if Executive becomes covered by a group health plan of a subsequent employer. After the Company ceases to pay premiums pursuant to this subsection, Executive may, if eligible, elect to continue healthcare coverage at Executive's expense in accordance the provisions of COBRA or other applicable law.

(e) No Other Severance. The provisions of this Section 4 shall supersede in their entirety any severance payment or other arrangement provided by the Company, including, without limitation, any severance plan of the Company.

(f) No Requirement to Mitigate; Survival. Executive shall not be required to mitigate the amount of any payment provided for under this Agreement by seeking other employment or in any other manner. Notwithstanding anything to the contrary in this Agreement, the termination of Executive's employment shall not impair the rights or obligations of any party.

5. Limitation on Payments. Notwithstanding anything in this Agreement to the contrary, if any payment or distribution Executive would receive pursuant to this Agreement or otherwise ("Payment") would (a) constitute a "parachute payment" within the meaning of Section 280G of the Internal Revenue Code of 1986, as amended (the "Code"), and (b) but for this sentence, be subject to the excise tax imposed by Section 4999 of the Code (the "Excise Tax"), then the Company shall cause to be determined, before any amounts of the Payment are paid to Executive, which of the following alternative forms of payment would maximize Executive's after-tax proceeds: (i) payment in full of the entire amount of the Payment (a "Full Payment"), or (ii) payment of only a part of the Payment so that Executive receives that largest Payment possible without being subject to the Excise Tax (a "Reduced Payment"), whichever of the foregoing amounts, taking into account the applicable federal, state and local income taxes and the Excise Tax (all computed at the highest marginal rate, net of the maximum reduction in

federal income taxes which could be obtained from a deduction of such state and local taxes), results in Executive's receipt, on an after-tax basis, of the greater amount of the Payment, notwithstanding that all or some portion the Payment may be subject to the Excise Tax.

(a) The independent registered public accounting firm engaged by the Company for general audit purposes as of the day prior to the effective date of the Change in Control shall make all determinations required to be made under this Section 5. If the independent registered public accounting firm so engaged by the Company is serving as accountant or auditor for the individual, group or entity effecting the Change in Control, the Company shall appoint a nationally recognized independent registered public accounting firm to make the determinations required hereunder. The Company shall bear all expenses with respect to the determinations by such independent registered public accounting firm required to be made hereunder.

(b) The independent registered public accounting firm engaged to make the determinations hereunder shall provide its calculations, together with detailed supporting documentation, to the Company and Executive at such time as requested by the Company or Executive. If the independent registered public accounting firm determines that no Excise Tax is payable with respect to a Payment, either before or after the application of the Reduced Payment, it shall furnish the Company and Executive with an opinion reasonably acceptable to Executive that no Excise Tax will be imposed with respect to such Payment. Any good faith determinations of the accounting firm made hereunder shall be final, binding and conclusive upon the Company and Executive.

6. Successors.

(a) Company's Successors. Any successor to the Company (whether direct or indirect and whether by purchase, merger, consolidation, liquidation or otherwise) to all or substantially all of the Company's business and/or assets shall assume the obligations under this Agreement and agree expressly to perform the obligations under this Agreement in the same manner and to the same extent as the Company would be required to perform such obligations in the absence of a succession. For all purposes under this Agreement, the term "Company" shall include any successor to the Company's business and/or assets which executes and delivers the assumption agreement described in this Section 6(a) or which becomes bound by the terms of this Agreement by operation of law.

(b) Executive's Successors. The terms of this Agreement and all rights of Executive hereunder shall inure to the benefit of, and be enforceable by, Executive's personal or legal representatives, executors, administrators, successors, heirs, distributees, devisees and legatees.

7. Notices. Notices and all other communications contemplated by this Agreement shall be in writing and shall be deemed to have been duly given when personally delivered or one day following mailing via Federal Express or similar overnight courier service. In the case of

Executive, mailed notices shall be addressed to Executive at Executive's home address that the Company has on file for Executive. In the case of the Company, mailed notices shall be addressed to its corporate headquarters, and all notices shall be directed to the attention of the Chairman of the Compensation Committee of the Company.

8. Dispute Resolution. To ensure the timely and economical resolution of disputes that arise in connection with this Agreement, Executive and the Company agree that any and all disputes, claims, or causes of action arising from or relating to the enforcement, breach, performance or interpretation of this Agreement, Executive's employment, or the termination of Executive's employment, shall be resolved to the fullest extent permitted by law by final, binding and confidential arbitration, by a single arbitrator, in New York, New York, conducted by Judicial Arbitration and Mediation Services, Inc. ("JAMS") under the applicable JAMS employment rules. **By agreeing to this arbitration procedure, both Executive and the Company waive the right to resolve any such dispute through a trial by jury or judge or administrative proceeding**. The arbitrator shall: (i) have the authority to compel adequate discovery for the resolution of the dispute and to award such relief as would otherwise be permitted by law; and (ii) issue a written arbitration decision, to include the arbitrator's essential findings and conclusions and a statement of the award. The arbitrator shall be authorized to award any or all remedies that Executive or the Company would be entitled to seek in a court of law. The Company shall pay all JAMS' arbitration fees in excess of the amount of court fees that would be required if the dispute were decided in a court of law. Nothing in this Agreement is intended to prevent either Executive or the Company from obtaining injunctive relief in court to prevent irreparable harm pending the conclusion of any such arbitration. Notwithstanding the foregoing, Executive and the Company each have the right to resolve any issue or dispute over intellectual property rights by Court action instead of arbitration.

9. Miscellaneous Provisions.

(a) Withholdings and Offsets. The Company shall be entitled to withhold from any amounts payable under this Agreement any federal, state, local or foreign withholding or other taxes or charges which the Company is required to withhold. The Company shall be entitled to rely on an opinion of counsel if any questions as to the amount or requirement of withholding shall arise.

(b) Waiver. No provision of this Agreement shall be modified, waived or discharged unless the modification, waiver or discharge is agreed to in writing and signed by Executive and by an authorized officer of the Company (other than Executive). No waiver by either party of any breach of, or of compliance with, any condition or provision of this Agreement by the other party shall be considered a waiver of any other condition or provision or of the same condition or provision at another time.

(c) Whole Agreement. This Agreement represents the entire understanding of the parties hereto with respect to the subject matter hereof and supersede all prior arrangements and understandings regarding same, including, without limitation, any severance plan of the Company.

(d) Choice of Law. The validity, interpretation, construction and performance of this Agreement shall be governed by the laws of the State of Nevada.

(e) Severability. The finding by a court of competent jurisdiction of the unenforceability, invalidity or illegality of any provision of this Agreement shall not render any other provision of this Agreement unenforceable, invalid or illegal. Such court shall have the authority to modify or replace the invalid or unenforceable term or provision with a valid and enforceable term or provision which most accurately represents the intention of the parties hereto with respect to the invalid or unenforceable term or provision.

(f) Interpretation; Construction. The headings set forth in this Agreement are for convenience of reference only and shall not be used in interpreting this Agreement. This Agreement has been drafted by legal counsel representing the Company, but Executive has been encouraged to consult with, and has consulted with, Executive's own independent counsel and tax advisors with respect to the terms of this Agreement. The parties hereto acknowledge that each party hereto and its counsel has reviewed and revised, or had an opportunity to review and revise, this Agreement, and any rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement.

(g) Representations; Warranties. Executive represents and warrants that Executive is not restricted or prohibited, contractually or otherwise, from entering into and performing each of the terms and covenants contained in this Agreement, and that Executive's execution and performance of this Agreement will not violate or breach any other agreements between Executive and any other person or entity and that Executive has not engaged in any act or omission that could be reasonably expected to result in or lead to an event constituting "Cause" for purposes of this Agreement.

(h) Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together will constitute one and the same instrument.

10. Section 409A. The intent of the parties is that the payments and benefits under this Agreement comply with or be exempt from Section 409A of the Code and the Department of Treasury regulations and other interpretive guidance issued thereunder, including without limitation any such regulations or other guidance that may be issued after the Effective Date, ("Section 409A") and, accordingly, to the maximum extent permitted, this Agreement shall be interpreted to be in compliance therewith. If the Company determines that any provision of this Agreement would cause Executive to incur any additional tax or interest under Section 409A (with specificity as to the reason therefor), the Company and Executive shall take commercially reasonable efforts to reform such provision to try to comply with or be exempt

from Section 409A through good faith modifications to the minimum extent reasonably appropriate to conform with Section 409A, *provided* that any such modifications shall not increase the cost or liability to the Company. To the extent that any provision hereof is modified in order to comply with or be exempt from Section 409A, such modification shall be made in good faith and shall, to the maximum extent reasonably possible, maintain the original intent and economic benefit to Executive and the Company of the applicable provision without violating the provisions of Section 409A.

(a) Separation from Service. Notwithstanding any provision to the contrary in this Agreement, no amount deemed deferred compensation subject to Section 409A of the Code shall be payable pursuant to Section 4 unless Executive's termination of employment constitutes a "separation from service" with the Company within the meaning of Section 409A ("Separation from Service") and, except as provided under Section 10(b) of this Agreement, any such amount shall not be paid, or in the case of installments, commence payment, until the sixtieth (60th) day following Executive's Separation from Service. Any installment payments that would have been made to Executive during the sixty (60) day period immediately following Executive's Separation from Service but for the preceding sentence shall be paid to Executive on the sixtieth (60th) day following Executive's Separation from Service and the remaining payments shall be made as provided in this Agreement.

(b) Specified Employee. Notwithstanding any provision to the contrary in this Agreement, if Executive is deemed at the time of his or her separation from service to be a "specified employee" for purposes of Section 409A(a)(2)(B)(i) of the Code, to the extent delayed commencement of any portion of the benefits to which Executive is entitled under this Agreement is required in order to avoid a prohibited distribution under Section 409A(a)(2)(B)(i) of the Code, such portion of Executive's benefits shall not be provided to Executive prior to the earlier of (a) the expiration of the six (6)-month period measured from the date of Executive's Separation from Service or (b) the date of Executive's death. Upon the first day of the seventh month following the date of the Executive's separation from service, all payments deferred pursuant to this Section 10(b) shall be paid in a lump sum to Executive, and any remaining payments due under this Agreement shall be paid as otherwise provided herein.

(c) Expense Reimbursements. To the extent that any reimbursements payable pursuant to this Agreement are subject to the provisions of Section 409A, any such reimbursements payable to Executive pursuant to this Agreement shall be paid to Executive no later than December 31 of the year following the year in which the expense was incurred, the amount of expenses reimbursed in one year shall not affect the amount eligible for reimbursement in any subsequent year, and Executive's right to reimbursement under this Agreement will not be subject to liquidation or exchange for another benefit.

(d) Installments. For purposes of Section 409A (including, without limitation, for purposes of Treasury Regulation Section 1.409A-2(b)(2)(iii)), Executive's right to receive any installment payments under this Agreement shall be treated as a right to receive a series of separate payments and, accordingly, each such installment payment shall at all times be considered a separate and distinct payment.

11. Definition of Terms. The following terms referred to in this Agreement shall have the following meanings:

(a) Affiliates. "Affiliates" means any of the Company's subsidiaries or joint ventures currently existing or which shall be established during Executive's employment by the Company.

(b) Cause. "Cause" means the occurrence of any of the following events, as determined by the Board or a committee designated by the Board, in its sole discretion: (i) Executive's commission of any felony or any crime involving fraud, dishonesty, or moral turpitude under the laws of Germany, the United States or any state thereof; (ii) Executive's attempted commission of, or participation in, a fraud against the Company; (iii) Executive's intentional, material violation of any contract or agreement between Executive and the Company or of any statutory duty owed to the Company; (iv) Executive's unauthorized use or disclosure of the Company's confidential information or trade secrets; or (v) Executive's gross misconduct.

(c) Change in Control. "Change in Control" means:

Ownership. Any "Person" (as such term is used in Sections 13(d) and 14(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act")) becomes the "Beneficial Owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 50% or more of the total voting power represented by the Company's then outstanding voting securities (excluding for this purpose any such voting securities held by the Company or its Affiliates or by any employee benefit plan of the Company) pursuant to a transaction or a series of related transactions which the Board of Directors does not approve; or

Merger/Sale of Assets. (A) A merger or consolidation of the Company whether or not approved by the Board of Directors, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior thereto continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or the parent of such corporation) more than 50% of the total voting power represented by the voting securities of the Company or such surviving entity or parent of such corporation, as the case may be, outstanding immediately after such merger or consolidation; or (B) the sale or disposition by the Company of all or substantially all of the Company's assets in a transaction requiring stockholder approval Notwithstanding the foregoing, a "Change in Control" must also constitute a "change in control event" as defined in Treasury Regulation §1.409A-3(i)(5).

(d) Change in Control Period. "Change in Control Period" means the period beginning with the agreement which if consummated is a Change in Control and ending twelve (12) months after the effective date of a Change in Control.

(e) Covered Termination. "Covered Termination" shall mean the termination of Executive's employment (i) by the Company other than for Cause, or (ii) by Executive for Good Reason.

(f) Competing Entity. "Competing Entity" shall mean any person or entity which is engaged in any phase of the business of developing, manufacturing and marketing of products which compete with the Company and/or any of its Affiliates.

(h) Good Reason. "Good Reason" means Executive's resignation from all positions he or she then holds with the Company if (i) (A) there is a material diminution in Executive's duties and responsibilities with the Company; (B) there is a material reduction of Executive's base salary; *provided*, *however*, that a material reduction in Executive's base salary pursuant to a salary reduction program affecting all or substantially all of the employees of the Company and that does not adversely affect Executive to a greater extent than other similarly situated employees shall not constitute Good Reason; or (C) Executive is required to relocate Executive's primary work location to a facility or location that would increase Executive's one-way commute distance by more than fifty (50) miles from Executive's primary work location as of immediately prior to such change, (ii) Executive provides written notice outlining such conditions, acts or omissions to the Company within thirty (30) days immediately following such material change or reduction, (iii) such material change or reduction is not remedied by the Company within thirty (30) days following the Company's receipt of such written notice and (iv) Executive's resignation is effective not later than thirty (30) days after the expiration of such thirty (30) day cure period.

(i) Good Standing. "Good Standing" means that Executive remains actively employed and (i) has not been given notice of the termination of employment; (ii) has not given notice of resignation or resigned; (iii) is not suspended by the Company for violation of its material policies and/or procedures and (iv) is not under investigation for conduct that could, in the Company's good faith determination, result in a suspension or termination for Cause.

Any termination must be in writing.

§ 2
Consulting Agreement

The Consulting Agreement dated June 7, 2006 between the Company and the MANAGER is hereby mutually lifted as of February 1, 2008 and shall no longer be in force after January 31, 2008. The Consulting Agreement shall be replaced by this Agreement as of February 1, 2008.

§ 3
Activity

1. The MANAGER shall be employed as Chief Financial Officer (*Vorstand*). The field of work shall cover especially financials, administration and human resources. The place of work is Freising.

2. The Company reserves the right also to assign other reasonable activities to the MANAGER which correspond to his training and his skills and which result in an alteration to the area of responsibility.

3. The MANAGER shall carry out his work in an expert and conscientious manner, shall safeguard the Company's interests and shall devote his full working capacity exclusively to the Company.

4. The Company is entitled to release the MANAGER at any time from his work with the continued payment of his gross basic remuneration according to § 5 (1).

§ 4
Working Hours

1. The MANAGER shall dedicate 75 % of his entire working capacity to the Company, at least 30 hours a week. The duration and the starting and finishing times of the daily working hours shall be determined by the MANAGER himself according to his set task within the respectively valid local working hours regulations, in which respect he must take account of operational interests and the respectively valid Company regulations.

2. The MANAGER is obliged to do overtime or additional work. Overtime is to be done as is required by the situation-related scope of work and in so far as this is legally permissible. The additional work is compensated by the regular salary according to § 5 (1).

§ 5
Salary, other benefits

1. The MANAGER shall receive for his contractual employment an annual gross salary of EUR 117,000 (in words: Euro one hundred and seventeen thousand), which shall be paid in twelve equal monthly installments.

2. In addition to the remuneration provided for under § 5 (1), the MANAGER shall receive a variable annual bonus payment of EUR 10,000.00 (in words: Euro ten thousand) (the "Variable Bonus") depending on the achievement of milestones, as to be agreed upon in good faith, whereby the determination of the fulfilment is within the discretion of the Company.

3. In addition to the remuneration provided under § 5 (1), the MANAGER shall receive a further lump sum in the amount of EUR 750 per month for his travel expenses from his home to the office (which includes all car expenses).

4. The payment of the salary shall fall due on the last day of each month. It shall be paid in a cashless manner; the MANAGER shall open an account within two weeks after the start of the employment and shall notify its number or the number of an already existing account.

5. The MANAGER undertakes to repay any overpayments of salary, including claims arising from the incorrect calculation of taxes and voluntary benefits, to the Company without delay. The MANAGER waives in this respect the assertion of a plea of a loss of enrichment, § 818 (3) German Civil Code.

6. The Company has executed a D&O insurance, which covers the MANAGER; the Company will bear the full costs of said insurance.

§ 6
Travel Expenses

The MANAGER shall receive the reimbursement of his expenses at the fiscally recognized rates for trips, which are necessary in the Company's interest. All further details are regulated by the respectively valid Company guidelines.

§ 7
Temporary Incapacity to work, continued payment of salary in the event of illness

1. The MANAGER shall notify the Company without delay of every instance of the temporary incapacity to work and its probable duration. On request, the reasons for the temporary inability to work must be indicated.

2. If the MANAGER is unable to work on account of the temporary incapacity to work due to illness for which he is not responsible, then the Company shall continue to pay his remuneration for a period of 3 (three) months, but no longer than the duration of this Agreement. Reimbursements made by third parties to this effect will be deducted.

§ 8
Secondary Employment and Non-compete Obligation

The MANAGER shall dedicate 75 % of his entire working capacity to the Company. It is known by the Company that the Manager dedicates remaining parts of his working capacity to business outside the field of interest of the Company. If any such external work covers the field of Life Sciences, than it shall require prior written consent of the Supervisory Board of the Company.

§ 9
Professional Development

The costs for professional development measures, which are in the Company's interest, shall be borne by Company.

§ 10

The MANAGER must notify the Company without delay of alterations to his personal status and alterations to other data, which is contained in the personnel questionnaire.

§ 11
Termination of the employment

The right to effect termination without period of notice for due cause shall remain unaffected.

§ 12
Duty of care; return obligation

1. The MANAGER shall be obliged to hold the articles put at his disposal (e.g. keys, electronic data, etc.) in safekeeping.
2. At the Company's request and at the latest when he leaves Company's service, the MANAGER shall return to the Company without delay and without being requested to do so all files and other documents which concern the business operations of the Company or its affiliated companies which are in his possession or subject to his access - especially all plans, customer lists, price lists, printed matter, certificates, drawings, notes, drafts - and also copies of the said articles, regardless of whether he received them from the Company or from its affiliated companies.

§ 13
Confidentiality obligation

1. The MANAGER undertakes to maintain secrecy on all business and company secrets, which he learns during his employment, and also on all other business and company facts of the employment. This shall not apply to facts, which are public knowledge.
2. The confidentiality obligation shall also apply to the time after the termination of the employment.
3. During the period of the employment, the MANAGER is also obliged to maintain secrecy on the contents of this contract.
4. A breach of this unconditional obligation shall constitute a serious infringement of the MANAGER's contractual employment obligations, which if repeated entitles the Company to terminate the employment without notice period.

§ 14
IP Protection

1. The MANAGER shall disclose and assign to the Company promptly and fully any future work (including computer software programs) and any invention, improvement, discovery, process, formula, technique, method, trade secret, or other intellectual property, whether or not patentable, whether or not copyrightable, that is made, conceived, developed, or first reduced to practice, either alone or jointly with others, including any associated trademarks, trade names and good will in the area of the Company's business field as described in § 2 of the Articles of Association of the Company and all rights to any related know-how (hereinafter referred to as "Inventions").

2. The MANAGER hereby assigns to the Company all of his or his right, title and interest in and with respect to any future Inventions, including in particular the right to copy, disseminate, transfer to third parties, (sub-) license exclusively or non-exclusively, adapt and/or modify any such Invention and to apply for intellectual property rights in the Company's own name. To the extent the assignment should not be legally valid, the MANAGER hereby grants to the Company an exclusive license to use such Invention as described for the entire life of such right. The MANAGER hereby waives any moral rights he may have under copyright laws, including in particular the right to publish any work, the right to be named as author and the right of access to any work, to the extent legally permitted.

3. Such assignment or license shall be deemed compensated by the regular salary according to § 5(1) above. The parties assume, and hereby agree, that the salary is an appropriate compensation for such assignment or license.

§ 15
Ancillary Agreements and contractual amendments

Verbal ancillary agreements to this contract have not been made. Amendments and supplements to this contract must be made in writing in order to be effective. The same shall apply to this requirement of the written form.

§ 16
Expiry Deadlines

1. The claims of both parties arising from the employment and such claims in connection with the employment shall lapse if they have not been asserted in writing against the other contracting party within three months after falling due.

2. If the counter-party rejects the claim or does not reply within two weeks after the assertion of the claim, then the said claim shall lapse if it is not asserted in court within a further month after the rejection or the expiry of the deadline. This shall not apply to claims for payment of the MANAGER which fall due during dismissal proceedings and which depend on the outcome of the proceedings. For these claims, the expiry deadline of two months shall commence after the final and absolute conclusion of the unlawful dismissal proceedings.

§ 17
Place of Performance, place of jurisdiction

1. Place of performance is the place where the employment has its focus. This place of performance is authoritative for disputes arising from this contract and regarding its existence. The court of the location where the obligation under dispute is to be performed shall be competent.

2. If the MANAGER has not established a domicile in Germany or if he has given up this domicile, then the Company's corporate domicile shall be authoritative as the place of jurisdiction.

§ 18
Partial Invalidity, severability clause

1. If a provision of this contract is or becomes legally ineffective or unfeasible in whole or in part, then the validity of the remaining provisions of this contract shall not thus be affected in case of doubt. 3.3 Unless otherwise expressly agreed upon in writing, the payment of any other gratuities, profit shares, premiums or other extra payments shall be on a voluntary basis, subject to the provision that even repeated payments without the reservation of voluntarity shall not create any legal claim for the Consultant, either in respect to their cause or their amount, either for the past or for the future.

3.4 All payments under this Section 3 shall only become due upon Company's receipt of customary invoices (setting forth in particular the agreed remuneration plus applicable statutory value-added tax) which shall be provided by Consultant on a monthly basis.

4. Assignment. Any claims by the Consultant against the Company for payment of remuneration according to Sec. 3 may not be pledged or assigned without the previous written consent of the Company. Accordingly, the same applies to non-tangible information and material, for example computer programs or data stored on discs or the like. Consultant recognizes that the documentation referred to above is the sole property of the Company or its associated undertakings. Consultant has no right of retention over this documentation.

6. Copyrights and other intellectual property rights

6.1 Consultant assigns to the Company the exclusive right of use and exploitation, unrestricted in time, territory and content, for all work output which is capable of copyright protection or of protection under trademark, registered design and/or utility model or any other intellectual property rights, which the Consultant produces during the term of this Agreement, insofar as they relate to his duties under this Agreement. The assignment of the use and exploitation rights includes the authorization to further revision and to the issue of licenses to third parties and is fully compensated for by the remuneration set out in Sec. 3 of this Agreement. Consultant expressly waives all other rights due to him as holder of copyright or other intellectual property rights in the work output, in particular the right to determining a name and to making work accessible. Consultant shall immediately give notice to Company of any invention created under this Agreement.

6.2 Consultant assures that the Services provided by him are free from rights, especially copyright or other commercial protection rights of third parties.

7. Independent Contractor. In the performance of the Services, Consultant is and shall at all times act and perform as an independent contractor on the basis of a service agreement pursuant to Sec. 611 et. seqq. of the German Civil Code ("BGB"). Consultant understands that he is not an employee of the Company and shall not be considered as having employee status for any purpose. Consultant is responsible for his own federal and state income, social security, unemployment and disability taxes. Consultant shall timely report and pay all such taxes on the compensation paid by the Company hereunder.

8. Term.

8.1 The term hereof shall commence on August 1, 2013, and shall be for an unlimited period of time, if not terminated by either of the Parties giving the other Party not less than 3 months prior notice in writing. The right of the Parties to terminate this Agreement for good cause without notice shall thereby remain unaffected. Any notice of termination must be in writing.

9. Miscellaneous.

9.1 Modification. This Agreement embodies the entire agreement and understanding between the Parties hereto and supersedes all prior agreements and understandings, whether written or oral, with respect to the subject matter of this Agreement, unless expressly provided to the contrary in this Agreement. This Agreement may be amended only by a written instrument executed by the Parties hereto.

9.2 Severability. In case single provisions of this Agreement are or prove to be invalid or not enforceable or in case this Agreement should contain gaps, the binding force and effectiveness of the other provisions of this Agreement shall remain unaffected. The invalid or unenforceable provision shall be replaced by such provision(s) which the Parties would have foreseeably agreed upon had they had knowledge of the invalidity, unenforceability or the gap at the time of the signing of this Agreement. Should a provision be or prove to be invalid for the stipulated extent and scope of the respective obligation contained therein, the scope and extent of such obligation shall be adjusted to match the legally admissible extent and scope of obligation.

9.3 Governing Law; Venue. This Agreement and the rights and obligations of the Parties hereto shall be governed by and construed and enforced in accordance with the laws of the Federal Republic of Germany. The venue of any legal action concerning the enforcement or interpretation of this Agreement shall be brought in the state and federal courts located in Munich, Germany (*Landgericht München 1*).

9.4 Counterparts; Facsimile Copies. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original. Facsimile copies hereof may be executed as originals.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement as of the date first above written.

The CSO shall be eligible to participate in the existing option pool in such way that the CSO shall be granted a stake of 1.5% (one and one-half percent) in the Company (the "Exit Fee") in the event of a sale of the shares in the Company or a sale of the assets of the Company (the "Exit") during the Term (which, for the sake of clarity, shall include any Extended Term). The Exit Fee shall be paid to the CSO promptly upon receipt of funds by the Company and in the form and ratio of consideration (i.e., cash or securities) commensurate with the form and ratio of consideration paid by the acquiring entity. If the CSO has been in active employment with the Company for at least six months he will receive (a) 100% of the Exit Fee if the Exit occurs within 6 (six) months after termination of this employment either because of a notice of termination provided by the Company or because the Company was not prepared to extend this Agreement and (b) 50% of the Exit Fee if the Exit occurs within 12 (twelve) months after termination of the employment either because of a notice of termination provided by the Company or because the Company was not prepared to extend this Agreement. If the CSO provides notice of termination of employment in accordance with § 1 (1) or if the CSO is not prepared to accept the Company's offer to extend this Agreement beyond the Term, then the CSO shall not be entitled to an Exit Fee for an Exit occurring after the Term.

6. In case of an additional dilutive financing round by the Company, the Exit Fee may be adjusted by the supervisory board accordingly, in good faith.

7. The Company shall incur (either directly or by reimbursing the CSO upon submission of the respective receipts) the relocation costs incurred to the CSO due to the relocation from his current domicile to a domicile near Freising (collectively, the "Relocation Costs"). The Relocation Costs shall be limited to those costs incurred up to 18 (eighteen) months after the Effective Date and to a maximum of EUR 60,000 (in words: Euro sixty thousand).

8. The CSO undertakes to repay any overpayments of salary, including claims arising from the incorrect calculation of taxes and voluntary benefits, to the Company without delay. The CSO waives in this respect the assertion of a plea of a loss of enrichment according to § 818 (3) of the German Civil Code (*Bürgerliches Gesetzbuch*).

9. Hereby the Company declares to pay the contribution rate for health and nursing insurance at the lesser of (i) 50% of the CSO's personal monthly insurance premium and (ii) EUR 350.00 per month.

§ 5
Travel Expenses

The CSO shall receive the reimbursement of his expenses at the fiscally recognized rates for trips, which are necessary in the Company's interest. All further details are regulated by the respective valid Company guidelines.

§ 6
Temporary incapacity to work, continued payment of salary in the event of illness or death

1. The CSO shall notify the Company without delay of every instance of the temporary incapacity to work and its probable duration. On request, the reasons for the temporary inability to work must be indicated.
2. If the CSO is unable to work on account of the temporary incapacity to work due to illness for which he is not responsible, then the Company shall continue to pay his remuneration for a period of 3 (three) months, but no longer than the duration of this Agreement. Reimbursements made by third parties to this effect will be deducted unless such reimbursements solely arise from the CSO's contributions.
3. The CSO shall assign his entitlement to compensation for lost wages to the Company if he sustains injury at the hands of a third party and the Company continues to pay his salary in the case of illness. The assignment shall be limited to the amount of the continued salary payments made by the Company. The CSO is obliged to provide the Company without delay with all the information necessary to pursue said claims. The CSO shall remain obliged to pursue all claims against third parties. Compensation other than for lost wages shall not apply to this § 6(3).
4. In case of death of the CSO during the term of this Agreement, the Company is obliged to pay the monthly remuneration to the widow for three months following death.

§ 7
Leave

1. The CSO shall receive 27 working days' leave every calendar year. The CSO will take the Company's respective interests into account.
2. As far as the CSO cannot take the leave until the end of the year due to reasons he is not responsible for, he may take the leave until June 30 of the following year; if the leave is not taken until that point in time, the claim for vacation shall forfeit without any replacement.
3. Leave shall only be granted leave pro rata temporis in the year of the commencement and the termination of this Agreement.

§ 8
Secondary employment and Non-compete obligation

1. The CSO shall devote his entire working capacity and all of his knowledge, experience, and know-how to the service of the Company and the enterprises affiliated with it. The CSO is free to set his own working hours, which shall be subject to his responsibilities and the requirements of the business.

2. Any other gainful employment requires prior written approval by the Supervisory Board. The assumption of offices in supervisory bodies of other enterprises or of honorary positions in organizations requires prior written approval by the Company. Sec. 88 of the German Stock Corporation Act shall remain unaffected.

3. The Company may deny or, at any time, revoke its approval of a reported secondary activity only if the respective secondary activity, on its own or in conjunction with other secondary activities, raises the prospect of an impairment of the CSO's activity for the Company or for enterprises affiliated with it in the future, or of other interests of the Company or of enterprises affiliated with it in the future.

4. The CSO shall on request of the Company, at any time, but at the latest on termination of this Agreement, resign any offices in supervisory bodies of other enterprises or honorary positions in organizations he assumed in the interest of the Company.

5. The CSO shall not be permitted, during the term of this Agreement, to set up, purchase or participate directly or indirectly in any company, which is in competition with the Company. The purchase of shares of stock and / or business interests, which causes neither any majority shareholding nor any blocking minority within such an enterprise, shall not be barred according to the above mentioned restraint. This Non-Compete Covenant shall only apply to the business areas of activity the Manager was engaged in while performing his contractual duties during the past two years before the end of this Management Agreement. At present, this relates to the areas of activity concerning the discovery and development of Anticalins. This Non-Compete Covenant shall only apply to the geographical region the CSO was engaged in while performing his contractual duties during the past two years before the end of this Agreement.

§ 9
Professional development

The costs for professional development measures, which are in the Company's interest, shall be borne by the Company.

§ 10
Notification of alterations to personal details

The CSO must notify the Company without delay of alterations to his personal status and alterations to other data which is contained in the personnel questionnaire.

§ 11
Duty of care; return obligation

1. The CSO shall be obliged to hold the articles put at his disposal (e.g. keys, electronic data, etc.) in safekeeping.
2. At the Company's request and at the latest when he leaves Company's service, the CSO shall return to the Company without delay and without being requested to do so all files and other documents which concern the business operations of the Company or its affiliated companies which are in his possession or subject to his access - especially all plans, customer lists, price lists, printed matter, certificates, drawings, notes, drafts - and also copies of the said articles, regardless of whether he received them from the Company or from its affiliated companies.

§ 12
Confidentiality obligation

1. The CSO undertakes to maintain secrecy on all business and company secrets, which he learns during his employment, and also on all other business and company facts of the employment. This shall not apply to facts, which are public knowledge.
2. The confidentiality obligation shall also apply to the time after the termination of the employment.
3. During the period of the employment and any time thereafter, the CSO is also obliged to maintain secrecy on the contents of this contract.
4. A breach of this unconditional obligation shall constitute a serious infringement of the CSO's contractual employment obligations, which if repeated entitles the Company to terminate the employment without notice period.

§ 13
IP Protection

1. The CSO shall disclose and assign to the Company promptly and fully any future work (including computer software programs) and any invention, improvement, discovery, process, formula, technique, method, trade secret, or other intellectual property, whether or not patentable, whether or not copyrightable, that is made, conceived, developed, or first reduced to practice, either alone or jointly with others, including any associated trade marks, trade names and good will in the area of the Company's business field as described in § 2 of the Articles of Association of the Company and all rights to any related know-how (hereinafter referred to as "Inventions").

2. The CSO hereby assigns to the Company all of his or his right, title and interest in and with respect to any future Inventions, including in particular the right to copy, disseminate, transfer to third parties, (sub-) license exclusively or non-exclusively, adapt and/or modify any such Invention and to apply for intellectual property rights in the Company's own name. To the extent the assignment should not be legally valid, the CSO hereby grants to the Company an exclusive license to use such Invention as described for the entire life of such right. The CSO hereby waives any moral rights he may have under copyright laws, including in particular the right to publish any work, to the extent legally permitted.

3. Such assignment or license shall be deemed compensated by the regular salary according to § 4 (1) above. The parties assume, and hereby agree, that the salary is an appropriate compensation for such assignment or license.

§ 14
Ancillary agreements and contractual amendments

Verbal ancillary agreements to this contract have not been made. Amendments and supplements to this contract must be made in writing in order to be effective. The same shall apply to this requirement of the written form.

§ 15
Expiry deadlines

1. The claims of both parties arising from the employment and such claims in connection with the employment shall lapse if they have not been asserted in writing against the other contracting party within three months after falling due.

2. If the counter-party rejects the claim or does not reply within two weeks after the assertion of the claim, then the said claim shall lapse if it is not asserted in court within a period of 3 further months after the rejection or the expiry of the deadline. This shall not apply to claims for payment of the CSO which fall due during dismissal proceedings and which depend on the outcome of the proceedings. For these claims, the expiry deadline of three months shall commence after the final and absolute conclusion of the unlawful dismissal proceedings.

§ 16
Miscellaneous

1. If a provision of this contract is or becomes legally ineffective or unfeasible in whole or in part, then the validity of the remaining provisions of this contract shall not thus be affected in case of doubt. On the contrary, the provision, which is legally ineffective or unfeasible in whole or in part, is to be replaced by a provision, which is closest in commercial terms to the meaning and purpose of the provision, which is ineffective or unfeasible in whole or in part. The same shall apply in the case of gaps in this contract.

2. If, as a result of an alteration to the legislation or Supreme Court rulings or on account of other circumstances, a provision of this contract becomes invalid, then the provision shall automatically be adapted in line with the new legal position. The validity of the remaining provisions shall not thus be affected.

3. Any amendment to this Agreement shall only be effective when entered into in writing and signed on behalf of both Parties.

4. This Agreement shall be governed exclusively by German law.

§ 17

WHEREAS, the Company possesses know-how and proprietary technology related to the field of Anticalin®-brand proteins;

WHEREAS, the Company is preparing for a share exchange whereby the Company will become a whole owned subsidiary of Pieris Pharmaceuticals, Inc., a Nevada corporation, with its principal place of business remaining the same (the "Acquisition");

NOW THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt of which are hereby acknowledged, the Parties agree and covenant as follows.

1. Services of Consultant. Danforth will assist the Company and any of its Affiliates with matters relating to the Services. The Services are more fully described in Exhibit A attached hereto. Danforth and the Company will review the Services on a monthly basis to prioritize and implement the tasks listed on Exhibit **A.** Affiliate" means, with respect to a Party, any Person controlling, controlled by or under common control with such Party, for so long as such control exists. 2. Compensation for Services. In full consideration of Danforth's full, prompt and faithful performance of the Services, the Company shall compensate Danforth a consulting fee

more fully described in Exhibit A (the "Consulting Fee"). Danforth shall, from time to time, but not more frequently than twice per calendar month invoice the Company for Services rendered and such invoice will be paid upon fifteen (15) days of receipt. Each month the Parties shall evaluate jointly the current fee structure and scope of Services. Upon termination of this Agreement pursuant to Section 3, no compensation or benefits of any kind as described in this Section 2 shall be payable or issuable to Danforth after the effective date of such termination. In addition, the Company will reimburse Danforth for reasonable out-of-pocket business expenses, including but not limited to travel and parking, incurred by Danforth in performing the Services hereunder, upon submission by Danforth of supporting documentation reasonably acceptable to the Company. Any such accrued expenses in any given three (3) month period that exceed one thousand dollars ($1,000) shall be submitted to the Company for its prior written approval.

3. Term and Termination. The term of this Agreement will commence on the Effective Date and will continue through the anniversary of such date in the next calendar year (the "Term"). This Agreement may be extended for an additional period by mutual written agreement. This Agreement may be terminated by either Party hereto: (a) with Cause (as defined below), upon thirty (30) days' prior written notice to the other Party; or (b) without cause upon sixty (60) days' prior written notice to the other Party. For purposes of this Section 3, "Cause" shall include: (i) a breach of the terms of this Agreement which is not cured within thirty (30) days of written notice of such default or (ii) the commission of any act of fraud, embezzlement or deliberate disregard of a rule or policy of the Company.

4. Time Commitment. Danforth will devote such time to perform the Services under this Agreement as may reasonably be required.

5. Place of Performance. Danforth will perform the Services at such locations upon which the Company and Danforth may mutually agree. Danforth will not, without the prior written consent of the Company, perform any of the Services at any facility or in any manner that might give anyone other than the Company any rights to or allow for disclosure of any Confidential Information (as defined below).

6. Compliance with Policies and Guidelines. Danforth will perform the Services in accordance with all rules or policies adopted by the Company that the Company discloses in writing to Danforth.

7. Confidential Information. Danforth acknowledges and agrees that during the course of performing the Services, the Company may furnish, disclose or make available to Danforth information, including, but not limited to, material, compilations, data, formulae, models, patent disclosures, procedures, processes, business plans, projections, protocols, results of experimentation and testing, specifications, strategies and techniques, and all tangible and intangible embodiments thereof of any kind whatsoever (including, but not limited to, any apparatus, biological or chemical materials, animals, cells, compositions, documents, drawings, machinery, patent applications, records and reports), which is owned or controlled by the Company and is marked or designated as confidential at the time of disclosure or is of a type that is customarily considered to be

confidential information (collectively the "Confidential Information"). Danforth acknowledges that the Confidential Information or any part thereof is the exclusive property of the Company and shall not be disclosed to any third party without first obtaining the written consent of the Company. Danforth further agrees to take all practical steps to ensure that the Confidential Information, and any part thereof, shall not be disclosed or issued to its affiliates, agents or employees, except on like terms of confidentiality. The above provisions of confidentiality shall apply for a period of five (5) years.

8. Intellectual Property. Danforth agrees that all ideas, inventions, discoveries, creations, manuscripts, properties, innovations, improvements, know-how, inventions, designs, developments, apparatus, techniques, methods, and formulae that Danforth conceives, makes, develops or improves as a result of performing the Services, whether or not reduced to practice and whether or not patentable, alone or in conjunction with any other party and whether or not at the request or upon the suggestion of the Company (all of the foregoing being hereinafter collectively referred to as the "Inventions"), shall be the sole and exclusive property of the Company. Danforth hereby agrees in consideration of the Company's agreement to engage Danforth and pay compensation for the Services rendered to the Company and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged that Danforth shall not, without the prior written consent of the Company, directly or indirectly, consult for, or become an employee of, any company which conducts business in the Field of Interest anywhere in the world. As used herein, the term "Field of Interest" shall mean the research, development, manufacture and/or sale of the products resulting from the Company's technology. The limitations on competition contained in this Section 8 shall continue during the time that Danforth performs any Services for the Company (whether as a consultant, employee or otherwise), and for a period of three (3) months following the termination of any such Services that Danforth performs for the Company. If any part of this section should be determined by a court of competent jurisdiction to be unreasonable in duration, geographic area, or scope, then this Section 8 is intended to and shall extend only for such period of time, in such area and with respect to such activity as is determined to be reasonable. Except as expressly provided herein, nothing in this Agreement shall preclude Danforth from consulting for or being employed by any other person or entity.

9. Non Solicitation. All personnel representing Danforth are employees or contracted agents of Danforth. As such, they are obligated to provide the Services to the Company and are obligated to Danforth under confidentiality, non-compete, and non-solicitation agreements. Accordingly, they are not retainable as employees or contractors by the Company and the Company hereby agrees not to solicit, hire or retain their services for so long as they are employees or contracted agents of Danforth and for one (1) year thereafter; ***provided, however,*** that this Section 9 shall not apply if an employee or contracted agent of Danforth ceases an employment arrangement without any active inducement by Company to do so. Should the Company violate this restriction, it agrees to pay Danforth liquidated damages equal to fifteen thousand ($15,000) dollars for each Danforth employee or contracted agent solicited and/or hired by the Company in violation of this Agreement, plus Danforth's reasonable attorneys' fees and costs incurred in enforcing this agreement should the Company fail or refuse to pay the liquidated damages amount in full within thirty (30) days following its violation.

10. Placement Services. In the event that Danforth refers a potential employee to the Company and that individual is hired, Danforth shall receive a fee equal to ten percent (10%) of the employee's starting annual base salary. This fee is due and owing whether an individual is hired, directly or indirectly on a permanent basis or on a contract or consulting basis by the Company, as a result of Danforth's efforts within one (1) year of the date applicant(s) are submitted to the Company. Such payment is due within thirty (30) days of the employee's start date.

11. No Implied Warranty. Except for any express warranties stated herein, the Services are provided on an "as is" basis, and the Company disclaims any and all other warranties, conditions, or representations (express, implied, oral or written), relating to the Services or any part thereof Further, in performing the Services Danforth is not engaged to disclose illegal acts, including fraud or defalcations, which may have taken place. The foregoing notwithstanding, Danforth will promptly notify the Company if Danforth becomes aware of any such illegal acts during the performance of the Services. Because the Services do not constitute an examination in accordance with standards established by the American Institute of Certified Public Accountants (the "AICPA"), Danforth is precluded from expressing an opinion as to whether financial statements provided by the Company are in conformity with generally accepted accounting principles or any other standards or guidelines promulgated by the AICPA, or whether the underlying financial and other data provide a reasonable basis for the statements.

12. Indemnification. Each Party hereto agrees to indemnify and hold the other Party hereto, its directors, officers, agents and employees harmless against any claim based upon circumstances alleged to be inconsistent with such representations and/or warranties contained in this Agreement. Further, the Company shall indemnify and hold harmless Danforth and any of its subcontractors against any claims, losses, damages or liabilities (or actions in respect thereof) that arise out of or are based on the Services performed hereunder, except for any such claims, losses, damages or liabilities arising out of the gross negligence or willful misconduct Danforth or any of its subcontractors. The Company will add Consultant and any applicable subcontractor to its insurance policies as additional insureds, including without limitation the Company's Directors and Officers liability insurance.

13. Independent Contractor. Danforth is not, nor shall Danforth be deemed to be at any time during the term of this Agreement, an employee of the Company, and therefore Danforth shall not be entitled to any benefits provided by the Company to its employees, if applicable. Danforth's status and relationship with the Company shall be that of an independent contractor and consultant. Danforth shall not state or imply, directly or indirectly, that Danforth is empowered to bind the Company without the Company's prior written consent. Nothing herein shall create, expressly or by implication, a partnership, joint venture or other association between the parties. Danforth will be solely responsible for payment of all charges and taxes arising from his or her relationship to the Company as a consultant.

14. Records. Upon termination of Danforth's relationship with the Company, Danforth shall deliver to the Company any property or Confidential Information of the Company relating to the Services which may be in its possession including products, project plans, materials, memoranda, notes, records, reports, laboratory notebooks, or other documents or photocopies and any such information stored using electronic medium.

(d) requiring, to be effective, the consent of the supervisory board of the Company, which shall pass a resolution based on the needs of the Company.

2. The Company and the Investors are entitled to terminate the Convertible Bridge Loan for good cause (*aus wichtigem Grund)* at any time. Furthermore and notwithstanding the foregoing, each Investor individually is entitled to terminate the respective Loan Amount. Good cause for the Investors includes, without limitation, the following events:

   a. voluntary bankruptcy / insolvency events (in particular if the Company is insolvent within the meaning of § 17 German Insolvency Code (*Insolvenzordnung*) or if the Company applies for such proceedings to be commenced or offers an out-of-court settlement in order to avoid such proceedings); or

   b. the opening of involuntary bankruptcy / insolvency proceedings (*ErÖffnung eines Insolvenzverfahrens*) over the Company's assets.

3. The termination right pursuant to para. (1) and (2) of this Sec. 5 must be exercised in writing.

4. In case the Convertible Bridge Loan or a Loan Amount is validly terminated, the Company is obliged to repay the Loan Amounts or Loan Amount, respectively (plus interest accrued until that date), within five (5) bank working days in Frankfurt/Main, Germany.

Sec. 6.
Payments

1. Unless an Investor gives other instructions in writing to the Company, all payments to be made to the respective Investor under this Agreement shall exclusively be made by money transfer in Euros to an account of the respective Investor submitted to the Company in writing.

2. In the case the Company makes payments to the Investors, it is obliged to treat the Investors equally. Therefore, all payments to the Investors have to be made at the same time and pro rata their Loan Amounts.

3. As far as the Company makes payments to the Investors disregarding the regulation under para. (2) of this Sec. 6, the Investors undertake vis-à-vis each other to compensate each other for such deviating payment to the ex-tent the aggrieved Investor would have received payments if the Company had considered the regulations under para. (2) of this Sec. 6.

Sec. 7.
Taxes and Duties

All payments by the Company to be made to the Investors under this Agreement shall be made without a discount or deduction of any existent or future taxes or duties of whatever kind raised in the Federal Republic of Germany, unless the Company is obliged to withhold or deduct such taxes or duties by law.

Sec. 8.
Qualified Subordination

1. The Parties herewith agree that claims for repayment of the Loan Amounts (including interest, costs and any other accessory claim, if any) (the "**Claims**") shall be irrevocably subordinated to any and all other liabilities, with the exception of those ranking pari passu, of the Company vis-à-vis its current or future creditors and therefore do not have to be settled, as long as and to the extent that the Company is insolvent or over-indebted or was to be qualified as insolvent or over-indebted pursuant to §§ 17, 19 German Insolvency Code (*Insolvenzordnung*), would the Claims not be subordinated, or would an insolvency or over-indebtedness of the Company exist for any other reason. This subordination also applies to the final distribution of liquidation proceeds pursuant to § 199 German Insolvency Code in the event of an insolvency proceeding (*Insolvenzverfahren*). Repayments of the Loan Amounts shall only be made from future annual net income, net income from winding up or from other free assets (*sonstiges freies Vermögen*) of the Company. To the extent the Claims are subordinated, the Claims are ranked behind claims pursuant to § 39 para. 1 no. 5 German Insolvency Code (*Insolvenzordnung*).

2. If German jurisprudence should require further requirements for a qualified subordination agreement to be apt to avoid insolvency or over-indebtedness under German Insolvency Law, the Claims of the Holder shall be regarded as having such rank as required in particular pursuant to German jurisprudence in order to avoid the passivation as liability in an over-indebtedness balance sheet (*Überschuldungsbilanz*) of the Company.

Sec. 9.
Conversion request

1. The Investors are entitled but not obliged to request the conversion, in whole or in part, of the Loan Amounts into series B shares of the Company at the Series B Conversion Price (as defined in Sec. 11 of this Agreement) at any time after the Maturity Date if and to the extent the Loan Amounts have not been repaid on or before the Maturity Date.

2. Upon the occurrence of an Exit Event prior to the Maturity Date, the Investors are entitled but not obliged to request the conversion, in whole or in part, of the Loan Amounts into series B shares at the Series B Conversion Price if and to the extent the Loan Amounts have not been repaid.

3. Upon the closing of a Qualified Financing, the Investors are entitled but not obliged to request the conversion, in whole or in part, of the Loan Amounts into the preferred stock of the Company, whether this is series B or any other series of preferred stock, which is issued to new investors in a Qualified Financing (the "**Qualified Financing Shares**") at the Qualified Financing Conversion Price (as defined in Sec. 11 of this Agreement) if and to the extent the Loan Amounts have not been repaid.

4. The Investors may request the conversion of the Loan Amounts according to para. (2) and (3) of this Sec. 9 at any time during a period of four (4) weeks after the occurrence of the Exit Event or closing of the Qualified Financing, respectively.

Sec. 10.
Conversion

1. In order to request conversion of the Loan Amounts pursuant to Sec. 9 of this Agreement, the Investors shall submit to the Company a notice of conversion, in whole or in part, of the Loan Amounts (using the form enclosed in **Exhibit C**) (the "**Conversion Notice**").

2. In the event that the Company receives a Conversion Notice, the Company shall invite all Shareholders, with the exception of the persons listed as indirect shareholders in **Exhibit A**, to a shareholders' meeting to be held within three months after receipt of the Conversion Notice by the Company, and all Shareholders undertake to vote their shares in such a shareholders' meeting, to pass all resolutions required (including but not limited to resolutions on a capital increase required to issue the New Shares as defined below (the "**Capital Increase**") and necessary amendments to the Company's Articles of Association) to issue the respective number of new series B shares or Qualified Financing Shares, respectively (the "**New Shares**"), to be calculated according to Sec. 11 of this Agreement, to the Investors. The New Shares shall each be in registered form, and shall be issued as non-par value shares with a portion of the Company's share capital (*anteiliger Betrag des Grundkapitals*) of EUR 1.00 each, and shall be issued at an issue price (*Ausgabebetrag*) of EUR 1.00 per share without any premium. The New Shares shall have the right to participate in profits as from January 1, 2012.

3. Each Shareholder undertakes individually for himself vis-à-vis each other party, to do or cause to be done everything necessary to implement the conversion request. Thus, the Shareholders undertake in particular to co-operate in the Capital Increase of the Company and in necessary amendments to the

Company's Articles of Association by exercising their voting rights in the shareholders' meeting of the Company, by subscribing to the New Shares as provided in this Agreement and by waiving subscriptions rights to new shares in the Company if required to implement the conversion request.

4. To the extent legally permitted, the Company and Shareholders shall secure that (i) the Company's Management Board and the Supervisory Board will execute the Capital Increase, and (ii) the Company will (a) accept the subscription of New Shares as described above, as well as (b) without undue delay apply for registration and of the consummation of the capital increase with the commercial register.

5. The Investors shall pay in full their respective part of the cash contribution (EUR 1.00 per share) within ten (10) bank working days in Frankfurt/Main, Germany, after such Investor has subscribed for New Shares to the Company's special account to be named by the Company. Payments shall be made exclusively to this special account, which will be opened solely for this purpose and must not be used for other transactions or payments prior to the aforementioned payments. This special account must not have a debit balance immediately prior to the aforementioned payments being effected, so that the Company's Management Board can freely dispose of the amounts paid (cf. Sec. 188, 36, 36a, 37 German Act on Stock Corporations; "**AktG**").

6. In the event that the Investors request the conversion, in whole or in part, of the Loan Amounts in accordance with Sec. 9 para. (1), (2) or (3) of this Agreement and subscribe for the New Shares, each Investor shall contribute (*einlegen*) without consideration his claim for repayment of the respective Loan Amount into the Company's capital reserves pursuant to § 272 para. (2) No. 4 German Commercial Code (*Handelsgesetzbuch*). The aforementioned contribution will be made subject to the implementation (*Durchführung*) of the Capital Increase, i.e. the effective issue of the respective New Shares to such Investor. For clarification purposes: the Company itself shall not be entitled to demand the contribution pursuant to this para. (6). Alternatively to the aforementioned contribution of the claim for repayment, the Investors may elect to waive their claims for repayment vis-à-vis the Company. In this case, sentences 2 and 3 of this para. (6) shall apply accordingly.

Sec. 11.
Number of new Shares

1. The number of New Shares to be issued in the course of the conversion in accordance with Sec. 9 para. (1) and (2) of this Agreement to each Investor shall be determined by the Loan Amount, to the extent that has been paid out, divided by the "**Series B Conversion Price**", which is to be calculated as follows:

   Series B Conversion Price =

   EUR 53 divided by [1 + (0.01 * M + 0.015 * N)],

   whereby M is the number of full months (rounded off) from the payment of the Loan Amounts to the Company until the earlier of the (i) Maturity Date, or, (ii) the closing of a Qualified Financing or an Exit Event and

   whereby N is the number of full months (rounded off) from the payment of the Loan Amounts to the Company until Conversion less M.

2. The number of Qualified Financing Shares with a nominal value of EUR 1.00 each to be issued in the course of the conversion in accordance with Sec. 9 para. (3) of this Agreement to each Investor shall be determined by the Loan Amount, to the extent that has been paid out, divided by the "**Qualified Financing Conversion Price"**, which is to be calculated as follows:

   Qualified Financing Conversion Price =

   the price per share of preferred stock of the Company issued to investors in a Qualified Financing less a discount of twenty percent (20%) divided by [1 + (0.01 * M + 0.015 * N)]

   whereby M and N have the meaning as defined in para. (1) of this Sec. 11.

3. If the Loan Amount of an Investor exceeds the portion of the loan attributable to such an Investor pro rata its shareholding in the shares of the Company, the number of New Shares into which the exceeding amount is converted in accordance with this Sec. 11 shall be multiplied by the factor 1.2, the result being rounded down to the nearest whole number.

4. Residual amounts of the respective Loan Amounts that are indivisible after application of para (1) and (2) of this Sec. 11 are awarded to such Investor who has the highest Loan Amount and will increase his Loan Amount which is subject to conversion in accordance with para (1) and (2) of this Sec. 11, the result being rounded down to the nearest whole number.

Sec. 12.
Lapse of the Conversion Right

1. The right of the Investors to request conversion pursuant to Sec. 9 of this Agreement lapses provided that

   a. the Company is converted to a different or into another legal entity within the meaning of the German Act on Transformations (*Umwandlungsgesetz*), and

   b. the Investors are compensated with (i) conversion rights to shares of the new legal entity, or (ii) shares of the new legal entity, each of equal value.

2. Shares or respectively conversion rights in the new legal entity are considered as having equal value, if their value is equivalent to the value of the conversion rights of the Company on the point in time of the effectiveness of the conversion.

3. The valuation of these conversion rights / shares will be undertaken by the auditor of the conversion or, if an audit within the conversion is not mandatory by law, by a business valuator to be instructed by the Company and the Investors.

Sec. 13.
Exercise of Investor Rights

1. Investor rights, including but not limited to the conversion of the Convertible Bridge Loan, may only be exercised jointly by the Investors and upon demand of Investors whose aggregated Loan Amounts exceed 50% of the total Loan Amounts ("**Investor Majority**"), unless specified differently in this Agreement.

2. Each Investor shall exercise his rights in accordance with the decision of the Investor Majority and shall procure to take all measures required to not block or prevent such decision of the Investor Majority and its implementation.

Sec. 14.
Expenses

The Company shall pay the Investors' reasonable due diligence and legal expenses (including VAT, if applicable), limited to an aggregate amount of EUR 6,500.00 for all Investors, subject to the Convertible Bridge Loan being paid out.

Sec. 15.
Final Provisions

1. Each of the Shareholders shall be entitled to transfer its rights and obligations under this Agreement together with the shares to which such rights and obligations relate in whole or in part, provided that such Shareholder may transfer his shares under the CSA 2012.

2. Each of the Shareholders undertakes individually for himself vis-à-vis each other Shareholder, to impose on his individual legal successors, if any, the rights and obligations arising under this Agreement in such a way, that his individual legal successors are bound by the rights and obligations under this Agreement as if they had themselves undertaken these rights and obligations. This shall also apply to the obligation undertaken in this para. 2 to impose the rights and obligations under this Agreement on any individual legal successors.

3. The Shareholders are entitled to the rights under this Agreement to the exclusion of any joint entitlement, i.e. in such a way that each of the Share-holders may individually exercise the rights to which they are entitled, unless otherwise expressly provided in this Agreement. Joint and several liability (*gesamtschuldnerische Hartung*) of the Shareholders — including but not limited to the payment of the Loan Amounts to the Company — shall be excluded.

4. Amendments and additions to this Agreement must be made in writing to be effective unless notarization is required. This shall also apply to a waiver of the written form requirement. Signatures transmitted by way of facsimile communication shall satisfy the written form requirement.

5. Should individual terms of this Agreement be or become invalid or unenforceable or if this Agreement contains gaps, this shall not affect the validity of the remaining terms of this Agreement or the CSA 2012. In place of the invalid, unenforceable or missing term, such valid term which the parties would reasonably have agreed, had they been aware at the conclusion of this Agreement that the relevant term was invalid, unenforceable or missing, shall be deemed to have been agreed. Should a term of this Agreement be or become invalid because of the scope or time of performance for which it provides, then the agreed scope or time of performance shall be amended to correspond with the extent legally permitted.

6. The Parties shall keep strictly confidential the fact that they have entered into negotiations regarding the transactions contemplated in this Agreement and the contents of such negotiations and the contents of this Agreement, except if and to the extent that disclosure is required by law or stock exchange regulations and the other parties have been notified of such requirement. This Agreement, however, may be shared with the existing shareholders and potential outside investors. Furthermore, the Parties are permitted to share such information with the persons/entities/bodies mentioned in Sec. 22 para. (2) sentence 2 of the CSA 2012. In particular, Technologie Beteiligungsfonds II Bayern GmbH & Co. KG and KfW shall be allowed to disclose their participations in the Company vis-à-vis the Bavarian Supreme Auditing Agency (*Bayerischer Oberster Rechnungshot*), the Federal Supervisory Agency (*Bundesrechungshof)* and the Federal Department of Economics (*Bundeswirtschaftsministerium*) as required by applicable law.

7. Prior to any announcement, the Company and the Investors shall agree upon the form and contents of any press release with respect to this Convertible Bridge Loan.

8. With regard to the signing of the Agreement, signatures transmitted by way of facsimile communication shall suffice and be binding. Reception of an original copy of this Agreement signed by all Parties is not a condition for the validity of this Agreement.

9. This Agreement is governed by and shall be construed in accordance with the laws of Germany, without regard to its provisions of private international law and excluding the UN Sales Convention.

10. To the extent legally permissible, place of venue and performance shall be Munich. All disputes arising in connection with this Agreement shall be finally settled in accordance with the Arbitration Rules of the German Institution of Arbitration e.V. (DIS) without recourse to the ordinary courts of law and according to the Arbitration Agreement enclosed as **Exhibit 15.10**. This shall include disputes regarding the validity, the performance or the termination of this Investment Agreement in whole or in part including possible amendments of the same. The place of arbitration is Munich. The arbitration tribunal consists of three arbitrators. The language of the arbitration proceeding is English.

11. The Exhibits to this Agreement are an essential part of it. The headings in this Agreement only serve for a better orientation and are of no significance for the content and interpretation of this Agreement. Explanations in a provision or Exhibit to this Agreement are also deemed to be listed for purposes of all other provisions or Exhibits.

The persons or entities set out in (2) – (21) shall be jointly referred to as the "**Shareholders**" and the Shareholders together with the Company shall be jointly referred to as the "**Parties**".

Preamble

1. On November 12, 2012 the Parties entered into a convertible bridge loan agreement (the "**Convertible Bridge Loan Agreement**") pursuant to which certain Shareholders, which are listed as Investors in the table in Sec. 1 (*Convertible Bridge Loan*) para. 2 of the Convertible Bridge Loan Agreement with a loan amount in EUR other than 0 (zero) (the "**Holders**"), made available to the Company a bridge loan in the amount of EUR 2,000,000, which loan is convertible into shares of the Company (the "**Convertible Bridge Loan**").

2. The Parties have decided (i) that the Company shall repay a EUR amount equal to USD 400,000 of the Convertible Bridge Loan to the Holders (the "**Repayment Amount**") and (ii) to postpone the maturity date of the remaining loan amount of the Convertible Bridge Loan, which date was December 31, 2013 to December 31, 2015 (the "**New Maturity Date**").

3. It is intended by the Parties that all of the Company's shares, irrespective of their liquidation preference, will be contributed (*eingebracht*) by the Shareholders into a U.S. shell company (the "**Shell Company**"), which is to be listed on a stock exchange (e.g. first on OTC Bulletin and, subsequently, on NASDAQ), or into a subsidiary of such Shell Company, against issuance of shares of common stock in the Shell Company to the Shareholders (the "**Reverse Merger**"). The Company has identified Zosano, Inc., a Delaware corporation, as the Shell Company. The Holders desire to instruct the Company to pay the Repayment Amount to the Shell Company and/or its shareholders in order to ensure that all necessary corporate actions are taken by the Shell Company and/or its shareholders in connection with the intended Reverse Merger. In addition, the Parties intend to make other arrangements relating to the Convertible Bridge Loan Agreement in connection with the Reverse Merger.

NOW, THEREFORE the Parties hereby enter into the following Amendment to the Convertible Bridge Loan Agreement (this "**Amendment Agreement**") and agree as follows:

Sec. 1

Repayment Amount

1. In deviation from the provisions of the Convertible Bridge Loan Agreement governing repayment of the Convertible Bridge Loan, the Company shall repay the Repayment Amount to the Holders at the time as necessary to observe the instructions of the Holders set out in Sec. 2 (*Instructions of the Holders; Compensation Payments*) para. 1 and in accordance with the following table:

Investor	Repayment Amount in USD
Orbimed Private Investments III, LP	98,423.00
Orbimed Associates III, LLC	937.00
Novo Nordisk A/S	39,921.00
Transconnect Corporate Finance Beratungs GmbH	10,057.00
BioM AG	32,950.00
The Global Life Science Ventures Fonds II GmbH & Co. KG	50,435.00
The Global Life Science Ventures Fund II LP	39,229.00
Gilde Europe Food & Agribusiness Fund B.V.	84,203.00
Coöperatieve AAC LS U.A.	43,845.00
Total	**400,000.00**

2. The part of the Repayment Amount in USD displayed in the table above for each Holder (the "**Repayment Portion**") shall be paid to the respective Holder in the corresponding EUR amount.

3. The outstanding principal amount of the Convertible Bridge Loan will be reduced accordingly (i.e. by the Repayment Amount).

4. If less than the entire Repayment Amount is required to fulfil the instructions of the Holders under Sec. 2 (*Instructions of the Holders; Compensation Payments*) para. 1, the Repayment Amount shall be reduced accordingly and the Repayment Portions shall be adjusted proportionately. The Repayment Amount may be paid in partial payments if it is required to observe the instructions of the Holders under Sec. 2 (*Instructions of the Holders; Compensation Payments*) para. 1.

5. The interest on the Repayment Amount shall be due and payable upon repayment of the principal amount of the Convertible Bridge Loan remaining after payment of the Repayment Amount.

Sec. 2

Instructions of the Holders; Compensation Payments

1. The Holders hereby irrevocably instruct the Company to pay the Repayment Amount on their behalf to the identified Shell Company and/or its shareholders, in order to ensure all necessary corporate actions and other measures in connection with the intended Reverse Merger are taken

by the Shell Company and/or its shareholders under the terms of a term sheet agreed between the Company and the Shell Company and in accordance with the agreements related to the Reverse Merger when such agreements are concluded. The Holders and the Company are in agreement that (i) the deposit in the amount of USD 50,000 made by the Company under the Term Sheet of March 2013 agreed between the Company and Zosano, Inc. shall be deemed to have been paid for the purpose set out above; and (ii) once the remaining Repayment Amount is paid to the Shell Company and/or its shareholders, the Repayment Amount shall be deemed to have been paid in whole by the Holders.

2. Those of the Shareholders who did not participate in the Convertible Bridge Loan or participated with a loan amount which was less than their pro rata share, based on their current shareholding in the Company, of the Convertible Bridge Loan (the "**Compensating Shareholders**") shall make compensation payments (the "**Compensation Payments**") to those of the Holders whose Repayment Portion exceeds their respective pro rata share, based on their current shareholding in the Company, of the Repayment Amount. The Compensation Payments shall put all Shareholders in a position as if the Repayment Amount (paid to the Shell Company on behalf of the Holders for the purpose set out in para.1 of this Sec. 2) had been divided among all Shareholders pro rata to each Shareholder's current shareholding in the Company.

3. The Company will calculate the Compensation Payments once the entire Repayment Amount has been paid or when it has determined that any remaining part of the Repayment Amount is not required and will inform the Compensating Shareholders and Holders accordingly. Compensation Payments shall then be made by Compensating Shareholders within one (1) week to the Company and the Company will forward the Compensation Payments on behalf of the Compensating Shareholders to the respective Holders.

Sec. 3

Postponement of Maturity Date

Sec. 3 (Term) of the Convertible Bridge Loan Agreement is amended to read as follows:

"*The Convertible Bridge Loan is granted until December 31, 2015.*"

Sec. 4

Lapse of Conversion Rights; Repayment Right

In the event that the contribution (*Einbringung*) of the Company's shares into the Shell Company or into a subsidiary of such Shell Company, as the case may be, against issuance of shares in the Shell Company to the Shareholders in the course of the intended Reverse Merger becomes effective,

(i) the conversion rights of the Investors (as defined in the Convertible Bridge Loan Agreement) under Sec. 9 et seqq. of the Convertible Bridge Loan Agreement shall lapse; and

(ii) the Company shall, in deviation from the provisions of the Convertible Bridge Loan Agreement governing repayment of the Convertible Bridge Loan, be entitled to repay the remaining outstanding amount of the Convertible Bridge Loan (after the payment of the Repayment Amount) and the interest thereon, as well as the interest on the Repayment Amount, before the New Maturity Date, in accordance with a payment schedule to be notified by the Company to the Holders.

Sec. 5

Miscellaneous

1. All provisions of the Convertible Bridge Loan Agreement not expressly amended by this Amendment Agreement shall remain unaffected.

2. For the avoidance of doubt: All rights and obligations of the Parties under the Convertible Bridge Loan Agreement which are dependent on or refer to "the Maturity Date" shall, upon execution of this Amendment Agreement, depend on or refer to the New Maturity Date.

3. Amendments and additions to this Amendment Agreement must be made in writing to be effective unless notarization is required. This shall also apply to a waiver of the written form requirement. Signatures transmitted by way of facsimile communication shall satisfy the written form requirement.

4. Should individual terms of this Amendment Agreement be or become invalid or unenforceable or if this Agreement contains gaps, this shall not affect the validity of the remaining terms of this Amendment Agreement or the Convertible Bridge Loan Agreement. In place of the invalid, unenforceable or missing term, such valid term which the parties would reasonably have agreed, had they been aware at the conclusion of this Amendment Agreement that the relevant term was invalid, unenforceable or missing, shall be deemed to have been agreed. Should a term of this Amendment Agreement be or become invalid because of the scope or time of performance for which it provides, then the agreed scope or time of performance shall be amended to correspond with the extent legally permitted.

5. With regard to the signing of this Amendment Agreement, signatures transmitted by way of facsimile communication shall suffice and be binding. Reception of an original copy of this Amendment Agreement signed by all Parties is not a condition for the validity of this Amendment Agreement.

6. This Amendment Agreement is governed by and shall be construed in accordance with the laws of Germany, without regard to its provisions of private international law and excluding the UN Sales Convention.

7. To the extent legally permissible, place of venue and performance shall be Munich. All disputes arising in connection with this Amendment Agreement shall be finally settled in accordance with the Arbitration Rules of the German Institution of Arbitration e.V. (DIS) without recourse to the ordinary courts of law and according to the Arbitration Agreement enclosed as **Exhibit 1**. This shall include disputes regarding the validity, the performance or the termination of this Amendment Agreement in whole or in part including possible amendments of the same. The place of arbitration is Munich. The arbitration tribunal consists of three arbitrators. The language of the arbitration proceeding is English.

The financing of investments specified in the project-related planning for market launch in stock and supplies, launch advertising, personnel costs for the market launch and establishment and expansion of a distribution company shall be a de minimis aid of 0,00 EUR with the conclusion of this contract. The subsidy value of all de minimis aid which the TC receives within a period of three years from the date of the first de minimis aid, shall not exceed 100,000.00 EUR. A partial draw shall be permitted only if neither fundamental economic or technical doubts regarding the feasibility of the innovation project funded by **tbg** exist and the TC is not in such economic difficulties that even after drawing the capital contribution of **tbg** the filing of an application for the opening insolvency proceedings over the assets of the TC is to be expected within a short period of time.

A draw shall be accompanied by a confirmation of the draw conditions of the EP;

b) the TC has access to the tbg Internet portal via a secure Internet connection (section 6 para. 6) and is registered there as a user.

c) The following milestone-dependent tranche payments are adhered to:

I. tranche in the amount of 250,000.00 EUR from contract signing and closing the round of participation

(4) The TC shall prove, by the submission of a certified excerpt from the commercial register, that this agreement has been entered in the commercial register pursuant to section 294 AktG (German Stock Corporation Act) and shall confirm that the resolution of the General Meeting regarding the approval of this contract was not challenged within the one-month term of contestation. If a disbursement takes place before entry into the trade register, the contract shall come into force with registration in the commercial register retroactively at the time of the disbursement.

(5) This agreement shall be terminated, if at least 10% of the capital contribution is not drawn no later than six weeks after the start of the company (section 4 para 1) despite the existence of the prerequisite conditions of section 2 para 3 a).

(6) With the first partial dispensation **tbg** shall retain a processing fee of 2.00% of the agreed participation amount.

(7) The capital contribution from **tbg** shall be credited to a separate deposit account by the TC. Withdrawals from this account by **tbg** are excluded.

EVIDENCE OF USE

(1) The TC shall confirm the proper use of the funds within 3 months of the end of the project period as given in appendix I to this contract, in the form specified by **tbg**, subject to an extension of that period by the **tbg**. The evidence of use shall also be confirmed by the EP. The intended use shall be proven to the EP and tbg upon request.

(2) If the cost of the project, as given in appendix I, is reduced or further public funds are subsequently raised, tbg shall be entitled to make a corresponding reduction of their capital contribution in relation to the reduction of the volume of investment. The amount of the reduction shall be promptly transferred back to tbg.

(3) The project period shall be deemed expired

a) if an application for opening insolvency proceedings over the assets of the TC is filed;

b) if the participation agreement is terminated by the TC or by tbg;

c) when the funds are repaid to tbg.

In the cases mentioned under a) to c) the evidence of use shall be submitted within a period of four weeks after the occurrence of the respective event.

Section 4

BEGINNING AND DURATION OF THE COMPANY

(1) The silent partnership shall begin as soon as this agreement is signed by both parties.

(2) The silent partnership shall expire on 31.12.2013.

(3) Upon termination of the business relationship, the capital contribution from **tbg** and outstanding profit shares and final remuneration (section 9) shall be due for payment to **tbg**.

(4) As far as the funds granted by the EP are repaid before 31.12.2013 the company shall expire, that is, the capital contribution from tbg shall be due at the same time and shall be repaid in the same percentage amount. The same shall apply if and as far as the EP receives payment from a third party for his participation in the TC and for this reason divests his participation wholly or in part.

Section 5

TBG'S RIGHT OF PARTICIPATION

(1) **tbg** shall not be represented on the board of management of the TC and shall not be involved in the management, unless otherwise provided below.

(2) The TC shall require the consent of **tbg**

a) for any amendment of the articles of association, in particular a modification of the object of the company, the admission of new partners or the agreement of new investments;

b) for the appointment and dismissal of members of the board of management of the TC or significant changes to the employment contracts of members of the board of management;

c) for the conclusion, amendment and termination of contracts relating to the granting of licenses, trademarks or know-how (except in the business of everyday software), patents, utility models or design patterns, insofar as they relate to the innovation projects funded with the participation of **tbg**;

d) the acquisition of rights referred to in c) shall only require the approval of tbg if they involve the innovation project funded by tbg and the resulting obligation for the TC exceeds an amount of 5,000 EUR per month or a one-off amount of 50,000 EUR;

e) for a partial or entire relocation,—leasing, divestiture or closure of the operation;

f) for the conclusion and termination of controlling and profit and loss transfer agreements;

g) for abandonment or substantial changes to the innovation project described in section 1, paragraph 2;

h) for the assumption of obligations for investments which are not included in the project financing by **tbg** and which exceed the amount of EUR 50,000 or for leasing, rental or tenancy contracts which exceed the amount of EUR 5,000 monthly.

(3) Approvals pursuant to section 5 para. 2 shall be obtained from **tbg**. If **tbg** has not declared its refusal to grant consent in writing within a period of 14 days after receipt of the notification of the measures requiring approval according to section 5 para 2, consent shall be deemed granted.

Section 6

INFORMATION AND MONITORING RIGHTS

(1) The TC shall report semi-annually, in the manner specified by **tbg**, respectively by 31.03. and 30.09. of each year, on the economic situation of the TC and on the status of the innovation project in described section 1 para. 2, as long as **tbg** does not waive such reports because the EP monitors the TC simultaneously on behalf of **tbg**. In addition, **tbg** shall receive monthly from the TC a brief status report in the manner specified by **tbg**, and at the end of the fiscal year an accordingly updated business plan for the following year.

(2) Regardless of whether the EP simultaneously monitors the TC on behalf of **tbg**, the TC shall promptly inform **tbg** of all measures which extend beyond the framework of normal business activities. It shall inform **tbg** in the event of a planned IPO in particular on any application made by the TC for permission to trade on a national, international and transnational stock exchange.

(3) In addition, **tbg** is entitled to exercise the monitoring rights pursuant to section 716 BGB (German Civil Code). This shall apply even after termination of the company to the extent necessary to verify the settlement credit.

Furthermore, **tbg** shall also be entitled at any time to examine all documentation of the TC which relates to the innovation project described in section 1 para. 2. tbg may employ third parties in the exercise of its monitoring rights.

(4) The TC shall grant the BMWi and its designated representative the rights of presentation, information and audit to the same extent as to **tbg**. The TC agrees that **tbg** may forward data relating to the company and to the funded innovation project of the program referred to in the preamble to this agreement to the BMWi or an institution appointed by it for scientific analysis. Furthermore, it also agrees to promptly provide the information necessary for scientific evaluation of the programme to the BMWi and an institute commissioned by it, if necessary even after the expiry of the silent partnership. The BMWi is entitled to forward the data that becomes known to it to the European Commission in order to exercise supervisory and monitoring authority. When preparing and if necessary when publishing data from the program, it shall be ensured that the TC suffers no detriment.

(5) The Federal Audit Office is entitled to a right of inspection with regard to the TC pursuant to section 91 BHO (Federal Budget Code). The TC shall provide the Federal Audit Office and **tbg** with all documentation that the General Audit Office deems necessary for inspection and shall provide appropriate information.

(6) The TC shall undertake to deliver reports falling under the contractual information and reporting obligations, to send documents and information, as well as all other correspondence electronically via a secure Internet connection to an Internet portal of **tbg**, provided that **tbg** requires this. The **tbg** shall ensure that the necessary technical requirements are met and the necessary technical equipment is provided to the TC.

Section 7

FISCAL YEAR, ANNUAL FINANCIAL STATEMENTS

(1) The silent partnership's financial year shall correspond to that of the TC ("participation year"). The fiscal year of the TC ends on 31.12.

(2) The TC shall prepare its annual financial statements (balance sheet, profit and loss account, appendices) in compliance with sections 238-289 HGB (German Commercial Code) within six months of the end of the fiscal year and deliver these to **tbg** as signed originals together with the **audit certificate from a auditor or certified accountant in accordance with section 322 HGB (German Commercial Code).** The audit of the financial statements shall be carried out according to the legal provisions for large corporations.

Section 8

PROFIT AND LOSS PARTICIPATION

(1) **tbg** shall receive a minimum remuneration in the amount of 8,00% p.a. on its capital contribution independent of the annual result of the TC. This shall be due semi-annually, on 31.3. and 30.09. each year, paid in arrears.

(2) In addition, from the time of the draw of the capital contribution, tbg shall receive 12.00% of the annual surpluses generated.

For any period of time in which the **tbg** holds more than one investment in the **TC** , it shall receive, in addition to the respective minimum remuneration, only a total of 12.00% of the generated annual surpluses however.

If the TC, within the framework of further financing rounds, receives additional capital, then profit sharing can be adjusted to reflect the then-current capital ratios.

This profit share shall be payable within 2 weeks of approval of the annual financial statements (section 7 para. 2).

(3) Annual net profit, which is adjusted by the following items, is decisive for the calculation referred to in paragraph 2:

a) The following items shall be added to the annual net profit

- Taxes on income and earnings, as well as any bonuses for the board members, as far as they have reduced reported annual net profit;

- extraordinary expenses, insofar as they stem from business transactions which occurred prior to the beginning of the silent partnership;
- Losses from the sale or destruction of fixed assets, insofar as the latter at the time of the commencement of the company already existed;
- profit-sharing schemes (e.g. for silent partners), as far as they have reduced reported annual net profit.

b) The following items shall be deducted from the annual net profit

- Amounts from the reversal of tax-free reserves which were formed before the beginning of the silent participation;
- extraordinary income, provided they are based on business transactions that occurred prior to the beginning of the silent partnership;
- Subsidies, allowances and Government grants, as far as these affected profit or loss;
- Income from the disposal of fixed assets, insofar as the latter at the time of the commencement of the company were already present.

c) In the year in which the capital contribution is drawn, the annual net profit for the calculation of profit sharing under para. 2 shall be considered to be distributed evenly throughout the year.

(4) **tbg** shall not participate in losses incurred by the **TC**.

Section 9

PREMIUM

(1) In the event of termination of the silent partnership up to the end of the fifth full year of participation, **tbg** is entitled to demand a one-off payment amounting to 30% of the amount of the participation valued at the time of the repayment (final remuneration) at the end of the participation period. Annual profit sharing pursuant to section 8 para 2 shall not be credited to the final remuneration to be paid, unless the silent partnership ends due to the dissolution of the TC in accordance with section 11. If in the latter case the sum of the profit sharing exceeds the final remuneration, no refund shall be made.

(2) In the event of termination of the silent partnership after the end of the fifth full year of participation, **tbg** shall be entitled to demand, to the end of the investment period, a one-time payment amounting to **30** % of the amount of the participation valued at the time of the repayment plus 6 % of the amount of the participation valued at the time of the repayment for each year after the end of the fifth full year of participation (final remuneration). Annual profit sharing pursuant to section 8 para. 2 shall be credited to the final remuneration to be paid. If the sum of the profit sharing exceeds the final remuneration, no refund shall be made.

(3) **tbg** will only make use of the right to demand final remuneration, if in its view this appears justified, due to the overall economic situation of the TC, due to its profits in the last three years prior to the termination of participation or the hidden reserves formed during the participation period.

(4) The beginning of the first year of participation within the meaning of the above provisions shall be deemed to be the time at which this contract is signed by both parties.

Section 10

TAXES

The TC shall provide for the transfer of the statutory capital gains tax plus solidarity surcharge on remuneration for the silent partnership contribution and shall withhold the capital gains tax and the solidarity surcharge from payments to **tbg** and remit these immediately directly to the competent tax office when due. After transfer, the TC shall issue certificates to **tbg** within the meaning of section 45a para. 2 EStG (Income Tax Act) on the forms provided by the **tbg**, within 2 months after due date.

Section 11

DISSOLUTION OF THE SILENT PARTNERSHIP

In the event of the dissolution of the TC, the silent partnership shall be dissolved. In this case, the silent participation shall be repaid.

Section 12

TERMINATION

(1) The TC is entitled wholly or partly to replace the participation of **tbg** in compliance with a notice period of three months to 30.6. or 31.12. of each year.

(2) Furthermore, the silent partnership may be terminated by written declaration without notice by any of its shareholders if there is a good cause. As far as the capital contribution has not yet or not fully been paid, **tbg** shall be free of its contribution obligation with the notice of termination.

tbg is entitled to terminate the contract for important cause in particular if

a) the TC made false statements in the participation application;

b) it transpires that the conditions for granting or retaining the participation did not exist or the conditions for the retention of the participation cease to exist, in particular the innovation project described in section 1 subsection 2 has proven to be unfeasible or has been abandoned by the TC is or has been significantly amended.

c) the TC has not submitted the evidence of use in accordance with section 3 within three months of the due date despite an overdue notice;

d) bills of exchange accepted from the TC are protested, the TC suspends payments, insolvency proceedings over the assets of the TU are opened or inability to pay is determined in any other way;

e) the possessor or possessors of know-how in management at the conclusion of the contract regarding the silent partnership, are no longer employed full time in management at the TC;

f) one of the measures listed in section 5 para 2 is taken without the prior consent of the tbg;

g) the TC is dissolved and liquidation proceedings are carried out;

h) the shareholders of the TC sell the shares respectively held by them in the course of a company sale.

(3) Furthermore, **tbg** is entitled to a right of extraordinary termination if

a) the TC goes public. tbg's right of termination arises at the time shares of the TC are first listed on a national, international or transnational stock exchange.

b) all shares in the TC are sold to an investor (trade sale). tbg's right of termination arises at the time of conclusion of the purchase agreement for the shares.

Section 13

GENERAL PROVISIONS

1. Changes and additions to this contract must be made in writing. There are no oral collateral agreements to this contract.

2. Should any provision of this contract be invalid, the remaining provisions shall remain unaffected. The TC and tbg are obliged to replace ineffective contractual provisions with those that are legally binding and which correspond as far as possible to the sense and purpose of the invalid provisions.

Preamble

In the context of the programme "Venture Capital for Small Technology Enterprises" conducted by the Federal Ministry of Economics and Technology and KfW (formerly Deutsche Ausgleichsbank), tbg on 13.05.2003 concluded an agreement with TE on a typical silent partnership amounting to EUR 750,000 (referred to hereinafter as "VCTE Agreement". The capital contribution has been paid up by tbg in full and tbg has not received any repayments in this respect.

Upon expiry of the agreed term of the silent partnership on 31.12.2013, the following claims to which tbg was entitled under the VCTE Agreement fell due:

1. Nominal amount of the silent partnership pursuant to § 2 of the VCTE Agreement:	EUR 750,000.00

Since TE is unable to repay the total amount on the date on which the agreement expires and its liquidity position does not allow immediate repayment, the parties have agreed that the aforementioned total amount is to be repaid as follows:

§ 1 Repayment of the Total Amount, Interest

(1) By 11.04.2014 at the latest, TE shall pay tbg a tranche of the nominal amount due, which shall amount to

	EUR100,000.00

(2) Repayment of the residual total amount still outstanding following payment of the tranche pursuant to Item (1) above and repayment of the further claims shall be made in several instalments as follows:

1. Instalment on 30.09.2014 (nominal amount)	EUR 50,000.00
2. Instalment on 31.03.2015 (nominal amount)	EUR250,000.00
3. Instalment on 30.09.2015 (nominal amount)	EUR250,000.00
4. Instalment on 31.03.2016 (nominal amount /final compensation gross)	EUR275,000.00
5. Instalment on 30.09.2016 (final compensation gross)	EUR275,000.00

(3) As from the end of the contractual term of the VCTE Agreement, interest shall be paid on the respective nominal amount still outstanding at a rate totalling 10.53 p.a. The interest shall fall due half-yearly in arrears on 31.03. and on 30.09. of each year. It shall include a handling fee and a risk premium. No interest shall be paid on any claims by tbg to payment of the fixed remuneration, final compensation or earnings-related payment such as may still be outstanding.

(4) TE shall also be entitled to pay the instalments on an earlier date.

(5) TE shall ensure payment of the statutory capital gains tax plus “solidarity surcharge” which is due on the earnings-related payment for the original silent partner’s capital contribution; when these payments fall due, it shall make such payments directly to TE’s competent tax office, and within one month it shall issue tbg with a tax certificate within the meaning of Income Tax Act § 45a (2) using the printed forms provided by tbg.

(6) On 12 November 2012, TE concluded a “Convertible Bridge Loan Agreement” for EUR 2 million, which likewise fell due for repayment on 31.12.2013. TE is currently holding negotiations on how this convertible bridge loan is to be dealt with. If repayment of the convertible bridge loan takes place timewise before the repayment dates according to the provisions of § 1 Item 1 and § 1 Item 2 of this Agreement, and/or if the (pro rata)

repayment instalments are higher than the repayment instalments according to the provisions of § 1 Item 1 and § 1 Item 2 of this Agreement, the parties undertake to adjust the repayment terms as laid down in the provisions of § 1 Item 1 and § 1 Item 2 of this Agreement accordingly.

§ 2 Information and Control Rights

(1) Within 6 weeks of the end of each calendar quarter at the latest, TE shall prepare a report on the preceding calendar quarter - i.e. 4 quarterly reports per year - containing the information requested by tbg, and submit same to tbg in the form required by the latter.

(2) TE undertakes to submit TE's annual financial statement to tbg within six months of the the balance sheet date at the latest. In exceptional cases, tbg may waive certification by an auditor or chartered public accountant pursuant to Commercial Code § 322.

Moreover, tbg shall have the right to demand submission of other documents and to inspect TE's accounting records at any time. For exercising its control rights, tbg may avail itself of third parties.

(3) Should TE fall in arrears with the payment of instalments, copies of TE's bank statements (as per the last day of the month) for all TE's bank accounts shall be submitted within the first ten days of the following month as evidence of TE's financial position and liquidity.

(4) TE shall grant to the Federal Ministry of Economics and an agent authorised by the latter the same scope of presentation, information and inspection rights as is granted to tbg. TE agrees that tbg may forward the data obtained on its enterprise and on the innovation project being funded to the Federal Ministry of Economics or to any institute commissioned by the latter for the purpose of scientifically evaluating the programme underlying this Agreement. Moreover, TE agrees to also provide the information that is required for scientifically evaluating the programme directly to the Federal Ministry of Economics or to any institute commissioned by the latter. The Federal Ministry of Economics is entitled to disclose the data reported to it to the EU Commission in order for the latter to exercise its powers of supervision and control. When data on the programme is drawn up and possibly published, it shall be ensured that no detriment is caused to TE.

(5) Vis-à-vis TE, the Federal Audit Office has an auditing right pursuant to Federal Budget Code § 91. For auditing purposes, TE shall make available to the Federal Audit Office, and to tbg all the records which the Federal Audit Office deems necessary and shall furnish information accordingly.

Preamble

A. The Parties entered into a participation agreement dated 13 May 2003 ("**BTU Agreement**"). For the purpose of the repayment of the claims of tbg under the BTU Agreement due upon expiry of its term, the Parties entered into a repayment agreement ("**Repayment Agreement**") on 3 April 2014.

B. The TC intends to enter into an acquisition agreement with the shareholders of the TC and Pieris Pharmaceuticals, Inc., whereby all the shareholders in the TC transfer their shares in the TC to Pieris Pharmaceuticals, Inc. in exchange for shares in Pieris Pharmaceuticals, Inc. ("**Closing**"). Closing is expected for 17 December 2014.

C. By entering into this settlement agreement the Parties intend to finally settle the claims of tbg. The TC will make the outstanding payments thereafter.

For this purpose, the Parties hereby enter into the following settlement agreement ("**Settlement Agreement**"):

§ 1

Repayment

1. To date, the TC has made several payments. However, the 2nd and 3rd instalment in the amount of EUR 250,000 each as well as the 4th and 5th instalment in the amount of EUR 275,000 each, each as set forth in § 1 para. 2 of the Repayment Agreement, are still outstanding. Therefore all outstanding claims of tbg consisting of nominal amount and final remuneration amount to EUR 1,050,000.00 in aggregate ("**Gross Settlement Amount**").

2. A partial amount of EUR 450,000.00 of this Gross Settlement Amount results from a silent participation and is therefore considered by the Parties to be capital gains within the meaning of § 43 para. 1 sentence 1 no. 3 EStG (German Income Tax Act). They therefore assume that the gross amount of the final remuneration of EUR 450,000.00 will be subject to capital gains tax in the amount of EUR 112,500.00 as well as solidarity surcharge (*Solidar-itätszuschlag*) in the amount of EUR 6,188 which is to be paid to the company tax office (*Betriebsfinanzamt*) responsible for the TC. The TC will confirm this to tbg in an corresponding tax confirmation, draft attached as Schedule 1, after payment. The net amount calculated therefrom of EUR 931,312.00 in total is to be paid to tbg in two instalments. The amounts set forth in this para. 2 have been calculated by the Parties; consequently, changes might occur if the company tax office responsible for the TC is of a different opinion. The TC will in no event be obliged to pay more than the Gross Settlement Amount.

3. The TC will pay the Gross Settlement Amount of EUR 1,050,000.00 in the two following instalments:

   - EUR 600,000.00 (gross) with respect to the nominal amount of the silent participation on 31 January 2015 plus interest as of this date, calculated on a daily basis, in the amount of EUR 19,290.37 as well as
   - EUR 331,312.00 (net) with respect to the profit-based remuneration on 31 March 2015.

   The payments shall be made to the following bank account of tbg with the effect of discharging the debt:

   IBAN DE22 5002 0400 1228 8333 92

   BIC: KFWIDEFFXXX

   Bank: KfW Frankfurt

   Reference: 4594715 Zahlung gem. Abrechnungsvereinbarung

4. Upon payment of the Gross Settlement Amount as described above and the delivery of the corresponding tax confirmation, all mutual claims from or in connection with the BTU Agreement and the Repayment Agreement in their respective current versions, irrespective of the legal grounds of the claims and the date on which they have come into existence, will be settled.

5. tbg will confirm in text form without undue delay the receipt of the payment to the TC.

§ 2

Miscellaneous

1. The provisions of § 1 are subject to the condition precedent that Closing is effected. The TC will inform tbg without undue delay once Closing has been effected.

2. All services performed by tbg under this agreement are value-added-tax-free financial services. The value-added tax identification number of KfW is: DE 114 104 280 (tax unity (*Organschaft*) for value-added tax purposes).

3. Amendments and supplements to this agreement including the cancellation of the written form requirement require written form to be effective.

4. Should individual provisions of this agreement be or become invalid or unenforceable or should this agreement have any gaps, this shall not affect the validity of the other provisions. In place of the invalid or unenforceable provisions a valid provision shall be deemed agreed which the Parties would presumably have agreed on if they had been aware of the invalidity, unenforceability or the omission of the relevant provisions when entering into this agreement. Should a provision be or become invalid due to the scope of performance agreed upon therein, the scope of performance agreed upon in the provision shall be adapted to the legally permitted extent.

5. The place of jurisdiction for all disputes under or in connection with this agreement shall be Bonn.

5. The Company now seeks a bridge financing amounting to a total of up to EUR 2,000,000 in this financing round (the "**2014 Financing Round**") to be provided by a convertible bridge loan granted to the Company by certain Preferred Shareholders.

6. To this end, those Preferred Shareholders listed in the table in Sec. 1 (*Convertible Bridge Loan*) para. (2) of this Convertible Bridge Loan Agreement with a Loan Amount other than zero (0) (the "**Investors**") intend to make available to the Company a bridge loan in the total amount of up to EUR 2,000,000 which may be convertible into shares of the Company as provided in this Agreement and is divided into (i) a tranche A of EUR 1,500,000 and (ii) a tranche B of up to EUR 500,000 subject to the terms and conditions of this Convertible Bridge Loan Agreement (the "**Convertible Bridge Loan**"). Each Preferred Shareholder was initially offered an investment in the Convertible Bridge Loan pro rata to his shareholding of Preferred Shares. As one or several Preferred Shareholders did not participate in the granting of the Convertible Bridge Loan or participated with less than their pro rata share of the Convertible Bridge Loan, the remaining principal amount of the Convertible Bridge Loan was offered to the other Preferred Shareholders pro rata to their shareholding of Preferred Shares, resulting in the allocation of the principal amount of the Convertible Bridge Loan among the Preferred Shareholders as set forth the table under Sec. 1 (*Convertible Bridge Loan*) para. (2) of this Convertible Bridge Loan Agreement.

7. The Shareholders are in agreement that their current and future relationship as shareholders of the Company is governed by the CSA 2012. The CSA 2012 forms an integral part of this Convertible Bridge Loan Agreement. Terms used but not defined herein have the same meaning as given to them in the CSA 2012.

8. It is intended by the Parties that all of the Company's shares, irrespective of their liquidation preference, will be contributed (*eingebracht*) by the Shareholders into a U.S. shell company (the "**Shell Company**"), which is to be listed on a stock exchange (e.g. first on OTC Bulletin and, subsequently, on NASDAQ), or into a subsidiary of such Shell Company, against issuance of shares of common stock in the Shell Company to the Shareholders (the "**Reverse Merger**"). The Company has identified Zosano, Inc., a Delaware corporation, as the Shell Company.

NOW, THEREFORE, the Parties hereto enter into the following Convertible Bridge Loan Agreement (hereinafter referred to as this "**Agreement**"):

Sec.1
Convertible Bridge Loan

1. Subject to the terms and conditions of this Agreement, the Investors grant to the Company a loan in the amount of up to Euro 2,000,000 which may be convertible into shares of the Company as provided in this Agreement and is divided into (i) a tranche A of EUR 1,500,000 and (ii) a tranche B of up to EUR 500,000 (the "**Convertible Bridge Loan**").

2. The principal amount of the Convertible Bridge Loan shall be allocated among the Investors as displayed in the table below (the portion of each Investor of the Convertible Bridge Loan a "**Loan Amount**" and, collectively, the "**Loan Amounts**"; each Investor's pro rata portion of the Convertible Bridge Loan, based on his or its shareholding of Preferred Shares, insofar as such pro portion does not exceed his or its Loan Amount, a "**Pro Rata Loan Amount**" and, collectively, the "**Pro Rata Loan Amounts**"; the amount by which each Investor's Loan Amount exceeds his Pro Rata Loan Amount, if applicable, a "**Super Pro Rata Loan Amount**" and, collectively, the "**Super Pro Rata Loan Amounts**"; and the portion of each Investor of the Tranche A and of the Tranche B a "**Tranche A Loan Amount**" and a "**Tranche B Loan Amount**", respectively, and collectively, the "**Tranche A Loan Amounts**" and "**Tranche B Loan Amounts**", respectively):

3. All Shareholders hereby expressly and irrevocably consent to the allocation of the principal amount of the Convertible Bridge Loan among the Investors pursuant to para. (2) of this Sec. 1 and hereby waive any subscription rights or similar rights in relation to the Convertible Bridge Loan.

4. The Loan Amounts shall be paid out by the Investors to the Company as follows:

   a. The Tranche A Loan Amounts shall be paid out by the Investors to an account notified by the Company to the Investors, once the Company has made a capital call to the Investors, at the earliest upon the signing of this Agreement by all Parties and subject to Sec. 13 (*Lapse of Outstanding Capital Commitments; New Capital Commitments*) of this Agreement, within ten (10) bank working days in Frankfurt/Main, Germany, after receipt of such capital call.

b. The Tranche B Loan Amounts shall be paid out by the Investors to an account notified by the Company to the Investors within ten (10) bank working days in Frankfurt/Main, Germany, after all of the following events have taken place: (i) the management board of the Company has determined that a financial need of the Company arises before the Maturity Date (as defined in Sec. 3 (*Term*) of this Agreement), and (ii) the Investors have received a capital call made by the Company, subject to Sec. 13 (*Lapse of Commitments*) of this Agreement.

Sec. 2
Use of Proceeds

The Company shall use the Convertible Bridge Loan for general corporate purposes, including repayment (or partial repayment) of the Convertible Bridge Loan 2012.

Sec. 3
Term

The Convertible Bridge Loan is granted until December 31, 2015 (the "**Maturity Date**"). The Convertible Bridge Loan (as well as each called Loan Amount to the respective Investor) shall be due for repayment, on the Maturity Date, unless the Convertible Bridge Loan is terminated before the Maturity Date in accordance with Sec. 5 (*Early Termination and Repayment*), whereupon the Convertible Bridge Loan (as well as each called Loan Amount to the respective Investor) shall be due for repayment in accordance with Sec. 5 (*Early Termination and Repayment*) para. (5). In the event that the Company fails to repay the full amount of (i) the called Loan Amounts plus (ii) accrued interests, within thirty (30) days from the Maturity Date, then a repayment scheme will be negotiated in good faith between the Company and the Shareholders, contemplating a defaulting interest rate.

Sec. 4
Interest

The Loan Amounts shall bear interest on the amount outstanding until the Loan Amounts are repaid at a rate of 12% per annum on or before the Maturity Date. If and to the extent the Loan Amounts have not been repaid by the Maturity Date, the Loan Amounts shall from then on bear interest on the amount out-

standing at a rate of 18% per annum. The interest is to be calculated on the basis of a year with 360 days with 12 months of 30 days each. The interest on the Loan Amounts is due and payable upon repayment of the Loan Amounts to the Investors. If the Convertible Bridge Loan is converted into shares of the Company as provided in this Agreement, the respective formula set out in Sec. 11 (*Number of New Shares*) of this Agreement shall apply.

Sec. 5
Early Termination and Repayment

1. Except where Investors have request the conversion under Sec. 9. (*Conversion Request*) of this Agreement and subject to Sec. 14 (*Exercise of Investor Rights*) of this Agreement, the Investors are entitled to terminate the Convertible Bridge Loan before the Maturity Date and request the repayment of the called Loan Amounts plus any interest accrued thereon,

   a. in case of the closing of an Exit Event (as such term is defined in Sec. 11 (*Preference / Sale Proceeds / Conversion*) para. (1) of the CSA 2012); or

   b. in case of the closing of a financing of the Company lead by a financial or strategic investor currently not affiliated with the Company resulting in aggregate proceeds available to the Company of not less than EUR 10,000,000 ("**Qualified Financing**").

2. The Company and the Investors, subject to Sec. 14 (*Exercise of Investor Rights*) of this Agreement, are entitled to terminate the Convertible Bridge Loan for good cause (*aus wichtigem Grund*) at any time. Furthermore and notwithstanding the foregoing, each Investor individually is entitled to terminate the respective Loan Amount for good cause at any time. Good cause for the Investors includes, without limitation, the following events:

   a. voluntary bankruptcy / insolvency events of the Company (in particular, if the Company is insolvent within the meaning of § 17 German Insolvency Code (*Insolvenzordnung*) or if the Company applies for such proceedings to be commenced or offers an out-of-court settlement in order to avoid such proceedings); or

   b. the opening of involuntary bankruptcy / insolvency proceedings (*Eröffnung eines Insolvenzverfahrens*) over the Company's assets.

3. The termination right pursuant to para. (1) and (2) of this Sec. 5 must be exercised in writing.

4. In case the Convertible Bridge Loan or a Loan Amount is validly terminated, the Company is obliged to repay the called Loan Amounts or Loan Amount, respectively (plus interest accrued until that date), within five (5) bank working days in Frankfurt/Main, Germany.

Sec. 6
Payments

1. Unless an Investor gives other instructions in writing to the Company, all payments to be made to the respective Investor under this Agreement shall exclusively be made by money transfer in Euros by the Company to an account of the respective Investor, which account should be submitted by such Investor to the Company.

2. When the Company makes payments to the Investors, it is obliged to treat the Investors equally. Therefore, all payments to the Investors have to be made at the same time, if reasonably practicable, and pro rata to their Loan Amounts.

3. Insofar as the Company makes payments to the Investors disregarding the regulation under para. (2) of this Sec. 6, the Investors undertake vis-à-vis each other to compensate each other for such deviating payment to the extent that the aggrieved Investor would have receive such payments if the Company had considered the regulations under para. (2) of this Sec. 6.

Sec. 7
Taxes and Duties

All payments by the Company to be made to the Investors under this Agreement shall be made without a discount or deduction of any existent or future taxes or duties of whatever kind raised in the Federal Republic of Germany, unless the Company is obliged by law to withhold or deduct such taxes or duties.

Sec. 8
Qualified Subordination

1. The Parties herewith agree that claims for repayment of the Loan Amounts (including interest, costs and any other accessory claim, if any) (the "**Claims**") shall be irrevocably subordinated to any and all other liabilities, with the exception of those ranking pari passu, of the Company vis-à-vis its current or future creditors and therefore do not have to be settled, as long as and to the extent that the Company is insolvent or over-indebted or was to be qualified as insolvent or over-indebted pursuant to §§ 17, 19 German Insolvency Code (*Insolvenzordnung*), would the Claims not be subordinated, or would an insolvency or over-indebtedness of the Company exist for any other reason. This

subordination also applies to the final distribution of liquidation proceeds pursuant to § 199 German Insolvency Code in the event of an insolvency proceeding (*Insolvenzverfahren*). Repayments of the Loan Amounts shall only be made from future annual net income, net income from winding up or from other free assets (*sonstiges freies Vermögen*) of the Company. To the extent the Claims are subordinated, the Claims are ranked behind claims pursuant to § 39 para. 1 no. 5 German Insolvency Code (*Insolvenzordnung*).

2. If German jurisprudence should require further requirements for a qualified subordination agreement to be apt to avoid insolvency or over-indebtedness under German Insolvency Law, the Claims of the Holder shall be regarded as having such rank as required in particular pursuant to German jurisprudence in order to avoid the passivation as liability in an over-indebtedness balance sheet (*Überschuldungsbilanz*) of the Company.

Sec. 9
Conversion Request

1. At any time after the Maturity Date, the Investors are entitled but not obliged to request the conversion in accordance with Sec. 10 (*Conversion*) and subject to Sec. 14 (*Exercise of Investor Rights*) of this Agreement, in whole or in part, of the Loan Amounts into series B shares of the Company at the Series B Conversion Price (as defined in Sec. 11 (*Number of New Shares*) of this Agreement) for their Pro Rata Loan Amounts and at the Preferred Series B Conversion Price (as defined in Sec. 11 (*Number of New Shares*) of this Agreement) for their Super Pro Rata Loan Amounts, if and to the extent the Loan Amounts have not been repaid on or before the Maturity Date.

2. Upon the occurrence of an Exit Event prior to the Maturity Date, the Investors are entitled but not obliged to request the conversion in accordance with Sec. 10 (*Conversion*) and subject to Sec. 14 (*Exercise of Investor Rights*) of this Agreement, in whole or in part, of the Loan Amounts into series B shares of the Company at the Series B Conversion Price (as defined in Sec. 11 (*Number of New Shares*) of this Agreement) for their Pro Rata Loan Amounts and at the Preferred Series B Conversion Price (as defined in Sec. 11 (*Number of New Shares*) of this Agreement) for their Super Pro Rata Loan Amounts, if and to the extent the Loan Amounts have not been repaid.

3. Upon the closing of a Qualified Financing, the Investors are entitled but not obliged to request the conversion in accordance with Sec. 10 (*Conversion*) and subject to Sec. 14 (*Exercise of Investor Rights*) of this Agreement, in whole or in part, of the Loan Amounts into the preferred stock of the Company, whether this

is series B or any other series of preferred stock which is issued to new investors in a Qualified Financing (the "**Qualified Financing Shares**") at the Qualified Financing Conversion Price (as defined in Sec. 11 (*Number of New Shares*) of this Agreement) for their Pro Rata Loan Amounts and at the Preferred Qualified Financing Conversion Price (as defined in Sec. 11 (*Number of New Shares*) of this Agreement) for their Super Pro Rata Loan Amounts, if and to the extent the Loan Amounts have not been repaid.

4. The Investors may request the conversion of the Loan Amounts in accordance with para. (2) and (3) of this Sec. 9 at any time during a period of four (4) weeks after the occurrence of the Exit Event or closing of the Qualified Financing, respectively.

Sec. 10
Conversion

1. In order to request conversion of the Loan Amounts pursuant to Sec. 9 (*Conversion Request*) of this Agreement, the Investors shall submit to the Company a notice of conversion, in whole or in part, of the Loan Amounts (using the form enclosed in **Exhibit C**) (the "**Conversion Notice**").

2. In the event that the Company receives a Conversion Notice, the Company shall invite all Shareholders, with the exception of the persons listed as indirect shareholders in **Exhibit A**, to a shareholders' meeting to be held within three (3) months after receipt of the Conversion Notice by the Company, and all Shareholders undertake to vote their shares in such a shareholders' meeting, to pass all resolutions required (including but not limited to resolutions on a capital increase required to issue the New Shares as defined below (the "**Capital Increase**") and necessary amendments to the Company's Articles of Association) to issue the respective number of new series B shares or Qualified Financing Shares, respectively (the "**New Shares**"), to be calculated according to Sec. 11 (*Number of New Shares*) of this Agreement, to the Investors. The New Shares shall each be in registered form, and shall be issued as non-par value shares with a portion of the Company's share capital (*anteiliger Betrag des Grundkapitals*) of EUR 1.00 each, and shall be issued at an issue price (*Ausgabebetrag*) of EUR 1.00 per share without any premium. The New Shares shall have the right to participate in profits as from the beginning of the financial year in which they have been issued.

3. Each Shareholder undertakes individually for himself or itself vis-à-vis each other party hereto, to do or cause to be done everything necessary to implement the conversion request. Thus, the Shareholders undertake in particular to co-

operate in the Capital Increase of the Company and in necessary amendments to the Company's Articles of Association by exercising their voting rights in said shareholders' meeting of the Company, by subscribing to the New Shares as provided in this Agreement and/or by waiving subscriptions rights to New Shares in the Company if required to implement the conversion request.

4. To the extent legally permitted, the Company and Shareholders shall secure that (i) the Company's management board and the supervisory board will execute the Capital Increase, and (ii) the Company will (a) accept the subscription of New Shares as described above, as well as (b) without undue delay apply for registration and of the consummation of the Capital Increase with the Commercial Register.

5. The Investors shall pay in full their respective part of the cash contribution (EUR 1.00 per share) within ten (10) bank working days in Frankfurt/Main, Germany, after such Investor has subscribed for New Shares to the Company's special account to be named by the Company. Payments shall be made exclusively to this special account, which will be opened solely for this purpose and must not be used for other transactions or payments prior to the conclusion of the aforementioned payments. This special account must not have a debit balance immediately prior to the aforementioned payments being effected, so that the Company's management board can freely dispose of the amounts paid (cf. Sec. 188, 36, 36a, 37 German Act on Stock Corporations; "**AktG**").

6. In the event that the Investors request the conversion, in whole or in part, of the Loan Amounts in accordance with Sec. 9 (*Conversion Request*) para. (1), (2) or (3) of this Agreement and subscribe for the New Shares, each Investor shall contribute (*einlegen*) without further consideration his claim for repayment of the respective Loan Amount into the Company's capital reserves pursuant to § 272 para. (2) no. 4 German Commercial Code (*Handelsgesetzbuch*). The aforementioned contribution will be made subject to the implementation (*Durchführung*) of the Capital Increase, i.e. the effective issue of the respective New Shares to such Investor. For clarification purposes: the Company itself shall not be entitled to demand the contribution pursuant to this para. (6). Alternatively, to the aforementioned contribution of the claim for repayment, the Investors may elect to waive their claims for repayment vis-à-vis the Company. In this case, sentences 2 and 3 of this para. (6) shall apply accordingly.

Sec. 11
Number of New Shares

1. The number of new series B shares to be issued in the course of the conversion in accordance with Sec. 9 (*Conversion Request*) para. (1) and (2) of this Agreement to each Investor shall be determined by the Pro Rata Loan Amount, to the extent that has been paid out, divided by the "**Series B Conversion Price**", plus the Super Pro Rata Loan Amount, to the extent that has been paid out, divided by the "**Preferred Series B Conversion Price**", which are to be calculated as follows:

   a. Series B Conversion Price:

      Series B Conversion Price =

      EUR 53 divided by [1 + (0.01 * M + 0.015 * N)],

      whereby M is the number of full months (rounded off) from the payment of the Loan Amounts to the Company until the earlier of the (i) Maturity Date, or, (ii) the closing of a Qualified Financing or an Exit Event and

      whereby N is the number of full months (rounded off) from the payment of the Loan Amounts to the Company until Conversion less M,

      but in any case not less than EUR 1.00.

   b. Preferred Series B Conversion Price:

      Preferred Series B Conversion Price =

      Series B Conversion Price * 0.7,

      but in any case not less than EUR 1.00.

2. The number of new Qualified Financing Shares with a nominal value of EUR 1.00 each to be issued in the course of the conversion in accordance with Sec. 9 (*Conversion Request*) para. (3) of this Agreement to each Investor shall be determined by the Pro Rata Loan Amount, to the extent that has been paid out, divided by the "**Qualified Financing Conversion Price**", plus the Super Pro Rata Loan Amount, to the extent that has been paid out, divided by the "**Preferred Qualified Financing Conversion Price**", which are to be calculated as follows:

   a. Qualified Financing Conversion Price:

      Qualified Financing Conversion Price =

the price per share of preferred stock of the Company issued to investors in a Qualified Financing less a discount of twenty percent (20%) divided by [1 + (0.01 * M + 0.015 * N)],

whereby M and N have the meaning as defined in para. (1) of this Sec. 11,

but in any case not less than EUR 1.00.

b. Preferred Qualified Financing Conversion Price:

Preferred Qualified Financing Conversion Price =

Qualified Financing Conversion Price * 0.9,

but in any case not less than EUR 1.00.

3. Residual amounts of the respective Loan Amounts that are indivisible after application of para. (1) and (2) of this Sec. 11 are awarded to such Investor who has the highest Loan Amount and will increase his Loan Amount which is subject to conversion in accordance with para. (1) and (2) of this Sec. 11, the result being rounded down to the nearest whole number.

Sec. 12
Lapse of the Conversion Right

1. The right of the Investors to request conversion pursuant to Sec. 9 (*Conversion Request*) of this Agreement shall lapse, provided that

   a. the Company is converted to a different or into another legal entity within the meaning of the German Act on Transformations (*Umwandlungsgesetz*), and

   a. the Investors are compensated with (i) conversion rights to shares of the new legal entity, or (ii) shares of the new legal entity, each of equal value.

2. Shares or respectively conversion rights in the new legal entity are considered as having equal value, if their value is equivalent to the value of the conversion rights of the Company on the point in time of the effectiveness of the conversion. The valuation of these conversion rights / shares will be undertaken by the auditor of the conversion or, if an audit within the conversion is not mandatory by law, by a business valuator to be instructed by the Company and the Investors.

3. In the event that the Reverse Merger takes place (i.e. with the contribution of all shares in the Company into the Shell Company becoming effective) before De

cember 31, 2014 (the "**Reverse Merger Event**"), (i) the right of the Investors to request conversion pursuant to Sec. 9 (*Conversion Request*) of this Agreement shall lapse, and (ii) the Company shall be entitled to, subject to Sec. 3 (*Term*) of this Agreement, repay the called Loan Amounts plus any interest accrued thereon in accordance with a payment schedule to be notified by the Company to the Inventors.

Sec. 13
Lapse of Loan Commitments; New Capital Commitments

1. In case of a Reverse Merger Event, any amounts of Tranche A or Tranche B which have not been called at the time of the Reverse Merger Event can no longer be called by the Company and the respective outstanding capital commitments made by the Investors in this Agreement with regard to their Loan Amounts, to the extent these have not been paid in (the "Outstanding Capital Commitments"), shall lapse.

2. The Investors hereby undertake to make new capital commitments, in case of a Reverse Merger Event, in an amount equal to the Outstanding Capital Commitments, during the first PIPE (private investment in public equity) financing of the Shell Company, wherein each Inventor will make new capital commitment, during said PIPE financing, equal to his or its uncalled Loan Amount in accordance with Sec. 1 para. (2).

3. The Investors hereby undertake to, for the purposes of said new capital commitments, enter into a share purchase agreement to subscribe shares of common stock in the Shell Company substantially in the form as attached as **Exhibit D**, with a purchase price per share identical to that paid by other investors participating in said PIPE financing.

Sec. 14
Exercise of Investor Rights

1. Investor rights, including but not limited to the right to claim repayment and the right to request conversion of the Convertible Bridge Loan, may only be exercised jointly by the Investors and upon demand of Investors whose aggregated Loan Amounts exceed 50% of the total Loan Amounts (the "**Investor Majority**"), unless specified differently in this Agreement.

2. Each Investor shall exercise his rights in accordance with the decision of the Investor Majority and shall procure to take all measures required to not block or prevent such decision of the Investor Majority and its implementation.

Sec. 15
Expenses

The Company shall pay the Investors' reasonable due diligence and legal expenses (including VAT, if applicable), limited to an aggregate amount of EUR 15,000.00 for all Investors, subject to the Convertible Bridge Loan being paid out.

Sec. 16
Final Provisions

1. Each of the Shareholders shall be entitled to transfer its rights and obligations under this Agreement together with the shares to which such rights and obligations relate in whole or in part, provided that such Shareholder may transfer his shares under the CSA 2012.

2. Each of the Shareholders undertakes individually for himself or itself vis-à-vis each other Shareholder, to impose on his individual legal successors, if any, the rights and obligations arising under this Agreement in such a way, that his individual legal successors are bound by the rights and obligations under this Agreement as if they had themselves undertaken these rights and obligations. This shall also apply to the obligation undertaken in this para. 2 to impose the rights and obligations under this Agreement on any individual legal successors.

3. The Shareholders are entitled to the rights under this Agreement to the exclusion of any joint entitlement, i.e. in such a way that each of the Shareholders may individually exercise the rights to which they are entitled, unless otherwise expressly provided in this Agreement. Joint and several liability (*gesamtschuldnerische Haftung*) of the Shareholders – including but not limited to the payment of the Loan Amounts to the Company – shall be excluded.

4. Amendments and additions to this Agreement must be made in writing to be effective unless notarization is required. This shall also apply to a waiver of the written form requirement. Signatures transmitted by way of facsimile communication shall satisfy the written form requirement of this para. (4) and shall also suffice in all other cases where a written form requirement is made in this Agreement.

5. Should individual terms of this Agreement be or become invalid or unenforceable or if this Agreement contains gaps, this shall not affect the validity of the remaining terms of this Agreement or the CSA 2012. In place of the invalid, unenforceable or missing term, such valid term which the parties would reasonably have agreed, had they been aware at the conclusion of this Agreement that the relevant term was invalid, unenforceable or missing, shall be deemed to have been agreed. Should a term of this Agreement be or become invalid because of the scope or time of performance for which it provides, then the agreed scope or time of performance shall be amended to correspond with the extent legally permitted.

6. The Parties shall keep strictly confidential the fact that they have entered into negotiations regarding the transactions contemplated in this Agreement and the contents of such negotiations and the contents of this Agreement, except if and to the extent that disclosure is required by law or stock exchange regulations and the other parties have been notified of such requirement. This Agreement, however, may be shared with the existing shareholders and potential outside investors. Furthermore, the Parties are permitted to share such information with the persons/entities/bodies mentioned in Sec. 22 (*Additional Undertakings, Prohibition to Compete, D & O Insurance*) para. (2) sentence 2 of the CSA 2012. In particular, Technologie Beteiligungsfonds II Bayern GmbH & Co. KG and KfW shall be allowed to disclose their participations in the Company vis-à-vis the Bavarian Supreme Auditing Agency (*Bayerischer Oberster Rechnungshof*), the Federal Supervisory Agency (*Bundesrechungshof*) and the Federal Department of Economics (*Bundeswirtschaftsministerium*) as required by applicable law.

7. Prior to any announcement, the Company and the Investors shall agree upon the form and contents of any press release with respect to this Convertible Bridge Loan.

8. With regard to the signing of the Agreement, signatures transmitted by way of facsimile communication shall suffice and be binding. Reception of an original copy of this Agreement signed by all Parties is not a condition for the validity of this Agreement.

9. This Agreement is governed by and shall be construed in accordance with the laws of Germany, without regard to its provisions of private international law and excluding the UN Sales Convention.

10. To the extent legally permissible, place of venue and performance shall be Munich. All disputes arising in connection with this Agreement shall be finally settled in accordance with the Arbitration Rules of the German Institution of Arbitration e.V. (DIS) without recourse to the ordinary courts of law and according to the Arbitration Agreement enclosed as **Exhibit E.** This shall include disputes regarding the validity, the performance or the termination of this Investment Agreement in whole or in part including possible amendments of the same. The place of arbitration is Munich. The arbitration tribunal consists of three arbitrators. The language of the arbitration proceeding is English.

11. The Exhibits to this Agreement are an essential part of it. The headings in this Agreement only serve for a better orientation and are of no significance for the content and interpretation of this Agreement. Explanations in a provision or Exhibit to this Agreement are also deemed to be listed for purposes of all other provisions or Exhibits.

12. German definitions in this document shall take precedence over the respective English terms.

EXHIBIT 10.30

Execution Version

Consolidated Shareholders' Agreement 2014
Pieris AG, Freising, Germany
dated October 10, 2014

by and among

1. Pieris AG, whose principal place of business is at Lise-Meitner-Straße 30, 85354 Freising, Germany (the "**Company**"), represented by its Management Board, consisting of Stephen Yoder, and its Supervisory Board, being represented by its chairman, Dr. Hans A. Küpper;
2. The persons listed in **Exhibit A** who are the holders of common shares of the Company ("**Holders of Common Shares**");
3. The persons listed in **Exhibit A** who are the holders of preferred shares series A of the Company ("**Holders of Preferred Shares Series A**");
4. The persons listed in **Exhibit A** who are the holders of preferred shares series A-1 of the Company ("**Holders of Preferred Shares Series A-1**");
5. The persons listed in **Exhibit A** who are the holders of preferred shares series B of the Company ("**Holders of Preferred Shares Series B**");
6. The persons listed in **Exhibit A** who are the (future) holders of preferred shares series C of the Company ("**Holders of Preferred Shares Series C**");

and

7. The persons listed in **Exhibit A** who are indirect shareholders of the Company ("**Indirect Shareholders**").

The Holders of Common Shares, of Preferred Shares Series A, of Preferred Shares Series A-1, of Preferred Shares Series B, and of Preferred Shares Series C shall jointly be referred to as the "**Shareholders**". The Holders of Preferred Shares Series A, of Preferred Shares Series A-1, of Preferred Shares Series B and of Preferred Shares Series C shall jointly be referred to as the "**Preferred Shareholders**". The Shareholders, the Indirect Shareholders and the Company shall jointly be referred to as the "**Parties**".

Preamble

A. The Shareholders are the current and future shareholders of the Company, which is registered in the commercial register of the local court of Munich (the "**Commercial Register**") under no. HRB 133 223. The object of the Company is the biotechnological research and development and the distribution of applications of the research results.

B. The Company seeks further growth financing as a series C round of financing in the total amount of approx. EUR 5,000,000 in new money (equaling approx. USD 6,660,000; not taking into account the Convertible Loans). Therefore, the Shareholders and the Company have entered into a separate investment agreement of even date (the "**Investment Agreement**"), of which this consolidated shareholders' agreement 2014 ("**this Agreement**" or "**CSA 2014**") shall form an integral part. Capitalized terms used but not defined herein shall have the same meaning as given to them in the Investment Agreement.

C. It is the common intention of the Shareholders that the shares of the Company are listed on a stock exchange or the Company is sold to a third party in due course.

NOW, THEREFORE, in order to lay down the principles of the legal relationship between all Shareholders as current and future shareholders of the Company, the Parties hereby enter into the following CSA 2014:

Sec. 1
Anti-Dilution Protection / Waiver of Subscription Rights

1. If after the increase of the share capital of the Company pursuant to Sec. 1 of the Investment Agreement, a further increase or further increases of the share capital of the Company take(s) place including, but not limited to, an increase of the share capital utilizing authorized capital or conditional capital ("**Dilutive Issue**") at a total price per share (issue price plus any contributions to the capital reserves of the Company pursuant to § 272 para. 2 HGB) that is less than EUR 6.04 (equaling USD 8.09) ("**Original Issue Price Series C**"), each Holder of Preferred Shares Series C, acting individually, is irrevocably entitled (but not obligated) to a weighted-average anti-dilution protection by subscribing and being issued that number of additional Preferred Shares Series C at par value without premium or other contributions into the capital reserves of the Company as if such Holder of Preferred Shares Series C had subscribed his Preferred Shares Series C according to the following formula:

*"**Revised Subscription Price Series C**" =*

(Outstanding shares before the Dilutive Issue x Original Issue Price Series C) + amount raised in the Dilutive Issue

---

Outstanding shares after the Dilutive Issue
(without Anti-Dilution Shares Series C and excluding any options for, or other securities convertible into, shares in the Company)

The difference between the Original Issue Price Series C and the Revised Subscription Price Series C calculated accordingly shall be multiplied by the total number of Preferred Shares Series C held by the concerned Holder of Preferred Shares Series C and divided by the result of the Revised Subscription Price Series C minus the portion of the Company's share capital attributable to one share (*anteiliger Betrag des Grundkapitals*) ("**Par Value**").

The result then corresponds to the total number of Preferred Shares Series C which the Holders of Preferred Shares Series C may subscribe at Par Value without premium or other contributions into the capital reserves of the Company by virtue of this anti-dilution protection ("**Anti-Dilution Shares Series C**"), whereby the Anti-Dilution Shares Series C shall be allocated to the Holders of Preferred Shares Series C on a pro rata basis with regard to their shareholding of Preferred Shares Series C before the Dilutive Issue.

Example:

Revised Subscription Price Series C =

(Outstanding shares before the Dilutive Issue x EUR 6.04) + amount raised in the Dilutive Issue

---

Outstanding shares after the Dilutive Issue
(without Anti-Dilution Shares Series C and excluding any options for, or other securities convertible into, shares in the Company)

The difference between EUR 6.04 and the Revised Subscription Price Series C calculated accordingly shall be multiplied by the total number of Preferred Shares Series C and divided by the result of the Revised Subscription Price Series C minus the Par Value of EUR 1.00 which equals the total number of Anti-Dilution Shares Series C which the Holders of Preferred Shares Series C may subscribe at EUR 1.00 and pro rata according to their shareholding of Preferred Shares Series C.

With respect to the Preferred Shares Series C resulting from the conversion of the Convertible Loans in accordance with the provisions of the Investment Agreement (the "**Conversion Shares**"), the above provisions shall apply separately and *mutatis mutandis*; provided, however, that the Original Issue Price Series C shall be reduced to reflect the discount as provided in the Loan Agreements applied when calculating the number of Conversion Shares, and the Revised Subscription Price Series C shall likewise be calculated pursuant to the above formula but including such reduced Original Issue Price Series C.

2. The Holders of Preferred Shares Series C shall receive the Anti-Dilution Shares Series C in conjunction with the capital increase which led to the Dilutive Issue. For this purpose all Shareholders shall be obliged to pass the legally required shareholders' resolutions and to waive their statutory subscription rights to the extent necessary.

3. The Original Issue Price Series C shall be subject to adjustments for stock splits, reverse stock splits, stock dividends and the like.

4. In the event of more than one Dilutive Issue, the rights under this Sec. 1 may be exercised with respect to each Dilutive Issue. In case of the granting of Anti-Dilution Shares Series C the Original Issue Price Series C shall be adjusted accordingly.

5. Para. 1 and 2 shall not apply with regard to (i) the securities issued upon conversion of the Preferred Shares; (ii) securities issued to board members and employees of the Company or of affiliates (*verbundene Unternehmen*) within the meaning of § 15 German Stock Corporation Act (*AktG*) pursuant to the terms and conditions approved by the Supervisory Board, including the member nominated pursuant to Sec. 16 para. 2 a below; (iii) securities issued as a dividend or distribution with respect to the Preferred Shares; (iv) securities issued in connection with equipment leasing, real estate, bank financing or similar transactions approved by the Supervisory Board, including the member nominated pursuant to Sec. 16 para. 2 a below; (v) securities issued in an IPO as defined in Sec. 10 para. 6 below; (vi) securities issued pursuant to the acquisition by the Company of another corporation or entity by consolidation, corporate reorganizations, or merger, or purchase of all or substantially all of the assets of such corporation or entity as approved by the Supervisory Board, including the member

nominated pursuant to Sec. 16 para. 2 a below; (vii) securities issued by reason of a dividend or other distribution on shares of Common Stock; (viii) any securities issued in the course of a Compensatory Share Capital Increase pursuant to Sec. 4 para. 3 of the Investment Agreement, and (ix) any securities issued or issuable upon conversion, exercise or exchange of any other securities that are covered by (i) - (viii).

6. All shares in the Company shall be subject to adjustments for stock splits, reverse stock splits, stock dividends and the like.

Sec. 2
Notification

1. A Shareholder intending to transfer its present or future shareholding in the Company, or a portion thereof, with or without consideration ("**Offeror**") shall notify the chairman of the Company's Supervisory Board of such intent in writing.

2. Such notification shall contain the following details to be provided by the Offeror:

   a. Name / firm and address / registered office of the Offeror;

   b. Name / firm and address / registered office of the potential acquirer;

   c. Purchase price or other consideration, as the case may be, for the intended transfer;

   d. Due date for payment of the purchase price or other consideration, as the case may be;

   e. Amount, type and series of shares intended to be transferred;

   f. Representations and warranties given or declared by the Offeror, as the case may be.

Sec. 3
Offer to the Holders of Rights of First Refusal

1. An Offeror intending to transfer its current or future shareholding in the Company for consideration (sale/exchange/contribution to the capital in return for shareholder rights, etc.) shall, along with a notification pursuant to Sec. 2 hereof, offer such shares for sale to all other Shareholders.

2. The offer is to be submitted to the Company, addressed to the chairman of the Supervisory Board. The notice shall constitute an offer vis-à-vis the Shareholders other than the Offeror and other than Shareholders being subject to Sec. 4 para. 2 sentence 2 of this Agreement (the "**First Right Holders**"). The terms of the offer are to fully correspond with the terms of the offer for sale made to the potential acquirer. In the event that consideration other than in cash is provided for, the Offeror shall state the equivalent monetary value of such consideration for the purposes of submitting the offer to the First Right Holders. The value of non-monetary consideration shall be determined in accordance with the respective consideration's fair market value. In the event of doubt as to the accuracy of such valuation, the Supervisory Board, by way of a 75 % majority resolution, shall be obliged to instruct an independent expert (e.g. an auditor) to submit a report and make a determination on the fair market value of such consideration. The costs incurred as a result of instructing such expert are to be borne by the Offeror. The results of such opinion shall be conclusive with respect to the fair market value of consideration payable for the offer for sale submitted.

Sec. 4
Exercise of Rights of First Refusal

1. Upon receipt of the notification of the intent to transfer shares pursuant to Sec. 2, the Company, through the chairman of its Supervisory Board, shall immediately notify all other Shareholders of the contents of the said notification and the offer contained therein and shall forward such offer to the other Shareholders in accordance with Sec. 3. The chairman of the Supervisory Board shall notify the other Shareholders of such offer by way of registered mail.

2. The First Right Holders are entitled to accept the offer submitted by the Offeror pursuant to Sec. 3 in accordance with the ratio their respective shareholdings in the Company bear to each other. As long as the Offeror has not transferred the shares in respect of which it made a notification of offer pursuant to Sec. 2, and the period of two months pursuant to Sec. 7 para. 2 has not expired, such Offeror shall not be entitled to a right of first refusal if another Shareholder submits a notification of offer pursuant to Sec. 2 prior to the expiry of the period of two months pursuant to Sec. 7 para. 2 applicable in respect of the Offeror.

3. The First Right Holders are entitled to declare their acceptance of the offer pursuant to Sec. 3 within one month after receipt of the notification and submission of the offer pursuant to para. 1 in writing vis-à-vis the chairman of the Supervisory Board or to exercise their tag-along right, if any, pursuant to Sec. 8 by way of written declaration vis-à-vis the chairman of the Supervisory Board within the period of notice stated. In this declaration vis-à-vis the chairman, the First Right Holders can also declare that they accept the offer in the first line and exercise their tag-along right, if their acceptance is regarded as ineffective pursuant to Sec. 7 para. 2. The date the respective notice is received by the chairman of the Supervisory Board shall be conclusive.

4. Upon the notice of acceptance pursuant to para. 3 being received by the chairman of the Supervisory Board, a sale and purchase agreement between the Offeror and the respective accepting First Right Holders shall be deemed constituted and concluded. Non-divisible fractions of shares shall be allocated to the First Right Holder first to accept the offer by way of notice to the chairman of the Company's Supervisory Board. The date the respective notice of acceptance is received by the chairman of the Supervisory Board shall be conclusive.

Sec. 5
Exercise of a Further Right of First Refusal

1. In the event that not all First Right Holders exercise their right pursuant to Sec. 4, the following shall apply: The First Right Holders who accepted the offer submitted to them shall also be entitled to accept in addition the offer that was first made to the First Right Holders who decided not to exercise their rights of first refusal and therefore did not accept the offer addressed to them. Those First Right Holders, who, upon first notification, exercised their right of first refusal in the first round, are entitled to exercise the rights of first refusal which were not exercised pursuant to Sec. 4 pro rata to their respective shareholding in the Company, including any shares acquired pursuant to Sec. 4.

2. The chairman of the Supervisory Board shall advise the First Right Holders, who, pursuant to para. 1 are entitled to acquire further shares in the Company by furnishing an additional acceptance notice, within one week after expiry of the period of notice set forth in Sec. 4 para. 3, as to the number of additional shares they shall be entitled to acquire. The chairman

of the Supervisory Board shall effect such notification by way of registered mail. Such notification shall constitute a valid offer to the First Right Holders concerned with respect to the sale of the relevant number of shares stated subject to the terms set forth in Sec. 2 para. 2.

3. First Right Holders seeking to exercise additional rights of first refusal are to declare their acceptance of such additional offer with respect to the number of shares offered in accordance with para. 2 by way of written notice to the chairman of the Supervisory Board within two weeks as of the date on which they receive a notification pursuant to para. 2.

4. Upon the notice of acceptance pursuant to para. 3 being received by the chairman of the Supervisory Board, a sale and purchase agreement between the Offeror and the respective First Right Holders shall be deemed constituted and concluded. Non-divisible fractions of shares shall be allocated to the First Right Holder first to accept the offer by way of notice to the chairman of the Company's Supervisory Board. The date the respective notice of acceptance is received by the chairman of the Supervisory Board shall be conclusive.

Sec. 6
Comprehensive Exercise of Rights of First Refusal

Each of the rights of first refusal pursuant to Sec. 4 and 5 may only be exercised or waived by a Shareholder in whole (not in part), i.e. to the total extent rights of first refusal exist and not with regard to a part of the shares offered to, and only with respect to all shares held by the respective Shareholder.

Sec. 7
Non-Exercise of Rights of First Refusal

1. After expiry of the period of notice pursuant to Sec. 4 para. 3 or after expiry of the period of notice pursuant to Sec. 5 para. 3, respectively, the chairman of the Supervisory Board shall notify the Shareholders about the extent to which the rights of first refusal have been exercised. Such notification is to be effected by way of registered mail.

2. In the event that Shareholders chose not to or fail to exercise their rights of first refusal for all of the shares offered, none of the sales pursuant to Sec. 4

para. 4 and Sec. 5 para. 4 will be effected and the Offeror shall within a period of two months after receipt of the Supervisory Board's notification pursuant to para. 1 hereof be entitled to sell the shares offered to the acquirer named in the notification pursuant to Sec. 2 and with respect to which rights of first refusal have not been exercised, thereby duly observing the provisions on the restraint on alienation (Sec. 13 below) as well as Shareholders' tag-along rights pursuant to Sec. 8. Such sale may, however, not be effected on terms which are more beneficial to the acquirer than the terms set forth in the notification pursuant to Sec. 2. The respective agreement entered into between the Offeror and the respective acquirer is to be submitted immediately upon conclusion to the chairman of the Supervisory Board for his inspection.

Sec. 8
Tag-Along Rights

1. Each Shareholder is entitled to demand from the Offeror, who pursuant to Sec. 7 para. 2 is entitled to sell shares to the acquirer named in the notification of offer pursuant to Sec. 2, that such Offeror co-sells his shares in accordance with the terms and conditions set forth in the said notification of offer pursuant to Sec. 2, to the extent desired by the respective Shareholder, to the acquirer named in the said notification. Such tag-along right is to be exercised by way of written notice, such notice setting forth the number and series of shares to be co-sold. The said notice is to be submitted to the chairman of the Company's Supervisory Board at the latest one month after receipt of the notification of the offer pursuant to Sec. 4 para. 1. Upon receipt of such notice, the Company shall, through the chairman of its Supervisory Board, inform the Offeror immediately in respect of the exercise of the tag-along rights and the number and series of shares which are to be co-sold. The said notice is to be effected by way of registered mail.

2. In the event that the acquirer named in the notification pursuant to Sec. 2 is not willing to acquire the shares from the Offeror and the shares, with respect to which tag-along rights have been exercised, save for para. 4 hereinafter the Offeror shall be obliged to sell upon the respective request by the Preferred Shareholders who exercised their tag-along rights his and such shares, with respect to which tag-along rights have been exercised, in proportion to the shareholding of the Offeror (with the shares, which are to be acquired by First Right Holders, not to be deducted) and the respective Preferred Shareholder who has exercised his tag-along right (taking into account his entire shareholding) in accordance with the following provisions.

3. The Offeror shall notify the chairman of the Supervisory Board prior to any sale and after receipt of the notice of the chairman of the Supervisory Board that tag-along rights have been exercised of the number of shares the acquirer named in the notification pursuant to Sec. 2 is willing to purchase. The Company, by the chairman of its Supervisory Board, shall immediately inform the Preferred Shareholders who want to exercise their tag-along rights accordingly. In the event the acquirer is not willing to acquire all shares with respect to which tag-along rights have been exercised the Shareholders who want their shares being co-sold have to declare vis-à-vis the chairman of the Supervisory Board within three days after receipt of the information by the chairman of the Supervisory Board whether they require their shares to be sold on a pro-rata basis pursuant to para. 2 or the entire sale pursuant to para. 4. Such request must be made within three days by the chairman of the Supervisory Board vis-à-vis the Offeror who shall be bound by such request.

4. The Company shall permit any Preferred Shareholder holding at least 10,000 Preferred Shares (as adjusted for stock splits, stock dividends, reverse stock splits and the like with respect to such shares), to visit and inspect the Company's properties, to examine its books of account and records and to discuss the Company's affairs, finances, and accounts with its officers, all at such reasonable times as may be requested by such holder; provided, however, that the Company shall not be obligated pursuant to this para. 3 to provide any information which it reasonably considers to be a trade secret or confidential information. The requesting Shareholder bears all costs of this process.

4. Such information rights as set forth above may be transferred to acquirers of Preferred Shares provided that such transfer of rights has been notified to the Company at least two weeks prior to the relevant information having to be submitted.

5. **The individuals who are parties to this Agreement ("Affected Persons") agree that the Company, its corporate bodies, the members thereof and its Shareholders as well as all business entities which are affiliated with the Shareholders within the meaning of § 15 AktG ("Recipients") may, in compliance with applicable legal provisions, manually or electronically store, process or exchange among themselves personal data of the Affected Persons. This applies without limitation to personal data which serve for the purpose of identification of the Affected**

Persons (e.g. name, profession, address, date of birth) as well as for such personal data as may have a bearing on the acquisition, the holding or the disposition of the participation in the Company or the commercial basis or merits of these business transactions. Subject to existing confidentiality agreements, if any, the Recipients may also transfer personal data of the Affected Persons to Recipients or to persons acting on behalf of any Recipient in other member states of the European Union, the agreement of the European Economic Area or in third countries, provided that a reasonable level of data protection is ensured at the Recipients in such third countries.

6. Pursuant to the German Prevention of Money Laundering Act (*Geldwäschegesetz - GWG*), TF II is obliged to identify the Shareholders and – as the case may be - possible legal successors of such Shareholders. In order to fulfill the requirements imposed by the GWG, the Shareholders and – as the case may be – possible legal successors of such Shareholders hereby undertake vis-à-vis TF II, respectively, to use commercially reasonable efforts to provide TF II with a copy of their passports (individual person) or an excerpt from the competent commercial register including a list of shareholders (legal entity) or – in case of foreign legal entities – comparable documents and – insofar as existent – to identify the beneficial owner of such Shareholder. The Shareholders undertake to provide TF II with the aforementioned documents until the date of accession of each such Shareholder as a party to the Investment Agreement and this Agreement.

7. The Company will use, and cause each direct and indirect subsidiary to use, commercially reasonable efforts to conduct its affairs such that the Company and its direct or indirect subsidiaries will not be a "passive foreign investment company" ("**PFIC**") as defined in Section 1297 of the Internal Revenue Code of 1986, as amended (the "**Code**") for the current year or any subsequent year. The Company agrees to make available to any Preferred Shareholder upon request, the books and records of the Company and its direct and indirect subsidiaries, and to provide information to such Preferred Shareholder with respect to the Company's or any subsidiary's status or potential status as a PFIC. The Company will make due inquiry with its tax advisors on at least an annual basis regarding its status as a PFIC. Upon a determination by the Company, any Preferred Shareholder or any taxing authority that the Company or any direct or indirect subsidiary has been or is likely to become a PFIC, the Company will provide any Preferred Shareholder with all information reasonably available to the Company or any of its subsidiaries to permit such Preferred Shareholder to (i) accurately prepare all Tax returns and comply with any reporting requirements as a result of such determination and (ii) make any election (including, without

limitation, a "qualified electing fund" election under Section 1295 of the Code), with respect to the Company or any of its direct or indirect subsidiaries, and comply with any reporting or other requirements incident to such election. If a determination is made by the Company, any Preferred Shareholder or any taxing authority that the Company is a PFIC for a particular year, then for such year and for each year thereafter, the Company will also provide the Preferred Shareholders with a completed "PFIC Annual Information Statement" as required by Treasury Regulation Section 1.1295-1(g) and otherwise comply with applicable Treasury Regulation requirements. The Company will promptly notify the Preferred Shareholders of any assertion by the Internal Revenue Service that the Company or any of its direct or indirect subsidiaries is or is likely to become a PFIC.

8. The Company will not sell or issue any shares of the Company to any U.S. person or entity if such sale or issuance of shares would cause the Company to be a "controlled foreign corporation" ("**CFC**") within the meaning of Section 957 of the Code. The Company will provide prompt written notice to the Preferred Shareholders if at any time the Company becomes aware that it or any subsidiary may, or has, become a CFC. Upon request of a Preferred Shareholder from time to time, the Company will promptly provide in writing such information in its possession concerning its shareholders and, to the Company's actual knowledge, the direct and indirect interest holders in each shareholder sufficient for such Preferred Shareholder to determine that the Company is not a CFC. In addition, the Company will cooperate in good faith with the Preferred Shareholders and their tax advisors to take any and all commercially reasonable actions as requested by the Preferred Shareholders to avoid becoming and to mitigate the impact on the Preferred Shareholders of becoming or being a CFC. The Company will promptly notify the Preferred Shareholders of any assertion by the Internal Revenue Service that the Company or any of its direct or indirect subsidiaries is or is likely to become a CFC.

9. In the event that a Preferred Shareholder's tax advisor determines that such Preferred Shareholder's interest in the Company is subject to the reporting requirements of either or both of Sections 6038 and 6038B of the Code, the Company agrees, upon a request from such Preferred Shareholder, to provide such information to such Preferred Shareholder as may be necessary to fulfil such Preferred Shareholder's obligations under such requirements.

10. Each Shareholder hereby expressly consents to the provisions of this Sec. 19.

Sec. 20

Each of the Founders hereby undertakes to transfer the respective inventions, intellectual property rights and know-how to the Company free of any consideration. Each of them hereby assigns such rights to the Company, which accepts such transfer. In order to obtain - to the extent possible – exclusive rights to inventions made during the employment at universities or other research institutes, the Founders will use their best efforts to enforce their rights provided under the Act of Employees Inventions (*Arbeitnehmererfindergesetz*) in order to enable the Company to make use of such inventions in the most favorable way.

This Agreement shall become valid and binding at the date of this Agreement and shall continue to be valid and binding until December 31, 2028; for this period of time, a regular termination (*ordentliche Kündigung*) of this Agreement shall be excluded. Thereafter, each of the Parties may give six months' written notice to the end of a calendar year to terminate its participation in this Agreement for the future. Stephen Yoder in his capacity as member of the management board of the Company gives, within the meaning and with the legal consequences set forth in this Sec. 5, unless otherwise stated regardless of fault or negligence (*ohne Rücksicht auf Verschulden*), the representations and warranties which are in detail included in **Exhibit 5.1** to this Investment Agreement, subject to the provisions of this Sec. 5, to each of the Holders of Preferred Shares Series C.

2. The representations and warranties within the meaning of this Investment Agreement and **Exhibit 5.1** hereto and the right to demand damages in relation thereto constitute a special agreement negotiated and agreed upon between the Parties specifically for the purposes of this 2014 Financing Round in accordance with § 311 para. 1 German Civil Code (*BGB*); accordingly, unless

otherwise stated, claims for damages under this Sec. 5 do not require intent or negligence (*Vorsatz oder Fahrlässigkeit*) of Stephen Yoder. Further, the representations and warranties within the meaning of this Investment Agreement and **Exhibit 5.1** hereto are subject to all the limitations set forth in this Investment Agreement and **Exhibit 5.1** hereto, in particular, any limitation set forth in the respective statement contained in **Exhibit 5.1** hereto and the limitations on damages set forth in this Sec. 5. The Parties agree that none of the representations and warranties contained in this Investment Agreement and **Exhibit 5.1** hereto constitutes a guarantee with respect to the quality of the object of sale (*Garantie für die Beschaffenheit der Sache*) within the meaning of § 443 and § 444, 2nd alternative BGB. The legal consequences of a possible violation of the representations and warranties shall be determined exclusively pursuant to this Sec. 5. The Parties further agree that the provisions of §§ 434 through 453 BGB relating to defects in quality or in title shall not apply to any representation or warranty contained in this Investment Agreement or **Exhibit 5.1** hereto. §§ 377 et seq. HGB shall not apply.

3. In the event that the representations and warranties set forth in **Exhibit 5.1** hereto are not fully true and correct, then the Shareholders to the exclusion of other remedies shall resolve in favor of an increase of the Company's share capital (hereinafter referred to as the "**Compensatory Share Capital Increase**") upon the demand of one or more of the Holders of Preferred Shares Series C. The Compensatory Share Capital Increase shall be resolved and completed without undue delay after the demand by any of the Holders of Preferred Shares Series C. Each of the Holders of Preferred Shares Series C individually may request his participation in the Compensatory Share Capital Increase without being obliged to do so. As part of the Compensatory Share Capital Increase, the Holders of Preferred Shares Series C, who request this, shall be invited, to the exclusion of the other Shareholders' subscription rights, to subscribe to additional preferred shares series C in return for cash contributions at the portion of the Company's share capital attributable to one share (*anteiliger Betrag des Grundkapitals*) without premium or other contributions into the capital reserves of the Company, by means of which the Holders of Preferred Shares Series C shall receive such participation in the Company's share capital as they each would have held, if they had invested the funds committed under this Investment Agreement (including, for the avoidance of doubt, the respective Repayment Claims) and the additional funds provided in the Compensatory Share Capital Increase from the start at the Reduced Valuation (as defined below), thereby applying a discount on the Reduced Valuation with respect to the conversion of the Convertible Loans as provided in the Loan Agreements. The **"Reduced Valuation"** shall be equal to a pre-money valuation of the Company

fully-diluted of EUR 11,194,029 (equaling USD 15,000,000) after the conversion of the first EUR 3,000,000 of the Convertible Loans advanced to the Company prior to September 4, 2014 into new preferred shares series C less the amount of all damages arising as a result of all breaches of the representations and warranties; provided, however, that the Reduced Valuation in no event shall be less than EUR 6,000,000 (equaling USD 8,040,000). Each of the Shareholders undertakes individually for himself vis-à-vis each Holder of Preferred Shares Series C, to do or cause to be done everything necessary to implement the Compensatory Share Capital Increase. Thus, the Shareholders undertake in particular to co-operate in the Compensatory Share Capital Increase as described by exercising their voting rights in the shareholders' meetings of the Company and in the special resolutions of the different classes of shares accordingly, and to waive the subscription rights to which they are entitled for the subscription to new shares to the extent described. Stephen Yoder shall be obliged to pay to the Holders of Preferred Shares Series C in cash an amount equal to the portion of the Company's share capital attributable to one share required for the Holders of Preferred Shares Series C to pay the total issue price of the additional shares issued in the Compensatory Share Capital Increase; provided, however, that this liability shall, except in case of an intentional breach of the representations and warranties, be limited to EUR 25,000, among the Holders of Preferred Shares Series C pro rata to the number of preferred shares series C held by them, respectively. If the Parties cannot agree on the Reduced Valuation within two calendar weeks after any of the Holders of Preferred Shares Series C has demanded a Compensatory Share Capital Increase, then the Reduced Valuation shall be determined by an independent auditor to be appointed as arbitration expert (*Schiedsgutachter*) by the Shareholders with a simple majority of capital of all shares in the Company and a simple majority of capital of all preferred shares series C. If the Shareholders have not so appointed an arbitration expert within two weeks after the request of any Shareholder to do so, the arbitration expert shall be appointed by the Industrie- und Handelskammer für München und Oberbayern. The determination by the arbitration expert shall be final and binding on all Parties. The costs of the arbitration expert and the Industrie- und Handelskammer für München und Oberbayern, if any, shall be borne by the Parties applying §§ 91 *et seq*. ZPO (German Code of Civil Procedure) *mutatis mutandis*.

4. Claims for damages under this Sec. 5 may only be brought, if the aggregate loss arising as a result of all breaches of the representations and warranties exceeds the amount of EUR 100,000; if this limit is exceeded, then the entire loss arising (and not only the excess) shall be replaced in accordance with Sec. 5 para. 3 above.

5. All claims to which the Holders of Preferred Shares Series C may be entitled under this Sec. 5 shall be barred under the statute of limitations (*verjähren*) after September 1, 2016; provided, however, that claims which relate to representations and warranties in connection with public law charges (taxes, customs, duties, social security contributions) in the business operations of the Company (including the representation and warranty that sufficient reserves have been created for such risks), shall be barred under the statute of limitations six months after the respective notice of assessment of the tax authority or the social security institution fixing an additional public law charge becomes binding (*formelle und materielle Bestandskraft*). The statute of limitations is interrupted in respect of an alleged misrepresentation or breach of warranties at the time of the receipt of a written instrument describing in reasonable detail the facts on which such alleged misrepresentation or breach is based by Stephen Yoder. The statute of limitations under this para. 5 shall not apply to claims based on willful misconduct (*Vorsatz*).

6. The claims of the Holders of Preferred Shares Series C under this Sec. 5 shall be the exclusive remedy of the Holders of Preferred Shares Series C for any breach of the representations and warranties included in **Exhibit 5.1** to this Investment Agreement and override any claims of the Holders of Preferred Shares Series C based on any other legal basis relating to representations and warranties, including, but not limited to (i) claims pursuant to § 433 para. 1 sentence 2, § 434 *et seq*. BGB, § 311 para. 2 No. 1, §§ 275 *et seq*. and § 280 BGB, and (ii) the right to terminate, cancel, rescind (*zurücktreten*) and/or void (*anfechten*) this Investment Agreement, in particular for any incorrectness or incompleteness of the representations and warranties or based upon them or for defects in substance or in title or for breach of contractual or pre-contractual protection duties (*Schutzpflichten*). All such other rights shall be excluded, provided that remedies to which any Party may be entitled to with respect to any willful or deliberate (*vorsätzlich*) material breach of this Investment Agreement shall remain unaffected.

Sec. 6
Transaction Costs

1. Each of the Parties shall bear its own legal and other costs and expenses in connection with the 2014 Financing Round, provided that the Company shall also bear the following external costs and expenses in connection with the 2014 Financing Round as costs for the provision of further capital:

    a. The reasonable external legal and other costs and expenses of OrbiMed Private Investments III, LP and OrbiMed Associates III, LP (jointly "**OrbiMed**") in connection with the 2014 Financing Round up to a maximum amount of EUR 50,000 plus VAT (if any) upon presentation of corresponding invoices;

b. The legal fees of Orrick, Herrington & Sutcliffe LLP in connection with the 2014 Financing Round; and

c. Notary and court costs and similar expenses associated with the consummation of the 2014 Financing Round as well as all transaction taxes, if any.

2. All payments pursuant to this Sec. 6 shall be made within two weeks after invoicing. OrbiMed shall be entitled to reimbursement of costs and expenses to the extent that these costs and expenses shall be borne by the Company pursuant to para. 1 above and shall be entitled to deduct such amounts from the further payments into the capital reserves of the Company under Sec. 3 para. 1 a. and b. above. Irrespective of such deduction, any amounts deducted from the further payments into the capital reserves of the Company under the preceding sentence shall be treated as fully rendered by OrbiMed to the Company for all purposes of this Investment Agreement and the CSA 2014.

Sec. 7
Final Provisions

1. Each of the Investors shall be entitled to transfer its rights and obligations under this Investment Agreement together with the shares to which such rights and obligations relate in whole or in part to other Investors or to other companies, provided that these companies in each case are affiliated with the transferring Investor within the meaning of § 15 AktG. In addition, each of the Investors shall be entitled to transfer its rights and obligations under this Investment Agreement together with the shares to which such rights and obligations relate in whole or in part to other investment companies or equity funds whose business is managed or which are advised by the transferring Investor, a company affiliated with the transferring Investor within the meaning of § 15 AktG, a general partner or a management company of the transferring Investor. This para. 1 shall not apply to the transfer to a portfolio company of the respective Investor.

2. Each of the Shareholders undertakes individually for himself vis-à-vis each other Shareholder, to impose on his individual legal successors, if any, the rights and obligations arising under this Investment Agreement in such a way, that his individual legal successors are bound by the rights and obligations under this Investment Agreement as if they had themselves undertaken these rights and obligations. This shall also apply to the obligation undertaken in this para. 2 to impose the rights and obligations under this Investment Agreement on any individual legal successors.

3. The Investors, Shareholders or Subsequent Investors, respectively, are entitled to the rights attributed to the Investors, Shareholders or Subsequent Investors, as applicable, under this Investment Agreement to the exclusion of any joint entitlement, i.e. in such a way that each of the Investors, Shareholders or Subsequent Investors, respectively, may each individually exercise the rights to which they are entitled, unless otherwise expressly provided. Joint and several liability (*gesamtschuldnerische Haftung*) of the Investors, Shareholders or Subsequent Investors, respectively, shall be excluded, in particular without limitation for the total issue price of the new preferred shares series C under Secs. 1 and 2 above and the further payments and contributions into the capital reserves of the Company under Sec. 3 above.

4. Amendments and additions to this Investment Agreement must be made in writing to be effective, to the extent that notarization is not required. This shall also apply to a waiver of the written form requirement.

5. Should individual terms of this Investment Agreement be or become invalid or unenforceable or if this Investment Agreement contains gaps, this shall not affect the validity of the remaining terms of this Investment Agreement or the CSA 2014. In place of the invalid, unenforceable or missing term, such valid term which the Parties would reasonably have agreed, had they been aware at the conclusion of this Investment Agreement that the relevant term was invalid, unenforceable or missing, shall be deemed to have been agreed. Should a term of this Investment Agreement be or become invalid because of the scope or time of performance for which it provides, then the agreed scope or time of performance shall be amended to correspond with the extent legally permitted. The Parties are aware of the German Federal Supreme Court's (*Bundesgerichtshof*) case-law, whereby a severability clause merely reverses the burden of proof. However, it is the Parties' express intention to maintain the validity of the remaining provisions at all events and thus to exclude the applicability of § 139 German Civil Code (*BGB*) as a whole.

6. Prior to any announcement, the Company and the Investors shall agree upon the form and contents of any press release with respect to the 2014 Financing Round.

7. This Investment Agreement is governed by and shall be construed in accordance with the laws of the Federal Republic of Germany, without regard to its provisions of private international law and excluding the UN Sales Convention (CISG).

8. To the extent legally permissible, place of venue and performance shall be Munich, Germany. All disputes arising out of or in connection with this Investment Agreement shall be finally settled in accordance with the Arbitration Rules of the German Institution of Arbitration e.V. (DIS) without recourse to the ordinary courts of law and according to the Arbitration Agreement enclosed as **Exhibit 7.8.** This shall include disputes regarding the validity, the performance or the termination of this Investment Agreement in whole or in part including possible amendments of the same. The place of arbitration is Munich, Germany. The arbitration tribunal consists of three arbitrators. The language of the arbitration proceedings is English.

9. The Exhibits to this Investment Agreement are an essential part of it. The headings in this Investment Agreement only serve for a better orientation and are of no significance for the contents and interpretation of this Investment Agreement. Explanations in a provision or Exhibit to this Investment Agreement are also deemed to be listed for purposes of all other provisions or Exhibits.

10. German definitions in this document shall take precedence over the respective English terms.

IV. **BUYER'S REPRESENTATIONS AND WARRANTIES. BUYER REPRESENTS AND WARRANTS TO SELLER AND SPLIT-OFF SUBSIDIARY THAT:**

4.1 *Capacity and Enforceability*. Buyer has the legal capacity to execute and deliver this Agreement and the documents to be executed and delivered by Buyer at the Closing pursuant to the transactions contemplated hereby. This Agreement and all such documents constitute valid and binding agreements of Buyer, enforceable in accordance with their terms.

4.2 *Compliance*. Neither the execution and delivery of this Agreement nor the consummation of the transactions contemplated hereby by Buyer will result in the breach of any term or provision of, or constitute a default under, or violate any agreement, indenture, instrument, order, law or regulation to which Buyer is a party or by which Buyer is bound.

4.3 *Purchase for Investment*. Buyer is financially able to bear the economic risks of acquiring the Shares and the other transactions contemplated hereby, and has no need for liquidity in his investment in the Shares. Buyer has such knowledge and experience in financial and business matters in general, and with respect to businesses of a nature similar to the business of Split-Off Subsidiary (after giving effect to the Assignment), so as to be capable of evaluating

the merits and risks of, and making an informed business decision with regard to, the acquisition of the Shares and the other transactions contemplated hereby. Buyer is acquiring the Shares solely for his own account and not with a view to or for resale in connection with any distribution or public offering thereof, within the meaning of any applicable securities laws and regulations, unless such distribution or offering is registered under the Securities Act of 1933, as amended (the "Securities Act"), or an exemption from such registration is available. Buyer has (i) received all the information he has deemed necessary to make an informed decision with respect to the acquisition of the Shares and the other transactions contemplated hereby; (ii) had an opportunity to make such investigation as he has desired pertaining to Split-Off Subsidiary (after giving effect to the Assignment) and the acquisition of an interest therein and the other transactions contemplated hereby, and to verify the information which is, and has been, made available to him; and (iii) had the opportunity to ask questions of Seller concerning Split-Off Subsidiary (after giving effect to the Assignment). Buyer realizes that the Shares are "restricted securities" as that term is defined in Rule 144 promulgated by the Securities and Exchange Commission under the Securities Act, the resale of the Shares is restricted by federal and state securities laws and, accordingly, the Shares must be held indefinitely unless their resale is subsequently registered under the Securities Act or an exemption from such registration is available for their resale. Buyer understands that any resale of the Shares by him must be registered under the Securities Act (and any applicable state securities law) or be effected in circumstances that, in the opinion of counsel for Split-Off Subsidiary at the time, create an exemption or otherwise do not require registration under the Securities Act (or applicable state securities laws). Buyer acknowledges and consents that certificates now or hereafter issued for the Shares will bear a legend substantially as follows:

> THE SECURITIES EVIDENCED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR QUALIFIED UNDER ANY APPLICABLE STATE SECURITIES LAWS (THE "STATE ACTS"), HAVE BEEN ACQUIRED FOR INVESTMENT AND MAY NOT BE SOLD, PLEDGED, HYPOTHECATED OR OTHERWISE TRANSFERRED EXCEPT PURSUANT TO A REGISTRATION STATEMENT UNDER THE SECURITIES ACT AND QUALIFICATION UNDER THE STATE ACTS OR PURSUANT TO EXEMPTIONS FROM SUCH REGISTRATION OR QUALIFICATION REQUIREMENTS (INCLUDING, IN THE CASE OF THE SECURITIES ACT, THE EXEMPTIONS AFFORDED BY SECTION 4(1) OF THE SECURITIES ACT AND RULE 144 THEREUNDER). AS A PRECONDITION TO ANY SUCH TRANSFER, THE ISSUER OF THESE SECURITIES SHALL BE FURNISHED WITH AN OPINION OF COUNSEL OPINING AS TO THE AVAILABILITY OF EXEMPTIONS FROM SUCH REGISTRATION AND QUALIFICATION AND/OR SUCH OTHER EVIDENCE AS MAY BE SATISFACTORY THERETO THAT ANY SUCH TRANSFER WILL NOT VIOLATE THE SECURITIES LAWS.

Buyer understands that the Shares are being sold to him pursuant to the exemption from registration contained in Section 4(1) of the Securities Act and that Seller is relying upon the representations made herein as one of the bases for claiming the Section 4(1) exemption.

4.4 *Liabilities*. Following the Closing, Seller will have no liability for any debts, liabilities or obligations of Split-Off Subsidiary or its business or activities, or the business or activities of Seller prior to the Closing that are unrelated to the business of PrivateCo, and there are no outstanding guaranties, performance or payment bonds, letters of credit or other contingent contractual obligations that have been undertaken by Seller directly or indirectly in relation to Split-Off Subsidiary or its business, or the business of Seller prior to the Closing that are unrelated to the business of PrivateCo, and that may survive the Closing.

4.5 *Title to Purchase Price Securities*. Buyer is the sole record and beneficial owner of the Purchase Price Securities. At Closing, Buyer shall have good and marketable title to the Purchase Price Securities, which Purchase Price Securities are, and at the Closing will be, free and clear of all options, warrants, pledges, claims, interests, liens and encumbrances, and any restrictions or limitations prohibiting or restricting transfer to Seller, except for restrictions on transfer as contemplated by applicable securities laws.

(f) Seller, Buyer and Split-Off Subsidiary shall each use their reasonable best efforts to forward promptly to the other party all notices, claims, correspondence and other materials which are received and determined to pertain to the other party.

10.5 *Guarantees, Surety Bonds and Letter of Credit Obligations*. In the event that Seller is obligated for any debts, obligations or liabilities of Split-Off Subsidiary by virtue of any outstanding guarantee, performance or surety bond or letter of credit provided or arranged by Seller on or prior to the Closing Date, Buyer and Split-Off Subsidiary shall use their best efforts to cause to be issued replacements of such bonds, letters of credit and guarantees and to obtain any amendments, novations, releases and approvals necessary to release and discharge fully Seller from any liability thereunder following the Closing. Buyer and Split-Off Subsidiary, jointly and severally, shall be responsible for, and shall indemnify, hold harmless and defend Seller from and against, any costs or losses incurred by Seller arising from such bonds, letters of credit and guarantees and any liabilities arising therefrom and shall reimburse Seller for any payments that Seller may be required to pay pursuant to enforcement of its obligations relating to such bonds, letters of credit and guarantees.

10.6 *Filings and Consents*. Buyer, at his risk, shall determine what, if any, filings and consents must be made and/or obtained prior to Closing to consummate the purchase and sale of the Shares. Buyer shall indemnify the Seller Indemnified Parties (as defined in Section 12.1 below) against any Losses (as defined in Section 12.1 below) incurred by such Seller Indemnified Parties by virtue of the failure to make and/or obtain any such filings or consents. Recognizing that the failure to make and/or obtain any filings or consents may cause Seller to

incur Losses or otherwise adversely affect Seller, Buyer and Split-Off Subsidiary confirm that the provisions of this Section 10.6 will not limit Seller's right to treat such failure as the failure of a condition precedent to Seller's obligation to close pursuant to Article VIII above.

10.7 *Insurance*. Buyer acknowledges that on the Closing Date, effective as of the Closing, any insurance coverage and bonds provided by Seller for the Buyer or for Split-Off Subsidiary, and all certificates of insurance evidencing that Buyer or Split-Off Subsidiary maintain any required insurance by virtue of insurance provided by Seller, will terminate with respect to any insured damages resulting from matters occurring subsequent to Closing.

10.8 *Agreements Regarding Taxes*.

(a) *Tax Sharing Agreements*. Any tax sharing agreement between Seller and Split-Off Subsidiary is terminated as of the Closing Date and will have no further effect for any taxable year (whether the current year, a future year or a past year).

(b) *Returns for Periods Through the Closing Date*. Seller will include the income and loss of Split-Off Subsidiary (including any deferred income triggered into income by Reg. §1.1502-13 and any excess loss accounts taken into income under Reg. §1.1502-19) on Seller's consolidated federal income tax returns for all periods through the Closing Date and pay any federal income taxes attributable to such income. Seller and Split-Off Subsidiary agree to allocate income, gain, loss, deductions and credits between the period up to Closing (the "Pre-Closing Period") and the period after Closing (the "Post-Closing Period") based on a closing of the books of Split-Off Subsidiary, and both Seller and Split-Off Subsidiary agree not to make an election under Reg. §1.1502-76(b)(2)(ii) to ratably allocate the year's items of income, gain, loss, deduction and credit. Seller, Split-Off Subsidiary and Buyer agree to report all transactions not in the ordinary course of business occurring on the Closing Date after Buyer's purchase of the Shares on Split-Off Subsidiary's tax returns to the extent permitted by Reg. §1.1502-76(b)(1)(ii)(B). Buyer agrees to indemnify Seller for any additional tax owed by Seller (including tax owed by Seller due to this indemnification payment) resulting from any transaction engaged in by Split-Off Subsidiary or Seller (not related to the Acquisition) during the Pre-Closing Period or on the Closing Date before Buyer's purchase of the Shares. Split-Off Subsidiary will furnish tax information to Seller for inclusion in Seller's consolidated federal income tax return for the period which includes the Closing Date in accordance with Split-Off Subsidiary's past custom and practice.

(c) *Audits*. Seller will allow Split-Off Subsidiary and its counsel to participate at Split-Off Subsidiary's expense in any audit of Seller's consolidated federal income tax returns to the extent that such audit raises issues that relate to and increase the tax liability of Split-Off Subsidiary. Seller shall have the absolute right, in its sole discretion, to engage professionals and direct the representation of Seller in connection with any such audit and the resolution thereof, without receiving the consent of Buyer or Split-Off Subsidiary or any other party acting on behalf of Buyer or Split-Off Subsidiary, provided that Seller will not settle any such audit in a manner which would materially adversely affect Split-Off Subsidiary after the Closing Date unless such settlement would be reasonable in the case of a person that owned Split-Off Subsidiary

both before and after the Closing Date, or unless the Split-Off Subsidiary provides written consent, such consent not to be unreasonably withheld. In the event that after Closing any tax authority informs Buyer or Split-Off Subsidiary of any notice of proposed audit, claim, assessment or other dispute concerning an amount of taxes which pertain to Seller, or to Split-Off Subsidiary during the period prior to Closing, Buyer or Split-Off Subsidiary must promptly notify Seller of the same within 15 calendar days of the date of the notice from the tax authority. In the event Buyer or Split-Off Subsidiary does not notify Seller within such 15 day period, Buyer and Split-Off Subsidiary, jointly and severally, will indemnify Seller for any incremental interest, penalty or other assessments resulting from the delay in giving notice. To the extent of any conflict or inconsistency, the provisions of this Section 10.8 shall control over the provisions of Section 12.2 below.

(d) *Cooperation on Tax Matters*. Buyer, Seller and Split-Off Subsidiary shall cooperate fully, as and to the extent reasonably requested by any party, in connection with the filing of tax returns pursuant to this Section and any audit, litigation or other proceeding with respect to taxes. Such cooperation shall include the retention and (upon the other party's request) the provision of records and information which are reasonably relevant to any such audit, litigation or other proceeding and making employees available on a mutually convenient basis to provide additional information and explanation of any material provided hereunder. Split-Off Subsidiary shall (i) retain all books and records with respect to tax matters pertinent to Split-Off Subsidiary and Seller relating to any taxable period beginning before the Closing Date until the expiration of the statute of limitations (and, to the extent notified by Seller, any extensions thereof) of the respective taxable periods, and abide by all record retention agreements entered into with any taxing authority, and (ii) give Seller reasonable written notice prior to transferring, destroying or discarding any such books and records and, if Seller so requests, Buyer agrees to cause Split-Off Subsidiary to allow Seller to take possession of such books and records.

10.9 *ERISA*. Effective as of the Closing Date, Split-Off Subsidiary shall terminate its participation in, and withdraw from, any employee benefit plans sponsored by Seller, and Seller and Buyer shall cooperate fully in such termination and withdrawal. Without limitation, Split-Off Subsidiary shall be solely responsible for (i) all liabilities under those employee benefit plans notwithstanding any status as an employee benefit plan sponsored by Seller, and (ii) all liabilities for the payment of vacation pay, severance benefits, and similar obligations, including, without limitation, amounts which are accrued but unpaid as of the Closing Date with respect thereto. Buyer and Split-Off Subsidiary acknowledge and agree that Split-Off Subsidiary is solely responsible for providing continuation health coverage, as required under the Consolidated Omnibus Reconciliation Act of 1985, as amended ("COBRA"), to each person, if any, participating in an employee benefit plan subject to COBRA with respect to such employee benefit plan as of the Closing Date, including, without limitation, any person whose employment with Split-Off Subsidiary is terminated after the Closing Date.

XI. **TERMINATION. THIS AGREEMENT MAY BE TERMINATED AT, OR AT ANY TIME PRIOR TO, THE CLOSING BY MUTUAL WRITTEN CONSENT OF SELLER, BUYER AND PRIVATECO.**

If this Agreement is terminated as provided herein, it shall become wholly void and of no further force and effect and there shall be no further liability or obligation on the part of any party except to pay such expenses as are required of such party.

XII. **INDEMNIFICATION.**

12.1 *Indemnification by Buyer and Split-Off Subsidiary*. Each of Buyer and Split-Off Subsidiary, jointly and severally, covenant and agree to indemnify, defend, protect and hold harmless Seller and PrivateCo, and their respective officers, directors, employees, stockholders, agents, representatives and Affiliates (collectively, the "Seller Indemnified Parties") at all times from and after the date of this Agreement from and against all losses, liabilities, damages, claims, actions, suits, proceedings, demands, assessments, adjustments, costs and expenses (including specifically, but without limitation, reasonable attorneys' fees and expenses of investigation), whether or not involving a third party claim and regardless of any negligence of any Seller Indemnified Party (collectively, "Losses"), incurred by any Seller Indemnified Party as a result of or arising from (i) any breach of the representations and warranties of Buyer set forth herein or in certificates delivered in connection herewith, (ii) any breach or nonfulfillment of any covenant or agreement (including any other agreement of Buyer to indemnify set forth in this Agreement) on the part of Buyer under this Agreement, (iii) any Assigned Asset or Assigned Liability or any other debt, liability or obligation of Split-Off Subsidiary, (iv) the conduct and operations, (A) prior to Closing, of the business of Seller unrelated to the assets that are the subject of the Acquisition, (B) whether before or after Closing, of (X) the business of Seller pertaining to the Assigned Assets and Assigned Liabilities or (Y) the business of Split-Off Subsidiary, (v) claims asserted (including claims for payment of taxes), whether before or after Closing, (A) against Split-Off Subsidiary or (B) pertaining to the Assigned Assets and Assigned Liabilities or to the business of Seller prior to the Closing, or (vi) any federal or state income tax payable by Seller or PrivateCo and attributable to the transactions contemplated by this Agreement or to the business of Seller prior to the Closing. For the purposes of this Agreement, an "Affiliate" is a person or entity that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with, another specified person or entity.

12.2 *Third Party Claims*. If any claim or liability (a "Third-Party Claim") should be asserted against any of the Seller Indemnified Parties (the "Indemnitee") by a third party after the Closing for which Buyer has an indemnification obligation under the terms of Section 12.1, then the Indemnitee shall notify Buyer (the "Indemnitor") within 20 days after the Third-Party Claim is asserted by a third party (said notification being referred to as a "Claim Notice"). The expenses (including reasonable attorneys' fees) of all negotiations, proceedings, contests, lawsuits or settlements with respect to any Third-Party Claim shall be borne by the Indemnitor. The Indemnitor shall not be entitled to assume the defense of any Third-Party Claim. The Indemnitor shall be responsible for paying all settlements made or judgments entered with respect to any Third-Party Claim. A failure by the Indemnitee to timely give the Claim Notice shall not excuse Indemnitor from any indemnification liability except only to the extent that the Indemnitor is materially and adversely prejudiced by such failure.

12.3 *Non-Third-Party Claims*. Upon discovery of any claim for which Buyer has an indemnification obligation under the terms of Section 12.1 which does not involve a claim by a third party against the Indemnitee, the Indemnitee shall give prompt notice to Buyer of such claim and, in any case, shall give Buyer such notice within 30 days of such discovery. A failure by Indemnitee to timely give the foregoing notice to Buyer shall not excuse Buyer from any indemnification liability except to the extent that Buyer is materially and adversely prejudiced by such failure.

12.4 *Survival*. Except as otherwise provided in this Section 12.4, all representations and warranties made by Buyer, Split-Off Subsidiary and Seller in connection with this Agreement shall survive the Closing. Anything in this Agreement to the contrary notwithstanding, the liability of the Indemnitor under this Article XII shall terminate on the third (3rd) anniversary of the Closing Date, except with respect to (a) liability for any item as to which, prior to the third (3rd) anniversary of the Closing Date, any Indemnitee shall have asserted a claim in writing, which claim shall identify its basis with reasonable specificity, in which case the liability for such claim shall continue until it shall have been finally settled, decided or adjudicated, (b) liability of any party for Losses for which such party has an indemnification obligation, incurred as a result of such party's breach of any covenant or agreement to be performed by such party after the Closing, (c) liability of Buyer for Losses incurred by a Seller Indemnified Party due to breaches of its representations and warranties in Article IV of this Agreement, and (d) liability of Buyer for Losses arising out of Third-Party Claims for which Buyer has an indemnification obligation, which liability shall survive until the statute of limitation applicable to any third party's right to assert a Third-Party Claim bars assertion of such claim.

XIII. **MISCELLANEOUS.**

13.3 *Exercise of Rights and Remedies*. Except as otherwise provided herein, no delay of or omission in the exercise of any right, power or remedy accruing to any party as a result of any breach or default by any other party under this Agreement shall impair any such right, power or remedy, nor shall it be construed as a waiver of or acquiescence in any such breach or default, or of any similar breach or default occurring later; nor shall any waiver of any single breach or default be deemed a waiver of any other breach or default occurring before or after that waiver.

13.4 *Time*. Time is of the essence with respect to this Agreement.

13.5 *Reformation and Severability*. In case any provision of this Agreement shall be invalid, illegal or unenforceable, it shall, to the extent possible, be modified in such manner as to be valid, legal and enforceable but so as to most nearly retain the intent of the parties, and if such modification is not possible, such provision shall be severed from this Agreement, and in either case the validity, legality and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby.

13.6 *Further Acts and Assurances*. From and after the Closing, Seller, Buyer and Split-Off Subsidiary agree that each will act in a manner supporting compliance, including compliance by its Affiliates, with all of its obligations under this Agreement and, from time to time, shall, at the request of another party hereto, and without further consideration, cause the execution and delivery of such other instruments of conveyance, transfer, assignment or assumption and take such other action or execute such other documents as such party may reasonably request in order more effectively to convey, transfer to and vest in Buyer, and to put Split-Off Subsidiary in possession of, all Assigned Assets and Assigned Liabilities, and to convey, transfer to and vest in Seller and Buyer, and to them in possession of, the Purchase Price Securities and the Shares (respectively), and, in the case of any contracts and rights that cannot be effectively transferred without the consent or approval of another person that is unobtainable, to use its best reasonable efforts to ensure that Split-Off Subsidiary receives the benefits thereof to the maximum extent permissible in accordance with applicable law or other applicable restrictions, and shall perform such other acts which may be reasonably necessary to effectuate the purposes of this Agreement.

13.7 *Entire Agreement; Amendments*. This Agreement contains the entire understanding of the parties relating to the subject matter contained herein. This Agreement cannot be amended or changed except through a written instrument signed by all of the parties hereto and by PrivateCo. No provisions of this Agreement or any rights hereunder may be waived by any party without the prior written consent of PrivateCo.

13.8 *Assignment*. No party may assign his, her or its rights or obligations hereunder, in whole or in part, without the prior written consent of the other parties.

13.9 *Governing Law*. This Agreement shall be governed by and construed in accordance with the laws of the State of New York, without giving effect to principles of conflicts or choice of laws thereof.

13.10 *Counterparts*. This Agreement may be executed in one or more counterparts, with the same effect as if all parties had signed the same document. Each such counterpart shall be an original, but all such counterparts taken together shall constitute a single agreement. In the event that any signature is delivered by facsimile transmission, such signature shall create a valid and binding obligation of the party executing (or on whose behalf such signature is executed) the same with the same force and effect as if such facsimile signature page was an original thereof.

13.11 *Section Headings and Gender*. The section headings used herein are inserted for reference purposes only and shall not in any way affect the meaning or interpretation of this Agreement. All personal pronouns used in this Agreement shall include the other genders, whether used in the masculine, feminine or neuter, and the singular shall include the plural, and *vice versa*, whenever and as often as may be appropriate.

13.12 *Third-Party Beneficiary*. Each of Seller, Buyer and Split-Off Subsidiary acknowledges and agrees that this Agreement is entered into for the express benefit of PrivateCo, and that PrivateCo is relying hereon and on the consummation of the transactions contemplated by this Agreement in entering into and performing its obligations under the Acquisition Agreement, and that PrivateCo shall be in all respects entitled to the benefit hereof and to enforce this Agreement as a result of any breach hereof.

13.13 *Specific Performance; Remedies*. Each of the parties to this Agreement acknowledges and agrees that if any provision of this Agreement is not performed in accordance with its specific terms or is otherwise breached, irreparable damages would be incurred by the other parties to this Agreement and to PrivateCo. Accordingly, the parties to this Agreement agree that any party or PrivateCo will be entitled to seek an injunction or injunctions to prevent breaches of the provisions of this Agreement and to enforce specifically this Agreement and its terms and provisions in any action instituted in any court of the United States or any state thereof having jurisdiction over the parties and the matter, subject to Section 13.9, in addition to any other remedy to which they may be entitled, at law or in equity. Except as expressly provided herein, the rights, obligations and remedies created by this Agreement are cumulative and are in addition to any other rights, obligations or remedies otherwise available at law or in equity, and nothing herein will be considered an election of remedies.

13.14 *Submission to Jurisdiction; Process Agent; No Jury Trial*.

(a) Each party to the Agreement hereby submits to the jurisdiction of any state or federal court sitting in the Borough of Manhattan, City and State of New York, in any action arising out of or relating to this Agreement and agrees that all claims in respect of the action may be heard and determined in any such court. Each party to the Agreement also agrees not to bring any action arising out of or relating to this Agreement in any other court. Each party to the Agreement agrees that a final judgment in any action so brought will be conclusive and may be enforced by action on the judgment or in any other manner provided at law or in equity. Each party to the Agreement waives any defense of inconvenient forum to the maintenance of any action so brought and waives any bond, surety or other security that might be required of any other party with respect thereto.

(b) EACH PARTY TO THIS AGREEMENT HEREBY AGREES TO WAIVE ITS RIGHTS TO JURY TRIAL OF ANY DISPUTE BASED UPON OR ARISING OUT OF THIS AGREEMENT OR ANY OTHER AGREEMENTS RELATING TO THE SUBJECT MATTER OF THIS AGREEMENT OR ANY DEALINGS AMONG THEM RELATING TO THE TRANSACTIONS CONTEMPLATED HEREBY. The scope of this waiver is intended to be all encompassing of any and all actions that may be filed in any court and that relate to the subject matter of the transactions, including contract claims, tort claims, breach of duty claims and all other common law and statutory claims. Each party to the Agreement hereby acknowledges that this waiver is a material inducement to enter into a business relationship and that they will continue to rely on the waiver in their related future dealings. Each party to the Agreement further represents and warrants that it has reviewed this waiver with its legal counsel, and that each knowingly and voluntarily waives its jury trial rights following consultation with legal counsel. NOTWITHSTANDING ANYTHING TO THE CONTRARY HEREIN, THIS WAIVER IS IRREVOCABLE, MEANING THAT IT MAY NOT BE MODIFIED ORALLY OR IN WRITING, AND THE WAIVER WILL APPLY TO ANY AMENDMENTS, RENEWALS, SUPPLEMENTS OR MODIFICATIONS TO THIS AGREEMENT OR TO ANY OTHER DOCUMENTS OR AGREEMENTS RELATING HERETO. In the event of commencement of any action, this Agreement may be filed as a written consent to trial by a court.

13.15 *Construction*. The parties hereto have participated jointly in the negotiation and drafting of this Agreement. If an ambiguity or question of intent or interpretation arises, this Agreement will be construed as if drafted jointly by the parties hereto and no presumption or burden of proof will arise favoring or disfavoring any party because of the authorship of any provision of this Agreement. Any reference to any federal, state, local or foreign law will be deemed also to refer to law as amended and all rules and regulations promulgated thereunder, unless the context requires otherwise. The words “include,” “includes,” and “including” will be deemed to be followed by “without limitation.” The words “this Agreement,” “herein,” “hereof,” “hereby,” “hereunder,” and words of similar import refer to this Agreement as a whole and not to any particular subdivision unless expressly so limited. The parties hereto intend that each representation, warranty and covenant contained herein will have independent significance. If any party hereto has breached any representation, warranty or covenant contained herein in any respect, the fact that there exists another representation, warranty or covenant relating to the same subject matter (regardless of the relative levels of specificity) which that party has not breached will not detract from or mitigate the fact that such party is in breach of the first representation, warranty or covenant.

IN WITNESS WHEREOF, the parties hereto have duly executed this Split-Off Agreement as of the day and year first above written.

GENERAL RELEASE AGREEMENT

This **GENERAL RELEASE AGREEMENT** (this "**Agreement**"), dated as of December 17, 2014, is entered into by and among Pieris Pharmaceuticals, Inc., a Nevada corporation ("**Seller**"), Marika Enterprises Inc., a Nevada corporation and a wholly owned subsidiary of Seller ("**Split-Off Subsidiary**") and Aleksandrs Sviks ("**Buyer**"). In consideration of the mutual benefits to be derived from this Agreement, the covenants and agreements set forth herein, and other valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the execution and delivery hereof, the parties hereto hereby agree as follows:

1. Split-Off Agreement. This Agreement is executed and delivered by Split-Off Subsidiary pursuant to the requirements of Section 8.3 of that certain Split-Off Agreement (the "**Split-Off Agreement**") by and among Seller, Split-Off Subsidiary and Buyer as a condition precedent to the closing (the "**Closing**") of Split-Off Agreement.

2. Release and Waiver by Split-Off Subsidiary. For and in consideration of the covenants and promises contained herein and in the Split-Off Agreement, the receipt and sufficiency of which are hereby acknowledged, Split-Off Subsidiary, on behalf of itself and its assigns, representatives and agents, if any, hereby covenants not to sue and fully, finally and forever completely releases Seller and Pieris AG, a German Stock Corporation ("**PrivateCo**"), along with their respective present, future and former officers, directors, stockholders, members, employees, agents, attorneys and representatives (collectively, the "**Seller Released Parties**"), of and from any and all claims, actions, obligations, liabilities, demands and/or causes of action, of whatever kind or character, whether now known or unknown, which Split-Off Subsidiary has or might claim to have against the Seller Released Parties for any and all injuries, harm, damages (actual and punitive), costs, losses, expenses, attorneys' fees and/or liability or other detriment, if any, whenever incurred or suffered by Split-Off Subsidiary arising from, relating to, or in any way connected with, any fact, event, transaction, action or omission that occurred or failed to occur on or prior to date of the Closing.

3. Release and Waiver by Buyer. For and in consideration of the covenants and promises contained herein and in the Split-Off Agreement, the receipt and sufficiency of which are hereby acknowledged, Buyer, on behalf of itself and its assigns, representatives and agents, if any, hereby covenants not to sue and fully, finally and forever completely releases the Seller Released Parties of and from any and all claims, actions, obligations, liabilities, demands and/or causes of action, of whatever kind or character, whether now known or unknown, which Buyer has or might claim to have against the Seller Released Parties for any and all injuries, harm, damages (actual and punitive), costs, losses, expenses, attorneys' fees and/or liability or other detriment, if any, whenever incurred or suffered by Buyer arising from, relating to, or in any way connected with, any fact, event, transaction, action or omission that occurred or failed to occur on or prior to the date of the Closing.

4. Additional Covenants and Agreements.

(a) Each of Split-Off Subsidiary and Buyer, on the one hand, and Seller, on the other hand, waives and releases the other from any claims that this Agreement was procured by fraud or signed under duress or coercion so as to make this Agreement not binding.

(b) Each of the parties hereto acknowledges and agrees that the releases set forth herein do not include any claims the other party hereto may have against such party for such party's failure to comply with or breach of any provision in this Agreement or the Split-Off Agreement.

5. Modification. This Agreement cannot be modified orally and can only be modified through a written document signed by all parties and PrivateCo.

6. Severability. If any provision contained in this Agreement is determined to be void, illegal or unenforceable, in whole or in part, then the other provisions contained herein shall remain in full force and effect as if the provision that was determined to be void, illegal or unenforceable had not been contained herein.

7. Expenses. The parties hereto agree that each party shall pay its respective costs, including attorneys' fees, if any, associated with this Agreement.

8. Further Acts and Assurances. Each of Split-Off Subsidiary and Buyer agrees that it will act in a manner supporting compliance, including compliance by its Affiliates, with all of its obligations under this Agreement and, from time to time, shall, at the request of Seller or PrivateCo, and without further consideration, cause the execution and delivery of such other instruments of release or waiver and take such other action or execute such other documents as such party may reasonably request in order to confirm or effect the releases, waivers and covenants contained herein, and, in the case of any claims, actions, obligations, liabilities, demands and/or causes of action that cannot be effectively released or waived without the consent or approval of other persons or entities that is unobtainable, to use its best reasonable efforts to ensure that the Seller Released Parties receive the benefits thereof to the maximum extent permissible in accordance with applicable law or other applicable restrictions, and shall perform such other acts which may be reasonably necessary to effectuate the purposes of this Agreement. For purposes of this Agreement, an "Affiliate" is a person or entity that directly, or indirectly through one or more intermediaries, controls or is controlled by, or is under common control with, another specified person or entity.

9. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New York, without giving effect to principles of conflicts or choice of laws thereof.

10. Third-Party Beneficiary. Each of Seller, Buyer and Split-Off Subsidiary acknowledges and agrees that this Agreement is entered into for the express benefit of PrivateCo, and that PrivateCo is relying hereon and on the consummation of the transactions contemplated by this Agreement in entering into and performing its obligations under the Acquisition Agreement and the Split-Off Agreement, and that PrivateCo shall be in all respects entitled to the benefit hereof and to enforce this Agreement as a result of any breach hereof.

11. Specific Performance; Remedies. Each of Seller, Buyer and Split-Off Subsidiary acknowledges and agrees that PrivateCo would be damaged irreparably if any provision of this Agreement is not performed in accordance with its specific terms or is otherwise breached. Accordingly, each of Seller, Buyer and Split-Off Subsidiary agrees that PrivateCo will be entitled to seek an injunction or injunctions to prevent breaches of the

provisions of this Agreement and to enforce specifically this Agreement and its terms and provisions in any action instituted in any court of the United States or any state thereof having jurisdiction over the parties and the matter, subject to Section 9, in addition to any other remedy to which they may be entitled, at law or in equity. Except as expressly provided herein, the rights, obligations and remedies created by this Agreement are cumulative and are in addition to any other rights, obligations or remedies otherwise available at law or in equity, and nothing herein will be considered an election of remedies.

12. Entire Agreement. This Agreement constitutes the entire understanding and agreement of Seller, Split-Off Subsidiary and Buyer and supersedes prior understandings and agreements, if any, among or between Seller, Split-Off Subsidiary and Buyer with respect to the subject matter of this Agreement, other than as specifically referenced herein. This Agreement does not, however, operate to supersede or extinguish any confidentiality, non-solicitation, non-disclosure or non-competition obligations owed by Split-Off Subsidiary to Seller under any prior agreement.

13. Definitions. Capitalized terms used herein without definition have the meanings ascribed to them in the Acquisition Agreement.

The Supervisory Board and Stockholders of Pieris AG

We have audited the accompanying balance sheets of Pieris AG (the "Company") as of December 31, 2013 and 2012, and the related statements of operations, comprehensive income (loss), changes in stockholders' equity, and cash flows for each of the two years in the period ended December 31, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pieris AG at December 31, 2013 and 2012, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2013, in conformity with U.S. generally accepted accounting principles.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Use of Estimates

The preparation of the financial statements in accordance with U.S. GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, the reported amounts of revenues and expenses in the financial statements and disclosures in the accompanying notes. Actual results and outcomes could differ materially from management's estimates, judgments and assumptions.

Foreign Currency Translation

Pieris AG's reporting currency is U.S. dollars. During the years ended December 31, 2013 and 2012, Pieris AG had operations in Germany with a functional currency of the euro. All amounts in the financial statements where the functional currency is not the U.S. dollar are translated into U.S. dollar equivalents at exchange rates as follows:

- assets and liabilities at period-end rates,
- income statement accounts at average exchange rates for the period, and
- components of equity at historical rates.

Gains and losses from translation of the financial statements into U.S. dollars are recorded in stockholders' equity as a component of other comprehensive loss. Realized and unrealized gains and losses resulting from foreign currency transactions denominated in currencies other than the functional currency are reflected as general and administrative expenses in the Statements of Operations.

Cash, Cash Equivalents and Restricted Cash

Cash and cash equivalents consist of cash on deposit in banks and other cash invested temporarily in money-market funds that are highly liquid and have an original maturity of less than 90 days at the date of purchase.

Pieris AG held $72,497 and $183,311 in restricted cash as of December 31, 2013 and 2012, respectively. Such bank balances relate to prepayments received by Pieris AG pursuant to EU grants under the EUROCALIN program (see Note 3 *Revenue*). These amounts are restricted to cover future obligations to members of the EUROCALIN consortium; they are not available for use by Pieris AG.

Fair Value of Financial Instruments

ASC Topic 820 *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date. Pieris AG applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement. Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 utilizes quoted market prices in markets that are not active, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Level 3 inputs are unobservable inputs for the asset or liability in which there is little, if any, market activity for the asset or liability at the measurement date.

Pieris AG's cash equivalents consist of highly liquid money market funds and are measured at fair value on a recurring basis. These funds are classified as Level 1 in the fair value hierarchy because they are valued using quoted prices for the periods ended December 31, 2013 and 2012. The carrying amounts of $3,307,520 and $3,651,949 as of December 31, 2013 and December 31, 2012, respectively, equal the fair value of the cash equivalents.

The Company's other financial instruments include debt instruments (convertible stockholder loan and bank loan) and are classified as Level 2 within the fair value hierarchy. The fair value of these instruments was determined using the discounted cash flow method based on contractual cash flows and the current rate at which debt with similar terms could be issued. The fair values for these debt instruments approximated carrying values as of December 31, 2013 and 2012.

Concentration of Credit Risk and Other Risks and Uncertainties

Financial instruments that subject Pieris AG to concentrations of credit risk include cash and cash equivalents and trade accounts receivable. Pieris AG maintains cash and cash equivalents with various major financial institutions. Pieris AG maintains deposits and owns money market funds only in highly rated financial institutions to minimize the credit risk from the financial institutions. Management periodically reviews the credit standing of these financial institutions and believes that Pieris AG is not exposed to significant credit risk from the institutions in which those deposits are held and through which money-market funds are owned at December 31, 2013 and 2012.

As of December 31, 2013, one collaboration partner accounted for all of Pieris AG's trade accounts receivable. See Note 3 *Revenue*, for additional information regarding Pieris AG's collaboration agreements.

Pieris AG relies on third parties to conduct preclinical and clinical studies. If these third parties do not successfully carry out their contractual duties or meet expected deadlines, Pieris AG may not be able to obtain regulatory approval for Pieris AG's drug candidates and Pieris AG's business could be substantially impacted. Furthermore, Pieris AG is exposed to the risks associated with third parties'

formulating and manufacturing its preclinical and clinical drug supplies and any approved product candidates. The development and commercialization of any of its drug candidates could be stopped, delayed or made less profitable if those third parties fail to provide Pieris AG with sufficient quantities of such drug candidate or fail to do so at acceptable quality levels, including in accordance with applicable regulatory requirements and prices.

In line with the third-party risk, Pieris AG depends significantly on the Research and Licensing Agreement (or the "TUM License Agreement") with Technische Universität München (the "TUM" or "Technical University Munich"), under which certain intellectual property rights are exclusively licensed to Pieris AG. In case the TUM License Agreement is terminated by TUM, Pieris AG would be significantly hampered in its efforts to develop and commercialize, as well as to sub-license, the drug candidates covered by such exclusive license.

Trade Accounts Receivable

Trade accounts receivable are recorded net of allowances for doubtful accounts and represent amounts due from third parties and collaboration partners. Management monitors and evaluates collectability of receivables on an ongoing basis and considers whether an allowance for doubtful accounts is necessary. Management determined that no such reserve is needed as of December 31, 2013 and 2012. Historically, Pieris AG has not had collectability issues with third parties and collaboration partners.

Property and Equipment

Property and equipment are recorded at acquisition cost, less accumulated depreciation and impairment. Depreciation on property and equipment is calculated using the straight-line method over the remaining estimated useful lives of the assets. The estimated useful life of the different groups of property and equipment is as follows:

Asset Classification	Estimated useful life (in years)
Leasehold improvements	5 - 13
Laboratory equipment	1 - 14
Office and computer equipment	1 - 15

Impairment of Long-lived Assets

Pieris AG reviews its long-lived assets to be held and used for impairment whenever events or changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. In performing an impairment review, Pieris AG estimates undiscounted cash flows from products that are covered by these assets. An impairment loss would be recognized when estimated undiscounted future cash flows expected to result from the use of the asset and its eventual disposition is less than the carrying amount of the asset. If the evaluation indicates that the carrying value of an asset is not recoverable from its undiscounted cash flows, an impairment loss is measured by comparing the carrying value of the asset to its fair value. No such impairments were recorded during the years ended December 31, 2013 or 2012.

Revenue Recognition

Pieris AG entered into several licensing and development agreements with collaboration partners for the development of Anticalin® therapeutics against a variety of targets in diseases and conditions. The terms of these agreements contain multiple elements and deliverables, which may include (i) licenses, or options to obtain licenses, to Pieris AG's Anticalin® technology and (ii) research activities to be performed on behalf of the collaborative partner. Payments to Pieris AG under these agreements may include upfront fees (which include license and option fees), payments for research activities, payments based upon the achievement of certain milestones and royalties on product sales. There are no performance, cancellation, termination or refund provisions in any of the arrangements that could result in material financial consequences to Pieris AG. Pieris AG follows the provisions of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 605-25, *Revenue Recognition—Multiple-Element Arrangements* and ASC Topic 605-28, *Revenue Recognition—Milestone Method* in accounting for these agreements.

Multiple-Element Arrangements

When evaluating multiple-element arrangements, Pieris AG identifies the deliverables included within the agreement and evaluates which deliverables represent separate units of accounting based whether the delivered element has stand-alone value to the collaborator or if the arrangement includes a general right of return for delivered items.

The consideration received is allocated among the separate units of accounting using the relative selling price method, and the applicable revenue recognition criteria are applied to each of the separate units of accounting. Pieris AG has used best estimate of selling price methodology to estimate the selling price for licenses and options to acquire additional licenses to its proprietary technology because Pieris AG does not have Vendor Specific Objective Evidence or Third Party Evidence of selling price for these deliverables. To determine the estimated selling price of a license to its proprietary technology, Pieris AG considers market conditions as well as entity-specific factors, including those factors contemplated in negotiating the agreements, terms of previous collaborative agreements, similar agreements entered into by third parties, market opportunity, estimated development costs, probability of success and the time needed to commercialize a product candidate pursuant to the license. In validating the Company's best estimate of selling price, Pieris AG evaluates whether changes in the key assumptions used to determine the best estimate of selling price will have a significant effect on the allocation of arrangement consideration among multiple deliverables.

Pieris AG typically receives upfront, nonrefundable payments when licensing its intellectual property in conjunction with a research and development agreement. In determining the units of accounting, management evaluates whether the license has stand-alone value from the undelivered elements to the collaborative partner based on the consideration of the relevant facts and circumstances for each arrangement. Factors considered in this determination include the stage of development of the license delivered, research capabilities of the partner and the availability of Anticalin® technology research expertise in the general marketplace.

When management believes the license to its intellectual property does not have stand-alone value from the other deliverables to be provided in the arrangement, Pieris AG generally recognizes revenue attributable to the license on a straight-line basis over Pieris AG's contractual or estimated performance period, which is typically the term of Pieris AG's research and development obligations. When management believes the license to its intellectual property has stand-alone value, Pieris AG recognizes revenue attributed to the license upon delivery. The periods over which revenue should be recognized are subject to estimates by management and may change over the course of the research and development agreement. Such a change could have a material impact on the amount of revenue Pieris AG records in future periods.

The accounting treatment for options granted to collaborators is dependent upon the nature of the option granted to the collaborative partner. Options are considered substantive if, at the inception of an agreement, Pieris AG is at risk as to whether the collaborative partner will choose to exercise the options to secure additional licenses. Factors that are considered in evaluating whether options are substantive include the overall objective of the arrangement, the benefit the collaborator might obtain from the agreement without exercising the options, the cost to exercise the options relative to the total upfront consideration, and the additional financial commitments or economic penalties imposed on the collaborator as a result of exercising the options.

In arrangements where options to obtain additional licenses are considered substantive, Pieris AG determines whether the optional licenses are priced at a significant and incremental discount. If the prices include a significant and incremental discount, the option is considered a deliverable in the arrangement. However, if not priced at a discount, the elements included in the arrangement are considered to be only the non-contingent elements. When a collaborator exercises an option to acquire an additional license, the exercise fee that is attributed to the additional license and any incremental discount allocated at inception are recognized in a manner consistent with the treatment of up-front payments for licenses (*i.e.*, license and research services). In the event an option expires un-exercised, any incremental discounts deferred at the inception of the arrangement are recognized into revenue upon expiration. For options that are non-substantive, the additional licenses to which the options pertain are considered deliverables upon inception of the arrangement, and Pieris AG applies the multiple-element revenue recognition criteria to determine accounting treatment. All of Pieris AG's agreements with options have been determined to include substantive options.

Payments or reimbursements resulting from Pieris AG's research and development efforts in multi-element arrangements in which Pieris AG's research and development efforts are considered deliverable are recognized as the services are performed and are presented on a gross basis so long as there is persuasive evidence of an arrangement, the fee is fixed or determinable, and collection of the related receivable is reasonably assured. Amounts received prior to satisfying the above revenue recognition criteria are recorded as deferred revenue in the accompanying balance sheets.

Milestone Payments and Royalties

At the inception of each agreement that includes milestone payments, Pieris AG evaluates whether each milestone is substantive and at risk to both parties on the basis of the contingent nature of the milestone. This evaluation includes an assessment of whether (a) the consideration is commensurate with either (1) the entity's performance to achieve the milestone, or (2) the enhancement of the value of the delivered item(s) as a result of a specific outcome resulting from the entity's performance to achieve the milestone, (b) the consideration relates solely to past performance and (c) the consideration is reasonable relative to all of the deliverables and payment terms within the arrangement. Pieris AG evaluates factors such as the scientific, regulatory, commercial and other risks that must be overcome to achieve the respective milestone, the level of effort and investment required to achieve the respective milestone and whether the milestone consideration is reasonable relative to all deliverables and payment terms in the arrangement in making this assessment.

Pieris AG aggregates milestones into three categories (i) research milestones, (ii) development milestones and (iii) commercial milestones. Research milestones are typically achieved upon reaching certain success criteria as defined in each agreement related to developing an Anticalin® protein against the specified target. Development milestones are typically reached when a compound reaches a defined phase of clinical research or passes such phase, or upon gaining regulatory approvals. Commercial milestones are typically achieved when an approved pharmaceutical product reaches the status for commercial sale or certain defined levels of net sales by the licensee, such as when a product first achieves global sales or annual sales of a specified amount.

For revenues from research and development milestone payments, if the milestones are deemed substantive and the milestone payments are nonrefundable, such amounts are recognized entirely upon successful accomplishment of the milestones. Milestones that are not considered substantive are accounted for as license payments and recognized on a straight-line basis over the period of performance. To date, Pieris AG has determined all milestones are substantive. Revenues from commercial milestone payments are accounted for as royalties and are recorded as revenue upon achievement of the milestone, assuming all other revenue recognition criteria are met. Royalty payments are recognized in revenues based on the timing of royalty payments earned in accordance with the agreements, which typically is the period when the relevant sales occur, assuming all other revenue recognition criteria are met.

Government Grants

Government grants are recognized when there is reasonable assurance that all conditions will be complied with and the grant will be received. As the government grants generally represent subsidies for specified activities, they are recognized when earned as revenue from grants.

Funds received that are not related to research and development expenses that have already been incurred, such as the EUROCALIN grant, are recorded as deferred revenue until such time that the related expenses have been incurred by Pieris AG or by one of the other members of the EUROCALIN consortium. At the time eligible expenses are incurred, the applicable portion of deferred revenue according to the respective funding rates is recorded as revenue from grants.

Research and Development

Research and development costs are charged to expense as incurred. Research and development expenses consist of expenses incurred in performing research and development activities, including salaries and benefits; overhead expenses, including facilities expenses; materials and supplies; preclinical expenses; clinical trial and related clinical manufacturing expenses; depreciation of equipment; contract services; and other outside expenses. Legal fees incurred for patent application costs have been charged to expense and reported in research and development expenses.

Income Taxes

Pieris AG applies ASC 740 – *Income Taxes*, which established financial accounting and reporting requirements for the effects of income taxes that result from Pieris AG's activities during the current and preceding years. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and operating losses and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted statutory tax rates expected to apply to taxable income in the jurisdictions and years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Where Pieris AG determines that it is more likely than not that some portion or all of the deferred tax assets will not be realized in the future, the deferred tax assets are reduced by a valuation allowance.

Share-based Payments

Pieris AG measures share-based payments in accordance with ASC Topic 718, Compensation – Stock Compensation. Determining the appropriate fair value model and related assumptions requires judgment, including estimating share price volatility and expected terms of the awards. For employee options, the fair value measurement date is generally on the date of grant and the related compensation expense is recognized on a straight-line basis over the requisite period of the awards, less expense for expected forfeitures. Share-based compensation expense related to stock options granted to non-employees is recognized as the services are rendered on a straight-line basis.

Pieris AG granted share-based payments in the form of cash-settled options to employees and non-employees in two different contracts. These share-based payments were only exercisable upon an exit event (*i.e.* any liquidation, dissolution or winding up of Pieris AG, including any merger or consolidation into or any other corporation or sale of more than 70% of Pieris AG's assets or 50% of Pieris AG's shares) before December 31, 2013. As the achievement of the performance condition (exit event) did not occur before the expiration of the vesting period, no expenses were recorded during the years ended December 31, 2013 and 2012. All of the options expired as of December 31, 2013.

Contingencies

Accruals are recorded for loss contingencies when it is probable that a liability has been incurred and the amount of the related loss can be reasonably estimated. Pieris AG evaluates, on a quarterly basis, developments in legal proceedings and other matters that could cause an increase or decrease in the amount of the liability that has been accrued previously. Considering facts known at the time of the assessment, Pieris AG determines whether potential losses are considered reasonably possible or probable and whether they are estimable. Based upon this assessment, Pieris AG carries out an evaluation of disclosure requirements and considers possible accruals in the financial statements.

Segment Reporting

Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision maker in making decisions on how to allocate resources and asses performance. Pieris AG operates as a single segment dedicated to the discovery and development of biotechnological applications and accordingly, views its operations and manages its business in one operating segment.

Basic and Diluted Earnings per Share

Pieris AG computes basic earnings per share by dividing net income (loss) attributable to common stockholders by the weighted-average number of shares of common stock outstanding during the period. Pieris AG computes diluted earnings per share after giving consideration to dilutive effects that existed during the respective period. Potentially dilutive securities issuable upon conversion of the Convertible Stockholder Loan 2012 are not included in the calculations of diluted net income (loss) per share, as their inclusion would be anti-dilutive. Potential common shares issuable upon conversion from preferred shares that are convertible into common stock by resolution adopted by stockholders at a meeting are considered as securities participating in dividends (whether paid or unpaid) pursuant to the two-class method. However, the conversion of preferred shares into common shares does not impact diluted net income (loss) per share because the conversion would be contingent upon a substantive non-market condition in accordance with ASC 260. Therefore, basic and diluted income (loss) per share are the same for the years ended December 31, 2013 and 2012 as no dilutive effects existed.

Adoption of New Accounting Standards

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-11, *"Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities,"* (ASU 2011-11). ASU 2011-11 enhances disclosures regarding financial instruments and derivative instruments. Entities are required to provide both net information and gross information for these assets and liabilities in order to enhance comparability between those entities that prepare their financial statements on the basis of U.S. GAAP and those entities that prepare their financial statements on the basis of IFRS. The requirements of ASU 2011-11 are to be applied retrospectively and became effective for Pieris AG on January 1, 2013. There were no offsetting arrangements during 2013 or 2012, and therefore the adoption of this standard update did not have an effect on the disclosures.

In July 2012, the FASB issued ASU No. 2012-02, *"Intangibles-Goodwill and Other (Topic 350): Testing Indefinite-Lived Intangible Assets for Impairment"* (ASU 2012-02), allowing entities the option to first assess qualitative factors to determine whether it is necessary to perform the quantitative impairment test. If the qualitative assessment indicates it is more-likely-than not that the fair value of an indefinite-lived intangible asset is less than its carrying amount, the quantitative impairment test is required. Otherwise, no testing is required. ASU 2012-02 became effective for Pieris AG in the period beginning January 1, 2013, and its adoption did not have an effect on the Pieris AG's financial position, results of operations or cash flows.

In July 2013, the FASB issued ASU No. 2013-10 (ASU 2013-10), *"Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes*" (a consensus of the FASB F- 10 Emerging Issues Task Force), which permits the use of the Fed Funds Effective Swap Rate (also referred to as the Overnight Index Swap Rate), in addition to the U.S. Treasury rate (UST) and London Interbank Offered Rate (LIBOR), as a U.S. benchmark interest rate for hedge accounting purposes under FASB ASC Topic 815, *Derivatives and Hedging*. Under ASU 2013-10, entities should apply the ASU prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. Pieris AG did not have any qualifying or redesignated hedging relationships during 2013 and 2012, and therefore the adoption of this standard update did not have an effect on the Pieris AG's financial position, results of operations or cash flows.

New Accounting Standards Not Yet Adopted

In February 2013, the FASB issued ASU No. 2013-02, *"Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income"* (ASU 2013-02). Under ASU 2013-02, an entity is required to provide information about the amounts reclassified out of Accumulated Other Comprehensive Income (AOCI) by component. In addition, an entity is required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income, but only if the amount reclassified is required to be reclassified in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in the financial statements. ASU 2013-02 became effective for non emerging growth companies for reporting periods beginning after December 15, 2012. For Pieris AG as an emerging growth company ASU 2013-02 will become effective on January 1, 2014. Pieris AG does not expect the adoption of these provisions to have a material impact on the Company's financial statements.

In February 2013, the FASB issued Accounting Standards Update No. 2013-04, *"Liabilities (Topic 405) -Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation Is Fixed at the Reporting Date"* (ASU 2013-04). The amendments in this update provide guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this update is fixed at the reporting date, except for obligations addressed within existing guidance in U.S. GAAP. The guidance requires an entity to measure those obligations as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. The guidance in this update also requires an entity to disclose the nature and amount of the obligation as well as other information about such obligations. The requirements of ASU 2013-04 will become effective for non emerging growth companies for reporting periods beginning after December 15, 2013. For Pieris AG as an emerging growth company ASU 2013-04 will become effective on January 1, 2015. Pieris AG does not expect the adoption of these provisions to have a material impact on the Company's financial statements.

In March 2013, the FASB issued Accounting Standards Update No. 2013-05, *"Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity"* (ASU 2013-05). The amendments in ASU 2013-05 provide guidance on releasing Cumulative Translation Adjustments (CTA) when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. In addition, these amendments provide guidance on the release of CTA in partial sales of equity method investments and in step acquisitions. For public entities, the amendments are effective on a prospective basis for fiscal years and interim reporting periods within those years, beginning after December 15, 2013. The amendments should be applied prospectively to de-recognition events occurring after the effective date. Prior periods should not be adjusted and early adoption is permitted. ASU 2013-05 will become effective for non emerging growth companies for reporting periods beginning after December 15, 2013. For Pieris AG as an emerging growth company ASU 2013-05 will become effective on January 1, 2015 and Pieris AG does not expect these provisions to have a material impact on the Company's financial statements.

In July 2013, the FASB issued Accounting Standards Update No. 2013-11 (ASU 2013-11), *"Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists"* (a consensus of the FASB Emerging Issues Task Force), which requires an entity to present an unrecognized tax benefit as a reduction of a deferred tax asset for a net operating loss (NOL) carryforward, or similar tax loss or tax credit carryforward, rather than as a liability when

- the uncertain tax position would reduce the NOL or other carryforward under the tax law of the applicable jurisdiction and
- the entity intends to use the deferred tax asset for that purpose.

The ASU does not require new disclosures and is effective prospectively for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption and retrospective application are permitted. ASU 2013-11 will become effective for non emerging growth companies for reporting periods beginning after December 15, 2013. For Pieris AG as an emerging growth company ASU 2013-11 will become effective on January 1, 2015, and the Company is in the processes of evaluating of the impact the adoption will have on its financial statements.

In May 2014 the FASB issued Accounting Standards Update (ASU) No. 2014-09 *Revenue from Contracts with Customers*.

ASU 2014-09 affects contracts with customers to transfer goods or services or contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards. This ASU will supersede the revenue recognition requirements in Topic 605, *Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes some cost guidance included in Subtopic 605-35, *Revenue Recognition—Construction-Type and Production-Type Contracts*. In addition, the existing requirements for the recognition of a gain or loss on the transfer of nonfinancial assets that are not in a contract with a customer (*e.g*., assets within the scope of Topic 360, *Property, Plant, and Equipment*, and intangible assets within the scope of Topic 350, *Intangibles—Goodwill and Other*) are amended to be consistent with the guidance on recognition and measurement in this ASU.

The core principle of the guidance is that an entity should recognize revenue consistent with the performance obligation to transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

For a public entity, the amendments in this ASU are effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early application is not permitted. For Pieris AG as an emerging growth company ASU 2014-09 will become effective effective for annual reporting periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018. Pieris AG is evaluating the impact of the adoption of the standard on its financial statements.

In June 2014 the FASB issued Accounting Standards Update (ASU) No. 2014-12 "*Accounting for Share-Based Payments When the Terms of an Award Provide that a Performance Target Could be Achieved after the Requisite Service Period."*

The amendments in this Update apply to all reporting entities that grant their employees share-based payments in which the terms of the award provide that a performance target that affects vesting could be achieved after the requisite service period. That is the case when an employee is eligible to retire or otherwise terminate employment before the end of the period in which a performance target (for example, an IPO or a profitability target) could be achieved and still be eligible to vest in the award if and when the performance target is achieved.

For all entities, the amendments in this Update are effective for annual periods and interim periods within those annual periods beginning after December 15, 2015. Earlier adoption is permitted. The effective date is the same for both public business entities and all other entities.

Entities may apply the amendments in this Update either (a) prospectively to all awards granted or modified after the effective date or (b) retrospectively to all awards with performance targets that are outstanding as of the beginning of the earliest annual period presented in the financial statements and to all new or modified awards thereafter. If retrospective transition is adopted, the cumulative effect of applying this Update as of the beginning of the earliest annual period presented in the financial statements should be recognized as an adjustment to the opening retained earnings balance at that date. Pieris AG is still evaluating the impact of the adoption of the standard on the financial statements.

In August 2014, the FASB issued ASU No. 2014-15, *"Receivables – Troubled Debt Restructurings by Creditors (Subtopic 310-40): Classification of Certain Government-Guaranteed Mortgage Loans upon Foreclosure"* (ASU 2014-15).

ASU 2014-15 is an authoritative accounting guidance related to management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern and to provide related footnote disclosures. Management's evaluation should be based on relevant conditions and events that are known and reasonably knowable at the date that the financial statements are issued. In doing so, the amendments should reduce diversity in the timing and content of footnote disclosures. This guidance is effective for Pieris AG for annual periods ending after December 15, 2016, and interim periods thereafter. Early adoption is permitted. The Company is currently assessing the expected impact, if any, that this ASU will have no effect on our consolidated financial statements.

3. Revenue

General

Pieris AG has not generated revenue from product sales. Pieris AG has generated revenue pursuant to (i) license and collaboration agreements, which include upfront payments for licenses or options to obtain licenses, payments for research and development services and milestone payments, and (ii) government grants, which are shown in the table below for periods specified:

	Years ended December 31,	
	2013	2012
License fees	$ 5,159,425	$ 5,773,728
Research and development services	3,591,855	3,794,022
Milestone payments	1,128,630	257,200
Government grants	2,547,382	1,558,372
Total Revenue	$12,427,292	$11,383,322

Revenue from two collaboration partners and from one government grant exceeded 10% of total revenue, amounting to $5,573,441, $4,168,278 and $2,430,358, respectively, in the year ended December 31, 2013 and $7,306,622, $2,507,287 and $1,179,242, respectively, in the year ended December 31, 2012.

Collaborations and Other Agreements

Allergan Inc.

In August 2009, pursuant to an agreement with Allergan Inc. (“Allergan”), Pieris AG granted Allergan a worldwide exclusive license to develop and commercialize certain drug candidates for the treatment and prevention of ocular diseases. Allergan is responsible for the research, development, manufacturing and commercialization of any products resulting from the license. Pieris AG received a non-refundable upfront payment of $10 million upon execution of the contract in 2009 and is entitled to receive up to an aggregate of $13 million in milestone payments upon the achievement of certain commercial milestones or patents granted to Pieris AG by the United States Patent and Trademark Office that cover a product licensed to Allergan.

At the inception of the agreement, Pieris AG recognized revenue from the upfront license payment because, based on the stage of development of the licensed product delivered and the development capabilities of Allergan, Pieris AG determined that the license had standalone value. Through December 31, 2013, none of the milestones had been achieved and, as such, Pieris AG has not recognized milestone-related revenues.

Daiichi Sankyo Co., Ltd.

In May 2011, Pieris AG entered into an agreement with Daiichi Sankyo Co., Ltd. (“Daiichi Sankyo”), under which Pieris AG will use its proprietary Anticalin® scaffold technology to identify drug candidates against certain targets selected by Daiichi Sankyo, with further development and commercialization performed by Daiichi Sankyo. For any targets selected by Daiichi Sankyo, Pieris AG granted an exclusive, worldwide license for the research, development and commercialization of drug candidates identified by Pieris AG. As of the date of this report, Pieris AG has handed over further development responsibility for the two collaboration projects to Daiichi Sankyo, which handovers occurred in March 2013 and June 2014.

Upon execution of the agreement, Daiichi Sankyo paid Pieris AG a non-refundable upfront payment in the amount of $10.1 million in consideration for the licenses, and for each licensed product Pieris AG is entitled to receive potential milestone payments of $112.1 million, plus royalties on the commercial sales of any commercial products. The total milestones are categorized as follows: research milestones—$3.2 million; development milestones—$46.1 million; commercial milestones—$61.9 million; additional diagnostic milestones—$0.9 million. At the inception of the agreement, these milestones were determined to be substantive as there was substantial uncertainty the milestones would be achieved, they would require substantial performance from the entity, and the consideration was reasonable relative to other deliverables. The agreement includes provisions for Pieris AG to provide research services funded by Daiichi Sankyo at agreed upon full-time employee rates during the initial identification and research period.

In accordance with the guidance in ASC 605-25, Pieris AG identified the licenses and research funding as deliverables at the inception of the arrangement. Pieris AG has determined that the licenses and research services provided by Pieris AG represent one unit of accounting because, based on the stage of development of the licensed product the research services provided by Pieris AG to identify drug candidates using Pieris AG's proprietary Anticalin technology against Daiichi Sankyo's selected targets were necessary before the licenses would have any standalone value. Therefore, the total arrangement consideration was recognized over the estimated period of substantial involvement, which was determined to be the period during Pieris AG was required to provide research services to discover drug candidates against targets identified. Pieris AG estimated that this period would be approximately two years. Pieris AG reassesses the estimated term at the end of each reporting period.

Pieris AG recognized milestone payments of $1.1 million as revenues for the year ended December 31, 2013 and a milestone payment of $0.3 million as revenue for the year ended December 31, 2012. The milestone payments in 2013 resulted from the achievement of a success milestone, the initiation of Phase B. The milestone could not be achieved solely upon the passage of time. For revenue recognition purposes, management determined this milestone to be substantive in accordance with applicable accounting guidance related to milestone revenue. Substantive uncertainty existed at the inception of the arrangement as to whether the milestone would be achieved because of the numerous variables, such as the high rate of failure inherent in research and development activities and the uncertainty involved with obtaining regulatory approval. Therefore, the milestone payments were recognized in their entirety as revenues during the year ended December 31, 2013.

For the year ended December 31, 2013, Pieris AG recognized $5.6 million in revenues related to the Daiichi Sankyo collaboration, of which $1.1 million related to the achievement of milestones. For the year ended December 31, 2012, Pieris AG recognized $7.3 million in revenues, of which $0.3 million related to the achievement of milestones.

Sanofi-Aventis and Sanofi-Pasteur

In September 2010, Pieris AG entered into an agreement with Sanofi-Aventis and Sanofi Pasteur ("Sanofi"), under which Pieris AG agreed to apply its proprietary Anticalin technology to identify drug candidates against certain targets selected by Sanofi, with further development and commercialization performed by Sanofi. The agreement included the initial identification of two targets by Sanofi, with options to select up to four additional targets. For any targets selected by Sanofi, Pieris AG granted an exclusive, worldwide license for the research, development and commercialization of drug candidates identified by Pieris AG. In addition to the two initial targets selected by Sanofi, Sanofi exercised one of the four options and received a license. The remaining three options expired unexercised.

Upon execution of the agreement, Sanofi paid Pieris AG an upfront payment of $4.9 million in consideration for licenses on the first two targets and options to select an additional four licenses on other targets (with each option requiring an additional upfront payment upon exercise). Additionally, for each licensed product, Pieris AG is entitled to receive milestone payments up to $63.6 million, plus royalties on the sales of any commercial products. The total milestones are categorized as follows: research milestones—$2.3 million; development milestones —$36.5 million; commercial milestones—$24.8 million. At the inception of the agreement, these milestones were determined to be substantive because (i) there was substantial uncertainty the milestones would be achieved, (ii) they would require substantial performance from the entity, and (iii) the consideration was reasonable relative to other deliverables. No milestones had been achieved through December 31, 2013. The agreement includes provisions for Pieris AG to provide research services funded by Sanofi at agreed upon full-time employee equivalent rates during the initial identification and research period.

In accordance with the guidance in ASC 605-25, Pieris AG identified the licenses, options to obtain additional licenses and research funding as deliverables at the inception of the arrangement. The options were considered to be substantive at the inception of the agreement. Factors considered in determining the options were substantive were whether (i) Sanofi could obtain the overall objective of the agreement without exercising any options, (ii) Sanofi was able to obtain value from the initial licenses obtained without exercising any options, (iii) the cost to exercise the options was significant to the total upfront payment of $4.9 million for two licenses and four options, and (iv) exercising the option created additional financial commitments for Sanofi or imposed economic penalties on Sanofi.

Pieris AG has determined that, for each program selected by Sanofi, the license and research services provided by Pieris AG represent one unit of accounting because, based on the stage of development of the licensed product, the research services provided by Pieris AG to identify drug candidates using Pieris AG's proprietary Anticalin technology against Sanofi's selected targets were necessary before the licenses would have any standalone value.

The estimated selling prices for the licenses in the agreement are Pieris AG's best estimate of selling price and were determined based on market conditions and entity-specific factors such as considerations of preclinical and clinical testing results and Pieris AG's pricing practices and pricing objectives. The estimated selling price of research services are Pieris AG's best estimate of selling price and are determined based on market conditions and entity-specific factors such as internal cost considerations and Pieris AG's pricing practices and pricing objectives.

At inception, the total arrangement consideration of $8.1 million (which comprises the $4.9 million upfront payment and the expected fees for the research services to be provided under the remainder of the arrangement) was allocated to the deliverables based on the relative selling price method as follows: $3.5 million to the licenses, $1.4 million to the four options to acquire additional licenses and $3.2 million to the estimated research services to be provided. As the license and research services were determined to be one unit of accounting, the consideration allocated to each license is recognized over the period of substantial involvement, which was determined to be the period during Pieris AG was required to provide research services to discover drug candidates against targets identified, approximately two years. Pieris AG reassesses the estimated term at the end of each reporting period. At the end of 2012, Pieris AG determined that the required research term for one of the initial terms would extend to a period of 40 months, and management updated the estimated required service period to amortize the remaining deferred upfront payment over the new term. Two of the four options expired un-exercised in 2011, and as a result Pieris AG recognized $0.7 million of revenue upon expiration. The option term for the remaining two options was extended to February 2013, and Sanofi exercised one option to obtain an additional license. For the exercised option, the allocated consideration of $0.35 million for the option and the $1.4 million payment of the exercise price were deferred and amortized over the expected required service period of approximately two years. The program covered by the exercised option was terminated in December 2013, and accordingly, Pieris AG recognized the remaining deferred revenue upon termination. The remaining option expired in February 2013 and the allocated consideration of $0.35 million was recognized into revenue at the time of expiration.

For the years ended December 31, 2013 and 2012, the Company recognized $4.2 million and $2.5 million, respectively, related to the Sanofi collaboration, none of which related to the achievement of milestones.

Stelis BioPharma

Pieris AG entered into an agreement with Stelis BioPharma Private Limited ("Stelis") on November 21, 2013, pursuant to which, Pieris AG collaborates with Stelis in the development of certain Anticalin® drug candidates, primarily for use in the treatment, palliation or prevention of ophthalmology-related diseases. Both parties may establish a joint venture for further development and commercialization of one or more such products in the future. Pieris AG granted Stelis a royalty-free, co-exclusive license within a specified field. Stelis is responsible for further developing the chosen candidates and taking them through certain development stages and bears all related expenses.

The license granted refers to products (Anticalin® proteins) which have already been researched and developed by Pieris AG independently before the arrangement with Stelis.

No payments have been received under this agreement, and thus, no revenues have been recognized.

Cadila Healthcare Limited

On October 7, 2013, Pieris AG entered into an agreement with Cadila Healthcare Limited ("Zydus"), under which Pieris AG granted to Zydus an exclusive, royalty-bearing license to use, sell, and import/export certain Anticalin® drug products, including the right to grant sublicenses in a specified territory. Zydus also received a co-exclusive royalty-free license to research, develop and produce a product in the specified territory as well as to conduct research and manufacture a product in specified field, as long as such activities are solely the development or commercialization in Zydus' territory as defined in the agreement. Pieris AG received under the agreement a non-exclusive, royalty-free, world-wide license to exploit know-how and intellectual property that was made available to Zydus before October 7, 2013. Both parties agreed upon several milestone payments as well as a sharing of out-licensing revenue.

No payments have been received under this agreement, and thus, no revenues have been recognized.

Other Arrangement

Pieris AG entered into a materials transfer agreement, which is effective as of January 14, 2013. Under this arrangement the partner tests certain Pieris Anticalin® proteins with certain proprietary materiel, conducts certain purification and characterization studies on the resulting combined products and subsequent preclinical studies. Pieris AG produces and supplies Anticalin® proteins and receives research reports from the partner. Each party is otherwise responsible for its own costs and expenses. Pieris AG recognized research and development services revenue of $138,091 in the year ended December 31, 2013 under this arrangement.

Government Grants

BioChancePLUS

BioChancePLUS is a program of the German Federal Ministry of Education and Research to support research and development projects in the field of modern biotechnology in which high risk is involved. The grant is provided to small and medium sized enterprises (SMEs) according to the definition of the European Commission. The program applies to cooperative projects between SMEs or SMEs and educational facilities, such as universities.

Pieris AG was awarded a BioChancePLUS grant in January 2008, which grant provided funding until September 30, 2012. Pieris AG received quarterly payments covering expenses it had occurred. Pieris AG received $92,956 during the year ended 2012 and recorded such amounts as revenue.

BioCluster m4

In 2011 Pieris AG applied for a government grant from the German Federal Ministry for Education and Research for the project "Spitzencluster m4, Cooperation personalized medicine: 'Preclinical development of PRS-110 an Anticalin targeted against c-Met as a monovalent antagonist in the field of oncology (PM18).'" The funding rate amounts 40% of the actual costs incurred, with an aggregate cap of $1,375,017 for the approval period from February 1, 2012 to September 30, 2014. The amounts received are non-refundable, and the grant funds may only be claimed for costs incurred within the approval period.

The payments are received quarterly in arrears based on expenses already incurred. Pieris AG received $117,023 and $286,175 for the years ended December 31, 2013 and 2012, respectively, which was recorded as grant revenue.

Seventh Research Framework Program (FP7) – Collaborative Project "EUROCALIN – European consortium for antiCALINs as next generation high-affinity protein therapeutics" (EUROCALIN)

EUROCALIN is a program that started in August 2011 with the objective of developing and producing new high-affinity protein scaffolds for therapeutic use. The focus is on the development of non-immunoglobulin protein scaffolds as alternatives to antibodies and oligo-nucleotides. The grant involves a consortium of ten companies and universities in Europe and was initiated for a collaboration focused on attaining and completing initial clinical development of a novel Anticalin therapeutic. The consortium is seeking to develop, manufacture and clinically test an Anticalin specific for hepcidin. The program is a small-molecule enhancers (SME) targeted project, which is funded by the European Union ("EU") in the amount of $8,259,600 and also includes a respective funding rate of approximately 64% of the eligible costs occurred in connection with the research project. All payments received from the EU in that connection are non-refundable. Under this grant agreement, Pieris AG is the coordinator. The EU has scheduled three tranches of payments. The first tranche (pre-financing) was received as of December 7, 2011 and the second tranche as of August 4, 2013, but the third tranche was not received as scheduled as of December 31, 2013. Pieris AG as a coordinator receives all payments from the grant. The other members of the consortium are entitled to payment based on submission of invoices of eligible costs. Pieris AG pays the other members of the consortium based on the eligible costs.

There were no other changes in the valuation allowance of deferred tax assets other than foreign currency impact.

As of December 31, 2013 and 2012, Pieris AG had net operating loss carryforwards on German corporate income tax of $58,500,460 and $52,637,482, respectively, and on trade tax of $57,153,994 and $51,466,509, respectively. The operating loss carryforwards generated are subject to restrictions under German tax law. These regulations may limit the future use of operating loss carryforwards if there is a change in ownership. After the balance sheet date, as a result of the Acquisition, the Company may have lost some or all of the unused German corporate income and trade tax loss carryforwards existing or realized at the time of the Acquisition.

Management of Pieris AG has evaluated the evidence bearing upon the realizability of its deferred tax assets, including Pieris AG's history of operating losses, and has concluded that it is more likely than not that Pieris AG may not realize the benefit of its deferred tax assets. Accordingly, the deferred tax assets have been fully reserved to the extent not offset by deferred tax liabilities at December 31, 2013 and 2012. The valuation allowance increased by $645,812 during the year ended December 31, 2013 primarily as a result of foreign currency impact. As there are currently no significant uncertain tax positions, no liability for unrecognized tax positions have been recognized. Pieris AG files tax returns in Germany and is generally no longer subject to tax examinations for years prior to 2009.

6. Debt

Convertible Stockholder Loans

On November 12, 2012, Pieris AG and several of its stockholders (the "Investors") entered into an unsecured Convertible Stockholder Loan Agreement (the "Bridge Loan"). The outstanding principal under the Bridge Loan as of December 31, 2013 and 2012 was $2,753,200 and $2,317,308 respectively. The Bridge Loan includes a conversion feature to convert the loan amounts at the option of the Investors into Series B preferred shares of Pieris AG contingent upon certain conversion conditions. The Bridge Loan specifies a maturity date of December 31, 2013 and an interest rate of 12% per year before the maturity date. The agreement further provides that in case the loan amounts have not been repaid at the maturity date, the outstanding amounts will be subject to an interest rate of 18% per year for periods after the maturity date. The Bridge Loan does not contain financial or non-financial covenants.

Under the Bridge Loan, the Investors have the option to convert the outstanding principal into Series B preferred shares on or after December 31, 2013. The Bridge Loan also provided an option for the Investors to convert upon the closing of a qualified financing or an exit event, as defined in the Bridge Loan, prior to the maturity date of December 31, 2013. As a qualified financing or exit event did not occur prior to December 31, 2013, this conversion option is no longer available.

As of December 31, 2013, the Bridge Loan was still outstanding and therefore the first conversion option became available, however the feature was deemed not to be beneficial.

In accordance with the Bridge Loan, Pieris recognized interest expense of $317,014 and $15,543 for the years ended as of December 31, 2013 and 2012, respectively. The accrued interest balances as of December 31, 2013 and 2012 included in the convertible stockholder loan on the balance sheets were $345,302 and $15,971, respectively. No principal or interest payments were made for the Bridge Loan in 2013 or 2012 (see Note 11, Subsequent Events "Amendment to Convertible Bridge Loan Agreement dated November 12, 2012").

Four significant stockholders of Pieris AG — Orbimed Private Investments III, Gilde Europe Food & Agribusiness Fund B.V., The Global Life Science Ventures Fund and Coöperative AAC LS U.A. (Forbion B.V.) — are among the Investors in Bridge Loan. Pieris AG recorded related-party interest expense concerning the Bridge Loan in the amounts set forth in the table below:

	Years ended December 31,	
	2013	2012
Orbimed Private Investments III, LP	$ 78,411	$ 4,430
The Global Life Science Ventures Fund	70,131	1,297
Gilde Europe Food & Agribusiness Fund B.V.	67,083	4,331
Coöperative AAC LS U.A. (Forbion B.V.)	34,930	1,879
Sum of related-party interest expense related to the Convertible Bridge Loan	$ 250,555	$ 11,937

Unsecured Bank Loan

In May 2003, Pieris AG signed an unsecured loan agreement (the "Bank Loan") with Technologie-Beteiligungs-Gesellschaft ("TBG"), a minority interest stockholder. As of December 31, 2013 and 2012 outstanding principal was $1,032,450 and $991,110, respectively. No principal payments were made for in 2013 or 2012. The key terms of the Bank Loan are as follows:

- The original maturity date of the Bank Loan was December 31, 2013.
- Interest at 8% per year is required to be paid on a semi-annual basis, which resulted in interest expense of $79,668 and $77,160, in 2013 and 2012. The amounts reflected on the balance sheets in Other current liabilities total $20,649 and $19,822 as of December 31, 2013 and 2012, respectively.
- A repayment fee of 30% and an additional interest premium of 6% (effective beginning June 2008) of the loan amount are due when the principal is paid, which resulted in total interest expense of $97,255 and $84,422 in 2013 and 2012, respectively. The amounts reflected on the balance sheets in Bank loan include accrued interest of $619,470 and $497,874 as of December 31, 2013 and 2012, respectively.
- 12% per year of the German GAAP net income, adjusted for certain items per the Bank Loan, is payable to TBG. As the adjusted German GAAP net income amounts for Pieris AG were negative for all years, no amounts were recorded for this provision.
- There are no financial or non-financial covenants.

As of December 31, 2013 Pieris AG did not repay the outstanding balance of $1,651,920 of the Bank Loan. However, as of April 3, 2014 Pieris AG and TBG signed a repayment agreement concerning Pieris AG's repayment of its liabilities to TBG outstanding at December 31, 2013 in a total amount of €1.2 million ($1.65 million). The principal amount bears interest at a rate of 10.53%. Under the repayment agreement, Pieris AG has agreed to a payment schedule pursuant to which it will make semi-annual payments until 2016. In December 2014, the repayment has been further modified (see Note 11, Subsequent Events "Unsecured Bank Loan").

The following table summarizes Pieris AG's financial obligations for the next five years and thereafter as of December 31, 2013:

	2014	2015	2016	2017	2018	Thereafter	Total
Convertible stockholder loan, including accrued interest	$ —	$3,089,502	$ —	$—	$—	$ —	$3,089,502
Bank loan, including accrued interest	$206,490	$ 688,300	$757,130	$—	$—	$ —	$1,651,920

7. Stockholders' Equity

Common Stock

Each share of common stock entitles the holder to one vote on all matters submitted to a vote of Pieris AG's stockholders. Common stockholders are entitled to dividends when and if declared by the Board of Directors. In the event of any voluntary or involuntary liquidation, dissolution or winding-up of Pieris AG, the holders of common stock are entitled to share ratably in the assets of Pieris AG available for distribution after the holders of the preferred shares and their liquidation preferences have been satisfied. There are 59,993 shares of common stock issued and outstanding with a share capital of $53,889.

Preferred Stock

Pieris AG is authorized to issue 919,708 shares of preferred stock, of which 324,313 have been designated as Series A equaling $378,503 share capital, 132,432 shares with a share capital of $173,896 have been designated as Series A-1 and the remaining 462,963 shares with a share capital of $662,515 have been designated as Series B. Holders of shares of preferred stock are entitled to receive a preference payment in the event of any liquidation, dissolution, winding-up or exit event (*i.e.*, any merger or consolidation into or any other corporation or sale of more than 70% of Pieris AG's assets or 50% of Pieris AG's shares) of Pieris AG before any payment is made to the holders of shares of Pieris AG's common stock. Specifically, holders of Series B preferred shares are entitled to receive the original issue price of such shares plus 8% of annual cumulative interest upon an exit event. After this payment, holders of a portion of the Series A-1 preferred shares are entitled to receive twice of their total investment. The remaining proceeds from an exit event are distributed to the remaining holders of Series A-1 preferred shares and the holders of Series A preferred shares in the amount of one times the respective original issue price. The remaining amount is distributed among all stockholders in proportion to their total stockholdings in Pieris AG.

There are no preferred dividends attached to any of the preferred shares. Preferred stock participates equally to common stock.

There is a conversion right which is stated within the Shareholder Agreement to convert all preferred shares into common shares, which is contingent upon the adoption of a resolution of a meeting of stockholders.

Each share of Pieris AG's common and preferred stock is entitled to one vote and all shares rank equally as to voting and other matters.

Effective with the consummation of the Acquisition, all existing common and preferred stock and any and all rights associated with the common and preferred stock have been exchanged for common stock of Pieris Pharmaceuticals, Inc. (see Note 1 Corporate Information).

Receivable from Issuance of Shares

The founders of Pieris AG participated in the Seed round capital increase of common shares at par value. For certain stockholders, the payment of the share premium into Additional paid-in capital (fully or partially) was deferred until the occurrence of an exit event and is recorded as Receivables from Sale of Shares in Pieris AG's Statements of Changes in Stockholders' Equity.

The following amounts were deferred for the respective parties:

	December 31, 2013	2012
Steffen Schlehuber	$ 2,356	$ 2,356
Claus Schalper	1,755	1,755
Dr. Karsten Schürrle	1,203	1,203
MAPO Beteiligungsgesellschaft mbH	116,487	116,487
Total	$121,801	$121,801

In connection with the consummation of the Acquisition all deferred payment claims against the aforementioned stockholders were waived (see Note 11, Subsequent Events "Acquisition").

Claus Schalper is the CFO of Pieris AG.

Furthermore, in 2008, Pieris AG acquired treasury shares under a stockholders' agreement at the par value of €1.00 per treasury share. The payment of the share premium was deferred until an exit event (*i.e.*, any liquidation, dissolution or winding up of Pieris AG, including any merger or consolidation into or any other corporation or sale of more than 70% of Pieris AG's assets or 50% of Pieris AG's shares) occured. The amount of the deferred payment to the capital reserve of Pieris AG was $48,690. However, in accordance with the Consolidated Stockholders Agreement 2012 dated November 12, 2012, the claim for such payments has been waived.

Prof. Dr. Skerra is the deputy chairman of the supervisory board of Pieris AG.

9. Related-Party Transactions

Research and License Agreement with Technische Universität München ("TUM")

On July 4, 2003, Pieris AG entered into a research and licensing agreement with TUM, which was subsequently renewed and, on July 26, 2007, superseded and replaced. The agreement established a joint research effort led by Prof. Arne Skerra, Chair of Biological Chemistry of TUM, to optimize Anticalin technologies for use in therapeutic, prophylactic and diagnostic applications and as research reagents, and to gain fundamental insights in lipocalin scaffolds. Prof. Dr. Skerra was a member of Pieris AG's supervisory board when the parties entered into such agreement and during the period covered by the financial statements in this report. Pieris AG provided certain funding for TUM research efforts performed under the agreement.

As a result of research efforts to date under the agreement, Pieris AG holds a worldwide exclusive license under its license agreement with TUM to multiple patents and patent applications, including an exclusive license to an issued U.S. patent, which patent will expire in 2027 (subject to a possible term adjustment period). Pieris AG also holds an exclusive license to an issued U.S. patent No. 8,420,051, which patent is expected to expire in 2029. Pieris AG bears the costs of filing, prosecution and maintenance of patents assigned or licensed to Pieris AG under the agreement.

As consideration for the assigned patents and licenses above, Pieris AG is required to pay certain development milestones to TUM. Pieris AG also is obliged to pay low-single-digit royalties, including annual minimum royalties, on sales of such products incorporating patented technologies. If Pieris AG grants licenses or sublicenses to those patents to third parties, Pieris AG will be obliged to pay a percentage of the resulting revenue to TUM. Pieris AG's payment obligations are reduced by Pieris AG's proportionate contribution to a joint invention. Payment obligations terminate on expiration or annulment of the last patent covered by the agreement. Pieris AG can terminate the licenses to any or all licensed patents upon specified advance notice to TUM. TUM may terminate the license provisions of the agreement only for cause. Termination of the agreement does not terminate the rights in patents assigned to Pieris.

Pieris AG has incurred the following expenses related to TUM (excluding value added taxes):

	Years ended December 31,	
	2013	2012
Transfer of licenses and protective rights	$ 66,390	$ 19,290
Research	22,573	131,172
Total expenses incurred with TUM	$ 88,963	$ 150,462

Pieris AG has recorded $373,059 and $358,121 as of December 31, 2013 and 2012, respectively, related to the amounts due under the research and license agreement (see Note 10 *Commitments and Contingencies*).

The part of the agreement requiring Pieris AG to make payments for research conducted by TUM expired in February 2013 with no further obligations by Pieris AG.

EUROCALIN/FP7 Government Grant

TUM is a member of the EUROCALIN consortium and thus, is entitled to receive payments under the grant agreement for research activities. Research activities are carried out by Prof. Dr. Skerra. Prof. Dr. Skerra was a member of Pieris AG's supervisory board when the parties entered into such agreement and during the period covered by the financial statements in this report. The government grant agreement with FP7 is further discussed in Note 3 *Revenue*.

Consulting Contract between Prof. Dr. Arne Skerra and Pieris AG

In 2001, Pieris AG entered into a Consulting Agreement with Prof. Dr. Skerra, pursuant to which Prof. Dr. Skerra provides advice regarding the use of new proteins, in particular Anticalin proteins and antibodies, for the purpose of research and development. The Consulting Agreement has an unlimited term but can be terminated by Pieris AG upon three months' notice with effect from the end of a month and by Prof. Dr. Skerra upon one year's notice with effect from the end of a year. Under the Consulting Agreement, Pieris AG incurred and paid to Prof. Dr. Skerra consulting fees of $26,556 and $25,720 for the years ended December 31, 2013 and 2012, respectively.

Convertible Stockholder Loan

Four significant stockholders of Pieris AG—Orbimed Private Investments III, Gilde Europe Food & Agribusiness Fund B.V., The Global Life Science Ventures Fund and Coöperative AAC LS U.A. (Forbion B.V.)—participated as Investors in the 2012 Convertible Bridge Loan as related parties. The convertible bridge loan agreement is further discussed in Note 6 *Debt*.

Receivables from Issuance of Shares

In connection with the issuance of nominal stock, payments of the share premium into additional paid in capital were deferred. Amounts were deferred for Claus Schalper and Prof. Dr. Skerra among others. Mr. Schalper is the CFO of Pieris AG, and Prof. Dr. Skerra is the deputy chairman of Pieris AG's supervisory board. Thus, both are related parties to Pieris AG. The issuance of nominal stock is further discussed in Note 7 *Share Capital.*

10. Commitments and Contingencies

Licensing Commitments

Pieris AG has license agreements with two parties under which Pieris AG is obliged to pay annual license fees. One agreement is between IBA GmbH and Pieris AG which requires annual license payments of $41,298 and relates to licenses for Strep-tag technology that represent tool technologies and which are used for research purposes only. The agreement expires 2024.

Another license agreement exists between TUM and Pieris AG (see Note 9 *Related-Party Transactions*). Under this agreement, Pieris AG is obliged to pay an annual license fee of $68,830 to TUM.

The table below shows the annual license fee commitments under the two agreements as of December 31, 2013:

	License payments
2014	$ 110,128
2015	110,128
2016	110,128
2017	110,128
2018	110,128
Thereafter	867,258
Total minimum license payments	$1,417,898

Leases

Pieris AG leases office and laboratory space in Freising, Germany. The lease has defined termination date and can be cancelled with a notification period of eight months at the end of each quarter. Rent expenses are calculated on a straight-line basis over the term of the lease.

Pieris AG's contractual commitments of the non-cancellable portion under this operating lease as of December 31, 2013 are as follows:

	Total
2014	$200,433

Rent expense under Pieris AG's operating lease was $289,991 and $280,862 for the years ended December 31, 2013 and 2012, respectively.

Arbitration

Under the Research and Licensing Agreement between Pieris AG and TUM as of July 26, 2007, Pieris AG is required to make payments to TUM based on Pieris AG's revenues generated from entering into sub-licensing agreements with any third party with respect to University Inventions and/or Joint Inventions (each as defined in the Research and Licensing Agreement). These revenues include upfront license payments as well as milestone payments received by Pieris AG from third parties. Pieris AG has signed six of sub-licensing agreements between 2004 and 2012 (the period under dispute), under which it has recorded revenues. Pieris AG acknowledges an obligation to TUM; however, the parties disagree regarding the amount due. On March 20, 2014, the Company initiated arbitration proceedings in order to resolve the dispute. Although it is not possible to predict the outcome of such arbitration, Pieris AG has assessed the degree of probability and the reasonably possible losses that it could incur as a result of these matters. Pieris AG believes that its accrual for possible liability under the agreement as of December 31, 2013 (in an amount of $373,059) appropriately reflects its estimated future payment obligations. The amount currently in dispute is $3,025,237.

After Pieris AG instituted the arbitration proceeding, TUM submitted its position to the Deutsche Institution für Schiedsgerichtsbarkeit that it does not have capacity to be sued under the action for a declaratory arbitration decision brought by Pieris AG in relation to the TUM License Agreement, and that instead, it is the Free State of Bavaria that is the proper respondent to said action. In turn, Pieris AG responded that (a) TUM's argument is not sustainable because based on applicable principles under the German civil law rules on agency and representation and relativity of (contractual) obligations (which is akin to the common law doctrine of privity of contract), in entering into the TUM License Agreement in the name of itself as a legal entity engaging in private legal transactions, TUM was conducting affairs relating to it as a body in its own right and was not engaging in a governmental matter nor acting as an agent of the government, and (b) TUM thus has capacity to be sued in relation to any disputes arising from and regarding contractual provisions of the TUM License Agreement and is thus also the proper respondent in the action.

As of the date of this report, each party to the arbitration proceeding has appointed one arbitrator and the party-named arbitrators collectively selected the third arbitrator as the chairman of the arbitration panel. The panel has indicated that it will first decide the issue of whether TUM is the proper respondent in this action and has set a date for a first hearing in Munich, Germany on January 20, 2015.

On December 1, 2014, TUM filed its statement of defense, maintaining its earlier calculation of the Out-License Fee. Pieris AG has until January 12, 2015 to file a reply brief in response to TUM's defense.

11. Subsequent Events

Acquisition

On December 17, 2014, Pieris AG and Pieris Pharmaceuticals, Inc. (formerly known as Marika Inc., a non-operating public shell company in the United States, renamed Pieris Pharmaceuticals, Inc.) entered into an Acquisition Agreement. Pursuant to the Acquisition Agreement, the stockholders of Pieris AG contributed all of their equity interests in Pieris AG to Pieris Pharmaceuticals, Inc. for shares of Pieris Pharmaceuticals, Inc.'s common stock, which resulted in Pieris AG becoming a wholly owned subsidiary of Pieris Pharmaceuticals, Inc. (the "Acquisition"). The Acquisition closed on December 17, 2014.

On December 5, 2014, Pieris Pharmaceuticals, Inc. completed a 2.272727-for-1 forward split of its common stock in the form of a share dividend, with the result that 6,100,000 shares of common stock outstanding immediately prior to the stock split became 13,863,635 shares of common stock outstanding immediately thereafter. Effective as of December 16, 2014, Marika Inc. amended and restated its Certificate of Incorporation to, among other things, change its name from Marika Inc. to "Pieris Pharmaceuticals, Inc." and increase its authorized capital stock from 75,000,000 shares of common stock, par value $0.001 per share, to 300,000,000 shares of common stock, par value $0.001 per share, and 10,000,000 shares of "blank check" preferred stock, par value $0.001 per share. On December 17, 2014, Pieris Pharmaceuticals, Inc. transferred its pre-Acquisition assets and liabilities to its former majority stockholder, Aleksandrs Sviks, in exchange for the surrender by him and cancellation of 11,363,635 shares of Pieris Pharmaceuticals, Inc. common stock. At the closing of the Acquisition, Pieris Pharmaceuticals, Inc. issued an aggregate of 20,000,000 shares of its common stock to the former stockholders of Pieris AG in exchange for all of the outstanding shares (common and preferred) of Pieris AG's capital stock. Pieris AG has become a wholly owned subsidiary of Pieris Pharmaceuticals, Inc., and the former stockholders of Pieris AG collectively own approximately 89% of the outstanding shares of Pieris Pharmaceuticals, Inc. common stock.

Immediately following the closing of the Acquisition, Pieris Pharmaceuticals, Inc.'s outstanding shares of common stock (on a fully diluted basis) are owned as follows:

- Former holders of Pieris AG's capital stock hold an aggregate of 20,000,000 shares of Pieris Pharmaceuticals, Inc.'s common stock, or approximately 78% on a fully diluted basis;
- Holders of Marika Inc.'s common stock prior to the closing of the Acquisition hold an aggregate of 2,500,000 shares of Pieris Pharmaceuticals, Inc.'s common stock, or approximately 10% on a fully diluted basis; and
- 3,200,000 shares of common stock are reserved for issuance under the 2014 Employee, Director and Consultant Equity Incentive Plan of Pieris Pharmaceuticals, Inc., or the Pieris Plan, representing approximately 12% on a fully diluted basis. As of the date hereof, options to purchase 1,430,000 shares of our common stock have been issued under the Pieris Plan to our executive officers and directors, and options to purchase 1,089,500 shares of our common stock have been issued under the Pieris Plan to other employees and consultants. As a result of such grants, 680,500 shares of our common stock are available for future issuance under the Pieris Plan.

In accordance with Financial Accounting Standards Board ("FASB"), Accounting Standards Codification ("ASC"), Section 805 entitled, "Business Combinations," Marika Inc. does not meet the definition of a business as it is a non-operating shell company. As a result, the Acquisition is accounted for as an asset purchase by Pieris AG instead of a business combination. Pieris AG is considered the accounting acquirer in the Acquisition. Consequently, the assets and liabilities and the historical operations that will be reflected in the Pieris Pharmaceuticals, Inc. financial statements subsequent to the Acquisition will be those of Pieris AG.

Unsecured Bank Loan

On December 11, 2014, Pieris Operating and TBG entered into an accelerated repayment agreement in respect of the claims of TBG against Pieris AG. Pursuant to terms of the accelerated repayment agreement, conditioned upon closing of the Acquisition, Pieris AG will be obligated to pay €1,050,000 ($1.45 million), the outstanding amount under the repayment agreement, in two tranches as follows: €600,000 ($825,960) plus accrued interest on January 31, 2015 and €450,000 ($619,470) on March 31, 2015. Upon full payment of the accelerated repayment amount of €1,050,000 ($1.4 million), all claims of Pieris AG and TBG against each other from or in connection with the silent partnership agreement dated May 13, 2003 and the repayment agreement entered into on April 3, 2014, will be considered settled and repaid in full.

Amendment to Convertible Bridge Loan Agreement dated November 12, 2012

As of March 2014, Pieris AG and its stockholders amended an existing convertible loan agreement dated November 12, 2012 (the "2012 Bridge Loan"). The parties agreed to postpone the ultimate maturity date with respect to the remaining balance of the 2012 Bridge Loan from December 31, 2013 to December 31, 2015. The stockholder party to the 2012 Bridge Loan participated in the 2014 Series C Financing in the fourth quarter of 2014 and waived their claims for repayment of the 2012 Bridge Loan as consideration (see Note 11, Subsequent Events "2014 Series C Financing").

Convertible Bridge Loan Agreement 2014

On April 14, 2014, Pieris AG entered into a second bridge loan agreement (the "2014 Bridge Loan") with certain of its stockholders pursuant to which Pieris AG received a commitment for financing in the aggregate amount of €2,000,000 ($2,753,200), which loan amount, if drawn down by Pieris AG, would be convertible into preferred shares of Pieris AG after the maturity date or upon occurrence of certain events. The 2014 Bridge Loan included two tranches of available financing: (i) Tranche A of €1,500,000 ($2,064,900) and (ii) Tranche B of €500,000 ($688,300). In June 2014, Pieris AG called 67% of Tranche A, or €1,000,000 ($1,376,600). Loan amounts outstanding under the 2014 Bridge Loan accrued interest at a rate of 12% per year and have a maturity date of December 31, 2015, after which the loan amounts would accrue interest at a rate of 18% per year. The stockholders participating in the 2014 Bridge Loan invested the €1,000,000 ($1,376,600) remaining commitment in cash directly in the 2014 Series C Financing as described below.

2014 Series C Financing

During the fourth quarter of 2014 Pieris AG completed a financing round and issued Series C preferred shares (the "2014 Series C Financing'') . The 2014 Series C Financing included issuing shares for aggregate cash proceeds of $6,271,783. Additionally, principal and interest amounts outstanding related to the 2012 Bridge Loan and 2014 Bridge Loan ($4,415,170) were converted for Series C preferred shares.

The Series C stockholders were entitled to receive a preference payment in the event of any liquidation, dissolution, winding-up or exit event (*i.e.,* any merger or consolidation into or any other corporation or sale of more than 50% of Pieris AG's assets or 50% of Pieris AG's shares) of Pieris AG, or in the event of a dividend or other distribution by the Company to its stockholders before any payment is made to the holders of Pieris AG's other preferred or common shares. The Series C preferred stockholders were entitled to receive 2.5 times the original issuance price plus cumulative annual interest of 8% before other preferred or common stockholders received consideration in such events.

The participating 2014 Series C preferred shares had the same voting rights as all other share classes. There was a conversion right stated within the Consolidated Shareholders' Agreement 2014 to convert all Series C preferred shares into common shares, contingent upon the adoption of a resolution at a meeting of stockholders.

All outstanding Series C preferred shares were exchanged for common stock of Pieris Pharmaceuticals, Inc. in the Acquisition.

2. Basis of Presentation and Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC") regarding interim financial reporting. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete consolidated financial statements. In the opinion of management, all adjustments, including normal recurring adjustments, considered necessary for a fair presentation of Pieris AG's unaudited condensed consolidated financial statements have been included. The results of operations for the nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014 or any future period. These unaudited condensed consolidated financial statements and notes thereto should be read in conjunction with the ''Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations'' and the audited financial statements and notes thereto for the year ended December 31, 2013.

Use of estimates

The preparation of the financial statements in accordance with U.S. GAAP requires management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, the reported amounts of revenues and expenses in the financial statements and disclosures in the accompanying notes. Actual results and outcomes could differ materially from management's estimates, judgments and assumptions.

Segment Reporting

Pieris AG operates as one operating segment in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 280, Segment Reporting. Pieris AG's chief operating decision maker (CODM) makes decisions based on the Company as a whole. Accordingly, Pieris AG operates and makes decisions as one reporting unit.

Significant Accounting Policies

The interim condensed consolidated financial statements were prepared based on the same accounting policies as those applied and described in the financial statements as of December 31, 2013 except for the adoption of new standards and interpretations as of January 1, 2014.

Milestone Payments and Royalties

At the inception of each agreement that includes milestone payments, Pieris AG evaluates whether each milestone is substantive and at risk to both parties on the basis of the contingent nature of the milestone. This evaluation includes an assessment of whether (a) the consideration is commensurate with either (1) the entity's performance to achieve the milestone, or (2) the enhancement of the value of the delivered item(s) as a result of a specific outcome resulting from the entity's performance to achieve the milestone, (b) the consideration relates solely to past performance and (c) the consideration is reasonable relative to all of the deliverables and payment terms within the arrangement. Pieris AG evaluates factors such as the scientific, regulatory, commercial and other risks that must be overcome to achieve the respective milestone, the level of effort and investment required to achieve the respective milestone and whether the milestone consideration is reasonable relative to all deliverables and payment terms in the arrangement in making this assessment.

Pieris AG aggregates milestones into three categories (i) research milestones, (ii) development milestones and (iii) commercial milestones. Research milestones are typically achieved upon reaching certain success criteria as defined in each agreement related to developing an Anticalin protein against the specified target. Development milestones are typically reached when a compound reaches a defined phase of clinical research or passes such phase, or upon gaining regulatory approvals. Commercial milestones are typically achieved when an approved pharmaceutical product reaches the status for commercial sale or certain defined levels of net sales by the licensee, such as when a product first achieves global sales or annual sales of a specified amount.

For revenues from research and development milestone payments, if the milestones are deemed substantive and the milestone payments are nonrefundable, such amounts are recognized entirely upon successful accomplishment of the milestones. Milestones that are not considered substantive are accounted for as license payments and recognized on a straight-line basis over the period of performance. To date, Pieris AG has determined all milestones are substantive. Revenues from commercial milestone payments are accounted for as royalties and are recorded as revenue upon achievement of the milestone, assuming all other revenue recognition criteria are met. Royalty payments are recognized in revenues based on the timing of royalty payments earned in accordance with the agreements; which typically is the period when the relevant sales occur, assuming all other revenue recognition criteria are met.

Adoption of New Accounting Standards

In February 2013, the FASB issued ASU No. 2013-02, *"Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income"* (ASU 2013-02). Under ASU 2013-02, an entity is required to provide information about the amounts reclassified out of Accumulated Other Comprehensive Income (AOCI) by component. In addition, an entity is required to present, either on the face of the financial statements or in the notes, significant amounts reclassified out of AOCI by the respective line items of net income, but only if the amount reclassified is required to be reclassified in its entirety in the same reporting period. For amounts that are not required to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures that provide additional details about those amounts. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in the financial statements. ASU 2013-02 became effective for non emerging growth companies for reporting periods beginning after December 15, 2012. For Pieris AG as an emerging growth company ASU 2013-02 became effective on January 1, 2014. There were no significant reclassifications out of AOCI to net income for the nine months ended September 30, 2014.

3. Revenues

General

Pieris AG has not generated revenues from product sales. Pieris AG has generated revenues pursuant to (i) license and collaboration agreements, which include upfront payments for licenses or options to obtain licenses, payments for research and development services and milestone payments, and (ii) government grants.

Collaborations and Other Agreements

Allergan, Inc.

In August 2009, pursuant to an agreement with Allergan, Inc. ("Allergan"), Pieris AG granted Allergan a worldwide exclusive license to develop and commercialize certain drug candidates for the treatment and prevention of ocular diseases. Allergan is responsible for the research, development, manufacturing and commercialization of any products resulting from the license. Pieris AG received a non-refundable upfront payment of $10 million upon execution of the contract in 2009 and is entitled to receive up to an aggregate of $13 million in milestone payments upon the achievement of certain commercial milestones or patents granted to Pieris by the United States Patent and Trademark Office that cover a product licensed to Allergan.

At the inception of the agreement, Pieris AG recognized revenues from the upfront license payment because, based on the stage of development of the licensed product delivered and the development capabilities of Allergan, Pieris AG determined that the license had standalone value. Through September 30, 2014, none of the milestones had been achieved and, as such, Pieris AG has not recognized milestone-related revenues.

Daiichi Sankyo Co., Ltd.

In May 2011, Pieris AG entered into an agreement with Daiichi Sankyo Co., Ltd. ("Daiichi Sankyo"), under which Pieris AG will use its proprietary Anticalin® scaffold technology to identify drug candidates against certain targets selected by Daiichi Sankyo, with further development and commercialization performed by Daiichi Sankyo. For any targets selected by Daiichi Sankyo, Pieris AG granted an exclusive, worldwide license for the research, development and commercialization of drug candidates identified by Pieris AG. Pieris AG has handed over further development responsibility for the two collaboration projects to Daiichi Sankyo, which handovers occurred in March 2013 and June 2014.

Upon execution of the agreement, Daiichi Sankyo paid Pieris AG a non-refundable upfront payment in the amount of $10.1 million in consideration for the licenses, and for each licensed product, Pieris AG is entitled to receive potential milestone payments of $102.1 million, plus royalties on the commercial sales of any commercial products. The total milestones are categorized as follows: research milestones - $3.0 million; development milestones - $42.3 million; commercial milestones - $56.8 million; additional diagnostic milestones of $0.9 million. At the inception of the agreement, these milestones were determined to be substantive as there was substantial uncertainty the milestones would be achieved, they would require substantial performance from the entity, and the consideration was reasonable relative to other deliverables. The agreement includes provisions for Pieris AG to provide research services funded by Daiichi Sankyo at agreed upon full-time employee rates during the initial identification and research period.

In accordance with the guidance in ASC 605-25, Pieris AG identified the licenses and research funding as deliverables at the inception of the arrangement. Pieris AG has determined that the licenses and research services provided by Pieris AG represent one unit of accounting because, based on the stage

of development of the licensed product, the research services provided by Pieris AG to identify drug candidates using Pieris AG's proprietary Anticalin® technology against Daiichi Sankyo's selected targets were necessary before the licenses would have any standalone value. Therefore, the total arrangement consideration was recognized over the estimated period of substantial involvement, which was determined to be the period during Pieris AG was required to provide research services to discover drug candidates against targets identified. Pieris AG estimated this period would be approximately two years. Pieris AG reassesses the estimated term at the end of each reporting period.

Pieris AG recognized milestone payments of $0.4 million and $0.7 million as revenue for the nine months ended September 30, 2014 and 2013, respectively. The milestone payments in 2013 resulted from the achievement of a success milestone, the initiation of Phase B. The milestone payment in 2014 is based on successful in vitro and in vivo studies. The milestones could not be achieved solely upon the passage of time. For revenue recognition purposes, management determined these milestones to be substantive in accordance with applicable accounting guidance related to milestone revenue. Substantive uncertainty existed at the inception of the arrangement as to whether the milestones would be achieved because of the numerous variables, such as the high rate of failure inherent in research and development activities and the uncertainty involved with obtaining regulatory approval. For the nine months ended September 30, 2014, Pieris AG recognized $1.1 million in revenues related to the Daiichi Sankyo Collaboration, of which $0.4 million related to the achievement of milestones. For the nine months ended September 30, 2013, Pieris AG recognized $4.3 million in revenues, of which $0.7 million related to the achievement of milestones.

Sanofi-Aventis and Sanofi-Pasteur

In September 2010, Pieris AG entered into an agreement with Sanofi-Aventis and Sanofi Pasteur ("Sanofi"), under which Pieris AG agreed to apply its proprietary Anticalin® technology to identify drug candidates against certain targets selected by Sanofi, with further development and commercialization performed by Sanofi. The agreement included the initial identification of two targets by Sanofi, with options to select up to four additional targets. For any targets selected by Sanofi, Pieris AG granted an exclusive, worldwide license for the research, development and commercialization of drug candidates identified by Pieris AG. In addition to the two initial targets selected by Sanofi, Sanofi exercised one of the four options and received a license. The remaining three options expired unexercised.

Upon execution of the agreement, Sanofi paid Pieris AG an upfront payment of $4.9 million in consideration for licenses on the first two targets and options to select an additional four licenses on other targets (with each option requiring an additional upfront payment upon exercise). Additionally, for each licensed product, Pieris AG is entitled to receive milestone payments up to $58.3 million, plus royalties on the sales of any commercial products. The total milestones are categorized as follows: research milestones - $2.1 million; development milestones - $33.5 million; commercial milestones - $22.7 million. At the inception of the agreement, these milestones were determined to be substantive because (i) there was substantial uncertainty the milestones would be achieved, (ii) they would require substantial performance from the entity, and (iii) the consideration was reasonable relative to other deliverables. The agreement included provisions for Pieris AG to provide research services funded by Sanofi at agreed upon full-time employee equivalent rates during the initial identification and research period.

In accordance with the guidance in ASC 605-25, Pieris AG identified the licenses, options to obtain additional licenses and research funding as deliverables at the inception of the arrangement. The options were considered to be substantive at the inception of the agreement. Factors considered in determining the options were substantive were whether (i) Sanofi could obtain the overall objective of the agreement without exercising any options, (ii) Sanofi was able to obtain value from the initial licenses obtained without exercising any options, (iii) the cost to exercise the options was significant relative to the total upfront payment of $4.9 million for two licenses and four options, and (iv) exercising the option created additional financial commitments for Sanofi or imposed economic penalties on Sanofi.

Pieris AG has determined that, for each program selected by Sanofi, the license and research services provided by Pieris AG represent one unit of accounting because, based on the stage of development of the licensed product, the research services provided by Pieris AG to identify drug candidates using Pieris AG's proprietary Anticalin technology against Sanofi's selected targets were necessary before the licenses would have any standalone value.

The estimated selling prices for the licenses in the agreement are Pieris AG's best estimate of selling price and were determined based on market conditions and entity-specific factors such as considerations of preclinical and clinical testing results and Pieris AG's pricing practices and pricing objectives. The estimated selling price of research services are Pieris AG's best estimate of selling price and are determined based on market conditions and entity-specific factors such as internal cost considerations and Pieris AG's pricing practices and pricing objectives.

At inception, the total arrangement consideration of $8.1 million (which comprises the $4.9 million upfront payment and the expected fees for the research services to be provided under the remainder of the arrangement) was allocated to the deliverables based on the relative selling price method as follows: $3.5 million to the licenses, $1.4 million to the four options to acquire additional licenses and $3.2 million to the estimated research services to be provided. As the license and research services were determined to be one unit of accounting, the consideration allocated to each license is recognized over the period of substantial involvement, which was determined to be the period during Pieris AG was required to provide research services to discover drug candidates against targets identified, approximately two years. Pieris AG reassesses the estimated term at the end of each reporting period. At the end of 2012, Pieris AG determined that the required research term for one of the initial terms would extend to a period of 40 months, and management updated the estimated required service period to amortize the remaining deferred upfront payment over the new term. Two of the four options expired un-exercised in 2011, and as a result Pieris AG recognized $0.7 million of revenue upon expiration. The option term for the remaining two options was extended to February 2013, and Sanofi exercised one option to obtain an additional license. For the exercised option, the allocated consideration of $0.35 million for the option and the $1.4 million payment of the exercise price of the option were deferred and amortized over the expected required service period of approximately two years. The program covered by the exercised option was terminated in December 2013, and accordingly, Pieris AG recognized the remaining deferred revenue upon termination. The remaining option expired in February 2013 and the allocated consideration of $0.35 million was recognized into revenue at the time of expiration.

Pieris AG recognized a milestone payment of $0.3 million as revenue for the nine months ended September 2014. The milestone payment is based on successful in vivo studies. The milestone could not be achieved solely upon the passage of time. For revenue recognition purposes, management determined this milestone to be substantive in accordance with applicable accounting guidance related to milestone revenue. Substantive uncertainty existed at the inception of the arrangement as to whether the milestone would be achieved because of the numerous variables, such as the high rate of failure inherent in research and development activities and the uncertainty involved with obtaining regulatory approval. Therefore, the payment was recognized in its entirety as revenue in the nine months ended September 30, 2014 when the research milestone was reached.

For the nine months ended September 30, 2014, the Company recognized $0.7 million in revenues, of which $0.3 million related to the achievement of milestones related to the Sanofi collaboration. For the nine months ended September 30, 2013, the Company recognized $2.5 million in revenues, none of which related to the achievement of milestones.

4. Fair Value Measurements

ASC Topic 820 *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date. Pieris AG applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement.

Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 utilizes quoted market prices in markets that are not active, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

Level 3 inputs are unobservable inputs for the asset or liability in which there is little, if any, market activity for the asset or liability at the measurement date.

Pieris AG's cash equivalents consist of highly liquid money market funds and are measured at fair value on a recurring basis. These funds are classified as Level 1 in the fair value hierarchy because they are valued using quoted prices for the periods ended September 30, 2014 and December 31, 2013. The carrying amounts of $198,493 and $3,307,520 as of September 30, 2014 and December 31, 2013, respectively, equal the fair value of the cash equivalents.

The Company's other financial instruments include debt instruments (convertible stockholder loan and bank loan) and are classified as Level 2 within the fair value hierarchy. The fair value of these instruments was determined using the discounted cash flow method based on contractual cash flows and the current rate at which debt with similar terms could be issued. The fair values for these debt instruments approximated carrying values as of September 30, 2014 and December 31, 2013.

5. Related-Party Transactions

Research and License Agreement with Technische Universität München ("TUM")

On July 4, 2003, Pieris AG entered into a research and licensing agreement with TUM, which was subsequently renewed and, on July 26, 2007, superseded and replaced. The agreement established a joint research effort led by Prof. Arne Skerra, Chair of Biological Chemistry of TUM, to optimize Anticalin technologies for use in therapeutic, prophylactic and diagnostic applications and as research reagents, and to gain fundamental insights in lipocalin scaffolds. Prof. Dr. Skerra was a member of Pieris AG's supervisory board when the parties entered into such agreement and during the period covered by the consolidated financial statements in this report. Pieris AG provided certain funding for TUM research efforts performed under the agreement.

As a result of research efforts to date under the agreement, Pieris AG holds a worldwide exclusive license under its license agreement with TUM to multiple patents and patent applications, including an exclusive license to an issued U.S. patent, which patent will expire in 2027 (subject to a possible term adjustment period). Pieris AG also holds an exclusive license to an issued U.S. patent No. 8,420,051, which patent is expected to expire in 2029. Pieris AG bears the costs of filing, prosecution and maintenance of patents assigned or licensed to Pieris AG under the agreement.

As consideration for the assigned patents and licenses above, Pieris AG is required to pay certain development milestones to TUM. Pieris AG also is obliged to pay low-single-digit royalties, including annual minimum royalties, on sales of such products incorporating patented technologies. If Pieris AG grants licenses or sublicenses to those patents to third parties, Pieris AG will be obliged to pay a percentage of the resulting revenue to TUM. Pieris AG's payment obligations are reduced by Pieris AG's proportionate contribution to a joint invention. Payment obligations terminate on expiration or annulment of the last patent covered by the agreement. Pieris AG can terminate the licenses to any or all licensed patents upon specified advance notice to TUM. TUM may terminate the license provisions of the agreement only for cause. Termination of the agreement does not terminate the rights in patents assigned to Pieris.

Pieris AG has incurred the following expenses related to TUM (excluding value added taxes):

	Nine months ended September 30,	
	2014	2013
Transfer of licenses and protective rights	$ 50,839	$ 49,405
Research	—	22,454
Total expenses incurred with TUM	$ 50,839	$ 71,859

Pieris AG has recorded $342,219 and $366,799 as of September 30, 2014 and 2013, respectively, related to the amounts due under the research and license agreement (see Note 7 *Commitments and Contingencies*).

The agreement requiring Pieris AG to make payments for research conducted by TUM expired in February 2013 with no further obligations by Pieris AG.

Consulting Contract between Prof. Dr. Arne Skerra and Pieris AG

In 2001, Pieris AG entered into a Consulting Agreement with Prof. Dr. Arne Skerra, pursuant to which Prof. Dr. Arne Skerra provides advice regarding the use of new proteins, in particular Anticalin proteins and antibodies, for the purpose of research and development. The Consulting Agreement has an unlimited term but can be terminated by Pieris AG upon three months' notice with effect from the end of a month and by Prof. Dr. Arne Skerra upon one year's notice with effect from the end of a year. Under the Consulting Agreement, Pieris AG incurred and paid to Prof. Dr. Skerra consulting fees of $26,995 and $26,438 for the periods ended September 30, 2014 and 2013, respectively.

Convertible Stockholder Loans

On November 12, 2012, Pieris AG and several of its stockholders (the "Investors") entered into an unsecured Convertible Stockholder Loan Agreement (the "2012 Bridge Loan"). The 2012 Bridge Loan includes a conversion feature to convert the loan amounts at the option of the Investor into Series B preferred shares of Pieris AG, contingent upon certain conversion conditions. The 2012 Bridge Loan specifies a maturity date of December 31, 2013 and an interest rate of 12% per year before the maturity date. The agreement further provides that in case the loan amounts have not been repaid at the maturity date, the outstanding amounts will be subject to an interest rate of 18% per year for periods after the maturity date. The 2012 Bridge Loan does not contain financial or non-financial covenants.

As of March 2014, Pieris AG and its stockholders amended the 2012 Bridge Loan. The parties agreed to postpone the ultimate maturity date with respect to the remaining balance of the 2012 Bridge Loan from December 31, 2013 to December 31, 2015. The stockholders party to the 2012 Bridge Loan participated in the 2014 Series C Financing in the fourth quarter of 2014 and waived their claims for repayment of the 2012 Bridge Loan as consideration (see Note 8, *Subsequent Events*).

Prior to the Series C Financing Pieris AG entered into a second bridge loan agreement in April 2014 (the "2014 Bridge Loan") with certain of its stockholders pursuant to which Pieris AG received a commitment for financing in the aggregate amount of €2,000,000 ($2,525,600), which loan amount, if drawn down by Pieris AG, would be convertible into preferred shares of Pieris AG after the maturity date or upon occurrence of certain events. The 2014 Bridge Loan included two tranches of available financing: (i) Tranche A of €1,500,000 ($1,894,200) and (ii) Tranche B of €500,000 ($631,400). In June 2014, Pieris AG called 67% of Tranche A, or €1,000,000 ($1,262,800). Loan amounts outstanding under the 2014 Bridge Loan accrued interest at a rate of 12% per year and had a maturity date of December 31, 2015, after which the loan amounts would accrue interest at a rate of 18% per year. The stockholders party to the 2014 Bridge Loan participated in the 2014 Series C Financing and waived their claims for repayment of amounts outstanding under the 2014 Bridge Loan as consideration. The stockholders participating in the 2014 Bridge Loan also invested the €1,000,000 ($1,262,800) remaining commitment in cash directly in the 2014 Series C Financing.

Four significant stockholders of Pieris AG — Orbimed Private Investments III, Gilde Europe Food & Agribusiness Fund B.V., The Global Life Science Ventures Fund and Coöperative AAC LS U.A. (Forbion B.V.) — participated as Investors in the 2012 Convertible Bridge Loan, the 2014 Convertible Bridge Loan and the 2014 Series C Financing as related parties.

Pieris AG recorded related-party interest expense concerning the Convertible Bridge Loans in the amounts set forth in the table below:

	Nine months ended September 30,	
	2014	2013
Orbimed Private Investments III, LP	$ 63,955	$ 58,351
The Global Life Science Ventures Fund	57,709	51,778
Gilde Europe Food & Agribusiness Fund B.V.	54,158	49,921
Coöperative AAC LS U.A. (Forbion B.V.)	28,288	25,994
Sum of related party interest expense concerning the Convertible Bridge Loans	$ 204,110	$ 186,044

Receivables from Issuance of Shares

The founders of Pieris AG participated in the Seed round capital increase of common shares at par value. For certain stockholders, the payment of the share premium into Additional paid-in capital (fully or partially) was deferred until the occurrence of an exit event and is recorded as Receivable from issuance of shares in Pieris AG's Consolidated Balance Sheets. Amounts were deferred for Claus Schalper among others. Mr. Schalper is the CFO of Pieris AG and thus, a related party to Pieris AG. As of September 30, 2014 and December 31, 2013, the receivable from issuance of shares amounted to $1,755 for Mr. Schalper.

In connection with the consummation of the Acquisition, Pieris AG waived all deferred payment claims against the aforementioned stockholders (see Note 1 *Corporate Information-Subsequent Transaction*).

6. Debt

TBG Loan

As of April 3, 2014, Pieris AG and tbg Technologie-Beteiligungs-Gesellschaft mbH ("TBG"), the subsidiary of KfW Bank, Frankfurt ("KfW"), signed a repayment agreement concerning Pieris AG's repayment of its liabilities to TBG outstanding at December 31, 2013 in a total amount of €1.2 million ($1.65 million). The principal amount bears interest at a rate of 10.53%. Under the repayment agreement, Pieris AG has agreed to a payment schedule pursuant to which it will make semi-annual payments until 2016. In December 2014, the repayment schedule was further modified. (See Note 8, *Subsequent Events)*.

7. Commitments and Contingencies

Arbitration

Under the Research and Licensing Agreement between Pieris AG and TUM as of July 26, 2007, Pieris AG is required to make payments to TUM based on Pieris AG's revenues generated from entering into sub-licensing agreements with any third party with respect to University Inventions and/or Joint Inventions (each as defined in the Research and Licensing Agreement). These revenues include upfront license payments as well as milestone payments received by Pieris AG from third parties. Pieris AG has signed six sub-licensing agreements between 2004 and 2012 (the period under dispute), under which it has recorded revenues. Pieris AG acknowledges an obligation to TUM; however, the parties disagree regarding the amount due. In March 2014, the Company initiated arbitration proceedings in order to resolve the dispute. Although it is not possible to predict the outcome of such arbitration, Pieris AG has assessed the degree of probability and the reasonably possible losses that it could incur as a result of these matters. Pieris AG believes that its accrual for possible liability under the agreement as of September 30, 2014 (in an amount of $342,219) appropriately reflects its estimated future payment obligations. The amount currently in dispute is $2,775,148.

After Pieris AG instituted the arbitration proceeding, TUM submitted its position to the Deutsche Institution für Schiedsgerichtsbarkeit that it does not have capacity to be sued under the action for a declaratory arbitration decision brought by Pieris AG in relation to the TUM License Agreement, and that instead, it is the Free State of Bavaria that is the proper respondent to said action. In turn, Pieris AG responded that TUM's argument is not sustainable because based on applicable principles under the German civil law rules on agency and representation and relativity of (contractual) obligations (which is akin to the common law doctrine of privity of contract), in entering into the TUM License Agreement in the name of itself as a legal entity engaging in private legal transactions, TUM was conducting affairs relating to it as a body in its own right and was not engaging in a governmental matter nor acting as an agent of the government, TUM thus has capacity to be sued in relation to any disputes arising from and regarding contractual provisions of the TUM License Agreement and is thus also the proper respondent in the action.

As of the date of this report, each party to the arbitration proceeding has appointed one arbitrator and the party-named arbitrators collectively selected the third arbitrator as the chairman of the arbitration panel. The panel has indicated that it will first decide the issue of whether TUM is the proper respondent in this action and has set a date for a first hearing in Munich, Germany on January 20, 2015.

On December 1, 2014, TUM filed its statement of defense, maintaining its earlier calculation of the Out-License Fee. Pieris AG has until January 12, 2015 to file a reply brief in response to TUM's defense.

Tax Field Audit

On July 11, 2014 a tax field audit for the years 2010 to 2012 in accordance with §193 paragraph 1 AO under German law was announced by the tax office Freising. The tax field audit took place in July 2014. Preliminary results indicate a reduction of Pieris AG's net operating loss carryforwards on German corporate income tax by $646,814 for each of the years ended December 31, 2012 and 2013.

8. Subsequent Events

As a result of such grants, 680,500 shares of our common stock are available for future issuance under the Pieris Plan.

TBG Loan

On December 11, 2014, Pieris Operating and TBG entered into an accelerated repayment agreement in respect of the claims of TBG against Pieris AG. Pursuant to terms of the accelerated repayment agreement, conditioned upon closing of the Acquisition, Pieris AG will be obligated to pay €1,050,000 ($1.45 million), the outstanding amount under the repayment agreement, in two tranches as follows: €600,000 ($825,960) plus accrued interest on January 31, 2015 and €450,000 ($619,470) on March 31, 2015. Upon full payment of the accelerated repayment amount of €1,050,000 ($1.4 million), all claims of Pieris AG and TBG against each other from or in connection with the silent partnership agreement dated May 13, 2003 and the repayment agreement entered into on April 3, 2014, will be considered settled and repaid in full.

2014 Series C Financing

During the fourth quarter of 2014, Pieris AG completed a financing round and issued Series C preferred shares (the "2014 Series C Financing''). The 2014 Series C Financing included issuing shares for aggregate cash proceeds of $6,271,783, of which $1,262,800 was received prior to September 30, 2014 and is included as "Preferred share subscription" on the balance sheet as of September 30, 2014. Additionally, principal and interest amounts outstanding related to the 2012 Bridge Loan and 2014 Bridge Loan ($4,415,170) were converted for additional Series C preferred shares.

The Series C stockholders were entitled to receive a preference payment in the event of any liquidation, dissolution, winding-up or exit event (*i.e.,* any merger or consolidation into or any other corporation or sale of more than 50% of Pieris AG's assets or 50% of Pieris AG's shares) of Pieris AG, or in the event of a dividend or other distribution by the Company to its stockholders before any payment was made to the holders of shares of Pieris AG's other preferred or common shares. The Series C preferred stockholders were entitled to receive 2.5 times the original issuance price of the Series C preferred plus cumulative annual interest of 8% before other preferred or common shareholders received consideration in such events.

All outstanding Series C preferred shares were exchanged for common stock of Pieris Pharmaceuticals, Inc. in the Acquisition.

Pursuant to the Acquisition Agreement, the stockholders of Pieris AG contributed all of their equity interests in Pieris AG to Pieris Pharmaceuticals, Inc. for shares of Pieris Pharmaceuticals, Inc.'s common stock, which resulted in Pieris AG becoming a wholly owned subsidiary of Pieris Pharmaceuticals, Inc. (the "Acquisition"). On December 5, 2014, Pieris Pharmaceuticals, Inc. completed a 2.272727-for-1 forward split of its common stock in the form of a dividend, with the result that 6,100,000 shares of common stock outstanding immediately prior to the stock split became 13,863,635 shares (after rounding for fractional shares) of common stock outstanding immediately thereafter.

Effective as of December 16, 2014, Marika Inc. amended and restated its Certificate of Incorporation to, among other things, change its name from Marika Inc. to "Pieris Pharmaceuticals, Inc." and increase its authorized capital stock from 75,000,000 shares of common stock, par value $0.001 per share, to 300,000,000 shares of common stock, par value $0.001 per share, and 10,000,000 shares of "blank check" preferred stock, par value $0.001 per share.

Upon closing of the Acquisition, under the terms of the Split-Off Agreement dated December 17, 2014 among Pieris Pharamceuticals, Inc., Marika Enterprises Inc. and Aleksandrs Sviks (the "Split-Off Agreement"), and a general release agreement dated December 17, 2014 (the "General Release Agreement"), Pieris Pharmaceuticals, Inc. transferred all of its pre-Acquisition operating assets and liabilities to its wholly owned special-purpose subsidiary, Marika Enterprises Inc., a Nevada corporation, or the Split-Off Subsidiary, formed on December 15, 2014. Thereafter, pursuant to the Split-Off Agreement, Pieris Pharmaceuticals, Inc. transferred all of the outstanding shares of capital stock of the Split-Off Subsidiary to Aleksandrs Sviks, the pre-Acquisition majority stockholder of Pieris Pharmaceuticals, Inc. and the former sole officer and director of Pieris Pharmaceuticals, Inc., in consideration of and in exchange for (i) the surrender and cancellation of an aggregate of 11,363,635 shares of Pieris Pharmaceuticals, Inc.'s common stock held by Mr. Sviks (which were cancelled and will resume the status of authorized but unissued shares of Pieris Pharmaceuticals, Inc.'s common stock) and (ii) certain representations, covenants and indemnities. Under the terms of the General Release Agreement, the Split-Off Subsidiary and Mr. Sviks agreed to a general release of all claims and liabilities of Pieris Pharmaceuticals, Inc. and Pieris AG, as well as certain other customary covenants.

At the closing of the Acquisition, Pieris Pharmaceuticals, Inc. issued an aggregate of 20,000,000 shares of its common stock to the former stockholders of Pieris AG in exchange for all of the outstanding shares (common and preferred) of Pieris AG's capital stock.
